DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2019

GENERAL LEAVE

Mr. FRELINGHUYSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the consideration of H.R. 6147, and that I may include tabular material on the same.

The SPEAKER pro tempore (Mr. NORMAN). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 996 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 6147.

The Chair appoints the gentlewoman from Wyoming (Ms. CHENEY) to preside over the Committee of the Whole.

□ 1858

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 6147) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2019, and for other purposes, with Ms. CHENEY in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time. General debate shall be confined to the bill and shall not exceed 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations.

The gentleman from New Jersey (Mr. FRELINGHUYSEN) and the gentlewoman from New York (Mrs. LOWEY) each will control 30 minutes.

The Chair recognizes the gentleman from New Jersey.

□ 1900

Mr. FRELINGHUYSEN. Madam Chair, I yield myself such time as I may consume.

Madam Chair, I rise today in support of H.R. 6147, the fiscal year 2019 Interior, Environment, and Financial Services and General Government appropriations bills. This package continues the House's important work on our annual government funding legislation. With the passage of this bill, the House will be halfway done with our fiscal year 2019 bills through the floor.

I want to thank, and I am sure Ranking Member LOWEY thanks both Chairman CALVERT and his ranking member, and Chairman GRAVES and his ranking member for their work with their colleagues.

These bills fund vital programs across the Federal Government, including those that make Americans safer, protect our Nation's resources, and cre-

ate jobs. In addition to providing this necessary funding, the bills ensure that the Federal Government is working efficiently and in the best interest of the American taxpayers. This includes streamlining Federal agencies, reforming financial policies, and reducing burdensome regulatory red tape.

Both bills reflect American priorities. I would like to highlight just a few of these. The Interior and Environment appropriations bill, authored by Representative CALVERT of California, provides \$35.3 billion for the EPA, the U.S. Forest Service, and the Department of the Interior and other programs that promote our natural heritage.

Within this total, the bill prioritizes funding to fight in preventing devastating wildfires, fully funding the 10-year average for suppression costs. The bill also targets critical resources to major infrastructure that will improve the lives of Americans, boosting funding to ensure communities have access to safe drinking water, and accelerates the cleanup of Superfund sites. This is especially important as we have more than 1,300 national priority sites awaiting urgent attention to address hazardous materials threatening the health of Americans across the country. I appreciate Chairman CALVERT's efforts in this area.

The Interior bill continues funding for other programs that manage our national resources and cultural heritage, like the National Park Service, the National Endowment for the Arts and Humanities, the Chemical Safety Board, and the Smithsonian Institution.

Beyond these important investments, the bill rightsizes regulatory programs to ensure that the government is working to support American families and their communities.

This also includes addressing EPA's regulatory agenda and supporting the

administration's proposal to reshape its workforce. This will enable the agency to focus on its core duties, while reducing unnecessary spending.

The second bill in this package also works to reduce waste across government. The Financial Services appropriations bill, authored by Representative GRAVES of Georgia, totals \$23.4 billion which, like the Interior bill, is equal to fiscal year 2018 levels.

This bill prioritizes effective programs that improve our national security and expands economic opportunity while finding efficiencies, government-wide, and while stopping harmful overregulation.

This bill also supports America's small businesses by providing loans and resources that will help us grow and thrive. It also provides stability for our financial system, and protects consumers, and investors.

This bill also improves accountability of the American taxpayer by directing the Internal Revenue Service funding towards customer service and stopping the misuse of funding within the agency.

Another priority is law enforcement. This bill also provides funding to fight the opioid abuse epidemic, protects our financial institutions from cyber crime, and supports our Federal courts.

I would like to commend all the committee members on the Appropriations Committee who led the drafting of these bills, particularly Chairman GRAVES and his Ranking Member, MIKE QUIGLEY, and Interior Chairman KEN CALVERT and his Ranking Member, BETTY MCCOLLUM, along with their subcommittee members and their professional staff that did a remarkable job.

I am pleased that the House is taking the next step forward on our appropriations bill this evening.

I reserve the balance of my time.

Mrs. LOWEY. Madam Chairman, I yield myself such time as I may consume.

I rise in strong opposition to the Interior, Environment, and Financial Services, and General Government minibus, that fails the American people by slashing environmental protection, rolling back consumer protections, and even cutting basic election security funding.

With bills this bad, it is no wonder Republicans have abandoned all pretense of regular order, grouped two unrelated appropriations bills together, and blocked numerous Democratic amendments.

These bills are the product of Republicans' misguided priorities. Instead of using the \$18 billion increase in non-defense discretionary spending to create jobs and grow our economy, Republicans have chosen to waste those resources on an unnecessary border wall and cruel attacks on immigrant families.

We must do better. As much as it pains me to say, we should be following the Senate and producing bipartisan bills instead of wasting time on playing political games and taking show votes to appease the right wing of the Republican Conference.

Turning to the substance of the bills before us, it is absolutely outrageous that they would: Cut the Environmental Protection Agency by \$100 million; slash clean water infrastructure grants by \$300 million; sink \$585 million into a black hole that is dressed up with a fancy name, the Fund for America's Kids and Grandkids, which is a ploy to not spend the entire financial services allocation; reduce investments in underserved communities through the Community Development Financial Institutions program by \$34 million; and provide inadequate funding for small business loan programs and for investments that curb the opioid crisis.

However, the bill's worst cut is the zeroing out of election security grants. On Friday, Special Counsel Robert Mueller indicted 12 Russian intelligence officers for their interference in the 2016 presidential election. The indictment describes, in great detail, the efforts Russia took to break into State election databases.

We have all heard the public warnings of our intelligence community that Russia will attempt to attack our democracy again. Yet, instead of helping States protect and fortify their election infrastructure from cyber hacking, this bill would eliminate election security grants entirely.

Additionally, numerous harmful policy riders strike at the heart of laws and rules that protect the air we breathe and the water we drink, threaten the survival of endangered species, attack a woman's right to choose, undermine democracy in the District of Columbia, and repeal important Dodd-Frank consumer protections.

These bills represent a divisive, partisan approach that threatens to leave American communities more polluted and American families more vulnerable to financial predators. We must do better.

I urge my colleagues to vote "no," and I reserve the balance of my time.

Mr. FRELINGHUYSEN. Madam Chair, I yield 5 minutes to the gentleman from California (Mr. CALVERT), the chairman of the Interior, Environment, and Related Agencies Subcommittee on Appropriations.

Mr. CALVERT. Madam Chairman, it is my distinct honor to bring to the House floor the fiscal year 2019 Interior, Environment, and Related Agencies Appropriations bill.

Before I go into details about the bill, I would like to commend Chairman FRELINGHUYSEN for his leadership and support throughout this process.

As reported by the Appropriations Committee, the fiscal year 2019 Interior and Environment bill is funded at \$35.252 billion, which is equal to the FY18 enacted level. We have made sincere efforts to prioritize critical needs within our subcommittee allocation and in reviewing more than 5,200 individual requests.

In the interest of time, I won't outline all the problems or programs and activities funded in this bill. I would like to point out a few highlights.

The bill provides robust wildland fire funding totaling \$3.9 billion. It fully funds the 10-year average for wildland fire suppression costs and provides an additional \$500 million in suppression funds for the Forest Service. The committee has also provided a \$30 million increase over fiscal year 2018 for hazardous fuel reduction.

The bill provides \$500 million in fiscal year 2019 for the Payments in Lieu of Taxes, PILT program, which is a top priority for many Members on both sides of the aisle.

The bill also makes critical investments in Indian Country, a top priority of this committee. This legislation honors our commitment to Native Americans with a particular emphasis on Indian health, law enforcement, education, and water settlements.

The bill fully funds contract support costs and Tribal grant school support costs; provides funding to staff newly constructed health facilities; improves public safety; significantly increases economic development; invests an additional \$16 million in fiscal year 2019 to address needs of schools throughout the BIE system; and invests an additional \$82 million to correct funding disparities across the Indian Healthcare System.

Overall, funding to EPA has been reduced by \$100 million from fiscal year 2018, with reductions aimed at research and regulatory programs. Members from the Midwest will be pleased to know that the Great Lakes Restoration Initiative is maintained at the fiscal year 2018 enacted level of \$300 million.

The bill continues to invest in water infrastructure and cleaning up contaminated land. These programs help create jobs and spur economic development in communities all across the Nation. The bill provides funds to leverage over \$10 billion worth of investment in water infrastructure through the funding in the WIFIA program and the Clean Water and Drinking Water State Revolving Loan Funds.

The bill also provides \$3.2 billion for the National Park Service. It maintains, and builds upon, critical investments made in the fiscal year 2018 enacted bill to address longstanding park operations and deferred maintenance needs.

We have also attempted to address a number of concerns within the Fish and Wildlife Service accounts. The bill restores popular grant programs through fiscal year 2018 enacted levels. It also restores funds to combat international wildlife trafficking; protects fish hatcheries from cuts and closures; and continues funding to fight invasive mussels and Asian carp; and reduces the backlog of species that are recovered but not yet de-listed. We have also increased funds for the Recovery Challenge program, which we started in 2018 to challenge non-Federal partners to a more active role in recovering endangered species.

The bill also provides \$360 million for Land and Water Conservation programs with bipartisan support.

Lastly, this bill makes significant investments toward critical deferred maintenance, construction, and infrastructure needs within the Department of the Interior, Forest Service, Indian Health Service, Smithsonian, as well as critical air and water infrastructure programs within the EPA.

In closing, I would like to thank staff on both sides of the aisle who have worked long hours on this legislation. On the minority side, I would like to thank Rita Culp, Jocelyn Hunn, and Rebecca Taylor.

On the majority side, I would like to thank Darren Benjamin, Betsy Bina, Jackie Kilroy, Kristin Richmond, Mac Cloyes, and Dave LesStrang from the committee staff, as well as Ian Foley, Rebecca Keightley, Tricia Evans and Dave Kennett from my personal staff.

To say the least, this has been a team effort.

□ 1915

Lastly, I would like to thank my good friend and ranking member, BETTY MCCOLLUM, for working with me to address a number of critical needs throughout the bill.

The CHAIR. The time of the gentleman has expired.

Mr. FRELINGHUYSEN. Madam Chair, I yield an additional 15 seconds to the gentleman from California.

Mr. CALVERT. Madam Chair, while we may disagree on some issues, we are never disagreeable and we continue to work well together.

Madam Chair, it is a good bill. I urge its adoption.

Mrs. LOWEY. Madam Chair, I yield 5 minutes to the gentlewoman from Minnesota (Ms. McCOLLUM), the ranking member of the Interior, Environment, and Related Agencies Subcommittee.

(Ms. McCOLLUM asked and was given permission to revise and extend her remarks.)

Ms. McCOLLUM. Madam Chair, I would like to thank Ranking Member LOWEY as well as the full committee chair for their work, but I would like to give a special thanks to Chairman CALVERT and his staff, whom he mentioned by name, and of course my wonderful staff, including my personal staff, for working together using a collaborative approach to help us move forward.

The subcommittee has a challenging portfolio of issues, and I commend the chairman's efforts to maintain many of the fiscal year 2018 investments, such as addressing the backlog of deferred maintenance on Federal lands and investing in Indian Country. I want to express how sincerely proud I am of this subcommittee's nonpartisan approach to addressing the issues facing our Native American brothers and sisters.

I am pleased that the bill recommends an increase of \$410 million over the fiscal year 2018 enacted level for programs critical to Indian Country.

The health, education, and safety of our Tribal communities is a Federal responsibility that our subcommittee takes very seriously, and that is the one bright spot in this bill; but, unfortunately, other important priorities for the American public did not fare as well.

Even though the fiscal year 2019 Interior, Environment, and Related Agencies Subcommittee allocation is equal to the fiscal year 2018 enacted level, the majority is proposing a \$100 million cut from the Environmental Protection Agency, which is just untenable.

The cuts in this bill would target air and water quality programs, reduce Federal funding to enforce the law against polluters, and, if enacted, they will undermine the EPA's ability to keep our families and communities healthy and to protect our environment for future generations.

We are at a defining moment in history. The Interior bill has an opportunity to make a global difference in the quality of life for generations to come, but, sadly, this bill is a mirror of the Trump administration's actions and disregard for the environment.

We cannot afford to ignore the overwhelming scientific evidence the planet is warming, sea levels are rising, and glaciers are melting. We must do more, not less, to pursue policies and programs that will put us on the right path to conserve and protect our natural resources and the planet we call home.

The bill before us also reduces funding for the Land and Water Conservation Fund by \$65 million from the fiscal

year 2018 enacted level. This program has strong bipartisan support. It conserves natural areas and provides recreational opportunities in all 50 States.

The American people expect us to be good stewards of our public lands and wildlife, but this bill falls short on that commitment.

In addition to the irresponsible cuts to the EPA, I must express my concern and my disappointment to the 18 partisan riders in this bill that pander to special interests at the expense of the public good. These riders undermine clean water and clean air safeguards, jeopardize protection and recovery for vulnerable species, and even intercede in California water issues outside of the jurisdiction of the subcommittee.

The Senate has committed to work in a bipartisan manner to keep controversial policy riders out of their appropriations bills. I agree with that strategy and believe these policy issues should receive a full and transparent debate in the authorizing committees of jurisdiction. Congress must stop holding the government hostage over these ideological policy riders.

And, finally, it is impossible to talk about the bill that funds the Environmental Protection Agency without addressing the ethical problems that have plagued this administration and were embodied by the former EPA Administrator Scott Pruitt. There is ample evidence that the former Administrator was misusing Federal dollars for lavish expenses and prioritizing the interest of corporations over protecting America's families. Mr. Pruitt may be gone from the Agency, but Congress should be doing considerable oversight to ensure that a culture of transparency and accountability is restored at the EPA.

We should also be doing our best to ensure that every agency we fund is not abusing taxpayers' dollars. So I am deeply disappointed that my Republican colleagues voted down multiple amendments in our committee markup that would have held up our responsibility for oversight and adequately funded ongoing investigations. They also denied several more Democratic oversight amendments a chance to come to this floor for debate today.

Madam Chair, this bill fails the American people. It cuts environmental protections. It removes safeguards for our air and water and endangered species and allows rampant corruption in the executive branch to go unchecked. I know we can do better than this, and it is my hope we will do better after conference.

The CHAIR. The time of the gentlewoman has expired.

Mrs. LOWEY. Madam Chair, I yield an additional 15 seconds to the gentlewoman from Minnesota.

Ms. McCOLLUM. Madam Chair, I thank Mrs. LOWEY for yielding.

So despite my current opposition, I intend to continue to work with the chairman through this year's appropriations process to produce a responsible bill that I know we can have both parties support in the end.

Mr. FRELINGHUYSEN. Madam Chair, I yield 5 minutes to the gentleman from Georgia (Mr. GRAVES), the chairman of the Financial Services Subcommittee on Appropriations.

Mr. GRAVES of Georgia. Madam Chair, I rise tonight to fight for America's kids and grandkids. That is what we are here to do.

This fiscal year 2019 Financial Services and General Government Appropriations bill, as I will explain in a moment, reflects the public outcry over deficit spending and addresses those concerns on behalf of America's kids and grandkids.

Madam Chair, before I dive into those details, I want to thank Ranking Member QUIGLEY for his hard work and dedication to our work together as we have shepherded this committee through the process in this bill.

I want to mention a few of the bill's highlights.

This bill is a product of a very Member-driven process. We brought appropriators and authorizers together. We consulted other committees. We fostered personal Member-to-Member conversations to make sure that priorities in this bill were vetted and supported across jurisdictions. We held several public hearings and reviewed over 2,100 unique Member requests as we put this bill together.

As the bill passed out of this Appropriations Committee, it passed with bipartisan support. What more can you do on behalf of America's kids and grandkids?

As in past years, we aimed to provide the oversight and allocate taxpayer dollars with the greatest of care.

This bill includes resources to implement the Tax Cuts and Jobs Act, which cuts taxes for families and businesses all across our country, spurring economic growth. The funding in our bill will help implement the law very quickly so American families can use the system without disruption whatsoever.

In addition, this bill prioritizes law enforcement, homeland security, and cybersecurity. For example, it provides record funding for the High Intensity Drug Trafficking Areas and Drug-Free Communities programs.

It updates the legacy IT systems that are governmentwide—we have all seen it and we have heard about it—through the Technology Modernization Fund.

Similar to our landmark approach last year, this bill also includes major financial reforms. It cuts regulations, streamlines agency processes. In fact, this bill includes more than 20 pieces of legislation that have passed through this body with bipartisan support, in most cases with more than 270 votes.

Now, importantly, one of these reforms brings transparency and oversight to an agency we have all talked about, and that is to the Consumer Financial Protection Bureau, by bringing it under the authority of Congress and under the authority of the Appropriations Committee.

Now, with these kinds of reforms, this bill has earned a lot of support across our country. From the U.S. Chamber of Commerce, the Investment Company Institute, the American Bankers Association, Independent Community Bankers of America, National Association of Federally-Insured Credit Unions, and Credit Union National Association, in addition to the National Taxpayers Union and Citizens for Responsible Budgeting, this bill is bringing together a lot of different interests all across our country.

In closing, Madam Chair, I would like to highlight, really, what the heart of this bill is, the major feature of this bill.

If your district is anything like mine, you know the American people are frustrated. They are frustrated with Congress, and they are frustrated with this out-of-control spending. They see our annual deficits fuel our dangerous national debt. So it is time to try something different, and that is what we have done, because if we don't, we will stay stuck in this fiscal death spiral that we are in.

Now, after a lot of thought and effort, we came up with a very creative way to protect funding from being spent. The appropriations process does not make saving money easy, not at all. We all know that if a subcommittee such as mine doesn't spend everything, another subcommittee will come in and scoop it up and spend it somewhere else. This is just the way legislating is in Washington.

So we came up with something different, and we created a new fund in this bill called the Fund for America's Kids and Grandkids, which safeguards funds for America's future generations. In fact, it is like a savings account.

We put \$585 million from this bill as an initial deposit into the savings account, and this money is protected. It cannot be spent until Treasury indicates that we have balanced our budget or we have a surplus.

Now, this deposit is only 2.5 percent. It is 2.5 percent of what we were allocated. That is 2½ pennies of every dollar that we spend. But this is a great step forward, and it is on behalf of America's kids and grandkids.

This approach causes us to think about what deficit spending truly means and in whose name we are borrowing the money and who ultimately is going to get stuck with this debt.

Establishing the Fund for America's Kids and Grandkids means we are appropriating with a new spirit here in Washington, D.C., and that is just because you can spend it doesn't mean you have to.

Mrs. LOWEY. Madam Chair, I yield 5 minutes to the gentleman from Illinois (Mr. QUIGLEY), the ranking member of the Financial Services Subcommittee.

Mr. QUIGLEY. Madam Chair, I thank the gentlewoman for yielding.

Madam Chair, I first want to thank Chairman GRAVES, whom I had the privilege of working with for a second

year in managing this bill. Our discussions have been both passionate and productive, and I thank him for always allowing for vigorous debate throughout the process.

And, of course, I would again like to thank the staff on both sides for their work behind the scenes that went into preparing this bill for floor consideration. In particular, I would like to recognize and thank committee staff on the minority side, Lisa, Chris, Angela, Martha, as well as Doug from my personal office.

But with that said, I continue to strongly oppose the bill before us today.

Given its flat allocation of \$23.4 billion, this bill does not adequately meet the growing needs of our small businesses, taxpayers, and middle class consumers and investors.

To be fair, I do want to acknowledge how pleased I was to see increased funding for the Office of Terrorism and Financial Intelligence, Federal Defender Services, and the Small Business Administration, three very different priorities, each critical in its own right; but this does not negate the cuts suffered by some of our most important agencies tasked with missions ranging from policing Wall Street to supporting investment in our most underserved communities.

After losing over a billion dollars in funding and 18,000 staff between 2010 and 2017, my friends in the majority have reversed course and have begun providing the IRS with additional funds to implement their new law, yet taxpayer service is cut by \$15 million. GSA's funding for new construction is cut by over \$400 million, and funds for major and basic repairs and alterations come in at \$194 million below the requested amount.

The SEC, which is tasked with protecting investors and ensuring fairness in our capital markets, is cut by over \$200 million, even though the Commission's budget is financed by industry fees.

The CDFI Fund, after receiving increased funding of \$250 million in fiscal year 2018, was inexplicably cut by \$59 million in the original draft. With an additional \$25 million for CDFI approved in committee, it is still not enough. Failing to fully fund the program means fewer resources to spur economic growth and revitalization in our most underserved communities.

In addition to these cuts, the bill contains a long list of partisan riders, both old and new, blocking the IRS from enforcing the Johnson amendment and restricting the SEC from requiring companies to disclose political contributions. It would interfere in the local affairs of D.C. in an infinite number of ways, which simply must stop.

□ 1930

Let's talk about the business at hand. I was heartened to see Republicans speak out against the President's performance in Helsinki. The re-

action to the President not understanding the full breadth and width of the Russian attack on our democratic process was extraordinary. The Russians attacked us. They will be back. Most likely, they probably never left. But those tweets are one thing. You have to put your dollars and your votes where your tweets are.

After providing the States with \$380 million in grants to help fortify and protect election systems from cyber hacking, this bill zeroes out that fund for 2019. I have made this argument time and again, but it is worth repeating that the \$380 million that has been allocated is a step in the right direction, but it is only a down payment. For a majority of the 13 States that still use voting machines with no paper trail, at most, the funds they receive only cover half the replacement costs. Forty States use old equipment, which cannot handle modern anti-cyber hacking software.

The entity that manages these grants, EAC, has announced that every State has requested funding, showing overwhelming demand for these resources. That is why I offered an amendment in the committee markup to restore funding for the program. Unfortunately, it failed in a party-line vote.

Let me emphasize, again: We must do more to protect our democratic process from those who wish us harm, not just for the upcoming midterms, but for 2020 and beyond.

Most States maxed out the amount of money they could request from this program. Obviously, many other States, I suspect, would be a little more enthusiastic if the President didn't tell them this was a witch hunt or a hoax.

So there is much more we can do toward that end. Let's remind ourselves of the last time we had an election debacle of this magnitude: Bush-Gore. This government spent \$3.4 billion. Why? Because we treasure the democratic process. We want every vote to count, and we certainly don't want a foreign adversary to be able to detract from that.

The CHAIR. The time of the gentleman has expired.

Mrs. LOWEY. Madam Chair, I yield an additional 15 seconds to the gentleman from Illinois.

Mr. QUIGLEY. Madam Chair, I just ask my colleagues, let us join together. There was never a more important time to treasure our democracy and fund the programs that protect them.

Mr. FRELINGHUYSEN. Madam Chair, I am pleased to yield 3 minutes to the gentleman from West Virginia (Mr. JENKINS), a member of the committee.

Mr. JENKINS of West Virginia. Madam Chair, I thank the chairman for yielding me the time.

I rise in full support of H.R. 6147 and commend Chairman CALVERT on this much-needed legislation.

Back in 1977, Congress established the Abandoned Mine Lands program to

use coal production revenues to fund critical reclamation efforts. Roll forward about 30 or 40 years, and I want to highlight one important part of the funding bill that is before us that will truly make a difference in many hard-hit coal States, including my home State of West Virginia.

A new AML pilot program is in this legislation. Back in 2016, and thanks to the leadership of Chairman Hal Rogers and Chairman CALVERT, we worked on establishing this AML pilot program to use some of these funds to help create job opportunities for displaced workers and help diversify the economy.

In the last 2 years, the AML pilot program has brought \$80 million to West Virginia, bolstering our economy and creating new jobs. These funds are being put to good use and play a proactive role in diversifying our State's economy, and many other States'.

AML pilot funds, for example, are being used to support the Hatfield-McCoy Trail System, more than 700 miles of world-class ATV trails just in West Virginia. I recently took part in a ride along on one of the trails to see firsthand the economic benefits they have brought to West Virginia. The trails being developed using AML pilot funds will attract thousands of new visitors, bolstering job creation in Appalachia and unleashing our tourism potential.

These funds are also being used to expand municipal water services, which is critical for businesses and agricultural developments, as well as public health. The Coalfield Development Corporation, for example, is using AML pilot funds to build an aquaponics farm to grow sustainable commercial quantities of fish and vegetables.

Simply stated, our towns and counties and States need resources to provide for the future, and this bill does it. It helps us diversify the economies. It helps attract employers and create much-needed jobs, putting West Virginians and Americans back to work.

Madam Chair, I urge my colleagues to support this legislation.

Mrs. LOWEY. Madam Chair, I am pleased to yield 2 minutes to the gentlewoman from Ohio (Ms. KAPTUR), the distinguished ranking member of the Energy and Water Development, and Related Agencies Subcommittee.

