

enrich and broaden America's global economic interests.

COLUMBIA RIVER IN-LIEU AND
TREATY FISHING ACCESS SITES
IMPROVEMENT ACT

SPEECH OF

HON. JAIME HERRERA BEUTLER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2019

Ms. HERRERA BEUTLER. Mr. Speaker, I supported H.R. 91, the Columbia River In-Lieu and Treaty Fishing Access Sites Improvement Act, because it is important and necessary for the in-lieu fishing sites along the Columbia River to be properly maintained, safe and sanitary for tribal use. These sites, which are federally controlled, were set aside by Congress to provide fishing access to tribal fishermen whose traditional fishing grounds were displaced after the construction of dams on the Columbia River. Because these sites are federally maintained, the bill's authorization is necessary to assess the sanitation and safety in order to improve these sites tribal use. This bill, however, does not make any determination of the sites' boundaries nor should it be interpreted as doing so, but should only be taken to ensure tribes have access to traditional fishing areas on the Columbia River by the four Columbia River Treaty tribes.

NATIONAL DAY OF PRAYER

HON. BARRY LOUDERMILK

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. LOUDERMILK. Madam Speaker, throughout the history of the United States, our national leaders have consistently turned to prayer during times of struggle, adversity, and crisis. George Washington's prayer in Valley Forge was a turning point in our war for independence; Benjamin Franklin's call for prayer broke the political gridlock during the Constitution Convention; President Franklin Roosevelt took to the airwaves, leading the nation in prayer as our troops landed at Normandy on D-Day; and George Patton's prayer for a change in weather turned the tide during the Battle of the Bulge. More recently, I witnessed firsthand the miraculous impact of prayer during the Congressional baseball shooting in June, 2017.

These are only a few of the numerous documented instances where Americans have individually and collectively turned to God in prayer, and He has consistently answered.

The National Day of Prayer was established by an Act of Congress, and signed into law by President Harry S. Truman in 1952, to recognize God's hand of divine providence in the course of our nation. Since 1988, under the leadership of President Ronald Reagan, the first Thursday of May has been set aside as the official day of observance of the National Day of Prayer.

For over two decades, the people of Bartow County, Georgia have gathered on the National Day of Prayer at the County Courthouse, to continue the heritage of seeking God's Divine guidance.

Today, May 2, 2019, in observance of the National Day of Prayer, community leaders and people from all across the county will once again join together in collective prayer for our communities, our state, and our nation. I commend the pastors, elected officials, and community leaders in Bartow County, Georgia for actively recognizing the impact prayer has on our nation.

Effective and fervent prayers are not only a core aspect of our national past, but remain a powerful tool in all aspects of public and private matters, and I encourage all people to pray for one another and our nation on this National Day of Prayer, and every day.

IN RECOGNITION OF LIEUTENANT
COMMANDER FELIX MARTINEZ

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. WITTMAN. Madam Speaker, I rise today in recognition of Lieutenant Commander Felix Martinez's retirement after 40 years of public service. I would like to personally thank him for his service and dedication to our nation.

Lieutenant Commander Martinez has spent the last 40 years working to serve his community. He began by working as a college instructor at the City Colleges of Chicago and then moved on to become a teacher and baseball coach at Nelson County Schools. We are fortunate to have someone as honorable as Lieutenant Commander Martinez educating our youth.

Lieutenant Commander Martinez spent the next 30 years of his career in Military Services with the United States Navy and United States Marine Corps. He began his work as a US Naval Officer with Associate Protocol. Lieutenant Commander Martinez then worked as a Research Liaison, Coordinator, Homeland Defense Planner, and Analyst for the US Navy. Finally, Lieutenant Commander Martinez has most recently served as the Senior Naval Science Instructor for NJROTC unit at Stafford County Schools. I wish to express my immense gratitude to Lieutenant Commander Martinez for dedicating his life to serving the United States of America.

Madam Speaker, I ask you to join me in recognition of Lieutenant Commander Felix Martinez. The Commonwealth is fortunate to have someone with such valor and commitment. May God bless Lieutenant Commander Martinez and I look forward to seeing his continued success for many years to come.

THANKING J. SPENCER
FREEBAIRN FOR HIS SERVICE

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Ms. GRANGER. Madam Speaker, I rise today to honor Spencer Freebairn for his 26 years of service to the U.S. House of Representatives and the American people. In 1993, a young, fresh out of college kid from Orange County, California began his career on

Capitol Hill working for his hometown congressman, former Representative Dana Rohrabacher. He went on to continue to serve for Representative Jerry Lewis, the former Chairman and Ranking Member of the House Appropriations Committee. Then we had the fortune of making him an honorary Texan from "far west Texas"—serving first for Representative Roger Williams before joining my office.

