SEC. 326. OFFSHORE WIND ENERGY DEVELOPMENT, MORRO BAY, CALIFORNIA.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Since 2016, the Department of Defense and Department of the Navy have been working with State and Federal stakeholders to determine whether a commercial lease for the development of renewable energy off the coast of Morro Bay, California could be developed in a manner that is compatible with the training and readiness requirements of the Department of Defense.

(2) Military readiness and the ability to conduct realistic training are critical to our national security; however, energy security and

other ocean uses are also important. These interests should be balanced to the extent practicable when analyzing offshore energy proposals.

(3) In August 2019, Members of Congress, the Assistant Secretary of Defense for Sustainment, senior officials from other Federal agencies, and state and local elected representatives met to discuss a path forward to accommodate wind energy development off the Central Coast of California while ensuring the Department of Defense was able to continue meeting its testing, training, and operational requirements.

(4) Following the initial meeting in August 2019, the stakeholder group continued meeting at roughly monthly intervals through 2019 and into 2020 to discuss options and work towards a mutually agreeable solution for renewable energy development and continued military testing, training, and operational requirements off the Central Coast of California.

(5) In May 2020, the Assistant Secretary of the Navy for Energy, Installations, and Environment notified stakeholders that despite the previous year of negotiations, it was his view any wind energy developments off the Central Coast of California may not be viewed as being compatible with military activities. This unilateral decision was made abruptly, without providing any supporting analysis or acknowledgment of the progress and commitments made during previous negotiations, and was not in the spirit of cooperation and collaboration that had driven the previous nine months of stakeholder engagements.

(6) Stakeholder confidence in the Department of Defense review process is paramount. Abrupt and unilateral changes of course erode confidence and undermine the State, local, and industry trust in a fair, transparent, and predictable adjudication of potential conflicts.

(7) In early 2019, in order to create continuity between the offshore and terrestrial processes, the Department of Defense consolidated its review of proposed energy development projects so that offshore energy proposals were now included in the Military Aviation and Installation Assurance Clearinghouse (the Clearinghouse). The Clearinghouse has a proven record for reviewing proposed energy development projects through a fair and transparent process. The Morro Bay proposal pre-dates this consolidation but underwent a similar Department of Defense led compatibility review.

(8) Congress has generally supported the transparent and fair Clearinghouse review process, as well as all efforts between the Department of Defense and other stakeholders to reach solutions that allow for the development of energy projects in a manner that is compatible with military testing, training, and operational requirements.

(9) Legislating a solution to a specific energy development proposal should only be reserved for rare occasions. Due to Navy's abrupt and unilateral decision to walk away from productive negotiations, after months of good-faith efforts by other stakeholders and public engagement, the threshold for congressional intervention has been reached.

(b) **RESPONSIBILITY.**—All interaction on behalf of the Department of the Navy with the California Energy Commission, Federal agencies, State and local governments, and potential energy developers regarding proposed offshore wind energy off the central coast of California shall be performed through the Office of the Under Secretary of Defense for Acquisition and Sustainment.

(c) **BRIEFING REQUIREMENT; LIMITATION.**—

(1) **BRIEFING.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall provide to the Committees on Armed Services and the Committee on Natural Resources of the House of Representatives a briefing on status of the review by the Offshore Energy Working Group of the request to locate at least two offshore wind lease areas

proximate to and within the Morro Bay Call Area. Such briefing shall include—

(A) a detailed map that shows any areas identified;

(B) proposed mitigations that would enable compatible development in the areas identified;

(C) any unresolved issues; and

(D) any other terms of the agreement reached with the California Energy Commission, other Federal agencies, State and local governments, and potential energy developers.

(2) **LIMITATION.**—The Secretary of Defense may not issue a final offshore wind assessment that proposes wind exclusion areas and may not object to an offshore energy project in the Central Coast of California that has filed for review by the Military Aviation and Installation Assurance Clearinghouse until the Secretary provides the briefing required under paragraph (1).

(d) **LIMITATION ON USE OF FUNDS.**—Of the amounts authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2021, not more than 75 percent may be obligated or expended for the Office of the Assistant Secretary of the Navy for Energy, Installations, and Environment until the date that is 30 days after the date on which the briefing required under subsection (c)(1) is provided.

SEC. 327. LONG-DURATION DEMONSTRATION INITIATIVE AND JOINT PROGRAM.

SEC. 828. SENSE OF CONGRESS ON THE PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT.

(a) *FINDINGS.*—Congress finds the following:

(1) Prohibiting the use of telecommunications and video surveillance products or services from certain Chinese entities within the Federal Government's supply chain is essential to our national security.

(2) Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232; 132 Stat. 1917; 41 U.S.C. note prec. 3901) restricts Federal agencies from procuring, contracting with entities that use, or funding the purchase of certain telecommunications products of Chinese companies determined by Congress to pose a substantial threat to the security of our communication infrastructure.

(3) Specifically, section 889(a)(1)(B) of such Act, effective August 13, 2020, will prohibit Federal agencies from entering into, extending, or renewing a contract with an entity that uses covered telecommunications and video surveillance equipment or services from designated Chinese companies, including Huawei and ZTE, in their supply chains.

(4) As of July 1, 2020, the Federal Acquisition Regulatory Council has yet to release a draft rule for public comment on the implementation of the prohibitions described in section 889(a)(1)(B) of such Act, leaving Federal agencies and contractors that provide equipment and services to the Federal Government without implementation guidance necessary to adequately plan for or comply with the prohibitions.

(5) Belated, and then hurried, implementation of this critical prohibition puts at risk the Federal Government's ability to acquire essential goods and services and increases vulnerability in the supply chain through inconsistent implementation.

(6) A senior Department of Defense leader testified on June 10, 2020, that, “I am very concerned about being able to implement [the prohibition] in August, as well as totally comply within two years . . . I believe we need more time”.

(7) Subsequent to the enactment of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), Congress established the Federal Acquisition Security Council (FASC)—comprised of senior officials from the Office of Management and Budget, General Services Administration, Department of Defense, Department of Homeland Security and the intelligence community—to streamline the Federal Government's supply chain risk management efforts and develop criteria and processes for supply chain information sharing among executive agencies.

(b) *SENSE OF CONGRESS.*—It is the sense of Congress that—

(1) successful implementation of the prohibition on using or procuring certain telecommunications and video surveillance equipment under section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019

(Public Law 115-232; 132 Stat. 1917; 41 U.S.C. note prec. 3901) is critical to protecting the supply chain of the Federal Government, and Federal agencies should draw upon the expert resources available (such as the Federal Acquisition Security Council established under subchapter III of chapter 13 of title 41, United States Code) to ensure implementation of such prohibition is done in a comprehensive and deliberative manner; and

(2) the Federal Acquisition Regulatory Council shall ensure successful implementation of such prohibition by providing sufficient time for public comment and review of any related rulemaking.

(6) such an initiative should include an innovative and comprehensive conflict deterrence strategy for the Baltic region encompassing the unique geography of the Baltic states, modern and diffuse threats to their land, sea, and air spaces, and necessary improvements to their defense posture, including command-and-control infrastructure, intelligence, surveillance, and reconnaissance capabilities, communications equipment and networks, and special forces.

SEC. 1609. PROHIBITION ON AVAILABILITY OF FUNDS FOR CERTAIN PURPOSES RELATING TO THE GLOBAL POSITIONING SYSTEM.

(a) **FINDINGS.**—Congress finds the following:

(1) On April 19, 2020, the Federal Communications Commission issued an order and authorization granting Ligado Networks LLC the authority to operate a nationwide terrestrial communications network using the 1526–1536 megahertz band, the 1627.5–1637.5 megahertz band, or the 1646.5–1656.5 megahertz band.

(2) In an attempt to address interference to the Global Positioning System operating near those bands, Ligado Networks LLC has committed to assuming the costs mitigating any interference caused by their network.

(3) In the approval order, the Federal Communications Commission directed that “Ligado takes all necessary mitigation measures to prevent or remediate any potential harmful interference to U.S. Government devices, including devices used by the military, that are identified both pre- and post-deployment of Ligado’s network.”.

(4) In a letter to the Committee on Armed Services of the House of Representatives dated May 21, 2020, Ligado Networks LLC reaffirmed the commitment to bear the costs to the Department of Defense, stating that the “FCC directed Ligado to provide protections to GPS devices using its spectrum by imposing stringent coordination, cooperation, and replacement obligations on Ligado, so that Ligado bears the burden” and “Make no mistake: the obligation is ours, and the burden falls solely on our company.”.

(b) **PROHIBITION.**—Except as provided by subsection (c), none of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2021 or any subsequent fiscal year for the Department of Defense may be obligated or expended to retrofit any Global Positioning System device or system, or network that uses the Global Positioning System, in order to mitigate interference from commercial terrestrial operations using the 1526–1536 megahertz band, the 1627.5–1637.5 megahertz band, or the 1646.5–1656.5 megahertz band.

(2) The Department of Defense requires the space segments of such system to be resilient and survivable to address advanced threats from Russia and China.

(3) The next-generation overhead persistent infrared missile warning satellites are being upgraded with enhanced resiliency features to make them much less vulnerable to attack and will begin launch in 2025.

(4) Because missile warning satellites rely on protected communications satellites to relay warnings and response orders, the next-generation overhead persistent infrared missile warning satellites will require protected communications satellites with enhanced resiliency features, however, the current plan of the Space Force is to provide those capabilities with the evolved strategic satellite communications program that will not be available until 2032 or later.

(5) As a result, the Chief of Space Operations should implement an accelerated plan to achieve more resilient protected communications satellites without delay.

(b) **REPORT.**—Not later than 60 days after the date of the enactment of this Act, the Chief of Space Operations shall submit to the congressional defense committees a report on how the Space Force will address the need for resilient protected communications satellites during the years 2025 through 2032.

Subtitle E—Missile Defense Programs

SEC. 1651. EXTENSION AND MODIFICATION OF REQUIREMENT FOR COMPTROLLER GENERAL OF THE UNITED STATES REVIEW AND ASSESSMENT OF MISSILE DEFENSE ACQUISITION PROGRAMS.

Section 232(a) of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81; 125 Stat. 1339), as amended by section 1688 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114-92; 129 Stat. 1144), is amended—

(1) in paragraph (1), by striking “through 2020” and inserting “through 2025”; and

(A) by striking “through 2021” and inserting “through 2026”; and

(B) by adding at the end the following new sentence: “In carrying out this subsection, the Comptroller General shall review emergent issues relating to such programs and accountability and, in consultation with the congressional defense committees, either include any findings from the review in the reports submitted under this paragraph or provide to such committees a briefing on the findings.”.

SEC. 1652. EXTENSION OF TRANSITION OF BALLISTIC MISSILE DEFENSE PROGRAMS TO MILITARY DEPARTMENTS.

Section 1676(b)(1) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91; 10 U.S.C. 2431 note) is amended by striking “2021” and inserting “2023”.

SEC. 1653. DEVELOPMENT OF HYPERSONIC AND BALLISTIC MISSILE TRACKING SPACE SENSOR PAYLOAD.

(a) FINDINGS; SENSE OF CONGRESS.—

(1) FINDINGS.—Congress finds the following:

(A) Subsection (d) of section 1683 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91; 10 U.S.C. 2431 note), as amended by section 1683 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92), requires the Director of the Missile Defense Agency to develop a hypersonic and ballistic tracking space sensor payload to address missile defense tracking requirements.

(B) The budget of the President for fiscal year 2021 submitted under section 1105 of title 31, United States Code, did not provide any funding for the Missile Defense Agency to continue the development of such sensor payload.

(2) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) regardless of the overall architecture for a missile defense tracking space layer, the Director of the Missile Defense Agency should remain the material developer for the hypersonic and ballistic tracking space sensor payload to ensure that—

(i) unique hypersonic and ballistic missile tracking requirements are met; and

(ii) the system can be integrated into the existing missile defense system command and control,

battle management, and communications system; and

(B) The Secretary of Defense should ensure transparency of funding for this effort to ensure proper oversight can be conducted on this critical capability.

(b) **LIMITATION.**—Subsection (d) of section 1683 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91; 10 U.S.C. 2431 note), as amended by section 1683 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92), is amended by adding at the end the following new paragraph:

“(3) **LIMITATION.**—Of the funds authorized to be appropriated by the National Defense Authorization Act for Fiscal Year 2021 or otherwise made available for fiscal year 2021 for operation and maintenance, Defense-wide, for the Space Defense Agency, not more than 50 percent may be obligated or expended until the date on which the Secretary submits the certification under paragraph (2)(B).”.

(c) **COORDINATION.**—Subsection (a) of such section is amended by striking “the Commander of the Air Force Space Command and” and inserting “the Chief of Space Operations, the Commander of the United States Space Command, the Commander of the United States Northern Command, and”.

SEC. 1654. ANNUAL CERTIFICATION ON HYPersonic AND BALLISTIC MISSILE TRACKING SPACE SENSOR PAYLOAD.

(a) **FINDING; SENSE OF CONGRESS.**—

(1) **FINDING.**—Congress finds that the budget submitted by the President under section 1105(a) of title 31, United States Code, for fiscal year 2021 does not fully fund an operational capability for the hypersonic and ballistic missile tracking space sensor within the tracking layer of the persistent space-based sensor architecture of the Space Development Agency, despite such space sensor being a requirement by the combatant commanders and being highlighted as a needed capability against both hypersonic and ballistic threats in the Missile Defense Review published in 2019.

(2) **SENSE OF CONGRESS.**—It is the sense of Congress that the Missile Defense Agency hypersonic and ballistic missile tracking space sensor must be prioritized within the persistent space-based sensor architecture of the Space Development Agency to ensure the delivery of capabilities to the warfighter as soon as possible.

(b) **ANNUAL CERTIFICATION.**—Subsection (d) of section 1683 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91; 10 U.S.C. 2431 note), as amended by section 1653, is further amended by adding at the end the following new paragraph:

“(4) **ANNUAL CERTIFICATION.**—On an annual basis until the date on which the hypersonic and ballistic tracking space sensor payload achieves full operational capability, the Secretary of Defense, without delegation, shall submit to the appropriate congressional committees a certification that—

“(A) the most recent future-years defense program submitted under section 221 of title 10, United States Code, includes estimated expenditures and proposed appropriations in amounts necessary to ensure the development and deployment of such space sensor payload as a component of the sensor architecture developed under subsection (a); and

“(B) the Commander of the United States Space Command has validated both the ballistic and hypersonic tracking requirements of, and the timeline to deploy, such space sensor payload.”.

SEC. 1655. ALIGNMENT OF THE MISSILE DEFENSE AGENCY WITHIN THE DEPARTMENT OF DEFENSE.

(a) **FINDINGS.**—Congress finds the following:

(1) Since the Missile Defense Agency was aligned to be under the authority, direction, and control of the Under Secretary of Defense

for Research and Engineering pursuant to section 205(b) of title 10, United States Code, the advanced technology development budget requests in the defense budget materials (as defined in section 231(f) of title 10, United States Code) have decreased by more than 650 percent, from a request for \$292,000,000 for fiscal year 2018 (the highest such request) to a request for \$45,000,000 for fiscal year 2021.

(2) The overwhelming majority of the budget of the Missile Defense Agency is invested in programs that would be categorized as acquisition category 1 efforts if such programs were administered under the acquisition standards under Department of Defense Directive 5000.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that, in light of the findings under subsection (a), upon the completion of the independent review of the organization of the Missile Defense Agency required by section 1688 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 133 Stat. 1787), the Secretary of Defense should reassess the alignment of the Agency within the Department of Defense to ensure that missile defense efforts are being given proper oversight and that the Agency is focused on delivering capability to address current and future threats.

(c) **REPORT.**—Not later than February 28, 2021, the Secretary of Defense shall submit to the congressional defense committees a report on the alignment of the Missile Defense Agency within the Department of Defense. The report shall include—

(1) a description of the risks and benefits of both—

(A) continuing the alignment of the Agency under the authority, direction, and control of the Under Secretary of Defense for Research and Engineering pursuant to section 205(b) of title 10, United States Code; and

(B) realigning the Agency to be under the authority, direction, and control of the Under Secretary of Defense for Acquisition and Sustainment; and

(2) if the Agency were to be realigned, the actions that would need to be taken to realign the Agency to be under the authority, direction, and control of the Under Secretary of Defense for Acquisition and Sustainment or another element of the Department of Defense.

SEC. 1656. ANALYSIS OF ALTERNATIVES FOR HOMELAND MISSILE DEFENSE MISSIONS.

(a) **ANALYSIS OF ALTERNATIVES.**—

(2) **SCOPE.**—The analysis of alternatives under paragraph (1) shall include the following:

(A) The sensors needed for the architecture described in such paragraph.

(B) An assessment of the locations of each system included in the analysis to provide similar coverage as the ground-based midcourse defense system, including, with respect to such systems that are land-based, by giving preference to locations with completed environmental impact analyses conducted pursuant to section 227 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat. 1678), to the extent practicable.

(C) The acquisition objectives for interceptors of the terminal high altitude area defense system and standard missile–3 interceptors for homeland defense purposes.

(D) Any improvements needed to the missile defense system command and control, battle management, and communications system.

(E) The manning, training, and sustainment needed to support such architecture.

(F) A detailed schedule for the development, testing, production, and deployment of such systems.

(G) A lifecycle cost estimate of such architecture.

(H) A comparison of the capabilities, costs, schedules, and policies with respect to—

(i) deploying regional systems described in subsection (a) to conduct homeland defense missions; and

(ii) deploying future ground-based midcourse defense systems for such missions.

(3) **SUBMISSION.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report containing—

(A) the analysis of alternatives under paragraph (1); and

(B) a certification by the Secretary that such analysis is sufficient.

(b) **ASSESSMENT.**—Not later than February 28, 2021, the Director of the Defense Intelligence Agency, and the head of any other element of the intelligence community that the Secretary of Defense determines appropriate, shall submit to the congressional defense committees an assessment of the following:

(1) How the development and deployment of regional terminal high altitude area defense systems and Aegis ballistic missile defense systems to conduct longer-range missile defense missions would be perceived by near-peer foreign countries and rogue nations.

(2) How such near-peer foreign countries and rogue nations would likely respond to such deployments.

SEC. 1657. NEXT GENERATION INTERCEPTORS.

(a) **NOTIFICATION OF CHANGED REQUIREMENTS.**—During the acquisition and development process of the next generation interceptor program, not later than seven days after the date on which any changes are made to the requirements for such program that are established in the equivalent to capability development documentation, the Director of the Missile Defense Agency shall notify the congressional defense committees of such changes.

(b) **BRIEFING ON CONTRACT.**—Not later than 14 days after the date on which the Director awards a contract for the next generation interceptor, the Director shall provide the congressional defense committees a briefing on such contract, including with respect to the cost, schedule, performance, and requirements of the contract.

(c) **REPORT ON GROUND-BASED MIDCOURSE DEFENSE SYSTEM.**—

(1) **REQUIREMENT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense, in coordination with the Under Secretary of Defense for Policy, the Director of the Missile Defense Agency, and the Commander of the United States Northern Command, shall submit to the congressional defense committees a report on the ground-based midcourse defense system.

(2) **MATTERS INCLUDED.**—The report under paragraph (1) shall include the following:

(A) An explanation of how contracts in existence as of the date of the report could be used to reestablish improvements and sustainment for kill vehicles and boosters for the ground-based midcourse defense system.

(B) An explanation of how such system could be improved through service life extensions or pre-planned product improvements to address some of the requirements of the next generation interceptor by 2026, including an identification of the costs, schedule, and any risks.

(C) A description of the costs and schedule with respect to restarting booster production to field 20 additional interceptors by 2026.

(D) An analysis of policy implications with respect to the requirements for the ground-based midcourse defense system.

SEC. 1658. OVERSIGHT OF NEXT GENERATION INTERCEPTOR PROGRAM.

(a) **FINDINGS; SENSE OF CONGRESS.**—

(1) **FINDINGS.**—Congress finds that the Secretary of Defense discovered major technical problems with the redesigned kill vehicle program, which led to cancelling the program in August 2019 and caused significant delays to the improved defense of the United States against rogue nation ballistic missile threats and wasted \$1,200,000,000.

(2) **SENSE OF CONGRESS.**—It is the sense of Congress that the Secretary of Defense should ensure robust oversight and accountability for the acquisition of the future next generation interceptor program to avoid making the same errors that were experienced in the redesigned kill vehicle effort.

(b) **INDEPENDENT COST ASSESSMENT AND VALIDATION.**—

(1) **ASSESSMENT.**—The Director of Cost Assessment and Program Evaluation shall conduct an independent cost assessment of the next generation interceptor program.

(2) **VALIDATION.**—The Under Secretary of Defense for Acquisition and Sustainment shall validate the preliminary cost assessment conducted under paragraph (1) that will be used to inform the award of the contract for the next generation interceptor.

(3) **SUBMISSION.**—Not later than the date on which the Director of the Missile Defense Agency awards a contract for the next generation interceptor, the Secretary of Defense shall submit to the congressional defense committees a report containing the preliminary independent cost assessment under paragraph (1) and the validation under paragraph (2).

(c) **FLIGHT TESTS.**—In addition to the requirements of section 2399 of title 10, United States Code, the Director of the Missile Defense Agency may not make any decision regarding the initial production, or equivalent, of the next generation interceptor unless the Director has—

(1) certified to the congressional defense committees that the Director has conducted not fewer than two successful intercept flight tests of the next generation interceptor; and

(2) provided to such committees a briefing on the details of such tests, including with respect to the operational realism of such tests.

SEC. 1659. MISSILE DEFENSE COOPERATION BETWEEN THE UNITED STATES AND ISRAEL.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the strong and enduring relationship between the United States and Israel is in the national security interest of both countries;

(2) the memorandum of understanding signed by the United States and Israel on September 14, 2016, including the provisions of the memorandum relating to missile and rocket defense cooperation, continues to be a critical component of the bilateral relationship;

(3) the United States and Israel should continue government-to-government collaboration and information sharing of technical data to investigate the potential operational use of Israeli missile defense systems for United States purposes; and

(4) in addition to the existing Israeli missile defense interceptor systems, there is potential for developing and incorporating directed energy platforms to assist the missile defense capabilities of both the United States and Israel.

(b) **COOPERATION.**—The Secretary of Defense may seek to extend existing cooperation with Israel to carry out, on a joint basis with Israel, research, development, test, and evaluation activities to establish directed energy capabilities that address missile threats to the United States, the deployed members of the Armed Forces of the United States, or Israel. The Secretary shall ensure that any such activities are conducted—

Subtitle C—Space Technology Advancement Report (STAR) Act of 2020

SEC. 1721. SHORT TITLE.

This subtitle may be cited as the “Space Technology Advancement Report (STAR) Act of 2020”.

SEC. 1722. FINDINGS.

Congress finds the following:

(1) As stated in the United States-China Economic and Security Commission’s 2019 Report to Congress, the United States retains many advantages over the People’s Republic of China (PRC) in space, including—

(A) the organization and technical expertise of its space program;

(B) the capabilities of the National Aeronautics and Space Administration for human spaceflight and exploration;

(C) its vibrant commercial space sector;

(D) its long history of space leadership; and

(E) many international partnerships.

