

White House demanding action and shortly after, the Bruins received a congratulatory telegram from President Nixon along with a declaration that the Boston Bruins were number one.

Jim was also part owner and president of Foxboro Raceway which was eventually sold to become part of Gillette Stadium.

He loved to read, run on Nantasket beach, travel with Patricia and play tennis with his buddies. He was handsome with blue eyes that twinkled and was always impeccably dressed. He loved the saltwater and his idea of bliss was a hotdog, a cold beer and the sea. He was a devoted and adoring husband, father and grandfather and will be missed dearly.

One of his seven grandchildren, Ethan, works for me in Washington. A celebration of Jim's life will be held September 11th.

Madam Speaker, please join me in remembering the life of James Joseph McCarthy.

HONORING MS. ALLISON F.
STILLER, UNITED STATES NAVY

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. COURTNEY. Madam Speaker, I rise today to honor Ms. Allison F. Stiller, who is retiring from the Department of the Navy after more than 30 years of faithful civilian service to our nation, culminating as the Principal Civilian Deputy to the Assistant Secretary of the Navy for Research, Development & Acquisition, ASN(RD&A), for the past four years.

Ms. Stiller's contributions to the Department of the Navy have been numerous. Her responsibilities include oversight and policy for Navy and Marine Corps research, development, and acquisition programs for shipbuilding, aviation, space, weapon systems, ground vehicles, munitions, and communication systems. This portfolio includes oversight of more than 100,000 people with an annual budget in excess of \$50 billion as well as hundreds of technical developments and procurement programs for the Department of the Navy. Ms. Stiller served as the acting ASN(RD&A) from January through July 2017, and leads the Department's Senior Executive Acquisition Corps. She is also the proud ship sponsor for USS *Mississippi* (SSN 782).

In performing her duties as Deputy to ASN(RD&A), Ms. Stiller regularly appeared before the House Armed Services Committee and the Seapower and Projection Forces subcommittee, which I chair, consistently offering valuable insight and testimony and enhancing Congressional understanding of the programs under her purview. She has been a true advocate for the Navy, and I can attest that my colleagues and I very much appreciated and benefited from her expertise.

Ms. Stiller entered the Senior Executive Service in January 2004. Prior to her current position, she served as the Deputy Assistant Secretary of the Navy for Ship Programs. In this capacity, she was responsible for executive oversight of all naval shipbuilding and associated weapon systems programs, major ship conversions, and nuclear ship refuelings, as well as the maintenance, modernization and disposal of in-service ships. During her

tenure, 96 ships and submarines were placed under contract and 70 ships and submarines were delivered to the operational Fleet, representing approximately 25 percent of today's operational battle force.

Ms. Stiller has served in a number of shipbuilding acquisition positions throughout her career where she led in the development and procurement of complex ship programs in multiple phases of the acquisition life cycle. She served for four years as the Deputy Program Manager in the Amphibious Warfare Program Office, responsible for design, development, acquisition, and fleet introduction of amphibious ships and landing craft. Ms. Stiller also served as Director for Naval and Commercial Construction in the Office of the Assistant Secretary of the Navy for Ship Programs where her responsibilities included oversight of amphibious and auxiliary ship construction and conversion programs, as well as shipbuilding industrial base matters. During her tenure, Ms. Stiller helped develop and promote initiatives that focused the nation's shipbuilding industry towards commercial viability. Ms. Stiller also served as Acquisition Manager in the early phases of the Virginia Class Submarine Program, as well as division director in the Seawolf Submarine program during the design and early construction phases of that program.

Ms. Stiller holds a BS in Systems Engineering from the University of Virginia and a MS in Engineering Management from Virginia Tech. She is also a graduate of the John F. Kennedy School of Government's Senior Executive Fellows Program at Harvard University and the Defense Systems Management College.

Throughout her career, Ms. Stiller's leadership and performance has been recognized by numerous awards including the Presidential Rank Award (Distinguished and Meritorious) and the Department of the Navy's Superior and Meritorious Civilian Service awards.

I am proud to recognize Ms. Stiller, and I thank her and her family for her honorable service to our nation. Madam Speaker, I ask my colleagues to join me in wishing Ms. Allison Stiller 'fair winds and following seas' as she concludes a distinguished career of public service.

RECOGNITION OF MALCOLM S.
MORRIS

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. BLUMENAUER. Madam Speaker, I rise today in recognition of Malcolm S. Morris as he ends his long chairmanship of the Millennium Water Alliance, which he helped to found seventeen years ago. His career is marked by his astounding work for this country and for millions of the world's poorest people as a longtime advocate for safe drinking water and sanitation.