I have had the privilege of calling Spencer a friend for nearly twenty years, and my Chief of Staff for two. While I am personally sad to see him go, Spencer's impact on this body will be felt long after he departs. Along the way, Spencer has done it all. Whether he was advocating for our men and women in uniform, securing funding to prevent wildfires, or working to protect the rights of California dairy farmers, his legislative accomplishments are second to none.

Madam Speaker, on Friday, Spencer will retire from the House and move on to his next chapter. I thank Spencer for his service, and wish him and his husband Antonio, and their two daughters Artemis and Ariana, nothing but the best in the future.

RECOGNIZING BRIDGET MALLO OF
BUTTE

HON. GREG GIANFORTE

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. GIANFORTE. Madam Speaker, I rise today to honor Bridget Mallo of Butte for inspiring a community to celebrate life with her courage in facing a chronic, progressive, and often fatal disease.

Bridget was diagnosed with cystic fibrosis at six months old. She and her family have consulted doctors and been in and out of hospitals for 15 years. Despite the prognosis, Bridget never uses her illness as an excuse.

Now 15 years old, Bridget recently faced a decision no teenager should have to bear.

Doctors said that forgoing a lung transplant could leave Bridget with four to six weeks to live. Proceeding with further treatment, including an organ transplant, did not guarantee a successful outcome and meant greater hardships for her loved ones.

She chose to return home to Butte to spend her remaining time with family and friends. Two of her final wishes are particularly touching. She wants to ensure her mother is supported and does not face financial insecurity. She also asked the community of Butte to come together to celebrate life.

Bridget's courage rallied the community, as individuals and businesses responded with donations to support the family. Bridget has also brought awareness to the struggles families face when a loved one is diagnosed with the incurable disease.

In late April, residents of Butte celebrated life and Bridget. Bridget's loved ones, friends, classmates, and neighbors cheered her arrival. Amid much fanfare and a police escort, there were tears of sadness and tears of joy.

Bridget has helped demonstrate the power of community. Family, friends, and neighbors have come together to support and celebrate a remarkable young woman.

Bridget's community will long remember her big heart. Because of Bridget, they will also

remember that, despite the challenges one may face in life, there is reason to celebrate it.

Madam Speaker, for inspiring her community with her remarkable courage and love of life, I recognize Bridget Mallo for her spirit of Montana.

TRIBUTE TO DR. JIM WADE

HON. H. MORGAN GRIFFITH

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. GRIFFITH. Madam Speaker, I offer these remarks in tribute to Dr. Jim Wade of Abingdon, Virginia, who has used his talents as a surgeon to help needy people around the globe.

Dr. Wade was born and raised in Princeton, West Virginia. He attended West Virginia University as an undergraduate and then continued at its School of Medicine specializing in otolaryngology. After completing his medical studies, he served as an officer in the U.S. Army for five years, rising to the rank of lieutenant colonel. He then had a medical practice in Abingdon from 1978 to 2013.

In Abingdon, Dr. Wade has been an active member of his community. He attends Abingdon Bible Church, serves on various boards, and provides a home for foreign interns when they are training in the country.

Dr. Wade's deep faith, compassion for others, and medical skills guided him to the field of medical missions. He began volunteering with the faith-based charity World Medical Mission in May 1996, traveling to Kenya, performing cleft lip and cleft palate surgeries. Working with World Medical Mission and BethanyKids in the years since, Dr. Wade has traveled to Kenya 25 times, South Sudan three times, Egypt twice, South Sudan twice, and Myanmar to perform these surgeries. Frequently operating in areas undergoing political and social unrest and lacking the comforts of home, he conducts an average of four surgeries a day during twelve-hour shifts in the operating room.

His selfless and humble service to others has been a gift in the lives of many, from the children who benefit from his medical skills to the colleagues inspired by his example. I commend Dr. Wade for his good works and for the generous and caring spirit in which he has done them.

RECOGNIZING TAYLOR BOYER

HON. BRIAN K. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. FITZPATRICK. Madam Speaker, for nearly two decades, the U.S. Department of State's Benjamin A. Gilman International Student Program has afforded qualified American students the ability to study abroad. To date, over 28,000 outstanding Americans representing 1,300 colleges and universities have studied in over 150 countries as part of this program. Students selected represent diverse backgrounds and engage in a unique educational experience that gives them skills re-

lated to national security and economic competitiveness.

