FINANCIAL LITERACY MONTH 2018

(Mrs. BEATTY asked and was given permission to address the House for 1 minute.)

Mrs. BEATTY. Mr. Speaker, I rise in support of Financial Literacy Month, which is celebrated every year in April.

Whether it is purchasing your first car, getting a job, going to college, starting a family, or even saving for retirement, it is imperative that Americans of all ages have the capacity to make sound financial decisions. That is precisely what I have been fighting for these last two decades.

In the Ohio Statehouse, I successfully spearheaded legislation requiring all public high school students to complete a financial literacy class prior to graduation. Now I am proud to continue this important work in the Halls of Congress.

Working with the Jump\$tart Coalition and serving as the co-chair of the House Financial and Economic Literacy Caucus, I had the opportunity to recently host and honor students during Financial Literacy Day on the Hill.

Mr. Speaker, I am asking all of our colleagues, Democrats and Republicans, to join us in Financial Literacy Month.

NATIONAL SMALL BUSINESS WEEK

(Mr. FITZPATRICK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FITZPATRICK. Mr. Speaker, as a member of the Small Business Committee, I am proud to stand with owners and entrepreneurs in Bucks County, Pennsylvania, who embody the spirit of American enterprise.

As such, and in honor of National Small Business Week, beginning Sunday, I am proud to recognize two small businesses in my district that have recently achieved significant milestones in their respective industries.

Crossing Vineyards and Winery of Washington Crossing, Pennsylvania,

was named a top 50 Irish-owned small business and will be honored at the Irish Small Business 50 Awards in Philadelphia.

Additionally, Sabre Systems of Warrenton was recently contracted by the United States Air Force to develop a cutting-edge antenna that would be more difficult to detect, further strengthening our military at home and abroad.

I am proud of these local small businesses and so many others in my district, Mr. Speaker. We must do our part as elected officials to enable them to thrive and succeed in our diverse and global economy.

HONORING THE LIFE OF JENNIFER RIORDAN

(Ms. MICHELLE LUJAN GRISHAM of New Mexico asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Mr. Speaker, I rise today to honor Mrs. Jennifer Riordan, who tragically lost her life on Southwest Airlines flight 1380 on April 17.

Mrs. Riordan was an incredible leader and an advocate in our community who loved out loud. I join her family and loved ones in celebrating her life and her commitment to building strong and loving communities.

Through her work at Wells Fargo and her philanthropic efforts, she was able to reflect the positivity of her beaming smile onto every community she touched. Her devotion to serving others made our city a better place and is both her lasting legacy and an example to all of us.

Our hearts break for her family and for everyone who had the good fortune of being in her presence.

I want to extend my heartfelt condolences to Mrs. Riordan's husband, Michael, and her two children, Averie and Joshua.

I hope that we can all honor Mrs. Riordan's memory by embodying her personal philosophy: be kind, loving, caring, and sharing.

NATIONAL PRESCRIPTION DRUG TAKE BACK DAY

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, April 28 is National Prescription Drug Take Back Day.

This is an opportunity to dispose of those expired or excess drugs that you may have in your home so that they are properly disposed of instead of ending up in a landfill, waterway, or, more importantly, the hands of children or other dangers that could affect people's health negatively.

For information about that, check with the U.S. Department of Justice, the Drug Enforcement Agency, or your

local police or pharmacy to look for the information for where you should take your excess, expired prescription drugs so we don't have a health risk, the endangerment of our children, or risk it ending up in the wrong place in the environment.

Again, April 28 is National Prescription Drug Take Back Day. Please participate.

BURN PITS CAUCUS

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Mr. Speaker, while serving our country, many of our brave men and women were exposed to large plumes of black smoke and cancer-causing toxins from the burning of waste, chemicals, and plastics in burn pits. Now veterans from across the country who have no other risk factors are developing terminal cancer, leaving their families to wonder why, families of heroes like Jenn Kepner's, a 39-year-old Air Force veteran who died of pancreatic cancer late last year.

That is why today I am proud to announce the bipartisan Congressional Burn Pits Caucus, to help seek answers for our heroes exposed to burn pits. Representative BRAD WENSTRUP and I have started this caucus because bureaucratic red tape at the VA and the DOD is denying our veterans the answers they deserve and the care they need.

We can't afford to wait. I urge every Democratic and Republican alike to join the Congressional Burn Pits Caucus and start fighting for our veterans to get the care they need and deserve.

HONORING THE LIFE OF PASTOR B.R. DANIELS, JR.

(Mr. VEASEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VEASEY. Mr. Speaker, I rise today to commemorate Pastor B.R. Daniels, Jr.'s 25th pastoral anniversary at the First Greater New Hope Baptist Church in Fort Worth, Texas.

A native of Fort Worth, Pastor Daniels attended Oscar Dean Wyatt High School. After graduating high school, he answered the call of duty and enlisted in the United States Army, where he faithfully served his country for 8 years. Pastor Daniels was honorably discharged in 1992 at the rank of Sergeant E-5.

In early 1993, when the First Greater New Hope Baptist Church was in search of a new pastor, Reverend Daniels was called to occupy the pulpit. The congregation knew right away that they had the right man for the job.

After 25 years, Pastor Daniels has certainly left his mark not only on the church, but he works closely with so many different groups in the city of Fort Worth and is on different commissions. He does a great job. His passion

and love for the ministry explain why so many follow his vision of hope.

QUIETER SKIES

(Ms. LEE asked and was given permission to address the House for 1 minute.)

