

every year, and they can write off on their taxes that new computer, that new equipment, that new improvement to their store. A “no” vote hammers America’s Main Street businesses.

Young parents, struggling to raise kids, where every dollar matters, this bill makes sure that that doubling of the child tax credit is permanent, and millions more Americans, middle-class families, will get help raising their precious children. A “no” vote is to take that money back from those young parents. Oh, by the way, take back their tax-free savings for school and college for that child as well.

And, yes, in this bill, we make sure seniors can write off more of their high medical expenses. Some called it the cancer tax. A “yes” vote will help millions of seniors and millions of families with high medical bills more easily write those taxes off. A “no” vote is to deny American seniors, American families’ ability to write off those taxes.

Now, we know, thanks to ObamaCare, high out-of-pocket costs is now the pre-existing condition. This bill makes sure that we stand on the side of those seniors, whether they are battling cancer or some other menaces.

At the end of the day, while some would say, look, we need to raise the SALT cap, let me just say this: That SALT cap is a \$10 tax cut for the middle class and a \$146,000 tax cut for millionaires. In other words, Democrats who vote “no” say they just want more tax cuts for the rich.

And the fact of the matter is, States are seeing a \$20 billion windfall. State governments and Governors, all they need do, don’t pocket that money for their budget, pass it on to hard working taxpayers.

At the end of the day, the revenues are up. Payroll taxes are up. Social Security and Medicare are strengthened.

So at the end of the day, who do you trust? Who do you trust with your hard-earned money? Is it Washington, so they can take it and spend it on their special interests? Is it you? Is it your family? Is it your American Dream?

This bill is about making sure that we choose the American people. We choose you, the middle-class families. We choose you, Main Street America, to better use your money than Washington does.

As we conclude, Mr. Speaker, I would like to thank our tax team, led by Barbara Angus, our Chief Tax Counsel, Aharon Friedman, Randy Gartin, Aaron Junge, Loren Ponds, John Sandell, Donald Schneider, Victoria Glover, John Schoenecker, and Quinton Brady, for doing a remarkable job for us and for the American people.

I urge a “yes” on protecting tax cuts for individuals, middle-class families, and small businesses.

Mr. Speaker, I yield back the balance of my time.

Mr. WALDEN. Mr. Speaker, I rise today in support of H.R. 6. This is the SUPPORT for Patients and Communities Act that your Energy and Commerce Committee has worked on diligently for nearly 2 years.

In my own case, in 10 roundtables throughout Oregon, I have heard from everyday people on the frontlines of this fight in our communities. They are the victims. They are the families. They are medical providers and treatment advocates. They are local law enforcement, and they are first responders. They are our neighbors. They are our loved ones.

Each of these people puts a name and a face to what I would say is the worst drug epidemic we have seen in America, the opioid crisis.

I have heard from Oregon families, I have heard from Mike and Winnie, from Grants Pass, who have seen their loved one struggle with addiction. Mike's sister who died, she was a nurse, became addicted, and overdosed. He told me that at a townhall in a community forum. Their son struggles with his addiction to this day from a sports injury starting with opioids, ending with heroin.

We will never know what could have become of the 72,000 Americans who died last year.

Every 24 hours, 1,000 people go to emergency rooms overdosing from opioids. Roughly 115 die.

I heard it from Paula, whose two sons and stepson struggle with their opioid addiction today.

As a parent, I can only imagine what parents of children with opioid addiction must feel every time the phone rings. They think it may be that call.

For the millions of people currently struggling with addiction, please know, don't give up. It is never too late to seek help. We stand with you.

Mr. Speaker, this legislation is a product of months of bipartisan, bicameral work, eight House committees involved, I think probably every Member of this House, five Senate committees, dozen and dozens of Members of Congress.

And the faces that we came to know are the parents and the children whom they lost, Amanda Beatrice Gray being one of them, a beautiful young woman, talented, struggling with her issues, overdosed on heroin heavily laced with fentanyl.

We are here for them, Mr. Speaker. We are here for our neighbors, for our

loved ones, who deal with this crisis every day of their life, and in the great joined cause of those who lost.

Mr. Speaker, because we are going to hear from a lot of our Members who have put so much work into this, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of H.R. 6, the SUPPORT for Patients and Communities Act. This bill is the product of many months of hard work by several committees in the House and Senate. It is important that we pass this bill today as another step in addressing the opioid crisis that is ravaging every community in our Nation.

Last year, a record 72,000 Americans died of drug overdoses; that is about 200 people dying every day, and this is a national crisis that is devastating families and that this Congress must act on.

And while this legislation will not solve every problem, I do believe it includes important policies that will help turn the tide of this tragic opioid epidemic. It will also improve treatment options for those battling other substance-use disorders.

I am proud that H.R. 6 builds upon CARA, the Comprehensive Addiction and Recovery Act, by including a provision championed by my colleague, Congressman TONKO, that would allow all advanced practice registered nurses to treat patients with buprenorphine for opioid-use disorder. It also gives nurse practitioners and physician assistants the authority to treat patients with buprenorphine permanently, and it codifies the 275 patient physician cap. This is a critical step in expanding access to the treatment of these drugs, one of the major challenges that we continue to face in the fight against this epidemic.

Mr. Speaker, the legislation also expands access to coverage. It includes an important provision that I worked on with Ways and Means Committee Ranking Member NEAL that expands Medicare coverage of opioid treatment programs and medication-assisted treatment.

In the Medicaid space, I am pleased to see the inclusion of several Democratic priorities. This bill requires State Medicaid programs to cover all forms of medication-assisted treatment, which plays a critical and life-saving role in treating opioid use disorder.

It provides grants to State Medicaid programs to help increase the number of substance use disorder providers and services. It increases access to mental health and substance use disorder treatment for children and pregnant women covered by CHIP, and it ensures former foster youth are able to keep their Medicaid coverage across State lines up to the age of 26. And it improves the continuity of Medicaid coverage for juveniles in the justice system.

I am also pleased that we have been able to improve upon the House-passed

IMD policy. This bill adds new safeguards to ensure that States continue to provide an adequate level of outpatient services and offer medication-assisted treatment. It does this by making clear that this policy does not impact the more comprehensive efforts to provide care in IMDs that is ongoing in many States today.

□ 1045

H.R. 6 also includes provisions from my legislation, the SCREEN Act, that would give the Food and Drug Administration the ability to take action against illicit controlled substances coming in through international mail facilities across the country.

FDA will now be able to prohibit the importation of drugs by people who have repeatedly imported illicit drugs. It also allows the agency to cease distribution of or recall controlled substances, like opioids, if they are endangering patients.

These provisions also provide FDA expanded authority and capacity needed to more effectively combat the influx of deadly synthetic opioids, like fentanyl, from reaching our shores through the mail in the first place.

It also provides the Federal Trade Commission with stronger enforcement tools to go after bad actors that are taking advantage of the suffering of individuals combating addictions.

Mr. Speaker, there is one provision that is concerning and that I do want to mention. It did not go through regular order and was not properly vetted. In fact, it was added at the very last minute. That is a proposal by Senator RUBIO to create a new criminal antikickback statute.

I know this proposal is well-intentioned in addressing the serious problem of patient brokers who are taking advantage of individuals with opioid use disorders and referring them to substandard or fraudulent providers in exchange for kickbacks. This is an issue, but since the bill was introduced last Tuesday night, multiple stakeholders have raised concerns that the language does not do what we think it does. It may have unintended consequences.

Mr. Speaker, I hope this is a good lesson to all of us that passing legislation that has not been properly vetted, and that the public has not had an adequate chance to review, is unwise. I hope to get a commitment from Chairman WALDEN and Chairman GOODLATTE to work to address any technical problems with this provision in the upcoming months.

In closing, Mr. Speaker, these are all policies that have the potential to make a real impact on this epidemic, but our work here is not complete. An epidemic of this size will take a long-term commitment to improving health insurance coverage, treatment, access, and affordability.

This bill is an important step, but I want to stress that we have to do a lot more. The opioid crisis continues to

get worse. A lot more needs to be done to provide treatment and expand the treatment infrastructure. More resources are needed to support the families and communities impacted by this crisis. So what we are doing today is clearly helpful, but it is not enough.

Mr. Speaker, I reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I am honored to yield 1 minute to the gentleman from Texas (Mr. BRADY), the distinguished and talented chairman of the House Ways and Means Committee.

Mr. BRADY of Texas. Mr. Speaker, I thank Chairman WALDEN and Ranking Member PALLONE for their work. The opioid crisis, as you know, has impacted every community in America, has robbed countless individuals of their full potential. We all know someone who lost a loved one because they were exposed to opioids and then quickly addicted, and I know that sometimes, in routine surgery, they didn't even need it.

