

Mr. GUEST. Madam Speaker, the Founding Fathers understood the important role that our farmers and ranchers would play in the construction of our great Nation, and Congress has always played a pivotal role as a friend to our agriculture community.

The USMCA is an agreement that would strengthen trade relations with two of our largest trading partners, Mexico and Canada, and would give a much-needed boost to the American farmer.

In August of this year, I toured Mississippi with the Mississippi Farm Bureau Federation. During these visits, and in subsequent meetings, the Mississippi agriculture community has consistently discussed the importance of the USMCA and asked for its approval.

Unfortunately, the House majority has chosen impeachment instead of ratifying this trade agreement. The majority is prioritizing a partisan political process over substantive policy issues that would strengthen our country.

Madam Speaker, I ask that we focus on the real work that needs to be accomplished this year and pass the USMCA in support of our Nation's farmers and ranchers.

STANDING UP FOR DREAMERS

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Madam Speaker, I rise today on behalf of the thousands of Dreamers in my district and the 800,000 Dreamers across the country threatened with deportation due to the administration's decision to rescind DACA.

It is unconscionable that our Dreamers are now at risk of being separated from their families and removed from the only country they know as home.

In addition to the sound economic, educational, and moral arguments we are hearing today, there is another argument for DACA, one that, as a doctor, I know needs our attention. That is the public health argument.

Doing away with DACA would mean the U.S. could lose over 27,000 healthcare workers and support staff around the country. At a time when we can least afford it, we would lose nurses, physicians, EMTs, and hospital workers, people who have spent their careers making our Nation healthier and whose absence would bring our public health great harm.

That is why I cosponsored, and the House passed, H.R. 6, the American Dream and Promise Act, so that 800,000 Dreamers who work, are in school, have joined the military, or are working to improve our public health on a daily basis can live without fear of deportation.

I urge Senate Majority Leader McConnell to stop playing games and have a vote. Let's get H.R. 6 passed.

SUPPORTING NATIONAL APPRENTICESHIP WEEK

(Mr. ALLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ALLEN. Madam Speaker, I rise today in support, as others have said, of National Apprenticeship Week.

The Republican-led Congress and President Trump jumpstarted America's economy, making it the best in the world. There has never been a better time to enter the workforce. However, every time I am back in the district, I hear about the need for skilled workers.

That is why apprenticeships are absolutely vital to developing America's future workforce. By connecting employers directly to their future workforce, Americans have the opportunity to develop technical skills while gaining valuable work experience.

The numbers show just how successful these programs are. Ninety-four percent of those who complete an apprenticeship program retain employment with an average salary of more than \$70,000.

I am proud that Georgia is leading the way in career and technical education and apprenticeships. For example, in Lyons, Georgia, Chicken of the Sea has invested millions in state-of-the-art technology and helped train our next generation of skilled workers through their apprenticeship program, creating even more jobs and promoting economic opportunity throughout Toombs County. We must continue with this training.

MARKING 550TH ANNIVERSARY OF BIRTH OF GURU NANAK

(Ms. SPANBERGER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SPANBERGER. Madam Speaker, across central Virginia, our Sikh neighbors are celebrating the 550th anniversary of the birth of Guru Nanak, the first Sikh guru.

They are celebrating the man whose teachings have shaped the core beliefs of their families throughout the centuries, and they are remembering Guru Nanak's unwavering commitment to the plight of the poor, his push for equality for all, and his fight against discrimination.

Amid constant threats of invasion and disease, Guru Nanak encouraged his followers to focus on what united their people, not what divided them. In a world consumed by lies and deceit, he taught them to pursue truth. While others sought to destroy and disregard the Earth's resources, Guru Nanak taught his followers to be responsible stewards of the land.

In central Virginia, we have a warm, vibrant, and strong Sikh community. To them, I say happy Gurpurab.

I hope all of our district's Sikh community members will have the oppor-

tunity to enjoy these special festivities alongside family and friends, and I thank you for your rich contributions to our cultural, business, and faith communities.

