

HONORING 30 YEARS OF KUBOTA  
MANUFACTURING IN THE  
UNITED STATES

**HON. DOUG COLLINS**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, May 25, 2018*

Mr. COLLINS of Georgia. Mr. Speaker, I rise today in recognition of Kubota Manufacturing's 30-year presence in the United States. Planting its roots in my hometown of Gainesville, this company specializes in tractor manufacturing.

In the past few decades, several international companies like Kubota have made Northeast Georgia their home. For Kubota, what began as a 60,000 square foot plant with 44 team members in 1988 grew to the 2.5 million square foot plant with 2,600 team members that we see today.

Instead of settling for one plant's success, Kubota chose to open additional manufacturing plants in Kansas and Texas, and, in 2005, the company founded the Kubota Industrial Equipment Corporation based in nearby Jefferson, Georgia.

To celebrate its 30-year anniversary, Kubota Manufacturing donated \$1 million to the Lanier Technical College Foundation. This gift will help finance Lanier Technical College's new Hall County Campus, which is scheduled to open in the spring of next year.

Whether it's a student at Lanier Technical College or one of the company's employees, Kubota demonstrates the importance of investing in our nation's workforce—preparing men and women for the jobs our modern world requires.

Mr. Speaker, I thank Kubota Manufacturing for using its success to support the communities in my corner of Georgia. I look forward to seeing this company's presence continue to grow over the next 30 years.

TRIBUTE TO CENTENNIAL MIDDLE  
SCHOOL'S MATHCOUNTS TEAM

**HON. JOHN R. CURTIS**

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

*Friday, May 25, 2018*

Mr. CURTIS. Mr. Speaker, I stand before you today to honor Centennial Middle School's MATHCOUNTS team, which won the Utah State MATHCOUNTS contest this year and sent multiple students to represent Utah at the 2018 Raytheon MATHCOUNTS National Competition, where they placed in the top ten.

The MATHCOUNTS Foundation is a non-profit organization that helps middle school students nurture and enhance their abilities in mathematics. The foundation was created in 1983 and has since helped countless middle school students overcome their fear of and develop a love for mathematics.

The MATHCOUNTS Foundation hosts the annual Raytheon MATHCOUNTS National Competition, which brings in Mathletes from all 50 States to compete. These Mathletes compete head-to-head with other teams to solve difficult math problems in timed exams. Since the competition was first held in 1984, it has grown to become the most prestigious middle school mathematics competition in the nation.

Centennial Middle School, located in Provo, Utah, has participated in the MATHCOUNTS program for many years. To prepare for the statewide competition in March, participating students spent many afterschool hours training, practicing, and expanding their mathematics skills. The Centennial Middle School MATHCOUNTS team won the Utah statewide competition and had the honor of sending multiple students and their coach to represent Utah at the national contest. The Utah team placed ninth in the nation, making it the first time Utah has placed in the top ten and also took home the award for most improved team.

These prestigious and hard-earned awards demonstrate the significant efforts of parents, teachers, and the team's coach, Ryan Camacho, in cultivating a love of mathematics among students at Centennial Middle School.

Centennial Middle School's accomplishments indicate a promising future for mathematics achievement in Utah. As students in Utah and across the country continue to participate in competitions like MATHCOUNTS, they will be better prepared to succeed in emerging careers in mathematics. Mr. Speaker, please join me in congratulating this outstanding accomplishment.

**CONGRATULATING THE FLOWERY BRANCH HIGH SCHOOL BOYS' TENNIS TEAM**

**HON. DOUG COLLINS**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, May 25, 2018*

Mr. COLLINS of Georgia. Mr. Speaker, I rise today to congratulate the Flowery Branch

High School boys' tennis team on winning the state title—the first championship in the program's history.

The Falcons persevered through a difficult season, enduring illnesses, short-handed line-ups, and an exhausting postseason. Despite these challenges, the team continued to exhibit their best effort and earned a spot in the championship against Buford High School.

With only two starting seniors, this young team had never advanced past the second round of playoffs.

After a four-hour match, Jack Thomas—one of the team's freshmen players—overcame an opponent who had defeated him twice before and helped his team clench the victory.

Mr. Speaker, this group of young men remind Northeast Georgians that hard work paves the road to success. I am honored to highlight the Falcons' achievement and congratulate the team on their outstanding season.

**HON. CHERI BUSTOS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, May 25, 2018*

Mrs. BUSTOS. Mr. Speaker, I rise today to recognize the town of Cambridge, Illinois on its 175th Anniversary. The community was named by Judge Joseph Tillson in 1843, and has been thriving ever since.

The first house in the village was built by blacksmith Lord John Russell near the southeast corner of College Square and the courthouse was the heart of the community.

It is because of villages like Cambridge, Illinois that I am especially proud to serve Illinois' 17th Congressional District. Mr. Speaker, I would like to again formally congratulate the village of Cambridge, Illinois on its 175th Anniversary.