(2) The PRC seeks to establish a leading position in the economic and military use of outer space and views space as critical to its future security and economic interests.

(3) The PRC’s national-level commitment to establishing itself as a global space leader harms United States interests and threatens to undermine many of the advantages the United States has worked so long to establish.

(4) For over 60 years, the United States has led the world in space exploration and human space flight through a robust national program that ensures NASA develops and maintains critical spaceflight systems to enable this leadership, including the Apollo program’s Saturn V rocket, the Space Shuttle, the International Space Station and the Space Launch System and Orion today.

(5) The Defense Intelligence Agency noted in its 2019 “Challenges to U.S. Security in Space” report that the PRC was developing a national super-heavy lift rocket comparable to NASA’s Space Launch System.

(6) The United States space program and commercial space sector risks being hollowed out by the PRC’s plans to attain leadership in key technologies.

(7) It is in the economic and security interest of the United States to remain the global leader in space power.

(8) A recent report by the Air Force Research Laboratory and the Defense Innovation Unit found that China’s strategy to bolster its domestic space industry includes a global program of theft and other misappropriation of intellectual property, direct integration of state-owned entities and their technology with commercial startups, the use of front companies to invest in United States space companies, vertical control of supply chains, and predatory pricing.

(9) The United States Congress passed the Wolf Amendment as part of the Fiscal Year 2012 Consolidated and Further Continuing Appropriations Act (Public Law 112-55) and every year thereafter in response to the nefarious and offensive nature of Chinese activities in the space industry.

(i) theft by the PRC of United States intellectual property through technology transfer requirements or otherwise; and

In selecting a replacement vessel, the owner or operator shall give primary consideration to—

“(1) the commercial viability of the vessel;

“(2) the utility of the vessel with respect to the operating requirements of the owner or operator; and

“(3) ensuring that the commercial and military utility of any replacement vessel is not less than that of the initial vessel.

“§53207. Payments

“(a) **ANNUAL PAYMENT.**—Subject to the availability of appropriations for such purpose and the other provisions of this chapter, the Secretary shall pay to the owner or operator of a vessel covered by an operating agreement under this chapter an amount equal to \$6,000,000 for each vessel covered by the agreement for each fiscal year that the vessel is covered by the agreement. Such amount shall be paid in equal monthly installments on the last day of each month. The amount payable under this subsection may not be reduced except as provided by this section.

“(b) **CERTIFICATION REQUIRED FOR PAYMENT.**—As a condition of receiving payment under this section for a fiscal year for a vessel, the owner or operator of the vessel shall certify, in accordance with regulations issued by the Secretary, that the vessel has been and will be operated in accordance with section 53206 for at least 320 days during the fiscal year. Days during which the vessel is drydocked, surveyed, inspected, or repaired shall be considered days of operation for purposes of this subsection.

“(b) TERMS OF AGREEMENT.—The terms of an agreement under this section—

“(1) shall provide that upon request by the Secretary of Defense during time of war or national emergency, or whenever determined by the Secretary of Defense to be necessary for national security or contingency operation (as that term is defined in section 101 of title 10), the owner or operator shall make available commercial transportation resources (including services) described in subsection (d) to the Secretary of Defense;

“(2) shall include such additional terms as may be established by the Secretary of Transportation and the Secretary of Defense; and

“(3) shall allow for the modification or addition of terms upon agreement by the Secretary of Transportation and the owner or operator and the approval by the Secretary of Defense.

“(c) PARTICIPATION AFTER EXPIRATION OF OPERATING AGREEMENT.—Except as provided by section 53206, the Secretary may not require, through an emergency preparedness agreement or an operating agreement, that an owner or operator of a vessel covered by an operating agreement continue to participate in an emergency preparedness agreement after the operating agreement has expired according to its terms or is otherwise no longer in effect. After the expiration of an emergency preparedness agreement, a owner or operator may voluntarily continue to participate in the agreement.

“(d) RESOURCES MADE AVAILABLE.—The commercial transportation resources to be made available under an emergency preparedness agreement shall include vessels or capacity in vessels, terminal facilities, management services, and other related services, or any agreed portion of such nonvessel resources for activation as the Secretary of Defense may determine to be necessary, seeking to minimize disruption of the owner or operator’s service to commercial customers.

“(e) COMPENSATION.—

“(1) IN GENERAL.—Each emergency preparedness agreement under this section shall provide that the Secretary of Defense shall pay fair and reasonable compensation for all commercial transportation resources provided pursuant to this section.

“(2) SPECIFIC REQUIREMENTS.—Compensation under this subsection—

“(A) shall not be less than the owner or operator’s commercial market charges for like transportation resources;

“(B) shall be fair and reasonable considering all circumstances;

“(C) shall be provided from the time that a vessel or resource is required by the Secretary of Defense until the time it is redelivered to the owner or operator and is available to reenter commercial service; and

“(D) shall be in addition to and shall not in any way reflect amounts payable under section 53207.

“(f) TEMPORARY REPLACEMENT VESSELS.—Notwithstanding section 53302(a), 55304, 55305, or 55314, section 2631 of title 10, or any other cargo preference law of the United States—

“(1) an owner or operator may operate or employ in foreign commerce a foreign-flag vessel or foreign-flag vessel capacity as a temporary replacement for a vessel of the United States or

vessel of the United States capacity that is activated by the Secretary of Defense under an emergency preparedness agreement or a primary Department of Defense sealift readiness program; and

“(2) such replacement vessel or vessel capacity shall be eligible during the replacement period to transport preference cargoes subject to sections 55302(a), 55304, 55305, and 55314 and section 2631 of title 10 to the same extent as the eligibility of the vessel or vessel capacity replaced.

“(g) REDELIVERY AND LIABILITY OF THE UNITED STATES FOR DAMAGES.—

“(1) IN GENERAL.—All commercial transportation resources activated under an emergency preparedness agreement shall, upon termination of the period of activation, be redelivered to the owner or operator in the same good order and condition as when received, less ordinary wear and tear, or the Secretary of Defense shall fully compensate the owner or operator for any necessary repair or replacement.

“(2) LIMITATION ON UNITED STATES LIABILITY.—Except as may be expressly agreed in an emergency preparedness agreement, or as otherwise provided by law, the Government shall not be liable for disruption of an owner or operator’s commercial business or other consequential damages to an owner or operator arising from the activation of commercial transportation resources under an emergency preparedness agreement.

“§ 53209. Regulatory relief

“(a) OPERATION IN FOREIGN COMMERCE.—An owner or operator for a vessel included in an operating agreement under this chapter may operate the vessel in the foreign commerce of the United States without restriction.

“(b) OTHER RESTRICTIONS.—The restrictions of section 55305(a) concerning the building, rebuilding, or documentation of a vessel in a foreign country shall not apply to a vessel for any day the operator of the vessel is receiving payments for the operation of that vessel under an operating agreement under this chapter.

“(c) TELECOMMUNICATIONS EQUIPMENT.—The telecommunications and other electronic equipment on an existing vessel that is redocumented under the laws of the United States for operation under an operating agreement under this chapter shall be deemed to satisfy all Federal Communications Commission equipment certification requirements, if—

“(1) such equipment complies with all applicable international agreements and associated guidelines as determined by the country in which the vessel was documented immediately before becoming documented under the laws of the United States;

“(2) that country has not been identified by the Secretary as inadequately enforcing international regulations as to that vessel; and

“(3) at the end of its useful life, such equipment shall be replaced with equipment that meets Federal Communications Commission equipment certification standards.

“§ 53210. Special rule regarding age of participating Fleet vessels

“Any age restriction under section 53202(b)(4) shall not apply to a participating Fleet vessel during the 30-month period beginning on the date the vessel begins operating under an operating agreement under this chapter, if the Secretary of Transportation determines that the owner or operator of the vessel has entered into an arrangement to obtain and operate under the operating agreement for the participating Fleet vessel a replacement vessel that, upon commencement of such operation, will be eligible to be included in the Fleet under section 53202(b).

“§ 53211. Regulations

“The Secretary of Transportation and the Secretary of Defense may each prescribe rules as necessary to carry out their respective responsibilities under this chapter.

“§ 53212. Authorization of appropriations

“There is authorized to be appropriated for payments under section 53207, \$60,000,000 for each of fiscal years 2021 through 2035, to remain available until expended.

“§ 53213. Acquisition of Fleet vessels

“(a) IN GENERAL.—Upon replacement of a Fleet vessel under an operating agreement under this chapter, and subject to agreement by the owner or operator of the vessel, the Secretary of Transportation may, subject to the concurrence of the Secretary of Defense, acquire the vessel being replaced for inclusion in the National Defense Reserve Fleet.

“(b) REQUIREMENTS.—To be eligible for acquisition by the Secretary of Transportation under this section a vessel shall—

“(1) have been covered by an operating agreement under this chapter for not less than three years; and

“(2) meet recapitalization requirements for the Ready Reserve Force.

“(c) FAIR MARKET VALUE.—A fair market value shall be established by the Maritime Administration for acquisition of an eligible vessel under this section.

“(d) APPROPRIATIONS.—Vessel acquisitions under this section shall be subject to the availability of appropriations. Amounts made available to carry out this section shall be derived from amounts authorized to be appropriated for the National Defense Reserve Fleet. Amounts authorized to be appropriated to carry out the Maritime Security Program may not be used to carry out this section.”

(b) CLERICAL AMENDMENT.—The table of chapters for subtitle VII of title 46, United States Code, is amended by adding at the end the following:

“532. Tanker Security Fleet 53201”.

(c) DEADLINE FOR ACCEPTING APPLICATIONS.—

(1) IN GENERAL.—The Secretary of Transportation shall begin accepting applications for enrollment of vessels in the Tanker Security Fleet established under chapter 532 of title 46, United States Code, as added by subsection (a), by not later than 30 days after the date of the enactment of this Act.

(2) APPROVAL.—Not later than 90 days after receipt of an application for the enrollment of a vessel in the Tanker Security Fleet, the Secretary, in coordination with the Secretary of Defense, shall—

(A) approve the application and enter into an operating agreement with the applicant; or

(B) provide to the applicant a written explanation for the denial of the application.

DIVISION D—FUNDING TABLES**SEC. 4001. AUTHORIZATION OF AMOUNTS IN FUNDING TABLES.**

(a) IN GENERAL.—Whenever a funding table in this division specifies a dollar amount authorized for a project, program, or activity, the obligation and expenditure of the specified dollar amount for the project, program, or activity is hereby authorized, subject to the availability of appropriations.

(b) MERIT-BASED DECISIONS.—A decision to commit, obligate, or expend funds with or to a specific entity on the basis of a dollar amount authorized pursuant to subsection (a) shall—

(1) be based on merit-based selection procedures in accordance with the requirements of sections 2304(k) and 2374 of title 10, United States Code, or on competitive procedures; and

(2) comply with other applicable provisions of law.

(c) RELATIONSHIP TO TRANSFER AND PROGRAMMING AUTHORITY.—An amount specified in the funding tables in this division may be transferred or reprogrammed under a transfer or reprogramming authority provided by another provision of this Act or by other law. The transfer or reprogramming of an amount specified in such funding tables shall not count against a ceiling on such transfers or reprogrammings

under section 1001 or section 1512 of this Act or any other provision of law, unless such transfer or reprogramming would move funds between appropriation accounts.

(d) *APPLICABILITY TO CLASSIFIED ANNEX.*—This section applies to any classified annex that accompanies this Act.

(e) *ORAL AND WRITTEN COMMUNICATIONS.*—No oral or written communication concerning any

amount specified in the funding tables in this division shall supersede the requirements of this section.

DIVISION E—NATIONAL ARTIFICIAL INTELLIGENCE INITIATIVE ACT OF 2020

SEC. 5001. SHORT TITLE.

This division may be cited as the “National Artificial Intelligence Initiative Act of 2020”.

SEC. 5002. FINDINGS.

Congress finds the following:

(1) Artificial intelligence is a tool that has the potential to change and possibly transform every sector of the United States economy and society.

(2) The Federal Government should continue to play an important role advancing research, development, standards, and education activities in artificial intelligence through coordination and collaboration between government, academia, and the private sector to leverage the intellectual, physical, and digital resources of each stakeholder.

(3) The Federal Government lacks clear understanding of the capabilities of artificial intelligence and its potential to affect various social and economic sectors, including ethical concerns, national security implications, and workforce impacts.

(4) Researchers from academia, Federal laboratories, and much of the private sector have limited access to many high-quality datasets, computing resources, or real-world testing environments to design and deploy safe and trustworthily artificial intelligence systems.

(5) There is a lack of standards and benchmarking for artificial intelligence systems that academia and the public and private sec-

tors can use to evaluate the performance of these systems before and after deployment.

(6) Artificial intelligence is increasingly becoming a highly interdisciplinary field with expertise required from a diverse range of scientific and other scholarly disciplines that traditionally work independently and continue to face cultural and institutional barriers to large scale collaboration.

(7) Current Federal investments and funding mechanisms are largely insufficient to incentivize and support the large-scale interdisciplinary and public-private collaborations that will be required to advance trustworthy artificial intelligence systems in the United States.

(8) The United States education pipeline for artificial intelligence fields faces significant challenges. Not only does the artificial intelligence research field lack the gender and racial diversity of the American population as a whole, but it is failing to both retain researchers and adequately support educators to meet the demands of the next generation of students studying artificial intelligence.

(9) In order to help drive forward advances in trustworthily artificial intelligence across all sectors and to the benefit of all Americans, the Federal Government must provide sufficient resources and use its convening power to facilitate the growth of artificial intelligence human capital, research, and innovation capacity in academia and other nonprofit research organizations, companies of all sizes and across all sectors, and within the Federal Government.

The SPEAKER pro tempore. The bill, as amended, is debatable for 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Armed Services.

The gentleman from Washington (Mr. SMITH) and the gentleman from Texas (Mr. THORNBERRY) each will control 30 minutes.

The Chair recognizes the gentleman from Washington.

GENERAL LEAVE

Mr. SMITH of Washington. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and to include extraneous material on H.R. 6395.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. SMITH of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have before us today the National Defense Authorization

Act for Fiscal Year 2021. It is an important piece of legislation that we have done every year for 59 consecutive years. We are going for 60 this year.

It is incredibly important that the United States Congress, the House and the Senate, exercise our oversight over the Department of Defense and our national security budget and priorities, and this bill reflects that.

I want to start by thanking a lot of people who have done an enormous amount of work to make this possible. We started in committee a couple of weeks ago. We had over 650 amendments submitted to the original mark of the chairman and the subcommittee marks. We processed those amendments and actually adopted 475 amendments in committee.

I want to thank our staff more than I possibly can for the incredible amount of work that they did to go through all of those amendments, to work with Members, to work with various interested parties to get us to that product. I am very pleased that we were able to get that done, and we passed the bill out of the Armed Services Committee unanimously, 56-0, with broad support.

At this point, I want to thank the ranking member of the committee, Mr. THORNBERRY, for his incredible leadership during this process. He has been a terrific partner, both when he was chairman of the committee and now that he is the ranking member of the committee.

As all of you know, this will be his last NDAA, as he is retiring from Congress. I want to once again thank him for his great work and his great leadership and really emphasize a point that I have made many, many times.

The Armed Services Committee works in a bipartisan way and produces a legislative product in a manner that I think should be an example for all of Congress. That does not happen by accident. It happens because of leadership.

When Mr. THORNBERRY became chairman of the committee and I was ranking member, MAC showed that leadership from the very start. He understood the priority of getting the bill done and of working in a bipartisan way to do that. Because of that leadership, that example has been set for the committee, and we have been able to continue to accomplish that.

I also want to thank the Rules Committee. That is not an easy job in the best of times, and, as we all know, these are not the best of times. 752 amendments were submitted to be added to this bill this year. The Rules Committee had to sift through and process all of those amendments to produce before you the rule that we all just approved today.

I thank their staff for doing that incredible work and do want to pause just one moment to thank the staff for the work they did in light of COVID-19. We all know that things cannot be run the way they normally are. We had to

make adjustments. The staff in particular had to make those adjustments just getting our committee hearing room set up so that we could accommodate a social-distancing markup. It took an enormous amount of time and technological know-how. The staff did a fabulous job to get us to this point.

I guess what I am saying is it is no accident that we are here. A lot of work went to get us to the point to have what I think is an excellent product.

Again, we can't forget the central premise behind this product, and that is to support our national security policy and to make sure that the men and women who serve in our military, whom we assign with the task of implementing that policy, have the tools and training and equipment that they need to perform whatever tasks we ask them to do.

We can and should have a robust debate about what those jobs should be, what our national security priorities are, what we should fund, what we should do. But something we should never disagree on is the idea that whatever that is that we decide, the troops, the men and women who are charged with implementing it, are well equipped, protected, and supported in carrying out that mission. And that is what we attempt to do.

This year's bill had agreement from last year's budget agreement on our top-line budget of \$741 billion. I think that was a good agreement that we reached on the defense and nondefense discretionary budget.

And I will say, going forward, this is one of the greatest challenges that we are going to face. We had a difficult budget environment before COVID-19. It is even more difficult now. We are going to have to make some very difficult choices in the decade ahead about what to fund, not just to meet our national security priorities, but to meet all of our priorities within that budget context.

I do want to thank the Secretary of Defense, Mark Esper, for his leadership in this regard. The Pentagon has gone to great lengths to do a bottom-up review, to really take a hard look at where they are spending money and to find savings, sometimes in the tens of billions of dollars. That type of effort is going to have to be ongoing, going forward, if we are going to be able to have a rational national security policy.

I also want to commend a number of the Members in our committee who have worked to really focus on diversity in this year's bill. I believe, in addition to the COVID-19 challenge that we face, the reckoning that we have as a country for the historic racism, discrimination, and bigotry that we have wrestled with, it is enormously important that we address that. This is society-wide, but within the Department of Defense there are issues to work on there as well.

We fund, to the tune of \$17 million, aggressive efforts to increase the rela-

tionship between the Department of Defense and historically Black colleges and universities, to create and grow the pipeline of diversity into the Department of Defense, jobs both civilian and Active Duty.

We also have now created a chair of diversity within DOD, whose job it is to look and make sure that we are, in fact, hiring and promoting people in a way that is equitable, and we have also set aside a special inspector general to examine that question.

Also, thanks to the leadership of Congressman ANTHONY BROWN and Congresswoman JACKIE SPEIER, amongst others, we are looking at how the UCMJ is implemented. Is it being implemented in a way that is fair and unbiased.

These are all efforts to create the diversity that we need within our Armed Forces and the diversity we need within our society.

Overall, I am very, very pleased with this product. And more than anything, I am pleased with the people who worked together to put it together in a bipartisan way.

There are a lot of diverse opinions, not just Republican and Democrat, but within each party. As Mr. THORNBERRY will attest, we are not all the same within our own parties. Even with that diversity, we were able to work together and produce what I think is an excellent product that we should all be proud to support.

Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, first, I want to say, like all my colleagues, I mourn the passing of JOHN LEWIS. As someone said this weekend, he lived a consequential life and, I would add, one that we all admire.

Mr. Speaker, on the bill before us, I am very grateful for the kind words of Chairman SMITH, as well as for the generous amendment he offered in committee related to the name of this bill and also the very generous response of all Members on both sides of the aisle.

I will confess, Mr. Speaker, that all of this naming business makes me a

little uncomfortable because this bill is not about any of us. It is about the men and women who serve our Nation, their families, and American national security. As the chairman points out, that was the focus of this bill for 59 straight years. With his leadership and the leadership of Senator REED and Senator INHOFE, I am sure that it will be number 60.

Obviously, I do not agree with everything that is in the bill, but on balance, it is a good bill. In some particular areas, it is a very good bill. I want to highlight, for example, the family resiliency and readiness provisions, thanks to good work from Mr. KELLY and Ms. SPEIER.

I want to highlight a number of cyber and artificial intelligence provisions, thanks to the good work of Mr. LANGEVIN, Ms. STEFANIK, Mr. GALLAGHER, who chaired one of the committees we set up.

A number of provisions in this bill strengthen relationships with partners and allies, and among others who have worked on this are Mr. GALLEGO, Mr. CROW, Ms. CHENEY, and Mr. TURNER. There is a lot of very good substance in this bill.

Bringing it all together, I want to credit the leadership of the chairman, not only for assembling a bill of good substance, but for passing it by a vote of 56-0 and doing so in a very, very challenging time.

I join him in applauding the staff for not just the substance but the logistics, all that is required to bring this bill to us.

Finally, Mr. Speaker, I can't help but note that whenever there is a crisis in this country, we turn to the military, and we have seen that several times just within the past few months. So the thrust of this bill is to say, okay, if we are going to turn to the military in times of crisis, then we need to support them with the best training, the best equipment, the best support of all kinds that we can provide. Because they are there for us, we need to be there for them.

That is the thrust of this bill this year, as it has been in the past, and I believe it certainly deserves Members' support as we move forward.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield 3½ minutes to the gentleman from Rhode Island (Mr. LANGEVIN), the chairman of the Intelligence and Emerging Threats and Capabilities Subcommittee.

Mr. LANGEVIN. Mr. Speaker, I rise today in strong support of H.R. 6395, the National Defense Authorization Act for Fiscal Year 2021.

I want to begin by congratulating Chairman SMITH and Ranking Member THORNBERRY for the strong bipartisan bill, which was unanimously passed by the committee 56-0. I am particularly pleased with the provisions in our Intelligence and Emerging Threats and Capabilities portion of the bill.

My subcommittee's provisions reflect key national security interests and critical defense oversight areas, including intelligence, cyber, science and technology, and Special Operations Forces.

Mr. Speaker, I want to thank Ranking Member STEFANIK for her bipartisan cooperation, and I want to thank the other members of the subcommittee for their extraordinary input that make this mark so strong. Sound collaboration is what sets this committee apart as we maintain the now 60-year tradition of passing an annual defense authorization bill to support members of the military and provide for our national security. The ranking member, the vice chair, Mr. CROW, and my IETC colleagues exemplify this spirit.

I would also like to thank, of course, the staff, who without their input and work, this would not be possible. Committee staff Shannon, Josh, Jessica, Bess, Eric, Jason, and Caroline; my military legislative assistant, Caroline; and fellows Matt and Allison were instrumental in its development, and my legislative director, Nick.

Mr. Speaker, our subcommittee mark aligns intelligence and security capabilities to the National Defense Strategy, and I am particularly proud that it incorporates recommendations from two commissions comprising some of our Nation's most forward-thinking defense experts.

The National Security Commission on Artificial Intelligence's work will lay the foundation for the country's workforce, ethics, and security requirements as machine learning and artificial intelligence tools become more prevalent.

The Cyberspace Solarium Commission, which I had the pleasure to serve on with my colleague, Congressman GALLAGHER, who co-chaired the commission, has provided a strategic vision of layered cyber deterrence, and this bill includes nearly 20 recommendations to implement it.

This bill enriches the Department of Defense science and technology ecosystem. We add over \$600 million in science and technology funding to confront rising science powers.

We restore \$135 million to the cooperative threat reduction account, fixing a devastating cut in the President's budget.

We add over \$1 billion in a pandemic preparedness and resilience national security fund.

