

take advantage of this untapped market and begin growing hemp to capitalize on its many commercial uses.

In closing, I would like to commend Chairman Conaway and his staff for their unrelenting work on this Farm Bill. It has been a privilege to fight alongside you on the House Agriculture Committee to ensure prosperity for rural America. I am proud to support this important legislation and it has been a true privilege to represent the interests of farmers from Virginia's Sixth District. I urge a yes vote.

Ms. LEE. Mr. Speaker, I thank the gentleman for his tremendous leadership on this bill and so many other issues. It is because of democratic leadership that this bill rejected all of the harmful changes to nutrition, so I thank him for that.

I rise today in support of the Farm Bill conference report (H.R. 2). This bill reauthorizes SNAP—our nation's first line of defense against hunger. This bill also rejects the dangerous and immoral work requirements, which would have pushed 2 million people further into hunger and poverty.

Mr. Speaker, nutrition assistance helps 40 million people put food on the table. And the vast majority of families who receive food stamps are working.

In fact, more than 80 percent of SNAP households work the year before or after receiving aid. This program helps the working poor, children, the disabled and seniors. It's a necessary lifeline to our fellow Americans who otherwise would go hungry.

And I know how important this program is, Mr. Speaker, when I was a young, single mom raising two little boys, I relied on food stamps to help my family during a very difficult time in my life. It was a bridge over troubled waters. And quite frankly I would not be where I am today without that assistance.

All families should have this bridge over troubled waters when they need it.

And Mr. Speaker, while this bill is a step in the right direction for our anti-poverty work, we must do more to ensure that all families have nutritious and regular meals every day. No one in the richest nation on earth should go hungry but unfortunately 40 million do. 40 million.

So, I urge my colleagues support this bill and to redouble our efforts to end poverty and hunger in our nation.

The SPEAKER pro tempore. All time for debate has expired.

Whereas the likelihood of survival is reduced approximately 10 percent for each minute defibrillation is delayed; and

Whereas sudden cardiac arrest is most effectively treated by combining CPR and defibrillation: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that—

(1) public schools in possession of one or more AEDs should schedule annual AED training for all school personnel, for which staff meetings or in-service days allocated under State law for training programs in emergency first aid and cardiopulmonary resuscitation (CPR) may be used;

(2) such public schools should consider including in such annual AED training instruction on the use of AEDs and information for school personnel relating to the locations of AEDs, the school's response plan, and the members of the school response team;

(3) each public school in possession of one or more AEDs should conduct an annual CPR and AED drill for school personnel to practice the use of these life-saving measures and to evaluate the school's preparedness in the event of a sudden cardiac arrest; and

(4) when planning the training and drills, local educational agencies (LEAs) and schools should coordinate with other schools operating training programs, any State-issued recommendations as to the development or usage of appropriate programs, and the American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care.