This can be prevented, and that is why I rise today in support of H.R. 6. This is bicameral and bipartisan. It addresses this crisis by putting in place many commonsense measures to reduce the unnecessary prescribing of opioids and get people treatment once they become addicted.

Mr. Speaker, I want to thank the ranking member of the Ways and Means Committee, Mr. NEAL; the ranking member of the Health Subcommittee, Mr. LEVIN; as well as leaders on our side and Mr. ROSKAM, Mr. CURBELO, Mr. PAULSEN, and Mr. BISHOP for authorizing key provisions of H.R. 6. They will save lives and heal communities.

Mr. PALLONE. Mr. Speaker, I yield 4 minutes to the gentleman from Massachusetts (Mr. NEAL), the ranking member of the Ways and Means Committee who worked so hard on this legislation as well.

Mr. NEAL. Mr. Speaker, I rise in support of H.R. 6, the SUPPORT for Patients and Communities Act, and I want to acknowledge Mr. PALLONE, Mr. WALDEN, and Mr. BRADY, the chairman of the Ways and Means Committee, for the good work that they have offered on this as well.

The opioid crisis is not a partisan issue. It is a health, safety, family, community, and economic issue. Everybody in this Chamber today has a family member or knows someone close to them who is connected to the opioid crisis.

H.R. 6 represents the best of bipartisan and bicameral negotiation. This is, indeed, the way policy can and should be done.

The bill includes a number of Democratic priorities to expand treatment options for our neighbors, family members, and friends suffering from opioid use disorders. It includes my bill, with Member PALLONE, that would require Medicare to cover opioid treatment programs so that our Nation's seniors might have more outpatient options for treatment.

Opioid use disorders are rapidly growing among Medicare beneficiaries. In 13 States, the highest rate of opioid-related inpatient hospital stays is amongst those over 65. This policy would give Medicare beneficiaries increased access to a range of medication and behavioral treatment options, leading to more hope for long-term recovery.

I am also pleased that H.R. 6 includes the Securing the International Mail Against Opioids Act, which would help to stop the flow of opioids through the United States. This legislation stems from the STOP Act, a bill that I worked on with Mr. Tiberi before his retirement earlier this year. I want to commend him, in addition to Trade Subcommittee Ranking Member PASCRELL, for their work on this bipartisan legislation.

While the bill before us is a step in the right direction, this epidemic is not going to turn around overnight. It needs a thoughtful, long-term, sustainable approach that requires significant Federal investments. H.R. 6 represents the initial step in addressing this crisis, but it cannot be the end. Part of that long-term approach must include protecting and strengthening Medicaid and the Affordable Care Act.

I want to take a moment to thank the staff on both sides of the aisle for their usual good work in this Chamber, for the weeks of hard effort they put in bringing this bill to fruition. The effort exemplifies bipartisan cooperation, and a particular thanks to House and Senate legislative counsel who worked long nights and weekends to finish the bill.

Thanks also to the CMS Office of Legislation and the staff of the Congressional Budget Office who played a critical role in finalizing the bill.

This is a complicated issue, and H.R. 6 is not going to solve the public health epidemic or its impact on society at the moment, but it certainly is a good step. I encourage all of us here in this Chamber today and in Congress to continue to work together to develop policy solutions for members of our community who are suffering from this terrible epidemic.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentlewoman from Indiana (Mrs. BROOKS), and concur in my colleague's comments in praise of the staff that we worked with to get this done. The gentlewoman has been a real leader.

Mrs. BROOKS of Indiana. Mr. Speaker, the opioid and heroin crisis continues to hit Hoosiers hard. Sadly, we haven't turned the tide yet.

It is robbing the futures of Americans in every State in our Nation. We must support those battling addiction.

I have met with so many Hoosiers battling addiction. I visited treatment centers and recovery houses like the La Verna Lodge for men and Ohana House Sober Living for women. I have talked with addicts and those battling addiction about what is working and

what is not working with different recovery options.

Passing the strong bipartisan bill before us today is critically important. It will help ensure that more people have better access to treatments, and we can try to save more lives across this country.

Mr. PALLONE. Mr. Speaker, I yield 4 minutes the gentleman from Maryland (Mr. CUMMINGS), the ranking member of the Oversight and Government Reform Committee.

Mr. CUMMINGS. Mr. Speaker, I want to thank Mr. PALLONE for yielding, and for his great work on this legislation.

Mr. Speaker, I rise in support of provisions in this package reauthorizing and reforming the Office of National Drug Control Policy to improve coordination of our national response to the drug crisis.

At my request, the bill creates a demand reduction coordinator position, parallel to the existing interdiction coordinator, to strengthen demand reduction initiatives, including efforts to expand treatment.

Among other critical reforms, this legislation also requires ONDCP to report whether drug control program agency budgets are adequate to achieve the goals of the National Drug Control Strategy. It requires the compilation of essential data on overdoses, deaths, and interdiction in a data dashboard, so the American people have a clear, accessible picture of the effectiveness of efforts to combat the drug crisis.

I thank Chairman GOWDY, Chairman MEADOWS, and Vice Ranking Member CONNOLLY for working with me to develop legislation that will reform ONDCP. I thank Chairman GRASSLEY, Ranking Member FEINSTEIN, and Senator CORNYN for their leadership.

Let me also give special thanks to the committee staff and, I must say, to the majority and the minority staff. They did a phenomenal job working hard in conference and throughout this effort. Without their extraordinary efforts, this legislation would not be in this package today.

Mr. Speaker, I close with a simple warning. There are a lot of people suffering. Almost 198 people die a day—a day. Those are the people who are dying, but there are a lot of people in the pipeline who are in so much pain, they don't even know they are in pain.

So while the provisions of H.R. 6 are important, without significantly expanding access to treatment and wrap-around services through long-term, sustained funding, we continue to nibble at the edges of our national crisis, and the crisis will continue to worsen.

Mr. Speaker, I thank the gentleman for yielding.

Mr. WALDEN. Mr. Speaker, it is my great honor and high privilege to yield 1 minute to the gentleman from Wisconsin (Mr. RYAN), the Speaker of the House and my dear friend and classmate from the class of '98.

Mr. RYAN of Wisconsin. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise today to talk about something that is really close to all of our hearts. We have reached a point in this country where opioid overdoses claim more than 100 lives each and every single day.

Think about that for a moment, more than 100 lives every day. Mothers and fathers are burying sons and daughters, or in some cases, sons and daughters are burying mothers and fathers.

I bring this up simply to impart the gravity of the situation, which makes our response all the more urgent. But while the situation is certainly grave, that does not mean that we should ever lose hope.

As we have worked on this legislation we will soon send to the President, we all had to go out and gain an understanding of the facts on this issue. Everybody on both sides of the aisle spent so much time on this bill. In doing that, we have gleaned so much understanding.

And that is, after all, how our Republic works. That is what the people's House does. We learn from our constituents. We hear their stories. We see the suffering, and then we act.

This is a fantastic moment of people coming together to solve a problem. I think, in this process, we gained something very special.

Many of us heard the stories from incredible souls who have known unspeakable loneliness and who struggle with drug addiction. They made it through to the other side.

We met family members and friends who have known the pain and the fear that accompanies loving someone wrestling with addiction. Every one of us knows somebody or is related to somebody who has gone through this.

We met those who will never again have the chance to see the ones that they love so much.

Amid the overwhelming darkness, we have gotten to see their spark, their strength. From this pain has come something more powerful: resolve and a passion to make sure that others have a safe place to turn, that this doesn't happen to their family.

Witnessing this kind of strength, witnessing this kind of resilience, that is what helped produce this legislation. Through these bills, we are trying to ensure that anyone who needs help is not too isolated to receive it.

We are giving our communities the resources that they need to provide stronger treatment networks and support systems. That is where the healing happens. That is where Americans are at our best.

If this legislation can save one life and bring help to one person, that is what matters.

It is going to do far more than that.

□ 1100

So I want to thank all of those who were brave enough to share their stories with all of us. I want to thank all of those people who all of us met with

for being brave, for coming here, for meeting us, and for testifying and giving us their stories. And for all of those who are continuing to struggle in silence, I want them to know that there is no shame in their trials. In our own ways, we all fall.

In our Catholic tradition, we look to St. Jude as the patron saint of lost causes, a keeper of those who some in society may have written off. To me, his guardianship is written in this legislation. There are no lost causes. No one is permanently down. It is about offering a helping hand, and it is about opening our hearts.

