ARMS SALES NOTIFICATION

Mr. CORKER. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

POLICY JUSTIFICATION

Australia—Upgrades for F/A-18E/F Super Hornet Aircraft

The Government of Australia requested the possible sale of thirty-two (32) Multifunctional Information Distribution System Joint Tactical Radio System (MIDS JTRS) with four channel Concurrent Multi-Network (CMN-4), and thirty-nine (39) AN/ALQ-214A(V)4 Countermeasure Systems. This will also include all system integration and testing, component improvement, test and tools equipment upgrades, support equipment replenishment, supply support, publications and technical document updates, personnel training and training equipment upgrades, aircrew trainer device upgrades, U.S. Government and contractor technical assistance

and other related elements of logistical and program support. The total estimated program cost is \$101.4 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major contributor to political stability, security, and economic development in the Western Pacific. Australia is an important Major non-NATO Ally and partner that contributes significantly to peacekeeping and humanitarian operations around the world. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale will improve Australia's capability in current and future coalition efforts. This equipment will help the Royal Australian Air Force better communicate with and protect its F/A-18 aircraft, and the addition of MIDS JTRS will accomplish the goal of making U.S. and Australian aircraft more interoperable when supporting operational forces. Australia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment does not alter the basic military balance in the region.

The prime contractors will be the Harris Corporation, Melbourne, FL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of U.S. contractor representatives to Australia which will be determined at a later date.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 17-34

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. Multifunctional Information Distribution System (MIDS) Joint Tactical Radio System (JTRS) Concurrent Multi-Network (CMN-4) is classified CONFIDENTIAL. MIDS JTRS CMN-4 is a secure data and voice communication network using the Link-16 architecture. The system provides enhanced situational awareness, positive identification of participants with the network, secure fighter-to-fighter connectivity, and secure voice capability. It provides three major functions: Air Control, Wide Area Surveillance, and Fighter-to-Fighter. The MIDS JTRS CMN-4 can be used to transfer data in Air-to-Air, Air-to-Surface and Fighter-to-Fighter scenarios.

2. The AN/ALQ-214A(V)4 is an advanced airborne Integrated Defensive Electronic Countermeasures (IDECM) programmable modular automated system capable of intercepting, identifying, processing received radar signals (pulsed and continuous) and applying an optimum probability of survival from a variety of surface-to-air and air-to-air RF threats. The system operates in a standalone or Electronic Warfare (EW) suite mode. In the EW suite mode, the system operates various dispensable countermeasures and the onboard radar in the F/A-18E/F in a coordinated, non-interference manner, sharing information for enhanced information. The ALQ-214 was designed to operate in a high-density Electromagnetic Hostile Environment with the ability to identify and counter a wide variety of multiple threats including those with Doppler characteristics. Hardware with the AN/ALQ-214A(V)4 is classified CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent system which might

reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Australia.

TRANSMITTAL NO. 17-40

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: The Government of the Netherlands.

(ii) Total Estimated Value:
Major Defense Equipment* \$30.0 million.
Other \$28.2 million.
Total \$58.2 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Foreign Military Sales (FMS) case NE-B-WGC for Aircraft Survivability Equipment (ASE) for the Netherlands' AH-64D Apache helicopters, was below the congressional notification threshold at \$8.2M (all non-MDE) and included a total of thirty-three (33) AN/AVR-2B laser detecting sets and communications, logistics and support equipment. The Netherlands has requested the case be amended to include the Common Missile Warning Systems (CMWS). This amendment, which will add \$30M of MDE and \$20M of non-MDE, will push the current case above the congressional notification threshold, requiring notification of the entire case before the amendment can be offered.

Major Defense Equipment (MDE):
Thirty-two (32) AN/AAR-57A(V)7 Common Missile Warning Systems (CMWS).

