Whereas, The ALS Association reports that on average, patients diagnosed with ALS only survive two to five years from the time of diagnosis; and

Whereas, ALS has no known cause, prevention or cure; and

Whereas, "Amyotrophic Lateral Sclerosis Awareness Month" increases the public's awareness of ALS patients' circumstances and acknowledges the negative impact this disease has on ALS patients and their families and recognizes the research being done to eradicate ALS; therefore be it

Resolved, That the Senate of the Commonwealth of Pennsylvania designate the month of May 2019 as "Amyotrophic Lateral Sclerosis Awareness Month" in Pennsylvania; and be it further

Resolved, That a copy of this resolution be transmitted to the President of the United States, the presiding officers of each house of Congress and to each member of Congress from Pennsylvania.

POM-76. A joint resolution adopted by the Legislature of the State of Tennessee urging the President of the United States to designate a state funeral for the last surviving Medal of Honor recipient from World War II when such recipient passes away; to the Committee on Homeland Security and Governmental Affairs.

SENATE JOINT RESOLUTION NO. 96

Whereas, World War II, the most widespread war in history, lasted from 1939 until 1945; and

Whereas, the United States entered the war in 1941, following an attack on Pearl Harbor by Japanese fighter planes; and

Whereas, over sixteen million Americans served their country and the Allied powers over the course of the war; and

Whereas, the men and women who served our country in World War II have been collectively called the "greatest generation" for their selfless sacrifice; and

Whereas, the Medal of Honor is the highest military decoration that is awarded by the United States government; and

Whereas, the Medal of Honor is presented by the President of the United States, in the name of Congress; and

Whereas, the Medal of Honor is only conferred upon members of the United States Armed Forces who distinguished themselves through conspicuous gallantry and intrepidity at the risk of life above and beyond the call of duty while engaged in action against an enemy of the United States, while engaged in military operations involving conflict with an opposing foreign force, or while serving with friendly forces engaged in an armed conflict against an opposing armed force in which the United States was not a belligerent party; and

Whereas, more than 3,400 Medals of Honor have been awarded to our nation's bravest soldiers, sailors, airmen, marines, and coast guardsmen since the creation of the award in 1861; and

Whereas, the Medal of Honor was awarded to 353 Americans during World War II; and

Whereas, only four of those 353 Americans are still alive today; and

Whereas, each of these courageous servicemen, Charles H. Coolidge of Tennessee, Francis S. Currey of New York, Robert D. Maxwell of Oregon, and Hershel Woodrow Williams of West Virginia, risked his life while serving his country with conspicuous gallantry and intrepidity and therefore deserves the gratitude of the American people; and

Whereas, the President of the United States has the sole authority to designate a state funeral; and

Whereas, historically, the President of the United States has designated state funerals for former presidents, generals, and other extraordinary Americans; and

Whereas, our nation is currently divided and yearns for a unifying national event; and

Whereas, designating a state funeral when the last surviving World War II Medal of Honor recipient dies would be a wonderful way for the American people to unite and honor all sixteen million soldiers, sailors, airmen, marines, and coast guardsmen who served in our Armed Forces from 1941 to 1945: Now, therefore, be it

Resolved by the Senate of the One Hundred Eleventh General Assembly of the State of Tennessee, the House of Representatives concurring, That this General Assembly urges the President of the United States to designate a state funeral for the last surviving Medal of Honor recipient from World War II when such recipient passes away; and be it further

Resolved, That the Chief Clerk of the Senate is instructed to transmit a certified copy of this resolution to the President of the

United States, the Vice President of the United States, the Speaker of the United States House of Representatives, the President Pro Tempore of the United States Senate, and all members of the Tennessee congressional delegation.

POM-77. A concurrent resolution adopted by the Legislative Assembly of the Commonwealth of Puerto Rico requesting the United States Congress to take action to appropriate funds and resources as necessary to dredge the Dos Bocas, Loco, Loiza (Carraizo), and Lucchetti reservoirs, which were adversely affected by excessive sedimentation in the wake of hurricanes Irma and Maria in Puerto Rico; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 60

It is a known fact that Puerto Rico has no natural lakes. Hence, in the early 20th century, it was necessary to build the first reservoir or artificial lake, so as to address fundamental needs such as water storage for residential or industrial consumption, hydro-power generation, irrigation of agricultural lands, and flooding control and mitigation, among other important uses. Today, we have thirty-six (36) main reservoirs formed by the dams built in the rivers located in the mountain region in the center of the Island, and two (2) outside of the main riverbeds in the eastern region.

It is true that reservoirs are Puerto Rico's most important source of water, however, issues such as sedimentation, the lack of reforestation plans, and the accelerated erosion caused by urban development, among other aspects, have seriously affected the storage capacity of these bodies of water.

In addition to the foregoing, after hurricanes Irma and Maria made landfall on September 2017, many of our lakes were severely affected by a sudden accumulation of sediment. The path followed by hurricane Irma—a category-5 hurricane—brought it really close to the island, and two weeks later, hurricane Maria made landfall on the island. Hurricane Maria has been classified as one of the most powerful natural disasters to ever affect Puerto Rico in recent history. The latter left a lot of devastation, flooding, torrential rain, and severe damage across the island.

The catastrophic effects of these weather events had a significant impact on four (4) of our most important reservoirs. Out of the lakes that supply our drinking water, Loiza (Carraizo) is one of the most affected by sedimentation. Said sedimentation has reduced the depth of the lake thus impairing its capacity to collect water, despite being fed primarily by the Río Grande de Loiza, which is the largest river on the island. The storage capacity of the Loiza reservoir (Carraizo) has been nearly halved as a result of sedimentation.

Sedimentation is also the main problem affecting the Dos Bocas, Lucchetti, and Loco Lakes, all of which are at critical levels, threatening their storage capacity and water quality, because water turbidity increases as reservoir levels decrease. The rapid sediment accumulation has reduced the useful life of the most important reservoirs by sixty (60) percent. Therefore, the United States Congress failure to take immediate action and appropriate the funds needed to dredge the Dos Bocas, Loco, Loiza (Carraizo), and Lucchetti reservoirs would hinder the hydro-power generation and drinking water supply for the thousands U.S. citizens who reside on the Island. The critical levels of these four (4) reservoirs calls for the urgent dredging and restoration of these bodies of water, so that they may serve the purposes for which they were built, as well as to mitigate and