Mr. Speaker, great power competition also is a race for talent. This bill diversifies the Department's workforce and emphasizes collaboration with historically Black colleges and universities and minority institutions. It will also protect foreign students at our great universities from being deported. It also ensures that Special Operations Forces remain the most talented, professional, agile, and ready force postured for high-end missions.

Finally, our bill funds the Navy's number one procurement priority, the

Columbia-class submarine, and it restores funding for two Virginia-class boats, one of which had been cut by the President. I know what amazing capabilities these submarines provide because they are built in my district in Rhode Island by the hardworking men and women of Electric Boat, and I was proud to work with Chairman COURTNEY on these provisions.

Mr. Speaker, this bill demonstrates our commitment to national security while increasing oversight and reducing redundancy to ensure our taxpayer dollars are spent efficiently and effectively, and I urge my colleagues to support it.

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. TURNER), the ranking member of the Subcommittee on Strategic Forces.

Mr. TURNER. Mr. Speaker, I want to join Ranking Member THORNBERRY in noting the passing of JOHN LEWIS. His heroism and his eloquence challenged us all, and he will be sorely missed.

Mr. Speaker, I also want to begin by thanking Chairman ADAM SMITH. Our chairman reached out to the other side and said that he wanted to do a bipartisan bill. That sounds easy, but in this environment, it is not. It is highly substantive. It takes negotiation. It takes a lot more work than a partisan bill does. And he achieved that with a unanimous vote coming out of committee. That takes compromise, but this bill does not compromise at all for national security.

Mr. Speaker, I would like to recognize our ranking member, who will be retiring. I have served with him for 18 years. I have appreciated his mentorship, and I am very glad that this bill bears his name, in honor of his time here.

This bill also authorizes the administration's full request for the National Nuclear Security Administration. These funds are critical to ensuring our nuclear weapons enterprise remains safe, secure, and effective. We have put off this investment too long; we do not have any additional time.

Our nuclear forces are at work every day. They stand as a silent testament to deter our adversaries and to support our allies. Without our nuclear forces as a credible and silent deterrent, the world would be less safe.

This bill fully funds the ground-based strategic deterrent, the replacement for the Minuteman III. It is critical that Congress support this effort with this funding.

The bill also provides progress for Space Force, provides stability for the National Security Space Launch program, and makes investments in missile defense by funding two of the Missile Defense Agency's highest priorities, including the 10 SM-3 Block IIA and the eighth THAAD battery.

The NDAA will provide support to the people who defend our country. Our troops are receiving a 3 percent pay raise for the second year in a row. This

bill expands the rights of men and women in uniform and their families residing in military housing and provides more oversight over the private companies responsible for maintaining the health and safety of these homes.

This bill also provides remarkable strides in military justice. Over the last decade, we made great strides in military justice.

This bill also provides protection for sexual assault victims. They are gaining more rights on appeal, greater access to court records, and additional protection from retaliatory punishment.

I also want to thank Congressman ANTHONY BROWN for his work on advancing diversity and equality in our servicemember ranks. I was very proud to work with Congressman BROWN to advance concrete steps to promote diversity. This year's NDAA creates the position of chief diversity officer for DOD and establishes a diversity and inclusion advisory council. It creates more scholarship opportunities in historically Black colleges.

The NDAA enhances our national security and improves the lives of our servicemembers. I urge all of my colleagues to support it. Any cuts in funding to this bill would severely weaken our Nation at a time when we are facing some of our clearest threats.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee (Mr. COOPER), the chairman of the Strategic Forces Subcommittee.

Mr. COOPER. Mr. Speaker, I am proud today to speak on behalf of the Strategic Forces portion of the MAC THORNBERRY National Defense Authorization Act for Fiscal Year 2021.

Mr. Speaker, I would like to thank Ranking Member THORNBERRY for his outstanding 25 years of service in this Congress.

Mr. Speaker, I would also like to extend my thanks to Ranking Member TURNER and all of our subcommittee members for their contributions to the bill. Our subcommittee has particularly heavy, often technical responsibilities.

This bill does make America stronger and safer by improving the odds for peace and stability with regard to our nuclear forces, hypersonic weapons, and space and missile defense.

Preventing a nuclear attack is the first responsibility of the U.S. Government. It is absolutely imperative to ensure our nuclear forces are safe, secure, and reliable and that we strengthen our nonproliferation efforts. This mark ensures that the Departments of Defense and Energy are wisely spending their budgets in a responsible and efficient manner.

Regarding space, we continue our focus on protecting our space assets. The bill also focuses on near-term priorities for hypersonic weapons in a way that avoids increasing the risks of ambiguity and miscalculation.

We continue oversight in missile defense, including supporting U.S.-Israeli

cooperation. In addition, after the failure of the redesigned kill vehicle program, the bill strengthens oversight of the next-generation interceptor program.

Mr. Speaker, before I close, I would like to thank our outstanding staff: Leonor Tomero, Jason Schmid, Maria Vastola, Grant Schneider, and Zach Taylor.

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentleman from Colorado (Mr. LAMBORN), the distinguished ranking member of the Subcommittee on Readiness.

Mr. LAMBORN. Mr. Speaker, today, I rise in strong support of H.R. 6395, the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021.

Sun Tzu said that "the art of war teaches us to rely not on the likelihood of the enemy's not coming, but on our own readiness to receive him; not on the chance of his not attacking, but rather on the fact that we have made our position unassailable."

As reported out of committee, this NDAA funds essential military readiness to support the National Defense Strategy.

The legislation does a number of things. It makes significant investments in operations and maintenance and military construction; invests in essential capabilities to retain military overmatch, including cyber, space, hypersonics, ground-based strategic deterrent, and artificial intelligence; begins recapitalizing our surge sealift fleet; addresses shortfalls in refueling capacity; requires that DOD develop a long-term sustainment strategy; codifies the DOD Office of Economic Adjustment; improves energy and critical infrastructure resilience; requires responsible water use by installations; improves transparency regarding PFAS releases; authorizes National Guard access to DOD funds for PFAS remediation; and continues military housing so as to protect the families.

Mr. Speaker, I want to thank my friend and colleague, JOHN GARAMENDI, for his leadership on the Readiness Subcommittee, and Chairman SMITH and Ranking Member THORNBERRY for their leadership to get this to the floor. Representative THORNBERRY has left a strong mark on this Nation's national defense, and we appreciate his dedication. This legislation reflects the hard work of Members on both sides as well as the bipartisan staff.

Mr. Speaker, this morning, I voted against the rule. I did so because the Democratic leadership appears to be playing political games that could undermine all of this good work. One amendment would reduce the defense top line, if accepted, by 10 percent. By requiring the Department to fully fund all the personnel and medical accounts, all other accounts would have to decrease by 16 percent, more than twice the cuts imposed under sequestration. That would devastate readiness.

Rules also made in order include two massive land amendments affecting

Colorado and Arizona and other States. These have nothing to do with national defense, and they are opposed by many citizens of those States.

□ 1400

Using servicemembers and their families as pawns to support a partisan agenda is just wrong, so I truly hope this remains a bill that I can vote for after this debate.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Connecticut (Mr. COURTNEY), the chairman of the Seapower and Projection Forces Subcommittee.

Mr. COURTNEY. Mr. Speaker, Article I, Section 8 of the Constitution states: "Congress shall have the power . . . to provide and maintain a Navy." The Seapower and Projection Force's Subcommittee mark in this year's 2021 NDAA rises to that constitutional duty with a coherent, workable shipbuilding plan and a Projection Force mark that ensures air and sealift forces are capable of fulfilling their mission.

It became abundantly clear when the administration sent over its 2021 budget that we were facing daunting challenges in our subcommittee's jurisdiction. Airlift and sealift were underresourced; the Navy shipbuilding budget was cut by 17 percent from last year; the request for new ships as verified by the Congressional Research Service was seven, the lowest since 2009; and the statutory requirement for the Department of Defense to submit a 30-year shipbuilding plan was, and continues to be, brazenly ignored.

Our mark corrects these hits to our shipbuilding industrial base and is aligned to the Navy's actual requested priorities that were not included in February's budget. This includes nine ships, including the first Columbia-class ballistic submarine, two Arleigh Burke destroyers, and two Virginia-class submarines, to name a few.

I want to foot-stomp that the mark reverses one of the most compounding elements of the administration's budget: the elimination of a Virginia-class submarine, which would disrupt the two-a-year build rate for the first time in a decade that Congress has diligently sustained.

We have heard Navy officials confirm that there is industrial base capacity to support a second sub in 2021, and that platform is their number one unfunded priority. Its production represents the most cost-effective way to mitigate our declining submarine fleet.

Even more importantly, we heard from combatant commands in the Pacific and Atlantic about the need to stop that decline and retain our undersea superiority as the most effective deterrent to keep the peace. We fixed that flaw in our work, and we did it underneath the bipartisan budget caps.

Mr. Speaker, all of this was accomplished with teamwork, and I want to thank my friend and colleague, Ranking Member ROB WITTMAN, all of the subcommittee members, and our amazing staff: Phil MacNaughton, Dave

Sienicki, Kelly Goggin, and Sean Falvey. And I also want to thank Lieutenant Commander Cam Massey, our Navy fellow in our office, who was instrumental in getting this fine product.

I urge passage of the Thornberry NDAA.

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentleman from Virginia (Mr. WITTMAN), the distinguished ranking member of the Subcommittee on Seapower and Projection Forces.

Mr. WITTMAN. Mr. Speaker, I thank the ranking member for yielding.

In committee, we went through over 600 amendments and 12 hours of debate to arrive at this point, and we definitely had our share of differences along the way; but, in the end, we were able to come together to arrive at a very good bipartisan bill.

But this floor debate is quite different. The majority has elected to add several nongermane bills to the NDAA at Rules that have nothing to do with defense. And perhaps even more problematic, these bills are partisan and have been recommended that they be vetoed by the President if they were to pass alone. So the majority has decided to tack it on to a must-pass piece of legislation.

We should not use our servicemembers as a tool to achieve a partisan agenda. I voted in opposition to the rule, and I hope that I can vote for final passage of the MAC THORNBERRY National Defense Authorization Act.

I do, though, want to highlight three areas of note that accelerate our national security in the Seapower and Projection Forces Subcommittee. In the undersea warfare, we made the biggest move in the bill by authorizing a second Virginia-class submarine.

It is imperative that we move to accelerate the entirety of the undersea capabilities and say to potential aggressors: Today is not your day. Dismantling aggressor nations is the cornerstone of peace upon which our national security and our collective economy rest.

Another area that I take great pride in supporting is the continued investment in our surge sealift. The authorization of four additional sealift vessels and a new tanker security program are essential elements to getting the Army and Marine Corps to distant shores.

Finally, we continue strong oversight of our existing resources in limiting funds for a deficient KC-46A tanker and a promising but unproven unmanned surface vessel fleet.

Before I conclude, I want to specifically thank Chairman COURTNEY and his team, who led a strong bipartisan mark. Chairman COURTNEY has been tremendous and is a fantastic Seapower Projection Forces chairman, and I look forward to continuing to work with him to deliver the Seapower Projection Forces our Nation needs. He is, indeed, the example of a servant leader and one that works in a bipartisan manner.

My friends, this is a good bill that, in its current form, is worthy of support. I look forward to saying that I was part of passing the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. SPEIER), the chair of the Subcommittee on Military Personnel.

Ms. SPEIER. Mr. Speaker, I thank the chair for yielding and for his outstanding leadership and to Ranking Member THORNBERRY for an outstanding job over his 25 years.

I am proud to speak in support of this bipartisan bill that was passed unanimously out of committee. The subcommittee accepted 111 total amendments: 37 from the Republicans and 74 from the Democrats.

I would like to thank Ranking Member KELLY, whom I enjoyed working with, and the other members of the committee and the herculean work from our staff: Craig, Dave, Hannah, Glenn, Danielle, and from my personal staff, Josh, Yanna, Brian, and Luke.

This bill continues the committee's tradition of improving the lives of servicemembers and their families by authorizing a 3 percent pay raise, requiring standardization and significant improvements to the Exceptional Family Member Program, expanding 24-hour childcare availability and addressing provider shortages, improving sexual assault and intimate-partner violence prevention and response, and delaying the Department's plan to cut the military health system to ensure they are able to respond to future pandemics.

Americans are finally confronting the injustice of systemic racism, and this bill initiates monumental changes in the military by creating a DOD chief diversity officer; establishing a diversity and inclusion council; and requiring the services to establish goals for increasing representation of servicemembers who are women and persons of color up the ranks, stripping personally identifiable information at promotion boards to improve fairness, creating a special inspector general for racial and ethnic disparities to review discrepancies in the military justice and personnel systems, and to investigate white supremacist activities and adding a violent extremism article to the Uniform Code of Military Justice.

It also better protects our servicemembers from sexual and domestic violence by creating a sexual assault prosecution pilot program at the service academies, a system of military court protective orders, and a military-civilian task force on domestic violence.

Mr. Speaker, as I have visited bases throughout the country, I have told our servicemembers and their families what our credo is on the committee: When the servicemember serves, so does his or her family. We have made good on that promise in this bill. We owe it to our brave servicemembers.

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentlewoman from Missouri (Mrs. HARTZLER), the distinguished ranking member of the Subcommittee on Tactical Air and Land Forces.

Mrs. HARTZLER. Mr. Speaker, I rise in support of H.R. 6395, the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021. I am proud it passed unanimously out of committee, and I am grateful it bears the name of a public servant who has fought tirelessly for our men and women in uniform and whose steady, wise leadership has made such a difference. This legislation is a fitting tribute to his enduring legacy.

As the ranking member of the Tactical Air and Land Forces Subcommittee, I thank our subcommittee chairman, DONALD NORCROSS, for his strong spirit of bipartisanship. I would also like to thank the subcommittee staff—Jesse Tolleson; Bill Sutey; Heath Bope; Carla Zepieri; Liz Griffin; and Caroline Kehrl; my personal military legislative director, Chrissi Lee; and Tom Spellman, my military fellow—for their hard work on this legislation.

Within the subcommittee's jurisdiction, this bill recommends authorization of over \$118 billion in needed modernization funding required for our competitive advantage against strategic peer competitors such as Russia and China.

For example, the bill rightfully supports the appropriate mix of fourth- and fifth-generation strike fighters by authorizing funding for 79 F-35 Joint Strike Fighters, 12 F-15EX aircraft, and 24 F/A-18 Super Hornets, including additional funding for advanced procurement to help mitigate current Navy strike shortfalls.

The bill authorizes the necessary funding to support the Army's big six modernization priorities to include long-range precision fires and future vertical lift, all of which are critical in support of the national defense strategy and for credible deterrence.

I am pleased the bill also requires more detailed certifications and justification for decisions relating to retiring critical airborne ISR platforms without a suitable replacement to better manage operational risk to the warfighter.

Outside the subcommittee's jurisdiction, I am pleased this bill includes language directing the Department to develop a strategy for the use of chaplains and nonprofit post-traumatic growth organizations as a behavioral healthcare option for our servicemembers and also report analyzing the risk to U.S. servicemembers due to the dependence on China for our troops' pharmaceutical needs.

The NDAA has always been and should continue to be a product of bipartisan consensus. Putting our troops first and providing them with the resources, equipment, training, and support they need should always be our top priority as Members of Congress.

This is why I have concerns and would oppose any amendment that would effectively cut the defense budget by 10 percent. A cut this size equates to approximately \$73 billion, almost twice that of the fiscal year 2013 sequester.

We have worked hard over the past several years to repair the damage from sequestration. Now is not the time to go backwards.

Mr. Speaker, I urge support of this bill.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. NORCROSS), the chair of the Tactical Air and Land Forces Subcommittee.

Mr. NORCROSS. Mr. Speaker, I thank the chairman for yielding and certainly for his leadership in bringing this bill to the floor and to the ranking member, MAC THORNBERRY, for his years of service to this country. We certainly appreciate it.

This bill continues the Tactical Air and Land Forces Subcommittee's long tradition of bipartisan work to make America's land and air forces the best in the world.

Despite challenges imposed upon us during this COVID crisis, this bill is the result of the hard work under very unusual and demanding circumstances. I thank the members of our committee, certainly our staffs and all of them for their hard work in these challenging times.

I also thank the ranking member, Mrs. HARTZLER, for her leadership and her contributions and certainly working as a bipartisan committee. Our cooperation kept us focused on what truly is important. We have delivered a defense bill that meets the modernization readiness needs of our Nation.

This bill carefully manages our military resources while increasing needed oversight of DOD programs. The bill specifically includes aggressive oversight of the strike fighter aircraft programs, including the F-35, the most expensive program ever attempted by the Department; the Department's development, sustainment, management of manned and unmanned intelligence surveillance and reconnaissance aircraft; and continued oversight of the Army's new modernization strategy with respect to Army aviation, including the Chinook helicopter, combat and tactical vehicles, air and missile defense, the network and soldier lethality.

This defense bill also includes what I believe is one of the more important issues: Buy American provisions, which show we are truly serious about building things here in the U.S. and supporting American workers. I also worked to ensure that the executive branch cannot strip the collective bargaining rights of our vital citizen defense workforce.

I am proud of the hard work this committee has done to serve America's national security interests in this great bill. It deserves our support, and I urge all my colleagues to vote "yes."

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentlewoman from New York (Ms. STEFANIK), the distinguished ranking member of the Subcommittee on Intelligence and Emerging Threats and Capabilities.

Ms. STEFANIK. Mr. Speaker, I thank Ranking Member THORNBERRY for yielding.

I want to start by thanking my subcommittee chair, Mr. LANGEVIN, who is a wonderful colleague to work with. I also thank both of our staffs for the hard work.

As the ranking member on the Subcommittee on Intelligence and Emerging Threats and Capabilities, I would like to highlight the key themes that will ensure the U.S. retains our competitive edge in the future.

First, this bill places special emphasis on basic research and the important contributions that our science and technology ecosystem, including our universities, the DOD labs, and DARPA, provide to our collective national defense, including our pandemic preparedness and response.

This bill also restores a critical social science research program that has provided foundational insights into violent extremism, great power competition, and foreign information operations campaigns.

In sum, this bill provides an additional \$600 million for science and technology investments in critical emerging fields, including AI, autonomous systems, and biotechnology.

□ 1415

Two years ago, I introduced legislation in the NDAA that created the National Security Commission on AI, with the purpose of accelerating and advancing the development of AI across the Federal Government.

Mr. Speaker, I applaud the Commission for their work on this important issue, and I am honored that this bill included 18 of those recommendations. The adoption of these recommendations demonstrates how important AI is and how urgently it must be integrated into not only our weapons systems, but our healthcare, our predictive maintenance efforts, our humanitarian assistance missions, and our cybersecurity.

Our ability to apply AI and other emerging technologies faster than our adversaries will allow us to maintain our competitive edge over Russia and China and prepare our citizens for an AI-enabled future.

Secondly, this bill extends and expands the opportunities for our Special Operations Forces to partner with foreign forces, build critical relationships, and more effectively counter the malign influences of Russia and China.

Furthermore, this bill also increases our investment in the programs that provide care and support for the families of our special operators that have been so critical to our counterterrorism operations over the last 19 years.

Most importantly, as a proud representative of the soldiers and families

of Fort Drum and 10th Mountain Division, this bill will invest in the technology and training necessary to ensure the safety and security of the men and women sent into harm's way.

This bill supports our force protection and military intelligence capabilities to ensure our servicemembers have the tools they need to mitigate hostile actions while they continue their important missions abroad.

As a representative of the most deployed division in the United States Army, currently serving in Afghanistan, my number one priority is force protection and the safety of the brave men and women called into action to protect our national interests.

That said, I am very concerned with any amendments that would slash the defense budget, impact our force protection, or degrade our investment in new technologies. A \$73 billion cut to the defense budget would cause irreparable harm to our military and our readiness and would decimate the very programs that keep our servicemembers safe.

Mr. Speaker, I want to close by thanking Ranking Member THORNBERRY for his leadership and guidance not only this year, but his many years of truly exemplary leadership.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Maine (Mr. GOLDEN), a member of the committee.

Mr. GOLDEN. Mr. Speaker, I thank Chairman SMITH for yielding.

I want to take a moment to talk about an amendment coming forward today having to do with the Servicemembers Civil Relief Act. I think it is particularly important.

Having deployed to Afghanistan and Iraq, I want to paint a picture for you.

Imagine running a nighttime patrol in the mountains of Afghanistan or on the streets of an Iraqi town. I am sure you can appreciate the intense pressure, the stress, the focus required to do the job right and avoid any mistake that could get you or your buddies killed.

Now imagine the patrol is finished. You have got 3 hours to sleep before you need to get up and stand guard for an hour, and after that, you will go on a convoy back to headquarters to get supplies to bring back to the company FOB.

But instead of getting rest, you hop on a satellite phone to make a business call to the United States, where it is 4 p.m., to explain to a company why they can't repossess the family car or foreclose on your house, because even though Congress has passed protections for servicemembers, the company insists you signed a waiver of your SCRA protections.

Congress shouldn't allow this to happen, Mr. Speaker. This amendment would end the use of arbitration clauses that trick servicemembers into signing away their rights under SCRA.

How ridiculous that this amendment is even necessary, but, sadly, it is. I

have seen it myself on deployments. It does happen. It has happened to the men and women I served with.

Congress should do something about this. These people are being put into stressful financial situations, and their families are, too, while they are serving our country and fighting for us.

Mr. Speaker, I urge my colleagues to support the amendment and to fight for it in conference with the Senate.

Mr. Speaker, in closing, I want to congratulate the ranking member on his many years of service to our servicemembers on the committee. I thank both the chair and ranking member for their leadership of the committee these past two NDAAAs.

Mr. THORNBERRY. Mr. Speaker, I yield 3 minutes to the gentleman from Mississippi (Mr. KELLY), the distinguished ranking member of the Subcommittee on Military Personnel.

Mr. KELLY of Mississippi. Mr. Speaker, I first want to thank Chairwoman SPEIER for the hard work that we did together on the Military Personnel Subcommittee, Ranking Member THORNBERRY, who has provided leadership my entire time, and Chairman SMITH for the great job that they have done in passing a bipartisan bill out of committee.

I stand before you today in proud support of the bipartisan defense bill that we unanimously voted out of committee during the extraordinary circumstances of COVID-19. This bill does more for families and servicemembers than any that come to my mind. It is a huge step forward, but there is still work to do.

However, I am concerned with the many amendments that would impose across-the-board budget cuts that may affect programs that support our military families. I am also concerned with the potential size of this cut, which, by my understanding, would be about \$73 billion, more than twice the impact of the fiscal year 2013 sequester.

The bill that was voted out of committee continues to support and improve the lives of those who sacrifice for our country on a daily basis by authorizing a military basic pay raise of 3 percent.

This bill reinforces the committee's longstanding commitment to the military family by requiring the Department of Defense to redefine military family readiness and military family resiliency, and it provides for significant reforms to the Exceptional Family Member Program.

This bill addresses the COVID-19 pandemic by requiring the military to assess the diagnostic equipment, testing capabilities, personal protective equipment, and treatment capabilities of the Armed Forces. It also requires the National Security Strategy to include the drugs, vaccines, and other critical medical equipment that will ensure combat readiness and lethality by safeguarding the health of our Armed Forces.

Mr. Speaker, I want to again thank Chairwoman SPEIER, because this bill

will continue to support our servicemembers and retain their families.