Together, we thank you for incorporating Guru Nanak's principles of generosity, grace, and compassion into your daily lives. We are stronger because of you.

Madam Speaker, "Waheguru ji ka Khalsa, Waheguruji ki Fateh." Purity belongs to the Creator, all victory belongs to Him.

RECOGNIZING NATIONAL ADOPTION MONTH

(Mr. SPANO asked and was given permission to address the House for 1 minute.)

Mr. SPANO. Madam Speaker, I rise today to call attention to National Adoption Month.

On any given day in our country, there are 440,000 children in the foster care system, most for 2 to 5 years. This holiday season, I encourage you to open your heart to the possibility of adopting a child. As an adoption attorney, I can personally testify that you can give no greater gift to a child without a home than the security of a parent.

Alternatively, foster care may be a better option for you. My family had the joy of fostering four beautiful children over a 2-year period and simultaneously gave their birth parents the chance to receive help to overcome problems that led to their children's removal from their home.

Tampa Bay is blessed to have the Gladney Center for Adoption, Catholic Charities Adoption Services, Florida Baptist Children's Homes, Heart of Adoptions Alliance, and others on the front lines of this issue.

This National Adoption Month, think of these kids as you sit at your Thanksgiving table, when you shop for Christmas, and, above all, when you consider growing your family. They need us.

RECOGNIZING JACK AND JILL OF AMERICA EASTERN REGION

(Mr. VAN DREW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VAN DREW. Madam Speaker, last month, I had the honor of meeting with Jack and Jill of America's Eastern Region teen representatives.

For the past 80 years, the Eastern Region of Jack and Jill of America has been impacting the lives of children by making them civically engaged, charitable, and selfless leaders. The development of this club allowed children to come together in a close, social, and cultural relationship with one another. This organization provides a supportive community for mothers, children, fathers, and teens to assist in the positive transformation of not only the communities but the country.

The Eastern Region is the largest in the country with 56 chapters, and it continues to provide innovative programming in the new millennium. Because of the dedication of these individuals working with the region, the Eastern chapters have provided over 500,000 meals to families in need in the year 2014 to 2015.

It is a job well done by the Eastern Region of Jack and Jill of America. We thank them for their support, their help, and their commitment to America.

STOP IMPEACHMENT SHAM

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Madam Speaker, after several weeks in the secrecy of the basement of this building, the impeachment process has moved upstairs, and it doesn't look a whole lot better in the light of day.

Chairman SCHIFF has made it pretty much a one-man show and continues to deny a due process that you would normally see in a court of law, with bipartisan input. In other modern impeachment examples, you have seen input from both sides. We are not seeing that here. We have this really ugly display going on of a partisan witch hunt against President Trump.

Nothing has changed by coming upstairs. It doesn't look any better under the light of the cameras. The star witnesses brought today, indeed, are not stars at all. They weren't even present on the call between the President of the United States and the Ukrainian President.

Indeed, what we have is a sham. It needs to stop because it is dividing our country and dividing our ability to get anything accomplished in this place for the American people.

STOP PRACTICE OF TELE-ABORTION

(Mr. WRIGHT asked and was given permission to address the House for 1 minute.)

Mr. WRIGHT. Madam Speaker, the right to terminate a pregnancy has become framed as a woman's health issue, and yet, more and more voices argue in favor of methods of abortion that place a woman's health at great risk, such as tele-abortion, a means of killing an unborn child by acquiring abortion drugs and then being coached, through telemedicine, on how to use them.

Simple, except the woman taking the drugs isn't in a medical facility. No medical personnel are present. If the drugs don't work as planned, and the baby is not stillborn, it may still end up in a dumpster, and the mother may end up in an emergency room.

The obvious danger is why I have filed the Tele-Abortion Prevention Act, H.R. 4935. This is commonsense legisla-

tion, even more so when one considers an FDA report that states that there have been more than 4,000 cases of serious adverse events, including more than 1,000 that required hospitalization.

