

Price Rock 'n Play Sleeper, which have been linked to the deaths of at least 50 infants. While there have been four recent recalls related to this product type, similar unsafe products of this type remain on the market. These products are deadly, and their design is inherently unsafe and incompatible with expert safe sleep recommendations, including from the American Academy of Pediatrics. This legislation would help prevent more families from experiencing the tragedy of losing a child by banning the products' manufacture, import, and sale.

The Safe Cribs Act of 2019 (H.R. 3170) would ban crib bumper pads. Bumper pads have led to dozens of infant suffocation deaths and do not offer protection to babies. These products are also inconsistent with expert safe sleep recommendations. Maryland, Ohio, New York State, Chicago, Illinois, and Watchung, New Jersey have taken action to protect babies. If H.R. 3170 becomes law, all babies in the United States would be similarly protected. This legislation would help prevent more families from experiencing the tragedy of losing a child to crib bumper pads by banning their manufacture, import, and sale altogether.

The STURDY Act (H.R. 2211) would direct the U.S. Consumer Product Safety Commission (CPSC) to create a mandatory clothing storage unit standard to help prevent furniture tip-overs. According to the CPSC, one child dies every ten days from a tip-over. Stronger product testing and safety requirements could prevent these fatalities. This bill is critically important because it would establish a strong mandatory standard for furniture stability. The STURDY Act would require the CPSC to create a mandatory rule that would: cover all clothing storage units, including those 30 inches in height or shorter; require testing to simulate the weights of children up to 72 months old; require testing measures to account for scenarios involving carpeting, loaded drawers, multiple open drawers, and the dynamic force of a climbing child; mandate strong warning requirements; and require the CPSC to issue the mandatory standard within one year of enactment. To protect children from furniture tip-overs, we need a strong mandatory standard and the STURDY Act includes those critically needed provisions.

These bills offer a vital opportunity to protect children from preventable injuries and deaths. We urge you to support these child health and safety bills, and to vote "yes" on them as they move to the House floor.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

□ 1700

Mr. GOMEZ. Mr. Speaker, I yield myself such time as I may consume.

The Grant Reporting Efficiency and Agreements Transparency Act, introduced by Representative VIRGINIA FOXX and myself, would standardize reporting for recipients of Federal grants and cooperative agreements.

Grant recipients often have to report the same information in different ways because Federal agencies do not use the same forms or even the same terms to describe required information, often making it difficult for organizations and businesses to apply for Federal grants.

Under this bill, the Director of OMB and the Secretary of Health and Human Services would be required to establish governmentwide data standards for grant reporting. This bill would encourage OMB and HHS to make the information grant recipients report fully searchable and machine readable. This would provide greater transparency into the money spent on grants because spending data would be more usable.

This bill would require that data collected from grant recipients be published on a single public portal.

The bill we are considering today is a version that the Senate has amended and makes certain technical changes to that bill. This is a good, commonsense measure that will ease burdens on the private sector and improve the efficiency of government operations.

Mr. Speaker, I urge Members to support this bill, and I reserve the balance of my time.

Ms. FOXX of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of our bill, one that now awaits a final vote in Congress before it heads to the President's desk.

I thank Representative JIMMY GOMEZ for helping author this piece of legislation, the Grant Reporting Efficiency and Agreements Transparency Act, or GREAT Act. Representative GOMEZ has been a tremendous partner on this bi-

partisan, bicameral bill to create more transparency, efficiency, and accountability in the Federal grant reporting process, and I thank him for his hard work.

Mr. Speaker, according to USAspending.gov, in 2019, the Federal Government awarded \$764.9 billion in grants funding to State agencies, local and Tribal governments, agencies, nonprofits, universities, and other organizations. Roughly translated, this equates to the gross domestic product of Switzerland—or more than the GDP of every country outside the G20.

Within our Federal Government, there are 26 agencies awarding Federal grants, and all of them continue to rely on outdated, burdensome, document-based forms to collect and track grant dollars. Society has moved into a new age of information and technology, and it is time that our government follow suit.

The GREAT Act represents bipartisan legislation to modernize the Federal grant reporting process. It would do so by mandating a standardized data structure for information that recipients report to Federal agencies. Unless the reporting requirements for Federal grants are searchable, the auditing process will continue to yield waste and inefficiency at best and, potentially, fraud and abuse at worst.