Mr. Speaker, this is an outstanding bipartisan bill dedicated to our servicemembers, military families, and retirees, and it gives them the care and support they need, deserve, and have earned.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Alabama (Mr. ROGERS), the distinguished ranking member of the Committee on Homeland Security.

Mr. ROGERS of Alabama. Mr. Speaker, I thank Ranking Member THORNBERRY and Chairman SMITH for their leadership in bringing this bill to the floor in such a bipartisan manner.

I am pleased the bill includes several provisions to support the Space Force and prioritizes the hypersonic and ballistic missile tracking space sensor.

While there is still much work to do, this bill takes important steps forward to confront China with the Indo-Pacific Deterrence Initiative.

It also includes almost \$600 million above the President's budget for science and technology and investments in critical emerging technology areas.

These critical investments are what will enable us to confront sophisticated threats that we face from China and Russia.

Importantly, this bill adheres to the budget agreement and fully funds the President's budget request.

Now, more than ever, we must reject calls for blunt defense cuts from partisans who are using the current crisis as an opportunity to push their agenda.

Finally, Mr. Speaker, I want to thank my friend and colleague, MAC THORNBERRY, for his years of service to the Armed Services Committee. No one cares more about our men and women in uniform and has dedicated more time and effort to making sure they have what they need.

Our committee was lucky to have him as chairman for 4 years and ranking member for 2 years, and we wish him and his wife, Sally, nothing but the best in the future.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin (Mr. GALLAGHER), a distinguished member of our committee.

Mr. GALLAGHER. Mr. Speaker, I thank the ranking member not only for yielding, but for his leadership and setting an example of just being one of the most thoughtful legislators that I have ever witnessed, and so I thank him for his mentorship and his leadership.

I am very proud to support this bill, which includes many of the critical recommendations of the Cyberspace Solarium Commission, which I have had the privilege of co-chairing over the past year with my good friend Sen-

ator ANGUS KING, and serving alongside my distinguished colleague and IETC Subcommittee Chairman JIM LANGEVIN, who has forgotten more about cybersecurity than most of us, certainly myself, will ever know in our lifetime, and so his leadership has been incredible.

Early on in the Commission's work, we recognized that one of our greatest challenges would be navigating through the many committees of jurisdiction, and it is precisely because of that challenge that I am especially proud that we were able to work across party and jurisdictional lines to get many of our key recommendations either in the underlying text or in a bipartisan amendment.

I know over the course of the day, Congress will be advancing even more of the Commission's recommendations, such as strengthening the Cybersecurity and Infrastructure Security Agency, establishing a national cyber director, establishing a joint planning office to coordinate cyber planning and readiness.

Mr. Speaker, I just want to thank the committee chairman as well for working with us and the rest of the Cyberspace Solarium Commission. A great deal of effort went into our work. We had more than 50 legislative proposals. I am greatly thankful for his help and everyone's help, and especially Representative LANGEVIN, in getting the work of the committee across the finish line.

There is no shortage of work left to be done to better secure us in cyberspace, but today we are taking a number of very, very important steps.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. BANKS), a member of our committee.

Mr. BANKS. Mr. Speaker, I thank the ranking member for yielding, and I want to congratulate him on a tremendous record of service to our Nation and to our men and women in uniform. It seems fitting that this piece of legislation would be named after him.

It should be no secret to anyone in this Congress about the threat that the Chinese Communist Party poses to United States national security interests and to the freedoms and values that Americans enjoy.

President Trump demonstrated tremendous leadership by preparing the Nation for a new era of great power competition with the 2017 National Security Strategy. This year's NDAA upholds the ideals of the National Security Strategy more than ever and asserts U.S. leadership in the face of CCP aggression domestically and around the world.

It is well documented that the Chinese Government's mismanagement of the novel coronavirus spread the virus worldwide; that the Chinese Government is engaging in human rights

abuses towards ethnic populations in China and politically suppressing voices in Hong Kong; that the Chinese Government has a strategy to consolidate manufacturing supply chains that hit all aspects of the U.S. economy; and that the Chinese Government is seeking to dominate next-generation communication hardware, steal United States technology and research, and censor the real truth about the Chinese Community Party's intentions and actions that run counter to American values of freedom and democracy. This defense bill takes several positive steps on China that both Republicans and Democrats support.

The base bill includes funding for an initiative for the Indo-Pacific to deter China, similar to the European Deterrence Initiative to deter Russia.

The bill also increases funding in emergent technologies, such as artificial intelligence, to maintain a technical edge against China, and starts taking financial actions to reduce China's role at the World Bank.

However, there is a lot more that needs to be done, and there were a number of amendments that were offered that were ultimately not ruled in order for consideration that would have helped American competitiveness and safeguarded U.S. interests against the threat of China. I won't name all these amendments because there are many of them.

It is imperative that we pass this bill and counter the China threat.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Wyoming (Ms. CHENEY), the distinguished chair of the Republican Conference, who is also a member of our committee.

Ms. CHENEY. Mr. Speaker, I thank in particular Ranking Member THORNBERRY and Chairman SMITH for their work on this NDAA.

I rise in strong support, Mr. Speaker, of this bipartisan William M. (Mac) Thornberry National Defense Authorization Act. A strong bipartisan act such as this one is more important today than perhaps ever before.

As we are facing competition with our adversaries in emerging, contested domains, we have to develop cutting-edge capabilities in space, cyberspace, air, land, and sea, and we must do this at a time, Mr. Speaker, when a global pandemic continues to take lives and devastate economies around the world.

This NDAA, Mr. Speaker, recognizes the role that America has played in ensuring peace, prosperity, and freedom around the world for 75 years. It recognizes that our forward deployed forces are fundamental to deterring aggression and forestalling conflict. It recognizes that retrenchment and withdrawal are destabilizing and aid America's adversaries.

Through its provisions, Mr. Speaker, this NDAA underscores that America

faces a fundamental choice: We either continue to lead, including through forward deployed forces in places like Germany, Eastern Europe, and South Korea, or we retreat, thus ensuring that the global rules of the road will be set not by us and other free nations, but by our adversaries, including China and Russia.

This bill enhances cooperation with critical allies in the Indo-Pacific, authorizes funding to counter China, and fully funds the European Deterrence Initiative to enhance deterrence against Russia. It also fully funds nuclear modernization to ensure the safety and reliability of our nuclear stockpile and the credibility of our nuclear deterrent.

Mr. Speaker, I urge my colleagues today to ensure that this legislation passes the floor in the same bipartisan fashion in which it passed committee, staying true to the spirit of the Member after which it is named.

□ 1430

Mr. SMITH of Washington. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. HOYER), the distinguished majority leader of the House.

Mr. HOYER. Mr. Speaker, I thank the chairman, Mr. SMITH, for yielding. I thank Mr. THORNBERRY, the ranking member, for his efforts and partnership in bringing this bill to the floor in a bipartisan fashion.

I join the previous speaker in the premise that she posited with respect to forward-leaning, ready and able to engage and to participate as leaders of the free world in securing the benefits of freedom and liberty to our globe.

I want to thank Chairman SMITH and the Armed Services Committee for ensuring a fair and bipartisan process as the House worked to craft a defense authorization bill that strengthens our national security and reflects our Nation's highest principles.

I want to thank, as I said, MAC THORNBERRY and Chairman SMITH, who have worked together throughout this process.

I know that Democrats and Republicans on the committee and, indeed, in this House share a strong determination to do right by our troops and those they serve.

Let me also thank Chairman MCGOVERN and the Rules Committee for working to ensure that this bill comes to the floor under a process that allows for Members to offer amendments they feel will make our national defense stronger, while making certain that our defense policies reflect the best of America and helps address our long-term challenges.

We consider this bill in a challenging environment. COVID-19 has attacked our people, our economy, and our country in a way unknown to any Member who serves in this body today. None of us are old enough to remember, of course, the Spanish flu, but we know that it did not have the same con-

sequences in America that COVID-19 has had. It is a reminder that we are afflicted, not only by those who would cause us harm through armed might, but also through illness, climate change, and other natural disasters.

I regret that we were unable to include every item the Democrats supported as part of the compromise that will enable us to get this bill passed. But, of course, that is what a compromise is.

It is unfortunate that we could not take up an amendment rejecting the Trump administration ban on transgender Americans serving in our military. As John McCain once said so correctly: I don't care whether they are straight; I just care that they can shoot straight.

We look at conduct and character, not differences that are not relevant to our ability to respond and to serve. Ending that ban will continue to be a priority for House Democrats.

While not all amendments that were proposed will end up becoming part of the final bill we vote on, in their offering, Mr. Speaker, they played an important role in shaping the House's legislation and will surely continue to add to important policy discussions that we need to have in our country.

One observation I would make, Mr. Speaker, is that one of the aspects of COVID-19's assault on our country has been to have a somewhat attenuated debate and discussion. I have discussed with Mr. SMITH and Mr. THORNBERRY on numerous occasions the need to have a very deep dive into the fiscal viability of our defense budget, as well as our domestic budget, so that we can ensure, in the future, that operations, training, and acquisitions do not suffer because of the lack of resources.

I am hopeful that the final bill we vote on tomorrow and send to the Senate will reflect a positive vision for our Nation's national defense and that it can pass with bipartisan support. I urge my Members to support it.

Our national security challenges are many, and they are serious. That is why the Democratic-led House will continue to do its job responsibly and to work bipartisanly to ensure that our Nation is kept safe and that those who serve on the front lines in its defense have all the resources they need to carry out their missions safely and effectively.

Again, Mr. Speaker, I thank Chairman SMITH and the ranking member and all those who worked hard, including the committee staff who worked long hours under very stressful and unprecedented circumstances.

I urge, in closing, Mr. Speaker, all Members to support this legislation.

Mr. THORNBERRY. Mr. Speaker, I presume the chair has no further speakers and, therefore, I yield myself the balance of my time.

Mr. Speaker, I want to, again, thank each and every one of the members of the House Armed Services Committee. Every one of them, Republican, Democrat, those of us who have been there a

while, those who are new to the committee, have contributed to this product.

As the chairman and I were saying, the dedicated professionals who work on the committee staff have done an outstanding job, especially, I think, under these conditions this year.

I also want to thank my personal office, which has contributed in many ways to this whole effort. This has been all-hands-on-deck sort of work, and I appreciate their work as well.

Finally, Mr. Speaker, I want to emphasize the importance of maintaining the bipartisan approach by which this bill came out of committee; 56-0 is not easy, and it is the chairman's leadership that enabled it to be so.

Now, we have some work to do. We have some amendments to go through. If some of those amendments pass, it would be very hard to maintain that approach going through. But assuming we can maintain this bipartisan approach, where nobody gets everything they want, but there is enough there and a higher purpose that holds us together so that it can come out of this House on final passage tomorrow with a similar or roughly similar vote, I think that will be very important.

It will be very important for the men and women who are serving our Nation all around the world to see that Republicans and Democrats can fight about taxes and healthcare and other things, but they can come together when it comes time to support them.

For all those military families who have been disrupted with their moves during COVID and are undergoing all sorts of inconveniences and hardships, it is very important for them to see that Republicans and Democrats can come together in Congress to support them and to advance their interests.

For allies and adversaries around the world, they need to see that, yes, we will argue with each other, and we will have a variety of differences, but when it comes to American national security, we stand together. I think if we can do that, that message alone is more important than any of the particulars of this bill.

Standing together for American national security, for the men and women who serve and their families, that is the most important thing we can do. I hope and trust that will be the result come tomorrow.

Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield myself the balance of my time.

Again, I urge Members to support this bill. I want to emphasize a point that a number of folks have made about the process, which sounds a little bland and a little bit dry, but that is actually how we produce such an excellent product, and I think it is a good model for how Congress should function.

We debate issues. We take amendments from a wide and diverse group of

people, and in so doing, the product gets better. We get the ideas, the benefit of the talents and the experience of everybody in Congress.

We work it out where we can. We debate where we can't. Then, we vote, and we move the process forward.

I think it is really, really important that the institution continues to function in that way. A number of institutions in our country, many that we have taken for granted for a long time, are under an enormous amount of pressure. It is very important to have coherent stability in the institutions of government.

That is something that I know Mr. THORBERRY prioritized during his service on the committee. It is something we all prioritize, to show people, as MAC pointed out, the system works—yes, the men and women who serve in our military, clearly, but everybody.

It is a good thing when we get together and have these debates and create a legislative product, and I urge Members to support this product.

In closing, I want to emphasize one point that has come up a number of times, and that is the importance of alliances and partnerships to our national security and to what the Department of Defense does. This bill has a number of provisions to strengthen that: support for NATO; support for our relationship with South Korea; support for the creation of an Indo-Pacific defense initiative, which is building upon the idea that we did with the European Defense Initiative. The goal there is to build the partnerships necessary to maintain our national security interests globally and, hopefully, without having to rely on the military.

I know a number of my colleagues on this side of the aisle are concerned about how the U.S. has used its military over the years, and I don't disagree with that. The military should not be the first or primary tool of U.S. foreign policy and national security. But if that is to be the case, we need to build the partner capacity of allies throughout Europe and Asia.

That is what this bill, I believe, reflects, that desire to give us peace by deterring our adversaries through a system of interlocking alliances. I think that is incredibly important.

Before I close, I do want to address the issues. Concerns have been raised about some of the amendments.

One particular concern is that there are some amendments that aren't necessarily within our jurisdiction. As the one bill that passes every year, this is not an unusual occurrence. I will point out that even when the Republicans were in the majority, we frequently had amendments that were outside the jurisdiction of our committee, including in the lands area.

Who can forget the lesser prairie chicken and the years after years that we fought over that? That, too, is part of this process, and I hope, however that comes out, it will not, in any way,

undermine the incredible bipartisan work that has been done on the bill and, gosh, the nearly 1,500 provisions that will be reflected in that bill once we get done here.

I think whatever disagreements there may be on a few amendments coming forward, the best thing that we can do for this institution, for this committee, for the way the legislative process is supposed to work, and, as all of us have said, most importantly, for the men and women who are serving in our military, we show them that we support the defense bill. We support them. We support what they do.

We have worked together to produce an excellent product that is worthy of the support of every Member of this body. I urge everyone to vote "yes."

Again, I thank everyone who was involved in the process.

Lastly, I want to close by joining my colleagues in recognizing the life of JOHN LEWIS. He brought honor to this country. He lived a life that made us all feel better about where we live.

I think the thing that I will always remember about JOHN is, gosh, he lived a very tough life. He took on tough fights, but he did it with joy. You never saw JOHN LEWIS get really down. He always had this joy about him, even in the face of some unbelievable injustice.

He did not hate his enemies. He didn't attack them. He stood up for what was right.

I hope we can all learn from that lesson and build upon it, bringing this country together and deal with the challenges that we face now as he dealt with the challenges that he faced during his life.

Mr. Speaker, I yield back the balance of my time.

The Chair recognizes the gentlewoman from Texas.

□ 1445

Ms. ESCOBAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, for over 200 years, Presidents have had the authority to send the military into American communities at times of unrest.

The Insurrection Act is a power many Americans are unaware of primarily because it has historically rarely been invoked. It has, at times, been used by Presidents at the request of State Governors, but during our Nation's tumultuous civil rights era, it was an authority used by Presidents Eisenhower, Kennedy, and Johnson against the wishes of Southern Governors.

Their use of the military in American communities helped protect the civil rights of African Americans at a time of deep national unrest. In fact, the Insurrection Act was used to protect Selma to Montgomery marchers in 1965, protection needed by the marchers after Bloody Sunday, where our beloved late colleague, JOHN LEWIS, was beaten and bloodied. This is an important Presidential power intended to restore peace and protect Americans.

My amendment does not seek to undermine or eliminate this authority. Instead, it is intended to bring about transparency and close a loophole.

America is founded in a Constitution that enshrines a system of separate but coequal branches of government. As such, Congress has a duty to evaluate for any Presidential power where consultation may be necessary and to provide oversight.

Today, if the President of the United States chooses to use military force abroad, the President would have to consult with Congress. Yet that same consultation is not required for use of military force on American soil. My amendment closes that loophole providing for consultation and oversight similar to what is currently required when the military is called on to engage overseas.

The NDAA is our annual opportunity and responsibility to evaluate and authorize defense activities. With this amendment to a centuries-old law, Congress and future Presidents can ensure that Insurrection Act authority, when used, is consistent with our history of preserving peace and civil rights in America.

Mr. Speaker, I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I claim the time in opposition.

The SPEAKER pro tempore. The gentleman from Colorado is recognized for 5 minutes.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this amendment would be a major change to the Insurrection Act first invoked by Thomas Jefferson more than 200 years ago. Under this amendment, a President would not be able to act quickly and decisively in the event of riots that are not being controlled at the State or municipal

level. He would have to, along with the Secretary of Defense, certify certain findings to Congress and then consult with Congress.

This would hinder and delay needed action to preserve domestic peace. Any military personnel then deployed would have burdensome restrictions placed upon them that would make them less effective in controlling violence and riots.

It is ironic that we are considering this amendment on a day when we are honoring the life of Representative JOHN LEWIS, an icon in the civil rights movement whose passing I, too, mourn.

You see, Mr. Speaker, had this amendment been law during the 1950s and 1960s, the progress of civil rights in this country would have been stifled. By being forced to consult with Congress, Presidents Eisenhower, Kennedy, and Johnson could have been blocked by a Senate majority that at the time was preventing all progress on civil rights. It is a matter of history.

My Uncle Jim Lamborn was a Federal employee at Leavenworth Penitentiary in 1957 when he was deputized as a marshal and sent to Little Rock, Arkansas, with many others so Black children could go to integrated public schools. President Eisenhower had to oppose the Arkansas Governor and act unilaterally to make this happen. If Eisenhower had to oppose an obstructionist House or Senate also, it may have never happened.

So, looking at today's headlines, I would like to ask the sponsor of this amendment, in light of the violence and rioting in Seattle and Portland, which for whatever reasons are not being controlled by the mayors of those cities, would President Trump be justified to invoke the Insurrection Act as amended by this amendment?

Ms. ESCOBAR. Will the gentleman yield?

Mr. LAMBORN. I yield to the gentlewoman from Texas.

Ms. ESCOBAR. Mr. Speaker, this is not about when or whether a President utilizes the Insurrection Act. This is simply about consulting with Congress in the same way that we expect a President to consult with Congress.

Mr. LAMBORN. Reclaiming my time, Mr. Speaker, apparently the gentlewoman is not willing to answer this question. If she can't answer this question, then I don't think we have to take it seriously. I think it is a political gimmick.

Mr. Speaker, I reserve the balance of my time.

Ms. ESCOBAR. Mr. Speaker, I yield such time as she may consume to the gentlewoman from New Jersey (Ms. SHERRILL).

Ms. SHERRILL. Mr. Speaker, Federal forces should only be deployed in the United States with the utmost transparency and only when it is absolutely necessary to protect our country and our citizens. What we are seeing in Portland and what we saw in Washington is deeply disturbing, and it is

contrary to the values of a democratic society.

As a veteran, I am particularly concerned when it implicates our military. Congress has a responsibility to exercise oversight over the use of military force. Unfortunately, in recent months, we have seen threats of force against U.S. citizens without consulting Congress and without delineating the legal authorities under which the forces are operating.

The Insurrection Act has been used with great and important effect to integrate elementary schools and universities, suppress the Ku Klux Klan, and to protect the American people. This amendment does not prevent any President from employing the Insurrection Act should it become necessary, nor would it prevent the Insurrection Act from being used to protect Americans' civil rights in the future. It simply ensures that the Insurrection Act is used in keeping with centuries of precedent—as a last resort and with strong oversight by Congress.

Mr. Speaker, I urge my colleagues to support this amendment.

Mr. LAMBORN. Mr. Speaker, I yield 1½ minutes to the gentleman from Mississippi (Mr. KELLY).

Mr. KELLY of Mississippi. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, this is dangerous. This same amendment, but in a lesser form not nearly as dangerous and not nearly as restrictive, was defeated in a bipartisan manner in committee. The reason that it was is because we are having a knee-jerk reaction to what we think the President might do—not what he did, but what we think he might do.

This is dangerous. I can tell you, Mr. Speaker, I come from a State where, had the Insurrection Act not been in effect when Eisenhower and Kennedy were Presidents, we would be in a different-looking Chamber today. They allowed the schools of Mississippi, Arkansas, and Alabama to be integrated. Those Presidents allowed, through the Insurrection Act, the Freedom Riders to go through the State of Mississippi with the National Guard.

But here we are with more restrictions. Not only do we want to put troops out there when we say it is okay—and I don't know who "we" is, but it doesn't need to be a "we"—but we are going to further restrict the President, and we are going to tie the hands of those servicemembers whom we send in harm's way. It is dangerous. They can't search, and they can't participate.

Mr. Speaker, we need to defeat this amendment, and there needs to be a long discussion if we want to change that. But it doesn't need to be in this bill. This is a poison pill. Let's defeat this amendment.

Ms. ESCOBAR. Mr. Speaker, I yield 1 minute to the gentlewoman from Minnesota (Ms. OMAR).

Ms. OMAR. Mr. Speaker, if a President decides to deploy troops domesti-

cally, the very least we can do as Congress is demand the same level of transparency that we expect when our troops are sent abroad.

It is true that the Insurrection Act was used to integrate Little Rock Central High School and the University of Mississippi. It is also true that it was used to crush slave revolts and labor organizing.

This amendment will go a long way towards helping inform Congress and the American people how a President intends to use the authority.

This is not an abstract conversation. When the President threatened to invoke the Insurrection Act recently, he was threatening my constituents and our constituents. Unmistakably, he was threatening people exercising their First Amendment rights.

There can be genuine emergencies when these powers are needed. We must protect against all possible abuses in situations where the emergencies do not exist.

Mr. LAMBORN. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. BERGMAN), who is a retired three-star general and Member of the House Armed Services Committee.

Mr. BERGMAN. Mr. Speaker, I oppose this amendment. It would require the President and the Secretary of Defense to certify to Congress with demonstrable evidence that a State is unwilling or unable to suppress civil unrest prior to invoking the Insurrection Act.

What is demonstrable evidence? How do we define that?

At that point, who knows how much time would go by before help is given to the city or State that needs it.

Also, the limitation placed on military personnel in this amendment is concerning. We are telling our military that, if you go in, then you either do nothing or you use extreme force. There is no in between.

Unfortunately, too many elected officials don't understand the difference between emergency response, peacekeeping, and peacemaking.

We are setting the military up for failure. This amendment is dangerous and unnecessary, not to mention the entire debate on the Insurrection Act is just another attack on the President. Because we don't like something the current President said—not even what he did, but something he said—we are going to punish not just this President, but every President after this and all the States that may need help in the future.

Mr. Speaker, I urge my colleagues to oppose this amendment.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

Ms. ESCOBAR. Mr. Speaker, how much time do I have remaining?

The SPEAKER pro tempore. The gentlewoman has three-quarters of a minute remaining.

Ms. ESCOBAR. Mr. Speaker, I just want to frame this very simply. We are asking for the same transparency and

consultation when a President decides to use troops on American soil as when he decides to send troops abroad.