I rise today to recognize the prestigious accomplishment of my constituent, Taylor Boyer of Doylestown, who received a Benjamin A. Gilman International Scholarship to study abroad in Belize during the 2017–2018 academic year while a student at Delaware Valley University.

On behalf of all residents of the First Congressional District, I congratulate Taylor on this outstanding achievement.

HONORING TEACHER OF THE YEAR
DONNA GRADEL

HON. KEVIN HERN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. KEVIN HERN of Oklahoma. Madam Speaker, it is with great pride that I rise today in honor of an outstanding educator. Oklahoma's 2018 Teacher of the Year, Ms. Donna Gradel, a finalist for the National Teacher of the Year.

Ms. Gradel has dedicated nearly 30 years of her life to education. The success of her students at Broken Arrow High School reflects the passion and dedication that Ms. Gradel brings to teaching.

Oklahoma is home to many wonderful educators. Ms. Gradel is a standard-bearer of educational excellence in my state and my district, and she continues to impress us and her peers across the country.

Ms. Gradel is well-deserving of her position as a finalist for Teacher of the Year. She represents Oklahoma and our country well and has the support of our entire delegation.

Congratulations to Ms. Gradel on this profound honor.

CELEBRATING THE 30TH ANNIVERSARY
OF MASIMO CORPORATION

HON. KATIE PORTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Ms. PORTER. Madam Speaker, it is my honor to recognize the 30th anniversary of Masimo Corporation, a healthcare technology company based in Irvine, California, and to celebrate its innovation and commitment to improving patient safety around the world. Masimo has helped solve the "unsolvable" by introducing lifesaving breakthroughs in noninvasive patient monitoring.

Masimo's founder, chairman, and chief executive officer, Joe Kiani, immigrated to the United States when he was 9 years old and only spoke three words of English. Originally trained as an electrical engineer, he thrived in his new home and graduated early from both high school and San Diego State University.

In 1989, at age 24, Mr. Kiani had an idea that would significantly improve the accuracy and reliability of one of the most commonly used monitoring technologies in health care: the pulse oximeter. By attaching to your finger, the pulse oximeter measures how much oxygen is in the blood within seconds. With a \$40,000 loan against his condo in Orange

County, Mr. Kiani started his company in a location that many successful California companies often do—in a garage. Today, Masimo Corporation's Irvine headquarters can be recognized as the set for Stark Enterprises in the first "Iron Man" movie.

Before Masimo Corporation was founded, pulse oximeters frequently produced false alerts based on a variety of factors and the patient's movements. Mr. Kiani applied a technology called adaptive filters, used in submarine warfare and communication, and created Masimo SET Measure-through Motion and Low Perfusion pulse oximetry. This technology reduced false alarms by 95 percent, and its high degree of sensitivity pioneered new findings—from previously undetectable heart problems in newborns to reducing blindness in premature babies by enabling clinicians to better target oxygen levels provided in neonatal care.

Since its founding, Masimo has grown into a successful publicly traded company employing more than 4,600 people worldwide, with annual revenues of nearly \$800 million. The company has more than 600 patents, and Masimo's technology improves the health outcomes of an estimated 100 million patients worldwide each year.

The journey of Mr. Kiani and Masimo is an American story rooted in entrepreneurial spirit and grit. Its worldwide success has created jobs, nurtured research, and improved patient safety. On behalf of the 45th Congressional District, congratulations for 30 years of providing lifesaving and life-altering health care.

RECOGNIZING THE MONTEREY
BAY NATIONAL MARINE SANCTUARY'S
20TH ANNUAL SNAPSHOT
DAY

HON. JIMMY PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 2, 2019

Mr. PANETTA. Madam Speaker, I rise today to recognize the Monterey Bay National Marine Sanctuary as they celebrate their 20th Snapshot Day. This annual event brings volunteers together at over 250 sampling sites on the central coast of California as they collect valuable data on the water quality of the watersheds that drain into the Monterey Bay National Marine Sanctuary.

The first Snapshot Day was organized in 2000 when the Monterey Bay National Marine Sanctuary collaborated with the Coastal Watershed Council and the Center for Marine Conservation to organize a volunteer effort to better understand land-based sources of ocean pollution in the sanctuary. With a better understanding of the sources of pollution from the 10 watersheds directly connected to the sanctuary, local agencies, stakeholders, and citizens can better protect the water quality along 276 miles of shoreline across four coastal counties that are home to more than 1.8 million residents. These protected waters support a wealth of biological diversity, coastal scenery, and recreational and business opportunities.

Snapshot Day depends on a small army of volunteers who measure bodies of water for temperature, dissolved oxygen, pH, conductivity, and turbidity and collect samples that