Adopting a governmentwide open data structure for all the information grantees report will alleviate compliance burden, provide instant insights for grantor agencies and Congress, and enable easy access to data for oversight, analytics, and program evaluation.

Digitizing and, therefore, automating the reporting process would have a twofold effect:

First, it would allow greater scrutiny of how the money is being spent.

Second, it allows grantees to maximize every dollar they receive from the government to ensure it goes back into communities, supporting local businesses, organizations, and education.

Lastly, the GREAT Act has received a broad breadth of support from an array of good government groups and associations within the grant recipient community.

The coalition endorsing the GREAT Act includes the Association of Government Accountants, the Bipartisan Policy Center, the American Library Association, the Data Coalition, the Grant Professionals Association, the Native American Finance Officers Association, and the Scholarly Publishing and Academic Resources Coalition.

In order to fix the way Federal grants are reported, we must move from a document-centric reporting system to a data superhighway. I urge my colleagues in the House and the Senate to support the GREAT Act and bring grant reporting into the 21st century.

Mr. Speaker, I reserve the balance of my time.

Mr. GOMEZ. Mr. Speaker, I have no more speakers on my side.

Ms. FOXX of North Carolina. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, our current post-award grant reporting process is a cumbersome, document-based process. It burdens administrators and grant recipients. It hinders agencies in their ability to manage grant programs and conduct performance evaluations.

These problems are exacerbated for those conducting governmentwide and congressional oversight work, but that comes to an end today if we pass this bill. As I said earlier, this week's vote on the GREAT Act is the legislation's final stop in Congress before it heads to the President's desk.

In addition to thanking Representative GOMEZ, I thank Senators LANKFORD and PETERS and their staffs for their tireless work this Congress. Put simply, we could not have gotten this important legislation through Congress without their sponsorship of the Senate companion bill and their advocacy throughout this process.

Further, I thank my House bill's original cosponsors for their work on this bipartisan achievement: Congressman GOMEZ, Congressman WALKER, Congressman QUIGLEY, Congressman DESJARLAIS, Congresswoman ROBIN KELLY, Congressman PALMER, and Congressman KILMER.

Again, Mr. Speaker, the fragmented, decentralized, and redundant grant reporting structure ends this week.

Instead, we usher in a new age, one that moves this government spending from Document Street to a data superhighway with the passage of this legislation. When we do, it will mark a great moment not just for our Nation's grant recipients and those working for the common good but, ultimately, the American taxpayer.

The transparency, accountability, and efficiencies that this legislation is bound to produce are ultimately intended for them. I proudly ask that my colleagues support this bipartisan legislation, and I yield back the balance of my time.

Mr. GOMEZ. Mr. Speaker, I thank the gentlewoman from North Carolina, Representative FOXX, for her partnership on this legislation.

I know, during such a historic week on a variety of fronts, this bill might be little noticed 20, 30, or 40 years from now, but what people should notice is that a progressive Democrat from Los Angeles and a conservative Member from North Carolina could spot a problem that was impacting our constituents, our businesses, our nonprofits, and that we saw a problem that needed a solution. It might not always be the perfect solution, but it is definitely a great solution. What we are showing is that we can work, once again, for the American people.

I thank the gentlewoman for her example, and I know that, in the future, we can continue to work together on even bigger and more meaningful legislation. Let's let this be a reminder that

our country continues to work on behalf of everyone.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. GOMEZ) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 150.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

SPOKANE TRIBE OF INDIANS OF THE SPOKANE RESERVATION EQUITABLE COMPENSATION ACT

Ms. HAALAND. Mr. Speaker, I move to suspend the rules and pass the bill (S. 216) to provide for equitable compensation to the Spokane Tribe of Indians of the Spokane Reservation for the use of tribal land for the production of hydropower by the Grand Coulee Dam, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 216

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Spokane Tribe of Indians of the Spokane Reservation Equitable Compensation Act”.

SEC. 2. FINDINGS.

