

of 112. Now, either they are drinking some special elixir of life or they are not with us anymore. That is why I have introduced a piece of legislation titled stop paying dead people. I think that would be a good reform. It would save American taxpayers and make sure the benefits are there for those who do need Social Security.

The third section of the report is on personnel, to transition government personnel accountability and compensation toward more of a merit-based system. I operated a number of businesses in the private sector, and there are many HR practices in the Federal Government which are very different than they are in the private sector, things like merit-based pay, the way we do performance reviews, and making sure we have market-based pay for our good, dedicated Federal workers. Those are contained in the third section.

In total, there are over 100 commonsense ideas in this report that we will run as plays here in the House to make the government start working for the people again.

I appreciate the opportunity for the Members of the task force and others who have engaged on this issue to come today and share their commonsense ideas. I look forward to partnering to put these ideas into practice to get government working for the people again.

Madam Speaker, I yield back the balance of my time.
