

After I started my 40-year faculty career at the University of Michigan, in the early 1970's, Uncle Walter visited researchers at the University of Michigan, including managing a project at the Willow Run Laboratories that was the site for highly confidential research. During his visit, we had some serious career decisions discussions. Though I liked circuits and electronics, many top electrical engineers thought those fields were past their hey-day. I clearly remember Uncle Walter telling me to stick to the areas that I liked, and that my work would find more than enough rich areas to study and to make contributions. Again, he was correct. I was part of the pioneering field of numerical mathematical computer modeling of circuits and semiconductor electronic devices.

Next, Uncle Walter impacted three generations in the McAfee (and Lester) family.

He impacted the first generation—the nieces and nephews of Uncle Walter—which included me, my siblings, McAfee first cousins, and the Lester first cousins.

He impacted the second generation—the grand-nieces and grand-nephews of Uncle Walter. Each of my three children did a report on Uncle Walter several years in elementary, middle, and high school. Children of my siblings did reports on Uncle Walter. And children of first cousins did reports on Uncle Walter, even children of first cousins on my mother's side (Lester) did reports.

He impacted the third generation—the great-grand-nieces and great-grand-nephews of Uncle Walter. Children of grand-nieces & grand-nephews are still doing reports on Uncle Walter.

Uncle Walter had major notoriety regarding the moon with his contributions in Project Diana. Just last month, NASA, the USA, and the world celebrated the 50th anniversary of first landing on the moon by humans, partially made possible by the work of Uncle Walter in Project Diana.

In closing, a bit of Big Ten conferencerazzing, hopefully humor for sports fans.

As a family, my children and I are die-hard University of Michigan alumni; we bleed U-M maize and blue. The one strike/complaint against Uncle Walter is his attending Ohio State University, U-M's arch Big Ten rival in all collegiate sports, especially football.

In baseball terminology, attending Ohio State was initially a called strike against Uncle Walter. However, Uncle Walter "hit a home-run out the park" with his spectacular technical and personal family successes.

Thank you.

IN RECOGNITION OF DIXIE GREEN BEING NAMED THE 2019 ALABAMA FARM OF DISTINCTION

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. ROGERS of Alabama. Madam Speaker, I ask for the House's attention to recognize Dixie Green, Inc. of Cherokee County for being named Alabama's Farm of Distinction.

The honor was awarded in Birmingham, Alabama in April. The owners of Dixie Green, Hank and Shelia Richardson, will represent Alabama in the Southeastern Farmer of the Year contest.

Dixie Green is a greenhouse business known for poinsettias and other plants. The family business has almost 12 acres of heated greenhouse space and eight acres of outside plant pads. They provide poinsettias for places like Opryland and Disney World.

Madam Speaker, please join me in recognizing the Richardson Family and Dixie Green on this honor.

FINANCIAL NET WORTH

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. SENSENBRENNER. Madam Speaker, through the following statement, I am making my financial net worth as of March 31, 2019, a matter of public record. I have filed similar statements for each of the forty preceding years I have served in the Congress.

ASSETS

REAL PROPERTY

Single family residence at 609 Ft. Williams Parkway, City of Alexandria, Virginia, at assessed valuation. (Assessed at \$1,163,438). Ratio of assessed to market value: 100% (Unencumbered): \$1,163,438.00.

Condominium at N76 W14726 North Point Drive, Village of Menomonee Falls, Waukesha County, Wisconsin, at assessor's estimated market value. (Unencumbered): \$145,100.00.

Undivided 25/44ths interest in single family Residence at N52 W32654 Maple Lane, Village of Chenequa, Waukesha County, Wisconsin, at 25/44ths of assessor's estimated market value of \$1,540,700: \$875,397.73.

Total Real Property: \$2,183,935.73.

I further declare that I am trustee of a trust established under the will of my late father, Frank James Sensenbrenner, Sr., for the benefit of my sister, Margaret A. Sensenbrenner, and of my two sons, F. James Sensenbrenner, III, and Robert Alan Sensenbrenner. I am further the direct beneficiary of five trusts, but have no control over the assets of either trust.

Also, I am neither an officer nor a director of any corporation organized under the laws of the State of Wisconsin or of any other state or foreign country.