Mr. Speaker, I am very proud of this legislation. I am so thankful to my colleagues on both sides of the aisle who came together to put these families and to put these communities first.

Mr. PALLONE. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. TONKO), a member of the committee.

Mr. TONKO. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, all across my district, I have encountered stories of individuals and families whose lives have been irrevocably changed by the scourge of the opioid epidemic: a father who lost his daughter too young and is pouring his grief into advocacy, a former neighbor and a dad who left behind two young children, a young man who is walking the hard path of recovery and showing others how to do the same.

These are the stories I hear day in and day out. They fill my heart; they fill my voice. And it is because of them that I am so very proud to cast a vote in favor of H.R. 6 today. It is my hope that this legislation will be another small step for our Nation on its road of recovery from this epidemic.

I am particularly proud that this bill incorporates legislation that I have introduced, along with my good friend Representative BEN RAY LUJÁN of New Mexico, which will provide a meaningful expansion to high-quality addiction treatment by allowing additional healthcare providers, such as nurse midwives, to prescribe buprenorphine, a medication-assisted treatment for opioid use disorder.

In addition, this provision will make permanent buprenorphine-prescribing authority for nurse practitioners and physician assistants and allow certain providers to treat more patients in the first year of their license.

These changes will make a big difference for individuals struggling from addiction across our country, especially in rural areas, and for vulnerable populations like pregnant and postpartum women and the 13,000 babies born each year with neonatal abstinence syndrome.

I also want to highlight the inclusion of my Medicaid Reentry Act into this bill, which aims to improve care for individuals who are leaving jail or prison and reentering a community setting.

The SPEAKER pro tempore (Mr. JODY B. HICE of Georgia). The time of the gentleman has expired.

Mr. PALLONE. Mr. Speaker, I yield an additional 30 seconds to the gentleman from New York.

Mr. TONKO. These individuals are highly vulnerable to opioid overdose due to lack of effective addiction treatment while incarcerated. By passing this legislation, we will allow States to engage in demonstration projects to improve medical care and transition-related services to Medicaid-eligible incarcerated individuals in the 30 days prior to their release, reducing the risk of overdose as individuals are coming back into the community for a second chance. I truly believe that this provision will transform lives.

I thank Ranking Member PALLONE, Chairman WALDEN, and their staffs for their continued efforts in this process. Without their dedicated, bipartisan work, we would not be making this progress today.

Mr. Speaker, I urge my colleagues to support H.R. 6.

Mr. WALDEN. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Texas (Mr. BURGESS). The country is well served by his chairmanship of the Subcommittee on Health.

Mr. BURGESS. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, H.R. 6 is by far the most comprehensive legislation to address this national crisis. While more work remains—and I am the first to admit it—it provides meaningful solutions and vital resources for our States and localities.

Many of the priorities developed by the Energy and Commerce Committee are included in H.R. 6, like the 21st Century Tools for Pain and Addiction Treatment Act, partially repealing the institutions for mental disease exclusion and strengthening interagency coordination at our international mail facilities so that, perhaps, once and for all, we can do something about this poison coming into our country from eastern Asia to the detriment of our citizens.

I believe H.R. 6 could have been stronger. It could have included language aligning 42 CFR Part 2 with HIPAA. That stand-alone bill received 357 votes in this House. And I promise you, you will see it again. I am concerned about expanding prescriptive authority for nonphysicians, and I hope we will be able to look at that again in the future.

But I cannot let the perfect be the enemy of the good. I urge our Members to support this product today.

Mr. PALLONE. Mr. Speaker, I yield 2 minutes to the gentlewoman from Michigan (Mrs. DINGELL), also a member of the committee.

Mrs. DINGELL. Mr. Speaker, I thank Ranking Member PALLONE for yielding and Chairman WALDEN for his leadership in bringing this bill to the floor.

Mr. Speaker, I rise in strong support of H.R. 6, the SUPPORT for Patients and Communities Act. This is a critical first step in addressing the opioid epidemic.

I have lived on all sides of this. I lived in a home with a father who was an opioid addict before anyone knew what it was. I had a sister who died of a drug overdose. Yet I also live with a man who has very serious chronic pain and needs opioids to live his life comfortably.

We cannot let the pendulum swing too far in either direction, and we cannot be denying medication to those who need it. I am confident that this legislation strikes the right balance.

This bill has four provisions which I authored included in it:

The ACE Research Act, which I cosponsored with my friend Mr. UPTON, will spur innovative research into nonopioid pain medications at NIH and will help lead the next big breakthrough and bring benefits to patients. We need nonaddictive pain drugs.

I am also pleased that Jessie's Law, which I have worked on for years with Mr. WALBERG, is in this. This provision, which is named after a young woman we lost far too soon, would require HHS to establish best practices to ensure that medical professionals have full knowledge of their patient's opioid history.

The Safe Disposal of Unused Medication Act fixes a critical gap in our laws by permitting hospice employees from disposing of unused opioids after a patient has passed away or the medication is no longer needed.

Finally, I was pleased to work on language with Dr. BUCSHON to ensure that the Welcome to Medicare wellness exam includes a review of the beneficiary's current opioid prescriptions and screening for potential substance use disorder.

As we pass this legislation to combat this epidemic which has claimed so many lives, we cannot forget the 25 million people who do live in pain. We cannot let the pendulum go either way.

Mr. WALDEN. Mr. Speaker, it is now my privilege to yield 30 seconds to the gentleman from Ohio (Mr. LATTA), the very effective chairman of our Digital Commerce and Consumer Protection Subcommittee.

Mr. LATTA. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise today in support of H.R. 6. This legislation will make a significant difference to tens of thousands of Americans who are struggling with addiction.

I am pleased that my bill, the INFO Act, is part of the fight against the opioid crisis. The INFO Act is essential to ensuring we are providing behavioral health professionals, advocates, physicians, and families with the tools, resources, and funding information they need to prevent, identify, and treat addiction.

Furthermore, H.R. 6 is critically important to stop the flow of illegal opioids, prevent the misuse of drugs, and help those who are addicted. With 190 Americans dying every day from overdoses, it is time to act now.

Mr. PALLONE. Mr. Speaker, I yield 2 minutes to the gentleman from Texas

(Mr. GENE GREEN), the ranking member of our Health Subcommittee.

Mr. GENE GREEN of Texas. Mr. Speaker, I thank the ranking member for yielding to me.

Mr. Speaker, I rise in support of the SUPPORT for Patients and Communities Act, bipartisan legislation that will help stem the tide against the Nation's opioid crisis and support Americans overcoming opioid addiction.

In 2016 alone, 42,000 Americans died from opioids, including prescription pain relievers and illicit opioids like fentanyl. This is a serious national crisis that affects public health and the social and economic welfare of communities throughout our great country.

The Energy and Commerce Health Subcommittee, which I am proud to serve on as ranking member, held several hearings on the opioid crisis last spring. I am proud to see our committee and both Chambers of Congress come together and support the package before us today that includes the Comprehensive Opioid Recovery Centers Act that I introduced, along with my friend Representative BRETT GUTHRIE from Kentucky, earlier this year.

This legislation would fund designated treatment centers where Americans suffering from opioid abuse can receive comprehensive patient-centered care. The bill would allow designated treatment centers to provide wraparound services, including mental health, counseling, recovery housing, and job training and placement to support reintegration into the workforce. These wraparound services have been shown to help many Americans successfully overcome opioid addiction.

The SUPPORT for Patients and Communities Act includes several provisions to combat this crisis, including strengthening the Federal Government's authority to restrict illegal drugs entering our country, and providing Medicaid for at-risk youth and former foster children.

Mr. Speaker, I ask my colleagues to join me and support this important legislation.

Mr. WALDEN. Mr. Speaker, I am privileged to yield 30 seconds to the gentleman from New Jersey (Mr. LANCE).

Mr. LANCE. Mr. Speaker, I rise in strong support of H.R. 6, which delivers greater resources, treatment, and mitigation tools to fight opioid addiction.

I am especially pleased that a bill that I sponsored related to infectious diseases is included in the final package. I commend the Congressman from Massachusetts, Mr. JOE KENNEDY, for being my lead cosponsor on this part of the overall whole.

Infectious diseases complicate the lifelong path toward addiction recovery. H.R. 6 is one of the most important measures to pass this Congress. It should be supported unanimously.

Mr. PALLONE. Mr. Speaker, may I inquire as to how much time remains on each side.

The SPEAKER pro tempore. The gentleman from New Jersey has 3 minutes remaining.

Mr. PALLONE. Mr. Speaker, I yield 1 minute to the gentleman from New Mexico (Mr. BEN RAY LUJÁN).