Mr. Speaker, I urge my colleagues to support this amendment, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentlewoman from Texas (Ms. ESCOBAR).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LAMBORN. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

AMENDMENT NO. 4 OFFERED BY MR. MCADAMS

The SPEAKER pro tempore. It is now in order to consider amendment No. 4 printed in House Report 116-457.

Mr. MCADAMS. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Add at the end of subtitle B of title XXXI the following new section:

SEC. 3121. PROHIBITION ON USE OF FUNDS FOR NUCLEAR WEAPONS TEST EXPLOSIONS.

(a) IN GENERAL.—None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2021, or authorized to be appropriated or otherwise made available for any fiscal year before fiscal year 2021 and available for obligation as of the date of the enactment of this Act, may be obligated or expended to conduct or make preparations for any explosive nuclear weapons test that produces any yield.

(b) RULE OF CONSTRUCTION.—Nothing in subsection (a) shall be construed to apply to nuclear stockpile stewardship activities that are consistent with the zero-yield standard and other requirements under law.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Utah (Mr. MCADAMS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Utah.

Mr. MCADAMS. Mr. Speaker, when Utahns learned about recent high-level meetings on resuming nuclear weapons testing, it rang alarm bells. Thousands of Utahns are still dealing with trauma inflicted by bombs exploded from decades past leaving a legacy of illness, suffering, and death. Why would we ever go down that path again?

For 24 straight years, the Department of Energy and DOD continue to certify the safety, security, and effectiveness of our nuclear weapons stockpile without the use of nuclear explosive testing. That was confirmed to still be the case at the end of June.

My amendment prohibits the use of funds to prepare for or conduct any explosive nuclear weapons test that produces any yield.

My amendment does nothing to interfere with our stockpile program. It allows for national security preparedness consistent with zero-yield standards. Nuclear clouds must never again threaten the health and safety of those living downwind.

Mr. Speaker, I urge adoption of this amendment, and I reserve the balance of my time.

□ 1500

Mr. THORNBERRY. Mr. Speaker, I claim the time in opposition.

The SPEAKER pro tempore. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Ohio (Mr. TURNER).

Mr. TURNER. Mr. Speaker, I rise in opposition to this amendment because this is another one of these unilateral disarmament movement provisions that come before this body every year.

Mr. Speaker, I would love to take a vote in this body to restrain China, to restrain Russia, to restrain North Korea, to actually restrain our adversaries. But instead of restraining our adversaries or enter into negotiations where we come to agreement, we give things up.

Mr. Speaker, in this, we are giving something up. There is a Presidential directive. This isn't even trying to undo law. There is a Presidential directive that President Clinton signed, and every President since him, that said that we will do very limited testing because we do testing of our stockpiles and experimental work to ensure the reliability and the fact that our nuclear weapon system is reliable and safe. We do so because our adversaries see that deterrent as a means to restrain them from their adventuresomeness across the globe.

But the other aspect—again, back to, “I would like to restrain our adversaries”—right now, China and Russia are developing brand-new nuclear weapons. They are deploying hypersonic weapons. Russia has a new nuclear-powered cruise missile that can circle the globe and then come in.

But every year, when we bring the National Defense Authorization Act back, we are more focused on how we can restrain ourselves than restrain our adversaries. And that makes us less safe.

The way that this amendment is drafted actually doesn't allow us to continue to do what we are doing. It says zero-yield standard. We actually have subcritical testing that would exceed what you have in here that we do right now that is essential for what we do.

This is an amendment that is trying to solve a problem that doesn't exist.

Lisa Gordon-Hagerty just issued a letter, as you said, in June. We are not even going to do this, I mean, not the way you are worried about us doing it. We are not headed toward testing.

But if we pass your amendment, it is going to stop us from being able to do

what we are currently doing. We are going to restrain ourselves in a way that our adversaries aren't, and we are going to be less safe.

Mr. MCADAMS. Mr. Speaker, I yield 1 minute to the gentleman from Washington (Mr. SMITH), the distinguished chair of the House Committee on Armed Services.

Mr. SMITH of Washington. Mr. Speaker, I fear this debate is going to come down to a difference of opinion on tax. My staff and I have looked at this very, very carefully. This does not restrict us from what we are currently doing, and it is the position of this sponsor and myself that we need to make sure our stockpile is safe and usable, and we have an adequate deterrent. We do not need to do live nuclear testing.

Mr. Speaker, the reason we are concerned about this is because the Senate has actually put \$10 million into their version of this defense bill to do precisely that. So, there are some who apparently think this would be a good idea.

We want to make it clear: We don't think it is a good idea to do live nuclear testing. Keep doing what you are doing. That is fine. Collect your stockpile. We don't need to be setting off nuclear weapons again.

In this regard, what Russia and China are doing is beside the point. It is not in our best interest to do this. If they think it is in their best interests to do live testing, I would disagree with that.

This doesn't help protect us. It endangers people unnecessarily.

I know we are going to get into a debate over the actual language here, but be clear on what this amendment does.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. MCADAMS. Mr. Speaker, I yield the gentleman an additional 20 seconds.

Mr. SMITH of Washington. Mr. Speaker, this amendment allows us to continue doing what we are already doing to preserve and protect our nuclear deterrent. It simply says: You can't go setting off nuclear weapons again. It doesn't work. It doesn't help. And it is extraordinarily dangerous.

Mr. Speaker, I urge adoption of the amendment.

Mr. MCADAMS. Mr. Speaker, I yield 1 minute to the gentlewoman from Hawaii (Ms. GABBARD).

Ms. GABBARD. Mr. Speaker, we are living in very dangerous times.

Yes, we are in the midst of a global pandemic, which should be inspiring our Nation's leaders to deescalate tensions with other countries, work with world leaders to defeat this disease that threatens us all, but that is not what we are seeing. Instead, we are seeing increasing tensions and a new cold war being waged on two fronts between the U.S. and China and Russia, with thousands of nuclear missiles at the ready.

Instead of deescalating tensions, the Trump administration is making

things worse by tearing up the INF Treaty, ending the Open Skies Treaty, making no effort to renew the New START treaty, and dangerously moving to violate the nuclear test ban treaty, which, if allowed, would only encourage other countries like North Korea, Saudi Arabia, Iran, and many others to develop or to increase nuclear weapons capabilities, rapidly increasing the proliferation of these nuclear weapons and a nuclear arms race around the world.

Mr. Speaker, this puts us all at risk because there is only one outcome to this escalation of tensions and a nuclear arms race, and that is total destruction of our world.

Mr. Speaker, I urge my colleagues to support this critical amendment.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the distinguished gentlewoman from Wyoming (Ms. CHENEY).

Ms. CHENEY. Mr. Speaker, I rise in strong opposition to this amendment, which threatens to undermine the credibility of our Nation's nuclear deterrent.

Mr. Speaker, there is a consistency on the other side of the aisle which is very concerning. It finds a moral equivalence between the United States and our adversaries, also an affinity for treaties that bind only the United States and no one else.

Mr. Speaker, if this amendment becomes law, the United States loses the ability to ensure that we can test, if necessary, to ensure that our deterrent is reliable and, therefore, credible. That prohibition emboldens our adversaries, and it undermines our allies' faith in the nuclear umbrella.

We provide a nuclear umbrella. We provide security to allies so they do not have to develop their own nuclear weapons. So an amendment that ensures that the United States is no longer going to be able to guarantee a credible nuclear stockpile is going to make nuclear proliferation more likely, not less likely.

Mr. Speaker, this is a dangerous amendment, an amendment which ties the hands of the United States, when we know that the Chinese are, in fact, undergoing a huge nuclear buildup and likely testing. And we know that the Russians are doing the same.

Mr. Speaker, this is dangerous. There is absolutely no reason we need to do it. It contradicts a Clinton-era Presidential directive under which the NNSA must maintain readiness to resume underground nuclear testing, if necessary. This could be the case, for example, if our stockpile experiences a unique failure.

Mr. Speaker, this is a mistaken amendment. It is a misguided amendment that finds moral equivalence between the United States and our adversaries and ties the hands of the United States.

Mr. Speaker, imagine the message it sends when Members of this body stand up and actively urge that we tie the

hands of the United States while we allow the Russians and the Chinese to move forward with their developments and with their testing.

Mr. Speaker, I urge my colleagues to oppose this dangerous amendment.

Mr. MCADAMS. Mr. Speaker, I yield 1 minute to the gentlewoman from Nevada (Ms. TITUS), the congresswoman who has written the book on nuclear testing.

Ms. TITUS. Mr. Speaker, I join Congressman MCADAMS in support of this amendment, which prohibits the Trump administration from conducting a dangerous and unnecessary explosive nuclear test. You want to see something dangerous, take a look at his foreign policy.

Mr. Speaker, for over two decades, our Nation's top scientists have conducted sophisticated tests to ensure the safety and reliability of our nuclear stockpile without detonating these weapons.

As recently as 3 weeks ago, the NNSA stated that they identify no technical reason to resume underground explosive nuclear testing. We should heed their words. They are the experts.

Moreover, conducting an explosive nuclear test encourages our adversaries, like Russia and China, to do the same. There is no good reason to risk the restart of a global arms race, especially at a time when we have the technological advantage.

An entire generation of Cold War patriots and families who worked at and lived downwind of the Nevada test site have suffered illnesses linked to radiation exposure. They know what is at risk if we allow this administration to conduct such a harmful experiment. We shouldn't do it.

Mr. Speaker, I urge my colleagues to support this amendment.

Mr. THORNBERRY. Mr. Speaker, I am prepared to close, and I reserve the balance of my time.

Mr. MCADAMS. Mr. Speaker, explosive nuclear testing is not necessary to ensure that our stockpile remains safe, and nothing in this amendment would change that.

Explosive nuclear testing causes irreparable harm to human health and our environment and jeopardizes the U.S. leadership role on nuclear non-proliferation.

Mr. Speaker, I urge the adoption of my amendment, and I yield back the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, near as I can tell, this is an amendment in response to a mistaken press story. We depend on nuclear deterrent as the cornerstone of our defense efforts. The nuclear weapons are aging machines. We don't understand everything that happens as they age. We have fewer of them and fewer kinds of them so that if there is a problem, it is a bigger deal.

So, what we have decided to do is to be ready to test in case we need to. That is what the \$10 million in the Sen-

ate is. It is test readiness, like the diagnostic machines, the machines that dig holes in the ground to do these underground tests.

We need to be ready. The harder we make it to test, the more obstacles we put in the way of a test if needed—only if needed. But the harder we make it, the less credible our nuclear deterrent is. The less credible our nuclear deterrent is, the more our adversaries will try to take advantage of us and the more our allies will decide to develop their own nuclear weapons because they can't depend on us.

Mr. Speaker, these things are important. They have big consequences. We should not make decisions like this based on a mistaken press story.

Mr. Speaker, I urge that the amendment be rejected, and I yield back the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I rise in strong support of the amendment offered by Representatives MCADAMS, TITUS, HORSFORD and myself.

Mr. Speaker, on July 16th, 75 years ago at 5:29 a.m., the first ever nuclear explosion burned across the skies of New Mexico, changing the world forever.

The Trinity Test was certainly an astonishing moment. When the bomb, called the Gadget, detonated, the observing scientists experienced the literal definition of shock and awe.

A great deal has happened since that first test of an atomic bomb. The United States is the only nation to have used nuclear bombs against a foreign nation. The U.S. carried out tests for several decades, ending them only in 1992.

During those years, nuclear testing killed or sickened thousands of military personnel who were involved in the detonations, as well the people who lived downrange from U.S. test sites, including tens of thousands in the continental United States. These communities are still dealing with the devastating legacy of nuclear testing decades after the U.S. conducted its last nuclear test in 1992. The responsible step for Congress would be to extend and expand the Radiation Effects Compensation Act (RECA) rather than to endorse talk of resuming U.S. nuclear testing, which would dishonor the experiences of downwinders and atomic veterans.

The United States established a blue-ribbon panel to investigate what had happened to our atomic veterans, resulting in public apologies by Presidents H.W. Bush, Bill Clinton and George Bush and special reparations and health program by the Departments of Justice and Veterans Affairs. I would like to thank Chairman ADAM SMITH and Ranking Member THORNBERRY for including in the underlying bill, H.R. 6395, a provision to honor our Atomic Veterans with a service medal, and I urge them to fight to include this provision in the final conference report of the NDAA later this year.

For more than a quarter-century, the Science-Based Stockpile Stewardship Program has worked extraordinarily well in ensuring the reliability of the existing nuclear warhead types in the U.S. arsenal. The overwhelming majority of the past U.S. nuclear test explosions were for "weapons development" and "weapons effects" purposes. There is

simply no technical reason to resume testing now, nor in the foreseeable future.

Mr. Speaker, resuming U.S. testing would violate the global taboo against nuclear testing established by the 1996 Comprehensive Test Ban Treaty. As one of the 184 signatories of the CTBT, the United States has a legal obligation not to take actions that violate the object and purpose of the treaty, which is to prohibit nuclear test explosions, no matter what the yield. Renewed testing by the U.S. would undermine global support for operating and maintaining the treaty's International Monitoring System, which the United States itself depends upon to help monitor other states' compliance with the nuclear test ban.

The McAdams-Titus amendment is right thing to do. It is the smart thing to do. And it is the moral and humane thing to do.

For these and so many other reasons, I urge all my colleagues to support the McAdams amendment.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentleman from Utah (Mr. MCADAMS).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THORNBERRY. Mr. Speaker, I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENT NO. 5 OFFERED BY MS. OMAR

The SPEAKER pro tempore. It is now in order to consider amendment No. 5 printed in House Report 116-457.

Ms. OMAR. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 766, beginning line 15, strike section 1213 and insert the following:

SEC. 1213. COMPLETION OF ACCELERATED TRANSITION OF UNITED STATES COMBAT AND MILITARY AND SECURITY OPERATIONS TO THE GOVERNMENT OF AFGHANISTAN.

(a) IN GENERAL.—It is the policy of the United States that, in coordination with the Government of Afghanistan, North Atlantic Treaty Organization (NATO) member countries, and other allies in Afghanistan, the President shall—

(1) complete the accelerated transition of United States combat operations to the Government of Afghanistan by April 29, 2021;

(2) complete the accelerated transition of all military forces of the United States, its allies, and coalition partners, including all non-diplomatic civilian personnel, security contractors, trainers, advisors, and supporting services personnel by April 29, 2021; and

(3) implement the US—Taliban agreement of February 29, 2020, in pursuit of a political settlement and reconciliation of the internal conflict in Afghanistan that includes the Government of Afghanistan, all interested parties within Afghanistan, and the observance and support of representatives of donor countries active in Afghanistan, regional

governments, and partners, in order to secure a secure and independent Afghanistan and regional security and stability.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) if the President determines that it is necessary to maintain United States Armed Forces in Afghanistan to carry out missions after April 29, 2021, such continued presence and missions should be authorized by a separate vote of Congress not later than October 7, 2021; and

(2) the withdrawal of the United States Armed Forces from Afghanistan must be accompanied by a long-term peace process that is inclusive of all parties to the conflict and sectors of civil society.

(c) RULE OF CONSTRUCTION.—Nothing in this section may be construed to prohibit or otherwise limit any authority of the President to—

(1) modify the military strategy, tactics, and operations of United States Armed Forces as such Armed Forces redeploy from Afghanistan;

(2) attack al Qaeda forces wherever such forces are located;

(3) provide financial support and equipment to the Government of Afghanistan for the training and supply of Afghanistan military and security forces; or

(4) gather, provide, and share intelligence with United States allies operating in Afghanistan and Pakistan.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Minnesota (Ms. OMAR) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Minnesota.

Ms. OMAR. Mr. Speaker, October of next year will mark 20 years since the war in Afghanistan started. That is a generation of devastation in Afghanistan, a generation of our men and women in uniform being sent to fight and die for a war with no exit strategy. And still, to this day, there are people saying that we shouldn't be too hasty in leaving.

Too hasty? It has been two decades.

Mr. Speaker, there will never be a perfect time to withdraw our troops. There will never be a time when making the right decision does not include some risks.

Our obligation to Afghanistan's stability will not end when our troops leave. My amendment sets a clear timeline and clear Congressional intent that we must end our country's longest war.

Mr. Speaker, we put this debate in context. I want to say this amendment was offered by my friend, Chairman MCGOVERN, 7 years ago. It passed the House in 2013 with the majority of both parties voting in favor. During that debate, Mr. MCGOVERN stood on the floor and said: "The future and fate of tens of thousands of uniformed men and women deserve a vote." The House took that vote, and 305 Members of this body voted to end the war in Afghanistan.

Yet, since then, we have had 7 years of fighting and sustained violence, 7 years of civilian casualties, 7 years of servicemembers being forced to say good-bye to their families and subjected to a terrible trauma.

In many ways, it is baffling to me that I have to do this, but I echo Mr. MCGOVERN's words from 2013: The future and fate of thousands of uniformed men and women deserve a vote.

As a survivor of war, I can tell you that even 1 more minute of conflict comes with a cost that is too great for most to imagine.

Finally, I say that I do not believe that the end of military engagement should be the end of our obligation to the Afghanistan people. Mr. Speaker, my amendment calls for a comprehensive peace plan that includes all sectors of civil society. It calls for renewed engagement on diplomacy and development. It calls us to fulfill our moral and strategic obligation but not to risk one more life of American servicemembers in a war with no clear objective.

□ 1515

Mr. THORNBERRY. Mr. Speaker, I claim the time in opposition to the amendment.

The SPEAKER pro tempore. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Wyoming (Ms. CHENEY).

Ms. CHENEY. Mr. Speaker, I rise in strong opposition to this amendment.

Our forces remain in Afghanistan in order to prevent terrorists from establishing safe havens from which they can launch attacks against the United States.

My colleague, Ms. OMAR, has said that she is a survivor of war, and I honor the fact that she has been able to find safety and refuge and citizenship and opportunity and freedom and that she stands with me today on the floor of this body, this people's House. I think that tells you what an incredible nation the United States is.

But I also think that as someone who has described herself as a survivor of war, she would recognize more fully the damage and the devastation that was done to the United States of America on September 11 when we were attacked by terrorists who trained and plotted and launched from bases in Afghanistan.

Decisions about troop levels in Afghanistan must be based on conditions on the ground. Wars don't end because the United States retreats. What that means is that we have ceded the ground to our adversaries. And wars don't end because some number of years have passed. We have to decide whether we want to fight the terrorists, al-Qaida, ISIS, the Taliban, in Afghanistan or whether we have to fight them here.

Pretending the Taliban is a partner for peace, especially in the wake, Mr. Speaker, of reports that Russia is paying the Taliban to kill United States troops, is indefensible, whether you are a Democrat or a Republican.

I urge my colleagues to recognize that decisions about troop levels must

be made based on what is necessary to prevent terrorists from establishing safe havens they can use to attack all of us and the freedoms and the values we hold dear.

This is a dangerous amendment. I urge my colleagues to oppose it.

Ms. OMAR. Mr. Speaker, the last time this amendment was voted on in 2013, again, it got 305 Members of this body to vote for it. Nothing has changed since then.

Mr. Speaker, I yield 1½ minutes to the gentlewoman from California (Ms. LEE), the only Member of the House to vote against the 2001 authorization for war.

Ms. LEE of California. Mr. Speaker, first of all, let me thank Congresswoman OMAR for introducing this amendment and for her tremendous leadership; also, to Chairman MCGOVERN, who offered this amendment several years ago when it passed the House with the support of, as Congresswoman OMAR said, over 300 Members.

Our war in Afghanistan began almost two decades ago. At that time, we drafted, debated, and passed an authorization for Use of Military Force in 3 days. Congress applied no time limit. It gave authority for a mission so broad and vaguely defined that it has essentially created a blank check for 20 years of war.

Yes, I was opposed then to that resolution. But, quite frankly, I gain no satisfaction that my fears have been fully justified. But I do think there is a lesson here, and that is that Congress that needs to play a more active role in defining the scope and the timing of how America makes war.

Some of my friends will argue against this amendment by saying we cannot tie the hands of the military. I would ask them to look at where we are. When Congress fails to insist on limits and guidelines for our military, the mission gets confused and lost.

We have now negotiated an agreement to bring our role in Afghanistan to an end. The President himself has said that he intends to bring our troops home. This amendment will provide the accountability for doing so.

It is far past time to bring almost two decades—mind you, two decades—of nonstop war to an end. These forever wars have spanned wider and wider.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. OMAR. Mr. Speaker, I yield an additional 30 seconds to the gentlewoman from California (Ms. LEE).

Ms. LEE of California. These wars, I remind you, have cost us \$5 trillion and claimed hundreds of thousands of lives.

The war in Afghanistan is the longest war in American history, with troops now fighting a war that was launched before they were even born.

Enough is enough. This is a thoughtful and deliberative way for us to untangle our military from Afghanistan and bring this long war to an end.

So I want to thank the gentlewoman from Minnesota for her tremendous

leadership in bringing this important amendment to the floor, and I ask for an “aye” vote.

Ms. OMAR. Mr. Speaker, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Colorado (Mr. CROW), a distinguished combat veteran.

Mr. CROW. Mr. Speaker, after almost 20 years and thousands of lives, the war in Afghanistan must come to an end. I know, because I served two combat tours there and saw the horrors of that war. That is why, since coming to Congress, I have been at the forefront of efforts to end the war and reassert Congress’ war powers and end some of the Authorizations for Use of Military Force.

But in doing so, we must not be driven by artificial deadlines dictated by election-year politics. We must coordinate with our allies who still serve shoulder to shoulder with us. We must protect our troops during very high-risk withdrawal operations. We must prevent a resurgence of ISIS like we saw in Iraq. And, importantly, we must establish some safeguards for the women and children of Afghanistan.

Let’s do this. Let’s bring our troops home and dedicate our resources here. But let’s do it the right way, not rushed by the coming election day.

Many of my colleagues and I share the same goals, but there is a right way to do it and a wrong way to do it. That is why I urge my colleagues to oppose this amendment.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts (Mr. MOULTON), another distinguished combat veteran.

Mr. MOULTON. Mr. Speaker, I share the same goals as Mr. CROW and my colleagues. And I have tremendous respect for Representative OMAR, who has brought this amendment forward for debate.

I don’t think there is anyone who wants to bring the troops home more than someone like Mr. CROW, who has served on the ground in Afghanistan in combat. But there is an objective for this war. There is a reason why he went and put his life on the line for this country, and that is to prevent another terrorist attack here at home.

It is our solemn duty to protect the people of the United States and maintain our national security. We didn’t end World War II by saying to the Germans: “We are going to withdraw by a certain deadline.” We came home when the job was done.

We can have a very wise and important debate about whether we are doing the job well in Afghanistan and as quickly as possible. We can’t forget why we have gone. We can’t forget what it takes to come home.

Mr. THORNBERRY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, somehow, somewhere, common sense has to play a role here. We have a negotiated agreement with the Taliban. Part of that agreement in-

volves the reduction and ultimate withdrawal of U.S. troops. In return, the Taliban has promised to play a more constructive role in the country.

This amendment says we are leaving anyway, no matter what the Taliban does. It wraps up their fondest wish, puts a bow on it, and just hands it to them, betraying the brave men and women of Afghanistan who have worked and sacrificed to build a better country and worked side by side with us to prevent another terrorist attack against us.

That seems to make no sense. Why would we do such a thing?

