NOMINATION OF JAMES BYRNE

Mr. ISAKSON. Madam President, we have a second to certify our growth in the VA by nominating James Byrne and approving his appointment. We have all worked hard to see that the VA is responsive. We get good news in the papers, not bad news. We are helping our veterans get back to work. The VA is working. We have some problems, but we have a lot fewer than we used to have. A lot of that is because of James Byrne. He has been working already, and we need to make him permanent. Please help us to confirm James Byrne.

I yield to the Senator from Montana, Mr. TESTER.

Mr. TESTER. Madam President, I thank the chairman of the Committee on Veterans' Affairs for his good work.

Jim Byrne is the right man for the job. We passed the VA MISSION Act that needs to be implemented. I know Mr. Byrne has ruffled feathers among some here. In the end, I think he will do the right thing and that we can hold him accountable. It is critically important we get these folks confirmed so we can hold them accountable and get them in front of our committee. I would urge a "yea" vote on Jim Byrne.

Mr. ISAKSON. I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

S. 1689

Mr. BOOKER. Madam President, I rise to speak today on S. 1689, which passed last night.

Yesterday, this body unanimously voted to pass my legislation that could give States greater flexibility in how they use Federal funding for water projects. This bill is a tool to help communities in New Jersey and other States remove lead from their drinking water.

We have a national crisis. It is a crisis we are seeing all over the country.

I first wrote this legislation after a study was released last year that found lead leaching into the drinking water of my home city, Newark, NJ. Since then, I have been trying to get our State the Federal resources it needs to upgrade our aging water infrastructure.

After it wasn't included in last year's end-of-the-year spending bill, I introduced it as a stand-alone bill and pushed its passage through the Senate Environment and Public Works Committee, with bipartisan support, earlier this summer.

While the bill has been waiting to pass here in the Senate, the residents of my city, my neighbors, my family, and others have had to deal with additional concerns of exposure to lead in our drinking water.

Local, State, and Federal officials have been working almost literally around the clock to bring residents answers they deserve, answers they demand. I have repeatedly pushed the Federal Government, and the EPA in particular, to provide more resources to Newark in every way I can. I have been making calls and writing letters, hosting meetings. When I spoke with Administrator Wheeler and then personally met with EPA in Newark, I reminded them of our shared responsibility in bringing safe, clean drinking water to residents. This is not just a national emergency; this is an urgency.

We are waiting for more sampling results right now to better understand how to address the situation in Newark as quickly as possible. This legislation will allow Newark, NJ, and all of New Jersev to have access to upward of \$100 million in Federal funds for pressing drinking water projects.

For the last month, thousands of residents haven't been able to drink the city's water. As I was handing out bottled water to my neighbors, I heard how significantly this was affecting the daily routines of my neighbors and friends and undermining the well-being of my community, of my city.

Again, I say this is a national urgency, a national emergency, because the residents of my city are not alone. This crisis is affecting communities all over the country. In fact, as Reuters