Mr. BEN RAY LUJÁN of New Mexico. Mr. Speaker, I rise today in support of H.R. 6, the SUPPORT for Patients and Communities Act.

This is an important step forward in the fight against the Nation's opioid epidemic. However, this Congress must acknowledge that this is not the end.

Healthcare is a right, not a privilege. There is much more work to do to ensure that families get the help that they deserve.

I am pleased that this package includes language that I have championed to address gaps in prevention and gaps in access to treatment. In addition, this bill will create pathways to behavioral healthcare jobs in communities like New Mexico.

Still, Congress must do more. As we have heard from Representative CUMMINGS, this is going to take much more money, investment, and comprehensive legislation.

Mr. WALDEN. Mr. Speaker, I am privileged to yield 30 seconds to the gentleman from Kentucky (Mr. GUTHRIE).

Mr. GUTHRIE. Mr. Speaker, I rise in support of the SUPPORT for Patients and Communities Act.

One of the main things I hear back home is how our Nation's ongoing opioid crisis has affected either themselves, their loved ones, or their community.

Mothers, fathers, children, bankers, dentists, bus drivers, or high school athletes, anyone can fall victim to opioid use disorder. That is why I am proud to work with my colleagues in support of the act so that we can help these people who are suffering from this terrible epidemic.

Mr. Speaker, I urge my colleagues to support this critical legislation so that we can deliver relief to those communities.

□ 1115

Mr. PALLONE. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, before we conclude debate, let me just take a moment to thank everyone for all of their hard work getting this bill across the finish line.

This bill represents a collection of Member ideas and policies across the political spectrum. Many people may not know this, but the staff of the House and Senate committees negotiated this bill in a matter of weeks, and that is no small feat. It took a lot of effort, long hours and weekend work to pull this off. It is a product we can all be proud of.

So let me thank all legislative counsel and CBO for their efforts as well.

Mr. Speaker, I reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Florida (Mr. BILIRAKIS) to speak about the legislation.

Mr. BILIRAKIS. Mr. Speaker, the SUPPORT for Patients and Communities Act is the product of a year of hearings and investigations into America's opioid crisis.

This thoughtful bipartisan legislation will provide more tools to our communities to help them. I am proud that we included my legislative efforts to help Medicare beneficiaries, begin reforms to the sober home industry, and address the problem of patient brokering.

We need to pass this bill and give our constituents the help they need.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Ohio (Mr. JOHNSON), who is a leader on this issue.

Mr. JOHNSON of Ohio. Mr. Speaker, today is the culmination of months of tireless work driven by heartbreaking stories of people whose lives were destroyed by opioid addiction, and, just as importantly, the powerful stories of hope and recovery.

I am grateful for the hard work of my colleagues and our Energy and Commerce staff. I am proud that my legislation to improve how health professional students are taught to recognize, prevent, and address addiction, as well as to expand the availability of telehealth and peer support services for those struggling with addiction is included.

Mr. Speaker, I am looking forward to continuing the hard work ahead on this very important issue, and I urge support for the bill.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Indiana (Mr. BUCSHON), who is a talented physician on our committee.

Mr. BUCSHON. Mr. Speaker, I rise today in support of H.R. 6, the SUPPORT for Patients and Communities Act.

This bipartisan bill will help our struggling communities to combat the opioid epidemic by increasing access and improving care to those in need and preventing new occurrences of opioid misuse and abuse.

Section 2002, which I authored, would provide screening for chronic pain, address possible non-opioid pain alternatives, and increase early detection of opioid use disorder in seniors as they enter Medicare.

Mr. Speaker, I am proud to have worked with my colleagues on solutions to this serious epidemic, and I urge support of H.R. 6.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Michigan (Mr. WALBERG) to speak on the measure.

Mr. WALBERG. Mr. Speaker, I rise today in strong support of this bipartisan package to address the opioid crisis devastating our communities.

This legislation includes two provisions authored by myself and my good friend from Michigan, Congresswoman DEBBIE DINGELL.

One will help safely dispose of unused drugs and prevent their diversion into the community. The other, Jessie's Law, honors the memory of Jessie Grubb and will help prevent future overdose tragedies under medical care.

Mr. Speaker, this critical legislation will help save and rebuild lives. I urge its passage today, and I look forward to its quickly advancing to the President's desk.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Georgia (Mr. CARTER), who is our resident pharmacist on the Energy and Commerce Committee.

Mr. CARTER of Georgia. Mr. Speaker, I would like to thank Chairmen WALDEN and BURGESS for working so hard with our partners across the aisle as well as across the Capitol to come to a consensus on this critical legislation necessary to combat the opioid epidemic.

As the only pharmacist currently serving in Congress, I have seen families saved by pain medications and have seen families torn apart by the same drugs.

Since this body began tackling the opioid epidemic, I have said there are three major components to this crisis: prevention, law enforcement, and treatment.

This legislation touches all three prongs of the opioid crisis with a number creative solutions in addition to providing offsets to ensure that solving a public health crisis does not lead to a fiscal one.

This package is not a silver bullet, but as legislators we need to do everything in our capacity to prevent the addiction and overdoses that occur every day in the United States.

Mr. Speaker, I would like to thank Chairman WALDEN and BURGESS for working so hard with our partners across the aisle as well as across the Capitol to come to a consensus on this critical legislation necessary to combat the opioid epidemic.

As the only pharmacist in Congress, I have seen families saved by pain medications and have seen families torn apart by the same drugs.

Since this body began tackling the opioid epidemic, I have said there are three major parts to the crisis: prevention, law enforcement, and treatment.

This legislation touches all three prongs of the opioid crisis with a number of creative solutions in addition to providing offsets to ensure that solving a public health crisis does not lead to a fiscal one.

I voted for many of these bills when they came before Energy and Commerce for markup, and once again I want to offer my full support for this legislation.

I am pleased that this package includes three of my own bills, the Special Registration for Telemedicine Clarification Act, the Abuse Deterrent Access Act, and the Empowering Pharmacists in the Fight Against Opioid Abuse Act.

This package is not a silver bullet—but as legislators we need to do everything in our capacity to prevent the addiction and overdoses that occur every day in the United States.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Illinois (Mr. ROSKAM).

Mr. ROSKAM. Mr. Speaker, what a joy it is to be on the floor today. What a joy it is to be amongst a group of people who have set aside partisanship and have come together to address a crisis that is crushing our constituents. What a joy it is to be a part of the process and among a group of people who are trying to find common ground.

This is a good day, Mr. Speaker. There is good work that is happening. I chair the Health Subcommittee, and it was incredible to see the work that that subcommittee did on the Ways and Means Committee.

Mr. Speaker, I am pleased to strongly endorse this bill, and I urge its passage.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I am honored to yield 30 seconds to the gentleman from Minnesota (Mr. PAULSEN), who has worked so hard for these issues.

Mr. PAULSEN. Mr. Speaker, I am excited to support this legislation. It is bipartisan.

Minnesotans and those who are on the front lines of the opioid crisis will be helped, and it will aid the millions of American families who are affected by this epidemic.

It includes a bipartisan measure that I authored that will help prevent opioid addiction among seniors by educating them on alternative pain management treatments, and the proper, safe disposal of prescription painkillers. It will help more than 90,000 at-risk seniors from descending into a deadly spiral of addiction.

The end result will be less addiction, fewer overdoses, and safer Minnesota communities.

Mr. Speaker, I thank the chairman for yielding time.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Ohio (Mr. RENACCI) to speak on the measure.

Mr. RENACCI. Mr. Speaker, I rise in support of this legislation which includes my bipartisan bill, the Strengthening Partnerships to Prevent Opioid Abuse Act.

The opioid epidemic has hit my home State of Ohio particularly hard, with thousands of Ohioans dying from drug overdoses every year.

This bill will make it easier for Medicare Advantage Part D drug plans, and HHS to combat fraud, waste, and abuse and prevent the overprescribing of opioids to vulnerable seniors.

I would like to thank members of this conference committee as well as their staff for including my bill in this package and for their hard work to pass legislation to address the opioid epidemic.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, may I inquire as to how much time each side has remaining?

The SPEAKER pro tempore. The gentleman from Oregon has 8½ minutes remaining. The gentleman from New Jersey has 1½ minutes remaining.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the distinguished gentleman from Michigan (Mr. BISHOP.)

Mr. BISHOP of Michigan. Mr. Speaker, I rise in strong support of H.R. 6 which will make great strides toward ending the opioid crisis once and for all.

I am pleased this package includes my bill, the STOP Act, which is targeted legislation to help stop synthetic opioids like fentanyl and carfentanil from entering our country through the international mail system.