As all the speakers have said, we all want to ultimately leave Afghanistan. We should do so in a way that is fair to our allies, fair to the people of Afghanistan, and protects American national security. Mr. Speaker, I yield back the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I rise today in strong support of Amendment No. 5 offered by the gentlelady from Minnesota, Congresswoman OMAR, to establish a policy framework for the accelerated withdrawal of U.S. forces from Afghanistan. I thank Congresswoman OMAR for her leadership on this and so many other critical foreign and defense policy issues.

Mr. Speaker, in October of this year, the United States will have been engaged in the Afghanistan conflict for 19 years. That’s 19 years of war, Mr. Speaker. Nineteen years of terrible losses of life—among our brave troops and servicemembers, our coalition partners, humanitarian and other development aid workers, and most of all, among the people of Afghanistan who have suffered the highest death toll.

The numbers of deaths and injuries are chilling: nearly 2400 U.S. military have died; over 20,000 have been wounded; and over 1700 U.S. contractors have lost their lives in Afghanistan. For the Afghan people, the war has been devastating: over 100,000 Afghan civilians have been killed or wounded over the course of this war. According to the United Nations, whose figures are considered conservative, for each of the past six years, Afghan civilians have suffered over 10,000 casualties annually. Mr. Speaker, it is likely that every family in Afghanistan has suffered grave loss from this unending war.

It’s been 19 years of devastation, Mr. Speaker. No one can assert that it would be a hasty or untimely moment to consider withdrawing our forces from Afghanistan. In fact, I believe that it is well past time for the United States to withdraw its forces, close the chapter on this war, and take meaningful steps to secure a stable peace.

This amendment calls for a long-term, inclusive peace process and strikes a section of the NDAA that would impose unduly onerous conditions on troop drawdown, essentially preventing any withdrawal and prolonging this endless war. A nearly identical amendment passed the House in 2013, 305–121, with overwhelming bipartisan support. That was an amendment offered by Congressman ADAM SMITH (WA), our late colleague Walter Jones of North Carolina, and me. If the House so overwhelmingly supported a withdrawal of troops in 2013, then why not today?

According to the “Costs of War Project at Brown University,” the United States has

spent nearly \$2 trillion on this war. To finance war spending, the United States has borrowed heavily and will pay more than \$600 billion in interest on those loans through 2023. The rest of the debt will take years to repay.

In addition to the more than \$2 trillion the U.S. government has already spent on the war, debt and medical costs will continue long into the future.

Mr. Speaker, I know that Afghanistan is in the midst of negotiations to end this conflict. The withdrawal of U.S. troops is a key element of securing that peace. Let us begin today to put that framework in place, begin the safe and orderly withdrawal of our troops; and put an end to the longest war in U.S. history.

I urge all my colleagues to support the Omar Amendment No. 5.

Mr. MCCAUL. Mr. Speaker, I agree with Ranking Member THORNBERRY in opposing this irresponsibly unbalanced amendment.

This text one-sidedly declares it to be the policy of the United States to complete the withdrawal of U.S. troops from Afghanistan by April.

It directs what “the President shall” do, but makes no mention of the Taliban’s obligations that would render any withdrawal more advisable or feasible.

By focusing only on U.S. withdrawal, it re-casts the conditions-based U.S.-Taliban agreement as a retreat declaration, rather than a roadmap toward peace.

The reality is that the President has been drawing down U.S. troops in Afghanistan.

But contrary to the aim of this amendment, the President also has and needs the authority to maintain a residual force to address potential counterterrorism needs and the shifting situation on the ground.

More importantly, the Taliban must uphold their commitments—starting the intra-Afghan dialogue, cutting ties with al Qaeda, securing a permanent cease-fire, and preempting threats to U.S. security—or face the consequences.

Those are the real steps needed for securing both a responsible U.S. withdrawal and a lasting, inclusive peace for the people of Afghanistan.

Instead of acknowledging that, this political amendment sends the wrong message to the Taliban at the wrong time just to provide veto bait against a bill critical for U.S. national security.

U.S. policy should be to urge the Taliban to uphold their commitments, not to rashly abandon our Afghan partners to fend for themselves against the Taliban and its deplorable record on human rights.

The people of Afghanistan deserve better and as such, I urge a “no” vote.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentleman from Minnesota (Ms. OMAR).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THORNBERRY. Mr. Speaker, I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENT NO. 6 OFFERED BY MS. JAYAPAL

The SPEAKER pro tempore. It is now in order to consider amendment No. 6 printed in House Report 116-457.

Ms. JAYAPAL. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Strike section 1742 and insert the following new section:

SEC. 1742. REPEAL OF PROVISIONS RELATING TO UNFUNDED PRIORITIES.

(a) THE ARMED FORCES AND THE MISSILE DEFENSE AGENCY.—Chapter 9 of title 10, United States Code, is amended as follows:

(1) Section 222a is repealed.

(2) Section 222b is repealed.

(3) In the table of sections at the beginning of the chapter, strike the items relating to sections 222a and 222b.

(b) LABORATORY MILITARY CONSTRUCTION PROJECTS.—Section 2806 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91; 10 U.S.C. 222a note) is repealed.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Washington (Ms. JAYAPAL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Washington.

Ms. JAYAPAL. Mr. Speaker, my amendment would repeal the law that requires the military to provide an unfunded priorities list to Congress along with their budget request each year.

This year, the Pentagon requested a whopping \$740 billion from Congress, even more than last year, while other agencies like the State Department, the EPA, and the Department of Housing and Urban Development were cut by over 15 percent.

The defense budget eats up over half of our Nation’s annual discretionary budget, and yet this year Pentagon officials gave Members of Congress a wish list of \$18 billion in unfunded priorities on top of its request for \$740 billion in spending.

Why? Because in 2016, Congress actually passed a law requiring the military services and combatant commands to provide annual wish lists of weapons systems that the Pentagon couldn’t fit into its already massive budget.

No other Federal agency is required by law to provide such wish lists, and with good reason. The practice is irresponsible, and it undermines the very goals of budgeting.

So why does it exist? Because it gives special interests and the defense contractor industry an opportunity to argue for Congress to fund additional, extremely expensive weapons systems not important enough to make it into the Pentagon’s budget.

Now, this is a bipartisan concern. You might hear that this is something that just Democrats want. No. Lawmakers have long questioned the utility of unfunded priority lists. The late Senator John McCain, chairman of the Senate Armed Services Committee, said in 2015: “Actually, I am not really

big on unfunded priority lists. I think they’re sort of a backdoor way of getting things done.”

Former Defense Secretary Robert Gates took a step further to ban the practice of submitting these lists to Congress during his tenure.

Senator McCain and Secretary Gates were exactly right. We need to see spending discipline and better efficiency within the Pentagon.

The Department of Defense has now failed two consecutive audits in 2 years. The Pentagon lost track of \$800 million in construction projects and \$2.1 billion in spare parts for the F-35 program. And it even buried an internal study revealing \$125 billion in bureaucratic waste amid fears that the findings might lead Congress to reconsider the massive sum of taxpayer money that goes to the Pentagon each year.

If a private corporation lost track of hundreds of millions of dollars and shielded evidence that it could save billions in wasteful spending, its shareholders would find that completely unacceptable, but the Defense Department has not undertaken the kind of real reform that it needs. In fact, the senior officer the Pentagon appointed just 3 years ago to reform the Department is now poised to be eliminated because she identified too much waste that could be saved.

Now, the other side might claim that these wish lists are necessary for our national security. To that I say, if they are necessary, put them in the budget. Put them in the budget. The Pentagon submitted a budget for \$740 billion. If these programs are so necessary, put them in the budget. No budget on top of budgets.

Additionally, this amendment doesn’t preclude our military services and combatant commands from sending over wish lists or testifying to Congress, but what it does do is end a terrible budgeting practice that lines the pockets of a bunch of defense contractor lobbyists at the expense of working people. That is unsustainable, and we must rein that in.

Mr. Speaker, I reserve the balance of my time.

□ 1530

Mr. THORNBERRY. Mr. Speaker, I rise in opposition to the amendment.

The SPEAKER pro tempore. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Speaker, I yield myself 1½ minutes.

Mr. Speaker, I think this amendment reflects a basic understanding of why that underlying provision of law is there.

The Pentagon loves this amendment because they have tried before to prevent us from receiving any information about anything that is not in their budget request. They want us to rubber-stamp whatever they send over and not exercise our independent judgment.

But the Constitution says it is our responsibility to raise and support,

provide and maintain the military forces of the United States. So, we take the Pentagon proposal seriously, but it doesn't mean we rubber-stamp them.

We solicit wider amounts of information, and sometimes, we have different judgment calls. Looking back over history, our judgment calls look pretty good, I would say. Sometimes within the Pentagon, there are cultural issues, parochial issues, service rivalries that shape the budget that comes to us.

We, in Congress, need that broader look. We need to hear from the combatant commanders what did not make it into the budget because then we may have a different judgment call about what should be in the budget.

Those reports help us do our job. That is why it is a matter of law that they are sent to us, and that is the reason it makes no sense to deny us the information we need to fulfill our responsibilities under the Constitution.

Mr. Speaker, I reserve the balance of my time.

Ms. JAYAPAL. Mr. Speaker, I yield 1 minute to the gentleman from Washington (Mr. SMITH), the distinguished chairman of the committee.

Mr. SMITH of Washington. Mr. Speaker, first of all, let me associate myself with Ms. JAYAPAL's remarks. I completely agree with everything she said.

I have an enormous amount of respect for Mr. THORNBERRY, but I disagree with the premise of part of what he said. Part of what he said is absolutely right. We should exercise our independent judgment and not simply rubber-stamp what the Pentagon asks us for, but I don't see how having them give us even more of what they want somehow better enables us to exercise our independent judgment.

It is the Pentagon who is sending us what "their priorities are." I think we should be absolutely skeptical of whatever they sent us. But to say, "Look, you get to ask for \$740 billion, and then you can ask for even more," that somehow that makes it easier for us to exercise independent judgment, independent of what the Pentagon wants, sort of stands logic on its head.

Make no mistake about it, there is one and only one reason for this law. It is because there are some who believe that no matter what you spend on the Pentagon and defense spending, you could always spend more. They are trying to push us down that road toward more, which is wrong because it is a waste. But it is also wrong because it is bad for national security.

We need to make choices, not imagine that the budget is unlimited. That is what this does, and it should go away.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Mississippi (Mr. KELLY).

Mr. KELLY of Mississippi. Mr. Speaker, the UFR list does not add any additional spending authorizations to the NDAA. Congress has a constitutional responsibility to fund the mili-

tary. These lists provide us with insight into senior leader requirements. It allows us to allow the combatant commanders, the people down there who are closest to the troops, to tell us what they need.

I am surprised that she is for the current administration, and the DOD that is appointed by the current administration, to tell us how we need to spend our money in Congress. I am not for that with any President.

We need to do our job as Congress, and we need to listen to the people closest to the ground, and it does not add any money to the current NDAA process.

Ms. JAYAPAL. Mr. Speaker, how much time do I have left?

The SPEAKER pro tempore (Mr. CUELLAR). The gentlewoman from Washington has 30 seconds remaining.

Ms. JAYAPAL. Mr. Speaker, I just wanted to say that we are getting the priorities from the Pentagon. That is called the budget. That is what they are supposed to do. They are supposed to put together their priorities and send it to us. So, we are looking at exactly what the Pentagon wants.

We are responding to that by, in this case, putting \$740 billion into a defense budget. Now, you are going to tell me you need a budget on top of the budget. That is bad budgeting, by every stretch of the imagination.

Mr. Speaker, I don't care which President asked for it, it is bad. That is why this has always been a bipartisan amendment or a bipartisan idea to get rid of this Unfunded Priorities List. It does not do the job; it bloats the military budget; and it is unnecessary and inefficient and bad spending.

Mr. Speaker, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. BERGMAN).

Mr. BERGMAN. Mr. Speaker, I oppose this amendment.

The Unfunded Priorities List is critical for services to convey their needs to adequately capture emerging requirements.

The budgets submitted through an annual budgeting process are constructed over the course of a year, but combat is a daily evolution. Adversaries are really not concerned about our budgeting process.

As someone who has been responsible for creating a significantly broad military budget, I know the challenges in planning for future fights while recognizing the fluidity and uncertainty surrounding current operations.

UFRs allow services to convey to Congress which budget sacrifices were made and the associated consequences. More importantly, the Armed Services Committee rightfully added the Chief of the National Guard Bureau to the UFR's list this year. This amendment would strike that language and impede the Guard in adjusting for the unexpected.

Undercutting the National Guard in a year in which they have been asked

to do so much for our country is not—I repeat not—a wise course of action.

This amendment should not be supported, and I urge my colleagues to vote "no."

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentlewoman from Missouri (Mrs. HARTZLER).

Mrs. HARTZLER. Mr. Speaker, I rise in opposition to this misguided amendment.

I am amazed that there are Members of Congress who want to limit the amount of information we receive to make important funding decisions for our national security.

Congress has the power of the purse. Congress has the responsibility to make the tough funding decisions. In order to do that, we need the information available.

We should not be a rubber stamp for the Pentagon. Contrary to what the amendment's sponsor said, unfunded requirements lists do not increase the size of the military's budget. We, as Members of Congress, must find offsets if we want to fund a requirement on the list.

For example, in the budget request, the Air Force made significant cuts to intelligence, surveillance, and reconnaissance programs. Almost every COCOM unfunded requirements list had ISR capabilities as a critical requirement and operational need. This committee, after conducting careful oversight, made the decision to restore funding for those programs based on the identified needs of our combatant commanders.

We did not pull the money out of thin air. We found places in the budget request to cut to support these programs and minimize near-term operational risk.

All this amendment does is limit the information Congress receives from the military services, to include the National Guard.

Mr. Speaker, I strongly encourage Members to oppose this amendment.

Mr. THORNBERRY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentlewoman from Washington (Ms. JAYAPAL).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THORNBERRY. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentlewoman from Colorado (Ms. DEGETTE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Colorado.

Ms. DEGETTE. Mr. Speaker, I yield myself 1½ minutes.

Mr. Speaker, I rise today in support of my amendment, which would add the text of the Protecting America's Wilderness Act to this year's NDAA.

The purpose behind this amendment is simple. It is to protect more of America's public lands and to ensure that our Nation's most elite military pilots have the opportunity to train for some of the harshest environments on the planet.

This legislation, which has already passed in the House earlier this year, would permanently protect more than 1.3 million acres of public land across Colorado, California, and Washington. It includes Representative HUFFMAN's language to protect lands in northwest California; Representative CARBAJAL, to protect lands in central California; and Representative CHU, to expand the San Gabriel Mountains National Monument. It includes legislation by Representative SCHIFF to protect lands by the Santa Monica Mountains National Recreation Area and legislation by Representative KILMER to protect lands in Washington State's Olympic Peninsula.

Finally, it includes legislation that I have worked on for over 20 years to protect more than 600,000 acres in Colorado and to ensure that key military areas, like the High Altitude Aviation Training Site, or HAATS, is able to continue its mission unencumbered.

The designations in this amendment are the product of decades of work and have garnered widespread support across the West. They are designed to help protect these lands from the threat of future development, provide a boost to our States' economies, and ensure our military has the space it needs to train.

Mr. Speaker, I urge Members to vote “yes” on the amendment, and I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I rise in opposition to the amendment.

The SPEAKER pro tempore. The gentleman from Colorado is recognized for 5 minutes.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong opposition to this amendment to add a package of divisive and unrelated partisan land bills to the NDAA.

First of all, this amendment has nothing to do with national defense. It is a travesty that the majority has jammed these issues together. Collectively, this package of ideologically driven bills impacts lands in Colorado, California, and Washington by creating about 1.3 million acres of new wilderness. But this will greatly reduce opportunities for multiple uses on these public lands, limit access to them, and significantly reduce the available productive acreage in working forests, rendering them more prone to catastrophic wildfires.

In Colorado alone, this would designate about 570,000 acres of new wilderness areas, 23,000 acres of expanded wilderness, and 14,000 acres of potential wilderness, whatever "potential wilderness" is. This is in a State where we have 3½ million acres of wilderness right now.

While I commend my colleague from Colorado for her attempts to work with local stakeholders to address some of their concerns, none of the bills in this package comes close to the type of balance and consensus necessary for a bill of this magnitude. Many of the local communities impacted by this package have raised significant concerns.

Now, you know, look, I love public lands, as does the sponsor of this legislation. My wife and I hiked a national park in Moab last week. While wilderness sounds good to the uninformed, it really means that most people will forever lose access to those lands.

Local communities have many concerns with this bill. At the July subcommittee hearing on this bill, we heard testimony from Montezuma County Commissioner Keenan Ertel, who shared the county's concern that this bill would negatively impact individual landowners, agricultural entities, water providers, first responders, and especially the recreation and tourism industry. Garfield County has also weighed in against this bill because of the increased wildfire risk.

In addition to the local grievances, the affected Federal land management agencies have stated that this bill is inconsistent with previous designations and existing land uses because it arbitrarily adds wilderness areas and wild and scenic river designations where those designations are simply not supported.

Now, actually, there is one connection to national defense, and that is a negative one. By designating the High Altitude Aviation Training Site, or HAATS, as being within a wilderness area, it won't be able to expand if and when future vertical lift platforms come online. Future platforms will fly higher, farther, and faster, and they will need more space, and this amendment prevents that.

Because of all these concerns, the Trump administration rightly issued a

veto threat against this bill when it first came up to the House in February.

I ask my colleagues to oppose this amendment.

Mr. Speaker, I reserve the balance of my time.

□ 1545

Ms. DEGETTE. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. HUFFMAN), a key sponsor of this amendment.

Mr. HUFFMAN. Mr. Speaker, I thank the gentlewoman for yielding.

My friend across the aisle who is so concerned about not having environmental policy in the NDAA certainly showed no concern in prior years when bad environmental policy was made against protections for prairie chicken and sage-grouse in the NDAA. Today, we can make some good environmental policy.

These bills are familiar to us because they passed with broad support; they are well-vetted; and they include my Northwest California Wilderness, Recreation, and Working Forests Act, which will protect 380,000 acres of new wilderness, designate 480 miles of wild scenic river, and includes an ambitious restoration plan to improve forest health, promote fire resiliency, and expand outdoor recreation.

These are good bills. They deserve our support.

Mr. LAMBORN. Mr. Speaker, I would just like to say to my colleague from California that at least the sage-grouse amendments in the past had something to do with national defense. These were next to military areas that impacted readiness. This amendment has nothing to do with national defense.

Mr. Speaker, may I inquire how much time I have remaining.

The SPEAKER pro tempore. The gentleman from Colorado has 1¾ minutes remaining.

Mr. LAMBORN. Mr. Speaker, I yield the balance of my time to the gentleman from Colorado (Mr. TIPTON).

Mr. TIPTON. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, the amendment today will do exactly the opposite of what we are trying to accomplish. This bill is not going to be able to strengthen the national defense. My colleague's amendment would directly threaten the high altitude military training aviation site that is critical to the readiness of our armed services and to the national security of the U.S.

Additionally, it would make the United States even more reliant on China for critical strategic minerals.

Our goals should be to enact policies that will support readiness and a sustainable and secure supply chain for critical minerals. This amendment is in direct conflict to those goals.

My district is home to the national-level asset, the High Altitude Army National Guard Aviation Training Site, or HAATS. The life-saving training acquired at HAATS is vital to the military's success and readiness of our Nation.

My good friend from Colorado's amendment seeks to establish five wilderness areas within the HAATS training area either immediately or in the future through a new, unprecedented land designation mechanism that the sponsor is calling "potential wilderness."

When this legislation was debated before the committee, no one from DOD or the National Guard Bureau, let alone the Colorado National Guard, was given the chance to testify on the legislation's potential effects on readiness. Therefore, it would be completely unacceptable to include this legislation in the 2021 National Defense Authorization.

In addition, this amendment further deepens our Nation's concerning dependence on Communist China for critical minerals. The U.S. is 100 percent import reliant on 14 minerals on the critical minerals list and 75 percent import reliant on an additional 10.

This map prepared by U.S. Geological Survey shows the critical mineral deposit occurrences in Colorado. The area identified as Colorado Mineral Belt, which spans from Boulder down through Gunnison County and all the way into the Four Corners area, contains minerals on which the U.S. is import reliant.

I urge opposition to this bill and inclusion into the NDAA.

Ms. DEGETTE. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. SCHIFF), another key sponsor of this amendment.

Mr. SCHIFF. Mr. Speaker, I thank the gentlewoman from Colorado for yielding. I rise in strong support of amendment 659, the Protecting America's Wilderness Act. This amendment includes the Rim of the Valley Corridor Preservation Act legislation I have been working on for nearly 20 years.

I first took up the study bill when George W. Bush was President. We got that passed in a Republican House and signed into law. During the course of the Obama administration, we got the study funded and conducted.

Thousands and thousands of people commented during the public survey period overwhelmingly in favor of the most aggressive option of tripling the size of the park. Ultimately, the Park Service recommended doubling the acreage in the Santa Monica Mountains National Recreation Area. This bill would make that law.

Twenty years is a long enough time to be pursuing this to finally bring it to completion. This will help us preserve wildlife corridors, rare ecosystems, hiking trails, and recreational opportunities.

As Los Angeles expands, this proximity to nature is what so many people love about it. We love how we have lions roaming our hills. We have beautiful bears coming into people's garages to eat Ikea meatballs, all possible because we preserve this open space.

Mr. Speaker, I urge passage.

Ms. DEGETTE. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. JUDY CHU), another key sponsor of this amendment.

Ms. JUDY CHU of California. Mr. Speaker, I rise in strong support of this amendment, which includes the text of my legislation, the San Gabriel Mountains Foothills and Rivers Protection Act.

The San Gabriel Mountains provide 30 percent of southern California's water, comprise 70 percent of L.A. County's open space, and are easily accessible to more than 15 million Americans. But still, the L.A. County region is amongst the most park-poor in the country, with too many communities lacking access to outdoor recreation opportunities in their own neighborhoods.

By creating the San Gabriel Mountains national recreation area by building on the progress made by the establishment of the San Gabriel Mountains National Monument, by designating new wilderness and wild rivers, this amendment will provide outdoor recreation opportunities to millions, improving their health and well-being.

I urge my colleagues to join me in strong support of this amendment.

Ms. DEGETTE. Mr. Speaker, I yield myself the balance of my time.

Let me just set the record straight. These types of bills have been included in the NDAA for generations by Republicans and Democrats. In this case, it is particularly urgent because, as I said, and you even heard my colleagues on the other side say, HAATS is included. This clarifies HAATS laws, and it makes clear that they can be used.

There is one group of people that is the most important to decide about wilderness, and that is the public. Two-thirds of the people on the western slope of Colorado want more wilderness. These areas are all wilderness study areas now. Let's keep them for future generations.

Mr. Speaker, I yield back the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentlewoman from Colorado (Ms. DEGETTE).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LAMBORN. Mr. Speaker, I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENT NO. 8 OFFERED BY MR. NEGUSE

The SPEAKER pro tempore. It is now in order to consider amendment No. 8 printed in House Report 116-457.

Mr. NEGUSE. Mr. Speaker, I rise today in support of the amendment, which would amend H.R. 6395.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

 - (ii) reissued; or
 - (iii) otherwise used for mineral extraction.

