STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED (for himself, Mr. ENZI, and Ms. MCSALLY):

S. 2997. A bill to revise and extend health workforce programs under title VII of the Public Health Service Act; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, I am pleased to be introducing the Title VII Health Care Workforce Act of 2019 with Senator ENZI. This critical legislation would reauthorize funding for the Title VII health professions programs to help strengthen the distribution, quality, and diversity of the health professions workforce so it is better prepared to meet the Nation's evolving and emerging health care needs.

The Title VII health professions programs have a longstanding history of increasing the supply of primary care professionals, expanding access to care in rural and urban underserved areas, and developing a workforce that reflects the nation's diversity and the needs of patients. At a time when the Country is facing health provider shortages, it is critical that we continue to support the programs that advance our health care workforce, such as: scholarships for disadvantaged students, public health and preventive medicine, geriatrics training, area health education centers, oral health training, and primary care medicine.

These education and training programs guide current and aspiring health professionals to high-demand careers in areas of greatest need, and this legislation will take an important step in ensuring that these programs can continue to serve students and patients for years to come. I look forward to working with stakeholders supporting these efforts, including the American Association of Medical Colleges, as well as my colleague, Senator ENZI, to pass the Title VII Health Care Workforce Act of 2019, in addition to the bipartisan Investment in Tomorrow's Pediatric Health Care Workforce Act I introduced with Senator CASSIDY, as these bills proceed through the legislative process.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 448—DESIGNATING DECEMBER 3, 2019, AS “NATIONAL PHENYLKETONURIA AWARENESS DAY”

Mr. ISAKSON (for himself, Ms. BALDWIN, and Ms. WARREN) submitted the following resolution; which was considered and agreed to:

S. RES. 448

Whereas phenylketonuria (in this preamble referred to as “PKU”) is a rare, inherited metabolic disorder that is characterized by the inability of the body to process the es-

sential amino acid phenylalanine, and which causes intellectual disability and other neurological problems, such as memory loss and mood disorders, when treatment is not started within the first few weeks of life;

Whereas PKU is also referred to as Phenylalanine Hydroxylase Deficiency;

Whereas newborn screening for PKU was initiated in the United States in 1963 and was recommended for inclusion in State newborn screening programs under the Newborn Screening Saves Lives Act of 2007 (Public Law 110-204);

Whereas approximately 1 out of every 15,000 infants in the United States is born with PKU;

Whereas PKU is treated with medical foods;

Whereas the 2012 Phenylketonuria Scientific Review Conference affirmed the recommendation of lifelong dietary treatment for PKU made by the National Institutes of Health Consensus Development Conference Statement in 2000;

Whereas, in 2014, the American College of Medical Genetics and Genomics and Genetic Metabolic Dietitians International published medical and dietary guidelines on the optimal treatment of PKU;

Whereas medical foods are medically necessary for children and adults living with PKU;

Whereas adults with PKU who discontinue treatment are at risk for serious medical issues, such as depression, impulse control disorder, phobias, tremors, and pareses;

Whereas women with PKU must maintain strict metabolic control before and during pregnancy to prevent fetal damage;

Whereas children born from untreated mothers with PKU may have a condition known as “maternal phenylketonuria syndrome”, which can cause small brains, intellectual disabilities, birth defects of the heart, and low birth weights;

Whereas, although there is no cure for PKU, treatment involving medical foods, medications, and restriction of phenylalanine intake can prevent progressive, irreversible brain damage;

Whereas access to health insurance coverage for medical foods varies across the United States and the long-term costs associated with caring for untreated children and adults with PKU far exceed the cost of providing medical foods treatment;

Whereas access to medical foods can prevent detrimental effects on individuals with PKU, their families, and society;

Whereas scientists and researchers are hopeful that breakthroughs in PKU research will be forthcoming;

Whereas researchers across the United States are conducting important projects involving PKU; and

Whereas the Senate is an institution that can raise awareness of PKU among the general public and the medical community: Now, therefore, be it

Resolved, That the Senate—

(1) designates December 3, 2019, as “National Phenylketonuria Awareness Day”;

(2) encourages all people in the United States to become more informed about phenylketonuria and the role of medical foods in treating phenylketonuria; and

(3) respectfully requests that the Secretary of the Senate transmit an enrolled copy of this resolution to the National PKU Alliance, a nonprofit organization dedicated to improving the lives of individuals with phenylketonuria.
