By Mr. WYDEN (for himself and Mr. MERKLEY):

S. 1997. A bill to authorize transitional sheltering assistance for individuals who live in areas with unhealthy air quality caused by wildfires, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. WYDEN. Mr. President, today I am introducing the Wildfire Smoke Relief Act of 2019 with the ultimate goal of providing Federal emergency assistance to at risk individuals in areas with unhealthy air quality caused by wildfire smoke. By actively preparing for the effects of wildfire smoke inhalation, this bill attempts to ensure the long term health and security of all of those affected by wildfires.

In 2018, over 2,000 fires burned nearly 900,000 acres in the State of Oregon. The result of these fires was weeks and weeks of wildfire smoke. In Southern Oregon alone, there were 39 days with unhealthy air quality directly caused by smoke from wildfires. People need

proper air filtration equipment, and in extreme cases, to seek refuge in a smokeless area. Communities are being choked by wildfire smoke, and each year wildfires are becoming more destructive than the previous.

Vulnerable populations like children, the elderly, pregnant women, and low-income families are disproportionately affected by wildfire smoke. Additionally, those with chronic heart or lung conditions are at a similarly heightened risk. Symptoms from smoke inhalation can develop within a relatively short time of exposure, and according to research, is akin to smoking several packs of cigarettes per day. Symptoms vary and can include poor development of lungs in children, shortness of breath, coughing, chest pain, nausea, reduced lung capacity, bronchitis, headaches, and visual impairment.

The bill would authorize the Federal Emergency Management Agency (FEMA) to provide assistance to at risk individuals by providing smoke inhalation prevention equipment and low-cost home improvements when air quality causes unhealthy air quality levels or three consecutive days. Smoke inhalation prevention equipment would include an air filter, a face mask or respirator, a portable air filtration unit, and other low cost equipment used to keep smoke out of a house.

In severe cases, the Wildfire Smoke Relief Act would authorize FEMA to provide transitional sheltering assistance for at risk individuals. In these extreme cases FEMA can arrange alternate, cost-efficient housing arranged for at-risk people to escape the smoke.

Mr. President, I am pleased to be joined by Senator JEFF MERKLEY in introducing the bill today and look forward to working with my colleagues toward enactment of the Wildfire Smoke Relief Act in the 116th Congress.
