IMPORTANCE OF SUSTAINING OUR  
SHIPPING INDUSTRIAL BASE

**HON. ROBERT J. WITTMAN**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, July 10, 2019*

Mr. WITTMAN. Madam Speaker, I rise today to highlight the ongoing challenges facing our domestic industrial base, specifically the shipbuilding industry, and I want to urge my colleagues to consider the tough realities facing our nation and its ability to produce ships for both military missions and commercial applications in the future.

One of the key points of contention between Republicans and Democrats on the NDAA concerns the authorization level or topline for this legislation in Fiscal Year 2020. I want to highlight the state of the shipbuilding industrial base as a case study for an increased topline.

We currently have 290 deployable battle force ships in our Navy, with a plan to get us to 355 ships as soon as possible. This was codified by the SHIPS Act that I sponsored in 2017 with Sen. WICKER which was included in that year's National Defense Authorization Act.

Consider that, over time, our national capacity to build ships has continued to decline and the remaining shipyards and suppliers are increasingly at risk. We have lost dozens of shipyards and tens of thousands of suppliers over the last 15 years, which makes it even more compelling that we do all we can to support the shipyards and suppliers that remain.

In 2018, in response to a Presidential Executive Order, the Department of Defense submitted a report entitled "Assessing and Strengthening the Manufacturing and Defense Industrial Base and Supply Chain Resiliency of the United States".

Quoting from the report, "The shipbuilding industrial base is a national asset and absolutely vital to America's ability to build and sustain the Naval fleet. The Navy is focused on improving the health of the industrial base to meet its requirement of a 355 ship fleet with a long range plan anchored by industrial stability. The analysis performed in response to the Executive Order identified five underlying

risks: dependency on single/sole source suppliers, capacity shortfalls, lack of competition, lack of workforce skills, and unstable demand."

So you can see, Madam Speaker, that there are clearly significant challenges facing our Navy and our nation's ability to produce warships in the future. Single/sole source suppliers, capacity shortfalls, loss of competition, lack of workforce skills and unpredictable demand are all hampering our nation's ability to build its future fleet. This is not a new issue but I'm afraid that the problems confronting our industrial base are only getting worse.

So what has Congress done and what should be done going forward?

We have made significant investments throughout our Navy's future fleet, including funds for our aircraft carrier fleet and a single contract awarded earlier this year for procurement of both CVN 80 and CVN 81, the 3rd and 4th *Gerald R. Ford*-class aircraft carriers. I'm proud to have led the effort in this House to provide the necessary authorization for this contract to be awarded—this contract will save \$4 billion compared to buying these ships individually and sends exactly the right message to all involved that we are serious about building more ships in this country.

We have provided consistent funding and support for our nation's submarine programs, and 2019 marks the 9th consecutive year that 2 *Virginia*-class Submarines have been procured via the annual authorization/appropriations process. The legislation we are considering today authorizes a 3rd *Virginia*-class Submarine to be procured in fiscal year 2020 as we have heard on numerous occasions about the attack submarine force structure shortfall facing our Navy. In 2028 for example, there is a forecast level of 42 attack submarines against a stated requirement for 66 submarines.

On the Columbia ballistic missile submarine program, Congress has been steadfast in its support of the Department of Defense's No. 1 acquisition priority. Partly as a result, next year when our nation procures the first boat in the *Columbia* class it will have the highest percentage of design completed for a first of class ship in recent memory.

Congress has provided multiple years of Supplier Development funding for our nuclear shipbuilding programs with additional planned investment. I look forward to hearing from the Navy about these investments and how they will be helping to shore up certain parts of our nuclear shipbuilding industrial base.

Congress has also been extremely supportive for amphibious warships, with congressional authorization and funding underway since Fiscal Year 2013 to enable our Navy to move between the San Antonio Flight I and the San Antonio Flight II class of LPDs. In fact, Congress has led the Navy with successive authorization and appropriation of LPD 28, LPD 29, and LPD 30 since Fiscal Year 2015 alone. In Fiscal Year 2019, both the LHA program and the LPD Flight II program received \$350 million in advance procurement toward the construction of LHA 9 and LPD 31, respectively. Unfortunately, our amphibious force remains below the stated requirement of 38 ships and the Pentagon and Navy have not moved out with the timely execution of these FY 19 funds, critical for our supplier base. This bill takes a step in the right direction and authorizes LPD-31 and the incremental fund-

ing to support this critical asset. Congress has done its job and now it's time for the Department of Defense and the Department of the Navy to do their job and get these funds on contract. Our shipbuilding industrial base is ready, the shipyards are ready—it's time to get going and move out.