Ms. KAPTUR. Madam Chairwoman, I thank Ranking Member LOWEY for yielding me this time.

Unfortunately, I must rise in strong opposition to this bill and its litany of hollow choices and some dangerous choices.

First, on election security, a day after President Trump told the whole world he believes Russian President Putin over our intelligence community, while claiming Russia didn't hack our 2016 election, this Republican bill provides zero election security grants to help our States prepare against likely cyber interference.

Congress, as the first branch of government, must live up to our constitu-

tional obligation. Just months away from our 2018 elections, President Trump essentially green-lit Putin's ongoing attacks.

Does this body wish to be complicit as we head toward 2018 and 2020? This bill surely suggests so.

Further, this bill attacks clean water access by repealing the waters of the United States rule without any public input regarding a replacement. It puts America's waters and the health and well-being of the American people at even greater risk, and it is a disservice to our constituents.

I strongly oppose the rider that would block the Environmental Protection Agency from addressing waste from animal feeding operations under the Solid Waste Disposal Act. In my watershed, which drains the tristate, binational region of North America into the western end of Lake Erie, the equivalent of 42,500 boxcar loads of animal manure are locally generated every year. That is trainloads of feces over 400 miles long every year seeping into the tributaries to the lake system every year.

Additionally, the majority is far too eager to authorize massive corporate giveaways in this appropriations bill.

The CHAIR. The time of the gentleman has expired.

Mrs. LOWEY. Madam Chair, I yield an additional 15 seconds to the gentlewoman from Ohio.

Ms. KAPTUR. Madam Chairwoman, their so-called CHOICE Act guts essential safeguards that require banks to plan and prevent the kind of financial catastrophe we saw in 2008. The only people who haven't been brought to justice are the scoundrels on Wall Street who created the mess.

I hope our colleagues will join me in opposing this bill. And let me thank Chairmen FRELINGHUYSEN, GRAVES, and CALVERT, as well as Ranking Members LOWEY, MCCOLLUM, and QUIGLEY for their efforts on this bill. I know how hard it is to bring an appropriations bill to the floor, and I am sorry I cannot support this one.

Mr. FRELINGHUYSEN. Madam Chairwoman, I yield 2 minutes to the gentleman from California (Mr. CALVERT), the chairman of the Interior, Environment, and Related Agencies Subcommittee, for the purpose of a colloquy.

Mr. CALVERT. Madam Chairwoman, at this time, I yield to the gentleman from New Jersey (Mr. LANCE) for the purpose of a colloquy.

Mr. LANCE. Madam Chair, I thank Chairman CALVERT for his leadership on this legislation and for recognizing the critically important work of cleaning up Federal Superfund sites across the United States.

The remedial program for cleanups will see a \$40 million increase in this package, bringing the Superfund total to \$1.17 billion. This funding is well spent. One cleanup project in the congressional district I serve, the American Cyanamid Superfund site in

Bridgewater, New Jersey, is a worthy project, indeed.

The American Cyanamid site has been a hazard for too long, and the project was placed on the Superfund list in 1983. It is time to have the 44,000 tons of hazardous waste on this site safely and permanently destroyed.

This is why we have a Superfund program and why the work of the Energy and Commerce Committee and the Appropriations Committee is so important. Federal officials and resources with the know-how and expertise have tackled these problems in other parts of the country and now need to focus on Bridgewater and other worthy projects across the Nation.

This is a good project. I rise to call attention to its great merits and to thank Chairman FRELINGHUYSEN, Chairman CALVERT, the committee, and the EPA for their involvement and support thus far.

Mr. CALVERT. Madam Chair, I thank the gentleman. I want to thank my colleague from New Jersey for expressing support for the Superfund program.

The Superfund program continues to be a priority of this committee. In the fiscal year 2018 omnibus, we provided a \$66 million increase to the program to accelerate cleanup of Superfund sites and respond to the release of hazardous materials.

I look forward to working together through the 2019 process to ensure that the Superfund program receives necessary funding to clean up and revitalize our Nation's toxic sites, like the American Cyanamid site, so that they are returned to productive use.

Mrs. LOWEY. Madam Chairwoman, I am pleased to yield 3 minutes to the gentlewoman from Maine (Ms. PINGREE), a member of the Appropriations Committee.

Ms. PINGREE. Madam Chair, I thank Ranking Member LOWEY for yielding me the time.

Madam Chair, I rise today as a member of the subcommittee in reluctant opposition to the bill before us. I want to thank the ranking member and the chairman for their hard work on this bill. I know that, in a truly bipartisan fashion, there has been an effort to address many issues that are important to me and to other Members.

For example, I appreciate that the committee has come together to fund a National Endowment for the Arts and the National Endowment for the Humanities at strong levels that will help support our local economies and protect important cultural institutions.

But the truth of the matter is that we will be voting on numerous amendments tonight that will add poison pill riders to the bill. They will gut our environmental protections and act as a straightforward assault on our country's air, water, and Federal lands.

The fact that so many of these harmful amendments were made in order by the Rules Committee is a telling statement of misplaced priorities. But even

more telling are the amendments that were not made in order. None of the amendments to protect our oceans was made in order. Not one of the 10 amendments offered to prevent the devastation of our oceans due to oil and gas drilling off our coasts was made in order.

We had Members from both sides of the aisle offering these amendments. We had Members from all across the country offering these amendments, and not one was allowed for full House debate, neither was an amendment I offered to push the administration on distributing appropriated funding that it has sat on without reason.

This administration created guidance for the Department of the Interior in December of last year, which added another layer of bureaucracy and review for already-approved projects. How ironic that a Republican administration would actually be purposefully adding bureaucracy that they so often rail against.

This has led to an unconscionable delay in getting funds out to the communities in Texas, Florida, the Virgin Islands, and Puerto Rico that have been impacted by natural disasters, as well as other projects not related to hurricane relief.

As we enter our second month of the current hurricane season, our American citizens have yet to see the full relief that they are owed and that this Congress has provided for them. That is because of this administration's unnecessary delays.

Again, I know the work that has gone into the creation of this bill with funding levels from many programs that are vital in my home State of Maine. In Maine, we have a strong appreciation for the U.S. Fish and Wildlife Service and the United States Geological Survey. We love estuaries, wildlife refuges, and National parks, like the beloved Acadia National Park in Maine and our new Katahdin Woods and Waters National Monument. This funding is critical, and I am proud to be on the subcommittee that funds all of these national treasures and vital programs.

But because my colleagues on the other side of the aisle will spend the next few hours attempting to gut the Clean Air Act, eliminate the EPA methane rule, restrict the Endangered Species Act, zero out funds for diesel emissions reduction, and ban even the discussion of the cost of carbon in our Nation, I will not be able to support this bill. I urge my colleagues to join me in opposition.

□ 1945

Mr. FRELINGHUYSEN. Madam Chair, I yield 3 minutes to the gentleman from California (Mr. CALVERT), who is the chairman of the Interior, Environment, and Related Agencies Subcommittee, for the purpose of a colloquy.

Mr. CALVERT. Madam Chair, I thank the chairman.

Madam Chair, I yield to the gentleman from California (Mr. RUIZ).

Mr. RUIZ. Madam Chair, I want to thank Chairman CALVERT along with our friend and neighbor, Congressman COOK, on this issue which is, quite frankly, a matter of survival for two communities in my district.

I submitted an amendment to this Appropriations bill to ensure the city of Banning and the community of Banning Heights can continue to receive water from a conveyance flume that they have relied on for over 100 years. The water from the flume provides 100 percent of the water for the community of Banning Heights and approximately 30 percent of the water for the city of Banning.

This isn't a small matter for these communities. In fact, I understand that during times when Banning Heights hadn't received water from the flume, the city of Banning has had to use temporary means to deliver an emergency supply of water to them.

This shouldn't even be an issue. The two communities have an undisputed water right and a historic right-of-way to maintain the flume that brings the water to the community. The flume was previously used by Southern California Edison under a hydroelectric permit with the Federal Energy Regulatory Commission. For more than a decade, Edison has been in the process of decommissioning this permit, and the city of Banning and Banning Heights are simply seeking to ensure that the flume can be repaired and maintained and continues to deliver water.

Earlier this month, the Forest Service issued a letter stating that they would require the inclusion of new instream flows as a contingency of the issuance of a special use permit just to allow the city to make repairs to the flume. This requirement would mean that in an average year, the two communities would receive no water from the flume on more than 100 days, I repeat, no water for nearly one-third of the year.

Additionally, during periods of drought, the Forest Service estimates that the communities could go more than 50 consecutive days during the summer months without water.

This is simply unacceptable.

While my amendment will not be debated on the floor today, I will continue to work with the Forest Service to resolve this situation in a way that protects the water rights of Banning and Banning Heights and makes sure that any new instream flows do not take away water from communities that need it.

Madam Chair, I thank Chairman CALVERT again for his attention to this. I ask the gentleman for his commitment to work with me to resolve this critical issue for my constituents.

Mr. CALVERT. I thank Mr. RUIZ for raising this issue. I would like to offer and continue working with the gentleman and the Forest Service to ami-

cably and productively resolve the situation.

Mrs. LOWEY. Madam Chair, I reserve balance of my time.

Mr. FRELINGHUYSEN. Madam Chair, I am prepared to close, and I reserve the balance of my time.

Mrs. LOWEY. Madam Chair, we should be making investments that protect our communities and make it easier for working families to get ahead. This bill falls far short of those goals. It shows the majority is not serious about enacting spending bills on time and is rife with deficiencies from a tax on the environment and consumers to wasting hundreds of millions of taxpayer dollars, and it fails to stand up to Russian aggression and protect our elections. Vote "no."

Madam Chair, I yield back the balance of my time.

Mr. FRELINGHUYSEN. Madam Chair, I am pleased the House is taking the next step towards our Appropriations bills today. These bills maintain vital Federal responsibilities and reflect common American values.

Madam Chair, I urge my colleagues to support this legislation, and I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Pursuant to the rule, the bill shall be considered for amendment under the 5-minute rule.

An amendment in the nature of a substitute consisting of the text of Rules Committee Print 115-81 shall be considered as adopted, and the bill, as amended, shall be considered as an original bill for the purpose of further amendment under the 5-minute rule and shall be considered as read.

The text of the bill, as amended, is as follow:

H.R. 6147

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. SHORT TITLE.

This Act may be cited as the "Interior, Environment, Financial Services, and General Government Appropriations Act, 2019".

DIVISION A—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2019

The following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2019, and for other purposes, namely:

TITLE I

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For necessary expenses for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to section 1010(a) of Public Law 96-487 (16 U.S.C. 3150(a)), \$1,247,883,000,

to remain available until expended, including all such amounts as are collected from permit processing fees, as authorized but made subject to future appropriation by section 35(d)(3)(A)(i) of the Mineral Leasing Act (30 U.S.C. 191), except that amounts from permit processing fees may be used for any bureau-related expenses associated with the processing of oil and gas applications for permits to drill and related use of authorizations.

The motion is not subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the joint resolution is agreed to, the joint resolution shall remain the unfinished business of the Senate until disposed of.

“(2) In the Senate, debate on the joint resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 2 hours, which shall be divided equally between those favoring and those opposing the joint resolution. On the second and fourth Thursdays of each month it shall be in order at any time for the Speaker to recognize a Member who favors passage of a joint resolution that has appeared on the calendar for at least 5 legislative days to call up that joint resolution for immediate consideration in the House without intervention of any point of order. When so called up a joint resolution shall be considered as read and shall be debatable for 1 hour equally divided and controlled by the proponent and an opponent, and the previous question shall be considered as ordered to its passage without intervening motion. It shall not be in order to reconsider the vote on passage. "(f) If, before the passage by one House of a joint resolution of that House described in subsection (a), that House receives from the other House a joint resolution described in subsection (a), then the following procedures shall apply:

"(1) The joint resolution of the other House shall not be referred to a committee.

"(2) With respect to a joint resolution described in subsection (a) of the House receiving the joint resolution—

TITLE XI

AMATEUR RADIO PARITY ACT

SEC. 1101. SHORT TITLE.

This title may be cited as the “Amateur Radio Parity Act of 2018”.

SEC. 1102. FINDINGS.

Congress finds the following:

(1) More than 730,000 radio amateurs in the United States are licensed by the Federal Communications Commission in the amateur radio services.

(2) Amateur radio, at no cost to taxpayers, provides a fertile ground for technical self-training in modern telecommunications, electronics technology, and emergency communications techniques and protocols.

(3) There is a strong Federal interest in the effective performance of amateur stations established at the residences of licensees. Such stations have been shown to be frequently and increasingly precluded by unreasonable private land use restrictions, including restrictive covenants.

(4) Federal Communications Commission regulations have for three decades prohibited the application to stations in the amateur service of State and local regulations that preclude or fail to reasonably accommodate amateur service communications, or that do not constitute the minimum practicable regulation to accomplish a legitimate State or local purpose. Commission policy has been and is to require States and localities to permit erection of a station antenna structure at heights and dimensions sufficient to accommodate amateur service communications.

(5) The Commission has sought guidance and direction from Congress with respect to the application of the Commission’s limited preemption policy regarding amateur service communications to private land use restrictions, including restrictive covenants.

(6) There are aesthetic and common property considerations that are uniquely applicable to private land use regulations and the community associations obligated to enforce covenants, conditions, and restrictions in deed-restricted communities. These considerations are dissimilar to those applicable to State law and local ordinances regulating the same residential amateur radio facilities.

(7) In recognition of these considerations, a separate Federal policy than exists at section 97.15(b) of title 47, Code of Federal Regulations, is warranted concerning amateur service communications in deed-restricted communities.

(8) Community associations should fairly administer private land use regulations in the interest of their communities, while nevertheless permitting the installation and maintenance of effective outdoor amateur radio antennas. There exist antenna designs and installations that can be consistent with the aesthetics and physical characteristics of land and structures in community associations while accommodating communications in the amateur radio services.

SEC. 1103. APPLICATION OF PRIVATE LAND USE RESTRICTIONS TO AMATEUR STATIONS.

(a) **AMENDMENT OF FCC RULES.**—Not later than 120 days after the date of the enactment of this Act, the Federal Communications Commission shall amend section 97.15 of title 47, Code of Federal Regulations, by adding a new paragraph that prohibits the application to amateur stations of any private land use restriction, including a restrictive covenant, that—

(1) on its face or as applied, precludes communications in an amateur radio service;

(2) fails to permit a licensee in an amateur radio service to install and maintain an effective outdoor antenna on property under the exclusive use or control of the licensee; or

(3) does not constitute the minimum practicable restriction on such communications to accomplish the lawful purposes of a community association seeking to enforce such restriction.

(b) **ADDITIONAL REQUIREMENTS.**—In amending its rules as required by subsection (a), the Commission shall—

(1) require any licensee in an amateur radio service to notify and obtain prior approval from a community association concerning installation of an outdoor antenna;

(2) permit a community association to prohibit installation of any antenna or antenna support structure by a licensee in an amateur radio service on common property not under the exclusive use or control of the licensee; and

(3) subject to the standards specified in paragraphs (1) and (2) of subsection (a), permit a community association to establish reasonable written rules concerning height, location, size, and aesthetic impact of, and installation requirements for, outdoor antennas and support structures for the purpose of conducting communications in the amateur radio services.

SEC. 1104. AFFIRMATION OF LIMITED PREEMPTION OF STATE AND LOCAL LAND USE REGULATION.

The Federal Communications Commission may not change section 97.15(b) of title 47, Code of Federal Regulations, which shall remain applicable to State and local land use regulation of amateur service communications.

SEC. 1105. DEFINITIONS.

In this title:

(1) **COMMUNITY ASSOCIATION.**—The term “community association” means any non-profit mandatory membership organization composed of owners of real estate described in a declaration of covenants or created pursuant to a covenant or other applicable law with respect to which a person, by virtue of the person’s ownership of or interest in a unit or parcel, is obligated to pay for a share of real estate taxes, insurance premiums, maintenance, improvement, services, or other expenses related to common elements, other units, or any other real estate other than the unit or parcel described in the declaration.

(2) **TERMS DEFINED IN REGULATIONS.**—The terms “amateur radio services”, “amateur service”, and “amateur station” have the meanings given such terms in section 97.3 of title 47, Code of Federal Regulations.

The CHAIR. Pursuant to House Resolution 996, the gentleman from Arizona (Mr. BIGGS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. BIGGS. Madam Chair, I yield myself such time as I may consume.

Madam Chair, I thank Chairman FRELINGHUYSEN and Chairman CALVERT for their efforts on this legislation and, in fact, the entire committee.

My amendment is simple. It re-prioritizes taxpayer money by moving a small amount of funds from the Bureau of Land Management land acquisition account and redirecting them to the National Park Service maintenance backlog account.

Over the years, Congress has sent billions of dollars into these accounts, allowing the Federal Government to acquire roughly 640 million acres. Today the Federal Government owns about 28 percent of all the lands in the United States, including about 40 percent of the land in my home State of Arizona.

This ownership and the subsequent management of the 640 million acres comes at a great expense to the American taxpayer and poses overwhelming challenges for land managing agencies. The deferred maintenance backlog for the National Park Service—and I have here a list of those—totals nearly \$12 billion. The National Mall alone is almost \$800 million in deferred maintenance, and the Grand Canyon National Park is \$350 million in deferred maintenance.

The list goes on and on.

Given these challenges, it defies logic that we would continue to spend millions of dollars to acquire more land that we can't pay to maintain.

So I instead incur just \$1.4 million of the net yield on this with my amendment to start this process of paying for the backlog.

Madam Chair, I urge my colleagues to support this amendment, and I reserve the balance of my time.

Ms. MCCOLLUM. Madam Chair, I rise in opposition to this amendment.

The CHAIR. The gentlewoman from Minnesota is recognized for 5 minutes.

Ms. MCCOLLUM. Madam Chair, investments in the Land and Water Conservation Fund support public land conservation and ensure access to all the outdoors for all Americans. As I mentioned in my opening remarks, all 50 States enjoy and appreciate access to this fund.

The House bill provides \$360 million which is \$65 million below the fiscal year 2018 level. So this account has already seen a cut.

So I think that the committee made it very clear. We are very concerned about deferred maintenance in the national parks. The FY18 budget provides a \$40 million increase over the FY18 enacted levels for facility operations and maintenance.

Madam Chair, I reserve the balance of my time.

Mr. BIGGS. Madam Chairman, I yield 1 minute to the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Chair, I rise in support of the gentleman's amendment. I want to acknowledge, our members on both sides of the aisle support more land acquisition funding, not less. That said, both sides of the aisle also recognize the maintenance backlog of our national parks is unacceptable.

In this bill we tried to balance the bipartisan support for land acquisition with bipartisan support for maintaining and improving the conditions of facilities we already own.

The gentleman from Arizona thinks we should direct a bit more to the National Park Service maintenance, and there is no debate that those needs are there.

Madam Chair, I support the amendment.

Ms. MCCOLLUM. I believe I have the right to close, Madam Chair, so I reserve the balance of my time until closing.

Mr. BIGGS. Madam Chair, we have a problem when we can't even agree on prioritizing \$1.5 million additional money to maintain national parks. Washington, D.C., on the Mall alone, has \$1 billion in maintenance backlog. And Arizona, for instance, has one-half billion dollars in maintenance. California has over \$2 billion in maintenance backlog, and I could go on and on.

But that is not necessary because we all know that we need to re-fund the

maintenance backlog, and I am only asking for \$1.4 million of an additional \$18 million that is going to the land acquisition fund.

Madam Chair, I urge my colleagues to support this amendment, and I yield back the balance of my time.

Ms. MCCOLLUM. Madam Chair, to the gentleman who is offering the amendment, I appreciate his goal of wanting to address backlog. I would love to address more of our national park's backlog. But as I pointed out, the Land and Water Conservation Fund also has broad bipartisan support and has already taken a cut of \$65 million below the FY18 budget level. So increasing access to our public lands for hunting, fishing, and other recreational activities has bipartisan support, just as addressing the deferred maintenance.

So if we can see an increase in the 302(b) as we move forward in committee, I am sure the chairman would consider that, and I would be very much in support of working something out.

But at this point, I am adamantly opposed to cutting the Land and Water Conservation Fund any further.

With that, I would tell my colleagues to oppose the amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. BIGGS).

The question was taken; and the Chair announced that the ayes appeared to have it.

Ms. MCCOLLUM. Madam Chair, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

The CHAIR. It is now in order to consider amendment No. 2 printed in House Report 115-830.

AMENDMENT NO. 3 OFFERED BY MR. SOTO

The CHAIR. It is now in order to consider amendment No. 3 printed in House Report 115-830.

Mr. SOTO. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 8, line 2, after the dollar amount, insert “(reduced by \$500,000) (increased by \$500,000)”.

The CHAIR. Pursuant to House Resolution 996, the gentleman from Florida (Mr. SOTO) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Florida.

Mr. SOTO. Madam Chair, my amendment would move \$500,000 from the United States Fish and Wildlife general administration account to the National Wildlife Refuge program specifically for the wildlife and habitat management of invasive species.

This amendment is identical to an amendment I offered last year that passed this body by a voice vote, and I

urge my colleagues to support this amendment again this year.

Invasive species threaten native plant and animal species and their vital habitats. Currently, invasive species are the most frequently mentioned threat within the National Wildlife Refuge System Threats and Conflicts database and are a growing risk to our ecosystems.

The U.S. Fish and Wildlife Service is the only agency in the United States Government with the primary responsibility of the conservation of our Nation's fish, wildlife, and plants. The U.S. Fish and Wildlife Service manages more than 561 refuges encompassing more than 150 million acres of habitat within the National Wildlife Refuge System.

As of 2013, more than 2.4 million acres of the refuge system are impacted by invasive plants, including Lake Hatchineha in my home district in central Florida with approximately 1,715 invasive animal populations residing on the refuge lands. It is important we provide enough funds to enable the U.S. Fish and Wildlife Service to combat and reduce the harmful impact of invasive species.

Again, this amendment would increase funds to combat invasive species that threaten native species in their vital habitat.

Madam Chair, I urge my colleagues to support the amendment, and I reserve the balance of my time.

□ 2000

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I am happy to accept the gentleman's amendment and to work with the rest of my colleagues to address a need for funding to battle the spread the harmful invasive species. I support an "aye" vote, and I yield back the balance of my time.

Mr. SOTO. Madam Chair, I thank the gentleman from California for his support, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Florida (Mr. SOTO).

The amendment was agreed to.

AMENDMENT NO. 4 OFFERED BY MR. LANCE

The CHAIR. It is now in order to consider amendment No. 4 printed in House Report 115-830.

Mr. LANCE. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 8, line 2, after the dollar amount insert "(increased by \$1,000,000)".

Page 8, line 21, after the dollar amount insert "(reduced by \$3,850,000)".

The CHAIR. Pursuant to House Resolution 996, the gentleman from New

Jersey (Mr. LANCE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. LANCE. Madam Chair, I rise today to offer an amendment increasing funding for the Delaware River Basin Restoration Program.

Protecting our Nation's water supply is one of the major accomplishments of this legislation, and the Delaware River is a strong priority for the country.

I thank Chairman FRELINGHUYSEN and Chairman CALVERT for their support of this program and support of my bipartisan amendment I offer tonight with Congressman GOTTHEIMER, also of New Jersey.

The Delaware River supplies water to over 15 million people and serves as the major source of drinking water for New Jersey, New York, Delaware, and Pennsylvania. Indeed, of the major cities across the globe, New York is considered to have the best quality water, and that is due to the Delaware River Basin.

Federal policies governing our Nation's waterways affect every State and the lives and health of every American. The interstate commerce generated by these multistate natural resources is squarely an important Federal prerogative. But the Delaware River's national significance is only part of the story. This is a wise Federal investment.

The Delaware River Basin generates \$25 billion annually in economic activity, including agriculture, recreation, and ecotourism. Protecting our water and contributing to at least 600,000 jobs and over \$10 billion in annual wages gives taxpayers a return on the investment we make with this vote.

I have the honor of representing communities on the Delaware River in Hunterdon and Warren Counties in western New Jersey; and Congressman GOTTHEIMER, my Democratic cosponsor, also represents municipalities on the Delaware River in Warren and Sussex Counties.

The Delaware River is a national asset. I urge a "yes" vote on the Lance-Gottheimer amendment, and I am deeply grateful for the support of the committee chair and the subcommittee chair.

Madam Chair, I reserve the balance of my time.

Ms. WASSERMAN SCHULTZ. Madam Chair, I claim the time in opposition to the amendment even though I am not opposed.

The CHAIR. Without objection, the gentlewoman from Florida is recognized for 5 minutes.

There was no objection.