(B) CONDITIONS.—The authority under subparagraph (A) shall be—

- (i) subject to valid existing rights; and
- (ii) subject to such terms and conditions as the Secretary may require.

(C) LIMITATIONS.—The program carried out under paragraph (1) shall only include fugitive methane emissions that can be captured for use, or destroyed by flaring, in a manner that does not—

- (i) endanger the safety of any coal mine worker; or
- (ii) unreasonably interfere with any ongoing operation at a coal mine.

(D) COOPERATION.—

(i) IN GENERAL.—The Secretary shall work cooperatively with the holders of valid existing Federal coal leases for mines that produce fugitive methane emissions to encourage—

(I) the capture of fugitive methane emissions for beneficial use, such as generating electrical power, producing usable heat, transporting the methane to market, transforming the fugitive methane emissions into a different marketable material; or

(B) SOURCE.—To the maximum extent practicable, the Secretary shall offer for lease each significant vent, seep, or other source of fugitive methane emissions from abandoned coal mines.

(C) BID QUALIFICATIONS.—A bid to lease fugitive methane emissions under this paragraph shall specify whether the prospective lessee intends—

(ii) to destroy the fugitive methane emissions by flaring; or

(iii) to employ a specific combination of—

(I) capturing the fugitive methane emissions for beneficial use; and

(II) destroying the fugitive methane emission by flaring.

(D) PRIORITY.—

(F) ROYALTY RATE.—The Secretary shall develop a minimum bid and royalty rate for leases under this paragraph to advance the purposes of this section, to the maximum extent practicable.

(d) SEQUESTRATION.—If, by not later than 4 years after the date of enactment of this Act, any significant fugitive methane emissions from abandoned coal mines on Federal land are not leased under subsection (c)(3), the Secretary shall, in accordance with applicable law, take all reasonable measures—

(1) to cap those fugitive methane emissions at the source in any case in which the cap will result in the long-term sequestration of all or a significant portion of the fugitive methane emissions; or

(2) if sequestration under paragraph (1) is not feasible, destroy the fugitive methane emissions by flaring.

(e) REPORT TO CONGRESS.—Not later than 4 years after the date of enactment of this Act

the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report detailing—

(1) the economic and environmental impacts of the pilot program, including information on increased royalties and estimates of avoided greenhouse gas emissions; and

(2) any recommendations by the Secretary on whether the pilot program could be expanded geographically to include other significant sources of fugitive methane emissions from coal mines.

SEC. 6306. EFFECT.

(C) PRIVATE LAND.—On private land acquired under section 6403 for the National Recreation Area on which authorized grazing is occurring before the date of enactment of this Act, the Secretary, in consultation with the lessee, may allow the continuation and renewal of grazing on the land based on the terms of acquisition or by agreement between the Secretary and the lessee, subject to applicable law (including regulations).

(D) FEDERAL LAND.—The Secretary shall—

(i) allow, consistent with the grazing leases, uses, and practices in effect as of the date of enactment of this Act, the continuation and renewal of grazing on Federal land located within the boundary of the National Recreation Area on which grazing is allowed before the date of enactment of this Act, unless the Secretary determines that grazing on the Federal land would present unacceptable impacts (as defined in section 1.4.7.1 of

the National Park Service document entitled “Management Policies 2006: The Guide to Managing the National Park System”) to the natural, cultural, recreational, and scenic resource values and the character of the land within the National Recreation Area; and

SEC. 6405. BOUNDARY SURVEY.

The Secretary (acting through the Director of the National Park Service) shall prepare a boundary survey and legal description of the National Recreation Area.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Colorado (Mr. NEGUSE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. NEGUSE. Mr. Speaker, as I referenced, I stand today in support of this amendment offered by myself and the distinguished chair of the House Natural Resources Committee, Chairman GRIJALVA, which would amend H.R. 6395 to add the text of two bills that have already passed this Chamber with bipartisan support, H.R. 823, the Colorado Outdoor Recreation and Economy Act, or CORE Act, and H.R. 1373, the Grand Canyon Centennial Protection Act.

Both of these bills are imperative, and this amendment would protect public lands and preserve our access to clean air and water across the State of Colorado and Arizona.

My bill in particular, the CORE Act, would protect over 400,000 acres of public land, including establishing the first-ever national historic landscape at Camp Hale. This unprecedented designation speaks to the storied legacy of the Army's 10th Mountain Division in Colorado and around the world.

It was in the mountains of Colorado in my district that American soldiers received the training that allowed them to defeat Germans in the northern Italian Alps, leading our Nation to victory during World War II.

Today, Camp Hale is home to a network of 34 backcountry huts connected by 350 miles of trails. Hut visitors share the special spirit of the 10th Mountain Division in their pursuit of excellence, self-reliance, and love of the outdoors.

A National Historic Landscape designation ensures that future generations will be able to learn about the history of the 10th Mountain Division, appreciate these sacrifices of our servicemembers, and enjoy outdoor recreation opportunities.

I hope my colleagues will join me in honoring those sacrifices by supporting this amendment today.

Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. GRIJALVA).

Mr. GRIJALVA. Mr. Speaker, I thank the gentleman for yielding. I appreciate the time and consideration of amendment No. 8, a combination of the Grand Canyon Centennial Protection Act and my good friend JOE NEGUSE's Colorado Outdoor Recreation and Economy Act.

These bills have already passed the House with bipartisan votes, and they deserve a place in this year's National Defense Authorization Act.

We have worked hard as a committee, as you noticed from the bills

that were presented today, to try to prioritize conservation and climate resiliency and protect some very special landscapes.

In addition to supporting a multibillion-dollar recreation economy, conservation of public land is our first line of defense in responding to climate change and, in the question of the Grand Canyon, protecting the water supply for 40 million Americans, businesses, and industry.

In the case of the Grand Canyon, too, ending the toxic legacy of uranium mining is truly a matter of life and death. Uranium mines across the Southwest pollute our water and endanger our communities and our health. Despite constant and empty assurances and promises, hundreds of these sites are still waiting to be cleaned up, particularly those mines that impact Tribal communities.

Opponents of this amendment claim that the permanent protections in the Grand Canyon will impact our national security. This is a patent falsehood and distraction. The Grand Canyon region holds less than 1 percent of known U.S. uranium reserves, hardly an abundance and hardly an amount we cannot find elsewhere.

The Department of Energy reported to Congress that they have enough uranium stockpiled to meet all critical uranium needs, including weapons, maintenance, Naval propulsion, and mutual defense obligations, through 2060.

Unfortunately, despite there being no reason to mine the national treasure, the temporary protections put in place by the previous administration are under attack by this administration and his industry cronies. This is not about the bottom line of some foreign mining company. This is about American lives, and we should not sacrifice the Grand Canyon as expendable or a price of doing business.

Mr. Speaker, I urge adoption of the amendment.

Mr. GOSAR. Mr. Speaker, I claim the time in opposition to the amendment.

The SPEAKER pro tempore. The gentleman from Arizona is recognized for 5 minutes.

Mr. GOSAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I feel like I am in the movie "Groundhog Day." My colleagues on the other side of the aisle are repeating one of their famous mantras, "Not this mine, not this place," their standard refrain because they do not support any mining anywhere.

This amendment is nothing short of a full-scale attack on the livelihoods of many of my constituents. It sets back our Nation's national security and strengthens Putin's Russia. This amendment imposes a million-acre land grab permanently banning mining in an area nearly the size of Delaware. However, none of this land is in the district of the sponsor of this amendment, Mr. Speaker.

My colleagues falsely frame this amendment as an effort to protect the Grand Canyon, which is, of course, completely disingenuous. No one wants to mine within the Grand Canyon. This entire area is miles away from the boundaries of the buffer around the Grand Canyon National Park.

□ 1600

Bipartisan negotiations led to the Arizona Wilderness Act in 1984, which set aside this area for multiple-use activities, including mining. It placed 387,000 acres of land into the National Wilderness Preservation System in exchange for leaving 540,000 acres for multiple use, which now makes up a large portion of this withdrawal.

Estimates show that the passage of this amendment would cost the six directly affected counties in Arizona and Utah between 2,000 and 4,000 jobs and \$29 billion in economic activity. This would completely and utterly devastate these rural communities.

The area in question is home to the highest grade and largest quantity of uranium deposits in the country, so this amendment does not just negatively affect Arizona, it harms the national security of the entire country.

By passing this amendment, we play right into the hands of Russia, who along with Kazakhstan and Uzbekistan, are deliberately trying to corner the global uranium market. China is also joining in the game, buying up uranium mines in Africa.

Successful uranium mining occurred in the 1980s in this exact area. These mines were reclaimed so well that you can't even tell where they once existed. And there was no damage done to the Grand Canyon watershed—in fact, it may have improved it.

Mr. Speaker, I think this House is slowly becoming fully aware of the problem we face as a nation when it comes to our reliance on foreign sources of critical minerals, especially in light of the current pandemic. In fact, many Democrats are starting to come to the table to work with us to rectify this problem.

However, there are still many hurdles to cross, like the fact that my colleagues continue to try to block mining in northern Arizona, much like they do in northern Minnesota and the Resolution Copper Mine in the southern part of my district.

There is no question that this amendment will hurt local revenues, kill jobs, and undermine American energy security. It is opposed by the people of my district, and, Mr. Speaker, I urge my colleagues to join me in opposition.

Mr. Speaker, I include in the RECORD two letters: one being a veto threat from the administration related to the bill form of this amendment, H.R. 1373; and the other being a letter from a number of industry groups opposing this amendment.

STATEMENT OF ADMINISTRATION POLICY
H.R. 1373—GRAND CANYON CENTENNIAL PROTECTION ACT—REP. GRIJALVA, D-AZ, AND 122 CO-SPONSORS

The Administration strongly opposes H.R. 1373, the Grand Canyon Centennial Protection Act. This bill would permanently make more than 1 million acres of Federal lands in Arizona off limits to development and uses that would otherwise be permissible under Federal laws governing public lands, mining, mineral, and geothermal leasing. The Administration opposes such a large, permanent withdrawal, which would prohibit environmentally responsible development, as determined through site-specific analysis, of uranium and other mineral resources.

The United States has an extraordinary abundance of mineral resources, both onshore and offshore, but this legislation would restrict our ability to access critical minerals like uranium in an area known to have them in large supply. Moreover, the size of the withdrawal included in H.R. 1373 is inconsistent with the Administration's goal of striking the appropriate balance for use of public lands described in two executive orders. This withdrawal would conflict with the objectives set forth in Executive Order 13783, Promoting Energy Independence and Economic Growth, and Executive Order 13817, A Federal Strategy to Ensure Secure and Reliable Supplies of Critical Minerals. Development of our Nation's mineral resources is essential to ensuring the Nation's geopolitical security, and this bill would not help us achieve that goal.

If H.R. 1373 were presented to the President, his advisors would recommend that he veto it.

OCTOBER 29, 2019.

Hon. RAÚL GRIJALVA,
*Chairman, House Natural Resources Committee,
Washington, DC.*

Hon. ROB BISHOP,
*Ranking Member, House Natural Resources
Committee, Washington, DC.*

DEAR CHAIRMAN GRIJALVA AND RANKING MEMBER BISHOP: The signatories to this letter urge you to vote in opposition to the "Grand Canyon Centennial Protection Act" (H.R. 1373), an act that fails to acknowledge our nation's alarming reliance on foreign sources of minerals and would further weaken the already vulnerable supply chains for key U.S. industry sectors, including manufacturing, infrastructure, energy and defense.

Federal lands—predominantly in the western U.S.—are the source of much of our nation's mineral endowment. Of these federal lands, half are either off limits or under restrictions to mineral development. While mining is certainly not appropriate on all federal lands, maintaining responsible access to the very resources that drive innovation, feed economic growth and improve our nation's quality of life is essential. Given the vast amount of federal lands already closed to mining operations, caution should be exercised when determining whether additional lands should be placed off limits.

H.R. 1373 targets over a million acres of mineral rich lands, including world-class uranium ore deposits that are located well beyond the boundaries of the Grand Canyon National Park. The park as created already includes a built-in buffer zone to protect park resources from activities taking place outside the park boundaries and an additional million-acre buffer zone is not justified. H.R. 1373 deliberately disregards our dangerous dependence on countries like Russia, Kazakhstan, Uzbekistan, and Niger to meet our nation's need for uranium to fuel our nuclear Navy and supply 20 percent of our nation's electricity.

Furthermore, H.R. 1373 ignores not only the comprehensive framework of federal, state and local environmental regulations that govern every aspect of mining but the findings of the Department of the Interior that the park was not at risk from mining given these existing protections. This unwise and unwarranted mineral withdrawal is bad public policy that ignores the vast sectors of our economy that depend upon a reliable and secure supply chain of minerals and metals. Access to our nation's vast and diverse resources and fair regulatory policies that promote certainty in the mine permitting process are the elements of sound public policy that should be considered when addressing resource development on federal lands. We urge you to vote against this misguided bill and support policies that promote responsible resource development.

Mr. GOSAR. Mr. Speaker, I yield 1½ minutes to the gentleman from Colorado (Mr. TIPTON).

Mr. TIPTON. Mr. Speaker, I thank the gentleman, my colleague, for yielding.

Mr. Speaker, I strongly oppose the amendment from my good friend from Colorado.

Like amendments that have come before this, this amendment will do the exact opposite of what we are trying to be able to accomplish here today, which is develop a bill to support and strengthen the national defense.

My colleague's amendment has the potential to threaten high-altitude military aviation training that is critical to the readiness of our armed services and to the national security interests of the U.S. Additionally, it would make the United States even more reliant on China for critical and strategic minerals.

Our goal is to be able to enact policies that support readiness and sustainable and secure supply chains for critical minerals. This amendment is in direct conflict with those goals.

High-altitude military aviation training is critical to the readiness of our armed services and to the national security of the United States.

My colleagues have stated that they want to be able to safeguard HAATS. In my conversations with DOD, it said it would look forward to DOD flight guidance with regards to how to operate under the language. And while I appreciate DOD's guidance, we all know too well that regulatory changes do not provide certainty. That is why I have submitted an amendment to codify the safe transit exception for military aircraft flying over the wilderness areas and mountain regions. Unfortunately, my friends in the majority did not rule that amendment in order, and we will not have the opportunity to be able to vote on safe transit.

We need to be focusing on the security of the United States not only in terms of critical minerals, but also making sure that our military has the appropriate tools to be able to carry out their missions safely in terms of the guidance that we are providing. This amendment does not achieve that goal. It will not help support the NDAA.

Mr. GOSAR. Mr. Speaker, I reserve the balance of my time.

Mr. NEGUSE. Mr. Speaker, I inquire as to how much time remains.

The SPEAKER pro tempore. The gentleman from Colorado has 1½ minutes remaining.

Mr. NEGUSE. Mr. Speaker, while I disagree with my colleague, Mr. TIPTON, on this particular issue, I do appreciate his friendship and his service to the House for many years.

I would just offer three closing arguments.

First, for those who argue that these public land measures should not be attached to the NDAA, there is certainly precedent for these type of provisions to be included in the NDAA. In fact, the Hermosa Creek Watershed Protection Act by my colleague from Colorado, my good friend, was signed into law as a provision of the 2015 NDAA in the 113th Congress under a Republican-controlled House. So there is ample precedent.

With respect to the HAATS issue, I would simply note that, in December of last year, the Department of Defense sent a letter to my Senate companion sponsor, Senator MICHAEL BENNET, informing him that the Department had determined that:

The land management designation in H.R. 823, the CORE Act, should not affect current or future military overflight in Colorado.

Mr. Speaker, these bills have nothing to do with China or Kazakhstan and everything to do with protecting crown jewels here in the United States of America, the Grand Canyon and hundreds of thousands of acres of wilderness in my home State of Colorado.

Mr. Speaker, I urge my colleagues to support these important public land designations and support the amendment being considered by the House.

Mr. Speaker, I yield back the balance of my time.

Mr. GOSAR. Mr. Speaker, once again, this is about the management of the land. As we stated earlier, the buffer around the Grand Canyon, this is miles away from this.

And this is about national security. Critical minerals, uranium, they are very important to the makeup of this country and its energy sector. We cannot be reliant, and we saw that all too easily displayed in this COVID crisis. We have to be the purveyors of our future.

Mr. Speaker, I ask everybody to vote against this amendment, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the

amendment offered by the gentleman from Colorado (Mr. NEGUSE).

The question is on the amendment.

The question was taken, and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. GOSAR. Mr. Speaker, I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENT NO. 9 OFFERED BY MR. POCAN

The SPEAKER pro tempore. It is now in order to consider amendment No. 9 printed in House Report 116-457.

Mr. POCAN. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle A of title X, insert the following:

SEC. 10. REDUCTION IN AMOUNT AUTHORIZED TO BE APPROPRIATED FOR FISCAL YEAR 2021 BY THIS ACT.

(a) IN GENERAL.—The amount authorized to be appropriated for fiscal year 2021 by this Act is the aggregate amount authorized to be appropriated for fiscal year 2021 by this Act minus the amount equal to 10 percent of the aggregate amount.

(b) ALLOCATION.—The reduction made by subsection (a) shall apply on a pro rata basis among the accounts and funds for which amounts are authorized to be appropriated by this Act (other than the Defense Health Program, military personnel, and persons appointed into the civil service as defined in section 2101 of title 5, United States Code), and shall be applied on a pro rata basis across each program, project, and activity funded by the account or fund concerned.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Wisconsin (Mr. POCAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Wisconsin.

Mr. POCAN. Mr. Speaker, if you ask just about anyone, “What is America’s greatest threat?” the answer isn’t going to be another country or a political ideology. It is going to be a disease: COVID-19.

And with that answer, people will mention the need of help for the jobless, the threat to small businesses, problems paying their rent or mortgage, and the need for healthcare.

What you won’t hear will be the need for a Space Force or more nukes or an overseas slush fund for the Pentagon. You certainly won’t hear about the need for more cost overruns or fraud and abuse from defense contractors.

But that is exactly what we have. We have increased our military spending almost 20 percent in the last 4 years at a time of relative peace, but we have not kept up with our needs like healthcare, education, and, of course, fighting the coronavirus, yet we spend 90 times more on defense than we do the Centers for Disease Control.

\$740 billion for the Pentagon is a lot of money, and too much of it gets wast-

ed on fraud, cost overruns, and outside contractors. We are literally flushing money down the drain, and I mean literally.

Due to a design flaw in the new \$13 billion Ford-class aircraft carrier, we are spending \$400,000 on specialized acids every time we have to flush and unclog the toilets. I am not making this up.

Almost every major defense contractor has had to pay fines or settlements for fraud or misconduct, all while getting about \$1 trillion in defense contracts.

We have spent billions on an amphibious vehicle that sinks due to its own weight, and don’t even mention the \$10,000 toilet seat covers.

If we cut the defense budget just 10 percent but not our troops, we free up \$74 billion to fight global pandemics like COVID-19 and much more.

We need to treat the Pentagon like every other department, and that means with fiscal responsibility. We do that today by trimming 10 percent, \$74 billion, to be used, instead, on behalf of the American people, not bloated defense contracts.

Mr. Speaker, I urge support of my amendment, and I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I claim the time in opposition to the amendment.

The SPEAKER pro tempore. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentlewoman from Wyoming (Ms. CHENEY).

Ms. CHENEY. Mr. Speaker, this amendment is a deeply irresponsible stunt that would have great implications for our national security. It would return us to days even worse than the days of sequester, a time in which Secretary of Defense Jim Mattis said:

No foe in the field has done more damage to the U.S. Armed Forces than the United States Congress has because of arbitrary across-the-board cuts.

We would, with this amendment, undermine near-term lethality and the readiness of our troops on air, on land, and at sea.

We are asking our men and women to go into harm’s way to defend all of us, and we must always do that ensuring that they have the absolute best equipment and resources necessary.

This amendment is a stunt, Mr. Speaker. It would be dangerous. We have to ensure that the United States of America maintains a military force that is second to none.

Mr. Speaker, I urge my colleagues to defeat this irresponsible and reckless amendment.

Mr. POCAN. Mr. Speaker, I yield 1¼ minutes to the gentlewoman from California (Ms. LEE), my distinguished colleague and colead on this amendment, and a strong voice for peace and justice.

Ms. LEE of California. Mr. Speaker, I thank Congressman POCAN for yielding

and for his tremendous, bold, and visionary leadership.

As we stand here today, 142,000 people in America are dead from COVID and millions have suffered from the disease or the economic dislocation which it has caused.

The Federal response has been weak, it has been late, and it has been confused. Meanwhile, this House stands poised to pour three-quarters of a trillion dollars into a defense establishment that is unauditably, unaccountable, and does little to answer the basic threats to the safety and welfare of our people.

The Pentagon is the only Federal department that has never passed an audit, despite this requirement being on the books for 30 years.

It is not hard to find places to cut this budget. The Pentagon could save almost \$58 billion just by eliminating obsolete weapons, weapons like Cold War-era bombers and missiles designed and built in the last century that are totally unsuitable for the challenges of this century.

We could find another \$18 billion simply by preventing the end-of-year spending sprees that lead to contract money being shoveled out the door in September. Congressional Research Service documented these spending spikes occurring each September as offices at the Pentagon go on a last-minute spending spree to justify their next-year budget increases.

We see the tremendous costs of this runaway spending not only in missing priorities like public health that are left underfunded, but in a way of thinking that militarizes every problem in our society and turns peaceful protestors into targets for weapons of war.

Enough. It is time for us to stand up against this madness.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. POCAN. Mr. Speaker, I yield an additional 10 seconds to the gentlewoman.

Ms. LEE of California. Mr. Speaker, let me just close by saying these are modest cuts. They won’t compromise our national security and won’t take dollars from our troops, but it will allow us to reinvest in healthcare, schools, and infrastructure. This amendment will be a first step in rebalancing our priorities to build a safe, peaceful, prosperous world at home and abroad.

Mr. Speaker, I urge a “yes” vote.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. TURNER).

Mr. TURNER. Mr. Speaker, let’s just be honest. This amendment does not do anything for funding for COVID or funding for healthcare. This is, straight and simple, defund DOD, and that is it.

We have just come off of sequestration where we saw our planes falling out of the sky during training, where we saw our men and women in uniform

working in buildings that we couldn't even repair. At my own base, Wright-Patterson Air Force Base, they didn't even have enough money to turn the lights on in buildings that people were working in.

This is not sequestration. This is like sequestration on steroids. This would be the biggest cut, much more than sequestration ever had.

It actually works out to about a 16 percent cut, not 10 percent, because of the things that are exempted. So the money doesn't go where the author says it is going to go to.

It does hurt our national security, and it does hurt our men and women in uniform. It cuts military housing; it cuts education; it cuts military family programs; it cuts research and development; but, most importantly, it cuts training. It goes right to the heart of making it unsafe once again for our men and women in uniform just to keep our country safe.

This isn't money down the drain. This is money every day that keeps us at peace.

□ 1615

Mr. POCAN. Mr. Speaker, I yield 1 minute to the gentlewoman from Washington (Ms. JAYAPAL), the co-chair of the CPC, and my good friend.

