CELEBRATING THE 100TH BIRTHDAY OF GEORGE ALBERT GAINES, JR.

HON. DOUG COLLINS

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 11, 2019

Mr. COLLINS of Georgia. Madam Speaker, I rise today to honor a life so rich in purpose

and experience that it would be a shame not to commit a place in the record of this body to commemorate it.

In August, a selfless servant of considerable character, Mr. George Albert Gaines, Jr. of Elberton, Georgia, will celebrate his 100th birthday in the company of friends, family and loved ones.

Born August 17, 1919, in Elberton, Georgia, George Albert Gaines, Jr. has spent 100 years demonstrating why his life—a life of service, leadership, and fortitude—is worth celebration and reflection.

In 1940, George began what would ultimately become a 31-year career in the military by joining the National Guard Unit in his hometown of Elberton, Georgia. As a member of the Greatest Generation, and a veteran of World War II, George served under General George S. Patton in North Africa, Corsica, and Italy, where he earned a Bronze Star in April of 1945 for his leadership on the battlefield, and for courage in the face of enemy fire.

After the war, George worked in the granite industry, capably managing Atlas Granite Company from 1947 to 1964. He later resigned from Atlas and took a position as the full-time executive officer with the Georgia National Guard, where he assumed command of the 1st Battalion, 214th Artillery, with units in Elberton, Washington, Thompson, Sparta and Waynesboro, Georgia. While in that position, George received the Distinctive Service Medal for exceptionally meritorious and distinctive service.

In addition to serving his country, George has been devoted to serving his community throughout his lifetime. He served on various boards, including the Elbert County Board of Education, and has been active in many civic and community organizations, including the Sons of the American Revolution, the Salvation Army, the Rotary Club of Elberton, and the Elberton Granite Association, of which he was once the President. He has been a devoted member of the First Baptist Church of Elberton and has served the congregation in many leadership positions over the years.

On behalf of the people of Northeast Georgia, please join me in thanking Mr. Gaines for his service and celebrating 100 years of a life well lived.

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, June 10, 2019

Ms. JACKSON LEE. Mr. Speaker, as a senior member of the Homeland Security Committee, I rise in support of H.R. 2609, the "DHS Acquisition Review Board Act of 2019."

This bill would establish the Acquisition Review Board to—

1. strengthen accountability and uniformity within the Department acquisition review process;

3. review the use of best practices.

The Acquisition Review Board also determines whether best practices are incorporated in proposed acquisition strategies and if the strategies are aligned with Department strategic initiatives.

HONORING DR. KAREN HAYNES ON
HER RETIREMENT AS PRESIDENT
OF CALIFORNIA STATE
UNIVERSITY SAN MARCOS

HON. MIKE LEVIN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 11, 2019

Mr. LEVIN of California. Madam Speaker, I rise to honor Dr. Karen Haynes on the event of her retirement as president of California State University San Marcos.

Dr. Haynes has worked for over 30 years as an academic administrator. During her tenure as president of California State University San Marcos (CSUSM), she was instrumental in the growth and development of the school. She joined CSUSM fourteen years after the school opened its doors, with a student population of merely 7,000. CSUSM is now home to over 17,000 students, Division II athletics, and a satellite campus in Temecula.

Since the beginning of her tenure, Dr. Haynes has worked to ensure that CSUSM serves a diverse student population. Around one third of CSU San Marcos students are outside of the traditional college age range, and the school has the largest number of Native American students per-capita in the CSU system. Like Dr. Haynes herself, almost half of the students are first-generation college students.

CSUSM would not be the school it is today without the hard work and dedication of Dr. Haynes. I thank Dr. Haynes for her fifteen years of service to California State University San Marcos and congratulate her on her retirement.

DR. SCHOONOVER'S REMARKS ON
NATIONAL SECURITY IMPLICATIONS
OF CLIMATE CHANGE

HON. CHELLIE PINGREE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 11, 2019

Ms. PINGREE. Madam Speaker, on June 5, 2019, Dr. Rod Schoonover, a Senior Analyst in the Bureau of Intelligence and Research of the U.S. Department of State, testified before the House Permanent Select Committee on Intelligence. The hearing sought answers on the very real dangers and national security risks caused by climate change. The Administration, however, continued its pattern of anti-science and climate denial behavior. Though Dr. Schoonover was allowed to give his invaluable testimony, the Administration blocked his testimony from being entered into the record. We must recognize that climate change is a threat to our country's economic well-being, public health, and national security. I include in the RECORD part of Schoonover's summary, but urge my colleagues to read the full report here: <https://games-cdn.washingtonpost.com/notes/prod/default/documents/23db973-209c-44c2-ab0f-1db57d157f51/note/7acf47a1-8ec4-4e76-a93e-2d4dba26cb28.pdf#page=1>

Chairman Schiff, Ranking Member Nunes, and distinguished members of the Committee, thank you for inviting me to speak with you today on the national security implications of climate change.

As a U.S. intelligence officer in the Department of State Bureau of Intelligence and Research it is my job to provide clear, objective, and independent analysis to policymakers to advance U.S. national security objectives. As a scientist in the intelligence community (IC), I blend insights derived from peer-reviewed journal articles and other scientific reports with information gathered from daily intelligence reporting to provide science-informed national security analysis. My understanding of this and other issues is deepened by the cadre of talented and dedicated officers in the IC, many with technical expertise, who quietly serve U.S. interests. This Committee is already aware that the IC does not advocate for any particular set of policies, including those that address climate change.

THE BOTTOM LINE

Fundamental characteristics of the global climate are moving outside the bounds experienced in modern history and there is uncertainty on how some aspects of the climate will evolve. Given the complex social and political contexts in which a multitude of changes are occurring, however, we can expect new and compounded stresses on people and societies around the world, many with outcomes important for national security.

Climate change will have wide-ranging implications for U.S. national security over the next 20 years through global perturbations, increased risk of political instability, heightened tensions between countries for resources, a growing number of climate-linked humanitarian crises, emergent geostrategic competitive domains, and adverse effects on militaries. Increasingly probable amalgamations of these security concerns are especially worrisome. Climate change alone is unlikely to trigger state failure in the next few decades but it will affect factors that contribute to conflict, such as access to natural resources. People will