Ms. WASSERMAN SCHULTZ. Madam Chair, I commend Ranking Member MCCOLLUM and Chairman CALVERT for their hard work on the Interior Appropriations bill, and also Ranking Member QUIGLEY and Chairman GRAVES for their work on the Financial Services Appropriations bill.

But, unfortunately, I cannot support this misguided appropriations package.

The bill before us today fails to fund critical domestic programs that safeguard our air and water or to adequately secure our elections.

Last year, after an unprecedented attack on a democracy, we came to a bipartisan consensus on the need for funding election security and included \$380 million in the Consolidated Appropriations Act. This year, the majority zeroed out the account for election security assistance.

Given the indictments handed down by Special Counsel Mueller last week and the disgraceful performance by the President of the United States in Helsinki yesterday, I cannot think of a more important account to fund than one for election security.

If the President of the United States is unwilling to stand up to Putin and defend our democracy, it is incumbent upon us as Members of a coequal branch of government to do so.

This bill fails the American people in so many crucial ways, but if it fails to protect our elections, we risk eroding the vital accountability that undergirds our democracy.

Madam Chair, we are at a critical juncture in our Nation's history. Will America continue our leadership in the world as a beacon of democracy and integrity, or will we cower and bow to Russia and refuse to protect our election systems from their proven desire to interfere with our elections? Sadly, the bill before us fails to provide the resources necessary to meet that moment.

Madam Chair, I urge my colleagues to oppose this appropriations package but not the amendment, and I reserve the balance of my time.

Mr. LANCE. Madam Chair, I yield to the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Madam Chair, I rise in support of the gentleman's amendment.

The Delaware River Conservation Program leverages Federal funding by at least 2 to 1. That is exactly the kind of public-private partnership we should be fostering throughout the enterprise. That is why I support this amendment, and I urge my colleagues to do the same.

Ms. WASSERMAN SCHULTZ. Madam Chair, I yield the balance of my time to the gentlewoman from Minnesota (Ms. MCCOLLUM).

Ms. MCCOLLUM. Madam Chair, I think what the gentleman from New Jersey is talking about is something that I am supportive of, but I am not supportive of the offset.

As the gentleman is aware, our 302(b) allocation was level-funded, and the 2018 omnibus bill provided \$5 million to implement the Delaware Basin Conservation Act in FY19. An additional \$5 million is provided, so it is a total of \$10 million.

The offset to the amendment is what I have an objection to, not the gentleman's goals. The offset the gentleman

uses does not require a one-for-one match. The offset that he is using in order to move forward would reduce Fish and Wildlife Service construction by \$3.85 million, and it has already been cut by \$6 million. So the total cut to Fish and Wildlife construction would be \$10 million at the end of the gentleman's amendment.

At this time, I am going to object to the amendment, but I would work with the gentleman and the chair to not only get a higher 302(b) allocation, but to find a different offset.

Ms. WASSERMAN SCHULTZ. Madam Chair, I yield back the balance of my time.

Mr. LANCE. Madam Chair, unfortunately, the offset is larger than the increase because of the differences in outlay rates. Amendments must be outlay neutral, per House rules.

Due to the work of Chairman FRELINGHUYSEN and Chairman CALVERT, the underlying bill already includes the second year of a 2-year, \$100 million funding surge in Fish and Wildlife Service construction funding, making it one of the best offsets possible as an option.

This bipartisan amendment is crucial for preserving the Delaware River watershed, which is already subject to cuts in the Senate's Interior Appropriations bill.

Madam Chair, due to the importance of the Delaware River, I urge a "yes" vote, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from New Jersey (Mr. LANCE).

The amendment was agreed to.

AMENDMENT NO. 5 OFFERED BY MR. COURTNEY

The CHAIR. It is now in order to consider amendment No. 5 printed in House Report 115-830.

Mr. COURTNEY. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 14, line 10, after the first dollar amount, insert "(reduced by \$300,000) (increased by \$300,000)".

The CHAIR. Pursuant to House Resolution 996, the gentleman from Connecticut (Mr. COURTNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. COURTNEY. Madam Chair, again, this is a simple amendment which would designate \$300,000 within the operation of the National Park System for the New England National Scenic Trail. This is an amendment which was offered last year and was adopted by voice vote in an en bloc amendment. Again, the language is absolutely identical.

By way of background, the New England Trail was designated as a National Scenic Trail in 2009, making it one of the newest of the Nation's 11 National Scenic Trails. The trail is 223 miles long and winds through 41 communities

in Connecticut and Massachusetts. Amazingly, nearly 2 million people live within 10 miles of the trail, making it one of the most accessible National Scenic Trails for one of the most densely populated parts of the country.

It was passed in 2007. Congressman John Olver, RICHIE NEAL, JOHN LARSON, ROSA DELAURO, now-Senator CHRIS MURPHY, and I introduced and passed the law, the New England Scenic Trail Designation Act.

Unfortunately, the trail has been woefully underfunded for the last 5 years. The trail system has received an average of \$127,000 in funding, which is split three ways between the Connecticut Forest and Park Association, the Appalachian Mountain Club, and the National Park Service.

Of the approximately \$43,000 each entity receives, the vast majority goes to facility maintenance, volunteer coordination, community engagement, outreach to youth, and the trail's landowner hosts. Impressively, much of the work that is done is supported by volunteers who put in more than 5,000 hours of maintenance activity annually.

I would just note that the managers of the trail have done their best to leverage an impressive \$1.53 million in non-Federal funding in 2015. So they actually have been very efficient and creative in terms of trying to leverage and maximize the support that is, again, far below what the national park trail feasibility study recommended back in 2005, when they recommended an annual budget of \$271,000.

Again, this is an amazing trail that goes through New England landscapes such as long-distance vistas with rural towns as a backdrop, farmlands, forests, and large river valleys. It also travels through colonial historical landmarks and highlights a range of diverse ecosystems and natural resources: mountain ridges and summits, forested glades, and wetlands.

Again, I want to thank Chairman CALVERT and Ranking Member MCCOLLUM for their support last year.

I would urge passage of this identical amendment. It is supported by my colleagues in the region.

Madam Chair, I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I support the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I appreciate the Member's interest in the New England Scenic Trail and the National Park Service operations generally.

Madam Chair, I yield back the balance of my time.

Mr. COURTNEY. Madam Chair, silence is golden, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Connecticut (Mr. COURTNEY).

The amendment was agreed to.

AMENDMENT NO. 6 OFFERED BY MR. COURTNEY

The CHAIR. It is now in order to consider amendment No. 6 printed in House Report 115-830.

Mr. COURTNEY. Madam Chair, I rise as the designee of the gentleman from Oregon (Mr. BLUMENAUER), and I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 4, after the dollar amount, insert "(increased by \$5,000,000)".

Page 38, line 21, after the dollar amount, insert "(reduced by \$5,000,000)".

The CHAIR. Pursuant to House Resolution 996, the gentleman from Connecticut (Mr. COURTNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. COURTNEY. Madam Chair, this bipartisan amendment would restore \$5 million to the National Park Service's Historic Preservation Fund to achieve level funding from the 2018 fiscal year.

This amendment continues the same spirit of bipartisanship that Congress displayed in 2016 when we reauthorized the Historic Preservation Fund through 2023 and that Congress displayed last year when we passed a similar amendment in this Chamber.

Since the Historic Preservation Fund's creation in 1966, Congress has allocated more than \$2 billion to communities across the country to connect Americans to our history and to contribute to our sense of place.

Historic preservation projects prioritize local workers, create more jobs per dollar spent than other construction projects, and use fewer carbon emissions than building anew.

The Historic Preservation Fund includes funding for State historic preservation offices, which work with local communities to revitalize historic locations and protect American heritage. Importantly, State historic fund offices administer the historic rehabilitation tax credit, which, nationwide, has leveraged \$131 billion in private investment and created 2.4 million jobs since its inception.

It is that kind of high return leverage that the Historic Preservation Fund achieves. That explains why the program received the funding level in the 2018 omnibus that Mr. BLUMENAUER seeks to restore.

I would note that the omnibus was a bipartisan and bicameral agreement which the chair and ranking member supported.

Again, this amendment does not seek to raise spending above the 2018 omnibus, which cleared both Houses with a healthy bipartisan vote and which was signed into law by President Trump last March.

Madam Chair, I urge passage of the Blumenauer amendment, and I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

□ 2015

Mr. CALVERT. Madam Chair, as the gentleman knows, I am a strong supporter of the National Park Service and the Historic Preservation Fund. While I have some concerns about the offset at the Office of the Secretary, this is a bipartisan amendment I can accept, and I urge adoption of the amendment.

Madam Chair, I yield back the balance of my time.

Mr. COURTNEY. Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Connecticut (Mr. COURTNEY).

The amendment was agreed to.

AMENDMENT NO. 7 OFFERED BY MS. SEWELL OF ALABAMA

The CHAIR. It is now in order to consider amendment No. 7 printed in House Report 115-830.

Ms. SEWELL of Alabama. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 4, after the dollar amount, insert "(increased by \$2,500,000)".

Page 15, line 23, after the dollar amount, insert "(increased by \$2,500,000)".

Page 38, line 21, after the dollar amount, insert "(reduced by \$2,500,000)".

The CHAIR. Pursuant to House Resolution 996, the gentlewoman from Alabama (Ms. SEWELL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Alabama.

Ms. SEWELL of Alabama. Madam Chair, I rise today in support of my amendment, which would increase the funding for competitive grants to preserve the sites and stories of the civil rights movement by \$2.5 million.

My district, the Seventh Congressional District, is also known as the Civil Rights District. Many historic events, from the bombing of the 16th Street Baptist Church, to the Children's March, to the Montgomery bus boycott, to Bloody Sunday, all took place in my district.

These events are of national significance, and we are fortunate that the National Park Service is working with States, local communities, and non-profits to preserve and interpret these stories. I am so grateful that the National Park Service has a strong presence in my district, and I have seen firsthand that they not only preserve the sites and stories of our great American history, but they also bring economic revitalization to the communities.

In my hometown of Selma, Alabama, the National Park Service Selma Interpretive Center brings tourism dollars to a rural Black Belt county that

would otherwise not have such economic development.

In Birmingham, the civil rights monument is already playing a critical role in the downtown redevelopment. In fact, for every dollar invested in the national parks, \$10 is generated in national economic activity.

The National Park Service also supports more than a quarter million private sector jobs. Therefore, I believe that making a small, additional investment in the Historic Preservation Fund will yield great dividends and results in economic revitalization in communities across this country.

The civil rights preservation fund has benefited civil rights sites from Iowa, to Nevada, to Massachusetts, and beyond. Grant projects from these additional funds would help provide for interpretation, education, surveys, oral history documentation, as well as physical preservation. It will also help lesser known civil rights sites get known.

The National Park Service's own 2008 study found that civil rights history and landmarks are underrepresented in the National Park System, so this grant will also give us an opportunity to increase the amount of money and funds that we give for historic preservation of civil rights sites.

From reconstruction, to the era of Jim Crow, to the birth of the civil rights movement, to the current struggle for equality and justice, there is so much history that deserves to be preserved and interpreted for the benefit of future generations.

I want to thank the chairman of the subcommittee, Mr. CALVERT, and the ranking member, Ms. MCCOLLUM, for their help in preserving civil rights sites all across the United States. Now is the time to do that preservation.

Madam Chair, I yield 2 minutes to the gentleman from South Carolina (Mr. CLYBURN), my friend, the Democratic assistant leader, who will also support increasing the Historic Preservation Fund.

Mr. CLYBURN. Madam Chair, I rise in support of the Sewell amendment. This proposal would increase funding for grants from the Historic Preservation Fund to preserve the sites and tell the stories of the civil rights movement.

I want to thank my colleague TERRI SEWELL for her leadership on this issue, and I thank the chairman and the ranking member for their support of this program in the past.

First funded in fiscal year 2016, this program has met a great need in rural communities across our Nation that are struggling to preserve and protect their legacies.

Last year, the program funded a \$500,000 grant to preserve Trinity United Methodist Church, which will help secure the church's legacy and preserve its history for future generations. I was a student at South Carolina State University in Orangeburg, South Carolina, during this time, and I

know well the role that Trinity played in our meetings and our rallies, many of them attended by luminaries like Martin Luther King, Jr., Roy Wilkins, Thurgood Marshall, and many others.

This is but one example of several successful grants in South Carolina and throughout the Nation. There is much more work to be done to fully preserve this history.

Madam Chair, I strongly support this amendment.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, to the gentlewoman, my colleague on the House Intelligence Committee, this is certainly an amendment I can accept. The gentlewoman and I have a history over the years of working together on this program, and I am happy to continue it.

Madam Chair, I urge adoption of the amendment, and I yield back the balance of my time.

Ms. SEWELL of Alabama. Madam Chair, I want to personally thank Chairman CALVERT as well as Ranking Member MCCOLLUM for working closely with me on this amendment.

Madam Chair, I urge all my colleagues to vote "yes" on this amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from Alabama (Ms. SEWELL).

The amendment was agreed to.

AMENDMENT NO. 8 OFFERED BY MS. JACKSON LEE

The CHAIR. It is now in order to consider amendment No. 8 printed in House Report 115-830.

Ms. JACKSON LEE. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 18, after the dollar amount, insert "(increased by \$500,000)".

The CHAIR. Pursuant to House Resolution 996, the gentlewoman from Texas (Ms. JACKSON LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON LEE. Madam Chair, I thank the chairman and ranking member, Mr. CALVERT and Ms. MCCOLLUM, for their leadership on these issues of preservation.

The Jackson Lee amendment increases grant funding by \$500,000 so that organizations interested in historical preservation, especially in underrepresented communities, have the ability to study, survey, and nominate properties to the National Register of Historic Places.

Due to lack of resources, certain communities are underrepresented in this process, so this amendment ensures that they have a greater opportunity.

The Jackson Lee amendment ensures that sites important to our American history are no longer overlooked due to mere lack of resources. It accomplishes this goal by promoting research that uncovers information to assist in telling the full American story.

Historical places create connections to our heritage that help understand our past, appreciate our triumphs, and learn from our mistakes. And they cover all of the cultural backgrounds, from African Americans, to Anglos, to Hispanics, and to Asians, all in this wonderful, diverse country who have had a story to tell, as well as Native Americans and many others.

Such stories might otherwise be lost because urban renewal and out-migration of Blacks destroyed or led to the abandonment of many African American communities. Preservation helps recognize, save, revitalize, and protect Americans' historic places, build communities, and foster education and pride.

I am reminded of Freedmen's Town in my home city and Emancipation Park, which was the first park bought in the entire State of Texas by freed slaves.

Madam Chair, I ask my colleagues to support the Jackson Lee amendment.

Madam Chair, I rise in strong support of Jackson Lee Amendment No. 8 to Division A of H.R. 6147, the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2019.

This Jackson Lee Amendment increases grant funding by \$500 thousand so that organizations interested in historical preservation, especially in underrepresented communities, have the ability to study, survey, and nominate properties to the National Register of Historic Places.

Due to lack of resources, certain communities are underrepresented in this process so this amendment ensures that is no longer the case.

This Jackson Lee Amendment ensures that sites important to our American history are no longer overlooked due to mere lack of resources, it accomplishes this goal by promoting research that uncovers information to assist in telling the full American story.

Historical places create connections to our heritage that help us understand our past, appreciate our triumphs, and learn from our mistakes.

Madam Chair, by understanding and designating landmarks we stimulate local revitalization and foster interest in places that otherwise may go unnoticed, despite cultural and historic significance.

By preserving historic sites that tell the story of Americans in this country, we draw attention to the contributions of both ordinary and extraordinary people.

Such stories might otherwise be lost because urban renewal and the out-migration of blacks destroyed or led to the abandonment of many African American communities.

Preservation helps to recognize, save, revitalize and protect America's historic places, build communities, and foster education and pride.

The Historic Preservation Fund (HPF) provides matching grants to State and Tribal historic preservation offices.

These HPF grants are used to pay for research and surveys of historic sites, training for staff, and the work involved in nominating these sites to the National Register of Historic Places.

In short, it makes preservation possible to communities that otherwise would not have the means to engage in the nominating process.

The Jackson Lee amendment is essential because it provides funds to preserve sites that are directly connected to the Civil Rights Movement.

For example, earlier this year I introduced H.R. 4745, the Emancipation National Historic Trail Act that seeks a federal designation of the Emancipation National Historic Trail.

The Emancipation National Historic Trail extends approximately 51 miles and marks the migration of newly freed slaves, who, upon learning of the Emancipation Proclamation two years after the President had signed it into law, departed from what is now the Osterman Building and Reedy Chapel in Galveston, and charted a course along Texas State Highway 3 and Interstate Highway 45 North to Freedmen's Town and Emancipation Park in Houston.

Increasing grant funding for this program would make projects like the Emancipation Trail possible.

Madam Chair, it is imperative that we preserve and codify the historical record and memorialize significant events of our past.

I urge my colleagues to join me in voting for Jackson Lee Amendment No. 8 to Division A of H.R. 6147 as it is vital that we support the preservation of important sites.

Madam Chair, I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I have no objections and urge adoption of the amendment.

I yield back the balance of my time.

Ms. JACKSON LEE. Madam Chair, I thank the gentleman for that, and I want to give an example that earlier this year I introduced H.R. 4745, the Emancipation National Historic Trail Act, that seeks Federal designation of the Emancipation National Historic Trail, that it would extend 51 miles and mark the migration of newly freed slaves. But, more importantly, it takes us from Captain Granger in Galveston, who brought the slaves in Texas who were freed in 1865, 2 years after the Emancipation Proclamation, and it tracks the historic markers all the way to Freedmen's Town and Emancipation Park.

This is an opportunity not only for the communities to be joined together but, again, to reemphasize history that is intertwined. A study shows the connection between culture, heritage, and tourism, and that 37 percent of global tourism has a cultural motivation, and 57 percent of travelers are strongly influenced by history and culture in their choice of holiday destination. This will help underserved communities.

Madam Chair, I ask my colleagues to support the Jackson Lee amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Texas (Ms. JACKSON LEE).

The amendment was agreed to.

AMENDMENT NO. 9 OFFERED BY MR. CLYBURN

The CHAIR. It is now in order to consider amendment No. 9 printed in House Report 115-830.

Mr. CLYBURN. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 4, after the dollar amount, insert "(increased by \$2,000,000)".

Page 15, line 24, after the dollar amount, insert "(increased by \$2,000,000)".

Page 38, line 21, after the dollar amount, insert "(reduced by \$2,000,000)".

The CHAIR. Pursuant to House Resolution 996, the gentleman from South Carolina (Mr. CLYBURN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from South Carolina.

Mr. CLYBURN. Madam Chair, this amendment would increase by \$2 million the Historic Preservation Fund to restore and preserve buildings and sites on the campuses of Historically Black Colleges and Universities. It is offset by a minor reduction in the administration account for the Department of the Interior.

Most HBCUs were founded after the Civil War to provide higher education to African Americans, most of whom were newly freed from slavery. These institutions continue to serve a vital purpose and have deep historical connections with African Americans and American history. Most of them have sites and structures of historical significance that are in dire need of restoration and preservation.

Early in my tenure in Congress, I worked with my colleagues in the Congressional Black Caucus and in leadership of this committee and the Committee on Natural Resources to authorize and appropriate funds to the GAO to study the breadth of this issue. The GAO identified 712 endangered historic buildings at an approximate cost of restoration of \$755 million.

My amendment today will increase the funding in the bill for this important program by \$2 million, to a total of \$7 million, still \$3 million below the level authorized by the House-passed bill.

I have seen the transformational power of historic preservation in my congressional district, where buildings like Ministers' Hall at Claflin University and Chappelle Auditorium at Allen University were restored after decades of abandonment to their original glory as iconic institutions of their communities.

Madam Chair, I yield 1 minute to the gentleman from Alabama (Ms. SEWELL).

Ms. SEWELL of Alabama. Madam Chair, I rise today as a supporter and cosponsor of this amendment, which would add \$2 million for the Historic Preservation Fund grants for Historically Black Colleges and Universities.

HBCUs have always been a hub for bright, young African Americans to come together and to promote both individual development and community development.

These institutions are national treasures, and their legacy and history deserves to be protected for the benefit of future generations. The Historic Preservation Fund grants for HBCUs are a perfect tool to help these institutions protect their historic civil rights sites and buildings, and I look forward to continuing to work with the 14 HBCUs in my home State of Alabama to seek these funds.

Madam Chair, I again thank Assistant Leader CLYBURN for his leadership on this matter over the years. I thank him for the opportunity to speak on this amendment. I also thank the chairman and ranking member.

Mr. CLYBURN. Madam Chair, may I ask how much time I have left.

The CHAIR. The gentleman from South Carolina has 1½ minutes remaining.

Mr. CLYBURN. Madam Chair, I yield 1 minute to the gentlewoman from Minnesota (Ms. MCCOLLUM), the ranking member of the subcommittee.

Ms. MCCOLLUM. Madam Chair, I am honored to stand up and support Historically Black Colleges and Universities and, as has been pointed out, the important role that they play in our education system. Adding additional resources to preserve these structures on these campuses is necessary to maintain them.

Madam Chair, I am very honored to represent many people from the Oromo community who are proud alumni from HBCUs. I stand with the gentleman to make sure that we have the resources needed for African American preservation and history, not only to have passed along our appreciation of our Nation's history to future generations, but to give the next generation great buildings to be educated in.

□ 2030

Mr. CLYBURN. Madam Chair, I thank Ranking Member MCCOLLUM. I thank the chairman of the subcommittee, Ms. SEWELL, and Congresswoman ADAMS for their support of this legislation.

As a proud graduate of an HBCU, with a daughter who is an HBCU graduate, I am very much supportive of restoring and preserving the tremendous history of these institutions.

Madam Chair, I yield back the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the gentleman's amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, the gentleman and I have a history over the years of working together to support HBCUs. I thank the gentleman for working with me on this issue and with the ranking member, and I urge the adoption of this amendment.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from South Carolina (Mr. CLYBURN).

The amendment was agreed to.

AMENDMENT NO. 10 OFFERED BY MS. JACKSON LEE

The CHAIR. It is now in order to consider amendment No. 10 printed in House Report 115-830.

Ms. JACKSON LEE. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 24, after the dollar amount, insert "(increased by \$1,000,000)".

The CHAIR. Pursuant to House Resolution 996, the gentlewoman from Texas (Ms. JACKSON LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON LEE. Madam Chair, I thank the chairman and the ranking member of this committee for their commitment to historic preservation.

Since 1837, Historically Black Colleges and Universities have served the needs of higher education for the African American community. The first HBCUs were established in Pennsylvania, Ohio, Missouri, and Tennessee.

After the Civil War, there was an influx of HBCU establishments throughout the Southeast, Midwest, and Southwest. The Jackson Lee amendment provides an additional \$1 million for the Historic Preservation Fund, and within that fund to be allocated to Historically Black Colleges and Universities, institutions that are uniquely American, fundamentally historical, and distinctly beneficial to the American culture and history.

In my State of Texas, it joins with any number of States throughout the United States in the North, the South, the East, and the West. Interestingly, these schools are not relegated to the South. They are actually all over the United States, and they are older structures. For those of us who visited these schools, we recognize the importance of continuing to preserve their historic structure.

I mentioned earlier that there are great results in funding and profits for those who can provide historic opportunities for travelers to visit.

In 2017, Congress appropriated \$4 million for the Historic Preservation Fund to rehabilitate historic structures on campuses of HBCUs that are listed in the National Register of Historic Places either individually or as contributing to the National Register of Historic Places. I can assure you that

these are great assets to America. The projects must meet major program selection criteria, and all work must meet the Secretary of the Interior's standards and guidelines for archeology and historic preservation.

Simply, what we are doing is allowing our history to be preserved. The network of more than 100 historic institutions, established as early as 1837 for former slaves and by former slaves and freedmen, contain repositories of important books, papers, and memorabilia of Black history.

Black history, as other history, is American history, and the opportunity to preserve it and to continue to expand the opportunity to improve buildings that will now educate this generation of students is an important role for us to play.

Madam Chair, I rise in support of Jackson Lee Amendment No. 10 to Division A of H.R. 6147, the Department of the Interior, Environment, and Financial Services Appropriations Act of 2019.

Jackson Lee Amendment No. 10 provides an additional \$1,000,000 for the Historic Preservation Fund to be allocated to Historically Black Colleges and Universities—institutions that are uniquely American, fundamentally historical, and distinctly beneficial to American culture and history.

Since 1837, Historically Black Colleges and Universities (HBCUs) have served the needs of higher education for the African American community.

The first HBCUs were established in Pennsylvania, Ohio, Missouri, and Tennessee.

After the Civil War there was an influx of HBCU establishment throughout the Southeast, Midwest, and Southwest.

