

Whereas the enactment of the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 (Public Law 110-293; 122 Stat. 2918), and the Comprehensive Tuberculosis Elimination Act of 2008 (Public Law 110-392; 122 Stat. 4195) provided a historic United States commitment to the global eradication of TB, including a commitment to treat 4,500,000 TB patients and 90,000 MDR-TB patients between 2009 and 2013 and to provide additional treatment through coordinated multilateral efforts;

Whereas USAID—

(A) provides technical assistance to 22 countries highly burdened by TB to build self-reliance and support the adoption of state-of-the-art TB-related technologies;

(B) supports the development of new diagnostic and treatment tools; and

(C) supports research to develop new vaccines and other new methods to combat TB;

Whereas, in 2018, USAID launched—

(A) a new business model entitled “Global Accelerator to End Tuberculosis” to accelerate progress and build self-reliance with respect to TB prevention and treatment; and

(B) a new mechanism to directly support local organizations in priority countries;

Whereas TB incidence in the countries that receive bilateral TB funding from the United States through USAID has decreased by nearly  $\frac{1}{4}$  since 2000;

Whereas, according to the Copenhagen Consensus Center, TB prevention programs return \$56 for each dollar invested, which is one of the highest returns on investment of any health intervention;

Whereas the Centers for Disease Control and Prevention, partnering with other entities of the United States and individual States and territories, directs the national TB elimination program, coordinates TB surveillance, technical assistance, and prevention activities, and helps to support the development of new diagnostic, treatment, and prevention tools to combat TB;

Whereas the National Institutes of Health, through its many institutes and centers, plays the leading role in basic and clinical research on the identification, treatment, and prevention of TB;

Whereas the Global Fund to Fight AIDS, Tuberculosis, and Malaria (commonly referred to as the “Global Fund”), to which the United States is a top financial donor, provides more than 65 percent of all international financing for TB programs;

Whereas, to date, Global Fund-supported programs have detected and treated more than 17,400,000 cases of TB; and

Whereas March 24, 2019, is World Tuberculosis Day, a day that commemorates the date in 1882 on which Dr. Robert Koch announced his discovery of *Mycobacterium tuberculosis*, the bacteria that causes TB: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals of World Tuberculosis Day to raise awareness about tuberculosis;

(2) commends the progress of tuberculosis elimination efforts by entities that include the United States Agency for International Development, the Centers for Disease Control and Prevention, the National Institutes of Health, the World Health Organization, and the Global Fund to Fight AIDS, Tuberculosis, and Malaria; and

(3) reaffirms the commitment to strengthen the United States leadership and effectiveness of the global response to tuberculosis with the goal of ending the tuberculosis epidemic.

## AMENDMENTS SUBMITTED AND PROPOSED

SA 200. Mr. TOOMEY (for himself and Mr. ALEXANDER) submitted an amendment intended to be proposed by him to the joint resolution H.J. Res. 46, relating to a national emergency declared by the President on February 15, 2019; which was ordered to lie on the table.

## TEXT OF AMENDMENTS

SA 200. Mr. TOOMEY (for himself and Mr. ALEXANDER) submitted an amendment intended to be proposed by him to the joint resolution H.J. Res. 46, relating to a national emergency declared by the President on February 15, 2019; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

### SEC. \_\_\_\_ FINDINGS.

Congress makes the following findings:

(1) Fentanyl and fentanyl analogues were responsible for more than 28,400 overdose deaths in the United States in 2017, according to the National Institute of Drug Abuse.

(2) According to the Department of Homeland Security, U.S. Customs and Border Protection has reported that fentanyl smuggling between ports of entry at the southern border of the United States more than doubled from fiscal year 2017 to fiscal year 2018.

(3) According to the Department of Homeland Security, in the past 5 years, U.S. Customs and Border Protection has seen a 620 percent increase in families—or those posing as families—apprehended at the border, with fiscal year 2018 being the highest on record for family apprehensions at the border.

(4) The journey to the southern border for women and children traveling from Central America is fraught with incredible danger, including increased risk of violence and sexual abuse from gangs and coyotes.

(5) The bipartisan Secure Fence Act of 2006 (Public Law 109-367; 120 Stat. 2638) was signed into law on October 26, 2006, and mandated that the Department of Homeland Security achieve and maintain operational control of the international land border, using physical infrastructure as well as other means, to ensure “the prevention of all unlawful entries into the United States, including entries by terrorists, other unlawful aliens, instruments of terrorism, narcotics, and other contraband”.

(6) Over the past 25 years, the United States Government has constructed 654 miles of physical barriers on the southern border.

(7) The Department of Homeland Security is only seeking to expand the physical barrier on the southern border in operationally necessary locations, not to build a physical barrier for all 1,954 miles of the southern border.

(8) U.S. Customs and Border Protection has identified 17 high priority locations on the southern border where there is a current operational need for physical barriers.

(9) On January 6, 2019, the President requested that Congress appropriate \$5,700,000,000 for the construction of approximately 234 miles of new physical barriers to fully fund the top 10 high priority locations identified by U.S. Customs and Border Protection.

