

pleased we have reached consensus on this policy and that the provision includes a 10-year sunset.

The Energy and Commerce Committee has worked in a strong bipartisan fashion to move this bill forward. I commend my colleagues, Rep. KURT SCHRADER and Rep. MARKWAYNE MULLIN, for introducing this important legislation and advancing it for floor consideration.

I urge my colleagues to join me and vote in support of the Animal Drug and Animal Generic Drug User Fee Amendments of 2018.

Mr. Speaker, I reserve the balance of my time.

Mr. MULLIN. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. BURGESS), the chairman.

Mr. BURGESS. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise to speak in support of this critical bill to reauthorize the Animal Drug User Fee Act and the Animal Generic Drug User Fee Act for an additional 5 years. Among other things, these user fees provide critical resources to the Food and Drug Administration's Center for Veterinary Medicine to ensure efficient and timely review of animal drug applications, quality assurance measures for animal feed, and surveillance of the safety and efficacy of animal drugs on the market.

In addition to reauthorizing these user fee programs, this legislation also includes new authority to facilitate greater innovation in the animal drug space.

Mr. Speaker, these user fee programs must be reauthorized by September 30 to avoid a major disruption of the operations of the Center for Veterinary Medicine. The clock is ticking. The agency must start sending pink slips to employees 60 calendar days before the end of the fiscal year. That is the end of this month.

We are talking about real consequences for animal health and for the American people. House passage of this bill today is an important step, and I urge the Senate to do its work and promptly take up and pass this bill so that President Trump can sign it into law. I thank the gentleman for the recognition.

Mr. GENE GREEN of Texas. Mr. Speaker, I yield 1½ minutes to the gentleman from Oregon (Mr. SCHRADER), our colleague from the Energy and Commerce Committee.

Mr. SCHRADER. Mr. Speaker, H.R. 5554 is a bipartisan bill to reauthorize the animal drug and animal generic drug user fee programs, and I am proud to lead it with my colleague, Mr. MULLIN.

ADUFA and AGDUFA are crucial to FDA's work to review and approve applications for animal drugs. Over the past several years, animal drug user fee programs have streamlined the approval process for pharmaceuticals and eliminated the FDA's application backlog, reduced review times, and created a more predictable process.

As a veterinarian from Oregon, I am particularly grateful to see this bill come to the floor. I am acutely aware

of the great innovations that are occurring in the human health sphere, and I want to ensure our four-footed friends also have access to the latest and greatest medical innovations. That is why I am particularly pleased with this bill and its language to expand conditional approval for animal drugs with major uses in major species.

□ 1830

Conditional approval is a careful, deliberative process based on similar pathways for drugs for minor uses and minor species that was already established in 2004.

Conditional approval is critical for veterinary medicine since it is not cost-effective for drug companies to pursue large, complete clinical trials, given the small population of intended beneficiaries, without some initial interest and success under the conditional approval program.

Before being conditionally approved, drugs must demonstrate a reasonable expectation of effectiveness and meet every other FDA standard for approval, including safety. They still need to get complete FDA approval within 5 years and must apply for annual renewal.

I thank Chairman WALDEN; Ranking Member PALLONE; Mr. GREEN; my colleague from North Carolina (Mr. HUDSON), who worked very hard on the bill; and certainly Mr. MULLIN for his partnership in leading this way.

Mr. Speaker, I urge my colleagues to support this important bill.

Mr. GENE GREEN of Texas. Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. MULLIN. Mr. Speaker, I thank my colleagues on both sides of the aisle for their bipartisan approach, and I urge a "yes" vote from all my colleagues.

Mr. Speaker, I yield back the balance of my time.

Mr. BUTTERFIELD. Mr. Speaker, I rise in support of H.R. 5554, the Animal Drug and Animal Generic Drug User Fee Act of 2018. These user fee agreements are important to millions of North Carolinians living with companion animals. They are also important to the agricultural community. Some of you may not be aware that North Carolina is the second largest pork producer, the second largest turkey producer, and the third largest poultry producer in the country. Our agricultural community and family farms are essential to feeding our nation and they depend on medicines to keep animals healthy.

I am pleased that the final legislation includes language that I have worked on with my colleagues including Representatives HUDSON and SCHRADER to enable conditional approval of innovative veterinary drugs that have been demonstrated to be safe to use and have a reasonable expectation of effectiveness. The FDA already has this authority for unmet medical needs in minor uses and minor species, and this expanded authority can help improve protections for animal and human health.

This legislation must be passed before Congress adjourns for August or the FDA will be

required to halt the programs. I urge my colleagues to support this important legislation.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oklahoma (Mr. MULLIN) that the House suspend the rules and pass the bill, H.R. 5554, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.
