## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1903

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Mr. SCALISE. Mr. Speaker, I was unavoidably detained. Had I been present, I would have voted "yea" on rollcall No. 140 and "yea" on rollcall No. 141.

## PERSONAL EXPLANATION

Ms. JAYAPAL. Mr. Speaker, had I been present for rollcall vote 140 and rollcall vote 141 on Monday, April 16, 2018, I would have voted "aye" on both.

## RESIGNATION AS CHAPLAIN OF THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore (Mr. HIGGINS of Louisiana) laid before the House the following resignation from the House of Representatives:

OFFICE OF THE CHAPLAIN  
HOUSE OF REPRESENTATIVES,  
Washington, DC, 15 April 2018.

Hon. PAUL D. RYAN,  
Speaker, U.S. Capitol.

DEAR PAUL, the Peace of Christ! As you have requested, I hereby offer my resignation as the 60th Chaplain of the United States House of Representatives. It has been an honor to serve the People's House for these nearly seven years. After mutual consideration, it is determined my final day will be 24 May 2018.

The position is one which I did not seek nor strive to assume, but I have seen it as a blessing and I have considered it one of the great privileges of my life.

I wish all the best for the House of Representatives, and for your upcoming search for a worthy successor in the Office of the Chaplain.

Sincerely,

PATRICK J. CONROY, S.J.,  
Chaplain.

The SPEAKER pro tempore. Without objection, the resignation is accepted. There was no objection.

## MATHEMATICS AND STATISTICS AWARENESS MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, April is Mathematics and Statistics Awareness Month.

President Ronald Reagan designated this month in 1986. He said, in part:

"Despite the increasing importance of mathematics to the progress of our economy and society, enrollment in mathematics programs has been declining at all levels of the American educational system.

"Yet the application of mathematics is indispensable in such diverse fields

as medicine, computer sciences, space exploration, the skilled trades, business, defense, and government. To help encourage the study and utilization of mathematics, it is appropriate that all Americans be reminded of the importance of this basic branch of science to our daily lives."

Mr. Speaker, these words still resonate today.

Math plays a significant role in addressing many real-world problems: internet security, sustainability, disease, and much more.

Research in these and other areas is ongoing, revealing new results and applications every day in fields such as medicine, manufacturing, energy, biotechnology, and business.

In our growing technological world, the study of math and statistics is one that will continue to be critically important. Happy Mathematics and Statistics Awareness Month.

## NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY CYBERSECURITY FRAMEWORK UPDATE

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, today the National Institute of Standards and Technology, or NIST, published its first major update to its heralded cybersecurity framework. Since its release 4 years ago, countless organizations have used the framework to voluntarily assess their cybersecurity risk posture, identify gaps, and implement best practices. This update adds timely guidance about managing supply chain cybersecurity risks, like those Russia exploited to damaging effect with the NotPetya malware.

Since President Obama first directed its creation, NIST has employed a collaborative approach to developing the framework with diverse stakeholders from government, private industry, academia, and civil society. The revision process reflects this public-private partnership, and I thank the NIST team for their hard work drafting this update.

I firmly believe that cybersecurity is not just an IT problem, and the framework's approach reflects a broader risk-based decisionmaking process. However, an understanding of the economics of controls is essential if we expect companies to adopt them voluntarily, and I look forward to continuing my work in this Chamber to deepen that understanding.

## NATIONAL SEXUAL ASSAULT AWARENESS MONTH

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I want to draw attention to April as National Sexual Assault Awareness Month.

We know this is a problem across the country. In Minnesota alone, more than 60,000 Minnesotans are victimized by sexual violence each year, and of this number, 80 percent were women and nearly a third were under the age of 18.

It is a time to educate the public about sexual violence and help communities more effectively prevent it.

It is also important, though, to recognize the victims' rights groups, social workers, healthcare providers, and law enforcement personnel, who are working one-on-one with the victims of sexual violence, helping them seek justice and repair their lives. Important organizations like Breaking Free are helping women escape trafficking, prostitution, and sexual exploitation. And Cornerstone, which is running domestic violence crisis hotlines, is helping victims get the assistance that they need to get back on their feet.

Mr. Speaker, these are some of the organizations we have in Minnesota that are providing invaluable services to the victims at a time when they need it most.

#### TRUMP ADMINISTRATION'S WAR ON THE WORKING POOR

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I have never met a person who wakes up in the morning and says: I want to be poor today. That is just not the reality.

Yet my colleagues across the aisle, and their friends in the White House, keep pushing this false narrative that people who rely on government assistance to make ends meet are moochers who take government handouts and buy drugs.

