(5) a guest house near the National Zoo of Sri Lanka; and

(6) a housing complex in Dematagoda, Sri Lanka;

Whereas more than 250 people were killed and more than 500 people were injured in the attacks;

Whereas the attackers acted in the name of National Thowheeth Jama'ath (referred to in this preamble as "NTJ"), a local Islamist group that had previously attacked Buddhist monks and statues;

Whereas NTJ has ties to global Islamist terrorist organizations and subscribes to an intolerant Wahhabi ideology that condones violence against non-Muslims and fellow Muslims; and

Whereas the Wall Street Journal has reported that, according to SITE, a terrorist-monitoring firm, on Tuesday, April 23, 2019, the Islamic State released a video claiming responsibility for the attacks, stating that "the executors of the attack that targeted citizens of coalition states and Christians in Sri Lanka two days ago were Islamic State fighters": Now, therefore, be it

Resolved, That the Senate—

(1) condemns the April 21, 2019, terrorist attacks in Sri Lanka as—

(4) calls on Sri Lanka and all governments—

(A) to protect the freedom of religion, at home and abroad; and

(B) to partner with the United States in advancing security and freedom.

SENATE RESOLUTION 177—EX-PRESSING SUPPORT FOR THE DESIGNATION OF APRIL 30, 2019, AS "NATIONAL ADULT HEPATITIS B VACCINATION AWARENESS DAY"

Ms. HIRONO (for herself and Mr. KING) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 177

Whereas as many as 2,200,000 individuals in the United States are chronically infected with hepatitis B, and as many as % of those individuals are unaware of the infection;

Whereas hepatitis B is a viral infection of the liver that is transmitted via infected blood and other bodily fluids, including through—

(1) mother-to-child transmission; and

(2) injection drug use;

Whereas individuals with chronic diseases, such as diabetes, HIV, hepatitis C, and chronic liver disease, and individuals on hemodialysis, are at an increased risk for hepatitis B co-infection;

Whereas there is no cure for hepatitis B, and individuals with chronic hepatitis B require lifelong medical care;

Whereas chronic hepatitis B is a common cause of liver cancer;

Whereas 1 in every 4 individuals with unmanaged chronic hepatitis B will develop liver cancer, cirrhosis, or liver failure, with liver cancer having a 5-year survival rate of only 18 percent in the United States;

Whereas safe and highly effective vaccines to protect against hepatitis B are available;

Whereas, in accordance with universal childhood hepatitis B vaccination recommendations in the United States, infants and children in the United States have routinely been vaccinated against hepatitis B since the 1990s;

Whereas the hepatitis B vaccine, which is 95 percent effective and was the first anticancer vaccine to be developed, is projected to prevent 310,000,000 cases of hepatitis B worldwide from 1990 to 2020;

Whereas only 25 percent of adults in the United States are vaccinated against hepatitis B;

Whereas the number of reported acute hepatitis B cases increased by 20 percent nationwide in 2015;

Whereas, as a result of the opioid epidemic, there have been significant regional increases in acute hepatitis B cases in the United States, including—

(1) a reported 729 percent increase from 2015 to 2017 in Maine;

(2) a reported 114 percent increase from 2009 to 2013 in Kentucky, West Virginia, and Tennessee;

(3) a reported 78 percent increase in 2017 in southeastern Massachusetts; and

(4) a reported 62 percent increase from 2012 to 2016 in North Carolina;

Whereas, according to the Centers for Disease Control and Prevention, hepatitis B is 50 to 100 times more infectious than HIV, and 5 to 10 times more infectious than hepatitis C; and

Whereas there are significant opportunities, particularly within the setting of the opioid epidemic, to prevent new hepatitis B infections, and thereby reduce the incidence of liver cancer and cirrhosis, through efforts to—

(1) increase adult hepatitis B vaccination; and

Resolved, That the Senate—

SENATE RESOLUTION 178—RECOGNIZING AND SUPPORTING THE GOALS AND IDEALS OF NATIONAL SEXUAL ASSAULT AWARENESS AND PREVENTION MONTH

Mrs. FEINSTEIN (for herself, Ms. ERNST, and Mr. GRASSLEY) submitted the following resolution; which was re-

ferred to the Committee on the Judiciary:

S. RES. 178

Whereas the Senate is committed to the awareness, prevention, and deterrence of sexual violence affecting individuals in the United States;

Whereas, according to the Department of Justice and the Department of Health and Human Services, an estimated 399,861 individuals, including victims under 18 years of age, in the United States experienced sexual violence during 2017;

Whereas, according to the National Crime Victimization Survey, between 2007 and 2017, approximately—

(1) 3,018,600 women were victims of rape and sexual assault; and

(2) 453,200 men were victims of rape and sexual assault;