On surface combatants, Congress has been extraordinarily supportive of the Navy's DDG 51 *Arleigh Burke*-class Destroyer program with 2 successive Multiyear Procurements executed since the program restarted almost a decade ago. The DDG 51 program, unfortunately, experienced a program lapse of several years as Navy stopped, then restarted production after a several year hiatus—the supplier base atrophied and went elsewhere, causing the government to work and reconstitute our nation's ability to build *Arleigh Burke*-class destroyers. The program has returned to some level of stability today, and these multiyear procurements have saved taxpayers billions of dollars when compared to annually procuring 1–2 ships each year. As a result, the Navy is now requesting procurement of up to 3 DDG 51 class ships in a given fiscal year—these ships are the workhorses of our fleet and they are needed worldwide.

Next year, the Navy will award a contract for design and construction of a next-generation Frigate. This ship is critical to the future fleet but it is also essential for the health and sustainment of our fragile domestic industrial base. I applaud the Navy's acquisition approach which included a significant period for concept design and refinement to be followed by a robust competition detail design and construction for this next class of warship. I want the best ship with the best value to be our next Frigate, but I also want the Pentagon to recognize that it must take a holistic approach to shipbuilding and its stewardship of the shipbuilding industrial base. We saw the problems created by Navy stopping and starting DDG 51 production and I am mindful of not making the same mistake twice with this upcoming acquisition. Our industrial base is fragile—decisions made on one program will have cascading effects on multiple programs underway within Navy shipbuilding.

In closing, Madam Speaker, Congress continues to exercise its constitutional mandate to provide and maintain a Navy. There have been a series of congressional investments made over the last several years which demonstrates our commitment to building a robust future fleet. I call on the Pentagon and Navy leadership to recognize this commitment and make future decisions consistent with our goal of a larger more lethal Navy with a robust and viable industrial base.

---

DEPARTURE OF MICHAEL  
LONERGAN, DEPUTY CHIEF OF  
MISSION FOR IRELAND TO THE  
UNITED STATES

**HON. BRENDAN F. BOYLE**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, July 10, 2019*

Mr. BRENDAN F. BOYLE of Pennsylvania. Madam Speaker, my rising today is bitter-sweet as we acknowledge the departure of Ireland's Deputy Chief of Mission here in Washington: Michael Loneran.

Known for his quick wit, diplomatic instinct, and passion for the job, he has served Ireland's Department of Foreign Affairs honorably and has been a great resource and friend to the Irish-American community.

There are few Irish Citizens, and perhaps even few Americans, who could compete with his encyclopedic knowledge of United States politics and history.

Born in Limerick, he studied law at University College Dublin, and joined the Irish Foreign Service in April 1997. Prior to this posting in our nation's capital, he has served as Consul General in Boston, Press Officer for the Department of Foreign Affairs, Head of Irish Community Affairs at Ireland's Embassy in London, First Secretary for British-Irish Intergovernmental Secretariat in Belfast, and vice-consul in Edinburgh, Scotland.

I know that his departure will leave a void to many in the Irish-American community, where he has been a strong presence at events and celebrations throughout the country. We wish him the best in his future endeavors, as he continues his service in Ireland's Department of Foreign Affairs.

#### SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, July 11, 2019 may be found in the Daily Digest of today's RECORD.

#### MEETINGS SCHEDULED

JULY 16

10 a.m.

Committee on Banking, Housing, and Urban Affairs

To hold hearings to examine Facebook's proposed digital currency and data privacy considerations.

SH-216

Committee on Energy and Natural Resources

Business meeting to consider S. 143, to authorize the Department of Energy to conduct collaborative research with the Department of Veterans Affairs in order to improve healthcare services for veterans in the United States, S. 174, to provide for the establishment of a pilot program to identify security vulnerabilities of certain entities in the energy sector, S. 253, to coordinate the provision of energy retrofitting assistance to schools, S. 520, to require the Secretary of Energy to establish an energy efficiency materials pilot pro-

