UPON THE OCCASION OF THE 35TH ANNIVERSARY OF THE INCORPORATION OF THE CITY OF EAST PALO ALTO, CALIFORNIA

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 15, 2018

Ms. SPEIER. Mr. Speaker, I rise along with my colleague, ANNA ESHOO, to recognize the City of East Palo Alto upon the occasion of its 35th anniversary as an incorporated city in San Mateo County. East Palo Alto is a beautiful community of approximately 30,000 persons nestled between San Francisco Bay and communities to the west.

The people of East Palo Alto have always been industrious. As the city entered the 1980's, its leadership became convinced that this energy needed a focus: Its own city government so that services could flourish and greater economic opportunity could be created.

We were both members of the San Mateo County Board of Supervisors during this time, and we supported the incorporation of East Palo Alto because we know that self-determination was the best way to deliver opportunity. Passions ran high and the 1982 attempt at incorporation was not successful. However, the second attempt, in 1983, delivered a narrow win of 13 votes.

The leadership in this effort was, of course, local and several of those leaders were selected for the first city council. Ms. Barbara Moulton was the first Mayor and today's Mayor, Mr. Ruben Abrica, served on that first city council. Also serving were Mr. James Blakey Jr., Vice-Mayor, Mr. F.J. "Omowale" Satterwhite, and Ms. Gertrude Wilkes. East Palo Alto is a community where the love of its original city mothers and fathers endures to this day amongst those who remain. This love has been passed on to multiple waves of new, energetic, leaders as the community underwent tremendous changes during the intervening decades.

Since 1983, a police force has been created to replace the patrols of the county Sheriff, and today this department has strong ties to the people that it serves. The city has control over planning and zoning, so the tax base has exploded. Recently, the city negotiated water rights from its neighbors and is now poised to take part in the high technology transformation of long-dormant land within its jurisdiction.

At one time in its history, East Palo Alto suffered from major crime problems, but the community came together to dramatically improve safety. Today, East Palo Alto's violent crime rate is comparable to the overall rate of California. Credit goes to city leadership, residents in all neighborhoods, the schools, clergy, and major philanthropies.

A new jobs center recently opened and residents are being placed in positions each month. Infrastructure problems that long bedeviled the community are being tackled on a scale that can only be described as gigantic. Flooding has been dramatically reduced due to a multi-million-dollar creek project nearing

completion, and due to extensive improvements in the city's storm drain system. Plans exist to upgrade major roads such as Bay Road.

A new park at Cooley Landing recently opened, bringing access to the bay closer to the children of East Palo Alto. Coupled with the Bay Trail that runs nearby and along its levees, East Palo Alto is rapidly transforming from a community where the demand for additional police services has receded at the same moment that the demand for a bicycle bridge over Highway 101 succeeded.

East Palo Alto is in many ways like any other city in America because its civic spirit is improving the quality of life with the passage of every day. However, unlike many other communities in America, East Palo Alto consciously seeks to build bridges between its residents. This is reflected in the city's mission statement: The City of East Palo Alto provides responsive, respectful, and efficient public services to enhance the quality of life and safety for its multi-cultural community.

In 1983, skeptics predicted that the residents of East Palo Alto could not financially support a city. They were wrong.

In 1983, some predicted that infighting would kill the civic spirit of East Palo Alto. They were wrong. Civic pride, always strong and present, has flourished.

In 1983, some wondered if the residents of East Palo Alto could deliver on the promises of incorporation. Today, East Palo Alto is a shining example of the story of America herself. It is thriving and self-governing towards an ever-brighter future. We celebrate the 35th anniversary of the incorporation of this special place by the bay. East Palo Alto is an outstanding example of democracy in America.

DWIGHT BROCK

HON. FRANCIS ROONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 15, 2018

Mr. FRANCIS ROONEY of Florida. Mr. Speaker, I rise today to pay tribute to Dwight Brock, a devoted servant of Collier County who passed away on June 12, 2018.

After attending Florida State University and Stetson University, Mr. Brock received a law degree from Nova Law Center. Shortly after obtaining his J.D., he worked in the State Attorney's Office before he was elected Clerk of Courts for Collier County in 1993.

Mr. Brock demonstrated an unmatched dedication to public service, tirelessly fighting for the people he worked to protect. Early in his first term, Brock identified major faults in the business practices of Collier County investment managers. He successfully prosecuted the individuals jeopardizing the financial well-being of the county, ensuring the taxpayers' dollars were well safeguarded. This example of Mr. Brock's dutiful service to the people of Collier County was an early indicator of the courage and devotion with which he would serve for the rest of his career.

Our community mourns the loss of such an honest and faithful public servant. I extend my deepest condolences to his wife, Cheryl, his son, Bradley, and the rest of his loving family and friends.

IN THE HOUSE OF REPRESENTATIVES

Friday, June 15, 2018

Mrs. DINGELL. Mr. Speaker, I rise today to recognize Less Cancer, founded by Michigander Bill Couzens, to help remediate the alarming increases of cancer diagnosis and raise awareness about cancer risk reduction and prevention strategies. Less Cancer facilitates continuing education for physicians, nurses and public health professionals to highlight the 50 percent of cancers that are preventable, and how to best educate patients on specific contaminants, pollution sources, and healthy lifestyle choices. Less Cancer also founded National Cancer Prevention Day, the National Cancer Prevention Workshop and facilitates the U.S. Congressional Cancer Prevention Caucus.

On June 23 and 24, cyclists from all over the country will team up for the Less Cancer "Split the Mitt" Bike Ride, an epic two-day 238-mile charity ride through the heart of Michigan. The Less Cancer cycling tradition started in 2012 when Suzi Tobias rode to Mackinac City to honor her friend Aileen O'Brien who lost the battle with cancer. This year's cyclists will travel from Flint to Traverse City and conclude their overnight ride with a Cancer Prevention and Survivors' Picnic at the Cowell Family Cancer Center in Traverse City, Michigan.

The yearly ride could not happen without the many cyclists that participate year after year including Tom Petzold, Brian Doods, Dave Toutant, Tricia Petzold, Ed Shumaker, Lars Perkins, Jeanne Petzold, and Andrew Bowman. Tireless volunteers include Melanie Awe, Sue Coughlin, Steve Theil, John Kretschmar, Miles O'Brien and Ted Shaw along with support from the Less Cancer Board of Directors and Board Chair Donna Eacho.

Mr. Speaker, I ask my colleagues to join me in honoring Less Cancer's tireless efforts to highlight cancer prevention strategies, and wish them luck in their yearly bike ride. Non-profits like Less Cancer are a huge form of support for cancer survivors, their families, and future generations of cancer-free Americans.
