

DEFENSE SECURITY  
COOPERATION AGENCY,  
Arlington, VA.

Hon. BOB CORKER,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 17-51, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Norway for defense articles and services estimated to cost \$170 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

CHARLES W. HOOPER,  
Lieutenant General, USA, Director.  
Enclosures.

TRANSMITTAL NO. 17-51

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: The Government of Norway.

(ii) Total Estimated Value:

Major Defense Equipment\* \$150 million.  
Other \$20 million.

Total \$170 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

Sixty (60) AIM-120 C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM).

Four (4) AMRAAM Guidance Section Spares.

Non-MDE: Missile containers, weapon system support, support equipment, spare and repair parts, publications and technical documentation, personnel training, training equipment, U.S. Government and contractor engineering, logistics, technical and support services, and other related elements of logistics and program support.

(iv) Military Department: Air Force (X6-D-YAE).

(v) Prior Related Cases, if any: NO-D-YME.

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: November 14, 2017.

\*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Norway—AIM-120 C-7 Advanced Medium Range Air-to-Air Missile (AMRAAM)

The Government of Norway requested a possible sale of sixty (60) AIM-120 C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and four (4) AMRAAM guidance section spares. Also included are missile containers, weapon system support, support equipment, spare and repair parts, publications and technical documentation, personnel training, training equipment, U.S. Government and contractor engineering, logistics, technical and support services, and other related elements of logistics and program support. The estimated total case value is \$170 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO ally which continues to be an important force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capabilities for mutual defense, regional security, force modernization, and U.S. and NATO interoperability. This sale will en-

hance the Royal Norwegian Air Force's ability to defend Norway against future threats and contribute to current and future NATO operations. This is a follow-on buy of additional AIM-120 C-7 missiles. Norway will be able to absorb these additional missiles and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 17-51

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. AIM-120 C-7 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a radar guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic counter measures, and interception of high flying, low flying and maneuvering targets. The AMRAAM is classified CONFIDENTIAL, major components and subsystems range from UNCLASSIFIED to CONFIDENTIAL, and technology data and other documentation are classified up to SECRET.

2. If a technologically advanced adversary obtains knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to the furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Norway.

RECOGNIZING MAINE'S  
CONTINUUM OF CARE

Ms. COLLINS. Mr. President, Maine is home to strong communities and compassionate citizens. Nowhere are those qualities more evident than in our State's commitment to end the scourge of homelessness.

This effort has taken a significant step forward through the establishment of a single continuum of care for the State of Maine. The merger of the Portland Continuum of Care and the Maine Balance of State Continuum of Care will better enable local service providers, the statewide homeless council, and State and Federal agencies to address homelessness throughout Maine while accommodating specific local needs. This consolidation began in 2012 with the merger of the Bangor/Greater Penobscot Continuum

with the Maine Balance of State Continuum of Care. I particularly commend the Maine State Housing Authority for its leadership during this process.

Maine's unified continuum of care will create greater efficiencies in the use of Federal funding under the McKinney-Vento Homeless Assistance Act of 1987, the first major national response to homelessness. As chairman of the Housing Appropriations Subcommittee, I am confident that this unification will enhance the ability of Maine's service providers to help guide Federal policies and programs that assist low-income Americans, families with children, young people, seniors, and our veterans in obtaining safe shelter and affordable housing.

With a 9-percent reduction in homelessness from fiscal year 2016 to 2017, Maine is making great progress in aiding our most vulnerable citizens. The creation of a unified continuum of care will accelerate this progress, and I congratulate all who made it possible.

Mr. KING. Mr. President, I would like to recognize the efforts of the many organizations that have agreed to come together to establish a single continuum of care for the State of Maine. Continuums of Care are supported by the U.S. Department of Housing and Urban Development to promote a communitywide commitment to the goal of ending homelessness. They are a vital partner in the works to quickly rehouse homeless individuals and families to minimize trauma and dislocation; promote access to and effective use of mainstream programs; and optimize self-sufficiency among individuals and families experiencing homelessness. Continuums of Care make important decisions about priorities for Federal funding of programs that provide significant services.

Prior to establishing this single continuum of care for Maine, there were three separate entities that existed: the City of Portland, Greater Penobscot, which was centered on Bangor, and everything else fell under the "Balance of State" Continuum. While receiving funding to operate a continuum of care funding requires a competitive application process, these three groups have consistently worked closely together and coordinated their means. In 2012, the Greater Penobscot Continuum and "Balance of State" merged together to create the Maine Continuum of Care. Then, in 2017, the Portland Continuum consolidated with the Maine Continuum—achieving a single continuum of care—an effort that greatly advanced the level of collaboration among the member agencies and has proven to be an important step in streamlining efforts and assuring available resources are meeting the needs of those who become homeless. The merger of the two continuums has resulted in more accurate collection and management of data about the extent and characteristics of homelessness in Maine.

A single continuum of care has achieved efficiencies in administrating the responsibilities delegated by the Federal Government to meet the challenge of ending homelessness in Maine. As a unit, they identify the homeless service priorities and distribute resources accordingly. The organizations and agencies that participate in continuum of care include: Maine's network of 37 emergency shelters serving the entire State; MaineHousing and the Department of Health and Human Services; homeless youth providers; veterans groups; mental health and substance abuse service providers; supportive housing developers; local governments and public housing authorities; and homeless advocacy organizations. In addition to providing housing and services, the members of the Maine Continuum of Care play a major role in several other statewide initiatives, including participating in the data collection and entry for the annual homeless assessment report AHAR, and new system performance measure reports.

