

groundbreaking ocean SAMP, the first formally adopted ocean spatial plan in the country, pay real-life dividends. In developing this plan, CRMC engaged a diverse group of stakeholders and laid the groundwork for cooperation among a multitude of regulatory agencies. This effort and CRMC's continued engagement in the process paved the way for the successful development of the Nation's first offshore wind farm off the coast of Rhode Island.

The CRMC has also helped Rhode Island towns and residents understand the increasing effects of sea level rise and storm surge. Using the latest climate change predictions and state-of-the-art modeling, CRMC, in cooperation with the University of Rhode Island and others, developed an online tool, STORMTOOLS, that gives anyone with an internet connection free access to information that can be used to help decide everything from what neighborhood to buy a home in to where to site a new stormwater treatment plant. CRMC is now developing a coastal environmental risk index that can show Rhode Island homeowners individualized flood risks in 3-D.

In addition to her service on the CRMC, Mrs. Livingston has served Rhode Islanders as a board member of the Jamestown Tax Assessment Board of Review and on the board of the Girl Scouts of Rhode Island and the Jamestown Education Foundation. She also continues to serve as treasurer for the Opera House Theater & Performing Arts Center in Newport and on the advisory boards of the Dorcas International Institute of Rhode Island and the Providence Children's Museum. Mrs. Livingston is a passionate and committed leader, and I am grateful for her many years of service to our State's CRMC.●