gram, S. 715, to improve the productivity and energy efficiency of the manufacturing sector by directing the Secretary of Energy, in coordination with the National Academies and other appropriate Federal agencies, to develop a national smart manufacturing plan and to provide assistance to small- and medium-sized manufacturers in implementing smart manufacturing programs, S. 816, to amend the Natural Gas Act to expedite approval of exports of small volumes of natural gas, S. 859, to amend the Energy Policy Act of 2005 to reauthorize hydroelectric production incentives and hydroelectric efficiency improvement incentives, S. 903, to direct the Secretary of Energy to establish advanced nuclear goals, provide for a versatile, reactor-based fast neutron source, make available high-assay, low-enriched uranium for research, development, and demonstration of advanced nuclear reactor concepts, S. 983, to amend the Energy Conservation and Production Act to reauthorize the weatherization assistance program, S. 990, to authorize the Secretary of the Interior to participate in the implementation of the Platte River Recovery Implementation Program First Increment Extension for threatened and endangered species in the Central and Lower Platte River Basin, S. 1052, to authorize the Office of Fossil Energy to develop advanced separation technologies for the extraction and recovery of rare earth elements and minerals from coal and coal byproducts, S. 1064, to require the Secretary of Energy to conduct a study on the national security implications of building ethane and other natural-gas-liquids-related petrochemical infrastructure in the United States, S. 1085, to support research, development, and other activities to develop innovative vehicle technologies, S. 1201, to amend the fossil energy research and development provisions of the Energy Policy Act of 2005 to enhance fossil fuel technology, S. 1245, to improve energy performance in Federal buildings, S. 1286, to amend the Energy Policy Act of 2005 to facilitate the commercialization of energy and related technologies developed at Department of Energy facilities with promising commercial potential, S. 1317, to facilitate the availability, development, and environmentally responsible production of domestic resources to meet national material or critical mineral needs, S. 1685, to require the Secretary of Energy to establish a program for the research, development, and demonstration of commercially viable technologies for the capture of carbon dioxide produced during the generation of natural gas-generated power, S. 1706, to amend the National Energy Conservation Policy Act to encourage the increased use of performance contracting in Federal facilities, S. 1857, to amend the National Energy Conservation Policy Act to improve Federal energy and water performance requirements for Federal buildings and establish a Federal Energy Management Program, H.R. 347, to extend the authorization of the Uranium Mill Tailings Radiation Control Act of 1978 relating to the disposal site in Mesa County, Colorado, H.R. 762, to amend the Energy Policy and Conservation Act to provide for the dissemination of information regarding available Federal programs relating to energy efficiency projects for schools,

and H.R. 1138, to reauthorize the West Valley demonstration project.

SD-366

Committee on Foreign Relations

Subcommittee on Western Hemisphere, Transnational Crime, Civilian Security, Democracy, Human Rights, and Global Women's Issues

To hold hearings to examine United States engagement in Central America.

SD-419

Committee on Homeland Security and Governmental Affairs

To hold hearings to examine the nominations of Ann C. Fisher, of the District of Columbia, and Ashley Jay Elizabeth Poling, of North Carolina, both to be a Commissioner of the Postal Regulatory Commission, Catherine Bird, of Texas, to be General Counsel of the Federal Labor Relations Authority, and Rainey R. Brandt, and Shana Frost Matini, both to be an Associate Judge of the Superior Court of the District of Columbia.

SD-342

2:30 p.m.

Committee on Energy and Natural Resources

Subcommittee on Public Lands, Forests, and Mining

To hold hearings to examine long-term management options for the Bureau of Land Management's Wild Horse and Burro Program.

SD-366

Committee on Foreign Relations

Subcommittee on Near East, South Asia, Central Asia, and Counterterrorism

To hold hearings to examine Iraq, focusing on a crossroads of United States policy.

SD-419

Committee on Homeland Security and Governmental Affairs

To hold hearings to examine the 2020 Census, focusing on conducting a secure and accurate count.

SD-342

Committee on the Judiciary

Subcommittee on the Constitution

To hold hearings to examine Google and censorship through search engines.

SD-226

JULY 17

9:15 a.m.

Committee on Homeland Security and Governmental Affairs

To hold hearings to examine unprecedented migration at the United States southern border, focusing on bipartisan policy recommendations from the Homeland Security Advisory Council.

SD-342

9:30 a.m.

Committee on Banking, Housing, and Urban Affairs

Subcommittee on Economic Policy

To hold hearings to examine economic mobility, focusing on whether the American dream is in crisis.

SD-538

10 a.m.

Committee on Commerce, Science, and Transportation

To hold hearings to examine National Aeronautics and Space Administration plans for deep space exploration, focusing on the Moon to Mars.

SH-216

Committee on Environment and Public Works

To hold hearings to examine electric battery production and waste, focusing on opportunities and challenges.

SD-406
