COMMEMORATING THE 175TH  
ANNIVERSARY OF TEJON RANCH

**HON. KEVIN MCCARTHY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, November 14, 2018*

Mr. MCCARTHY. Mr. Speaker, I rise today to commemorate the 175th anniversary of Tejon Ranch. For nearly two centuries, Tejon Ranch has been among California's most essential hubs for commerce.

Spread across over 270,000 acres of Central California's southern mountainous reaches, the land that would become Tejon Ranch has a rich history predating California's statehood. Tejon Ranch was initially established through several Mexican land grants, the first being Rancho el Tejon issued in 1843. Edward Beale, a hero of the Mexican-American War, purchased the Rancho el Tejon land grant in 1865, and he quickly followed this purchase by buying the neighboring Rancho Los Alamos, Agua Caliente, and Rancho de Castac. Together, these four parcels comprise Tejon Ranch as it is known today.

Under Beale's direction, Tejon Ranch developed into an integral economic component of a rapidly-growing Kern County, becoming the county's premiere cattle ranch operation by the time of Beale's death in 1893. In 1915, Tejon Ranch solidified its place in California history with the construction of the Ridge Route, a pivotal roadway that connected Northern and Southern California through the state's Central Valley for the first time. Though it has changed and expanded over the years, portions of the original route now form a key artery of Interstate 5 and is driven by millions each year.

Today, Tejon Ranch continues to play a key role in Kern County's economy and culture. While cattle ranching can still be found on Tejon Ranch, Tejon has expanded its business footprint to new industries, drawing companies from around the world to invest in California. Most recently, Foreign Trade Zone

#276, which includes Tejon Ranch, was re-established earlier this year, doubling the previous designation in square footage and improving the flow of commerce throughout California. Finally, land at Tejon Ranch has been used to honor our nation's veterans at the Bakersfield National Cemetery, which offers our heroes a dignified place of final rest amid the stunning vistas of the Tehachapi Mountains.

Tejon Ranch is also a keystone region for ecological conservation. Established on June 17, 2009, the Tejon Ranch Conservancy was the product of a collaborative effort between the Tejon Ranch Company and conservation groups to protect the one-of-a-kind natural beauty of the Tejon Ranch landscape. To meet these needs, an overwhelming majority of ranch property—an immense 240,000 acres—has been dedicated to conservation. This land is now used by visitors from around the world to explore the breathtaking natural gem of the Tehachapi Mountains and to view wildlife, such as the California Condor, in their natural environment.

Tejon Ranch is a one-of-a-kind place that has been critical to the success of Kern County. While Tejon Ranch has offered our community innumerable economic and recreational benefits, it has above all else illustrated what it means to be a good steward of the land. Tejon Ranch has left a defining mark on our county, our state, our nation, and indeed the world. There's no other place on earth like Tejon Ranch and this land and the values it represents remain a key component of Kern County's core essence. I am confident that it will continue to play this role for centuries to come.