I want to make sure I thank all the parents, educators, law enforcement, emergency response personnel, healthcare professionals, victims, and those suffering from addiction who have been working with me to ensure this legislation gets signed into law. Your hard work has made a real difference.

Mr. Speaker, I also want to thank my colleagues for their support, and I urge a "yes" vote on the underlying bill, H.R. 6.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, few States have been harder hit than Kentucky in this effort on opioids, a terrible tragedy.

Mr. Speaker, I yield 30 seconds to the distinguished gentleman from Kentucky (Mr. BARR).

Mr. BARR. Mr. Speaker, on behalf of the families of the Commonwealth of Kentucky which suffers from the third highest opioid overdose mortality rate in the Nation, I rise today in support of H.R. 6, and I thank the chairman for his leadership on this.

This legislation marks a critical investment to help individuals and families struggling with addiction rise above addiction and transition back into the workforce.

Specifically, H.R. 6 includes my legislation, the CAREER Act, which creates a demonstration program to promote evidence-based transitional housing that pairs recovery support with life skills, workforce training, and job placement.

I would like to thank the many non-profits in my home State of Kentucky for inspiring this legislation.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Pennsylvania (Mr. BARLETTA). There is a lot of enthusiasm for this legislation, Mr. Speaker. We want to hear from Mr. BARLETTA about his thoughts on it. He has been a real leader on it.

Mr. BARLETTA. Mr. Speaker, I rise today in support of H.R. 6 which includes my bill, the Treating Barriers to Prosperity Act.

The Appalachian region, including much of my home State of Pennsylvania, has an overdose death rate 65 percent higher than the rest of the country for people ages 15 to 64.

My legislation will allow communities to use Appalachian Regional Commission funding for everything from attracting doctors to putting in broadband for telemedicine. It will spur economic growth in communities hit hardest by the opioid epidemic, while also helping those struggling with addiction by breaking down barriers to employment.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentlewoman from California (Mrs. MIMI WALTERS) who is from the West Coast and is a real leader on our committee.

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise in support of H.R. 6 and the IMD exclusion repeal probation modeled after my bill, the IMD CARE Act.

I fought to ensure the IMD exclusion repeal was part of this final agreement because increasing inpatient treatment options is essential in our fight against the opioid epidemic.

The Orange County Board of Supervisors agrees with leading addiction treatment groups: the IMD exclusion repeal and the IMD CARE Act are the most important steps we can take to end drug overdose deaths in Orange County.

Mr. Speaker, I urge my colleagues to support this legislation to address this public health crisis.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentlewoman from Indiana (Mrs. WALORSKI), who is also a real worker on this legislation, to speak on the measure.

Mrs. WALORSKI. Mr. Speaker, I rise today in support of H.R. 6, the SUPPORT for Patients and Communities Act. It includes my bill, named for Dr. Todd Graham, who was senselessly murdered last year over an opioid prescription.

With this legislation, we build on Dr. Graham's legacy of treating patients not only for their pain, but for their underlying causes. Today we are taking bipartisan action to expand access to nonopioid alternatives and give our

communities better tools to prevent and treat addiction.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Michigan (Mr. MITCHELL).

Mr. MITCHELL. Mr. Speaker, I rise today in support of H.R. 6 as did my colleagues.

The opioid crisis has impacted nearly every community across this country, and in order to most effectively combat this crisis, we must establish a comprehensive response plan.

I am pleased this bill includes a version of my amendment offered in committee to establish a system to track Federal funding for drug control efforts, ensuring the government knows exactly where the money is being spent, how it is being used, and if it is working.

Mr. Speaker, I support this bill, and I ask my colleagues to do so as well.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, we have heard from doctors, we heard from pharmacists, and we have heard from many family members. Now we will hear from somebody who has a distinguished career in law enforcement.

Mr. Speaker, I yield 30 seconds to the gentleman from California (Mr. KNIGHT) to speak on this legislation.

Mr. KNIGHT. Mr. Speaker, as a police officer and a street cop in L.A., I have seen the problems that the opioid epidemic has done to our communities. It has literally destroyed families and hurt our communities to no end. H.R. 6 is a much-needed display of bipartisanship to address the ongoing opioid crisis and epidemic.

Many of the issues that have come out of this bill spur development of national best practices for substance abuse recovery housing and incorporates my bill, the Eliminating Kickbacks in Recovery Act, to establish meaningful penalties for profiteering off other people's pain and addiction through illicit referrals.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield 30 seconds to the gentleman from Virginia (Mr. BRAT) to speak on the measure.

Mr. BRAT. Mr. Speaker, I rise today to thank Chairman BRADY, Chairwoman FOXX, and Chairman WALDEN for addressing opioid and substance abuse disorders and their work on H.R. 6, the SUPPORT for Patients and Communities Act. I am grateful to my colleagues for treating the crisis with the urgency it deserves.

In my district, this crisis has affected way too many. I am also grateful that my bill, H.R. 5889, the Recognizing Early Childhood Trauma Related to Substance Abuse Act of 2018 was included in the final package before us today.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I don't believe I have any other speakers on my side of the aisle pending, so with that, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I do urge support for this legislation. It is a good bill. It expands access in a number of ways in coverage. But I do also want to point out that there are limitations to the bill. In other words, we do need to do a lot more.

□ 1130

For example, we still haven't expanded Medicaid coverage in many States. Medicaid coverage is crucial, in terms of providing treatment.

The bottom line is that the treatment infrastructure in our country is very much inadequate. Many people really do not have access to treatment in many parts of the country, including my home State.

I want to close by urging everyone to support this bipartisan and bicameral bill, because it does do a lot. At the same time, I remind my colleagues that we have a lot more to do if we are going to address this opioid crisis, which actually is getting worse instead of better.

Mr. Speaker, I yield back the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, before I close, I want to especially thank our staff on both sides of the aisle for their incredible work. They have worked day and night, literally, and all through the weekend—also, the folks at the Congressional Budget Office and Legislative Counsel. But I especially thank our team: Josh Trent, Kristen Shatynski, Caleb Graff, Dan Butler, James Paluskiewicz, Danielle Steele, Adam Buckalew, Melissa Froelich, Bijan Koohmaraie, Ryan Long, Peter Keilty, and Jenn Sherman, and the whole team at the Energy and Commerce Committee on both sides of the aisle.

We worked through a lot of difficult issues, issues where we didn't start on the same side, but we ended on the same page as we listened to each other, as we listened to our constituents at home.

Seldom are there times when you are legislating that you can say what you are doing will actually save lives. This is one of those times. What we are doing here today is saving lives.

We will lift people out of addiction who are trapped there today. We will prevent people from ending up in that emergency room because they overdosed. Maybe they will find a better path. We will go after those who perpetrated this on the country and after those who try to smuggle in the illicit synthetics and fentanyl that are cut with heroin and kill our people.

So today's effort is about people like Amanda, who left this world tragically

at a very young age through an overdose. And it is about her parents. It is about Mike and Winnie. It is about Paula, and it is about her sons and sister. It is about a woman I met in Hermiston who had to travel 5 hours to find a physician who could oversee her treatment on Suboxone because nobody was available. We help fix that in this legislation.

It is about my friends at Winding Waters in Enterprise, Oregon, who I was with last week, and the sheriff and others, who talked about the continuing problems and challenges they face and who have given me great guidance on these and other issues.

From one end of my district to another, from one end of our country to another, we have all listened. We have heard. Frankly, we have cried as we have heard the stories of parents who help their children through addiction, only to drop them off at college and a matter of days later retrieve a body.

That is what brings us together here today, Mr. Speaker. It is their stories that are woven deeply into this legislation. It is because of them that we will make a difference and we will do it right.

We will know that, as we pass this today and the Senate after us, that more work does remain to be done. We are on a journey together, though, and we will find solutions.

Mr. Speaker, I thank my colleagues on both sides of the aisle. I thank our staffs. I thank the American people who have reached out to us, counseled us, and helped us.

Mr. Speaker, I urge my colleagues to strongly support passage of the SUPPORT Act. For patients and for communities, H.R. 6 needs to become law, and it will shortly.

Mr. Speaker, I yield back the balance of my time.

Ms. MAXINE WATERS of California. Mr. Speaker, I rise to support H.R. 6, the SUPPORT for Patients and Communities Act, a bipartisan bill to address opioid addiction and other forms of substance abuse.

A comprehensive, common-sense, and compassionate approach to substance use disorders is long overdue. For far too long, many communities throughout the United States have been devastated by substance use disorders. However, despite the widespread suffering that millions of people—particularly African Americans during the crack cocaine epidemic—endured and still endure today, our federal, state, and local governments, in many instances, have pursued punitive measures in lieu of effective solutions to ensure that all communities can adequately heal from the devastating impacts of addiction.