Since the 1990s, the National Park Service has awarded over \$60 million in grants to over 80 of the remaining active HBCUs.

These grants work to preserve the historic structures on HBCU campuses, many of which are listed in the National Register of Historic Places.

In 2017, Congress appropriated \$4 million from the Historic Preservation Fund to rehabilitate historic structures on campuses of HBCUs that are listed in the National Register of Historic Places either individually or as contributing to a National Register historic district.

Projects must meet major program selection criteria and all work must meet the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation.

HBCUs represent a significant place in American history.

This network of more than 100 historic institutions established as early as 1837 for former slaves and freedmen contain repositories of important books, papers and memorabilia of Black history.

In addition, HBCUs served as meeting places during the civil rights struggles of the 1900s.

Against substantial odds, HBCUs have played a unique role in transforming the landscape of higher education in the United States, and continue to prepare the African American professional and civic leaders needed by communities, employers and the nation.

In 2013, HBCUs comprised 3 percent of all four- and two-year colleges and universities, but enrolled 10 percent of African American

undergraduates, produced 18 percent of the nation's African American college graduates, and generated 25 percent of African Americans with bachelor degrees in science, technology, engineering and mathematics (STEM) fields.

Created to educate black students at a time when society had yet to integrate, historically black colleges and universities (HBCU's) have had an outsize impact on the success of the black community and therefore the American community as a whole.

HBCUs do not only educate—HBCUs have and will continue to fill an important role in education opportunity and engagement for millions of young people from diverse backgrounds.

Ensuring HBCUs receive the funds necessary to succeed enriches our culture as a nation and promotes a more complete history of our country to be preserved.

Emphasizing the importance of diversity is the best way to tell the complete story of the American experience, and when the American story is told by all of those who helped shape its success as a nation, we perpetuate American exceptionalism.

Madam Chair, our HBCUs are not just academic institutions, rather, incubators that stimulate black excellence that, more importantly, preserve the rich and true history of those of African descent—again, contributing to the fabric of American culture as a whole.

Texas Southern University, an outstanding HBCU, is a major contribution and asset to the 18th District, serving as a distinct example of the benefits that these institutions offer to the community.

HBCUs not only enjoy historical campuses, but they are also repositories of expertise on American History.

In a 1998 study, more than 100 HBCUs identified 712 historic properties that were owned by the schools in responses to a survey from the U.S. Government Office of Accountability.

Nearly half of those buildings, 323, are on the National Register of Historic Places indicating significance in American history, and the others were eligible for the national register based on surveys by state historic preservation officers or considered historic by the colleges and universities.

According to the surveys at that time, 103 HBCUs estimated \$755 million in costs to restore and preserve the properties, such as improving accessibility to people with disabilities, roof replacement and removing lead-based paint or asbestos, both known for containing cancer-causing material.

Routine maintenance costs were not part of the estimates.

We, as a nation, have a responsibility to foster education, culture, knowledge, diversity and leadership; and with that, Mr. Chairman, we have a responsibility to ensure that HBCUs continue to serve as repositories of American History and thrive as academic institutions and continue to benefit society as a whole.

I urge my colleagues to join me in voting for Jackson Lee Amendment No. 10.

Madam Chair, I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the gentlewoman's amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I am happy to continue to work with the gentlewoman from Texas on this program and others, and I have no objection.

Madam Chair, I urge adoption of the amendment, and I yield back the balance of my time.

Ms. JACKSON LEE. Madam Chair, I thank Mr. CALVERT, and, again, I thank the ranking member who has been so gracious.

I believe Texas Southern University—not as old as 1837—Prairie View A&M, and others throughout the Nation will benefit from preserving these historic buildings, and, as well, providing them as a source of learning for everyone around the Nation.

Madam Chair, I ask my colleagues to support the Jackson Lee amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from Texas (Ms. JACKSON LEE). The amendment was agreed to.

AMENDMENT NO. 11 OFFERED BY MR. OLSON

The CHAIR. It is now in order to consider amendment No. 11 printed in House Report 115-830.

Mr. OLSON. Madam Chair, I rise as the designee of Congressman TED POE to speak on behalf of his amendment.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 15, line 6, after the dollar amount, insert “(reduced by \$20,000,000)(increased by \$20,000,000)”.

The CHAIR. Pursuant to House Resolution 996, the gentleman from Texas (Mr. OLSON) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. OLSON. Madam Chair, we have a class of American warships that haven't been built since World War II. They are called battleships.

America made 64 battleships. Only seven survived World War II. They are the *North Carolina*, *Alabama*, *Massachusetts*, *Iowa*, *New Jersey*, *Missouri*, and *Wisconsin*.

But one survived World War II and World War I. This ship is special. It is the *Battleship Texas*. She is over 104 years old. She was commissioned on March 12 of 1914. She patrolled the Atlantic during the First World War. She is the first American ship with anti-aircraft guns. She is the first battleship that had directors and rangekeepers to lock on with their 10 14-inch main batteries.

There she is today. She has made history in our Navy.

March 1919, Lieutenant Commander Edward McDonnell took a British Sopwith Camel off turret number 3, Naval aviation was born. The wings of gold started on the USS *Texas*.

The skipper of the *Texas* was so impressed. He noticed those planes could see splashes for the weapons. They

could target with aircraft. That meant the *Texas* would be the first ship ever to launch planes to recover as spy mechanisms during a war.

The *Texas* was at Casco Bay, Maine, on December 7, 1941, the day Japan bombed Pearl Harbor. In the Atlantic Ocean, on October 23, 1942, as part of Operation Torch, the invasion of French Morocco, the *Texas* bombed and bombed and bombed the enemy.

June 6, 1944, at 5:50 a.m., the *Texas* roared to life with a constant bombardment of all the weapons—225 14-inch rounds hit the Germans in 34 minutes.

June 7, the next day, she is off the cliffs of Pointe Du Hoc where the rangers were in a dogfight for their lives being shot at from above. The *Texas* launched two Higgins boats, supplied the rangers with more weapons, and brought the wounded home.

That may have been a natural fit. And the command of those rangers was a Texan, a proud Texas Aggie, Earl Rudder.

On the beaches that day, my colleague, TED POE's father, Virgil Poe, heard the *Texas* roar and saw the flame come out of the big guns. When the war in Europe with Hitler went ashore, the *Texas* redeployed to the Pacific. On February 16, she pounded the Japanese on Iwo Jima for 3 straight days before the Marine Corps landed.

March 1945, 6 straight days of bombing Okinawa cleared the way for the Army and Marines to take that island back.

The *Texas* struck the Naval record as a registered vessel on April 20 of 1948. She was given to my home State, the State of Texas. She is now the flagship of the Texas Navy, Admiral TED POE's flagship. Our colleague, TED, is an admiral of the Texas Navy.

She is moored right where Texas won independence, the San Jacinto Monument, right there southwest of Houston, Texas. But sadly, inaction in D.C. and in Texas has done what the German Kaiser, General Mussolini, Adolf Hitler, and General Tojo could not do. The *Texas* is sinking. Rust and time are winning.

The *Texas* still has a heart of a warship. She twice set sail during Hurricane Ike. She and all these battleships deserve to be saved. It is time to heave up and trice up. Vote for this amendment, and save our battleships.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Texas (Mr. OLSON).

The amendment was agreed to.

AMENDMENT NO. 12 OFFERED BY MRS. DINGELL

The CHAIR. It is now in order to consider amendment No. 12 printed in House Report 115-830.

Mrs. DINGELL. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 19, line 24, after the dollar amount, insert “(reduced by \$250,000) (increased by \$250,000)”.

The CHAIR. Pursuant to House Resolution 996, the gentlewoman from Michigan (Mrs. DINGELL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Michigan.

Mrs. DINGELL. Madam Chair, I rise in support of my bipartisan amendment to H.R. 6147, the Interior Appropriations Act, which I am proud to introduce with my friend and colleague from Michigan, Congressman JOHN MOOLENAAR.

Our amendment would provide funding to continue and advance the great science that is being done in the U.S. Geological Survey's Fisheries Program. We need more research to protect important ecosystems, like the Great Lakes, from invasive species and better understand how to conserve and protect important fishery resources.

The Great Lakes Science Center, which is strategically located near access fishery resources in communities across the eight Great Lakes States, would be an appropriate recipient of these additional resources.

The Great Lakes are a way of life for so many across Michigan and many other States, including agriculture, commercial and sport fishing, transportation, shipping, power generation, recreation, and tourism.

Whether you live, work, or vacation on the Great Lakes, we all benefit in preserving and conserving the Great Lakes for future generations.

The Great Lakes Science Center would be able to adopt cutting-edge technologies to support fisheries management, native prey fish restoration, and invasive species control by deploying autonomous underwater systems to assess impacts of bottom-dwelling invasive species on economically important fisheries and recreational resources.

The Science Center would continue to do their work on piloting gene silencing techniques to control zebra and quagga mussels in lakes and rivers with nationwide applications.

Fisheries science has been broadly recognized as a national and regional priority for many years, and nearly every action in the past has been to either maintain or increase the funding for the USGS fisheries assessments in the Great Lakes.

The Great Lakes Fishery Program also has enjoyed long bipartisan support from Congress.

□ 2045

The Great Lakes are a treasured national resource, with more than 20 percent of the world's freshwater, 9,000 miles of shoreline, and supporting a \$16 billion outdoor recreation economy.

It is critical we maintain funding to continue the United States Geological Survey's research and to enhance exploration in cutting-edge technologies to support fisheries management, native prey fish restoration, and invasive species control that is being done at the Great Lakes Science Center.

Madam Chair, I urge all of my colleagues to support this important bipartisan amendment, and I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I am happy to support the gentlewoman from Michigan in her quest. The Great Lakes Science Center has bipartisan support for the role it plays in protecting the economic and environmental health of the Great Lakes region.

Madam Chair, I support my colleague's amendment, urge an "aye" vote, and I yield back the balance of my time.

Mrs. DINGELL. Madam Chair, I thank the chairman and I thank the ranking member, Representative MCCOLLUM, who shares the love of the Great Lakes with me.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from Michigan (Mrs. DINGELL). The amendment was agreed to.

AMENDMENT NO. 13 OFFERED BY MR. COURTNEY

The CHAIR. It is now in order to consider amendment No. 13 printed in House Report 115-830.

Mr. COURTNEY. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 19, line 24, after the dollar amount, insert "(reduced by \$100,000) (increased by \$100,000)".

The CHAIR. Pursuant to House Resolution 996, the gentleman from Connecticut (Mr. COURTNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. COURTNEY. Madam Chair, this amendment designates \$100,000 in funding to the United States Geological Survey so that they can create a searchable map showing occurrences of an iron sulfide material known as pyrrhotite nationwide.

Pyrrhotite is a material that has, unfortunately, shown up in concrete quarries in New England and Canada. When it is mixed into the aggregate poured into the foundations of homes, over a period of time, because it is an iron material and exposed to moisture, it actually rusts, expands, and cracks, basically causing a catastrophic collapse of the foundation.

In Connecticut, there are estimates that as high as 19,000 homes that have been infected with pyrrhotite material. It spread into western Massachusetts and three rivers in Quebec. The whole community of thousands of people have been devastated by the presence of this material.

The Trump administration and the Treasury Department actually recog-

nized last November a property casualty loss tax guidance that allows homeowners who basically have to spend about \$200,000 to repair their homes—because they have to lift the house, pull out the old foundation, and pour a new foundation—to claim it as a property casualty loss deduction.

Last month, Dr. Ben Carson from HUD came up and did a tour of these homes. It is a devastating occurrence, and it has potential nationwide consequences.

The United States Navy actually has a bidding process out right now through its SBIR program to come up with a testing mechanism. They calculate that they basically own about 300,000 structures throughout the United States. They want to have a system for testing for the presence of pyrrhotite.

I brought a picture, which shows the effects of the catastrophe. This is a home where the house was lifted. The material of the foundation is so badly compromised that the contractor can actually pull it apart by hand, it is that serious.

This amendment would allow the United States Geological Survey to create a searchable database nationally that would allow us to identify this. The Office of Congressional Affairs contacted our office and indicated that they do have the capacity to develop a national pyrrhotite map, but it is not in their current plan. This amendment, which is also supported by Mr. LARSON from Connecticut's First District, would direct that priority.

Madam Chair, I urge passage of the amendment, and I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, I support this amendment. I will work with the gentleman to address this issue with the United States Geological Survey and learn more about where this mineral occurs.

Madam Chair, I yield back the balance of my time.

Mr. COURTNEY. Madam Chair, I thank the chairman for his consideration of this amendment. It is a very serious problem and much appreciated in the New England area. I thank the ranking member, Ms. MCCOLLUM, for her support as well.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Connecticut (Mr. COURTNEY).

The amendment was agreed to.

AMENDMENT NO. 14 OFFERED BY MS. GABBARD

The CHAIR. It is now in order to consider amendment No. 14 printed in House Report 115-830.

Ms. GABBARD. Madam Chair, I rise as the designee of the gentlewoman from Hawaii (Ms. HANABUSA), and I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 19, line 24, after the dollar amount, insert “(increased by \$4,798,500)”.

Page 38, line 21, after the dollar amount, insert “(reduced by \$4,908,000)”.

The CHAIR. Pursuant to House Resolution 996, the gentlewoman from Hawaii (Ms. GABBARD) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Hawaii.

Ms. GABBARD. Madam Chair, this amendment would increase the United States Geological Survey’s surveys, investigations, and research account by \$4,798,500 to accommodate for impacts caused by recent volcanic eruptions. The offset for this modest increase comes from the Interior Secretary’s administrative account.

On May 8, 2018, in my district, the Kilauea Volcano on the Big Island, Hawaii, began erupting. The volcanic activity and destruction has yet to stop or wane. It has destroyed over 700 homes, forcing thousands of people to evacuate, to seek emergency aid and shelter, and to somehow find a new future for their lives.

There has never been a more critical time where the United States Geological Survey’s Volcano Hazards Program on Hawaii island has been sorely needed; however, their office was severely damaged by the seismic activity from the ongoing volcanic eruptions.

Hawaii island itself has seen hundreds of these types of seismic eruptions over the last month and a half. As a result, the staff currently occupy empty spaces at University of Hawaii at Hilo, like classrooms, or they telework, undermining their quality of work, with the staff potentially putting their lives at risk.

The United States Geological Survey provides essential information for the health, safety, and well-being of people all across the State of Hawaii, and in neighboring locations such as the Marshall Islands, which has been blanketed by volcanic smog following the Kilauea eruption.

To most effectively do their job, this team needs a workplace where they can house their equipment, conduct research, and most effectively uphold their mission, which is to enhance public safety and minimize social and economic disruption.

This amendment will provide the necessary resources for this team to at least temporarily relocate to a suitable location and continue to carry out their lifesaving historic work.

Madam Chair, I urge my colleagues to help us immediately address this situation and pass our amendment.

Madam Chair, I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, it is my understanding that the United States Geological Survey is in its early stages of discussing temporary spaces but that, eventually, the United States Geological Survey may have to develop a long-term solution for the Hawaiian Volcano Observatory.

I encourage the Department of the Interior, the United States Geological Survey, and the National Park Service to work together to develop a plan for the future observatory because operating the HVO out of the Hawaii Volcanoes National Park was a cost-effective solution for many years.

Madam Chair, in the meantime, I certainly support my colleague’s amendment. I urge an “aye” vote, and I yield back the balance of my time.

Ms. GABBARD. Madam Chair, I thank the chairman and the ranking member for their support for this very timely and important resolution.

I have been on the ground there and have seen how the United States Geological Survey’s HVO is literally monitoring the activity 24 hours a day, sending out realtime updates to people whose lives and homes and farms hang in the balance.

Unfortunately, the volcanic activity that we are seeing there right now is continuing at a very aggressive rate with no end in sight, so his support for this amendment comes at a critical time, and I really appreciate it on behalf of my constituents there.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from Hawaii (Ms. GABBARD).

The amendment was agreed to.

AMENDMENT NO. 15 OFFERED BY MR. KILDEE

The CHAIR. It is now in order to consider amendment No. 15 printed in House Report 115–830.

Mr. KILDEE. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 19, line 24, after the dollar amount, insert “(increased by \$1,000,000)”.

Page 38, line 21, after the dollar amount, insert “(decreased by \$1,022,728)”.

The CHAIR. Pursuant to House Resolution 996, the gentleman from Michigan (Mr. KILDEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Michigan.

Mr. KILDEE. Madam Chair, I rise today in support of my bipartisan amendment that would provide \$1 million for the United States Geological Survey to eradicate grass carp in the Great Lakes. Grass carp are an invasive species, one of the four species of Asian carp that pose an immediate threat to the Great Lakes and its coastal wetlands.

Since being introduced in Lake Erie, the grass carp population has been increasing, threatening our coastal wet-

lands and our region’s economy that relies so heavily on the health of the Great Lakes. Our coastal wetlands are important to Michigan’s environment and the wildlife they serve as a natural water filter and habitat for fish and waterfowl.

Since 2010, the Great Lakes Restoration Initiative, which has been supported by Democrats and Republicans in Congress, has helped to restore the wetlands the grass carp are now consuming. The immediate threat of grass carp in Lake Erie jeopardizes the investment and the goals of the Great Lakes Restoration Initiative.

This amendment is simple. It empowers and funds the United States Geological Survey to track and monitor grass carp so that we can stop their spread in the Great Lakes.

By passing this amendment, the United States Geological Survey would have additional resources to find out where grass carp are breeding so we can know how to stop their invasion and remove them from the Great Lakes. Funding from this amendment will double our efforts in Lake Erie to ensure we protect our coastal wetlands, our wildlife, and the Great Lakes themselves. With this amendment, we have an opportunity to address this urgent threat of invasive species such as grass carp.

Madam Chair, I thank my friend from Michigan, Congressman WALBERG, for working with me on this bipartisan amendment. I also thank our friends on the Appropriations Committee—Congresswoman KAPTUR, Congressman JOYCE, and Congressman MOOLENAAR—who have also been involved and helped on this. And I, of course, thank Chairman CALVERT and Ranking Member MCCOLLUM for their efforts in working with us on ensuring that this amendment receives fair consideration.

Madam Chair, I urge my colleagues to support this amendment, and I reserve the balance of my time.

Mr. CALVERT. Madam Chair, I rise in support of the amendment.

The CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Madam Chair, we can accept the gentleman’s amendment.

The committee takes invasive species threats seriously. We spent a lot of time on Asian carp in our committee in prevention efforts throughout the bill. It is a bipartisan effort. Everyone is very concerned about this. We are talking about a bounty program, possibly, to go after these things. Let’s go do it.

I accept the gentleman’s amendment, but I will be working with him and the rest of my colleagues to ensure that Asian carp and grass carp control and prevention efforts are effectively coordinated across the agencies within our jurisdiction.

Madam Chair, I urge adoption of the amendment, and I yield back the balance of my time.

Mr. KILDEE. Madam Chair, I thank the gentleman for his support, and I

thank Chairman CALVERT and Ranking Member MCCOLLUM for their efforts in dealing with this really important issue. It is particularly important to those of us who live in the Great Lakes region, but it is important to all of us. This is really not only a question of maintaining this ecosystem, but it is important to our economy.

Madam Chair, I thank all of my colleagues for their support. I urge the passage of this amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Michigan (Mr. KILDEE).

The amendment was agreed to.

AMENDMENT NO. 16 OFFERED BY MR. JOHNSON OF OHIO

The CHAIR. It is now in order to consider amendment No. 16 printed in House Report 115-830.

For what purpose does the gentleman from Ohio seek recognition?

Mr. JOHNSON of Ohio. Madam Chair, I ask unanimous consent that the amendment be modified in the form I have placed at the desk.

The CHAIR. Does the gentleman have an amendment at the desk?

Mr. JOHNSON of Ohio. I do have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 27, line 10, after the dollar amount insert "(increased by \$30,000,000)".

Page 68, line 9, after the dollar amount insert "(reduced by \$30,000,000)".

The CHAIR. Does the gentleman have a modification to his amendment?

Mr. JOHNSON of Ohio. Madam Chair, I ask unanimous consent that the amendment be modified in the form I have placed at the desk.

The CHAIR. Will the gentleman submit his modification to the desk?

Mr. JOHNSON of Ohio. Amendment No. 17. Sixteen and 17 are being combined.

The CHAIR. Is the modification at the desk?

Ms. MCCOLLUM. Point of parliamentary inquiry. Could our side have an opportunity to look at the amendment? We haven't had an opportunity to see it. We do not know whether or not we would object. It might be a friendly amendment to us.

PERMISSION TO CONSIDER AMENDMENT NOS. 16 AND 17 OFFERED BY MR. JOHNSON OF OHIO EN BLOC

Mr. JOHNSON of Ohio. Madam Chair, I ask unanimous consent that amendment Nos. 16 and 17 be considered en bloc.

The CHAIR. Is there objection to the request of the gentleman from Ohio?

There was no objection.

AMENDMENTS EN BLOC OFFERED BY MR. JOHNSON OF OHIO

Mr. JOHNSON of Ohio. Madam Chair, I offer amendments en bloc.

The CHAIR. The Clerk will designate the amendments en bloc.

Amendments en bloc consisting of amendment Nos. 16 and 17 printed in House Report 115-830, offered by Mr. JOHNSON of Ohio:

AMENDMENT NO. 16 OFFERED BY MR. JOHNSON OF OHIO

Page 27, line 10, after the dollar amount insert "(increased by \$30,000,000)".

Page 68, line 9, after the dollar amount insert "(reduced by \$30,000,000)".

AMENDMENT NO. 17 OFFERED BY MR. JOHNSON OF OHIO

Page 27, line 19, strike "3" and insert "6".

The CHAIR. Pursuant to House Resolution 996, the gentleman from Ohio (Mr. JOHNSON) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Ohio.

Mr. JOHNSON of Ohio. Madam Chair, I thank the Chair for consideration of combining these two amendments.

The amendments before us today help restore and continue important grant funding that will provide level funding for the same number of States currently funded by the Abandoned Mine Land Reclamation Economic Development Pilot Program, which is used for the reclamation of abandoned mine lands in conjunction with economic and community development and reuse goals.

These amendments are about ensuring the AML Economic Development Program continues to be appropriately funded and continues to afford the same grant opportunities to all currently eligible States. Similar amendments offered by Representative GRIFITH have passed the House in the last 2 years, and the Senate FY19 Interior & Environment Appropriations bill contains similar language and funding amounts.

Funding for these economic reclamation grants was established in fiscal year 2016 by Chairman ROGERS, and it provided opportunities for some of the hard-hit areas of Appalachia to not only restore the land, but also allow additional appropriated funds to be used for economic purposes, and they helped provide a way to prepare the land for community development.

These amendments carry on that goal; they maintain the status quo. And let me stress the point: these amendments are not designed to take money away from the top three States receiving funding in the underlying bill.

Our intent is that the first three States will continue to receive the amount currently appropriated in the underlying bill. The additional money provided with these amendments are meant for the next three States and is to be divided equally, so that the next three States receive \$10 million each, the same amount they have received over the last 2 years.

I have worked with the Appropriations Committee to ensure these amendments will do just that and that this additional support for one Appalachian community does not come at the expense of another.

I urge my colleagues to support these important amendments. They are important to not only Ohio, but to the many States and coal communities throughout Appalachia.

I reserve the balance of my time.

Ms. MCCOLLUM. Mr. Chair, I claim time in opposition to the amendment.

The Acting CHAIR (Mr. BUDD). The gentlewoman from Minnesota is recognized for 5 minutes.

Ms. MCCOLLUM. Mr. Chair, I strongly oppose this amendment that takes more money from an already starved EPA account. This bill already severely cuts the Environmental Protection Agency's operating account by more than \$100 million. The air we breathe and the water we drink are endangered by the funding and policy decisions that are made in this bill, and the consequences will be negatively felt in communities across this Nation.

It is unfortunate that our 302(b) allocation was level funded, and I am sorry to hear that the gentleman's account in which he is trying to restore funding also received a cut. I often know that cutting the EPA is an easy target for many of my colleagues across the aisle, Mr. Chair, but I want my colleagues to understand what this amendment would cut, if adopted.

This account funds programs that are important to both sides of the aisle: permitting construction projects across the country, toxic risk prevention, and a successful brownfields program, and even pesticide licensing.

I understand that the amendment would direct more funds to States in Appalachia who have suffered ravaging environmental costs caused by coal mining, and, once again, I want to stress that it is unfortunate that you are trying to restore funding that had been cut, but our allocation was very short.

Unfortunately, I cannot support any deeper cuts to the EPA because they will have consequences that will be felt by people all across the country, so I must oppose this amendment.

