## ADDITIONAL STATEMENTS

### TRIBUTE TO PETER WOLD

• Mr. BARRASSO. Mr. President, today I wish to celebrate the Boys and Girls Clubs of Central Wyoming's 2017 honoree, Peter Wold.

Since 1978, the Boys and Girls Clubs of Central Wyoming has been working to make a positive difference in the lives of children. Their mission is to inspire all youth, especially those who need them the most, to reach their full potential and to be productive, responsible, and caring citizens. Their activities provide the children in our community with a sense of competence, usefulness, and belonging. The Boys and Girls Clubs of Central Wyoming is grateful for Peter's contributions to their critically important mission.

On September 20, 2017, the Boys and Girls Clubs of Central Wyoming will be hosting the 19th Annual Awards and Recognition Breakfast. Every year at this event, the Boys and Girls Clubs honors a member of the community who has made outstanding contributions to both their organization and the city of Casper. It is a wonderful celebration. Peter Wold is a perfect honoree because of his commitment to the youth across the State of Wyoming.

Peter is a successful businessman, philanthropist, and family man. He is a native of Casper, WY. Peter attended Colorado State University and earned a bachelor of science degree in biological science. He started his career at a trout farm in Idaho and later became one of the most influential landmen in the State of Wyoming. Peter followed in his father John Wold's footsteps at Wold Oil Properties, a family owned and operated oil and gas company characterized by consistency and western values. Since 1993, he and his brother Jack Wold have owned and managed the company. Peter is currently the President of Wold Energy Partners and CEO of Wold Oil Properties.

Throughout his career, Peter gained valuable experience and knowledge of Wyoming industries, businesses, and communities. Since 1979, he has been managing member of Hole-in-the-Wall Ranch. Peter was a representative on the Bureau of Land Management's National Public Lands Advisory Council.

Previously, Peter served as the chairman of the board of directors of the Wyoming Enhanced Oil Recovery Commission and a member of the board of directors of the Independent Petroleum Association of Rocky Mountain States. He is an active member of the Wyoming Association of Professional Landmen and the American Association of Professional Landmen. Peter Wold also served on the corporate boards of Arch Coal Corporations and Oppenheimer Funds.

The Wold family has a proud tradition of public service and helping the people of Wyoming. Peter represented Natrona County in the Wyoming House of Representatives from 1989 to 1992. His passion to give back and sense of duty to the people of Wyoming was instilled in him by his father, John Wold. John Wold served in the Wyoming House of Representatives from 1957 to 1959 and the U.S. House of Representatives from 1969 to 1971. He was the first professional geologist in the U.S. Congress. Peter's son Matthew continued the family tradition of public service when he interned in my Washington, DC, office during the summer of 2007.

Peter Wold continues to devote his time, talents, and resources to help promote programs that develop the mental and physical well-being of youth across Wyoming. In addition to supporting the Boys and Girls Clubs, Peter Wold is also a member of the board of trustees for the YMCA of Natrona County. He played an integral role in getting a new facility to serve the needs of the children, families, and members of the Casper community. Through his work with the Wold Foundation, Peter supports numerous projects and programs aimed at assisting Wyoming youth, such as the Natrona County School District History Day competition and the Little Hands Casper arts education program. His generosity to youth organizations will ensure the future of Wyoming is strong and vibrant.

Peter Wold and his family truly represent the strong Wyoming values of hard work, generosity, and compassion. Peter Wold and his wife, Marla, have three children, Abbie Long and her husband Steve, Matthew Wold and his wife Katie, and Joe Wold and his wife Chelsey, as well as four grandchildren, Hayden, Harper, Ellie, and Annie. Casper and Wyoming are a better place thanks to the contributions of this exceptional family.

It is with great honor that I recognize this outstanding member of our Wyoming community. My wife, Bobbi, joins me in extending our congratulations to Peter Wold for receiving this special award.●

### TRIBUTE TO DR. DONALD F. BOESCH

• Mr. CARDIN. Mr. President, I would like to take this opportunity to thank Dr. Donald F. Boesch, who is stepping down as president of the University of

Maryland Center for Environmental Science, UMCES, a position he has held for the past 27 years.

