

from the University of Nebraska-Lincoln. As a leader with a passion for fostering educational and economic opportunities for Nebraskans, she has worked hard to build a more robust environment for businesses and universities. She also plays an active role in several philanthropic and public organizations.

□ 1015

Not only has she grown as a leader, the responsibilities entrusted to her have grown as well. Catherine has been crucial in guiding State agencies through periods of transition and expansion. Throughout her career, she has served Nebraska as the Department of Revenue's deputy tax administrator, the Nebraska property tax administrator, the commissioner of labor, and as the director of the Department of Economic Development.

Catherine inherited a legacy of service from her parents, Hugh and Lillian Lang. Her father, Commander "Chic" Lang, served as a distinguished Navy pilot during World War II and later as an instructor at the U.S. Navy War College, and her mother enlisted in the U.S. Air Force.

Catherine's parents instilled in her a value she has instilled in her three sons: the importance of a college education as a door to opportunity. Because of this, the Lang family established a scholarship for students at the UNO College of Business for the purpose of cultivating opportunity and character.

Currently, Catherine holds the position of State director of the Nebraska Business Development Center and assistant dean at the UNO College of Business. She leads statewide outreach for NBDC and builds collaborative efforts in the Nebraska University system to support the institution's mission of economic development.

Thank you, Catherine, for dedicating your life to serving and inspiring others, and we thank you for strengthening relationships within our community.

HONORING TIMOTHY KENNY ON HIS RETIREMENT

Mr. BACON. Mr. Speaker, I rise today to honor Timothy Kenny and his exceptional service as the executive director of the Nebraska Investment Finance Authority, or NIFA. Timothy has been serving Nebraskans in this role since 1994. Before he joined NIFA, he served as director of programs for the Utah Housing Finance Agency and as executive director of the Texas Housing Finance Agency.

NIFA administers programs to help Nebraskans finance affordable housing, medical facilities, community infrastructure, and industrial development projects. They also serve first-time farmers and ranchers by providing affordable financing strategies across the Great Plains.

In the 36 years of its existence, NIFA has worked diligently to finance over 91,000 mortgages for affordable single-family homes. Additionally, over 23,600

affordable rental housing units for Nebraskans living on a budget have been created. Under Tim's leadership, NIFA has taken care of our Armed Forces by providing over \$96.1 million in home buyer's assistance.

Previously, Timothy served as a certified public accountant for a private tax and audit practice in Dallas, Texas, and then worked his way up to chief financial officer for homebuilding and real estate firms in Texas and Colorado.

He now resides in Cass County, Nebraska, with his wife, Sara, three children, and numerous grandchildren. On top of his commendable public service, Timothy has supported his children and country through more than 20 deployments in the United States Armed Forces.

Timothy continues to be active in Nebraska by serving on the National Council of State Housing Agencies, the National Association of Home Builders, the Nebraska Subprime Advisory Task Force, and the Governor's Disaster Recovery Task Force. He exemplifies what it means to be a Nebraskan through his hard work, service to others, and compassion for those in need.

I congratulate Timothy on a notable career of public service and a retirement that is well deserved.

SIMLEY WRESTLING TEAM STATE CHAMPIONS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Minnesota (Ms. CRAIG) for 5 minutes.

Ms. CRAIG. Mr. Speaker, today I rise to congratulate the Simley Spartans wrestling team on their AA State championship.

Simley High School in Inver Grove Heights is surely proud of their accomplishments, as are we all in the Second Congressional District. In fact, their head coach, Will Short, called it a perfect season.

Congratulations to the Spartan wrestlers. They have demonstrated excellence in their sport and a strong commitment to the success of their team. They have delivered outstanding results that they can be proud of in their school and their community.

I thank especially the parents, the coaches, the teachers, and the mentors who have dedicated their time to making their season successful.

Congratulations, Simley.

SENATOR SCHUMER'S UNBECOMING COMMENTS TO SUPREME COURT JUSTICES

The SPEAKER pro tempore. The Chair recognizes the gentleman from Kansas (Mr. MARSHALL) for 5 minutes.

Mr. MARSHALL. Mr. Speaker, last week in the Senate, a resolution was introduced to censure Senate Majority Leader CHUCK SCHUMER for his threatening comments directed at Supreme Court Justices on the steps of the Court during an abortion-related case.