Mr. Chair, I reserve the balance of my time.

Mr. JOHNSON of Ohio. Mr. Chair, I yield 1 minute to the gentleman from California (Mr. CALVERT), chairman of the Appropriations Subcommittee on Interior, Environment, and Related Agencies.

Mr. CALVERT. Mr. Chair, I thank the gentleman, and certainly we are prepared to accept the amendment.

I understand the gentleman's overall goals to continue funding for the AML pilot consistent with the fiscal year 2018 enacted bill that provided the funding for the six Appalachian States, and I know the economic devastation that has happened throughout that region.

This increase to the AML program by \$30 million, so that Ohio, Alabama, and Virginia would receive \$10 million each, equal to the fiscal 2010 enacted levels, could certainly help in those regions.

So we can accept this package of amendments at this time. I look forward to maintaining funding for the six States, with distribution similar to fiscal year 2018 and the final 2019 enacted bill. As such, I encourage my colleagues to adopt the amendment.

Ms. MCCOLLUM. Mr. Chairman, I reserve the balance of my time to close.

Mr. JOHNSON of Ohio. Mr. Chairman, I yield 1 minute to the gentleman from Virginia (Mr. GRIFFITH).

Mr. GRIFFITH. Mr. Chairman, I rise in support of this amendment. I appreciate Chairman CALVERT's support as well, and the appropriators' hard work on this.

This was created by Hal Rogers. It is fascinating because what happens is that people say they want us to transition the economy in central Appalachia. This is one of the ways to do that, and it actually saves money.

We have a project in my district that we are close to getting finalized on this, where it would cost \$6.7 million to clean up a site, if we did it the normal way. With this program, which we wish to continue, it will only cost the government about 2.5, \$2.6 million, and we end up with a site that can be used again for economic development and jobs in Appalachia.

Ms. MCCOLLUM. Mr. Chairman, I reserve the balance of my time to close.

Mr. JOHNSON of Ohio. Mr. Chairman, I will close. I want to reaffirm what my colleague from West Virginia said. This is important for economic development in communities in Appalachia. It will have a significant impact on economic development work throughout the region, while being offset by only a slight reduction in EPA's environmental programs and management account, totaling only 1.21 percent of that account.

So this is good legislation. It is a good bill for Appalachia, a good set of amendments for Appalachia. I urge my colleagues to support it.

Mr. Chair, I yield back the balance of my time.

Ms. MCCOLLUM. Mr. Chairman, I want to be clear. I understand that this amendment would direct more funding to States in Appalachia who have suffered from the ravaging environment caused by coal mining, and that is a very noble goal, as I said before.

But at this time I have to oppose this amendment. Once again, I want to point out, we were level funded in our allocation in the Interior bill that we are debating today with amendments, and I cannot support any further deeper cuts to the EPA.

But as the chairman moves forward and as we go to conference, if we can start restoring some of the funds to the EPA, I would like to work with the gentleman to restore some of the funds to this also important program; but at this time I have to oppose.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc offered by

the gentleman from Ohio (Mr. JOHNSON).

The en bloc amendments were agreed to.

AMENDMENT NO. 18 OFFERED BY MR. O'HALLERAN

The Acting CHAIR. It is now in order to consider amendment No. 18 printed in House Report 115-830.

Mr. O'HALLERAN. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 31, line 9, after the dollar amount, insert "(reduced by \$36,000,000)(increased by \$36,000,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Arizona (Mr. O'HALLERAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. O'HALLERAN. Mr. Chair, Arizona's First Congressional District is home to the largest population of Native Americans and Indian lands in the Nation.

Many of the Tribal governments that I represent face a public safety crisis. Nearly every Tribal community I visit is caught in the justice facility backlog, and it is having a serious impact on their ability to protect and serve their communities.

The backlog in unmet need for Tribal justice facilities has grown significantly since fiscal year 2014, when the Department of Justice unilaterally stopped new and replacement construction of Tribal justice buildings. All the while, the Bureau of Indian Affairs has kept condemning these types of buildings. This negligent lack of Federal coordination between agencies has resulted in communities being forced to go without essential infrastructure.

Tribal justice officials dedicate and risk their lives to provide basic law and order in Native American communities. However, as a former police officer, I can tell you, no justice system can function without a safe and secure facility to house these officers.

The San Carlos Apache Tribe's justice system is a devastating example of the backlog for justice facilities in Indian Country.

The BIA condemned the San Carlos Police and Courts Building known as BIA Building 86 in 2009. The Tribal police officers and courts worked for 6 additional years in a condemned building, until the Bureau of Indian Affairs provided them with temporary trailers, which had been intended to be used as classrooms and temporary housing in 2015.

Here we are, 3 years later, and this temporary fix is failing the San Carlos police and courts, as well as the entire community. The San Carlos Police Chief works in an office with cracks in the wall where he can see outside. The generator doesn't provide air conditioning to the police patrol or court

sessions of trailers, and that is in Arizona. Water service is intermittent. There is not enough space for evidence storage. The floors can't securely support storage safes that include cash, drugs, and other evidence. I can go on and on.

It is clear that it is past time to provide the San Carlos Apache Tribe, and Tribes across the country, a permanent facility to safely house their police and courts.

□ 2115

I commend Appropriations for providing \$18 million for replacement of new public safety and justice construction.

My amendment demonstrates the reality that the need is greater. It suggests a funding level of \$36 million divided between replacement and new construction. This would help provide for the needs of communities like San Carlos, who have had their police and court facilities condemned by the Bureau of Indian Affairs.

Every law enforcement officer at the local, State, Tribal, and Federal levels risk their lives to protect and serve their community. If we can't give them the basic tools to do their jobs, our communities risk safety and justice for victims. We must do better.

Mr. Chair, I urge my colleagues to support my amendment on behalf of these brave law enforcement officials, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in support of the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Mr. Chair, I am happy to accept the gentleman's amendment and work with him and the rest of my colleagues to address the public safety and justice construction needs in Indian Country.

The ranking member and I have worked very closely together in Indian Country to recognize the shortcomings throughout Indian Country in Indian education, Indian healthcare, and certainly within the Indian public safety and justice problems that we are having throughout the United States.

Mr. Chair, I certainly support an "aye" vote, and I yield back the balance of my time.

Mr. O'HALLERAN. Mr. Chair, I just want to thank the chair and the ranking member for all their commitment to Indian Country and for their support of this amendment.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. O'HALLERAN).

The amendment was agreed to.

AMENDMENT NO. 19 OFFERED BY MR. O'HALLERAN

The Acting CHAIR. It is now in order to consider amendment No. 19 printed in House Report 115-830.

Mr. O'HALLERAN. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 31, line 9, after the dollar amount, insert "(increased by \$10,000,000)".

Page 38, line 21, after the dollar amount, insert "(reduced by \$10,000,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Arizona (Mr. O'HALLERAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. O'HALLERAN. Mr. Chair, across Indian Country, access to safe and clean drinking water is a major issue that we are obligated to address.

In the northwest corner of my district, the Hopi Tribe has a water system with over three times the Federal maximum standard for safe drinking water for arsenic. Let me repeat that: three times the amount of arsenic than the maximum standard considered safe.

Members of the Tribe have no choice but to use this unsafe water. This is beyond unacceptable in any community in America, but it is a fact of life for Tribes across the Nation.

No matter where you are born, no child or family in America should have to risk their health because they can't access clean water.

This basic lack of water infrastructure has limited many Tribes' ability to unleash their economic potential in rural communities across the country.

The Hopi Tribe has limited financial resources. In fact, it has an 80 percent unemployment rate. Our country's unemployment rate is 4 percent. It also has a mine that is potentially going to close that supplies 80 percent of its general funds.

They have not sat idly waiting for the Federal Government to fix the problem it created. The Tribe has launched the Hopi Arsenic Mitigation Project to directly address this challenge.

Through the project, the Tribe has identified arsenic-free wells and mapped the pipeline route that will deliver arsenic-free water to villages and towns across the reservation. All the Tribe needs to complete the project is construction funding.

Unfortunately, funding for the Bureau of Indian Affairs Construction account has not been adequate enough to fund projects across country like Hopi's. That is why I am offering a commonsense amendment to increase BIA's construction funding by \$10 million.

Increasing this funding for construction of water infrastructure will enable the BIA to assist communities in building water systems that will deliver clean drinking water to schools and homes, some for the first time.

This amendment is not only a wise investment for Tribal communities as they seek to develop their economies

and attract investment, but it is also a moral imperative.

Mr. Chair, I urge my colleagues to support my amendment to increase access to clean water for tribal communities across the country.

Mr. Chair, I reserve the balance of my time.

Mr. CALVERT. Mr. Chair, I rise in reluctant opposition to this amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chair, I was happy to support the gentleman and accept the prior amendment, but this just goes too far.

I couldn't agree with the gentleman more that the Federal obligations for construction in Indian Country far outweigh the amount of money we have in the budget. That is why the Bureau of Indian Affairs Construction account has been and will continue to be a non-partisan priority for the subcommittee, and we are certainly proud of the progress we have made so far, but I cannot support an offset on an account that also serves Indian Country and other underserved populations.

In addition to cutting the Office of the Assistant Secretary of Indian Affairs, this amendment is likely to cut the Office of Native American Relations, the Office of Small Disadvantaged Business Utilization, the Office of Civil Rights, and the Office of Hearings and Appeals.

Again, while I agree with the increase, and I certainly don't disagree with the gentleman's intentions, I cannot in good conscience agree to this offset.

If we find money down the road in this process as the gentlewoman and I are going through the conference, this is something I would be very interested in looking at, but right now I must encourage a "no" vote.

Mr. Chair, I yield back the balance of my time.

Mr. O'HALLERAN. Mr. Chair, I understand that this bill increases the BIA Construction funding levels from last year, but I must remind the gentleman that this program is still woefully underfunded considering the tremendous needs across the West and in rural communities.

Although I believe this amendment's offset is reasonable considering the basic immediate and dire needs of tribes across the country, I appreciate the gentleman's comments and I hope he will commit to working with me on a bipartisan basis going forward on this amendment to ensure our communities have meaningful access funding for clean water.

I clearly understand the impacts potentially to the Bureau, but I also understand that when you have 80 percent unemployment and the risk of losing 80 percent of your general fund, that there is no other alternative than to look for money here, and I would appreciate consideration in the future.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. O'HALLERAN).

The amendment was rejected.

AMENDMENT NO. 20 OFFERED BY MS. PLASKETT

The Acting CHAIR. It is now in order to consider amendment No. 20 printed in House Report 115-830.

Ms. PLASKETT. Mr. Chair, I rise in support of my amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 38, line 21, insert after the dollar amount "(decreased by \$3,818,000)".

Page 40, line 19, insert after the first dollar amount "(increased by \$3,818,000)".

Page 40, line 19, insert after the second dollar amount "(increased by \$3,800,000)".

Page 41, line 8, insert after the dollar amount "(increased by \$18,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentlewoman from the Virgin Islands (Ms. PLASKETT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from the Virgin Islands.

Ms. PLASKETT. Mr. Chair, I yield myself such time as I may consume.

Mr. Chair, I thank the committee for the opportunity to express my strong support for this amendment to the Department of Interior division of this bill.

This amendment amounts to a small uptick in critical funding for assistance to territories at the Department of Interior's Office of Insular Affairs, to the amount that has already been recommended by the majority in the Senate.

This is a modest uptick of just under \$4 million in Federal support for Americans in insular territories of the United States, namely, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa. Nearly a half million Americans reside in these islands, which have been part of this great country for over a century.

Since then, the Federal Government has supported the territories largely through Department of Interior assistance activity, with funding channeled towards technical assistance to local governments and to assist in upgrading essential community facilities like schools and hospitals and critical infrastructure, including waste disposal and wastewater systems.

Even before two Category 5 hurricanes struck the Virgin Islands, our schools faced structural deficiencies not conducive to a healthy learning environment. Our hospitals face serious deferred maintenance issues due, in part, to their extremely high proportion of uncompensated care, because we face inequitable treatment in the Federal health programs like Medicaid and Medicare. There are few facilities for assisted living among a growing population of aging citizens.

Construction or repair to schools and hospitals account for much of the Capital Improvement Project expenditures that come directly out of this Assistance to Territories account.

I believe it is imperative that the Federal Government enhance its commitment to address the pressing needs of Americans living in the territories as we face grave natural disasters and security threats.

I continue to be concerned about the catastrophic impact of Hurricanes Irma and Maria to the Virgin Islands, especially in light of financial solvency issues, coupled with the anticipated amount of time before government industry and utilities are able to fully function and generate revenues.

There are also additional revenue losses and other operational needs stemming from passage of significant tax reforms last year. The Virgin Islands and most of the insular territories have mirror tax codes of the United States, meaning that when we make changes to the Federal Tax Code, they automatically apply as a tax code of the territories, with few exceptions.

The Tax Cuts and Jobs Act changes bring in a host of unintended new revenue and economic loss issues that the local governments of the territories will need significant technical assistance to mitigate. The U.S. territories are part of the United States, and jobs in these territories are American jobs. According to the Department of Labor, the unemployment rate in the Virgin Islands is currently at least 12 percent, three times the national rate.

The people living in American island territories are citizens of this great Nation and entitled to equality to the people living in the 48 contiguous States, Hawaii, and Alaska, but the Virgin Islands and other territories are not included in the same formula grants as other locations. We do not receive the same funding for grants, technical assistance, programs that provide jobs, or infrastructure.

A continuation of level funding to the small assistance account is highly inadvisable at this time, for the reasons I have outlined previously.

Americans residing in the U.S. territories may be the first to be hit by a major hurricane, but have no vote on the budget for FEMA or anything else. They continue to be severely tried, and in circumstances beyond their control. Please approve my amendment as a simple matter of fairness to them and equitable to the majority of the Senate's requests at this time.

Mr. Chair, I reserve the balance of my time.

Mr. CALVERT. Mr. Chair, I rise in support of the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chair, in light of the catastrophic hurricane season last year and the fact that we are already in the midst of another hurricane season right now, I suspect there is addi-

tional relief needed for the territories in the weeks and months ahead. So with this reality upon us, I am happy to accept the amendment.

Mr. Chair, I yield back the balance of my time.

Ms. PLASKETT. Mr. Chair, I thank the chairman, the ranking member, and the members of this committee for supporting this amendment.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from the Virgin Islands (Ms. PLASKETT).

The amendment was agreed to.

AMENDMENT NO. 21 OFFERED BY MS. MOORE

The Acting CHAIR. It is now in order to consider amendment No. 21 printed in House Report 115-830.

Ms. MOORE. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 38, line 21, after the dollar amount, insert "(reduced by \$500,000)".

Page 112, line 5, after the dollar amount, insert "(increased by \$500,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentlewoman from Wisconsin (Ms. MOORE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Wisconsin.

Ms. MOORE. Mr. Chair, the intent of the amendment is to reserve funds for the Smithsonian to do an exhibit in conjunction with local groups and organizations focused on celebrating the United Nations International Decade for People of African Descent. I am so proud to offer this amendment.

Mr. Chair, January 1, 2015, through December 31, 2024, has been designated as the United Nations International Decade for People of African Descent, with the theme, "People of African Descent: recognition, justice, and development" by the United Nations General Assembly.

The population comprising the African diaspora is expansive, spanning across the globe from the Americas and the Caribbean, to Asia and Europe, with persons of African descent having a historic presence on every continent.

□ 2130

Around 200 million people identifying themselves as being of African descent live in the Americas. The goal of this initiative is for the United Nations and its member states, among others, to take advantage of the auspicious period of history by undertaking activities in the spirit of recognition, justice, and development for people of African descent around the globe.

Among the goals of this international initiative is to underscore the important endowments made by people of African descent to our world societies and to promote a greater knowledge of and respect for the diverse her-

itage, culture, and contributions of people of African descent to the development of societies.

Now, in this country, Mr. Chairman, the Smithsonian is uniquely positioned to celebrate the launch of this International Decade at the national level here in this country by creating temporary and maybe permanent exhibits that can help promote the cultural and artistic goals of the International Decade and to create an effective exhibit or series of exhibits across its museums on the contributions of African descendants in the United States, where Black history is inextricably and integrally woven since this country's founding and even before. Yes, Mr. Chairman, Africans explored these shores long before Columbus and archaeological findings here do prove.

The Smithsonian has a history of undertaking efforts to commemorate and tell the story of the impact of African descendants on African American history, politics, culture, and society, including the opening of the Smithsonian National Museum of African American History and Culture.

The Smithsonian has a wealth of artifacts and holds the resources to put together a well-regarded national showcase to weave together a compelling and concise study and story of some of the most notable contributions across sectors of African descendants. Likewise, it can work with local organizations to borrow or make available artifacts, documents, and relics related to telling the story in a way that no other institution in our country can.

Simply put, the Smithsonian has the right mix of expertise, archives, and artifacts to help tell the story as well as the ability to work with local groups throughout our Nation that are guardians of some of these narratives but may not have the resources.

With these additional resources, it is hoped that the Smithsonian will partner with other State and local institutions to help create a story reflective of the U.N. International Decade for People of African Descent and promoting the history and heritage of people of African descent and their impact on our country here.

In an era of xenophobia and rising intolerance, now, more than ever, we need to join in helping to publicly recognize the culture, history, and heritage of people of African descent and their impact on the Nation and the world and have the International Decade for People of African Descent be more than an empty rhetorical platitude to African Americans on this shore.

Mr. Chair, I reserve the balance of my time.

Mr. CALVERT. Mr. Chair, I rise in support of the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Mr. Chair, while I certainly have some concerns about

the offset, I am able to support my recent classmate's and colleague's amendment. As the gentlewoman knows, this bill has a strong history of supporting underrepresented communities, including African American and Tribal communities.

This bill funded the construction of the Smithsonian's National Museum of African American History and Culture and continues to strongly support the operations of this very popular museum.

This bill maintains a strong bipartisan support for Tribal health, Tribal education, Tribal law enforcement, and numerous other priorities critical to Native Americans and Alaska Natives, and this bill supports underrepresented communities throughout the Historic Preservation Fund grants under the National Park Service.

Though we may have to turn the lights off at the Department of the Interior if we keep going on—he is a Navy SEAL; he will get by—I certainly urge the adoption of this amendment, and I yield back the balance of my time.

Ms. MOORE. Mr. Chair, I thank my colleague, because we will turn the light on the contributions of Africans on this continent during this decade.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Wisconsin (Ms. MOORE).

The amendment was agreed to.

AMENDMENT NO. 22 OFFERED BY MR. WELCH

The Acting CHAIR. It is now in order to consider amendment No. 22 printed in House Report 115-830.

Mr. WELCH. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 38, line 21, after the dollar amount, insert “(reduced by \$4,000,000)”.

Page 68, line 9, after the dollar amount, insert “(increased by \$4,000,000)”.

Page 68, line 20, after the dollar amount, insert “(increased by \$4,000,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Vermont (Mr. WELCH) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Vermont.

Mr. WELCH. Mr. Chairman, Lake Champlain is one of the natural wonders of New England and, indeed, an international treasure. It is a watershed that includes New York, Vermont, and the Province of Quebec.

To protect this unique natural and economic resource, Congress enacted legislation in 1990 under the bipartisan leadership of Democrat PATRICK LEAHY and Republican Jim Jeffords that led to the creation of the Lake Champlain Basin Program.

Over the years, the basin program has worked with private organizations, local communities, and individuals on both sides of the border to coordinate

and fund efforts that benefit the Lake Champlain Basin's water quality, fisheries, wetlands, and wildlife recreation. It has been a great example of a locally driven program working from the ground up with the help of a Federal partner.

It has been a tremendous success, and the purpose of this amendment is to maintain the funding at the level that it was at before. I have joined 28 years later after Democratic Senator PATRICK LEAHY and Republican Jim Jeffords with my Republican colleague from across the lake, Representative STEFANIK, in this amendment. It is important to both sides of the lake and the Province of Quebec, who is not here represented, but here in heart.

So I ask for the support of this amendment, and I want to say to my colleague, ELISE STEFANIK, from across Lake Champlain, that we think the view of New York is beautiful, and we share a commitment to maintaining the beauty of that lake.

Mr. Chair, I yield such time as she may consume to the gentlewoman from New York (Ms. STEFANIK).

Ms. STEFANIK. Mr. Chairman, I thank my friend from across the lake, PETER WELCH.

This is truly a bipartisan issue, as Mr. WELCH identified. This is important to our local ecosystem. It is important to our recreation. It is important to our tourism. But it is also a job creator, bringing in new people to our region.

I love the views as I look across the lake to Vermont, and I know that we are really a joint economy around Lake Champlain.

I also want to thank Chairman CALVERT and the Appropriations Committee for their support of this important initiative in the Northeast. As I said, this is truly bipartisan, and it fully funds this important program.

So I thank Mr. CALVERT again and his staff, and I thank Mr. WELCH for being a true partner on this issue, which is locally driven and such a success story for our districts.

Mr. WELCH. Mr. Chair, I thank the gentlewoman as a good partner, as well, and I thank Mr. CALVERT for his consideration.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Vermont (Mr. WELCH).

The amendment was agreed to.

AMENDMENT NO. 23 OFFERED BY MR. VARGAS

The Acting CHAIR. It is now in order to consider amendment No. 23 printed in House Report 115-830.

Mr. VARGAS. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from California (Mr. VARGAS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. VARGAS. Mr. Chairman, I rise today to urge my colleagues to support my amendment to H.R. 6147, the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2019. This amendment would increase funding for the U.S.-Mexico Border Water Infrastructure Program by \$5 million.

As a Representative of California's entire U.S.-Mexico border, I have seen firsthand the positive impact these programs have on communities in my State and across all of the communities along the U.S. border.

The Tijuana River Valley is a beautiful transboundary watershed on both sides of the border with a mixture of agriculture, preserved habitats, and rural housing developments. Periodic rain in the region produces a steady stream of cross-border flows of wastewater, trash, and sediment from Tijuana into San Diego County. This has a devastating effect on border communities, including Imperial Beach, San Diego, and other residents in the Tijuana River Valley.

Last year, millions of gallons of sewage was discharged in the Tijuana River Valley after a heavy rain. This resulted in prolonged beach closures, which affected the quality of life and the public health of the people in these communities.

Border Patrol agents also experienced very severe health complications from exposure to sewage and to chemicals and toxic waste along the border. San Diego County-based military installations are also at risk of continued disruptions, which would affect their readiness to combat threats.

Residents across San Diego County have grown increasingly frustrated with the lack of progress on viable solutions. All too often, Tijuana's wastewater infrastructure is unable to handle the heavy rains, which result in sewage ending up on the U.S. side of the border.

The EPA's Border Water Infrastructure Program provides resources for communities to build and enhance current long-term protections and rehabilitation projects all along the entire U.S.-Mexico border.

The EPA investments in these wastewater projects are a key factor in significant water quality improvements in U.S. waterbodies, such as the Rio Grande, Santa Cruz River, the New River, and the Tijuana River. The program's funding has made significant progress addressing public beach health and the environmental impact of inadequate drinking water and wastewater infrastructure along the U.S.-Mexico border.

The 2,000-mile border between the United States and Mexico is one of the most complex and dynamic regions in the world, with a growing need to address the transborder environmental issues; so I would urge my colleagues to support this amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in reluctant opposition to this amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chair, don't get me wrong. I am not opposed to what the EPA is doing at the border to improve water quality, but I think it is important to note that the bill already provides \$10 million for the program, equal to the fiscal year 2018 level, and did not support the elimination of the program as proposed in the President's budget.

As the gentleman knows, we are level-funded in this year's appropriation bill, so I wasn't able to get additional funds for some of these programs that I like. Because a \$5 million reduction could significantly impact the work of the Secretary of the Interior—we have been chewing away at that all night—the programs under this jurisdiction, and other important offices funded by the account, I can't support the amendment.

I will continue to work with the ranking member as we move this through this process because I know the important work we have done in California and along the entire border. It is a good program, and I certainly support it, but I can't support this amendment at this time.

Mr. Chair, I must oppose the amendment and urge my colleagues to vote "no."

I yield back the balance of my time.

Mr. VARGAS. Mr. Chair, I thank the chairman for those words, and I know that he wants to continue to work with us, and I look forward to that. I would just add that the situation is getting much worse, and I would also add that a number of these military installations that we are placing right along the border, especially the Special Forces that we have, the SEALS, I think are going to become more and more affected by this sewage that crosses the border.

Mr. Chair, I look forward to working with the chairman and the ranking member to see if we can find more money because this is a real problem in San Diego, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. VARGAS).

The amendment was rejected.

Ms. ESTY of Connecticut. Mr. Chairman, I want to thank my colleague, Congressman MCKINLEY, for working with me on this amendment. Our amendment increases funding for State grants to assess or clean up brownfield sites by \$7 million in fiscal year 2019.

