

out that they were instructed that her private server was hacked, what does Christopher Wray's FBI do? They release an official statement that the FBI still has not seen any evidence that Hillary Clinton's private server was hacked.

That was despicably dishonest. All they had to do was contact the intelligence community IG's office. They could have gotten the information.

But Christopher Wray was more interested in trying to preserve the old reputation of the FBI, so he continued with the facade: Well, yeah, we put on our blinders. We see no evil. We hear no evil. We don't know about any evil. We are not going to go look at the evidence that absolutely, unequivocally shows her private server was hacked. We will just ignorantly and intentionally mislead the American people and say we haven't seen any evidence that her private server was hacked.

This is a dangerous, dangerous time in our history. People can throw all the rocks at Bill Barr. I didn't know the guy. I don't think I ever met the man. I had concerns because he was a private friend of Bob Mueller, and his wife was a friend of Mrs. Mueller. I had concerns.

Now that he is trying to get to the bottom of all the corruption within the FBI and at the top of the DOJ, the rocks are being hurled.

This should be a time when we come together to try to root out the corruption. If they can attempt a coup of a duly-elected President, whether you like the electoral college or not, if they can do it to a Republican, then the day can come when we have conservative people who disagree with a liberal President and decide to take him out the way they made so many inroads into almost taking out Donald Trump.

This is a scary time in our history. I literally hope and pray, and I know there are people who make fun of the prayers, but I truly believe prayers have brought about God's blessing on this country.

We have a chance to fix things here, but it is going to take courage by people who are willing to stand up to an FBI, some corruption at the top.

There are still some people at the FBI who do not like Donald Trump. They are still there. They still would like to cover for people who were helping try to effectuate this attempted coup on Donald Trump. They need to go.

It used to be—and I know personally—assistant U.S. attorneys who were career, or FBI agents who were career. Most times, you don't even know how they voted. You don't know if they did vote because they had one interest, getting to the truth of whether or not there was probable cause a crime was committed and, if so, who probably committed it. That gets them an indictment, and then they can go for a conviction. That is what they were interested in, enforcing the law.

The FBI under Robert Mueller and then James Comey became an instrument to abuse enemies, and it has to be cleaned up.

I have seen no indication that Christopher Wray is interested in doing that. He is covering for the guys who created the problem. Maybe he is doing some things internally that I am not seeing, but he is not the answer.

For the sake of continuing this little experiment in self-government, we need to clean up the mess at the FBI in Washington, D.C., and the mess that still exists at the top of the Justice Department. Then we can have a chance to keep this little experiment of self-government going.

Madam Speaker, I yield back the balance of my time.

LEADING ON CLIMATE CHANGE

(Mr. CASTEN of Illinois asked and was given permission to address the House for 1 minute.)

Mr. CASTEN of Illinois. Mr. Speaker, I rise to praise this body for passing H.R. 9, the Climate Action Now Act, of which I am a proud cosponsor.

Climate change is the greatest existential threat to our species. It is also an unequivocal economic opportunity. Replacing the need to extract and burn fossil fuels with renewable and clean energy saves money.

This White House is failing to seize this domestic opportunity while simultaneously walking away from our international partners and competitors that are committed to this challenge.

Of all the misguided decisions of this administration, few have been as reckless as announcing our withdrawal from the Paris climate agreement. It is environmentally foolish; it is economically naive; and it cedes leadership to China and others on the defining challenge of our time. That is foolhardy.

H.R. 9 is a reclamation of that mantle. It is a demonstration that Americans are determined to lead, even if the White House is refusing to do so.

I am proud to be a part of this effort, not because it is enough, but because it is the kind of leadership into the breach that has long defined true American greatness.

SENATE BILL AND CONCURRENT RESOLUTION REFERRED

A bill and a concurrent resolution of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 406. An act to establish a Federal rotational cyber workforce program for the Federal cyber workforce; to the Committee on Oversight and Reform.

S. Con. Res. 13.
