#### ADDITIONAL STATEMENTS

#### 25TH ANNIVERSARY OF PROJECT SHARE

• Mr. KING. Madam President, today I wish to recognize the 25th anniversary of the Salmon Habitat and River Enhancement Program, known as Project SHARE. SHARE has spent the last quarter of a century focused on river habitat restoration in Downeast Maine, specifically for Atlantic salmon. Thanks to SHARE and its many partners, hundreds of restoration projects have been completed, improving Maine's waterways for marine life.

Founded in 1994, SHARE was built on the recognition that, without direct action, Atlantic salmon would go extinct from habitat destruction and overfishing. SHARE's work has focused on improving Maine's streams and rivers, a crucial habitat for salmon, as they require freshwater to breed. The organization uses a diverse range of methods during their projects, from the addition of clamshells to the stream or river in order to balance pH levels, to adding open bottom arch culverts and bridges to more effectively spread nutrients and ease passage in the waterways. While the goal of these projects is to help Atlantic salmon, the rest of Maine's marine life benefit from the improved living conditions in our fresh-water streams and rivers.

A hallmark of SHARE's success has been its emphasis on building partnerships in order to achieve its goals. SHARE has valued these partners since the beginning, when a wide range of State agencies, land owners, research and conservation groups, and more signed on as charter members. Their focus on cooperation between public

and private entities has clearly paid off, as they have completed more than 250 restoration projects in just the last 15 years. A key part of these partnerships is the work SHARE does with Maine's students. Including students from local schools and universities in their restoration projects has allowed SHARE to pass on the methods used to improve the safety and habitability of our waterways and the importance of Atlantic salmon to Maine and the rest of the country.

I would like to thank Project SHARE for their 25 years of commitment to improving Maine's waterways for Atlantic salmon and other marine life. Thanks to their hard work, 2,800 habitat units have been improved, with many more projects planned in the years to come. SHARE's dedication to protecting and restoring outdoor habitats ensures that Maine's wildlife will continue to thrive. Congratulations Project SHARE on reaching this impressive milestone, I look forward to seeing your work over the next 25 years.●
