**HONORING PIMA COUNTY SUPERVISOR RICHARD ELIAS**

**HON. RAÚL M. GRIJALVA**

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 14, 2020*

Mr. GRIJALVA. Madam Speaker, I rise today in recognition of Pima County Supervisor Richard Elias for his dedication to our community. Richard sadly passed away suddenly and unexpectedly on March 28, 2020.

Richard was a fifth-generation Tucson native, with an unmatched love for Southern Arizona; its people and its environment. His parents, Albert M. Elias, a strong supporter of labor and a community leader, and Viola Blaine, instilled a set of values that guided Richard in his professional and personal life. Those values included compassion and a dedication to serving others.

Richard represented Pima County District Five since his appointment to the seat in 2002. Prior to that, he worked for Pima County, Chicanos por la Causa, and the City of South Tucson where he advocated for affordable housing and working families.

He graduated from the University of Arizona with a degree in history. Richard always drew

upon his heritage and storytelling to provide a more holistic perspective to issues. He was a proud steward of the Old Pueblo.

During his public service career, Richard was never afraid to take a stand, even if it meant standing alone. Richard spoke his truth to power as a lifelong progressive Democrat. While he was principled in his beliefs, he never shied away from a difficult conversation. He earned the respect of his colleagues on both sides of the aisle.

For over 18 years, Richard was a steady force on the Board of Supervisors where he left a large footprint. He continued the work to preserve one of our greatest assets, our environment, through his advocacy of the Sonoran Desert Conservation Plan and of protecting our precious desert waterways. He was a staunch and effective proponent of affordable housing development and reinvesting in established neighborhoods, of fighting for equitable access to healthcare, and of promoting the welfare of immigrants. He, like his Dad, was a union man at heart and he fought stridently for the rights and values of working families.

Richard spent his last days working tirelessly to address the COVID-19 pandemic in Pima County. May it serve as a reminder that for Richard the well-being and safety of his constituents was always his priority.

Our community has lost a kind, generous soul and a fighter for social justice, the environment and working people. I submit this statement with great sorrow at the loss of a life-long friend and someone who understood the complexities of devoting a life to public service.

My condolences are with his wife Emily and daughter Luz, the rest of his family, staff, friends, and extended community during this difficult time. May we all continue to be inspired by Richard's tireless work and take his creed as our own, "Resist. Much Love."

CONGRATULATING PASTOR ROBERT AND DEBBIE MORRIS FOR TWENTY YEARS OF SERVICE AT GATEWAY CHURCH

**HON. KENNY MARCHANT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 14, 2020*

Mr. MARCHANT. Madam Speaker, I rise today to congratulate Pastor Robert Morris and his wife, Debbie, for twenty years of leadership, service and worship at Gateway Church in my District. Their tireless efforts to spread the word of God and the teachings of Jesus Christ have reached countless believers over the past two decades.

Since they founded Gateway Church in the year 2000, Pastor Robert and Debbie Morris have endeavored to create a spiritual impact on the Dallas/Fort Worth area and beyond. Twenty years ago, they began that journey by meeting with a small group of thirty individuals in their living room to pray for their upcoming ministry that would soon be headquartered in Southlake, Texas. What grew into a congregation of 180 people during their first Easter service now encompasses more than 71,000 attendees across multiple campuses in North Texas.

As head pastor, Robert Morris has proven to be an exceptional leader to the Gateway community, guided by a mission to truly care for others and trust God. That resonating message has resulted in the production of a television program that airs in over 190 countries and a radio show broadcast to more than 1,800 stations across America. Gateway's widespread following is a working testament of its vision to see people "saved, healed, set free, discipled, equipped, empowered, and serving."

Together, Pastor Robert and Debbie Morris have ensured the enduring growth and prosperity of Gateway's congregation. With the support of their family and the spirit of service at heart, they have created lasting change that will continue to affect thousands in North Texas and around the world.

Madam Speaker, on this twentieth anniversary of Gateway's first Easter service, I am proud to recognize their tremendous impact on our community. I ask all my distinguished colleagues to join me in congratulating their success.

INSULAR AREA MEDICAID PARITY ACT

**HON. GREGORIO KILILI CAMACHO**  
**SABLAN**

OF THE NORTHERN MARIANA ISLANDS  
IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 14, 2020*

Mr. SABLAN. Madam Speaker, the coronavirus pandemic is exposing the gaps in our national healthcare system like never before. One of those gaps is that our national Medicaid program does not reach all Americans with full coverage. We have already acknowledged that deficiency, in part, with provisions in the Families First Coronavirus Response Act that created equity between the states and the territories with respect to the federal-local match for Medicaid. Families First, also, provided additional federal dollars for the territorial Medicaid programs.

But the territorial programs still operate under an absolute cap for Medicaid assistance. No matter how many fall ill, no matter how costly or prolonged their treatment, that cap will always limit care in the territories.

Now, as never before, we have also come to understand that, while some areas of our nation are ill, no area of our nation can be well. So, the time has come to repeal the cap on territories' Medicaid. The bill I am introducing does just that.

By repealing the cap, we will be doing more than just ensuring there are sufficient resources to face the coronavirus crisis. We will be setting up the healthcare systems in the territories to respond to the next public health challenge, whatever it may. Most important of all, we will ensure that day-after-day and year-by-year those with the smallest incomes and no access to other insurance receive the care that will keep them healthy and help ward off debilitating disease.

We will, also, be providing a level of certainty to healthcare providers—in the public and private sector—that will encourage investment in the health industry in the territories, which by any measure lags the rest of the nation. And by doing so we will create a virtuous cycle of rising quality of care powered by rising access that will benefit all at every income level.

Today, we are confronted by a terrible health crisis. We can beat back the coronavirus, I am sure. But we can also do more. We can use this time to recognize that we are one nation, one people, who must work together not only to overcome the coronavirus, but also to create a system for tomorrow that safeguards the health of all Americans.

Full-fledged membership in the national Medicaid program was a goal of the territories

long before I came to Congress. Now the time has come for action. Because nothing exposes the gaps in our healthcare system more than a disease like coronavirus.

I thank my colleagues who join in introducing this legislation—Chairman GRIJALVA, Chairwoman VELÁZQUEZ, Mr. SAN NICOLAS, Mrs. RADEWAGEN, Ms. PLASKETT, Mr. GARCÍA, Mr. ESPAILLAT, and Mr. SERRANO.

INTRODUCTION OF THE SYSTEMIC RISK MITIGATION ACT

**HON. JESÚS G. "CHUY" GARCÍA**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 14, 2020*

Mr. GARCÍA of Illinois. Madam Speaker, I rise today to introduce the Systemic Risk Mitigation Act with my colleague, Representative KATIE PORTER of California.

"Shadow banks" are large, interconnected and complex firms—they include insurance companies, hedge funds, asset managers and others—that drive many of the risky practices that economists and regulators have warned about for years. The Trump Administration's deregulatory approach only puts us at greater risk. And as the public health crisis brought on by COVID-19 drags our country into a recession and threatens to ignite underlying problems like corporate debt, it is up to Congress to ensure that regulators address the risks these firms pose to our financial system before it's too late.

Since Trump took office, AIG and Prudential Financial have been de-designated as systemically important and now no non-banks currently carry that designation. Shadow banks like these two are central to our financial system, but by avoiding the designation of "systemically important" they escape oversight requirements such as strong capital and liquidity rules and annual stress tests.

Our bill strengthens the Financial Stability Oversight Council (FSOC) and the Office of
