AFFORDABLE DRUG COSTS

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I rise today to praise my colleagues in this Chamber for the support of the Lower Drug Costs Now Act.

This bill will make it easier for elderly and disabled citizens to get the life-saving and life-preserving medications they need at prices they can afford.

It would finally give Medicare the power to negotiate directly with the drug companies to get these prices lower. Once they agree on a new price, this bill would make that price available to the American people with private insurance as well as those with Medicare. Then it would take some of the savings from these lowered prices and use it to find new cures for cancer and other diseases through NIH.

Mr. Speaker, I am proud of this bill and my party's continued commitment to people over profits.

CAREER COUNSELORS

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, in schools across my home State of Rhode Island and across the country, career counselors provide students with the guidance they need to navigate their academic and career pathways. It is therefore critical that these counselors have up-to-date information about all the options available to their students, including career and technical education, or CTE.