Non-MDE: Thirty-three (33) AN/AVR-2B laser detecting sets, mission equipment, hardware and services required to implement customer unique post modifications, communications and navigation equipment, special tools and test equipment, ground support equipment, technical data, publications, MWO/ECP, technical assistance, and training, and other related elements of logistics and program support.

(iv) Military Department: Army (XX-B-WGC Amend 1).

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Government of the Netherlands—AN/AAR-57A(V)7 Common Missile Warning System (CMWS)

The Government of the Netherlands has requested the possible sale of thirty-two (32) AN/AAR-57A(V)7 Common Missile Warning Systems (CMWS). This would be in addition to the thirty-three (33) AN/AVR-2B laser detecting sets with various support elements included in an earlier FMS case valued at \$8.2M. Also included in the amended FMS case would be mission equipment, hardware and services required to implement customer unique post modifications, communication and navigation equipment, special tools and test equipment, ground support equipment, technical data, publications, MWO/ECP, technical assistance, and training, and other related elements of logistics and program support. The estimated total case value is \$58.2 million.

This proposed sale will enhance the foreign policy and national security objectives of the United States by helping to improve the security of the Netherlands which has been, and continues to be an important force for political stability and economic progress in Europe. It is vital to the U.S. national interest to assist the Netherlands to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve the Netherlands' capability to meet current and future threats and will be employed on the Netherlands' AH-64D Apache helicopters. The Netherlands will use the enhanced capability to strengthen its homeland defense, deter regional threats, and provide direct support to coalition and security cooperation operations. The Netherlands will have no difficulty absorbing these systems into its armed forces.

The proposed sale of these systems will not alter the basic military balance in the region.

The principal contractor will be BAE Systems, Nashua, NH. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

(vii) Sensitivity of Technology:

1. The AN/AAR-57A(V)7 CMWS is the detection component of the suite of countermeasures designed to increase survivability of current generation combat aircraft and specialized special operations aircraft against the threat posed by infrared guided missiles.

2. The KIV-77, is a Common Crypto Applique for Identification Friend or Foe (IFF) that provides Mode 4/5 capability. The KIV-77 can be removed from the host and stored as an UNCLASSIFIED Controlled Cryptographic Item (CCI).

3. A determination has been made that the Government of the Netherlands can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to the furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of the Netherlands.

POLICY JUSTIFICATION

Romania—Patriot Air Defense System and Related Support and Equipment

The Government of Romania has requested the possible sale of seven (7) Patriot Configuration-3+ Modernized Fire Units consisting of: seven (7) AN/MPQ-65 radar sets, seven (7) AN/MSQ-132 engagement control stations,

thirteen (13) antenna mast groups, twenty-eight (28) M903 launching stations, fifty-six (56) Patriot MIM-104E Guidance Enhanced Missile-TBM (GEM-T) missiles, one hundred and sixty-eight (168) Patriot Advanced Capability-3 (PAC-3) Missile Segment Enhancement (MSE) missiles, and seven (7) Electrical Power Plants (EPP) III. Also included with this request are communications equipment, tools and test equipment, support equipment, prime movers, generators, publications and technical documentation, training equipment, spare and repair parts, personnel training, TAFIT team, U.S. Government and contractor technical, engineering, and logistics support services, Systems Integration and Checkout (SICO), field office support, and other related elements of logistics and program support. The total estimated program cost is \$3.9 billion.

This proposed sale will enhance the foreign policy and national security objectives of the United States by helping to improve the security of a NATO ally that has been, and continues to be an important force for political stability and economic progress within Europe. The proposed sale of the Patriot system will support Romania's needs for its own self-defense and support NATO defense goals.

Romania will use the Patriot missile system to strengthen its homeland defense and deter regional threats. The proposed sale will increase the defensive capabilities of the Romanian military to guard against aggression and shield the NATO allies who often train and operate within Romania's borders. Romania should have no difficulty absorbing this system into its armed forces.

The proposed sale of these missiles and equipment will not alter the basic military balance in the region.