Since 1990, Dr. Boesch has led an institution with an excellent reputation for Chesapeake Bay science to global prominence in coastal watershed science and its application, building highly capable research facilities at each of the UMCES's four laboratories. Since 2008, he has also served as vice chancellor for environmental sustainability for the University System of Maryland.

During Dr. Boesch's tenure, UMCES went through remarkable transformations. Research grants more than tripled and significantly diversified with multiple agency and private and philanthropic sponsors. This allowed UMCES scientists to expand their research into new and emerging topics critical to understanding Maryland's environment. He also initiated the Integration and Application Network, which is responsible for the annual 'report card' on the Chesapeake Bay, to inspire and produce timely syntheses on critical environmental issues and identify practical and effective solutions to the bay's problems.

Thanks to Don's unstinting passion and dedication to environmental issues, UMCES has had a profoundly positive impact on improving the health of Maryland's environment, playing a major role in the university's mission to enhance the quality of life in Maryland and our region. UMCES has become recognized as the State's foremost research authority on environmental matters that are critical to Maryland and the Nation, from enhancing the health of the Chesapeake Bay to restoring our State's oyster population.

Don Boesch has been an extremely effective leader of people. He worked with the University of Maryland Baltimore County and the University of Maryland, Baltimore to form a novel research partnership, the Institute of Marine and Environmental Technology, located on Baltimore's Inner Harbor. He spearheaded the effort to design and construct the state-of-the-art research vessel *Rachel Carson* to help understand and monitor the Chesapeake Bay and coastal Atlantic Ocean. He led UMCES, a longtime partner in graduate education and classroom instruction with the University of Maryland, to receive accreditation to award joint graduate degrees in environmental science.

Don has been involved in research on the Chesapeake Bay for more than 35 years, becoming one of the Nation's most widely recognized and respected experts in applying science to public policies for the protection, sustainable use, and restoration of coastal ecosystems. He has been an official adviser to Federal agencies, the Chesapeake Bay Program, and five Maryland Governors. He is a member of the Governor's Chesapeake Bay Cabinet. He has also served as chair of the Ocean

Studies Board of the National Academy of Sciences and member of the National Academies Committee on America's Climate Choices. In 2007, he won the "Award for Lifetime Leadership in Ecosystem Restoration, National Conference on Ecosystem Restoration." In 2010, President Barack Obama appointed Don to the National Commission on the BP Deepwater Horizon Oil Spill and Offshore Drilling. In 2015, he earned the "Admiral of the Chesapeake Award," which was presented to him by the Governor.

Don's interest in coastal watershed science probably came naturally; he was born and raised in New Orleans, and he received his B.S. in biology from Tulane University in 1967. He went on to earn a Ph.D. in oceanography from the College of William & Mary in 1971. He was awarded a Fulbright postdoctoral fellowship to study in Australia and then spent 8 years on the faculty at the Virginia Institute of Marine Science. From 1980 to 1990, he served as the first executive director of the Louisiana Universities Marine Consortium and worked as a professor of Marine Science at Louisiana State University. He returns to the gulf coast frequently to lead task forces and scientific panels on gulf ecosystem protection and restoration.

Dr. Donald F. Boesch has had an exemplary career at the intersection of science and public policy. He has been incredibly helpful to me and the rest of the Maryland congressional delegation; we have all valued his wise counsel. I am comforted by the fact that, while Don is stepping down as president of UMCES on September 17, he will join the faculty and focus his energies on completing several research publications. I ask my Senate colleagues to join me in congratulating Don on this milestone event and thanking him for his extraordinary contributions to understanding and protecting our environment.●

#### TRIBUTE TO FLORENCE NEMPHOS

● Ms. HASSAN. Mr. President, today I wish to recognize and extend my sincerest congratulations and happy birthday wishes to Florence Nemphos. On August 17, 2017, Florence celebrated her 100th birthday.