These comments were not only unbecoming of a Senator, but they were simply egregious. They crossed the line.

As representative leaders, we are held to a higher standard of conduct, and Senator SCHUMER failed to meet that standard. I call on my colleagues on the other side of the Capitol to support this censure for the preservation of this institution, for the preservation of the constitutionally separate branches of government, and for the health of our Republic.

FEED YOUR MIND

Mr. MARSHALL. Mr. Speaker, this week the USDA, EPA, and FDA have partnered to announce a new public education campaign aimed at helping consumers better understand what is in their food.

The Feed Your Mind initiative was developed to answer the most common questions that consumers have about genetically modified foods, commonly referred to as GMOs. This study will include what GMOs are, how and why they are made, how they are regulated, and it will address health and safety questions that consumers may have about these products.

Biotechnology has allowed important advances in crop technologies and improved our farmers' ability to continue to provide safe, nutritious, and affordable food. Unfortunately, some consumers have fallen victim to untrue or totally misleading rumors about what GMOs do for our food, creating confusion and stifling innovation in the agriculture industry.

I want to applaud the Trump administration for taking on the important task of providing factual information and important information about the food we grow right here in Kansas and across the United States. No consumer should have to fear their food or question the technology that goes into making their meals possible.

The United States has the single safest, most reliable, and most affordable food source in the entire world, and our farmers work daily to inform the public about what they do in the field. These resources will be an important supplement to their outreach efforts.

PRESIDENT TRUMP'S CORONAVIRUS LEADERSHIP PLAN

Mr. MARSHALL. Mr. Speaker, the Wuhan coronavirus is certainly on the front of Americans' minds these days, but before I speak about the virus, I would like to talk about leadership.

I often tell the kids I work with that leadership is doing the right thing when it is not popular. Here in Washington, I have learned that doing the right thing is when you know over 90 percent of the press and 90 percent of the media is going to disagree with you.

Leadership is when President Trump banned travel from China on February 2. While some people went so low as to call this xenophobic, as a physician, this early decision, I believe, has saved thousands of American lives.

By now, we have millions of test kits distributed out across the country. I want to just reassure Americans that this testing is covered by Medicare, by Medicaid, and by most every one of their insurance companies.

I also want to reassure Americans that antivirals and vaccines are in early phases of trials, way ahead of development. We are very optimistic that these antivirals may soon be available for those who are impacted the most by this Wuhan virus. We are also optimistic that these vaccines will be available by this next winter.

We have a plan. The President has given us a plan. Let's stick to this plan. We are implementing this plan, and it is working.

Again, as a physician who has worked with health departments, I am truly impressed by how we have contained this virus and how our local health departments are working so hard to minimize the spread of this virus. I am absolutely amazed that we only have approximately 1,000 Americans impacted by the Wuhan viruses at this time.

In the meantime, again, let's go back to our plan. It is not a time to panic. This is a time to wash your hands, limit your travel, and, by the way, open your windows and doors when you are at home and let some of this fresh air come in which this virus does not like a bit.

So, thanks, Mr. President, for delivering on your plan. We are truly impressed as physicians in Congress by the great job that you are doing and the leadership you are showing.

The SPEAKER pro tempore. Members are reminded to address their remarks to the Chair.

WOMEN'S HISTORY MONTH: MARGARET HUDSON

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. COSTA) for 5 minutes.

Mr. COSTA. Mr. Speaker, every March, we honor the extraordinary contributions of women who have shaped our Nation's history and those who continue to pave the way for the next generation. This year also marks the 100th year since the 19th Amendment granted women the right to vote.

Think about it, just in the last 100 years. Our Nation is now going on 245 years old. A century later, the women who have done so much for our country throughout our Nation's entire history continue to make a difference.

I am proud, today, to say that I serve with a record number of women in Congress as we continue to fight for issues that are so important: equal pay, reproductive freedom, and so much more.

Mr. Speaker, as we use this opportunity to celebrate the incredible women who have changed the world in your life and in my life, I would like to pay tribute to an iconic woman, an artist in my home of Fresno, California, Margaret Hudson.

Ms. Hudson passed away last month, but her legacy lives on in her clay sculptures of California wildlife that can be seen on display throughout the valley. It is incredible work.