Mr. Speaker, in my district, 17.9 percent of households rely on SNAP to feed their families. They aren't lazy. They aren't addicts. They are hard-working people, some of them with two and three jobs, just trying to make ends meet.

The United States Government should be making it easier for Americans to maintain a decent standard of living. Let us end this administration's war on the working poor and help make better lives for all of our citizens.

#### RECOGNIZING THE 100TH ANNIVERSARY OF THE AMERICAN ASSOCIATION OF ORAL AND MAXILLOFACIAL SURGEONS

(Mr. BURGESS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURGESS. Mr. Speaker, I rise today to recognize the 100th anniversary of the American Association of Oral and Maxillofacial Surgeons. Founded in 1918 by 29 dentists, the organization has grown to include more than 9,000 members today.

Oral and maxillofacial surgery is the surgical arm of dentistry. These doctors are a critical component of the medical profession. They practice in a variety of settings, including private clinical practice, ambulatory surgery centers, and hospitals. They also provide service in academia, the military, and the research industry. Many of these surgeons reside and provide critical patient care in my home State of Texas.

Mr. Speaker, today, I recognize the members of the American Association of Oral and Maxillofacial Surgeons for their work, and I offer my support for their mission to ensure excellence in patient care by advancing, promoting, and preserving the specialty of oral and maxillofacial surgery.

#### INVEST IN AMERICAN WORKERS

(Mr. KRISHNAMOORTHY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KRISHNAMOORTHY. Mr. Speaker, according to the Aspen Institute, from 1996 to 2008, the percentages of American workers receiving employer-sponsored training, on-the-job training, as it were, has fallen by 40 percent.

With a growing skills gap, and American businesses unable to fill 6.3 million jobs due to a lack of qualified candidates, it is imperative that Congress incentivizes investments in worker training. That is why I introduced the Investing in American Workers Act last Friday.

This forward-thinking legislation provides a 20 percent tax credit to small and mid-sized companies that increase their investments in worker training over a given year. Eligible programs include apprenticeships, specialized community college courses, and those offered by employers or industry associations. This is a win-win for American employers and employees, helping American companies compete globally and helping workers obtain higher wages and long-term job security.

Our workforce is the foundation of our economy, and we cannot ignore the consequences of failing, as a country, to invest in American workers.

□ 1915

#### VIII SUMMIT OF THE AMERICAS

(Mr. STEWART asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEWART. Mr. Speaker, the VIII Summit of the Americas was held this past weekend, April 13 and 14. These gatherings of government leaders in the Western Hemisphere are only held once every 3 years. While together, they discuss common policy issues; they affirm shared values; and they commit to address challenges facing the Americas. This year the summit was held in Lima, Peru.

Two years ago, I cofounded the Congressional Caucus on Peru with my colleague from New York, Mr. MEEKS. I launched the caucus to not only strengthen the U.S.-Peruvian relationship, but also because Utah has such a special relationship with Peru. Peruvians are the second largest immigrant group in Utah, and approximately 40,000 are living in our State. Given that Peru is a major player in trade, education, and technology in Latin America, I strongly believe that it is critical that we maintain a strong connection.

As co-chair of the Peruvian Caucus and a supporter of stability in the region, it was wonderful to see these world leaders commit to strengthening democracy, while also fighting against corruption and human rights violations. I look forward to continued cooperation among American nation-states.

I was recently in the region. It is a beautiful place with beautiful people, but they are facing severe challenges, and we want to support them.

#### NATIONAL SCIENCE BOWL COMPETITORS

(Mrs. WATSON COLEMAN asked and was given permission to address the House for 1 minute.)

Mrs. WATSON COLEMAN. Mr. Speaker, I rise today to recognize the hard work of the students and coaches from two schools in New Jersey's 12th District, West Windsor-Plainsboro High School North and Princeton Charter School, as they advance to compete in the 2018 National Science Bowl.

Sponsored by the Department of Energy, the National Science Bowl is a nationwide academic competition that tests students' knowledge in all areas of science and mathematics. Since its inception in 1991, it has hosted more than 275,000 competitors. These talented young minds from my district will join those ranks, competing for a chance to win funding for their respective schools' science departments.

I wish the coaches and the teams the best of luck as they show off their knowledge, their talent, and their preparation against the country's future science stars.

#### HONORING THE LIFE OF RUSSELL JIM

(Mr. NEWHOUSE asked and was given permission to address the House for 1 minute.)

Mr. NEWHOUSE. Mr. Speaker, I rise today to honor the life and memory of Russell Jim, an elder of the Yakama Nation, who was highly regarded as a champion for central Washington's environment.

Russell had a deep understanding of the Yakama Nation's culture, the region's natural resources, and the Hanford nuclear site. He spent his life and career protecting our environment and advocating for responsible nuclear waste management.
