

act. Study after study has shown that as more Americans see the direct threats from climate change in their own communities and in the lives of their fellow citizens, they are becoming increasingly worried. It is time for us to start dealing with reality and to address their concerns.

I will keep working to address climate change and to achieve a cleaner environment and stronger energy future that will help our citizens, our economy, and our businesses thrive. I urge my colleagues to join us in those efforts.

Again, I thank Senator WHITEHOUSE for being a leader in those efforts.

Madam President, I yield the floor.

The PRESIDING OFFICER (Mr. CASIDY). The Senator from Tennessee.

TRIBUTE TO CHARLIE DANIEL

Mr. ALEXANDER. Mr. President, late in December, I announced that I would not be a candidate for reelection to the U.S. Senate in 2020, and that prompted this cartoon in the Knoxville News Sentinel by Charlie Daniel:

He says his name is Alexander. He says he is going to walk across the State. Wonder how far he will go.

Here is some character wandering across the State in a red and black shirt, which is what I did 40 years ago when I walked across the State running for Governor.

I would like to return the favor to Charlie Daniel because he announced last week that he is retiring from drawing cartoons in the Knoxville News Sentinel, which is a much more significant event than anything I might do because Charlie Daniel has been a fixture in Tennessee for a long time with his gentle skewering of politicians in the Knoxville newspapers.

Charlie's cartoons have been the first things I have looked for in the Knoxville newspapers since the year I graduated from Maryville High School in 1958. That is when Charlie first began drawing for the Knoxville Journal.

Charlie is a self-taught artist who says he has been drawing ever since he "picked up a pencil." After a stint in the Marine Corps, Charlie studied political science at the University of North Carolina, and he started drawing for the school newspaper. He moved to Knoxville, where he started drawing at what was known as the Knoxville Journal in 1958. That is when I first saw Charlie Daniel's cartoons. He worked at the Journal until it closed in 1992 and then moved to the Knoxville News Sentinel, where he has been ever since. Some of his main subjects for his cartoons have been sports, social causes, and, of course, politics.

Over the years, Charlie has had plenty of opportunity to skewer me, and he has done it with vigor. Actually, it has been honest, usually gentle, and always effective. For example, as I was working on legislation, which became law this past year, to ban the use of cell phones on airplane flights, Charlie drew a cartoon characterizing cell phone yappers on long flights as the

"perfect hell," with the Devil asking why he didn't think of that.

Charlie's drawings are well known not just in Tennessee but all across our country. In 2016, the National Cartoonists Society honored Charlie with a proclamation recognizing his career. He was inducted to the sixth class of the Tennessee Journalism Hall of Fame last year, and the University of Tennessee library has a special collections department with more than 20,000 of these drawings. There are about a dozen that the University of Tennessee doesn't have because I have them in my office or in my home.

Charlie's contributions have been recognized by Tennesseans for decades. Our former Governor, Bill Haslam, said: "For as long as I can remember, Charlie has been making us laugh and think." Former Senate Majority Leader Howard Baker, Jr., also from Knoxville, as is Governor Haslam, said Charlie was "the personification of civilized relevant political humor." Former Knoxville mayor and Ambassador to Poland, Victor Ashe, said: "Charlie Daniel has been an icon and institution across the country."

East Tennesseans have been fortunate that Charlie and his family have called our region home. For over six decades, Charlie's drawings have been the first thing that I and many others have looked for in the newspaper, and it is going to be harder to start each day without the humor and the touch of Charlie Daniel.

Thank you, Charlie. Congratulations to you on your retirement. I wish you and Patsy and your family the best on behalf of grateful Tennesseans.

I yield the floor.

The PRESIDING OFFICER (Ms. MCSALLY). The majority leader.

POLICY JUSTIFICATION

Japan—Standard Missile-3 (SM-3) Missiles

The Government of Japan has requested to buy two (2) AEGIS Weapon Systems (AWS), two (2) Multi-Mission Signal Processors (MMSP) and two (2) Command and Control Processor (C2P) Refreshes. Also included is radio navigation equipment, naval ordnance, two (2) Identification Friend or Foe (IFF) Systems, Global Command and Control System-Maritime (GCCS-M) hardware, and two (2) Inertial Navigation Systems (INS), U.S. Government and contractor representatives' technical, engineering and logistics support services, installation support material, training, construction services for six (6) vertical launch system launcher module enclosures, communications equipment and associated spares, classified and unclassified publications and software, and other related elements of logistical and program support. The total estimated program cost is \$2.150 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interests to assist Japan in developing and maintaining a strong and effective self-defense capability.

This proposed sale will provide the Government of Japan with an enhanced capability against increasingly sophisticated ballistic missile threats and create an expanded, layered defense of its homeland. Japan, which already has the AEGIS in its inventory, will have no difficulty absorbing this system into its armed forces.

The proposed sale of this equipment and support does not alter the basic military balance in the region.

The prime contractor for the Aegis Weapon System and Multi-Mission Signal Processors will be Lockheed Martin Rotary and Mission Systems, Washington, DC. The Command and Control Processor Refresh will be provided by General Dynamics, Falls Church, VA.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Japan involving U.S. Government and contractor representatives for technical reviews, support, and oversight for approximately eight years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 19-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AEGIS Weapon System (AWS) is a multi-mission combat system providing inte-

grated Air and Missile Defense for surface ships. This sale consists of the modified J7 Foreign Military Sales (FMS) baseline (AWS Baseline 9.C2 along with Ballistic Missile Defense (BMD) 5.1 capability). No integrated Anti-Air Warfare capability will be provided. AWS Software, documentation, combat system training and technical services will be provided at the classification levels up to and including SECRET within approved release and disclosure guidelines. The manuals and technical documents are limited to those necessary for operational use and organization maintenance.

2. Hardware includes AWS Computing Infrastructure Equipment, including Blade Processors, Fire Control System (FCS) MK 99, Vertical Launching System (VLS) MK 41, combat system support equipment, logistics support equipment, and the Digital Signal Processing Group. The Digital Signal Processing group will be derived from the Multi-Mission Signal Processor and will be integrated with Lockheed Martin's Solid State Radar (SSR) which is being procured by Japan via Direct Commercial Sale contract. The Digital Signal Processing Group will be capable of BMD mission only. The hardware is UNCLASSIFIED.

3. The AN/UYQ-120(V) Command and Control Processor (C2P) System is a Tactical Data Link (TDL) message distribution system that provides real-time control and management of Tactical Digital Data Links (TADILs) in support of all major surface ship and shore Command, Control, and Communications (C3) systems. The C2P is a follow-on Technical Refresh (TR) upgrade for the legacy AN/UYQ-86(V) variants 1 through 7 of the Common Data Link Management system (CDLMS). The AN/UYQ-120(V) C2PS has three variants depending on the host site in which it is installed and only uses trusted software. The highest classification of the hardware and software to be exported is SECRET. Identification and security classification of classified equipment, major components, subsystems, software, technical data, documentation, training devices and services to be conveyed with the proposed sale.

4. If a technologically advanced adversary obtained knowledge of the specific hardware or software in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to Japan.