Florence Nemphos was born in Saugus, MA, on August 17, 1917 to two loving parents, Annie LeBrun and Richard LeBlanc. Florence has been a resident of Seabrook, NH, for the past 34 years. Florence is known as an outstanding woman and a vital and active member of her tightknit community.

For over 40 years, Florence has dedicated part of every week to playing bingo at the American Legion of Seabrook and the Seabrook Fire Association with members of the Seabrook community that she calls her bingo buddies.

As Senator for New Hampshire, I would like to honor Florence on the occasion of her 100th birthday. I join with

Florence's friends and family, as well as many, many people in her hometown of Seabrook and across the Granite State, in wishing her a very happy 100th birthday.●

#### TRIBUTE TO CHASE GLAZIER

● Mr. THUNE. Mr. President, today I recognize Chase Glazier, an intern in my Washington, DC, office, for all of the hard work he has done for me, my staff, and the State of South Dakota.

Chase is a graduate of Custer High School in Custer, SD. Currently, he is attending South Dakota State University in Brookings, SD, where he is majoring in communications. Chase is a dedicated worker who has been committed to getting the most out of his experience.

I extend my sincere thanks and appreciation to Chase Glazier for all of the fine work he has done and wish him continued success in the years to come.●

#### TRIBUTE TO KYLE MCKEE

● Mr. THUNE. Mr. President, today I recognize Kyle McKee, an intern in my Washington, DC, office, for all of the hard work he has done for me, my staff, and the State of South Dakota.

Kyle is a graduate of Washington High School in Sioux Falls, SD. Currently, he is attending the University of Pennsylvania in Philadelphia, PA, where he is majoring in political science and chemistry. Kyle is a dedicated worker who has been committed to getting the most out of his experience.

I extend my sincere thanks and appreciation to Kyle McKee for all of the fine work he has done and wish him continued success in the years to come.●

#### TRIBUTE TO OLIVIA TORBERT

● Mr. THUNE. Mr. President, today I recognize Olivia Torbert, an intern in my Washington, DC, office, for all of the hard work she has done for me, my staff, and the State of South Dakota.

Olivia is a graduate of Washington High School in Sioux Falls, SD. Currently, she is attending Georgetown University in Washington, DC, where she is majoring in international relations. Olivia is a dedicated worker who has been committed to getting the most out of her experience.

I extend my sincere thanks and appreciation to Olivia Torbert for all of the fine work she has done and wish her continued success in the years to come.●

#### TRIBUTE TO DUSTIN WAHL

● Mr. THUNE. Mr. President, today I recognize Dustin Wahl, an intern in my Washington, DC, office, for all of the hard work he has done for me, my staff, and the State of South Dakota.

Dustin is a graduate of Sioux Falls Christian High School in Sioux Falls, SD. Currently, he is attending Liberty University in Lynchburg, VA, where he is majoring in politics and policy. Dustin is a dedicated worker who has been committed to getting the most out of his experience.

I extend my sincere thanks and appreciation to Dustin Wahl for all of the fine work he has done and wish him continued success in the years to come.●

#### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

#### EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

#### PRESIDENTIAL MESSAGES

#### REPORT RELATIVE TO THE CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO THE TERRORIST ATTACKS ON THE UNITED STATES OF SEPTEMBER 11, 2001—PM 16

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

*To the Congress of the United States:*

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d), provides for the automatic termination of a national emergency unless, within 90 days of the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. Consistent with this provision, I have sent to the *Federal Register* the enclosed notice, stating that the emergency declared in Proclamation 7463 of September 14, 2001, "National Emergency by Reason of Certain Terrorist Attacks," is to continue in effect beyond September 14, 2017.

The threat of terrorism that resulted in the declaration of a national emergency on September 14, 2001, continues. The authorities that have been invoked under that declaration of a national emergency continue to be critical to the ability of the Armed Forces of the United States to perform essential missions in the United States and around
