

The good news for Tulare County is that, in 2018, the Army Corps of Engineers fully funded work to raise the dam. I stand here today to state with confidence that, without Mr. Schafer's leadership, this project might not have been approved.

This is because no matter how contentious water issues can get—and if you are in California, you know that can be quite contentious—Mr. Schafer has always been the consummate professional, always remaining even-keeled, results-focused. It is only appropriate and fitting that Success Dam be named after Mr. Schafer.

Madam Speaker, I want to thank my colleagues in this Chamber for coming together and acknowledging the individuals who work hard and make our communities better.

Most importantly, I want to thank Mr. Schafer for his continued leadership and service to our community. This is a much-deserved honor.

REMEMBERING FRANK WILLS AND HONORING HIS MEMORY

(Mr. EVANS asked and was given permission to address the House for 1 minute.)

Mr. EVANS. Madam Speaker, I rise today to recognize the hero who has too often been forgotten; Frank Wills is his name, the security guard who discovered the Watergate burglary in progress.

Mr. Wills' discovery ultimately led to the exposure of crimes and scandalous behavior by several members of the Nixon administration and campaign, including the President himself.

Despite his central role in exposing that Presidential scandal, Mr. Wills only received a 3 percent raise in his weekly salary, and his work at the Watergate actually hurt his later efforts to find a new job.

Unfortunately, Mr. Wills passed away at the age of 52 without receiving the type of official recognition he deserved. This week, we observed the anniversary of the Watergate break-in, and on behalf of the Congressional Black Caucus, I urge everyone to remember Mr. Wills and honor his memory.

ALZHEIMER'S AND BRAIN AWARENESS MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, June is Alzheimer's and Brain Awareness Month.

Alzheimer's is the sixth leading cause of death in the United States, and it has reached crisis proportions. There is no effective treatment and no means of prevention and no method for slowing the progression of this disease. Sadly, one in three seniors will die of the disease of Alzheimer's.

Today, on the longest day of the year, the Alzheimer's Association is

raising awareness to outshine the darkness of Alzheimer's disease.

Approximately 50 million people, worldwide, are living with Alzheimer's disease and other dementias. This not only has a devastating impact on those who are diagnosed with the disease, but also their caregivers and their loved ones.

More than 15 million Americans provide unpaid care to families and friends living with Alzheimer's and other dementias. Compared with caregivers for people without dementia, twice as many caregivers for people with dementia indicate substantial emotional, financial, and physical stress.

Madam Speaker, the time to act is now. Let's join the fight. Let's take the pledge to raise awareness about Alzheimer's disease and to never stop searching for a cure.

ENERGY WEATHERIZATION ASSISTANCE PROGRAM

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Madam Speaker, our neighbors and low-income households pay three times more as a share of their income on energy bills than those in higher income strata.

The fiscal year 2020 Energy and Water appropriations bill marks an important step to reduce that energy burden for America's most vulnerable people by increasing investments in the Department of Energy Weatherization Assistance Program.

This program helps families make their home healthier and safer. It promotes energy efficiency and reduces utility bills, which means more money in the pockets of these families for healthcare, groceries, and other basic expenses.

For each dollar the American people invest in the weatherization program, we see an estimated \$4.50 in energy and nonenergy benefits. This additional funding will ensure that even more families are able to experience the benefits of the program.

The Energy and Water bill also recognizes America's need for clean energy innovation by significantly increasing funding for essential DOE research programs, including the Office of Energy Efficiency and Renewable Energy, the State Energy Program and ARPA-E.

The work done by DOE and State energy offices is absolutely critical to accelerate our Nation's transition to a clean energy economy. This bill recognizes the need for the United States to continue to be the global leader in clean energy innovation, technology development, and deployment.

I thank and express my gratitude to Chairwomen LOWEY and KAPTUR for their leadership on these issues.

HONORING THE LIFE OF ATTORNEY JERRY BRADY

(Mr. LAHOOD asked and was given permission to address the House for 1 minute.)

Mr. LAHOOD. Madam Speaker, I rise today to honor the life of Peoria County State's Attorney Jerry Brady, who was laid to rest this week. Jerry Brady was an admired public servant in the Peoria legal community and beloved by everyone who had the pleasure of knowing him.

Jerry grew up in Peoria, attending Spalding Institute High School and graduating from Bradley University and Saint Louis University law school.

In 1981, he became an assistant state's attorney in Peoria County and went on to run a successful law practice for nearly 30 years, where he served until his unfortunate passing.

Inside the courtroom, Jerry was known as one of the most principled and hardest working legal minds in all of central Illinois. Outside of the courtroom, he was known as a benefactor, friend, and role model throughout the community.

Jerry was instrumental in numerous fundraising efforts to support the Peoria community, including the recent completion of our veterans memorial in downtown Peoria.

Jerry was a selfless public servant who left a profound impact on our community, and Peoria, Illinois, misses him and will miss him in the future.

As our community mourns his loss, my thoughts and prayers are with his wonderful wife, Sue, and their three children. He will be missed.

CELEBRATING PRIDE MONTH

(Mr. LOWENTHAL asked and was given permission to address the House for 1 minute.)

Mr. LOWENTHAL. Madam Speaker, as we celebrate Pride Month, we are reminded of the great strides towards equality we have taken.

Madam Speaker, 50 years ago, on the streets outside the Stonewall Inn where the modern LGBTQ rights movement began, the journey towards equality, no doubt, looked endless. Today, we can see the end in sight. And yet, for all of our success, the struggle continues.

We cannot rest; we cannot compromise; we simply cannot allow the demagogues of ignorance, of fear, and of hatred of others, no matter what levels of power they hold, to stop our march forward.