From a young age, Margaret loved to spend time outdoors hiking in such places as Sequoia National Park. Her appreciation for the beautiful landscape of the Central Valley would later influence so much of her artwork that we enjoy today.

She attended college in New England and served as a missionary in Japan and South Korea for several years. Her love for art blossomed years later, when she began sculpting from memories of her time in South Korea. She became one of the first female art entrepreneurs in Fresno when she opened up her own studio in 1972.

Through the years, Margaret expanded her interest in the arts to painting and held many of her own art shows to display her work and to encourage young artists such as herself, especially women. Margaret's artwork is a fixture throughout the Central Valley, with permanent works on display at our Valley Children's Hospital and Fresno Chaffee Zoo.

Her work continues to inspire us, and I think it is a reflection of her appreciation and respect for the natural beauty and landscapes that we have in California and throughout our country. Certainly, the Sierra Nevada and the San Joaquin Valley were among many of the reflections and renderings of the creation of the art that she was so proud of and that we so much enjoy today.

So I ask my colleagues to join me in recognizing the life and the contributions of Margaret Hudson. Her artwork continues to inspire and is cherished as a part of all of those who know it and who enjoy it.

God bless you, Margaret. You made a difference.

RECOGNIZING JOSH SPEIDEL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Indiana (Mr. PENCE) for 5 minutes.

Mr. PENCE. Mr. Speaker, I rise today to recognize Josh Speidel, an extraordinary young man from my hometown of Columbus, Indiana.

Josh was an Indiana All-Star high school basketball player when he was in a tragic car accident. Josh spent many months in hospitals and rehab learning how to walk and talk again. It was a difficult journey, but Josh's family never lost hope.

The University of Vermont honored Josh's basketball scholarship he achieved before the accident and welcomed him back with open arms. I am proud to say that Josh recently scored his first point in his college basketball career and will soon be graduating from the university.

I wish Josh the best of luck in his future. He is an inspiration to all of us.

□ 1030

IVY TECH CC FLIGHT PROGRAM

Mr. PENCE. Mr. Speaker, I rise today to recognize the Hoosier State's first community college flight program and to commend the partnership between Ivy Tech Community College and the Columbus Municipal Airport.

Since 2017, Ivy Tech Columbus has been offering Ivy Tech's first aviation associate's degree and an aviation management program.

This program is designed to give students hands-on pilot training. In addition to flight time, students also train on a flight simulator at the Columbus Municipal Airport.

I look forward to seeing more skill-based programs like this to help our youth in their careers.

WOMEN'S HISTORY MONTH

Mr. PENCE. Mr. Speaker, I rise today as we celebrate the importance of Women's History Month. I would like to take this opportunity to celebrate women throughout the Sixth District who make a difference in our everyday lives.

I think of women business leaders, humanitarians, and activists in our communities, like Jeanie Hahn, Jean Ann Harcourt, Sue Saunders, Lisa Fisher and Celeste Calvitto.

We recognize Linda Ostewig, who leads a faith-based nonprofit for struggling teens to learn healthy lifestyle patterns in our own Hancock County.

I am reminded of the example set by Susan Stahl, who has led Girls Inc. in Madison for over three decades.

We recognize leaders like Wendy Elwood in my hometown of Columbus, who last year was named "Woman of the Year" by The Republic newspaper.

Indiana's First Lady, Janet Holcomb, is also from our district in Muncie.

The people of Indiana's Sixth District are blessed to have so many women helping lead and inspire our communities.

We celebrate and honor them as part of Women's History Month.

INCLUSION OF POULTRY IN U.S.-U.K. TRADE NEGOTIATIONS

Mr. PENCE. Mr. Speaker, I rise today to voice my support for one of the biggest industries in my district—the poultry industry.

I urge the administration and Ambassador Lighthizer to include poultry in any U.S.-U.K. trade deal.

As the second largest exporter of chicken and the largest exporter of turkey, the U.S. will continue to gain momentum in this industry if the U.K. is added as a new market.

Indiana is the fifth largest turkey producer and second largest egg producer in the United States. A U.K. trade agreement will boost our Hoosier poultry farmers, who are an essential part of our Indiana economy.

As Indiana's Sixth District Representative, I will continue to support our Hoosier farmers and fight for their access to free markets.

FARMING AND CARBON SEQUESTRATION

Mr. PENCE. Mr. Speaker, I rise today to recognize the great impact that