The prime contractors will be Raytheon Corporation in Andover, Massachusetts, and Lockheed-Martin in Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately 30 U.S. Government and 40 contractor representatives to travel to Romania for an extended period for equipment de-processing/fielding, system checkout, training, and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 17-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The Patriot Air Defense System contains classified CONFIDENTIAL hardware components, SECRET tactical software and CRITICAL/SENSITIVE technology. Patriot ground support equipment and Patriot missile hardware is classified CONFIDENTIAL and the associated launcher hardware is UNCLASSIFIED. Information on system performance capabilities, effectiveness, survivability, missile seeker capabilities, select software/software documentation and test data are classified up to and including SECRET. The items requested represent significant technological advances for Romania Patriot. The Patriot Air Defense System continues to hold a significant technology lead over other surface-to-air missile systems in the world.

2. The Patriot Air Defense System's sensitive/critical technology is primarily in the area of design and production know-how and primarily inherent in the design, development and/or manufacturing data related to certain components. The list of components is classified CONFIDENTIAL. For more in-

formation contact the PEO Missiles and Space Lower Tier Project Office.

3. The loss of this hardware, software, documentation and/or data could permit development of information which may lead to a significant threat to future U.S. military operations. If an adversary were to obtain this sensitive technology, the missile system effectiveness could be compromised through reverse engineering techniques.

4. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification. Moreover, the benefits to be derived from this sale, as outlined in the Policy Justification, outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Romania.

POLICY JUSTIFICATION

United Kingdom—Joint Light Tactical Vehicles (JLTV) and Accessories

The Government of the United Kingdom (UK) has requested a possible sale of up to two thousand seven hundred forty-seven (2,747) Joint Light Tactical Vehicles (JLTV). This possible sale also includes baseline integration kits, basic issue item kits, B-kit armor, engine arctic kits, fording kits, run-flat kits, spare tire kits, silent watch kits, power expansion kits cargo cover kits, maintainer and operator training, U.S. government technical assistance and logistics support services, and other related elements of logistics and program support. Total estimated cost is \$1.035 billion.

This proposed sale supports the foreign policy and national security policies of the United States by helping to improve the security of a NATO ally which has been, and continues to be, an important partner on critical foreign policy and defense issues.

The proposed sale will help improve the UK's Light Tactical Vehicle Fleet and enhance its ability to meet current and future threats. The UK will have no difficulty absorbing this equipment into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The principal contractor of this sale will be Oshkosh Defense, LLC, Oshkosh, Wisconsin. The procured items will require minimum contractor support until the foreign customer can eventually transition to internal organic support. There is no known off-set agreement associated with this proposed sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Annex Item No. vii

(vii) Sensitivity of Technology:

1. This sale will involve the release of sensitive technology to the Government of the United Kingdom. The Joint Light Tactical Vehicle platform is classified as SECRET. The Joint Light Tactical Vehicle fleet will incorporate ballistic armor kits for protection from improvised explosive devices.

2. Sensitive and/or classified (up to SECRET) elements of the proposed Joint Light Tactical Vehicle include hardware and accessories, components and associated software: baseline integration kits, basic issue items, ballistic-kit armor, engine arctic kits, fording kits, run-flat kits, silent watch energy kits, power expansion kits and cargo covering kits.

3. A determination has been made that the United Kingdom can provide substantially the same degree of protection for this technology as the U.S. Government. This proposed sale is necessary in furtherance of U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for re-

lease and export to the Government of the UK.

TRIBUTE TO DR. BENJAMIN TUGGLE

Mr. MCCAIN. Mr. President, I wish to pay tribute to Dr. Benjamin Tuggle who served as the regional director for the U.S. Fish and Wildlife Service's southwest region. A skilled communicator and accomplished biologist, Dr. Tuggle dedicated more than 38 years of service to advancing the mission of the U.S. Fish and Wildlife Service.