F. JAMES SENSENBRENNER, Jr.,
Member of Congress.

IN RECOGNITION OF THE LIFE OF JAMES JOSEPH McCARTHY

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. ROGERS of Alabama. Madam Speaker, I ask for the House's attention to recognize the life of James Joseph McCarthy.

Jim was born in Boston to Joseph and Anne McCarthy and sister, Louise (McCarthy) Faulstich. He was an allstar-football and basketball player in high school. He graduated from Suffolk University and served in the United States Army from January 1946 through June 1947.

Jim worked as a successful insurance executive and was best known for his 29 years on "The Sports Huddle." This weekly radio show was a raucous, call-in program with up to 20,000 callers on any given night.

One of many memorable antics was when he and his two partners, life-long friend, Mark Witkin and Eddie Andelman, placed a live call to Buckingham Palace to ask if the New England Patriots could exchange two of their guards for two of theirs. "The Sports Huddle" also publicly accused President Nixon of "first degree oversight" after he neglected to congratulate the Bruins for their Stanley Cup Victory. Thousands of listeners sent letters to the

White House demanding action and shortly after, the Bruins received a congratulatory telegram from President Nixon along with a declaration that the Boston Bruins were number one.

Jim was also part owner and president of Foxboro Raceway which was eventually sold to become part of Gillette Stadium.

He loved to read, run on Nantasket beach, travel with Patricia and play tennis with his buddies. He was handsome with blue eyes that twinkled and was always impeccably dressed. He loved the saltwater and his idea of bliss was a hotdog, a cold beer and the sea. He was a devoted and adoring husband, father and grandfather and will be missed dearly.

One of his seven grandchildren, Ethan, works for me in Washington. A celebration of Jim's life will be held September 11th.

Madam Speaker, please join me in remembering the life of James Joseph McCarthy.

**HONORING MS. ALLISON F.
STILLER, UNITED STATES NAVY**

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. COURTNEY. Madam Speaker, I rise today to honor Ms. Allison F. Stiller, who is retiring from the Department of the Navy after more than 30 years of faithful civilian service to our nation, culminating as the Principal Civilian Deputy to the Assistant Secretary of the Navy for Research, Development & Acquisition, ASN(RD&A), for the past four years.

Ms. Stiller's contributions to the Department of the Navy have been numerous. Her responsibilities include oversight and policy for Navy and Marine Corps research, development, and acquisition programs for shipbuilding, aviation, space, weapon systems, ground vehicles, munitions, and communication systems. This portfolio includes oversight of more than 100,000 people with an annual budget in excess of \$50 billion as well as hundreds of technical developments and procurement programs for the Department of the Navy. Ms. Stiller served as the acting ASN(RD&A) from January through July 2017, and leads the Department's Senior Executive Acquisition Corps. She is also the proud ship sponsor for USS *Mississippi* (SSN 782).

In performing her duties as Deputy to ASN(RD&A), Ms. Stiller regularly appeared before the House Armed Services Committee and the Seapower and Projection Forces subcommittee, which I chair, consistently offering valuable insight and testimony and enhancing Congressional understanding of the programs under her purview. She has been a true advocate for the Navy, and I can attest that my colleagues and I very much appreciated and benefited from her expertise.

Ms. Stiller entered the Senior Executive Service in January 2004. Prior to her current position, she served as the Deputy Assistant Secretary of the Navy for Ship Programs. In this capacity, she was responsible for executive oversight of all naval shipbuilding and associated weapon systems programs, major ship conversions, and nuclear ship refuelings, as well as the maintenance, modernization and disposal of in-service ships. During her

tenure, 96 ships and submarines were placed under contract and 70 ships and submarines were delivered to the operational Fleet, representing approximately 25 percent of today's operational battle force.