If the woman's health argument is really more than subterfuge that puts dressing on a tragedy, please join me in passing H.R. 4935, the Tele-Abortion Prevention Act.

DREAMERS ARE AMERICANS

The SPEAKER pro tempore (Mrs. KIRKPATRICK). Under the Speaker's announced policy of January 3, 2019, the gentleman from New York (Mr. ESPAILLAT) is recognized for 60 minutes as the designee of the majority leader.

GENERAL LEAVE

Mr. ESPAILLAT. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous materials in the RECORD on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ESPAILLAT. Madam Speaker, I yield to the gentleman from California (Mr. COSTA).

Mr. COSTA. Madam Speaker, I rise today to talk about an important issue affecting our country, and that is Dreamers, many of whom are in Washington this week, fighting for their lives in front of the United States Supreme Court.

Dreamers are Americans just like you and me, and they should be treated as such. When the Obama administration established the Deferred Action for Childhood Arrivals, these were infants from 6 months to 6 years of age and anywhere in between. These Dreamers came here through no choice of their own, but for them, this is the only country they have ever known.

They were qualified and granted, under this program enacted by the Obama administration, to be protected from deportation and, thus, granted a legal status.

Since then, these young people have made immense contributions to our society every day. They are our friends. They are our neighbors.

But they have been betrayed by this administration's cruel policies toward migrant communities, including the efforts to repeal the Deferred Action for Childhood Arrivals, otherwise known as DACA, and to dismantle the advance parole initiative, which was a part of this effort and allows Dreamers to visit their loved ones in the event that there is a wedding, a funeral, and some other critical moments in their lives with their families in the country that they originally came from.

These cruel and shameless policies have thrown the lives of these people, most of them young, into chaos. They live in fear every day, fear to see if they will be removed, deported from

the only home that they have ever known, from the only country they really have ever known.

Living with this uncertainty is not right. It is unfair, and it is unjust. It is not the American way.

For 243 years, America has been a beacon of shining light for immigrants around the world. In this case, we made promises to protect Dreamers. If the Supreme Court rescinds these protections, I believe Congress must keep fighting. I will keep fighting.

I know these Dreamers. I have visited with them. They are in my schools, in the community colleges, and in the State universities.

□ 1745

And so I want them to know, I want you to know because these Dreamers reflect and represent what? The American Dream.

What is the American Dream? The American Dream is about immigrants past and immigrants present, and it is the embodiment of what Dreamers are a part of.

So I ask my colleagues to join with us this afternoon in standing up and speaking out for those Dreamers.

Mr. ESPAILLAT. Madam Speaker, I yield to my colleague from California (Mr. VARGAS).

Mr. VARGAS. Madam Speaker, I thank the gentleman from New York for yielding.

I rise today on behalf of hundreds of thousands of Dreamers.

Yesterday, the Supreme Court heard arguments over the future of Deferred Action for Childhood Arrivals, or, as you heard, DACA recipients. This decision will determine whether nearly 800,000 Dreamers will lose their legal protections to live and work in the United States.

The average DACA recipient came to the U.S. as a young child and has called our country their home for nearly 20 years. Denying their legal rights or rescinding the promise made to them 7 years ago would be immoral and wrong. They are students, teachers, first responders, entrepreneurs, and community organizers who make our country stronger and contribute to it every day.

Approximately 27,000 DACA recipients are currently employed as healthcare workers and support staff. Rescinding DACA would be a direct threat to the public health, as we heard from our colleague, Dr. RUIZ. We rely on these people. So, at this moment, it would be a disaster to not give them the legal status they need to remain in our country.

DACA recipients and their households hold a combined \$24.1 billion in spending power each year. In addition, DACA recipients boost Social Security and Medicare through payroll taxes.

Many DACA recipients have completed high school, entered 4-year colleges and universities, and graduated. College enrollment rates have dramatically increased for DACA-eligible individuals, and completion rates have skyrocketed.