I am especially pleased that this bill now includes my amendment to the House version of H.R. 6, which requires the Department of Health and Human Services (HHS) to conduct a review of the organizations, government agencies, and other entities that receive federal funding to provide substance use disorder treatment services. In addition, the amendment directs HHS to develop, and submit to Congress, a plan to direct appropriate resources to address the inadequacies in services or funding identified through the review.

I am also pleased that this bill addresses concerns that I raised about the opioid legislation in the House that allowed states to use Medicaid funds to provide treatment to persons with opioid use disorders in Institutions for Mental Disease (IMDs), but did not allow similar treatment for persons with other types of substance use disorders. In order to seriously address substance use disorders in communities throughout the United States, it is critical that we include persons who suffer from all types of substance use disorders, including those that involve alcohol, cocaine, and methamphetamine, as well as opioids.

I offered an amendment to the legislation in the House aimed at addressing my concern about the exclusion of non-opioid forms of substance use disorders from treatment in IMDs. While my amendment was not accepted, I am pleased that efforts were made to address my concern. The final version of H.R. 6 allows states to provide Medicaid coverage in IMDs for persons with all types of substance use disorders and also includes safeguards to ensure that states do not reduce the availability of community-based treatment for persons suffering from substance use disorders.

While I appreciate the work that has been done on many components of this bill, I still have some important concerns. As the Ranking Member of the House Committee on Financial Services, which has jurisdiction over housing programs, I am concerned that this bill falls short when it comes to providing housing for people with substance use disorders. The bill includes a provision that creates a new grant program to provide temporary housing assistance to help people with substance use disorders, but this new funding will only be available in half of the states. This will leave the other half of the states continuing to struggle with the challenges of helping people with substance use disorders who are in need of housing. Furthermore, this bill does nothing to address the overly punitive and unfair policies governing our federal housing programs that create unnecessary barriers to housing for people who have criminal backgrounds related to substance use disorders.

I am encouraged that there is bipartisan support for addressing the housing needs of persons suffering from substance use disorders, but I am disheartened that Congress continues to fall short in its efforts to provide comprehensive solutions that will help people suffering from substance use disorders in every state of the country. As we work to address the opioid crisis at hand, let's not forget that Congress still has a lot of work to do in the way of criminal justice reform to address the ongoing harmful and discriminatory impacts of the war on drugs era.

Despite these concerns, I believe this bill includes some valuable bipartisan solutions that represent a step in the right direction. I urge all of my colleagues to support H.R. 6, and I look forward to continuing to work with my colleagues to address the scourge of substance use disorders in communities throughout the United States.

Mr. WALDEN. Mr. Speaker, I include the following letters in the RECORD.

CORPORATE HEALTH CARE COALITION,
September 26, 2018.

Hon. PAUL RYAN,
Speaker, House of Representatives,
Washington, DC.
Hon. MITCH MCCONNELL,
Majority Leader, U.S. Senate,
Washington, DC.
Hon. NANCY PELOSI,
Minority Leader, House of Representatives,
Washington, DC.
Hon. CHARLES SCHUMER,
Minority Leader, House of Representatives,
Washington, DC.

DEAR SPEAKER RYAN, LEADER MCCONNELL, LEADER PELOSI AND LEADER SCHUMER: The Corporate Health Care Coalition (CHCC) is writing to commend both the House of Representatives and the Senate on finalizing the SUPPORT for Patients and Communities Act (H.R. 6), bipartisan legislation to address the nation's opioid crisis. CHCC is comprised of companies from varying industries that compete in the global marketplace and sponsor health plans for the benefit of our employees and other beneficiaries. Collectively, CHCC member companies provide health benefits for nearly 5 million Americans across every state in the nation.

The depth and devastation associated with the opioid crisis is being felt by families and communities nationwide. CHCC therefore applauds lawmakers for working on a bipartisan basis to reach consensus on H.R. 6, which represents a critical step forward in providing necessary resources for treatment and prevention efforts related to opioids.

We urge the House and Senate to pass this important legislation.

Sincerely,
CORPORATE HEALTH CARE COALITION.

[From the First Focus Campaign for Children, Sept. 27, 2018]

STATEMENT: FIRST FOCUS CAMPAIGN FOR CHILDREN APPLAUDS BIPARTISAN, BICAMERAL AGREEMENT ON OPIOID LEGISLATION

(By Simona Combi)

WASHINGTON, D.C., SEPT. 27, 2018.—First Focus Campaign for Children is delighted to see bipartisan agreement on tackling the opioid addiction epidemic and helping those affected by it. In June, the House passed H.R. 6, the SUPPORT for Patients and Communities Act by a vote of 396-14. On September 17th, the Senate passed the Opioid Crisis Response Act of 2018 by a vote of 99-1.

"It is crucial that families and foster youth affected by this devastating crisis get the help they need to overcome opioid addiction and put their lives back on track," said Bruce Lesley, First Focus president. "We are particularly heartened that this bipartisan bill offers substantive help and hope both sides of the aisle will make children a priority going forward."

The opioid crisis affects foster children and youth in two ways: First, children enter the child welfare and foster system often as a result of substance abuse by their parents, and secondly, foster youth who age out of care are at an increased risk of substance use disorders. We therefore commend Congress for including numerous provisions in the bipartisan, bicameral opioid package that will improve the lives of foster children and youth impacted by the opioid crisis, including:

Continuous Health Insurance for former foster youth: This provision, which corrects a glitch in existing law, allows foster youth who have aged out of care to remain on Medicaid through age 26, regardless of whether they relocate to other states. This provision recognizes the critical importance of health coverage for former foster youth as they transition into adulthood. Earlier this

month, First Focus, the State Policy and Advocacy Reform Center, and FosterClub held a congressional briefing on the importance of Medicaid to foster children and youth.

Family-Focused Residential Treatment: This provision promotes family-based residential treatment for substance use disorders by requiring the HHS Secretary to issue guidance to states on how they can support such treatment facilities.

Recovery and Reunifying Families: This provision promotes the replication of effective recovery coach programs to improve outcomes for children and families in the child welfare system who are impacted by substance use disorders.

Family-Focused Residential Treatment: This provision creates a grant program to promote family-based residential treatment programs, which are critical to helping parents and families get the treatment they need to overcome addiction.

Plans of Safe Care: This provision provides grants to states to improve and coordinate their response to ensure the safety, permanency, and well-being of infants affected by substance use.

Trauma-Informed Care: This provision gives the Center for Disease Control (CDC) authority to work with states to collect and report data on adverse childhood experiences. It also directs the CDC to form a task force to promote best practices in treating children impacted by trauma and to recommend best practices to federal agencies regarding its coordination and response to substance use disorders and other forms of trauma that affect children and families.

At-Risk Youth Medicaid Protection: This legislation would ensure that incarcerated youth are simply suspended, rather than terminated, from Medicaid while they are incarcerated. It would require states to automatically restore full eligibility to youth upon release from incarceration, and to take any steps necessary to make sure that youth begin receiving medical assistance benefits immediately.

The Fiscal Year 2019 annual spending bill for the Departments of Labor, Health and Human Services, Education and Related Agencies (H.R. 6157) includes \$3.8 billion for combatting the opioid crisis, and the bill should be signed into law soon. Adequate federal funding for these new programs benefiting our foster children is critical. Looking ahead to Fiscal Year 2020, though, these gains for our children could be jeopardized if Congress fails to lift the budget cap for non-defense discretionary spending established by the 2011 Budget Control Act. If budget caps are allowed, this type of spending will go down by \$55 billion. Congress must prioritize children in our federal budget decisions.

Mr. WALDEN. Mr. Speaker, I include the following letters in the RECORD.

AMERICAN BENEFITS COUNCIL,
Washington, DC, September 27, 2018.

Hon. MITCH MCCONNELL,
Majority Leader, U.S. Senate,
Washington, DC.

Hon. CHUCK SCHUMER,
Minority Leader, U.S. Senate,
Washington, DC.

Hon. PAUL RYAN,
Speaker, House of Representatives,
Washington, DC.

Hon. NANCY PELOSI,
Minority Leader, House of Representatives,
Washington, DC.

DEAR LEADER MCCONNELL, LEADER SCHUMER, SPEAKER RYAN AND LEADER PELOSI: The American Benefits Council (the Council) supports the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treat-

ment (SUPPORT) for Patients and Communities Act (H.R. 6). We urge Congress to approve this measure as an important step toward addressing the nation's opioid addiction crisis.