I had the opportunity to work directly with Dr. Tuggle on a number of issues important to Arizona, including restoring the Willow Beach National Fish Hatchery, which is a key economic asset for Lower Colorado River communities. We may not have always agreed on agency policies, but Dr. Tuggle maintained an open dialogue and willingness to engage directly with local communities.

The challenges faced by the service and Region 2 are daunting. Our unique southwest landscape and wildlife are under constant threat from oppressive drought and catastrophic wildfire. Dr. Tuggle was rarely presented with easy decisions to make, but he always labored to strike the right balance between competing interests on complex issues. I thank him for his service.

ADDITIONAL STATEMENTS

225TH ANNIVERSARY OF PATERSON, NEW JERSEY

• Mr. BOOKER. Mr. President, today I wish to recognize the city of Paterson's 225th anniversary. Through the dedicated service of municipal employees, elected leaders, local volunteers, community activists, and, most importantly, the incredible residents who have supported and loved the city through many generations, the city of Paterson has grown and prospered, earning its reputation as an outstanding community in my home State.

The town of Paterson was officially established in 1792 through a charter signed by then-Governor of New Jersey, William Paterson. Paterson was one of the Nation's first planned industrial cities, a brainchild of one of our Founding Fathers, Alexander Hamilton, and the Society for Establishing Useful Manufacturers.

Because of Paterson's proximity to what was then called the Great Falls of the Passaic River, the city was at the forefront of the development of water power systems for industrial use. In fact, the energy harnessed from the Great Falls was crucial in the effort to establish industrial freedom from Britain. Today the Paterson Great Falls, a scenic and historic waterfall on the Passaic River, continues to be just as important to the city as it was when Paterson was first founded.

As a regional industrial epicenter, Paterson became the birthplace of many "invention firsts," including the first steam and electric-powered model trains. After milling steel for the Union effort in the American Civil War, Paterson refocused to become the center of our Nation's silk industry, thus earning its nickname the "Silk City." The city also played a vital role during our Nation's Second World War, serving as a hub for the aircraft engine manufacturing industry.

Paterson Great Falls National Historical Park served as the primary inspiration for William Carlos Williams' five-volume epic poem, *Paterson*. In 1950, Williams received the first National Book Award for Poetry for *Paterson*, Book III. Our beloved Silk City has weaved its way into the works of many other renowned American writers including Junot Diaz, John Updike, Jack Kerouac, and Allen Ginsberg.

In addition to literature, Paterson natives have served as esteemed representatives in these hallowed halls. I would be remiss if I recognized the city of Paterson without mentioning the contributions of two of its favorite sons, Congressman BILL PASCRELL, Jr., and the late Senator Frank Lautenberg, who have served New Jersey and our country with honor and distinction.

From Downtown Paterson's commercial historic district, to our national historical park, to Larry Doby Field, the architectural, natural, and cultural landmarks are abundant across this great city. Paterson is among our most diverse communities, attracting residents from dozens of different cultures who have greatly enriched the abundant tapestry of diversity and pluralism in the city of Paterson and across the entire State of New Jersey. I am delighted to have the opportunity to stand before you today to celebrate the profound history and legacy of New Jersey's third-largest city. I invite my colleagues to join me in congratulating the city of Paterson on this important milestone, sending our warmest greetings as it celebrates its incredible history and extending our best wishes as it looks toward the future. •

25TH ANNIVERSARY OF BMW GROUP PLANT SPARTANBURG

• Mr. GRAHAM. Mr. President, today I wish to celebrate the 25th anniversary of the BMW Group Plant Spartanburg in Spartanburg, SC.

Twenty-five years ago, BMW decided to make an investment in South Carolina. Today I ask my colleagues to join me in celebrating the risk and vision it took to begin this venture. The Spartanburg workforce has a world-renowned reputation and is second to none. Without this workforce, we would have nothing to celebrate, so it is with great pride that I extend my sincerest gratitude for all of their efforts.