Too many cities and towns across America with proud manufacturing legacies are now struggling with vacant brownfield properties. In my home State of Connecticut, the city of Meriden alone has at least \$10 million worth of brownfield projects for which they have been unable to secure funding—and that is just one city in one State. Every single congressional district across this country is home to at least one brownfield site. In fact, some have hundreds.

The benefits of funding brownfield cleanups are enormous. For every \$1 invested in brownfield redevelopment, 18 additional dollars are leveraged in outside investment. That is one of the highest leveraging of outside money of any Federal program.

Despite the clear, demonstrated value of Federal brownfield investments, the EPA has been forced to turn down very worthy projects due to lack of funding. In fact, the EPA has only been able to fund about one-quarter to one-third of the applications it receives. Between 2012 and 2017, over 1,600 applications for viable projects were turned down because of inadequate Federal funding.

The base bill before us today provides just \$153 million for brownfields in fiscal year 2019—the very same amount that was enacted for 2018. For such an effective program that is in high demand all across the country, maintaining status quo funding for brownfield redevelopment is unwise and, frankly, unacceptable.

If the EPA had been able to fully fund the qualified brownfield projects from 2012 to 2017, an additional 54,000 jobs would have been created along with \$10.3 billion in leveraged outside money.

Mr. Chairman, last November, 409 Members of this House voted to increase funding levels for the EPA's brownfields programs to \$200 million plus an additional \$50 million for the State response program. That is a total

of \$250 million authorized by this House as compared with \$153 million we have before us tonight.

Mr. Chairman, 409 Members heeded calls from their cities and towns, mayors, county and regional officials and constituents who urgently want to restore their downtowns and communities putting former industrial sites back on to the tax rolls and creating jobs.

Dilapidated warehouses, abandoned factories, and former gas stations littered across our cities and towns are untapped economic opportunities just waiting to be redeveloped into productive uses like startup incubators, affordable housing, tech centers, and public green space.

Increased funding will return brownfields to productive uses, generate additional tax revenue, clean up the environment, grow jobs, and revitalize communities all across our country. Investing in our civic infrastructure is essential to moving this country forward.

Mr. Chairman, I urge all of my colleagues to support this amendment.

Mr. Chairman, I yield the balance of my time to the gentleman from West Virginia (Mr. MCKINLEY).

Mr. MCKINLEY. Mr. Chairman, how much time is remaining?

The Acting CHAIR. The gentlewoman has 1½ minutes remaining.

Mr. MCKINLEY. Mr. Chairman, I thank the gentlewoman for taking this amendment on.

When you think about it, we are only funding about 300 to 400 projects a year. But in testimony before our committee, there are 450,000 contaminated sites across America; and if we are only renovating 400 sites, you can imagine how many thousands of years it will take assuming no additional brownfield sites are developed as a result of this.

So this idea of grasping just \$7 million I think is a fundamental way of trying to say: We need to do more in this effort; we need to put more funds in it.

I agree with the gentlewoman's remark. If \$250 million was authorized, then we need to put more money in this if we are serious about brownfields and removing the stigma across our community.

Mr. Chairman, I support this amendment.

Ms. ESTY of Connecticut. Mr. Chairman, I urge my colleagues to support this amendment. I thank my colleague, the gentleman from West Virginia; and I want to thank the 409 Members who joined in urging support for this program which has proven to be one of the most effective in the Federal Government.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Connecticut (Ms. ESTY).

The amendment was agreed to.

AMENDMENT NO. 25 OFFERED BY MR. GRIJALVA

The Acting CHAIR. It is now in order to consider amendment No. 25 printed in House Report 115-830.

Mr. GRIJALVA. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 38, line 21, after the dollar amount, insert “(decreased by \$2,500,000)”.

Page 43, line 25, after the dollar amount, insert “(increased by \$2,500,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Arizona (Mr. GRIJALVA) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. GRIJALVA. Mr. Chairman, my amendment would fully fund the Department of the Interior’s Office of the Inspector General.

By my count, there are at least 14 Federal investigations that are either underway or completed into the current Secretary alone. That is more investigations than the last four Interior secretaries combined. Still more issues with the Secretary are under preliminary investigation. Even more have not been announced to this date. Interior’s Office of the Inspector General is doing most, if not all, of that work.

Funding and staffing shortfalls resulting from flat funding or small cuts have caused the Office of Inspector General in recent months to forgo investigations altogether. Investigation requests from Congress and from tips originating within the Department of the Interior have either been rejected or are awaiting resources to be freed up in order to address them.

The Office of Inspector General is also referring a growing number of hotline complaints to the Interior Department for investigation, creating a situation in which the department is investigating itself. Half of those referred complaints involve allegations of ethics violations, sexual harassment, prohibited personnel practices, law enforcement misconduct, and reprisal. Untrained supervisors conduct many of these investigations without following standard protocols and without collecting sufficient evidence. Specially trained, experienced noncriminal investigators are needed to keep these investigations within the Office of Inspector General.

The Office of Inspector General’s independence from the office they are examining is essential to their ability to conduct thorough, unadulterated investigations, inspections, or audits. Now is not the time to revert to the pre-Watergate days when an agency was in charge of investigating itself.

This amendment would provide five additional investigators to focus on administrative issues and up to six investigators in field offices which also lets the Office of Inspector General’s criminal investigators focus on criminal

misconduct instead of being pulled away to help in other areas.

There are particular risks that are being unaddressed because of current funding levels. The Department of the Interior paid out \$10 billion in financial assistance and contracts in fiscal year ’16 and ’17. During that time, there was about a 16 percent drop in audits. Contracts and financial assistance are some of the highest risk areas in terms of the potential for waste, fraud, and abuse.

My amendment would also provide five new auditors for the Office of Inspector General which are needed to address contracts and financial assistance which is responsible for a disproportionate share of the Office of Inspector General’s 20-1 return on investment.

I want to emphasize that. For every dollar we spend on the Interior’s Office of Inspector General, according to the Partnership for Public Service, the taxpayer gets \$20 back.

This amendment will help ensure that this scandal-ridden administration doesn’t monopolize the Office of Inspector General’s best people who are supposed to be rooting out waste, fraud, and abuse in the agency. If there was ever a time to fully fund the Office of Inspector General, it is now.

Mr. Chairman, I reserve the balance of my time.

Mr. GOSAR. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Arizona is recognized for 5 minutes.

Mr. GOSAR. Mr. Chairman, although I am a big fan of the Inspector General’s Office, the current budget is funded at the budget request, and therefore I do not see us raising \$2.5 million by raiding the Secretary of the Interior’s operating account. I think it goes way too far.

I am glad to know that the gentleman from Arizona actually listened to our talking points on that. But I think at this point in time I would like to keep it exactly where it is.

Mr. Chairman, I yield to the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Mr. Chairman, I thank the gentleman for the time.

Mr. Chairman, I also rise in opposition to the amendment. As the gentleman mentioned, the bill already includes a \$1.5 million increase for the Inspector General which is the amount that was requested. This transfer is not needed, and if enacted, it could affect the operations of the Department of the Interior.

For those reasons and others, I oppose this amendment.

Mr. GOSAR. Mr. Chairman, I oppose the amendment, and I yield back the balance of my time.

Mr. GRIJALVA. Mr. Chairman, the figures in the delayed investigations, the deferred investigations and the need for additional auditors were all in the \$5 million indication by the Office of Inspector General that that was

what was needed in order to be able to comply with the demands of their office and the demands that the public and Congress have for assuring that all the agencies are running under the protocols, the procedures, and the laws that we insist they do so on.

Mr. Chairman, \$2.5 million that is being requested in this amendment would bring that total to \$5 million, which is the amount that the Inspector General has indicated is needed.

Mr. Chairman, I ask for a vote of approval on this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. GRIJALVA).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. GRIJALVA. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

AMENDMENT NO. 26 OFFERED BY MR. DENHAM

The Acting CHAIR. It is now in order to consider amendment No. 26 printed in House Report 115-830.

Mr. DENHAM. Mr. Chairman, I have an amendment at the desk, amendment No. 26.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 38, line 21, after the dollar amount, insert “(reduced by \$2,000,000)”.

Page 80, line 16, after the dollar amount, insert “(increased by \$2,000,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from California (Mr. DENHAM) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. DENHAM. Mr. Chairman, California continues to suffer devastating water shortages and inadequate clean drinking water. We must build new water storage.

My amendment would simply transfer \$2 million into the Water Infrastructure Finance and Innovation Act administrative expenses account from the Department of the Interior Office of the Secretary account.

The base text of this bill has \$3 million less for WIFIA administration than was provided for the fiscal year ’18 and provides a \$10 million increase for the Office of the Secretary account.

The WIFIA program is a vital program for water infrastructure. The program was established in the water resources 2014 bill and has been accepting loan applications for clean and drinking water projects.

Water storage projects and flood risk reduction infrastructure projects are eligible under section 3905 of 33 U.S.C. 52, but EPA has yet to establish a process for administering such loans.

The additional administrative resources in the amendment would allow

the WIFIA office to more quickly pursue financing of Bureau of Reclamation and Army Corps of Engineers projects.

It took 4 years—until April 2018—for WIFIA to issue its first loan for a wastewater project. This is an unacceptable timeframe for establishing an essential water financing program when the American Society of Civil Engineers scored our water infrastructure as a D grade last year.

The administration's infrastructure principles document recommends expanding WIFIA authorities to water storage projects which is the lifeblood of California's Central Valley and other reclamation States. We can't wait another 4 years for WIFIA to issue loans for these projects.

The Army Corps and EPA expect to execute a memorandum of understanding for financing projects very soon which will further strain WIFIA administrative resources. Additionally, the Senate has included a deadline for Reclamation and EPA to reach an MOU in their water resources bill.

Mr. Chairman, this is good policy which mirrors my New WATER Act, H.R. 434. This amendment is necessary for properly and effectively carrying out both MOUs.

In closing, California continues to suffer devastating water shortages and inadequate clean drinking water. Areas of California's Central Valley have not only had bad quality water, but some towns have no water at all. We must build new storage. This bill helps us to move that forward and expedite the process.

Mr. Chairman, I yield back the balance of my time.

The amendment was agreed to.

AMENDMENT NO. 27 OFFERED BY MR. O'HALLERAN

The Acting CHAIR. It is now in order to consider amendment No. 27 printed in House Report 115-830.

Mr. O'HALLERAN. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 46, line 10, after the dollar amount, insert "(reduced by \$3,000,000)".

Page 110, line 12, after the dollar amount, insert "(increased by \$3,000,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Arizona (Mr. O'HALLERAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. O'HALLERAN. Mr. Chairman, the Office of Navajo-Hopi Indian Relocation was established to compensate and build homes for those Navajo and Hopi impacted by the Federal Government's mandated changes of the reservation boundaries, which resulted in families

being forced to move away from their homes.

My amendment opposes efforts in the underlying bill to prematurely close the Office of Navajo-Hopi Indian Relocation. The bill significantly cuts this office while preparing for its premature closure. I strongly oppose these cuts.

The agency has not completed its mission, and families continue to wait for the benefits they were promised. Closing the agency without providing the benefits to the affected families entitled to them would be a violation of our trust responsibility.

Once the agency's mission is complete, it is essential that the remaining land management responsibilities are passed to capable and responsible agencies that will work with stakeholders to ensure that the trust responsibility is taken seriously.

For this to occur, a comprehensive plan must be developed, and the plan must include meaningful input from both the Navajo Nation and the Hopi Tribe, and a thorough audit of the Office of Navajo-Hopi Indian Relocation.

I have concerns that preliminary discussions that have the Office of the Special Trustee assuming land management are premature, as the Office of the Special Trustee has no experience with land management or building housing.

While the details of the closure plan are worked out, it makes sense to continue funding the agency, so it can finish its mission and an orderly and agreeable closure plan can be developed.

The families impacted by relocation have suffered enough, and we have a responsibility to ensure that we solve the problem in an orderly way, not simply shift the responsibility.

My amendment simply shifts the funds that were provided to the Office of the Special Trustee, to assume land management responsibilities, back to the Office of Navajo-Hopi Indian Relocation where it can be used to build homes and review appeals until the agency mission is complete or a comprehensive closure plan is developed with significant Tribal input.

I thank the chairman and ranking member for their interest in this important issue, and I look forward to continuing to work with them toward a resolution that keeps the promises made and is inclusive of all impacted parties.

Mr. Chairman, I urge my colleagues to support my amendment, and I reserve the balance of my time.

Mr. GOSAR. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Arizona is recognized for 5 minutes.

Mr. GOSAR. Mr. Chairman, I claim time in opposition to this amendment for several reasons.

The Navajo-Hopi Settlement Act of 1974 was intended to last 5 years. After that, the plan was to go ineffective. This program has lingered on for near-

ly four decades longer than it should have.

The Office of the Navajo-Hopi Relocation has indicated its intent to close by September 2018. Accordingly, we should not be reducing or even paying more money in fiscal year 2019 when they want to close the office in fiscal year 2018.

Mr. Chair, I reserve the balance of my time.

Mr. O'HALLERAN. Mr. Chairman, how much time do I have remaining?

The Acting CHAIR. The gentleman from Arizona has 2 minutes remaining.

Mr. O'HALLERAN. Mr. Chairman, I have personally gone around this process for a long time now, both before I came to Congress and during my tenure in Congress.

We have hundreds of families who still are in an appeals process. We have homes throughout both reservations that are simply in a deteriorated state. This is not spending more money. It is shifting money from one agency to another to allow us to continue to make sure that the needs of this relocation project are met.

The time limit of 5 years was extended time and time again because of the technical nature of this process and the difficulty in our mandated process to make this a whole system that worked. It hasn't worked. It needs to be worked on, but not until we have a comprehensive plan. There is no comprehensive plan. There is just an idea and a concept, but no comprehensive plan.

I will be glad to work with anybody on a comprehensive plan, but the idea that we just walk away from this right now without an agency that really knows what it is doing makes no sense at all.

Mr. Chairman, I reserve the balance of my time.

Mr. GOSAR. Mr. Chair, originally, this legislation was intended to help 1,000 families. We have helped more than 3,600 Navajo families and 27 Hopi families.

When we talk about the comprehensive plan, maybe we ought to get everybody in order to make sure that plan is acceptable by everybody before we keep throwing money at the problem.

Mr. Chair, once again, I am in opposition. Once again, it is four decades past its time. We don't get resolution on this aspect without putting some force behind it. There has to be finality to this. This cannot keep going on. Without putting some finality to the finances, we will see this continue over and over again.

Mr. Chair, I oppose this amendment, and I yield back the balance of my time.

Mr. O'HALLERAN. Mr. Chairman, how much time do I have remaining?

The Acting CHAIR. The gentleman from Arizona has 30 seconds remaining.

Mr. O'HALLERAN. Mr. Chairman, I just want to point out the Navajo and the Hopi have indicated precisely what

they want to do. They need the time to be able to recognize that there is a comprehensive plan for their future and the families that are impacted. It is not in place.

Mr. Chair, I request that my amendment be accepted, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (O'Halleran).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. O'HALLERAN. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

AMENDMENT NO. 28 OFFERED BY MR. HECK

The Acting CHAIR. It is now in order to consider amendment No. 28 printed in House Report 115-830.

Mr. HECK. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 67, line 12, after the dollar amount, insert "(reduced by \$500,000)(increased by \$500,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Washington (Mr. HECK) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Washington.

Mr. HECK. Mr. Chairman, this is a straightforward amendment to ensure that the EPA is laser-focused on helping address the biggest source of water pollution in the United States: stormwater runoff.

Stormwater runoff is what happens when rain falls—we get a lot of that in Washington State—and it flows across roofs, parking lots, and streets. As that rainwater heads on its way to rivers, lakes, and bays, it picks up all sorts of toxic, nasty stuff like metals, oils, fertilizers, and pesticides, just to name a few.

Toxic stormwater has a direct effect on the health of our waterways and, more importantly, on our economy. Nowhere is that more clear, frankly, than in my home State of Washington and in the Puget Sound, which is, by water volume, the largest estuary in America.

We actually have video of polluted stormwater literally killing salmon in a matter of hours—not days or weeks, but hours—and our endangered southern resident orcas, which we are on the verge of losing altogether, are harmed both by having fewer salmon to lunch on and by absorbing the pollutants directly into their body.

We have made a lot of progress in this country in dealing with point-source pollution, but stormwater runoff is a lot tougher to deal with now. It is a lot more decentralized, and there

are a lot of jurisdictions involved. It is going to require a lot of improvement in water infrastructure over time.

State and local governments are kind of stepping up to be sure to meet this challenge. They know the harms posed by stormwater, but their budgets are stretched thin. What they really need is a strong partner in the Federal Government.

That is part of why I am so glad the House just last night passed a companion bill to this, the Innovative Stormwater Infrastructure Act, on consent. It had strong, bipartisan support. It creates a task force at EPA comprised of Federal, State, and local governments, along with nonprofit and private partners to develop recommendations for finding some innovative ways to fund stormwater infrastructure.

But the recommendations coming out of that task force won't be very useful if we don't know more precisely what and how big the need is. That is why the Clean Watersheds Needs Survey is important. That is a survey that Congress actually required of the EPA to conduct under the Clean Water Act on a periodic basis. It is a comprehensive assessment of the outstanding need for stormwater and wastewater control facilities nationwide.

We know there is a need. In my State alone, we estimate that stormwater runoff can be solved with a \$19 billion, with a B, infrastructure investment over the next generation.

The last survey that EPA did dates way back to 2012, and a lot has happened since, a lot of water under the bridge, pun intended.

To be clear, we are dealing with data that is 6 years old. In order to make sure our communities are able to deal with the problem, frankly, we need to have better and more current data. That is what this is about: good data, good science.

This is what this amendment seeks to do by ensuring the Clean Watersheds Needs Survey is prioritized by the EPA, no new money, just prioritized to get that done as required under the law. It is, frankly, not that large of an expenditure to undertake.

We have to make sure that the agency is in fact using every tool in its toolbox to help our communities address stormwater. I will say it again: The number one leading cause of water pollution in America is stormwater. Of course, that starts with being able to have a full picture of the problem we face.

Mr. Chairman, for this reason, I urge my colleagues to support the amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in support of the gentleman's amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Mr. Chair, I appreciate the interest in our Nation's water infrastructure needs.

Although this amendment does not do what the gentleman intends it to do, I think it is always important for Congress to have a clear understanding of what improvements need to be made to meet the quality goals of the Clean Water Act.

Mr. Chairman, this is an amendment I can accept, and I yield back the balance of my time.

Mr. HECK. Mr. Chair, however the chairman has journeyed to his conclusion, it is deeply appreciated. I urge my colleagues to vote "yes," and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Washington (Mr. HECK).

The amendment was agreed to.

AMENDMENT NO. 29 OFFERED BY MS. ADAMS

The Acting CHAIR. It is now in order to consider amendment No. 29 printed in House Report 115-830.

Ms. ADAMS. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 68, line 9, after the dollar amount, insert "(reduced by \$742,000) (increased by \$742,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentlewoman from North Carolina (Ms. ADAMS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from North Carolina.

Ms. ADAMS. Mr. Chair, I offer this amendment to underscore the importance of the EPA's Environmental Justice Program.

H.R. 6147 cuts more than \$700,000 in funding from this important program that has made an incredible difference in many communities across the country, including in my State of North Carolina.

The Environmental Justice Program supports and empowers communities as they work to address significant environmental and public health issues at the local level.

□ 2215

In North Carolina, this program has provided funding for 13 different initiatives since 2001, including the Environmental Justice Education and Research Center at Shaw University, which engages high school and college students in environmental justice research; the Healthy Homes Greensboro collaborative, which works to reduce housing-related asthma hospitalizations in low-income, minority neighborhoods resulting from exposure to toxic chemicals; and Clean Energy Durham, which runs a volunteer-driven, neighbor-to-neighbor energy education program for low-income residents of Lee County.

Nationally, this program has helped do everything from cleaning contaminated soil on reservations to managing oil spills from an abandoned power plant in Cleveland.

This program has had a measurable benefit for the people who live closest to pollution sites. This is crucially important, as people of color and people with little means are often the most affected by environmental injustice.

In fact, the environmental justice movement began in Warren County, North Carolina. In 1982, a small, predominantly African American community in Warren County was designated to host a hazardous waste landfill. In response, the NAACP and others staged a massive protest. More than 500 civil rights activists were arrested during the nonviolent sit-in protesting the landfill. While their protests failed to prevent the landfill's construction, it did spark a movement, and it has served as a model for fighting against environmental injustice since.

The EPA's Environmental Justice Program helps communities fight against these same forces. It works to ensure that no group of people should bear a disproportionate share of negative environmental consequences from commercial operations or policies.

H.R. 6147 cuts more than \$700,000 in funding from this program, and that is unacceptable. Funding for this program should be increased, and substantially more than the \$6.7 million that was appropriated in fiscal year 2018.

Cutting out funding for this program neglects dozens of communities of color, subjecting them to filthy air, unsafe drinking water, and the health impacts that go along with that. This amendment simply highlights that fact and challenges that Congress must do better.

Mr. Chair, I urge my colleagues to vote "yes" on this amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. CALVERT. Mr. Chair, I appreciate my colleague's desire to show additional support for a program important to her constituents. Unfortunately, the amendment does not do what she intends it to do; therefore, I must oppose the amendment.

Mr. Chair, I reserve the balance of my time.

Ms. ADAMS. Mr. Chair, I thank the gentleman, but I respectfully disagree with my colleague.

The EPA's Environmental Justice Program provides substantial help to communities directly affected by pollution and negative environmental consequences.

Too often, it is communities of color or low-income communities that are disproportionately affected by negative environmental effects.

A study released this February by EPA scientists found that, in 46 States, communities of color are more likely to be exposed to higher levels of dangerous air pollution than White communities. Additionally, in 2012, a study by the NAACP found that coal-fired power plants are disproportionately

concentrated near communities of color.

Thankfully, the Environmental Justice Program and their initiatives like the Environmental Justice Small Grants Program have helped to support and empower underserved communities across the Nation as they develop solutions to environmental pollution.

Mr. Chair, I urge my colleagues to vote "yes" on this amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I yield 1 minute to the gentleman from Arizona (Mr. GOSAR).

Mr. GOSAR. Mr. Chair, the President's budget request for fiscal year 2018 proposed eliminating the Environmental Justice Program. Also, the RSE budget supports Representative SAM JOHNSON's H.R. 958, the Wasteful EPA Programs Elimination Act of 2017, which, among other things, would eliminate the Environmental Justice Program.

Mr. Chair, I ask for a "no" against this amendment.

Ms. ADAMS. Mr. Chair, may I ask how much time I have remaining.

The Acting CHAIR. The gentlewoman from North Carolina has 30 seconds remaining.

Ms. ADAMS. Mr. Chair, I yield to the gentlewoman from Minnesota (Ms. MCCOLLUM).

Ms. MCCOLLUM. Mr. Chairman, I rise in support of this amendment. This amendment highlights the very need for more funding in the EPA's Environmental Justice Program.

As a Member of Congress, we should be appropriating adequate resources to ensure everyone—everyone—in this country enjoys the same degree of protection from environmental health hazards.

This is clearly another example of why the interior bill should not have received flat funding and 302(b) allocation and the impact of not having a more transparent process.

We should be standing up for our communities of color and for the children of color who are impacted by these hazardous pollutants to which they are subjected.

Ms. ADAMS. Mr. Chair, I yield back the balance of my time.

Mr. CALVERT. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from North Carolina (Ms. ADAMS).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Ms. ADAMS. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from North Carolina will be postponed.

AMENDMENT NO. 30 OFFERED BY MR. SOTO

The Acting CHAIR. It is now in order to consider amendment No. 30 printed in House Report 115-830.

Mr. SOTO. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 68, line 9, after the dollar amount, insert "(reduced by \$468,000)(increased by \$468,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Florida (Mr. SOTO) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Florida.

Mr. SOTO. Mr. Chairman, my amendment would increase funding for the National Estuary Program and Coastal Waterways Program by \$468,000. It does so by removing and then reapplying \$468,000 within the \$2.4 billion appropriation for the Environmental Programs and Management Account within the Environmental Protection Agency.

This amendment is identical to an amendment I offered last year that passed this body by a voice vote, and I urge my colleagues to support this amendment again this year.

Currently, the House Report accompanying this bill calls for a funding level of \$26,723,000. This amendment will restore funding to the level that passed the House for the last 2 years.