The Council is a public policy organization representing principally Fortune 500 companies and other organizations that assist employers of all sizes in providing employee benefits. Collectively, the Council's members sponsor directly or provide services to retirement and health plans covering over 100 million Americans.

The opioid epidemic has touched workers and families across the country and employers have been on the front lines of this battle, striving to stem the tide of prescription drug abuse through innovative plan design and outreach. A Kaiser Family Foundation analysis found that the use of prescription opioids among people with employer-based health coverage declined in 2016 to its lowest levels in over a decade.

Nevertheless, the annual cost of treating addiction and overdoses has increased more than eight-fold since 2004, from \$0.3 billion dollars to \$2.6 billion in 2016, and pain-related conditions have resulted in up to \$635 billion in medical costs and lost productivity for employers.

H.R. 6 makes a number of important improvements to current law by reducing the use and supply of opioids, encouraging recovery, supporting caregivers and families and driving innovation and long-term solutions to the opioid addiction epidemic. The bill also imposes tighter control on opioid prescription and treatment under the Medicare and Medicaid programs while also clarifying FDA regulation of nonaddictive pain and addiction therapies and allowing for more flexibility with respect to medication-assisted treatment.

We are particularly pleased that the conference committee wisely excluded from the bill a harmful, unrelated provision that would have revised the Medicare secondary payer rules to require private insurers—including employer plans—to pay for an additional three months of care for end-stage renal disease (ESRD) patients before Medicare assumes responsibility for the payments.

The Council strongly opposed this provision, as employers already shoulder significant costs for workers and family members and should not be required to bear unrelated additional costs by expanding the length of time plans must cover ESRD.

We applaud Congress for developing legislation that will make America healthier, including many of the 181 million people covered by employer-provided health plans.

Sincerely,

JAMES A. KLEIN,
President.

NABH APPLAUDS CONGRESS FOR REACHING
AGREEMENT ON OPIOID-RESPONSE PACKAGE

WASHINGTON, D.C., SEPT. 26, 2018.—On behalf of more than 1,000 mental health hospitals and addiction treatment centers, the National Association for Behavioral Healthcare thanks Congress for reaching an agreement to address America's deadly opioid crisis.

The final package includes many NABH-supported measures and contains the first substantive change to the Medicaid program's burdensome Institutions for Mental Diseases (IMD) exclusion since the early 1970s.

"NABH thanks House Energy and Commerce Chairman Greg Walden (R-Ore.) for his strong leadership in the House, which

helped ensure that his colleagues paid close attention to the IMD exclusion, an antiquated regulation that has denied access to inpatient treatment for those who need it," NABH President and CEO Mark Covall said in a statement. "We also thank Reps. Mimi Walters (R-Calif.) and Paul Tonko (D-N.Y.) and Sens. Rob Portman (R-Ohio) and Ben Cardin (D-Md.) for their tireless efforts to understand the IMD exclusion—and do all they can to repeal this provision and remove access barriers to behavioral healthcare services for millions of Americans."

NABH is also pleased with several other provisions in the final package and urges lawmakers to pass this legislation as soon as possible. Lives depend on it.

NATIONAL ASSOCIATION OF
COMMUNITY HEALTH CENTERS,

September 27, 2018.

Hon. MITCH MCCONNELL,
Senate Majority Leader,
Washington, DC.

Hon. PAUL RYAN,
Speaker of the United States House of Representatives,
Washington, DC.

Hon. CHUCK SCHUMER
Senate Minority Leader,
Washington, DC.

Hon. NANCY PELOSI,
Minority Leader of the United States House of Representatives,
Washington, DC.

DEAR SENATORS MCCONNELL AND SCHUMER AND REPRESENTATIVES RYAN AND PELOSI: The National Association of Community Health Centers (NACHC) appreciates Congress' ongoing efforts and dedication to addressing the opioid crisis, and is pleased to offer our support for H.R. 6, SUPPORT for Patients and Communities Act, and urge all House and Senate members to pass this important legislation.

NACHC is the national membership organization for federally qualified health centers (also known as FQHCs or "health centers"). Health centers play a critical role in the health care system, serving as the health home for over 28 million people, the majority of whom live under the Federal Poverty Level. With over 11,000 sites nationwide, FQHCs provide affordable, high quality comprehensive primary care to medically underserved individuals, regardless of their insurance status or ability to pay.

Substance use disorder (SUD), including opioid use disorder (OUD), is a top public health concern in the United States, and health centers have firsthand knowledge of the consequences. As opioid use disorder has become more prevalent, health centers are on the frontlines working to address the comprehensive needs of people at risk of developing SUD, as well as assisting those who are in need of treatment for existing SUD/OUD. From 2010 to 2017, health centers experienced a five-fold increase in patients receiving treatment for opioids or other substance abuse disorders. Since 2010, health centers have more than doubled their behavioral health workforce because of the increased demand for services, with 3,000 health center providers now authorized to provide Medication-Assisted Treatment (MAT.) In fact, in 2017, nearly 65,000 health center patients received MAT from health center providers.

Health centers stand ready to serve their patients who are struggling with substance use disorder but there is a clear need for additional support and policy changes to enable them to do so more effectively.

We appreciate Congress' consideration of a multitude of critical policy issues in its response to the opioid epidemic, including several provisions included in H.R. 6 to:

bolster the SUD workforce, including through new loan repayment opportunities for SUD providers

create comprehensive opioid recovery centers (CORCs)

Improve access to telehealth services

Streamline Medicaid coverage for incarcerated youth and former foster youth

Ensure mental health parity for pregnant women and children within the CHIP program

Codify MAT prescribing regulations allowing Nurse Practitioners and Physician Assistants to prescribe buprenorphine as well as increased flexibility for patient caps, and allowing additional advanced practice nurses to prescribe for a period of 5 years

We particularly want to highlight our strong support for Section 6083 of the bill, which authorizes \$8 million to support expanded access to MAT at FQHCs and rural health clinics under the Medicare program. We believe this provision will be of great assistance to health centers who are initiating and expanding opioid use disorder treatment programs in underserved areas across the country.

Thank you again for all your hard work to bring this bill to fruition. We know there is more work we can do together to turn the tide on this public health crisis and look forward to continuing to work with you to address the needs of communities across the country.

Sincerely,

TOM VAN COVERDEN,
President and CEO of NACHC.

Mr. WALDEN. Mr. Speaker, I include the following letters in the RECORD.

SEPTEMBER 26, 2018.

TO THE MEMBERS OF THE U.S. HOUSE OF REPRESENTATIVES: The U.S. Chamber of Commerce strongly supports the bipartisan H.R. 6, the "Opioid Crisis Response Act of 2018." The Chamber will consider including votes related to this bill in our annual How They Voted scorecard.

The opioid epidemic is ravaging families and destroying the lives of thousands each year, and it is crippling communities' and employers' efforts to staff workforce needs, create new jobs, and expand commerce.

We applaud Congress for crafting comprehensive legislation to tackle the myriad of causes, such as the flood of illicit drugs into the United States, while removing a litany of barriers that inhibit prevention, recovery, and treatment options.

The Chamber is pleased that H.R. 6 does not include the end stage renal disease (ESRD) provision included in an earlier version of the bill. That policy would have burdened employers already struggling to provide robust health benefits with hundreds of millions of dollars in additional health care costs.

While H.R. 6 is important, more remains to be done. The Chamber urges Congress to address the 42 CFR Part 2 statute as hundreds of health care organizations have called for. Congress should align currently conflicting protections and allow providers access to a patient's entire medical record, including substance use disorder information, at a patient's request.

We urge you to support H.R. 6.

Sincerely,

SUZANNE P. CLARK,
Senior Executive Vice President,
U.S. Chamber of Commerce.

ADVOCATES FOR OPIOID RECOVERY (E-MAIL)

Medicare beneficiaries have the highest and fastest growing rate of opioid use disorder (OUD), with more than 300,000 Medicare beneficiaries having been diagnosed with OUD. However, Medicare does not cover the most cost effective, evidence-based treatment modality—opioid treatment programs (OTPs).

OTPs are highly-regulated, highly-effective, comprehensive treatment programs that provide Medication-Assisted Treatment (MAT)—the combination of medication with behavioral therapy and support, and the most effective solution to treat OUD. There are roughly 1,500 OTPs across the United States providing treatment to approximately 400,000 patients. These programs are certified by the Substance Abuse and Mental Health Services Administration (SAMHSA).

Studies have shown that people who receive MAT are 75 percent less likely to have an addiction-related death than those who do not receive MAT. Most patients in OTPs are currently treated with methadone, which can only be used for treatment of addiction through a licensed OTP.