(10) On February 15, 2019, the Consolidated Appropriations Act, 2019 (Public Law 116-6) was signed into law, providing the Department of Homeland Security with \$1,375,000,000 for “the construction of primary pedestrian fencing, including levee pedestrian fencing, in the Rio Grande Valley Sector”.

(11) On February 15, 2019, the President announced the Treasury Forfeiture Fund would provide to U.S. Customs and Border Protection \$601,000,000 for physical barriers along the southern border under the authority of section 9705 of title 31, United States Code, which established the Fund and allows the Secretary of the Treasury to provide monies from the Fund for use “in connection with the law enforcement activities of any Federal agency”.

(12) On February 15, 2019, the President announced that Department of Defense funds would be made available from the Department’s Drug Interdiction and Counter-Drug Activities account for physical barriers along the southern border under the authority of section 284 of title 10, United States Code, which authorizes the Secretary of Defense to “provide support for the counterdrug activities or activities to counter transnational organized crime of any other department or agency of the Federal Government”, including for the “[c]onstruction of roads and fences and installation of lighting to block drug smuggling corridors across international boundaries of the United States”.

(13) Section 8005 of division A of the Department of Defense and Labor, Health and Human Services, and Education Appropriations Act, 2019 (Public Law 115-245) permits the Secretary of Defense to transfer up to \$4,000,000,000 of funds to other accounts, including the Department of Defense’s Drug Interdiction and Counter-Drug Activities account, provided that “such action is necessary in the national interest”.

(14) The sum of the amounts described in paragraphs (10) through (13) is \$5,976,000,000, an amount in excess of the \$5,700,000,000 sought by the President for 234 miles of physical barriers along the southern border in the request described in paragraph (9).

(15) On June 27, 2013, the Senate agreed to the Border Security, Economic Opportunity, and Immigration Modernization Act (S. 744, 113th Congress), which was introduced by Senator Charles E. Schumer (Democrat of New York), and included the following congressional finding: “As a Nation, we have the right and responsibility to make our borders safe, to establish clear and just rules for seeking citizenship, to control the flow of legal immigration, and to eliminate illegal immigration, which in some cases has become a threat to our national security.”.

## NOTICE OF INTENT TO OBJECT TO PROCEEDING

I, Senator MIKE BRAUN, intend to object to proceeding to H.R. 269, a bill to reauthorize certain programs under the Public Health Service Act and the Federal Food, Drug, and Cosmetic Act with respect to public health security and all-hazards preparedness and response, to clarify the regulatory framework with respect to certain non-prescription drugs that are marketed without an approved drug application, and for other purposes, dated March 14, 2019 for the following reasons as stated in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR ADJOURNMENT

Mr. MCCONNELL. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order, following the remarks of Senator SULLIVAN.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Alaska is recognized.

TRIBUTE TO PETER KAISER

Mr. SULLIVAN. Mr. President, it is that time of day on the Senate floor when I get to recognize someone special from my State, someone we refer to as the Alaskan of the Week, someone who makes our great State of Alaska, in my opinion, the best and most unique State in the country. I know it is the pages' favorite speech of the week as well. I don't think you are going to be disappointed with this one, the young men and women here working as pages.

Now, some may take issue with the claim of the most unique State in the Union, but consider this: Right now we have teams of mushers and their dogs that are barreling 900 miles across the State of Alaska toward the city of Nome in some of the harshest conditions and some of the most difficult and rugged terrain on the planet Earth. The Iditarod—the "Last Great Race on Earth"—is still under way in Alaska. Right now, mushers, literally as we speak, are rolling in to Nome today, tomorrow, and in the next few days.

We salute all of the mushers and their dogs, the athletes—these dogs are great athletes—for their hard work. We are particularly proud this year. For the first time in history, three women—Page Drobyn, Jessie Royer, and Aliy Zirkle—are among the top ten finishers in the Iditarod.

Like all races, there is a winner, and our Alaskan of the Week—we see a great picture of him and his dogs here—is the winner. After 9 days, 12 hours, 39 minutes, and 6 seconds on the trail, at 3:39 a.m., yesterday morning, in Nome, AK, Bethel resident Peter Kaiser crossed the finish line in Nome to win this year's Iditarod.

This win is also historic for a number of reasons. Pete is the first person from Bethel, AK, to win the race. He is the fifth Alaska Native to win and the first Alaskan of Yupik descent to take the title.

A crowd was there waiting for him. It seemed like half the town of Bethel was there waiting for him. As he crossed the finish line, they were chanting: Way to go, Pete. Way to go, Pete. Alaska Native dancers performed. There were hugs and tears of joy all around. His wife Bethany was there. Their two children, Ari Joseph and daughter Aylee, were also there.

This is also exciting because of the race's historic roots. Before I talk more about Pete, for a little bit, let me take you back to a remarkable piece of history that happened in Nome, AK, in 1925, when diphtheria serum was desperately needed in Nome for several very sick children.

It was 1925, in Alaska, and the nearest batch of serum was 1,000 miles away in Anchorage. There weren't—and, unfortunately, there still aren't—any
