

TRIBUTE TO DEBRA HARTLINE

• Mr. RUBIO. Mr. President, today I recognize Debra Hartline, the Manatee County Teacher of the Year from Braden River High School in Bradenton, FL.

Debra works closely with her students who need to improve their reading comprehension scores in order to meet the requirement for graduation. Each year, more than 96 percent of her students reach that goal. Her students note she spends many hours of work regularly re-instilling their confidence in themselves and preparing them before they take the reading test.

Debra's proudest moments are when she watches her students walk across the stage at their graduation. Many of them thought they would never graduate and credit Debra's reading methods with helping them improve their reading comprehension.

Debra has taught for 13 years, with the last 8 years at Braden River High School as a reading and English teacher. She previously managed a law in Cleveland, OH, when she noticed her daughter was struggling with reading comprehension. After she moved to Florida in 2000, she began to tutor at her home and later became a volunteer teacher at Braden River Elementary School.

I extend my sincere thanks and appreciation to Debra for her dedication in helping students achieve the important steps of graduating from high school. I look forward to hearing of her continued success in the coming years.●

TRIBUTE TO LAURA ADAMS

• Mr. WHITEHOUSE. Mr. President, in 2002, as Rhode Island's attorney general, I launched an organization aimed at helping Rhode Island's healthcare system reduce waste and improve care for our patients. The first hire at the new Rhode Island Quality Institute was Laura Adams. Convincing her to join us as president and CEO was our extremely good fortune. As Laura steps aside from those duties, I come to the floor today to recognize her many contributions to our healthcare system, in Rhode Island and nationwide, and to wish her well in her next adventure.

Lowering costs and improving quality in our healthcare system is, to say the least, a vital purpose. The Rhode Island Quality Institute was established to tackle some of the main drivers of America's healthcare problems, to improve health and advance the quality and value of care in Rhode Island. Under the leadership of Laura Adams, that mission achieved national recognition. As Laura prepares to leave, the institute's innovation and expertise is helping improve care around the country.

Laura got off to a very strong start. In 2002, the RIQI collaborated with Surescripts to pioneer a first in the Nation, end-to-end electronic prescribing system. Today, Surescripts has scaled up to every state in the country, with virtually every prescriber using it. In 2007, Child Magazine pointed to the State's uptake in e-prescribing as a key reason for ranking Rhode Island first overall on its list of the "Safest Places in the Nation to Raise a Child."

Laura then turned to another big challenge for our healthcare system:

hospital-acquired infections. In 2005, with Laura as Principal Investigator, RIQI launched the Rhode Island Intensive Care Unit Collaborative to identify ways to reduce the incidence of infections among ICU patients. By 2012, Rhode Island ICUs had shown significant improvement on several key types of infections.

In 2004, Laura and RIQI joined the Rhode Department of Health to apply for Federal funding to build an ambitious, innovative statewide health information exchange. RIQI took the lead building and maintaining the resulting system, CurrentCare. It took tremendous technical expertise to confront the complex governance, business, privacy, and security challenges involved. Laura, with the assistance of a talented lawyer, Linn Freedman, proved more than equal to the task. A 2017 analysis shows that CurrentCare returns millions of dollars in savings to our healthcare system.

Over the course of the development of CurrentCare, RIQI became the only organization in the country to win all three major health information technology grants under the American Recovery and Reinvestment Act, bringing in a total of \$27 million to Rhode Island. Federal agencies like the Centers for Medicare and Medicaid Services and Office of the National Coordinator for Health Information Technology awarded RIQI substantial Federal grants to tackle difficult specialized challenges. RIQI has been recognized by government and healthcare leaders, chambers of commerce, and leading business publications for its numerous innovations. It has also been consistently recognized as one of the best places to work in Rhode Island.

In the process, Laura has won national acclaim. This year, a leading national hospital publication placed her on their list of "Female Health IT Leaders to Know" for her "significant contributions to health IT advancements, leading large teams, initiatives and companies focused on improving patient care." She has delivered hundreds of keynotes and presentations in 48 States and a dozen foreign countries. She has been named a cochair of the National Academy of Medicine Health Data Trust Initiative Steering Committee, and she has been appointed to numerous professional and corporate boards.

Laura Adams has poured her considerable talent, experience, and dedication into making the Rhode Island Quality Institute a national leader in health innovation and transformation. I thank her for years of service to Rhode Island and to our healthcare system nationwide.●