We must redouble our efforts to ensure that life, liberty, and the pursuit of happiness applies to each and every American, no matter who they are and no matter whom they love.

DELISTING THE GRAY WOLF

(Mr. STAUBER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STAUBER. Madam Speaker, I rise today ahead of a public hearing set to be held in my congressional district by the U.S. Fish and Wildlife Service on the proposed delisting of the gray wolf. The gray wolf has recovered.

In fact, back in 2013, the Obama administration delisted the gray wolf for precisely the same reason we are today: because of science. Yet the gray wolf remains listed, and without a State-developed management plan in place, the population in northeastern Minnesota is growing at an uncontrollable rate.

Within the Duluth city limits, which is the largest city in Minnesota's Eighth District, a Labrador retriever was recently attacked by wolves while its owner was just a few feet away. Attacks on cattle owned by farmers trying to make ends meet continue to be all too common.

Madam Speaker, my State's Department of Natural Resources will effectively manage the species once the Federal Government moves itself out of the way.

I am incredibly grateful to Interior Secretary Bernhardt and the Fish and Wildlife Service for choosing to hold this forum in the heart of gray wolf country. No one knows this issue better than those living in northeast Minnesota.

IN RECOGNITION OF IMMIGRANT HERITAGE MONTH

(Mr. VARGAS asked and was given permission to address the House for 1 minute.)

Mr. VARGAS. Madam Speaker, I rise today in recognition of Immigrant Heritage Month and the millions of immigrant families living, working, and thriving within the United States.

For centuries, our country has welcomed those in search of a better life and has benefited from their meaningful contributions.

As a proud Mexican American, it is a special honor to celebrate my family's immigrant heritage and our Nation's entire immigrant community. Like countless others, my parents came to the United States looking for hope and opportunity for themselves and for the generations to follow.

Thanks to their courage and sacrifice, my siblings and I were able to pursue our American Dreams, an opportunity that is currently, unfortunately, slipping away for far too many.

Today, we are witnessing the devastating effect of President Trump's cruel anti-immigrant agenda, where immigrants are demonized and treated as outsiders; migrants are denied their legal rights to asylum and safety; children are ripped apart from their parents; and adults and children are dying while in U.S. custody.

This is not who we are.

Immigrants from far and wide help build and better our Nation. They have and will continue to be a source of strength to inspire us.

I stand with immigrants today, and I think we all should.

The SPEAKER pro tempore (Ms. WILD). Members are reminded to refrain from engaging in personalities toward the President.

UNITED STATES-MEXICO-CANADA AGREEMENT

(Mr. HAGEDORN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAGEDORN. Madam Speaker, today I rise to encourage the Speaker of the House to give expeditious consideration of the United States-Mexico-Canada Agreement. There is progress on this agreement being made. The country of Mexico, their senate just ratified it. Canada is looking to move very quickly, and it is critically important that we do the same.

Along those lines, 1,000 groups in this country: manufacturing, agriculture, transportation, and processing groups have written us and said: We need to get this deal done now.

In Minnesota, it is not just agriculture. It is machinery. It is manufacturing. It is medicine, and people like my friends at the Farm Bureau, AgriGrowth, poultry, dairy, pork; you name it, everybody wants it done.

If we can get this Mexico-Canada Free Trade Agreement with the United States done, we are going to build momentum for our deals with China, Japan, South Korea, Colombia, and the European Union.

We should be dropping down the barriers, expanding our trade, creating economic growth, creating high-wage jobs, and helping the American people and our consumers.

REQUEST TO CONSIDER H.R. 962, BORN-ALIVE ABORTION SURVIVORS PROTECTION ACT

Mr. FERGUSON. Madam Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of H.R. 962, the Born-Alive Abortion Survivors Protection Act, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. Under guidelines consistently issued by successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

Mr. FERGUSON. Madam Speaker, if this unanimous consent cannot be entertained at this time, I encourage the Speaker and the majority leader to schedule immediate time for consideration of the Born-Alive bill so that we can stand up and protect the sanctity of life.

The SPEAKER pro tempore. The gentleman is not recognized for debate.

COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2020

The SPEAKER pro tempore (Mr. VARGAS). Pursuant to House Resolution 445 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 3055.

Will the gentlewoman from Pennsylvania (Ms. WILD) kindly take the chair.

□ 0918

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 3055) making appropriations for the Departments of Commerce and Justice, Science, and Related Agencies for the fiscal year ending September 30, 2020, and for other purposes, with Ms. WILD (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. When the Committee of the Whole rose on Thursday, June 20, 2019, amendment No. 190 printed in House Report 116-119 offered by the gentlewoman from Washington (Ms. SCHRIER) had been disposed of.

AMENDMENT NO. 195 OFFERED BY MR. RASKIN

The Acting CHAIR. It is now in order to consider amendment No. 195 printed in part B of House Report 116-119.

Mr. RASKIN. Madam Chairwoman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 368, line 16, after the dollar amount, insert "(increased by \$1,000,000) (reduced by \$1,000,000)".

The Acting CHAIR. Pursuant to House Resolution 445, the gentleman from Maryland (Mr. RASKIN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Maryland.

Mr. RASKIN. Madam Chairwoman, I rise today to offer an amendment to H.R. 3055, relating to a problem taking place in my district that may be reflective of what is happening in many other parts of the country.

A fire station on a military installation recently experienced a devastating fire itself, but now cannot get the funds it needs to construct a new firehouse.

Madam Chairwoman, the United States spends billions of dollars every year on military projects, but we need the funds to fix and maintain the basic buildings and infrastructure that have fallen into disrepair on military installations across the country.

This situation was brought to my attention by constituents who work at the Naval District of Washington Fire and Emergency Services station located at the Naval Support Activity Bethesda installation in Maryland. NSA Bethesda provides base support