Ms. Stiller has served in a number of shipbuilding acquisition positions throughout her career where she led in the development and procurement of complex ship programs in multiple phases of the acquisition life cycle. She served for four years as the Deputy Program Manager in the Amphibious Warfare Program Office, responsible for design, development, acquisition, and fleet introduction of amphibious ships and landing craft. Ms. Stiller also served as Director for Naval and Commercial Construction in the Office of the Assistant Secretary of the Navy for Ship Programs where her responsibilities included oversight of amphibious and auxiliary ship construction and conversion programs, as well as shipbuilding industrial base matters. During her tenure, Ms. Stiller helped develop and promote initiatives that focused the nation's shipbuilding industry towards commercial viability. Ms. Stiller also served as Acquisition Manager in the early phases of the Virginia Class Submarine Program, as well as division director in the Seawolf Submarine program during the design and early construction phases of that program.

Ms. Stiller holds a BS in Systems Engineering from the University of Virginia and a MS in Engineering Management from Virginia Tech. She is also a graduate of the John F. Kennedy School of Government's Senior Executive Fellows Program at Harvard University and the Defense Systems Management College.

Throughout her career, Ms. Stiller's leadership and performance has been recognized by numerous awards including the Presidential Rank Award (Distinguished and Meritorious) and the Department of the Navy's Superior and Meritorious Civilian Service awards.

I am proud to recognize Ms. Stiller, and I thank her and her family for her honorable service to our nation. Madam Speaker, I ask my colleagues to join me in wishing Ms. Allison Stiller 'fair winds and following seas' as she concludes a distinguished career of public service.

**RECOGNITION OF MALCOLM S.
MORRIS**

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. BLUMENAUER. Madam Speaker, I rise today in recognition of Malcolm S. Morris as he ends his long chairmanship of the Millennium Water Alliance, which he helped to found seventeen years ago. His career is marked by his astounding work for this country and for millions of the world's poorest people as a longtime advocate for safe drinking water and sanitation.

The Alliance is unique in the global water sector—it includes as members fifteen leading U.S. charities that help international governments and other organizations bring safe drinking water and sanitation systems to millions in Africa, Latin America, the Middle East, and Asia. It forges new relationships to accelerate this effort, and works with USAID to help

advance America's interest in reducing poverty and increasing stability and opportunity for millions.

Malcolm advocated for water as the foundation of development and for peace building at a time when the U.S. Government was paying little attention to this issue. In particular, Malcolm has been a strong voice among his fellow conservative Republicans, urging more of them to join in this effort, and to seek common ground with those of us across the aisle in supporting foreign assistance to truly help advance our common goals in the world.

His first step was to set up an international faith-based NGO in his home state of Texas, and to recruit colleagues and friends who were equally passionate. Under his leadership, some gave up well-paying jobs to do "God's work". To this day that NGO, Living Water, organizes mission trips to introduce people firsthand to the potential and challenges of development work—work that increases the reputation and soft power of the United States, community by community.

Realizing that the private sector was a relatively untapped source of funding for water work, Malcolm organized a "Millennium Water Challenge" in 2002. As a CEO active in the national business community, he invited his fellow CEOs to join him at an event in Houston. A number of CEOs turned up and many more sent representatives, setting an early example in involving major corporations in water, sanitation, and hygiene issues. Because of his leadership, several well-known U.S. corporations and brands are now involved in global efforts to address water, sanitation, and hygiene.

Perhaps, Malcolm's greatest contribution has been his insistence that USAID should play a bigger role in increasing access to water in the developing world. He believed that the U.S. Government, U.S. corporations, and U.S. civil society together could make a significant contribution to addressing the challenges facing millions of the world poorest people. In 2002 he founded the Millennium Water Alliance, with the objective of transforming people's lives through improving access to safe water, improved sanitation, and good hygiene practices.

Malcolm then played a major role with others in the helping to pass the 2005 Paul Simon Water for the Poor Act and devoted much of his time to encouraging members of Congress to fund this legislation. He also worked with the Alliance and used his political connections both in the U.S. and overseas to set up innovative water, sanitation, and hygiene programming in Kenya, Ethiopia and Central America.

His enduring legacy is someone who built up political capital as an innovative business leader and used a significant part of that capital for the benefit of poor and marginalized people in the developing world. It is, as he would say, "God's work".

**IN RECOGNITION OF THE 50TH
WEDDING ANNIVERSARY OF
HENRY AND LONA MULLINAX**

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. ROGERS of Alabama. Madam Speaker, I ask for the House's attention to recognize