This amendment is intended to increase funding for the National Estuary Program that protects and restores water quality and ecological integrity of estuaries of national significance. Currently, 20 estuaries located along the Atlantic, Gulf of Mexico, and Pacific Coasts and Puerto Rico are designated as estuaries of national significance. Four of these estuaries are in my home State of Florida.

This program is efficient at leveraging funds to increase estuaries' ability to restore and protect ecosystems. The National Estuary Program has obtained more than \$10 for every \$1 provided by EPA, generating nearly \$4 billion for on-the-ground efforts since 2003. This amendment will result in a real return on investment for the American people.

With more than half the U.S. population living within 100 miles of the coast, including the shores of estuaries, this amendment will result in an enhanced quality of life for those living along the coast, while maintaining a healthy ecosystem that supports endangered and threatened species.

Mr. Chair, I urge my colleagues to support this amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in support of the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Mr. Chair, I certainly appreciate the gentleman's desire to show support for robust funding for the National Estuary Program. The FY19 bill provides \$26.7 billion for the National Estuary Program, which is equal

to the FY18 enacted level. This is an amendment I can accept.

Mr. Chair, I yield back the balance of my time.

Mr. SOTO. Mr. Chair, I thank the gentleman from California for his support, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Florida (Mr. SOTO).

The amendment was agreed to.

AMENDMENT NO. 31 OFFERED BY MR. LANGEVIN

The Acting CHAIR. It is now in order to consider amendment No. 31 printed in House Report 115-830.

Mr. LANGEVIN. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 68, line 9, after the dollar amount, insert “(increased by \$1,000,000)”.

Page 68, line 20, after the dollar amount, insert “(increased by \$1,000,000)”.

Page 71, line 11, after the dollar amount, insert “(reduced by \$1,000,000)”.

Page 78, line 9, after the dollar amount, insert “(reduced by \$1,000,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Rhode Island (Mr. LANGEVIN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Rhode Island.

Mr. LANGEVIN. Mr. Chairman, I rise to offer my amendment to restore funding for the southern New England estuaries program.

I plan to offer and withdraw this amendment in hopes that we can continue this discussion and work out a solution that will continue support for this program that is deeply meaningful to our region.

I am honored to be joined in this amendment by Congressmen CICILLINE, KEATING, and KENNEDY, all of whom know how important this EPA funding is to Rhode Island and Massachusetts.

Mr. Chairman, estuaries support life. They are the fragile but vital ecosystems where saltwater and freshwater mix together, and they support a robust number of species. In Rhode Island, these coastal and tidal areas provide environmental balance, but they are increasingly threatened by human activity. We need to continue to support their restoration, less they regress and become permanently damaged.

Over the past several years, we have seen the success of EPA’s southern New England program. With projects since fiscal year 2014, these funds have helped protect and restore watersheds in the Narragansett Bay, Mount Hope Bay, and Buzzards Bay. They have supported coastal areas in South County, Rhode Island, and along Cape Cod and the islands.

The EPA’s geographic programs have worked in other parts of the country as well, from the Puget Sound to the Chesapeake Bay, and they are working in New England.

Mr. Chairman, as I have said in the past, our estuaries are the lungs of our coastal areas. These EPA funds continue to help our New England estuaries recover and to thrive.

While I plan to withdraw this amendment, I hope that Chairman CALVERT and I can work together to preserve this needed program.

Mr. CALVERT. Mr. Chair, will the gentleman yield?

Mr. LANGEVIN. Mr. Chair, I yield to the gentleman from California.

Mr. CALVERT. Mr. Chair, I am happy to work with the gentleman as we go through this process. If we can find some additional funds as we move to conference, I will be more than happy to revisit this issue with the gentleman.

Mr. LANGEVIN. Mr. Chair, I am grateful for the chairman’s comments, and I hope we can, as the gentleman said, work together on this, and I yield back the balance of my time.

Mr. Chair, I withdraw the amendment.

The Acting CHAIR. The amendment is withdrawn.

AMENDMENT NO. 32 OFFERED BY MS. JAYAPAL

The Acting CHAIR. It is now in order to consider amendment No. 32 printed in House Report 115-830.

Ms. JAYAPAL. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 69, line 17, after the dollar amount, insert “(reduced by \$12,000,000) (increased by \$12,000,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentlewoman from Washington (Ms. JAYAPAL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Washington.

Ms. JAYAPAL. Mr. Chairman, I thank the chairman and ranking member of the Appropriations Committee and the chair and ranking member of the Interior Subcommittee.

Mr. Chair, today I rise to highlight the importance of the EPA’s Superfund Enforcement program. Around the country, communities are being put at risk by those who do not responsibly handle the waste that they actually create, and it can result in years of ongoing damage, which leads to health complications and environmental degradation.

The Superfund Enforcement program at the EPA was granted authority under the Comprehensive Environmental Response, Compensation, and Liability Act, or CERCLA, to enforce environmental cleanup laws that bring habitats and communities back from the brink in places where pollutants have seeped into the ground.

One of the Superfund sites in my State is the Hanford site, which is a decommissioned nuclear production complex next to the Columbia River. It was established as part of the Manhattan

Project in 1943, and it was the location of the first full-scale plutonium production reactor.

The site is massive, and its legacy not only includes its devastating role in World War II but also the environmental impacts in central Washington and beyond.

□ 2230

The EPA has referred to the Columbia River as the “lifeblood of the Pacific Northwest,” and they are right. And it is why it is so crucial that we at the Federal Government do everything we can to clean up Hanford.

Another Superfund site, this one in my district, is the Duwamish River, which was designated as a Superfund site in 2001. Over the course of many years, factory waste and household pollutants have run into the Duwamish, and the Duwamish air quality is the most toxic in our State.

Water pollutants have affected our local fish and they have threatened the food supply and the fishing culture, particularly of those non-English speakers, Asian and Pacific Islanders, and people of multiracial backgrounds who depend on the river as a way of life.

It has gotten so dangerous that the State and Federal Governments have actually issued a warning against the consumption of fish from the river. On average, community members in the Duwamish live an average of 8 years shorter than other King County residents.

The Superfund Enforcement program allows the Federal Government to assess locations like this from Washington State to Washington, D.C., and determine who is responsible for cleaning up these potentially devastating contaminants.

By the numbers, Mr. Chairman, the Superfund Enforcement program has not only been incredibly successful, it has actually saved taxpayers money and leveraged a lot of money for us.

According to the EPA, in fiscal year 2017, the agency reported that they reduced, treated, or eliminated 217 million in pollution. During that same time, 245 million pounds of hazardous waste was treated, minimized, or properly disposed of, and 416,000 people were protected by the enforcement of the Safe Drinking Water Act.

Thanks to the Superfund Enforcement program, many of the bad actors who create the problems are actually responsible for cleaning them up, and we leverage a lot of the Federal Government’s money. In fiscal year 2017, the amount committed by liable parties to clean up Superfund sites was \$1.227 billion, which goes a long way toward ensuring that communities can be safe, healthy, and protected.

While the funding levels in the 2019 bill are not as low as the President’s budget requested, I urge my colleagues to support continued funding in 2018 at the 2018 enacted level of \$166 million or higher.

Mr. Chairman, I look forward to working with the chairman and the ranking member of the subcommittee to ensure that this program is meaningfully supported, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chairman, I just want to note that this bill provides \$10 million above the President's request for Superfund Enforcement and \$12 million above the fiscal 2018 enacted level for the entire Superfund program. We attempted to find middle ground on enforcement while also prioritizing on-the-ground cleanup efforts that returns land to productive uses.

I certainly appreciate the gentleman's support for the interest in the Superfund program, and while the amendment does not do as she intends, this amendment is something we are unable to support at this time.

Mr. Chairman, I yield back the balance of my time.

Ms. JAYAPAL. Mr. Chairman, I yield 30 seconds to the gentleman from Minnesota (Ms. MCCOLLUM).

Ms. MCCOLLUM. Mr. Chairman, I rise in great support of this amendment. Just last year, I dealt with a frightening situation in my district where a company abandoned its facility, leaving dozens of vats of drums of cyanide and various assorted other toxic chemicals. This facility was in the middle of a residential neighborhood with some neighbors only living 15 feet from the facility.

There is a legacy of abandoned waste sites that must be dealt with, and the cost far exceeds what we can fund in our bill. This flat funding that we have with the 302(b) allocation is something that the chairman knows I feel very strongly about, and I want to be on record of supporting this, and maybe we also need to include the reinstating of a Superfund tax.

I thank the gentlewoman for the time.

Ms. JAYAPAL. Mr. Chairman, may I ask how much time I have left.

The Acting CHAIR. The gentlewoman from Washington has 1 minute remaining.

Ms. JAYAPAL. Mr. Chairman, I appreciate the gentleman's remarks, and I did mention that I appreciated that there was more allocated than the President's budget.

I think the magnitude of the problem that we are dealing with and the hundreds of thousands of lives that are at stake in terms of who depends on the waterways that go through these Superfund sites is why I am asking the chairman if he might consider restoring the original level, which is, of course, more than was allocated.

I do understand the challenges, but I think that these are historical harms that we are trying to correct and money that is leveraged substantially

by the companies that create the waste, and it is because the Federal Government is putting money into these that we are able to do that.

Mr. Chairman, I urge support of this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Washington (Ms. JAYAPAL).

The amendment was rejected.

The Acting CHAIR. It is now in order to consider amendment No. 33, printed in House Report 115-830.

AMENDMENT NO. 34 OFFERED BY MR. LAMALFA

The Acting CHAIR. It is now in order to consider amendment No. 34 printed in House Report 115-830.

Mr. LAMALFA. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 85, line 6, after the dollar amount, insert "(decreased by \$5,000,000)".

Page 85, line 25, after the dollar amount, insert "(increased by \$4,500,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from California (Mr. LAMALFA) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. LAMALFA. Mr. Chairman, my amendment today simply aims to increase funding to help combat illegal marijuana grow operations in our Nation's national forests. Illegal marijuana grows pose a significant threat to public safety as well as the environment.

According to the DEA, the majority of illegal marijuana production that occurs in Federal land is carried out by Mexican drug cartels. These cartels smuggle deadly weapons, illegal pesticides, and other dangerous materials across the border to grow illegal substances on our public lands.

Siskiyou County, in my district in northern California, has actually declared a state of emergency over the damage illegal marijuana production has caused to neighboring communities, the surrounding environment—again, damage much beyond what anybody would ever accuse legal industries of, farming, timber, whatever—and they are using, again, banned chemicals in the process, damaging wildlife, the environment, water supply, across the board.

While the majority of illegal grow activity occurs within California's borders, States across the country are also affected. Drug trafficking organizations are operating on 72 national forests in 21 States throughout the country.

Our agencies need the funding and tools to take proactive steps to push back against this growing, large threat. According to the Forest Service, it would cost over \$100 million over 5 years to reduce the spread of this problem in California alone.

My amendment would increase funding to the National Forest System account by \$4.5 million. Indeed, that is barely scratching the surface of what is truly needed, but it is a good start, and then we can fashion a pilot to show the good we can do over time.

Mr. Chairman, I strongly support this amendment and urge my colleagues to vote "yes," and I reserve the balance of my time.

Ms. MCCOLLUM. Mr. Chairman, I claim time in opposition to this amendment.

The Acting CHAIR. The gentlewoman from Minnesota is recognized for 5 minutes.

Ms. MCCOLLUM. Mr. Chairman, this amendment would increase that reduction and transfer \$5 million to the National Forest System account, and as the gentleman explained, the funding would be used for the purpose of eradicating illegal marijuana growing operations in the national forests, and that is something that I support.

I know we work on it in Minnesota, and we have worked on it in our State forests. So I agree that this work is very important. I worked to ensure this funding was included in the fiscal year 2018 omnibus bill, so the funding is already provided, and now it is part of the program's base.

So the amendment, to me, is unnecessary because the program is already funded, but the offset is also problematic. The Forest and Rangeland Research account fund does scientific research that informs policy and land management decisions regarding such issues as I know we all care about: wildfire, fuels research, invasive species, which also can, especially in our forests, lead to the forest being less healthy so they have less resilience to wildfire, and new, innovative ways to harvest forest products, which in my State and many States is very important.

This amendment, I don't think is intended to, but I do believe it could negatively impact bipartisan programs like the Forest Products Laboratory and the Forest Inventory Analysis program.

So, as I mentioned, I am opposing this not because I don't think we need to work on eradicating illegally grown marijuana in our public lands, but because this program is already in part of the base, and the offset is problematic for many of the shared goals I think many of us in this body have.

So with that, I oppose this amendment, and I currently don't plan on speaking on it again.

Mr. Chairman, I yield back the balance of my time.

Mr. LAMALFA. Mr. Chairman, I do appreciate my colleague's position there, but we are talking about, again, what the Forest Service says themselves is a \$100 million problem over 5 years, or \$20 million per year. This would seek to boost that.

If you saw the emergency situation, again, in areas like my district and adjacent, you would probably agree this

\$4.5 million boost would be very important in order to get a good start at that.

Mr. Chairman, I yield 1 minute to the gentleman from California (Mr. CALVERT).

Mr. CALVERT. Mr. Chairman, I thank the gentleman because this is somewhat personal to me. I appreciate the gentleman's interest in this illegal marijuana cultivation in our national forests.

One of the largest national forests in the State of California, Cleveland National Forest, is literally in my congressional district and right close to my house. We are always having problems with people setting up illegal grow operations in the Cleveland National Forest. So this increase to remediate these sites is needed.

I agree with the gentleman that these offsets are difficult, but I am pleased to offer my support for the gentleman's amendment. Hopefully, we can get rid of some of this illegal marijuana that is grown in these national forests.

Mr. LAMALFA. Mr. Chairman, may I ask how much time I have left.

The Acting CHAIR. The gentleman from California has 2 minutes remaining.

Mr. LAMALFA. Mr. Chairman, again, I appreciate the conversation here, but when you look at the depth and the danger of what is being brought into our States and my own part of northern California, my colleague in the Cleveland National Forest, this is an acute problem. The environmental damage is unspeakable with the amount of chemicals, the damage to the wildlife, and the threat this poses to people out there innocently hiking, camping, utilizing the forest or maybe for even logging operations.

So we need to kick-start this as strongly as possible, and that is why I offer this amendment tonight in order to counter and send a message that we are taking this seriously where Federal employees, Federal agents have feared to tread in recent years because of this tremendous threat that the Mexican nationals and gang activity has caused in our national forests that belong to the people.

So, again, I urge my colleagues to support this. It is an important start and weaves into so much with human trafficking, environmental destruction, and even, in some cases, murder associated with the problems of the growth of this product in our national forests.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. LAMALFA). The amendment was agreed to.

AMENDMENT NO. 35 OFFERED BY MR. WELCH

The Acting CHAIR. It is now in order to consider amendment No. 35 printed in House Report 115-830.

Mr. WELCH. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 85, line 15, after the dollar amount, insert "(increased by \$5,000,000)".

Page 85, line 15, after the dollar amount, insert "(reduced by \$5,000,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Vermont (Mr. WELCH) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Vermont.

Mr. WELCH. Mr. Chairman, across the country, an invasive beetle known as the emerald ash borer has been wreaking havoc on ash trees. It was first discovered in 2002 in Michigan, but since then, it has spread to 33 States, killing millions of trees, inflicting severe harm on the forest products industry, and costing municipalities and property owners millions of dollars.

□ 2245

Ash trees infested with the emerald ash borer suffer nearly 100 percent fatality rates over a 3- to 5-year period. At this point, there is no known effective treatment.

Earlier this year, the emerald ash borer was discovered in Vermont. While the discovery was not a surprise, the news is devastating.

Forests are a central part of our economy, our landscape, and our way of life. It is going to be difficult to eradicate the pest, but there are steps we can take to contain its spread.

Mr. Chairman, I thank the Appropriations Committee, Mr. CARTER, and Ms. MCCOLLUM for acknowledging the threat this invasive species poses.

The report language accompanying the bill recommends a \$19.5 million increase to forest health management under the State and private forestry account for addressing high-priority invasive species, pests, and diseases, including the emerald ash borer. I support that increase.

My amendment specifies that, of this amendment, at least \$5 million should be used to help mitigate the spread of and eradicate the emerald ash borer.

Ultimately, a successful response will require a strong partnership between Federal, State, and private sector stakeholders. This amendment is a good first step to ensure the Federal Government is doing its part.

Mr. Chair, I urge my colleagues to join me in supporting the amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in support of the amendment.

The Acting CHAIR. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. CALVERT. Mr. Chairman, I thank the gentleman for bringing this issue to our attention.

Invasive species, pests, and diseases have wreaked havoc across the Nation and continue to do so. I know that the emerald ash borer has been a tremendous pest throughout a good part of our

country, certainly in State and private forests also.

We need to improve management in our forests, and we need those conditions to improve. So I am happy to accept the gentleman's amendment, and I hope we can reduce the emerald ash borer.

Mr. Chairman, I yield back the balance of my time.

Mr. WELCH. Mr. Chairman, I thank Mr. CARTER, I thank Ms. MCCOLLUM, and I thank the Appropriations Committee for their support, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Vermont (Mr. WELCH).

The amendment was agreed to.

AMENDMENT NO. 36 OFFERED BY MR. RUIZ

The Acting CHAIR. It is now in order to consider amendment No. 36 printed in House Report 115-830.

Mr. RUIZ. Mr. Chairman, I rise as the designee of Congressman POLIS, and I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 85, line 15, after the dollar amount, insert "(increased by \$2,000,000)".

Page 90, line 3, after the dollar amount, insert "(decreased by \$2,000,000)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from California (Mr. RUIZ) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. RUIZ. Mr. Chairman, I rise today in support of this bipartisan amendment with my colleagues Representatives POLIS, KING, and RENACCI to support the brave men and women who serve as volunteer firefighters.

This commonsense amendment would add an additional \$2 million for volunteer fire assistance grants. These grants provide matching funds to local and rural volunteer fire departments to assist with training and the purchase of communications and safety equipment.

California experienced one of the worst wildfire seasons in history last year, and this year is shaping up to be no different. Volunteer firefighters will provide nearly 80 percent of the initial defense of homes, businesses, and communities in the face of these fires before reinforcement arrives.

In my district, where we are under the constant threat of wildfire, departments such as Idyllwild Fire Protection District and the Riverside County Fire Department have benefited from the VFA grant program. These departments provide fire protection services to dozens of rural communities in my district that are at a heightened risk of wildfire due to the sustained drought and heat California is experiencing.

The volunteer firefighters who serve Idyllwild routinely overcome significant communications and topographical challenges. Grant programs,

like volunteer fire assistance grants, help them respond quickly and effectively to fire emergencies.

Throughout the rest of my district, interim Riverside Fire Chief Daniel Talbot has done an excellent job leading the department and preparing for what is already an intense fire season. This week alone, several new fires have sprung up as triple-digit temperatures continue to create a tinderbox across the Western United States. Images of blackened cars and houses reduced to their foundations are already far too common, images we will, unfortunately, only continue to see more of.

Despite this constant and recurrent threat, we still fail to treat fires like the devastating natural disasters that they are. The damage caused by wildfires in California, Colorado, and other States has been heartbreaking, and yet we still continue to underfund mitigation, suppression, and prevention efforts for these disasters.

Any additional assistance we can provide to those on the front lines to keep our communities safe is our social responsibility to protect the common good, especially when volunteers risk their lives to save our lives without pay.

Many of these departments who benefit from the VFA program operate in rural towns on shoestring budgets, so an additional \$2 million will go a long way to helping them purchase critical extra equipment.

Mr. Chairman, I urge my colleagues to support this bipartisan amendment to give our firefighters the equipment and training they need to keep the public safe.

Mr. Chairman, I reserve the balance of my time.

Mr. RENACCI. Mr. Chairman, I rise in support of the amendment.

The Acting CHAIR. Without objection, the gentleman from Ohio is recognized for 5 minutes.

There was no objection.

Mr. RENACCI. Mr. Chairman, I rise in support of the bipartisan amendment with Mr. POLIS, Mr. KING, and Mr. RUIZ.

As a former volunteer firefighter, maintaining adequate funding for the volunteer fire assistance program is of particular importance to me. First responders are pillars of our community, and it has been a privilege of mine to advocate for them in Congress.

This program provides financial and technical assistance through grants to rural communities of less than 10,000 people that are matched by the community or State on a 50–50 basis. Grant funding for this program can be used to obtain and repair equipment and improve fire protection capabilities.

Ever more striking is that many of these rural fire departments often rely on volunteers. In fact, 70 percent of all firefighters are volunteers, over half of whom are found in rural communities.

Mr. Chairman, I urge my colleagues to support this amendment to provide these brave men and women the funds

they need to adequately combat wildfires and protect our communities and treasured American landscape.

Mr. CALVERT. Will the gentleman yield?

Mr. RENACCI. I yield to the gentleman from California.

Mr. CALVERT. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I certainly support this amendment. Mr. RUIZ and I represent the same area. Volunteer firefighters are extremely important, especially in our rural areas, and this is something we all should support.

Mr. Chairman, I am happy to accept the amendment.

Mr. RENACCI. Mr. Chairman, reclaiming my time, this amendment would reallocate \$2 million to the Interior's volunteer fire assistance program with six to eight volunteer firefighters.

Mr. Chairman, I urge my colleagues to support the amendment, and I yield back the balance of my time.

Mr. RUIZ. Mr. Chairman, I certainly appreciate and thank my colleague, who has given his time in fighting fires in his capacity.

I thank my colleagues, as well as the chairman and the ranking members for their work on this bipartisan bill.

Mr. Chairman, once again, I urge my colleagues to support this bipartisan and commonsense amendment to support the volunteer firefighters who protect our communities, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. RUIZ).

The amendment was agreed to.

AMENDMENT NO. 37 OFFERED BY MR. CARBAJAL

The Acting CHAIR. It is now in order to consider amendment No. 37 printed in House Report 115–830.

Mr. CARBAJAL. Mr. Chairman, I rise as the designee for Mr. POLIS of Colorado, and I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 86, line 5, after the dollar amount, insert “(decreased by \$10,000,000)”.

Page 86, line 7, after the dollar amount, insert “(increased by \$10,000,000)”.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from California (Mr. CARBAJAL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. CARBAJAL. Mr. Chairman, I rise to offer amendment No. 37 on behalf of my colleague from Colorado, Representative POLIS.

Mr. Chairman, as we continue to see global temperatures rise and extreme weather events like wildfires become more prevalent, it is imperative that Congress take action to help reduce these threats.

This amendment would increase funds for hazardous fuels management activities by an additional \$10 million

in order to mitigate the threats of wildfires and help save lives.

This program reduces dangerously high fuel loads and helps restore and improve the health and resiliency of our forests.

Managing hazardous fuel loads is critical to protecting the American public from wildfires, providing for fire safety and preserving our Nation's natural resources. Fuel treatments provide safer conditions and more strategic options for firefighters.

In the 2016 fiscal year, the Forest Service funded and helped conduct fuels treatment on more than 3.2 million high-priority acres nationwide. This included 2.1 million acres on areas with populated communities, high fire areas where the Forest Service could alleviate the risk more effectively.

Assessments of fuels treatment effectiveness show that 91 percent of treatments were effective in changing fire behavior and/or helping to control wildfire.

Despite this progress, the Forest Service estimates that there are millions of acres at high risk of wildfires, including some that are adjacent to communities.

We must make investments in hazardous fuels programs that have demonstrated effectiveness in reducing wildfire risk and continue to prioritize treatments in the highest priority areas to protect lives, property, and watersheds.

As the Representative for the central coast in California, I can tell you that we are no strangers to wildfires. This year alone, my district witnessed the devastating impacts of the Thomas and Holiday fires.

The Thomas fire became the largest fire in California history, burning nearly 282,000 acres in Ventura County and Santa Barbara County, and later triggering mudslides that tragically claimed the lives of 23 individuals in my district.

If we can take action to prevent wildfires, we should. We know it pays to be prepared. And we know that for every dollar spent on mitigation activities, we save \$6 in return.

Mr. POLIS' amendment is a commonsense measure that would help provide sufficient funds to ensure that we are protecting lives and property from the threats of wildfires.

Mr. Chairman, I urge my colleagues to support this amendment, and I reserve the balance of my time.

Mr. CALVERT. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chairman, certainly, I agree with the gentleman that hazardous fuel reduction is something that is extremely important. That is why we provide for a \$30 million increase from last year's levels for hazardous fuel reduction in this bill.

Second, the national forests are overgrown and prone to severe and catastrophic fires, there is no doubt about

it. Colorado, for instance, has already experienced a number of these fires this year, and, certainly, our home State of California is no different. We have had a number of fires, and we have fires going on at this very moment.

