STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. YOUNG:

S. 2063. A bill to amend title XI of the Social Security Act with respect to organ procurement organizations; to the Committee on Finance.

Mr. YOUNG. Mr. President, I rise today to discuss an issue that is very important to me and to the 1,300 Hoosiers currently in need of an organ transplant. That issue is the lack of organs for patients in need and our broken organ donation system.

For more than 30 years, our Nation's organ donation system has operated in complete darkness. Groups known as organ procurement organizations, or OPOs, are responsible for getting organs from the donors to the patients who actually need them, but questions surround the effectiveness, transparency, and accountability of these organizations.

OPOs are the main link between donor hospitals and organ recipients, and their performance can be a limiting factor for all stakeholders in the organ donation system.

In the last 20 years, no OPO has been decertified despite serious issues of underperformance. For example, CMS recently recertified the New York City OPO despite persistent underperformance for nearly a decade. This problem exists throughout the country.

Currently, OPO performance is measured by data that is self-reported, unaudited, and fraught with errors. Many of these errors have been documented by Lenny Bernstein and Kimberly Kindy at the Washington Post.

That is why today I introduced legislation that would require organ procurement organizations to be held to metrics that are objective, verifiable, and not subject to self-interpretation. This way, there can be meaningful transparency, evaluation, and accountability. Updating these metrics will also enable geographic-level donation rates to be evaluated and improved. This is desperately needed for the more than 113,000 Americans currently waiting for a lifesaving transplant. The legislation I introduced today is supported by the American Society of Nephrology, Dialysis Patient Citizens, and the nonprofit group ORGANIZE. Additionally, in April of this year, I wrote to CMS Administrator Seema Verma urging CMS to update OPO metrics to be objective and verifiable.

I am hopeful that we will soon see action from the White House and the Department of Health and Human Services. You see, this issue is very per-

sonal to me. My friend Dave "Gunny" McFarland from Jeffersonville, IN, died because his heart transplant never came. We served together in the U.S. Marine Corps, and over the years, I have gotten to know his widow, Jennifer McFarland Kern. Jen has made it her mission to raise awareness about the organ transplant process and to help prevent others from facing a similar situation.

Because the system is so complex, most people don't know how it works or if patients are actually being protected. It is time to change that. Today's legislation is the first in a series of bills I am working on to reform our organ donation system once and for all and help save precious lives. I will not stop until we increase the availability of organs for patients in need.

Semper fidelis.