This significant merger was a collaborative endeavor involving Maine's homeless provider organizations, social service providers, and State and Federal agencies. I especially want to thank the leadership and guidance provided by MaineHousing, the State's housing authority, and the chairs of Maine's continuums throughout the merger process. I am honored to recognize all who were involved and to thank them for placing the individuals and families who are struggling to meet this basic human need for a warm, safe, and stable home at the center of our collective efforts to end homelessness in the State of Maine.

#### RECOGNIZING BARR-REEVE ELEMENTARY SCHOOL

Mr. DONNELLY. Mr. President, today I wish to recognize Barr-REEVE Elementary School of Montgomery, IN, for being named a 2017 National Blue Ribbon School by the U.S. Department of Education.

Established in 1982, the National Blue Ribbon Schools Program recognizes schools that have demonstrated a vision of educational excellence for all students, regardless of their social or economic background. Since its inception, this program has allowed schools in every State to gain recognition for educational accomplishments, particularly in closing the achievement gaps among students.

Barr-REEVE Elementary School's history traces back to 1910 when it was known as Montgomery School and had 20 students. Today Barr-REEVE Elementary teaches students grades second to fifth and has approximately 290 students.

The school supports students academically through small class sizes. When students face academic challenges, teachers help tutor them before and afterschool as well as during recess.

Barr-REEVE Elementary utilizes innovative technology to learn about the geography and culture of the world on a digital level. Students each benefit from having a Chromebook, enhancing their learning and helping to prepare them for the technology based workplaces they will encounter in the future. Many teachers also utilize the nearby Naval Surface Warfare Center located in Crane, IN, for professional development and to take advantage of its lending library that enhances various STEM skills they can teach to students.

Barr-REEVE Elementary School's staff, students, and families work together to teach and foster values that develop strong character. Each month, a different social skill is modeled and taught throughout the school. Students reinforce these positive behaviors through cards handed out by the student council to recognize students' positive character and leadership skills. The student council also instituted a tutoring program during the lunch recess to allow students to help their peers.

Barr-REEVE Elementary School is an example of how dedication, motivation, collaboration, and strong family engagement in education benefits both students and the local community. At Barr-REEVE, parents are not only involved through an active parent teacher organization, but also as coaches, guest speakers, and volunteers in the classroom.

I am proud to recognize Barr-REEVE Elementary School principal Dena Langacher, the entire staff, the student body, and their families. The effort, dedication, and value you put into education has led not only to this prestigious recognition, but will benefit you and the Montgomery community well into the future.

On behalf of the citizens of Indiana, I congratulate Barr-REEVE Elementary School, and I wish the students and staff continued success in the future.

#### RECOGNIZING KREHBIEL'S SALES & SERVICE

• Mr. RISCH. Mr. President, today I wish to take the opportunity to highlight the innovation and the creative spirit that small businesses in my home State of Idaho are known for. The small business that I am honoring today goes above and beyond when it comes to embodying that spirit. As chairman of the Senate Committee on Small Business and Entrepreneurship, it is my pleasure to recognize Krehbiel's Sales & Service as the Senate Small Business of the Month for November 2017. Known for their passion, friendliness, and dedication to providing unparalleled service, Krehbiel's is the definition of what it means to be a family-owned small business in America.

Clint Krehbiel and his son Terry Krehbiel opened the doors to their vehicle dealership in Aberdeen, ID, in 1972 while Terry was still in high school. They have been proudly serving southeast Idaho for the past 45 years. The Krehbiel family specializes in off-road recreational and utility vehicles, along with various brands of lawn care equipment. In addition to these products, they have expanded into several other businesses, ranging from swimming pools to satellite sales and installation.

Terry and his wife, Valerie, bought Clint's share of the business when he retired in 1996 and have made it their life's work to carry out the principles of honest and ethical business that Clint passed down over the years. For the past four-and-a-half decades, the family's commitment to their mission has been unwavering, and their loyalty to their customers is second to none. Perhaps the most incredible display of their dedication can be seen in the expansion of their business to serve customers hundreds of miles away while still maintaining a high level of customer service and a close-knit team of employees. At any time, you can walk in and see Karalee Krehbiel-Bonzon, Terry and Valerie's daughter, providing the exceptional customer service that she has been known for ever since she started working at her family's business in 2007. You will also see Valerie doing the bookkeeping by hand, as she has done every day since 1980. Another long-time employee is mechanic Charlie Wiebe. Charlie was hired in 1987 and is still with the business to this day. He has been an integral part of building and maintaining good relationships with customers and in training other mechanics like the team's newest member, Tyler Jones.

Customer service is not the only thing that Krehbiel's is known for. With over 60 years of combined experience, their factory-trained technicians have built a reputation for high-quality, dependable repairs for all manner of recreational and utility vehicles. The company's reputation in this area brings in customers from miles around who have never bought a vehicle from the Krehbiels but who have built a bond of trust with their well-qualified mechanics.

Aberdeen is considered to be "off the beaten path" by most people. Many say you need to have a reason to go there. Terry and Valerie, along with their employees, have given many people a reason to do just that. A continuous entrepreneurial spirit, quality customer service, and strong relationships with long-time employees are all principles possessed by the Krehbiels. I would like to extend my sincerest congratulations to Terry and Valerie Krehbiel and all of the employees of Krehbiel's Sales & Service for being selected as the November 2017 Small Business of the Month. You make our great State proud, and I look forward to watching your continued growth and success.●