The timber program, which removes trees from these overgrown stands, significantly reduces the threat of catastrophic fire. We went down a path in the early 1990s that many people in the mainstream environmental movement now realize is a mistake. We have now got out of that enterprise, and a lot of these forests, unfortunately, have overgrown and have bark beetle disease, so that now becomes hazardous fuel.

Unfortunately, it wasn't harvested in a responsible way earlier. Responsible harvesting of timber from the national forest is a necessary component of good forest and land management.

□ 2300

So taking money from that account is the offset that I can't support. But certainly, I do support hazardous fuel reduction, because, unfortunately, we have created a lot of it in our home State of California and throughout the West. So, unfortunately, I have to urge a "no" vote on this amendment.

I yield back the balance of my time.

Mr. CARBAJAL. Mr. Chair, this amendment offsets the \$10 million increase for fuels management by reducing from the forest products.

Unlike the forest products line item, which funds timber sales, the hazardous fuels program is focused exclusively on reducing wildfire risks and employs a wide range of tools, including prescribed fire, mechanical fuels reduction, and thinning activities.

Increasing funding for hazardous fuels management can save lives. And when we consider the priority of forest products versus the opportunity to thin these fuels, I think the priority is clear, for saving lives, for saving property, and saving our environment.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. CARBAJAL).

The amendment was rejected.

The Acting CHAIR. The Chair understands that amendment No. 38 will not be offered.

AMENDMENT NO. 39 OFFERED BY MR. GROTHMAN

The Acting CHAIR. It is now in order to consider amendment No. 39 printed in House Report 115-830.

Mr. GROTHMAN. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 115, line 17, after the dollar amount, insert "(reduced by \$23,250,000)".

Page 116, line 5, after the dollar amount, insert "(reduced by \$23,250,000)".

Page 147, line 2, after the dollar amount, insert "(increased by \$46,500,00)".

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Wisconsin (Mr. GROTHMAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Wisconsin.

MODIFICATION TO AMENDMENT NO. 39 OFFERED BY MR. GROTHMAN

Mr. GROTHMAN. Mr. Chair, I ask unanimous consent to modify the amendment in the form I have placed at the desk. There was a minor change in the figure there.

The Acting CHAIR. Is there objection to the request of the gentleman from Wisconsin?

Ms. PINGREE. Mr. Chairman, reserving the right to object.

The Acting CHAIR. The gentlewoman from Maine is recognized on her reservation.

Ms. PINGREE. Mr. Chair, while I appreciate the request made is intended to correct an inadvertent drafting error, I am concerned that granting the gentleman's request would legitimize a double standard being applied to unanimous consent requests here on the House floor.

For example, during consideration of the defense appropriation bill 3 weeks ago, Congresswoman JACKSON LEE sought to obtain a unanimous consent to correct just this sort of innocent drafting error in her amendment. The majority informed us that, while they had no problem trying to fix the error in some other less direct manner later in the process, they would object to doing so by unanimous consent.

More importantly, just today, the ranking member of the Foreign Affairs Committee asked for and could not get unanimous consent to consider a resolution endorsing Speaker RYAN's own statement rebuking the President's statements in Helsinki in which the President said that he takes the Russians' word over that of the U.S. intelligence community, and refused to condemn the Russians' attacks on our democracy.

If Democrats can't even get unanimous consent for that, endorsing a statement by the Speaker of the House, it starts to look like a partisan double standard for giving unanimous consent.

Mr. Chair, I withdraw my reservation of objection.

The Acting CHAIR. The reservation is withdrawn.

The Clerk will report the modification.

The Clerk read as follows:

Modification to amendment No. 39 offered by Mr. GROTHMAN:

Page 115, line 17, after the dollar amount, insert "(reduced by \$23,250,000)".

Page 116, line 5, after the dollar amount, insert "(reduced by \$23,250,000)".

Page 147, line 2, after the dollar amount, insert "(increased by \$46,500,000)".

Mr. GROTHMAN (during the reading). Mr. Chair, I ask unanimous consent to dispense with the reading of the amendment.

The Acting CHAIR. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Acting CHAIR. Is there objection to the original request of the gentleman from Wisconsin?

There was no objection.

The Acting CHAIR. The amendment is modified.

The Chair recognizes the gentleman from Wisconsin.

Mr. GROTHMAN. Mr. Chair, I will address the amendment. The purpose of this amendment is to try to make a small dent in what I consider to be the overall excessive spending that is going on here.

In the year which we are currently in, we anticipate borrowing about 22 percent of the Federal budget. A few years ago, we had that number down to around 11 percent—and to a certain extent because of the hurricanes, but to a certain extent not—we now are borrowing up to 22 percent.

President Trump, at the time he originally submitted the budget for this time, which was before the budget agreement was reached, I think, anticipated spending over \$50 billion less than the amount that was spent in the last year. I tried to look at something to just give a little bit, a tip of the cap, to President Trump's request. I think he is paying a lot more attention to the burden we are placing on our children and grandchildren than Congress collectively.

And I looked at the National Endowment for the Arts and the National Endowment for the Humanities. I am requesting a 15 percent reduction in both of those numbers. It seems when you reduce anything else, it seems to plan that it is a matter of life and death, and horrible things are going to happen.

I like the arts. I don't know if I like the humanities quite as much as the arts, but they are okay, too. But it is hard to believe, at a time when we are borrowing 22 percent of our overall budget, that a minor 15 percent cut in these two items would be inappropriate.

We are, right now, going up in the National Endowment of the Humanities, hitting an all-time high this year, at the time of this huge deficit, and we are also increasing in the proposed budget the amount we are spending on the humanities.

It seems to me that these things, you could argue, are not necessarily a Federal purpose at all. I am not like President Trump was 2 years ago and trying to zero out these two lines altogether, but I think it is a little bit of an insult to our President, an insult to our children, an insult to our grandchildren to go up to high numbers on both these items.

So the purpose of my amendment, a minor 15 percent reduction. There is still more in both these accounts than we had just a few years ago.

I reserve the balance of my time.

Mr. CALVERT. Mr. Chair, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. I certainly agree with the gentleman that we have a budget problem. I served on the Budget Committee for a number of years and recognize the fact that we are spending too much money.

However, if we take a look at the entire budget picture, nondefense discretionary accounts represent 16 percent of total Federal outlays. And if you take a look at the nondefense discretionary accounts, over the last number of years, we are pretty flat. We are pretty flat spending right now. I mean, even with this increase, even with this increase.

However, this NEA-NEH program is something I can't support. While I understand, again, why the gentleman wants to save money, this amendment would have unintended consequence affecting the men and women who serve in the country in uniform, military veterans, their families, as well as Native Americans, Alaska natives.

We are putting a lot of this money in to help people get through their post-traumatic stress syndrome. This amendment would have devastating consequence on critical work for the National Endowment for the Arts at Walter Reed Medical Center, 11 other clinical sites across the country that are supporting therapy service.

We have reformed the National Endowment for the Humanities to make sure that we have low overhead, and that this money is getting out into the country. This money doesn't go to New York or L.A. This goes out to the rural areas around the country that don't have the benefit of large interest in arts.

So I certainly urge Members to support the innovative work the NEA and the NEH are providing our men and women in uniform, our veterans, and families.

Mr. Chairman, I yield 1 minute to the gentlewoman from Maine (Ms. PINGREE).

Ms. PINGREE. Mr. Chairman, I too rise to speak in opposition to this amendment.

The NEA and the NEH have strong, bipartisan support on this committee, and I had really hoped the days of attacking these agencies were behind us. Maybe they seem like a good political target for those who don't understand the ways the arts and humanities affect our daily lives, but the economic benefits are undeniable for big cities, small towns, and everywhere in between.

The arts and culture industry contributes \$764 billion to our economy every year, and the endowments are uniquely positioned to help smaller, rural areas, as you heard the Chair say, access that energy in a way that private capital can't or won't. And efforts to reach underserved communities are just as important.

NEA's Creative Forces program helps servicemembers and veterans manage TBI and PTSD through arts therapy. A cut would majorly impact the program's reach.

Similarly, NEH has funded the popular veterans book clubs that use literature that help process experiences in our military. I have been lucky to talk to some participants, and this is a deeply meaningful program that, again, is in jeopardy if this proposed cut moves forward.

Frankly, all of this comes at a very small price tag. The NEA and NEH use minimal Federal investments.

I will just end by saying this is an important way to create jobs, support families, and sustain communities in every Congressional district.

Mr. CALVERT. Mr. Chair, I yield 1 minute to the gentleman from New Jersey (Mr. LANCE).

Mr. LANCE. I thank the chairman for his strong support of these programs.

I rise in opposition to the gentleman's amendment. Cuts to these programs may be penny-wise, but I think they are pound-foolish.

I am the Republican chair of both the Arts Caucus and the Humanities Caucus in this House, and these programs do wonderful work throughout the entire Nation, in every hamlet in America and, of course, supporting our veterans.

For every dollar the United States spends on Federal arts initiatives, nine non-Federal dollars are leveraged, generating roughly \$600 million in matching funds. Last year's Federal arts appropriation was under \$150 million, but the industry returned \$10 billion to the Federal Treasury in income taxes.

I understand the gentleman's argument about government spending and our national debt. I take these matters seriously and have opposed a recent measure in this body that will increase our national debt over the next decade.

But on these programs, I trust that my colleagues from the Arts and Humanities Caucuses will expand on the incredible cultural and educational importance of supporting these programs as well.

I urge a "no" vote on this amendment.

Mr. GROTHMAN. Just a comment from the humble Congressman from Wisconsin. It was said that this is a small amount. I still think \$300 million is a lot of money, okay? And we are only taking about \$45 million out of that. We are leaving a lot behind. We are leaving—I don't feel, at this time, with such a big debt, we should be setting the all-time high that we have ever put in the endowment for the humanities and higher than any other amount we have put in the arts for the last 8 years.

And when I run for this job, I don't find anybody running around saying that they have got a big crisis in this country. I have a lot of rural area. And we have got to spend a lot more money in Washington, we have got this big debt, on the arts and humanities.

My local and municipal government are pleased to fund this. Philanthropists are pleased to fund this, and

even people without a lot of money like me are happy to fund it on our own.

I request that the amendment pass and we make a little dent in this huge level of spending, and take a small amount out of here; not as much as President Trump, who cares so much about our children and grandchildren, wanted to take out, but at least a small 15 percent out due to our huge debt.

Mr. Chair, I yield back the balance of my time.

Mr. CALVERT. Mr. Chair, can I inquire how much time I have left?

The Acting CHAIR. The gentleman from California has 1 minute remaining.

Mr. CALVERT. Mr. Chair, one thing I want to make a point of, and because obviously this deficit is a problem. Everybody recognizes that. Seventy percent of all our spending today is non-discretionary spending, 70 percent.

When I came to Congress 26 years ago it was 30 percent. Today those numbers have totally flipped. Now it is 30 percent discretionary, 70 percent nondiscretionary.

Of the discretionary account, half of that goes to defense. The other half goes to nondefense discretionary. No way are we ever going to balance the budget on nondefense discretionary spending. At some point, we all need to come together, Republicans, Democrats, the President, and come to a budget agreement. It has been tried before and needs to be tried again. And the 70 percent of nondiscretionary spending has to be on the table and we have to bend those cost curves.

We are not going to—and I dispute the fact that we are at an all-time high on NEH and the National Endowment for the Arts. In past years, those numbers were quite higher.

□ 2315

Those numbers have been cut down over the years, and we are trying to do the best we can on these discretionary accounts; but being what it will, this is not, I think, a wise cut. Money is going to every congressional district in the United States.

Mr. Chair, I oppose this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment, as modified, offered by the gentleman from Wisconsin (Mr. GROTHMAN).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. GROTHMAN. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment, as modified, offered by the gentleman from Wisconsin will be postponed.

AMENDMENT NO. 40 OFFERED BY MR. BEYER

The Acting CHAIR. It is now in order to consider amendment No. 40 printed in House Report 115-830.

Mr. BEYER. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 138, beginning on line 1, strike section 430.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Virginia (Mr. BEYER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. BEYER. Mr. Chairman, neither of the amendments that I offer tonight have much to do with the appropriations we are addressing. They are not about specific budget provisions, although I very much enjoyed listening to the many amendments tonight and am impressed with how often the discussion has been cordial. Instead, this amendment seeks to preserve current Clean Water Act protections for our rivers, streams, and wetlands.

Our Nation's river systems and wetlands provide irreplaceable resources: natural water quality improvement, flood protection, shoreline erosion control, recreation, general aesthetic appreciation, and natural products for our use at no cost. Yet section 430 of this bill seeks to undermine the critical balance between protecting these waters and the day-to-day operations of our Nation's farmers, ranchers, and foresters.

Under current law, you do not need a Clean Water Act permit if discharges of dredged or fill material are associated with normal farming, ranching, or silviculture activities. This exemption pertains to normal farming and harvesting activities that are part of an established, ongoing farming or forestry operation. Only when the activities change or convert the use of a waterbody to a new purpose or impair the historic flow or reach of a stream or wetland does the exemption no longer apply.

What this means is that farmers can continue to plow their fields, plant their seeds, and harvest their crops without ever having to obtain approval under the Clean Water Act; but if a farmer wants to use the current exemption to convert his farmland into a residential development, he can't do that unless he gets a permit.

A rancher couldn't use this exemption to plow under a wetland to expand the reach of her grazing lands, and forestry operations can't use this exemption to change the course of a local stream to improve drainage on their growing lands.

Section 430 of this bill seeks to provide an absolute exemption for impacts to any streams or wetlands that happen to be on agricultural, ranching, or forestry lands. This is a fundamental change to the Clean Water Act and one where the impacts have never been explored.

This amendment would be a departure from almost 40 years of implementation of the Clean Water Act by elimi-

nating the existing provision requiring that the exemptions are limited to established, ongoing farming practices. It could result in the loss or impairment of thousands of acres of valuable wetlands.

Mr. Chairman, we shouldn't be using an appropriations bill to change Federal policy related to the protection of our Nation's rivers and streams. To the best of my knowledge, no hearings or investigations on the impacts of this provision have ever been held.

If Congress intended to overturn almost 40 years of Clean Water Act precedent, regular order would require hearings before the House Committee on Transportation and Infrastructure, which has sole jurisdiction over the Clean Water Act, and approval by that committee before consideration on the floor.

Mr. Chairman, this rider is bad policy for the protection of our environment, for the protection of human health, and for the protection of public safety.

Mr. Chair, I urge support for my amendment, and I reserve the balance of my time.

Mr. LAMALFA. Mr. Chair, I rise in opposition to this amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. LAMALFA. Mr. Chair, I rise today in strong opposition to this amendment.

My colleague today has labeled this language a loophole in the bill, which is false. A loophole is used to get around a law. The language he wants to strike requires EPA and Army Corps to follow the law.

I ask once again my colleague, a friend of mine and a nice guy, to come visit us in northern California and meet with the farmers and ranchers who have seen firsthand this misuse and abuse of the Clean Water Act and to gain an understanding why this language is necessary. It is not theoretical. This is regulatory overreach at its worst going on right now.

The recapture provision of the Clean Water Act was never meant to swallow the original intent of the agricultural exemptions clearly laid out in the act, but that is exactly what has been happening. If this amendment passes, it would only get worse.

It was never the intention of the Clean Water Act to punish farmers for conducting normal farming practices, normal operations, such as plowing or doing stock pond maintenance, indeed, continuing what it is they have always done.

There is a difference between filling a river and a difference between plowing the corner of a field. These exemptions were constructed to address that difference.

The ongoing expansion of enforcement, indeed, the reinterpretation of clear exemption, is not what has been going on for 40 years as asserted, but only in recent years under the previous administration have they reinterpreted

these laws; otherwise, you wouldn't have these farmers and others in such a fuss over what they have done for many decades.

The ongoing expansion of enforcement of the Clean Water Act has chipped away at the rights of landowners and has made it a danger to farmers to effectively utilize their own property—key word, “own.” This isn't somebody else's wetlands. This isn't someone else's habitat. This is land that belongs to farmers who have been practicing farming in the way they see fit for many years before this reinterpretation.

It is really ridiculous that a farmer must worry about being slapped with a fine in the millions of dollars just for plowing on their own land or a decision to rest that land, let it lie fallow, or wait for improved market conditions.

In my district, there have been lawsuits against residents for farming without Federal permission. Cases like these across the country have cost farmers millions of dollars—yes, millions of dollars—in legal damages, and they risk running farmers out of business. I don't know of many farmers who can absorb million-dollar fines very many times and continue doing what they are doing.

If this amendment is not defeated, these damages to farm communities will only grow. America's farmers and ranchers deserve our support. They deserve to be able to make decisions about managing their land, managing their crops, have crop rotations that make sense to them for market conditions, or just allowing the land to rest without having to seek an onerous permit if they let their land rest for a couple years, this without more regulatory ambiguity and red tape.

Mr. Chair, I urge my colleagues to oppose this amendment, and I reserve the balance of my time.

Mr. BEYER. Mr. Chairman, I tried to listen very carefully to my friend from northern California.

Number one, I would love to come visit and talk to his farmers and his ranchers, with his permission and accompaniment.

Number two, I think if there is administrative misuse, if there is a reinterpretation of a law that has been in place for 40 years, let's address that. Let's do that through the Department of the Interior. We have, I believe, from the gentleman's perspective, a very friendly administration. Let's make sure that they are implementing the law appropriately.

By the way, I agree with the gentleman, it was never intended to punish farmers.

The gentleman's northern California experience is different from ours here. My mom and dad both grew up on farms in northern Virginia, which are completely residential developments right now.

We want to make sure that we don't, with this rider, make it possible for a farmer to change from farming to suburbia without ever obtaining a permit,

and that is essentially what we have done.

By the wholesale nature of this repeal, of the nonstop to the exemptions, we essentially really shortcut the Clean Water Act.

I urge us to look for a middle ground solution that answers the needs of farmers without opening wide this exemption for any farming, ranching, or grazing activity, forestry activity that might result in this full repeal.

Mr. Chairman, I yield back the balance of my time.

Mr. LAMALFA. Mr. Chair, indeed, I appreciate my colleague's comments and thoughts on this.

We are not talking about conversion to suburbia. We are talking about a re-institution of a crop that may have been lying fallow for a few years or changing from a crop such as a hay crop to wheat.

Indeed, one of my growers up north got in big trouble because they wanted to put in a wheat crop on their own land, which isn't wetlands unless we want to start reinterpreting that way by EPA working with their henchmen in the Army Corps, basically out of the Sacramento office, to keep coming after him and finding more and more people. This puts more wind in their sails to come after people who are making an honest living, not trying to develop houses or suburbia.

Indeed, I would agree with the gentleman on that. And that is going to require a fairly difficult permit process, especially in my home State of California, if you want to start turning this ag land into suburbia. It is not what we are after.

There was a farm bill some years ago called the Freedom to Farm. What has happened to that? What has happened to that concept?

With clear exemptions in the Clean Water Act for normal farming practices, not new interpretations that have been put in place in the previous administration we are still trying to unwind and get their attention on, that is why this amendment would be damaging towards that effort.

It is not a fight over clean water; it is a fight over Federal control. They never intended for this.

It is unfortunate I have to even be here today to defend simply requiring the bureaucrats to follow the law and the clear exemptions that were put in place under the Clean Water Act.

Activities of the EPA and Army Corps of Engineers go above the law to impose these requirements, again, significantly expanding the jurisdiction of the Clean Water Act, which clearly exceeds congressional intent when they passed the Clean Water Act 40-plus years ago.

Mr. Chair, again, I strongly oppose this amendment, and I urge my colleagues to vote "no."

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Virginia (Mr. BEYER).

The amendment was rejected.

AMENDMENT NO. 41 OFFERED BY MR. BEYER

The Acting CHAIR. It is now in order to consider amendment No. 41 printed in House Report 115-830.

Mr. BEYER. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 138, beginning on line 10, strike section 431.

The Acting CHAIR. Pursuant to House Resolution 996, the gentleman from Virginia (Mr. BEYER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. BEYER. Mr. Chairman, my amendment would strike section 431, which repeals the current Clean Water Rule.

Without this Clean Water Rule, the streams that supply public drinking water systems to one in three Americans will remain at risk.

Mr. Chairman, everyone agreed that clarity was needed in light of the Supreme Court decisions in 2001 and 2006 that created uncertainty about the scope of waters protected under the Clean Water Act. Calls for EPA to issue a rule even came from such organizations as the National Cattlemen's Beef Association, the American Farm Bureau Federation, the Western Business Roundtable, and the National Association of Manufacturers.

The EPA and the Corps solicited comments to clarify the scope of waters protected under the Clean Water Act, and that included a lengthy and inclusive public rulemaking process that included over 200 days for public comment. The comment period was even extended twice in response to extension requests.

The final rule reflected over 1 million public comments in the proposal, the overwhelming majority of which supported the Clean Water Rule. They had 400 meetings across the Nation with various stakeholders.

The final Clean Water Rule was robust and ensured that water sources were protected by taking into account the connected systems of water, from wetlands and seasonal bodies of water to large rivers and lakes.

The requirements of the rule were meticulously developed and addressed longstanding uncertainty, improving our national commitment to protect not only America's water, but the American people.

About 117 million Americans get drinking water from streams that were vulnerable to pollution before this new Clean Water Rule. Our health and our lives depend on clean water, our economy depends on clean water.

Mr. Chairman, what is unusual is the Trump administration is already working to replace, revise the 2015 rule, so I am baffled why this rider is necessary. Does the rider mean the Republican

Party can't trust its own EPA to write the rule to their requirements?

So I stand here today to denounce this unnecessary rider and to defend clean water for the American people.

Mr. Chairman, I reserve the balance of my time.

□ 2330

Mr. CALVERT. Mr. Chairman, I rise in strong opposition to the gentleman's amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. CALVERT. Mr. Chair, with the change of administrations, we were able to reduce the number of issues addressed in this bill, but some issues warrant continued congressional attention. WOTUS is one of them.

Deciding how water is used should be the responsibility of State and local officials who are familiar with the people and the local issues. Under the WOTUS rule, however, the reach of the Federal jurisdiction would be so broad that it would significantly restrict a landowner's ability to make decisions about their property and a local government's right to plan for its own development.

The language in the underlying bill simply repeals the misguided WOTUS rule and clarifies what rules will be in effect until a new rule is finalized, specifically, the same rules that were in effect immediately prior to the promulgation of the final WOTUS rule.

WOTUS is an issue that warrants continued congressional attention and the provision in the underlying bill is the appropriate action to take.

For these reasons, I must urge a "no" vote on this amendment, and I reserve the balance of my time.

Mr. BEYER. Mr. Chairman, I certainly respect the opinion of the chair, but I do take issue with the notion that it is a misguided WOTUS rule. There were 1 million comments, 400 meetings, and I served on the Science, Space, and Technology Committee and National Resources Committee in the last 2 years of the Obama administration when EPA Administrator Gina McCarthy came to us and said that after the original publication of the intended new clean water rule, there was so much feedback that she went back to the drawing board for another year of hearings and comments to address the many concerns that were raised by farmers, cattlemen, and others, most of which were resolved at the time.

Mr. Chair, I respect the notion that a new administration has the right to go through the same process, the same hearings, and the same public comment to modify the rule to evolve it as we move forward. But to just throw out the old rule by a rider to an appropriations bill, seems the wrong way to make law, the wrong way to govern.

Mr. Chair, I encourage my few colleagues here at a little bit before midnight to vote "yes" on this amendment, and I yield back the balance of my time.

Mr. CALVERT. Mr. Chairman, I urge a “no” vote on this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Virginia (Mr. BEYER).

The amendment was rejected.

Mr. CALVERT. Mr. Speaker, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. LANCE) having assumed the chair, Mr. BUDD, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 6147) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2019, and for other purposes, had come to no resolution thereon.

SUPPORTING ICE

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, I rise today to express my support for an agency that works extremely hard to keep our country safe, and that is Immigration and Customs Enforcement, known as ICE.

While some on the other side of the aisle have called for ICE to be abolished—yes, that is not a joke, and indeed, have proposed a bill that they are now running away from, they failed to put their money where their mouth is on the issue when their bluff was called.

ICE is, in fact, one of the most important components of our country’s interior law enforcement. Without them, even the most modest level of border security would be difficult. In 2017 alone, the numbers are staggering: 226,119 illegal aliens removed; 32,598 Homeland Security criminal arrests; 4,818 gang arrests, including 796 MS-13 members; and 2,370 pounds of the very dangerous fentanyl drugs seized, which only a small amount is very dangerous to thousands of people.

The statistics should speak for themselves. ICE is critical for our country and its law enforcement. We should be doing everything we can to support them instead of threatening and abolishing an agency that works around the clock to protect our borders and our interior from these great threats. We should appreciate this branch of law enforcement, not try and run it out of town.