America's seniors and people with disabilities deserve better. As your constituent, I encourage you to vote for H.R. 6, which would permanently expand Medicare coverage of OTPs.

CATHOLIC HEALTH ASSOCIATION
OF THE UNITED STATES,
Washington, DC, September 26, 2018.

U.S. HOUSE,
Washington, DC.

U.S. SENATE,
Washington, DC.

On behalf of the Catholic Health Association of the United States (CHA), the national leadership organization of more than 2,000 Catholic health care systems, hospitals, long-term care facilities, sponsors, and related organizations, I commend the members of the House and Senate for approving their versions of legislation to address the nation's opioid crisis and to urge your support for the final bill, the Support for Patients and Communities Act (HR 6).

Catholic health providers recognize that each human life is sacred and possesses inalienable worth, and that health care is essential to promoting and protecting the inherent dignity of every individual. We also recognize that supportive and readily available substance use disorder (SUD) treatments are essential facets of holistic, person-centered and effective health care. The first principle in our Vision for U.S. Health Care affirms our call to pay special attention to those most likely to lack access to health care, many of whom are in desperate need of SUD services. This commitment is why the Catholic health ministry strongly supports efforts to increase access to these services and ensure that they become fully integrated into our health care system.

CHA has supported many of the provisions included in HR 6, particularly those that would increase access to care under Medicaid and care for such vulnerable populations as children and pregnant women, as well as provisions to increase the use of telehealth services. We are particularly pleased that the final version of this legislation includes the IMD Care Act, to provide state Medicaid programs with the option to cover care during FY2019-23 in certain Institutions for Mental Diseases (IMD) that may be otherwise non-federally-reimbursable under the IMD exclusion. We are also pleased that the bill includes measures to ensure access to mental health and substance use disorder services for children and pregnant women under the Children's Health Insurance Program (CHIP).

However, we are disappointed that legislation introduced in the Senate (S. 1850, the Protecting Jessica Grubb's Legacy Act) and overwhelmingly approved in the House (HR 6082) to align current regulations for SUD treatment records with existing patient pro-

tections under HIPAA for treatment, payment and health care operations was not included in HR 6. For health providers, the alignment of SUD records with other medical records is essential to providing whole-person care. It enables the essential flow of patient information among providers that is critical to the timely and effective delivery of health care and critical to patient safety and quality. Given the broad and bipartisan support for HR 6082, we continue to urge the Senate to approve this bill as well before the end of the 115th Congress.

Thank you again for your attention to the urgent matter of opioid and other substance use disorders. We know that you share the goal of our Catholic health ministry in providing the best possible care and treatment for those who need it, and we hope approval of the Support for Patients and Communities Act will provide effective additional resources for doing so.

Sincerely,

SR. CAROL KEEHAN, DC,
President and CEO.

ROCKVILLE, MD, SEPTEMBER 26, 2018.

AMERICAN SOCIETY OF ADDICTION MEDICINE
APPLAUDS INCLUSION OF KEY PROVISIONS IN
HISTORIC OPIOID LEGISLATIVE PACKAGE

KEY PROVISIONS TO TEACH, STANDARDIZE, AND
COVER ADDICTION MEDICINE WILL HELP CLOSE
TREATMENT GAP AND SAVE LIVES, ADDICTION
MEDICINE EXPERTS SAY

The American Society of Addiction Medicine (ASAM) today applauds US House and Senate leaders for announcing a bipartisan agreement on an opioid legislative package that includes key provisions to bolster the country's addiction treatment workforce, help provide standardized evidence-based treatment for individuals with a substance use disorder (SUD), and help ensure coverage and payment models facilitate comprehensive, coordinated care for patients seeking treatment for a SUD.

"On behalf of America's addiction medicine physicians and other clinicians on the frontlines of this crisis, ASAM applauds our Congressional leaders for working together to include key provisions that will help close the current treatment gap, bolster the addiction medicine workforce, and save more lives," said Kelly J. Clark, MD, MBA, DFASAM, president of ASAM. "Reversing course on the deadly opioid overdose crisis requires bold policy solutions that help teach, standardize, and cover addiction medicine so more patients benefit from evidence-based treatment. The agreement reached last night is an important step toward realizing this critical goal."

Key provisions in the legislative package to teach, standardize, and cover evidence-based addiction medicine include:

Making permanent buprenorphine prescribing authority for physician assistants and nurse practitioners and allowing waived practitioners to treat immediately up to 100 patients at a time (in lieu of 30) if the practitioner is board certified in addiction medicine or addiction psychiatry; or if the practitioner provides medication assisted treatment (MAT) in a qualified practice setting. Certain qualified physicians would also be allowed to treat up to 275 patients at a time with buprenorphine, codifying an existing rule;

Allowing physicians who have recently graduated in good standing from an accredited school of allopathic or osteopathic medicine, and who meet the other training requirements during school to prescribe MAT, to obtain a waiver to prescribe MAT;

Providing loan repayment relief to addiction treatment professionals who practice in high-need areas;

Creating a Medicare demonstration program to increase access to evidence-based outpatient treatment for beneficiaries with opioid use disorder that includes medication as well as psychosocial supports, care management, and treatment planning;

Partially repealing the Institutions for Mental Diseases (IMD) exclusion and allowing state Medicaid programs to cover care in certain IMDs that can deliver services consistent with certain requirements, including evidence-based assessments and levels of care;

Directing the Departments of Justice and Health and Human Services to finalize special registration regulations concerning the prescribing of medications for addiction via telemedicine within one year of enactment;

Expanding Medicare coverage to include payment for Opioid Treatment Programs through bundled payments for holistic services;

Convening a stakeholder group to produce a report of best practices for states to consider in health care related transitions for inmates of public correctional facilities; and

Requiring the Substance Abuse and Mental Health Services Administration (SAMHSA) to provide information to SAMHSA grantees to encourage the implementation and replication of evidence-based practices.

"Substance use disorder is both treatable and preventable—but from where we stand today, delivering high-quality care to the millions of Americans who live with the disease of addiction will require significant investments in our workforce, coverage, and payment models that facilitate coordinated and comprehensive care, and structural changes that incentivize the use of evidence-based approaches," said Clark. "And while we celebrate this bipartisan announcement today, ASAM knows there is still much more work to be done to ensure all Americans living with a substance use disorder get the treatment they need. ASAM will continue to advocate for building an addiction treatment system that fully integrates mental health, substance use disorder, and primary care services in order to produce the best patient outcomes. This includes supporting final passage of legislation that would more closely align 42 CFR Part 2 with the Health Insurance Portability and Accountability Act."

SEPTEMBER 27, 2018.

Hon. MITCH MCCONNELL,
Majority Leader, U.S. Senate, Washington, DC.
Hon. CHUCK SCHUMER,
Minority Leader, U.S. Senate, Washington, DC.
Hon. PAUL RYAN,
Speaker of the House,
House of Representatives, Washington, DC.
Hon. NANCY PELOSI,
Minority Leader,
House of Representatives, Washington, DC.

DEAR MAJORITY LEADER MCCONNELL, MINORITY LEADER SCHUMER, SPEAKER RYAN AND MINORITY LEADER PELOSI: We the undersigned, representing the major groups across all disciplines working on a comprehensive response to address addiction, write in support of the final conference agreement of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act (H.R. 6) and urge for quick passage of this package.

As you know, the Centers for Disease Control and Prevention recently reported that more than 72,000 Americans died of a drug overdose in 2017, a staggering increase from

63,600 in 2016. With nearly 200 Americans dying each day as a result of drug overdose, the opioid crisis is an urgent and serious public health and safety issue that needs to be addressed through a comprehensive response.

We are grateful to Congress for addressing this urgent need to improve policies and resources to curtail opioid misuse and to help the millions impacted by addiction nationwide. We thank Members on both sides of the aisle and the 13 congressional committees for their work to construct this thoughtful, evidence-based legislation. We strongly support the SUPPORT for Patients and Communities Act and its multifaceted, nuanced approach to addressing the opioid crisis and all substance use disorders.

Key provisions include:

We commend Congress for its leadership and the bipartisan, bicameral work it has undertaken to address the ever worsening opioid crisis. We are pleased that this package contains a truly comprehensive approach to addressing the opioid crisis, across the entire continuum of care prevention, treatment and recovery support. In addition, it fully recognizes addiction as the medical condition that it is and contains meaningful programs aimed at helping patients and families struggling with this disease. For all of these reasons, we urge the quick passage of the final agreement of the SUPPORT for Patients and Communities Act (H.R. 6).