Ms. LEE. Mr. Speaker, I want to comment very briefly on the Federal Aviation Reauthorization Act, which provides long-term stability for our Nation's aviation community and critical investments in U.S. airports. I have many, many issues in my district that this bill, hopefully, will address.

Airplane noise is an issue that directly affects my constituents in the East Bay. I have convened meetings with Federal and local stakeholders to come up with a regional solution to airport noise in the bay area.

This bill will help us make progress to address noise pollution and ensure that my constituents can live under quiet skies. It would establish a pilot program for the Department of Transportation to give grants of up to \$2.5 million to six airports for noise mitigation projects. That is so important.

Also, I am pleased to see that the bill includes language that would require the FAA to partner with higher education institutions to assess the health effects of white noise.

While these changes may not reduce airplane noise immediately, we are moving in the right direction. I look forward to working with the FAA to ensure my constituents affected by airplane noise are addressed in a timely fashion. This legislation is critical legislation to help support America's innovation in aviation technology and will ensure quieter skies for all.

DEA NATIONAL PRESCRIPTION DRUG TAKE BACK DAY

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, I rise today to call attention to National Prescription Drug Take Back Day this Saturday, April 28.

While prescription opioids may be a short-term, safe treatment for extreme pain management, misuse and addiction can become a tragic side effect and are extremely common, unfortunately. Ohio is second in our Nation in opioid overdose deaths per capita.

According to the National Survey on Drug Use and Health, 6.4 million Americans abused controlled prescription drugs in 2015. About half of the people over the age of 12 who misused prescription pain relievers obtained the drugs from a friend or relative.

Americans of sound mind and body must do more to reduce this number and mitigate misuse by taking action. Please join your fellow citizens in participating in National Prescription Drug Take Back Day this Saturday, April 28. Proper disposal of drugs can save lives.

Remember that you can go to a collection site any day of the year to deposit unused or extra pills and prescription drugs. Get rid of them.

You can find a collection site near you by visiting takebackday.dea.gov.

Do your part to prevent accidental poisoning misuse and overdose today. Your vigilance matters.

HONORING THE LIFE OF ADRIAN MURFITT

(Mr. KIHUEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KIHUEN. Mr. Speaker, today, I rise to remember the life of Adrian Murfitt, who went to Las Vegas on October 1 for the Route 91 festival.

Adrian had a love for fishing. He would spend months on a commercial fishing boat to catch and sell fish. When it was not fishing season, he would repair appliances, tinker with cars, and spend time with his friends.

Adrian was a very hard worker and decided to reward himself for a successful fishing season by traveling to Las Vegas. He loved to listen and sing country music with a voice that friends described as "beautiful."

He enjoyed his two dogs, Laika and Paxson, and always made sure to spend time with them. Adrian had many friends who remember him as being silly and goofy and wanting to make people laugh, no matter what.

I would like to extend my condolences to Adrian Murfitt's family and friends. Please know that the city of Las Vegas, the State of Nevada, and the whole country grieve with you.

MEDICARE FOR ALL

(Mrs. CAROLYN B. MALONEY of New York asked and was given permission to address the House for 1 minute.)

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, I rise to join my colleague and good friend Representative ELLISON and other members of the Progressive Caucus to say that healthcare should be a right for everyone in the United States of America.

I have proudly cosponsored the Medicare for All legislation for many years because I don't believe a person's economic status should have any bearing whatsoever on their ability to access quality and affordable healthcare.

The Affordable Care Act took us a long way toward that goal, and I am so proud of that vote. I am proud to join all of the Members here who are supporting it and to fight back against attacks from the Republican majority and the White House to dismantle it.

But we can't just play defense. We have to move toward ensuring greater access to coverage, greater affordability, stronger consumer protections, and higher quality healthcare services. That is why this bill is so important, and I think its time has come.

What Medicare for All would provide is universal coverage for everyone.

This is something we should be taking up right now. I am proud to join my colleagues who are supporting it.

□ 1815

RECOGNIZING THE LIFE AND SERVICE OF TIQUE LEE CAUL

(Mr. DESAULNIER asked and was given permission to address the House for 1 minute.)

Mr. DESAULNIER. Mr. Speaker, I rise today to recognize the life and service of a longtime Antioch, California, resident and friend, Ms. Tique Lee Caul.

Tique was a single mother, worked full-time, attended classes at Laney College, and served as a volunteer with Habitat for Humanity. She was a trailblazer and a woman who wore many hats. She also sat on multiple boards, including Toastmasters and Black Women Organized for Political Action.

She was a true stalwart of our community, active with volunteers in many efforts. She enjoyed supporting others in their personal transformation and goal attainment.

A mother of five beautiful children, a successful realtor, Tique was a shining light until the very end. She will be sincerely missed by her family, friends, everyone who knew her, and our community.

BETTER DEAL VERSUS RAW DEAL

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, almost 2 years ago, Presidential candidate Donald Trump said: "We are going to win so much, you are going to get tired of winning."

It has been 16 months since Republicans took control of the White House and Congress, and the only people who are winning are the wealthy and well connected. The rest of America is getting a raw deal.

The Republicans have failed to make healthcare more affordable. They have failed to invest in rebuilding our crumbling infrastructure. They failed to lower the cost of living for working families, and they failed to drain the swamp. The rigged system that they promised to tear down is now bigger and stronger than ever before. The wealthy and well connected are making out like bandits while working people are asked to sacrifice more and more each day.

It doesn't have to be this way. Democrats are offering a better deal: a better deal to deliver better jobs, better wages for a better future; a better deal to raise incomes, lower the cost of living, and make sure the economy works for all Americans, not just those at the very top.

Let's give the American people a better deal than the raw deal they are getting from the Republicans.