The Alliance is unique in the global water sector—it includes as members fifteen leading U.S. charities that help international governments and other organizations bring safe drinking water and sanitation systems to millions in Africa, Latin America, the Middle East, and Asia. It forges new relationships to accelerate this effort, and works with USAID to help

advance America's interest in reducing poverty and increasing stability and opportunity for millions.

Malcolm advocated for water as the foundation of development and for peace building at a time when the U.S. Government was paying little attention to this issue. In particular, Malcolm has been a strong voice among his fellow conservative Republicans, urging more of them to join in this effort, and to seek common ground with those of us across the aisle in supporting foreign assistance to truly help advance our common goals in the world.

His first step was to set up an international faith-based NGO in his home state of Texas, and to recruit colleagues and friends who were equally passionate. Under his leadership, some gave up well-paying jobs to do "God's work". To this day that NGO, Living Water, organizes mission trips to introduce people firsthand to the potential and challenges of development work—work that increases the reputation and soft power of the United States, community by community.

Realizing that the private sector was a relatively untapped source of funding for water work, Malcolm organized a "Millennium Water Challenge" in 2002. As a CEO active in the national business community, he invited his fellow CEOs to join him at an event in Houston. A number of CEOs turned up and many more sent representatives, setting an early example in involving major corporations in water, sanitation, and hygiene issues. Because of his leadership, several well-known U.S. corporations and brands are now involved in global efforts to address water, sanitation, and hygiene.

Perhaps, Malcolm's greatest contribution has been his insistence that USAID should play a bigger role in increasing access to water in the developing world. He believed that the U.S. Government, U.S. corporations, and U.S. civil society together could make a significant contribution to addressing the challenges facing millions of the world's poorest people. In 2002 he founded the Millennium Water Alliance, with the objective of transforming people's lives through improving access to safe water, improved sanitation, and good hygiene practices.

Malcolm then played a major role with others in helping to pass the 2005 Paul Simon Water for the Poor Act and devoted much of his time to encouraging members of Congress to fund this legislation. He also worked with the Alliance and used his political connections both in the U.S. and overseas to set up innovative water, sanitation, and hygiene programming in Kenya, Ethiopia and Central America.

His enduring legacy is someone who built up political capital as an innovative business leader and used a significant part of that capital for the benefit of poor and marginalized people in the developing world. It is, as he would say, "God's work".

IN RECOGNITION OF THE 50TH
WEDDING ANNIVERSARY OF
HENRY AND LONA MULLINAX

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 9, 2019

Mr. ROGERS of Alabama. Madam Speaker, I ask for the House's attention to recognize

the 50th wedding anniversary of Henry and Lona Mullinax.

Henry and Lona were married on August 29, 1969, at Sacred Heart Catholic Church in Anniston, Alabama, and spent their honeymoon in Gatlinburg, Tennessee.

Lona transferred from Oxford High School to Walter Wellborn High School in 1967 where Henry was in school. The first time Henry saw Lona, she was walking the length of the football field on her hands. She was a cheerleader and Henry was a football player. They began dating in February of 1969 and have been together ever since.

Henry transferred college while working at Food Town Groceries and Lona worked for Western Super Markets in the home office in Birmingham, Alabama. They leased a 12-unit motel in early 1970 where Henry would attend college in the mornings, had the domestic help handle the office until returning at noon and then ran the office, did the maintenance and rented the rooms all afternoon and throughout the night. They lived in a 12 × 12 room with a small kitchenette behind the check-in counter for a year. Henry then got a job with Dresser Industries (M&H Valve) who paid every dime of his education. He later moved on to the car business and today owns Mullinax Auto Sales and serves as President of the National Independent Automobile Dealers Association.

Lona and Henry are blessed with two daughters and two grandchildren. For their 50th wedding anniversary, they are taking a trip to Denali in Alaska and will go to Fairbanks for a week-long cruise with family and friends. They will renew their vows with the Captain of the ship.

Madam Speaker, please join me in recognizing this milestone for my good friends Henry and Lona. Congratulations.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the *Extensions of Remarks* section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, September 10, 2019 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

SEPTEMBER 11

10 a.m.

Committee on Commerce, Science, and Transportation

To hold hearings to examine protecting the nation's transportation systems,

focusing on oversight of the Transportation Security Administration.

SD-G50

Committee on Environment and Public Works

To hold hearings to examine the nominations of Aurelia Skipwith, of Indiana, to be Director of the United States Fish and Wildlife Service, Department of the Interior, and Katherine Andrea Lemos, of California, to be Chairperson of the Chemical Safety and Hazard Investigation Board.