Congress finds that—

(1) from 1927 to 1931, at the direction of Congress, the Corps of Engineers investigated the Columbia River and its tributaries to determine sites at which power could be produced at low cost;

(2) under section 10(e) of the Federal Power Act (16 U.S.C. 803(e)), when licenses are issued involving tribal land within an Indian reservation, a reasonable annual charge shall be fixed for the use of the land, subject to the approval of the Indian tribe having jurisdiction over the land;

(3) in August 1933, the Columbia Basin Commission, an agency of the State of Washington, received a preliminary permit from the Federal Power Commission for water power development at the Grand Coulee site;

(4) had the Columbia Basin Commission or a private entity developed the site, the Spokane Tribe would have been entitled to a reasonable annual charge for the use of the land of the Spokane Tribe;

(5) in the mid-1930s, the Federal Government, which is not subject to licensing under the Federal Power Act (16 U.S.C. 792 et seq.)—

(A) federalized the Grand Coulee Dam project; and

(B) began construction of the Grand Coulee Dam;

(6) when the Grand Coulee Dam project was federalized, the Federal Government recognized that—

(A) development of the project affected the interests of the Spokane Tribe and the Confederated Tribes of the Colville Reservation; and

(B) it would be appropriate for the Spokane and Colville Tribes to receive a share of revenue from the disposition of power produced at Grand Coulee Dam;

(7) in the Act of June 29, 1940 (16 U.S.C. 835d et seq.), Congress—

(A) granted to the United States—

(i) in aid of the construction, operation, and maintenance of the Columbia Basin Project, all the right, title, and interest of the Spokane Tribe and Colville Tribes in and to the tribal and allotted land within the Spokane and Colville Reservations, as designated by the Secretary of the Interior from time to time; and

(ii) other interests in that land as required and as designated by the Secretary for certain construction activities undertaken in connection with the project; and

(B) provided that compensation for the land and other interests was to be determined by the Secretary in such amounts as the Secretary determined to be just and equitable;

(8) pursuant to that Act, the Secretary paid—

(A) to the Spokane Tribe, \$4,700; and

(B) to the Confederated Tribes of the Colville Reservation, \$63,000;

(9) in 1994, following litigation under the Act of August 13, 1946 (commonly known as the “Indian Claims Commission Act” (60 Stat. 1049, chapter 959; former 25 U.S.C. 70 et seq.)), Congress ratified the Colville Settlement Agreement, which required—

(A) for past use of the land of the Colville Tribes, a payment of \$53,000,000; and

(B) for continued use of the land of the Colville Tribes, annual payments of \$15,250,000, adjusted annually based on revenues from the sale of electric power from the Grand Coulee Dam project and transmission of that power by the Bonneville Power Administration;

(10) the Spokane Tribe, having suffered harm similar to that suffered by the Colville Tribes, did not file a claim within the 5-year statute of limitations under the Indian Claims Commission Act;

(11) neither the Colville Tribes nor the Spokane Tribe filed claims for compensation for use of the land of the respective tribes with the Commission prior to August 13, 1951, but both tribes filed unrelated land claims prior to August 13, 1951;

(12) in 1976, over objections by the United States, the Colville Tribes were successful in amending the 1951 Claims Commission land claims to add the Grand Coulee claim of the Colville Tribes;

(13) the Spokane Tribe had no such claim to amend, having settled the Claims Commission land claims of the Spokane Tribe with the United States in 1967;

(14) the Spokane Tribe has suffered significant harm from the construction and operation of Grand Coulee Dam;

(15) Spokane tribal acreage taken by the United States for the construction of Grand Coulee Dam equaled approximately 39 percent of Colville tribal acreage taken for construction of the dam;

(16) the payments and delegation made pursuant to this Act constitute fair and equitable compensation for the past and continued use of Spokane tribal land for the production of hydropower at Grand Coulee Dam; and

(17) by vote of the Spokane tribal membership, the Spokane Tribe has resolved that the payments and delegation made pursuant to this Act constitute fair and equitable compensation for the past and continued use of Spokane tribal land for the production of hydropower at Grand Coulee Dam.

SEC. 3. PURPOSE.

The purpose of this Act is to provide fair and equitable compensation to the Spokane Tribe for the use of the land of the Spokane Tribe for the generation of hydropower by the Grand Coulee Dam.