Whereas, according to the 2017 Child Maltreatment Report of the Department of Health and Human Services, in 2017, child protective services agencies substantiated 58,114 cases of sexual abuse of children under 18 years of age;

Whereas, in fiscal year 2018, the Department of Justice reported 9,100 State and local arrests of individuals charged with on-line sexual victimization of children under 18 years of age;

Whereas, according to the Rape, Abuse & Incest National Network (commonly known as "RAINN"), an individual is sexually assaulted every 92 seconds in the United States, but for every 1,000 rapes committed in the United States, on average only—

(1) 330 rapes are reported to law enforcement agencies;

(2) 59 reported rape cases lead to an arrest;

(3) 10 rape cases are referred for prosecution;

(4) 6 rape cases lead to a felony conviction; and

(5) 5 convicted rapists are sentenced to some form of incarceration;

Whereas, according to the National Crime Victimization Survey, between 2013 and 2017, an average of only 33 percent of rapes or sexual assaults in the United States were reported to law enforcement agencies;

Whereas studies have suggested that the rate at which American Indians and Alaska Natives experience sexual violence is significantly higher than for other populations in the United States;

Whereas, according to the Centers for Disease Control and Prevention, nearly 1 in 5 women, or 18.3 percent, and 1 in 71 men, or 1.4 percent, surveyed in the United States in 2010 experienced a rape or attempted rape at some time in their lives;

Whereas, according to the Centers for Disease Control and Prevention, more than ½ of all female rape victims reported being raped by an intimate partner;

Whereas sexual violence is a burden for many individuals who serve in the Armed Forces, and the Department of Defense estimates that approximately 14,900 members of the Armed Forces experienced some form of sexual assault during 2016;

Whereas sexual assault does not discriminate on any basis and can affect any individual in the United States;

Whereas sexual violence may take many forms, including acquaintance, stranger, spousal, and gang rape, incest, child sexual abuse, child sexual exploitation, elder sexual abuse, sexual abuse and exploitation of disabled persons, commercial sex trafficking, sexual harassment, and stalking;

Whereas, according to the National Alliance to End Sexual Violence, in addition to immediate physical and emotional costs, sexual assault can have numerous adverse

consequences for the victim, which may include post-traumatic stress disorder, substance abuse, major depression, homelessness, eating disorders, and suicide;

Whereas many sexual assaults are not reported to law enforcement agencies, and many States have restrictive criminal statutes of limitations, which enable many rapists to evade punishment for their crimes;

Whereas sexual assault survivors suffer emotional complications long after their physical scars have healed;

Whereas advances in deoxyribonucleic acid (commonly known as “DNA”) technology have enabled law enforcement agencies to identify and prosecute the perpetrators in tens of thousands of previously unsolved sexual assault cases;

Whereas incarceration of sexual assault perpetrators can prevent perpetrators from committing additional crimes;

Whereas national, State, territorial, and Tribal coalitions, community-based rape crisis centers, and other organizations across the United States are committed to—

(1) increasing public awareness of sexual violence and the prevalence of sexual violence; and

(2) eliminating sexual violence through prevention and education;

Whereas important partnerships have been formed among criminal and juvenile justice agencies, health professionals, public health workers, educators, first responders, and victim service providers;

Whereas thousands of volunteers and staff at rape crisis centers, State coalitions against sexual assault, and nonprofit organizations across the United States play an important role in making crisis hotlines and other services available to survivors of sexual assault;

Whereas free, confidential help is available to all victims and survivors of sexual assault through—

(1) the National Sexual Assault Hotline—

(A) by telephone at 800-656-HOPE; and

(B) online at <https://hotline.rainn.org>; and

(2) more than 1,000 sexual assault service providers across the United States;

Whereas the victim service programs of RAINN, including the National Sexual Assault Hotline—

(1) in 2018, helped 267,621 survivors of sexual assault and their loved ones, which represented the greatest number of people assisted since the founding of the hotline in 1994; and

(2) continue to receive a record number of requests for support in 2019;

Whereas the Department of Defense provides the Safe Helpline hotline, Safe HelpRoom online chat service, and Safe Helpline mobile application, each of which offer support and help to members of the Department of Defense community—

(1) by telephone at 877-995-5247; and

(2) online at <https://safehelpline.org>;

Whereas individual and collective efforts reflect the dream of the people of the United States—

(1) for individuals and organizations to actively work to prevent all forms of sexual violence; and

(2) for no victim of sexual assault to be unserved or feel that there is no path to justice; and

Whereas April 2019 is recognized as “National Sexual Assault Awareness and Prevention Month”: Now, therefore, be it

Resolved, That—

(1) it is the sense of the Senate that—

(A) National Sexual Assault Awareness and Prevention Month provides a special opportunity to—