Ms. JAYAPAL. Mr. Speaker, I stand in strong support of this amendment by my fantastic co-chair, Mr. POCAN, and Ms. LEE.

This is critical for us to just do this small step of cutting 10 percent of our Pentagon budget.

Enough is enough. This year's defense budget is 90 times bigger than the budget for the Centers for Disease Control. Yet, we are nearing 4 million COVID cases and over 141,000 deaths, and this President wants to add money for defense spending while cutting money for testing. That is just wrong.

It is a small amount, but it is a start. That \$74 billion could mean childcare for every family. It could mean housing vouchers for every eligible family. It could mean a \$23,000 raise for every public-school teacher.

So many things that we could do with this money—what we cannot do is give it away to corrupt defense contractors.

Pass this amendment. Reset our priorities. It is time.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Virginia (Mr. WITTMAN).

Mr. WITTMAN. Mr. Speaker, I am in opposition to this amendment because it actually creates a structural imbalance, or a structural deficit, in what we have been doing the last 5 years to rebuild our military, to regain that lost readiness.

If you exempt personnel accounts and health plans, this actually turns out to be a 16 percent reduction. Let me tell you the things that this 16 percent reduction will result in.

You will have family housing benefits for military members that go out

the window. We won't be supporting their families.

It will make existing base housing agreements insolvent, so what we do to help house our men and women in the military and their families goes out the window. Basic family safety nets for children, suicide prevention, and family support, out the window. So much for supporting our brave men and women who serve this Nation.

Servicemembers on-base food support, so much for helping them through these challenging times and making sure that their basic needs are met.

It creates a hollow force. Remember, what we do in investing in our military is to build the ability for our Nation to deter our adversaries. We have seen, historically, when there is an imbalance in powers between near-peer adversaries, what happens? We find ourselves in conflict.

Why would we want to send a message to the rest of the world that we are going to purposely weaken our United States military, that we are going to put our Nation in a position not to be able to defend ourselves and to deter others from perpetrating their violence across the world?

Mr. THORNBERRY. Mr. Speaker, has all the gentleman from Wisconsin's time been used?

The SPEAKER pro tempore. The gentleman from Wisconsin's time has expired. The gentleman from Texas has 2 minutes remaining.

Mr. THORNBERRY. Mr. Speaker, the underlying bill, as Chairman SMITH pointed out a few moments ago, is consistent with the 2-year budget agreement, which was made last year.

It turns out, many of the sponsors of this amendment voted for that 2-year budget agreement. But this year, they only want to cut defense.

As my colleagues have pointed out, some accounts are exempt, and that means the real cut is not 10 percent. It is 16 percent. That 16 percent cut would have a severe effect on modernization; on the research we need to do to catch up, in many cases, with Russia and China; and especially on maintenance.

This House has been a leader in restoring our readiness and maintaining our planes, ships, and equipment. This takes us back the other way. In other words, this amendment may well cost lives.

As several of my colleagues have mentioned, while it exempts some accounts dealing with our people, other accounts are not exempt. So, this amendment results in a \$216 million cut to military housing; a \$470 million cut to the Department of Defense dependent education program; a \$184 million cut to commissaries; \$900 million to defense nuclear environmental cleanup, including a \$145 million cut to the Hanford site.

But underneath it all, there is a fundamental flaw in this amendment. It says that we can cut defense without consequences. It is kind of like we can hide our head under the covers, cut de-

fense, and assume that the threats are just going to go away. But they don't.

Those who don't share our values will step into the void. The world will grow more dangerous, and Americans and America's national security will suffer as a result. That is the fact.

History proves, time and time again, weakness begat aggression. That is what this bill tries to avoid, and I hope that, on a bipartisan basis, Members will reject this amendment.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentleman from Wisconsin (Mr. POCAN).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THORNBERRY. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

AMENDMENT NO. 11 OFFERED BY MS. DEAN

The SPEAKER pro tempore. It is now in order to consider amendment No. 11 printed in House Report 116-457.

Ms. DEAN. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

In subtitle E of title XVII, add at the end the following:

(4) **SECRETARY.**—The term “Secretary” means the Secretary of the Treasury.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentlewoman from Pennsylvania (Ms. DEAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Pennsylvania.

Ms. DEAN. Mr. Speaker, I thank the chairman and all the members of the committee for their fine work in the proposed legislation.

I rise today in support of my amendment, No. 11, to H.R. 6395. This amendment would provide much-needed assistance to roughly 6 million private student loan borrowers by authorizing appropriations of up to \$10,000 per borrower to pay down their student loan debt.

Additionally, this amendment would require private student loan servicers to modify the loan to lower the monthly payments by re-amortizing the loan and/or lowering the interest rate when the borrower resumes payment.

This is a commonsense requirement that helps both the borrowers and the servicers, who will receive a lump sum payment and should, therefore, make sure that subsequent payments by borrowers are affordable and sustainable.

Private student loan borrowers did not receive any of the reprieve that the Federal student loan borrowers were able to access through the CARES Act. This means that roughly 6 million private student loan borrowers have had to continue to make payments during an unprecedented health and economic crisis, hurting not only their economic health but our country’s, too.

We know the private student loan borrowers are particularly vulnerable. Prior to the pandemic, one in seven student loan borrowers were more than 90 days delinquent.

COVID-19 has only exacerbated this problem. According to the Student Borrower Protection Center, the number of private student loan borrowers unable to make payment obligations between January and April of this year increased by 36 percent.

This amendment would rectify the inequity we created in not including private student loan borrowers and bring them much-needed assistance, just as this body did with Federal student loan borrowers.

Importantly, this amendment will help our veterans, who take out an av-

erage of \$8,000 in private student loan debt to attend for-profit schools each year, and for the estimated 200,000 servicemembers who collectively owe billions in student loan debt. While many were able to access relief for Federal funds, these borrowers were not. They are languishing from the burden of private student loans.

This amendment is good for our borrowers, good for our economy, good for our veterans. I urge Members to support this amendment.

Mr. Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Mr. Speaker, I claim time in opposition. I am opposed to the amendment.

The SPEAKER pro tempore. The gentleman from Missouri is recognized for 5 minutes.

Mr. LUETKEMEYER. Mr. Speaker, this amendment is an attempt by the Democrats to rewrite private contracts and put private lenders out of business, accomplishing their goal of socializing all student loan debt.

This amendment authorizes between \$45 and \$50 billion of taxpayer dollars to cancel or substantially lower private student loans. But it does not require that a student borrower demonstrate a financial need for such support, and the amendment does not credit students that have already paid off their student loans as required. It picks winners and losers at taxpayer expense.

The amendment directs Treasury to provide up to \$10,000 for every single private borrower to be used toward private education loans, even if there is no demonstrated financial need for support. It wrongly assumes all private student loan borrowers have been impacted by COVID-19 and creates a situation that is ripe for waste, fraud, and abuse.

Every Member of Congress recognizes that student debt is an issue that must be tackled. However, what is often not mentioned is that the Federal Government is the largest consumer lender, owning or guaranteeing \$1.4 trillion out of a total of \$1.5 trillion in student debt.

In 2010, Democrats largely nationalized student debt by eliminating the Federal Family Education Loan Program, where private lenders made federally guaranteed student loans to parents and students. Now, the Department of Education and the Direct Loan Program is basically the only option in the student loan market.

Private student loans make up less than 8 percent of all outstanding loans, and because student education loans are subject to strong underwriting standards, those loans from the private sector have a default rate of less than 3 percent, compared to 18 percent in the Federal loan program.

I realize that the amendment is attempting to force regulators to work with the borrowers, but private education lenders already have the flexibility to work with borrowers to make accommodations, including under the

pandemic-related guidance provided by the Federal financial regulators.

When the Federal Government, led by congressional Democrats, took over the student loan market, costs skyrocketed. This amendment continues the Democrats' government takeover of the student loan industry, only making the crisis worse.

Democrats continue to push their socialist wish list, rather than providing targeted relief for those most in need.

If this program was such a big priority for Democrats, you would think they would fund it, but they didn't fund it in the FY21 appropriations bill, even though they added \$250 billion of new emergency spending.

I am disappointed to see Democrats pandering to the students for election-year gains, rather than tackling the important issue of college affordability.

I would also like to point out that this amendment has no place in the NDAA. A defense authorization bill should be focused on national security, the defense and the industrial base, troop levels and readiness, and the health and safety of our men and women in uniform, not student debt.

Mr. Speaker, I include in the RECORD the following documents.

The first is a July 15, 2020, letter from the Consumer Bankers Association to Rules Committee Chairman MCGOVERN, requesting that the Dean amendment not be made in order in H.R. 6395.

The second is a document compiled by the Consumer Bankers Association summarizing the steps taken by private student loan lenders to help their customers, as of June 30, 2020.

CONSUMER BANKERS ASSOCIATION,
Washington, DC, July 15, 2020.

Hon. JIM MCGOVERN,
Chairman, Committee on Rules,
House of Representatives, Washington, DC.

DEAR CHAIRMAN MCGOVERN: On behalf of the Education Funding Committee of the Consumer Bankers Association (CBA), we ask that you oppose making in order Amendment 283 proposed by Representative Dean to H.R. 6395, the William M. (Mac) Thornberry National Defense Authorization Act (NDAA) for Fiscal Year 2021. This amendment to the CARES Act would make major changes that would significantly impair the entire private student loan market. It is clearly not related to national defense programs and is not germane to the NDAA. The proposal in modified form was considered and included in the HEROES Act, H.R. 6800, as part of measures recommended by the Financial Services Committee. In short, this amendment does not belong in the NDAA.

The procedural and jurisdictional questions aside, the text of the Dean Amendment 283 was considered and rejected in its current form as part of the HEROES Act. We would like to point out what we believe are serious flaws in the proposal.

First, I wish to note that the members of CBA appreciate the accomplishments of this Congress in passing bi-partisan legislation providing help to Americans suffering from the health and economic effects of the COVID-19 Coronavirus, including passage of the Coronavirus Aid, Response, and Economic Security (CARES) Act.

Our members are doing their part with diligence and compassion to help their cus-

tomers who are impacted by the effects of the pandemic. This includes major steps to assist private student loan borrowers, with thousands helped to date. However, we are concerned that the provisions of this section would, if enacted, dramatically hinder our members' ability to provide financing to our nation's students in the future.

CBA is the voice of the retail banking industry whose members operate in all 50 states, serve more than 150 million Americans, and collectively hold two-thirds of the country's total depository assets. CBA members are also the private sector lenders that make the majority of private education loans to help families finance a postsecondary education. At this time of extreme uncertainty, our banks remain in strong financial condition and are stepping up to serve the needs of customers and employees.

The CBA Education Funding Committee includes the banks that make most private student loans in order to help American students finance their education. That process has been going extraordinarily well for years, with the vast majority—98 percent—of borrowers successfully repaying their private student loans. Our members are working with current students and their families, many of whom have seen their educations interrupted or transformed due to the pandemic. There is a great deal of uncertainty as to when normal educational processes can resume. Because of that uncertainty, we are working closely with our customers to make sure they will have the financing they need to start or continue their higher educations.

Meanwhile, for borrowers who are in repayment on their student loans, CBA member banks continue to offer many options tailored to their needs to make sure they can get through this period of tremendous uncertainty and turmoil. Our members are offering special terms, including allowing expanded forbearance—stopping loan repayment—and other options that meet the needs of borrowers and co-signers. We are also allowing borrowers more time to make decisions about whether to borrow and how much, realizing that families need to evaluate changing economic and individual family conditions.

In sum, CBA member banks are doing their best to help our customers through the crisis and emerge with their educational plans intact and their financial situations manageable. Banks are working, as they must, with prudential regulators, including the Consumer Financial Protection Bureau, Federal Reserve, Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation, as well as state regulatory agencies, on allowable steps that can be taken to help borrowers now.

Given the steps being taken by the private sector, we wish to alert you to the fact that some of the proposals contained in the Dean Amendment number 283 would significantly disrupt the private student loan market. We have offered to work with all interested Members on substitute legislation that would help student loan borrowers and avoid steps that will make it impossible for banks and other private lenders to offer their customers the private loan options they can access today. Such proposals should be considered as part of COVID-19 relief legislation, not as part of the NDAA.

The Dean amendment would have the Secretary of the Treasury make monthly payments for private education loan borrowers totalling up to \$10,000 until September 30, 2021. This step would require extensive, complex coordination and across-the-board servicing system changes at a time when financial institutions, like other parts of the economy, are coping with workplace challenges. However, CBA members would work

with their customers and the Treasury Department to implement such a policy, should Congress decide to proceed, through an appropriate legislative vehicle, and set up a process for the payments to be made by the government to lenders on behalf of borrowers.

The amendment in the fall of 2021 would give all private student loan borrowers \$10,000, less payments previously made on their behalf. CBA is concerned that a lump sum payment made more than a year from now will have little impact on helping our country recover from the emergency. Moreover, this minimum amount provision is untargeted since it would be made after the emergency period and without regard to whether the borrower is actually experiencing any repayment difficulty. Therefore, we believe any relief should be tailored to the government making monthly payments for those in need during the emergency period. We agree that any such payments made on behalf of a borrower should not be counted as income for tax purposes.

Most importantly, the amendment includes an unworkable provision that would require private lenders to change millions of contracts with borrowers to include the Revised Pay As You Earn option that the federal government offers some federal loan borrowers. This proposal would require private lenders to offer the same income derived repayment (IDR) plans, including forgiveness after 20 years of payments for undergraduates or 25 years for loans for graduate studies, as are offered by the Department of Education. While an IDR/loan forgiveness program is an appropriate safety net for loans without any meaningful upfront consumer protections, it is not suited to private loans made with the most critical upfront consumer protection: evaluation of ability to repay.

The federal government currently dominates student lending, originating 92 percent of new loans made each year. These loans provide access to higher education, but because there is no consideration of ability to repay or credit underwriting, they put some students into excessive indebtedness with unaffordable monthly payments.

Private loans play an important role in providing access to higher education, typically supplementing federal aid and always involving a careful assessment of credit capacity and ability to pay. That is why 98 percent of private loans are being successfully repaid, while a quarter of federal loan borrowers are not making any progress towards reducing their loan balance. We strongly oppose applying repayment policies that may address over-lending of federal loans but that are not anchored to safety and soundness principles that consistently assure responsibly underwritten private loans that are being successfully repaid.

Importantly, private loan lenders, working closely with their prudential regulators, have developed well-targeted repayment relief options that effectively assist customers experiencing repayment difficulty. Private loan lenders provide short- and long-term forbearances, as well as loan modifications that lead to affordable loan payments. These solutions appropriately balance consumer protection and safety/soundness principles in support of customer repayment success. In this respect, the proposal to require a well-functioning private loan market to function like the vastly different federal loan market is nothing more than a solution in search of a problem.

The government keeps non-performing loans—millions of them—on its books for decades before giving up on collection. Banks that engage in such practices would be quickly ordered to stop by their federal

regulators and would likely face sanctions. If a loan isn't being repaid, banks must account for it on their balance sheets. Under federal IDR rules, a borrower can make no payments but still be considered current, with their loan cancelled after 20 or 25 years. That is not possible for any private lender under the sensible safety and soundness practices required by their prudential regulator.

In short, the proposal to apply repayment policies developed to remediate the absence of an ability to repay evaluation for federal loans to a market that leverages safe and sound underwriting to consistently drive repayment success would not only significantly disrupt existing contracts with borrowers but would almost certainly force a significant reduction in access to private loan credit. CBA members recognize the severity of the hardship many Americans are facing in the economic downturn caused by the coronavirus pandemic. All CBA members are working with their customers to help those who are experiencing difficulties or delays in making student loan payments. Banks since the start of the crisis have been enhancing the options available to their customers to help them manage their finances. For many borrowers, it's financially better to keep making payments in order to pay off their loans as soon as possible. Others need more flexibility, and they are getting it.

We understand the desire of Congress to help student loan borrowers and to take measures that will stimulate the economic recovery once the emergency concludes. Banks are doing their part in working with our customers individually to help. Unfortunately, the Dean Amendment would force many banks into an impossible position with their prudential regulators and force banks to stop offering student loans to their customers. This is a major change in the law that does not belong as part of the NDAA.

Thank you for your consideration of our views. We would be pleased to answer your questions and to work with you on ways to assist our country recover from the effects of the pandemic.

Sincerely,

RICHARD HUNT,
President and CEO,
Consumer Bankers Association.

SUMMARY OF STEPS TAKEN BY PRIVATE STUDENT LOAN LENDERS TO HELP THEIR CUSTOMERS

[As of June 30, 2020]

Private student loan lenders have continued since the start of the COVID-19 coronavirus crisis to work closely with their customers to make sure they have the assistance they need to handle any financial disruptions. It is in the mutual interest of lenders and borrowers to work together to get through the economic difficulties caused by the emergency.

Although very few private loan borrowers were having trouble with their loan payments before the COVID-19 emergency, with less than 2 percent of loans charged off and less than 3 percent 90 days delinquent, as soon as the economic fallout from crisis became apparent, banks put plans in place to help their customers. Those plans were activated across the country so that borrowers can get the payment relief they need. Banks are constantly reviewing the situation and making changes as needed.

The following is based on a confidential survey of the Consumer Bankers Association's Education Funding Committee, which includes the banks that make most private student loans. The survey was first conducted April 1-8, 2020, and conducted again June 5-17, 2020. The second survey found that

policies in place in April remained in place, with some additional measures added.

Banks are continuing to allow their borrowers to suspend payments simply by asking. Documentation is not required. No fees or penalties are being assessed. 90 days is the most common length of time requested and granted. Extensions are available if needed. Bank are instituting a policy to keep loans that were past due when the emergency began from becoming more delinquent.

Most private loans are co-signed, meaning the co-signer becomes responsible for the loan if the borrower defaults, but the banks are not attempting to collect from co-signers of loans where payments have been suspended. In other words, assistance given to the borrower is applied to the co-signer.

There were significantly more requests for help than normal during March and mid-April, mainly from borrowers seeking repayment relief. Banks granted them forbearance. Requests have levelled off for most, with the main requests being for a continuance of forbearance or other assistance previously granted.

Some banks are following common forbearance practices and continuing to charge interest while payments are deferred, and some are not. Those that do charge interest during the forbearance are not planning to capitalize it when payment restarts.

It is common for automatic payment arrangements to stop during a period of forbearance. Most banks are either retaining the discount for paying via ACH or, if the discount is stopped, will reinstate it after payments resume.

Tens of thousands of borrowers have been helped.

Lenders are not taking court action such as lawsuits to collect overdue loans.

Lenders either offer loan modifications to distressed borrowers or are developing or considering modification options. The modifications being offered are mostly the same as those usually available, but some banks are instituting or are in the process of instituting additional modifications.

Examples of Modification options offered are:

Interest rate reductions to lower monthly payments;

Extending the loan term to lower monthly payments;

Additional forbearance beyond the 90 days initially offered due to COVID-19.

Other COVID-19 related assistance examples:

Option to skip payments without penalty;

Allowing partial payments;

Waiving late fees;

Extending forbearance beyond 90 days if needed;

Suspending involuntary collection efforts.

All lenders offered forbearances retroactive to the start of the national emergency.

Lenders are providing ongoing COVID-19 related information to their customers via multiple channels, telling them to contact their servicer or lender if they need assistance. A variety of ways to contact the lender/servicer are available: website, phone, IVR, messaging/chat, and email. Not all offer all those options but all offer most of them.

Lenders are offering help to their communities. For example, one bank donated \$1 million to food banks in five states.

Mr. LUETKEMEYER. Mr. Speaker, I reserve the balance of my time.

Ms. DEAN. Mr. Speaker, this amendment is a valuable amendment to tackle what we knew before the pandemic was a problem: \$1.6 trillion in student loan debt, \$119 billion of that for private student loans.

What we do know is, while the default rate on private student loans is less, it amounts to \$4 billion of defaulting private student loan debts.

That is not an inconsequential amount of money.

This amendment really comes from me as a former professor, as a mother, and as a grandmother. The burden of student loan debt in this country is too high, and now, as a result of a pandemic, through no fault of their own, many borrowers are falling into delinquency, which will hurt our economy, will hurt their buying power, and will hurt their credit rating for a long time to come. So I proudly produced this amendment, and I ask for support.

Mr. Speaker, I reserve the balance of my time.

□ 1630

Mr. LUETKEMEYER. Mr. Speaker, I yield 1 minute to the gentlewoman from North Carolina (Ms. FOXX).

Ms. FOXX of North Carolina. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise today to discuss the flaws of this amendment as ranking member of the Committee on Education and Labor, which has jurisdiction over the Federal student loans.

Federal student loans dominate the education loan marketplace, with roughly 92 percent of all outstanding student loans.

Mr. Speaker, proponents of Big Government have succeeded in offering the most generous loan terms in the marketplace, but the private student loan marketplace hasn't made the same mistakes the Federal Government has. The private student loan companies underwrite their investments. Their model fosters student success because that is the only way they, as a business, can succeed.

It was stated earlier that students had to make payments on their loans in the past few months. Well, that is what they agreed to do and what all borrowers agree to do, Mr. Speaker. That is the way it works.

Mr. Speaker, I urge my colleagues to reject this amendment which will complete the government takeover of the student loan industry and, in the process, fail to set students up for success.

Ms. DEAN. Just for some final thoughts, Mr. Speaker, I want to reiterate that this is a commonsense requirement that helps both the servicers and the borrowers. Remember, the servicers will receive a lump-sum payment and should, therefore, be able to make sure that the subsequent payments by borrowers are sustainable for borrowers.

Forbearance is something that we built into the CARES Act, but not in any way for student loan borrowers. This is not without precedent. It is valuable to help student loan borrowers when, through no fault of their own, they are in an economic position of possible default.

I will close, mindful of the great loss that we had over the weekend. I am

mindful, prayerful, and thankful for the role model and friendship of our colleague, JOHN LEWIS, and how he fought for equity for all people and how he fought to lift up others.

Mr. Speaker, I urge Members to support my amendment, and I yield back the balance of my time.

Mr. LUETKEMEYER. Mr. Speaker, in closing, I would just remind my colleagues of the real purpose of this amendment. It is just to socialize the entire student loan industry.

Rather than working to address the underlying causes of the student loan crisis, my colleagues believe the Federal Government should take over the entire program. This is the exact opposite of what we should be doing. We should be analyzing the causes of rising tuition. We should be strengthening the underwriting standards used by the Federal Government. The private sector should be held out as a model, not as a scapegoat.

Mr. Speaker, I urge my colleagues to oppose this amendment, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the previous question is ordered on the amendment offered by the gentleman from Pennsylvania (Ms. DEAN).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LUETKEMEYER. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

AMENDMENTS EN BLOC NO. 1 OFFERED BY MR. SMITH OF WASHINGTON

The SPEAKER pro tempore. The Clerk will designate the amendments en bloc.

AMENDMENT NO. 1 OFFERED BY MRS. CAROLYN P. MALONEY OF NEW YORK

Add at the end the following:

DIVISION F—CORPORATE TRANSPARENCY ACT OF 2019

SEC. 6001. SHORT TITLE.

This division may be cited as the “Corporate Transparency Act of 2019”.

SEC. 6002. FINDINGS.

Congress finds the following:

(1) Nearly 2,000,000 corporations and limited liability companies are being formed under the laws of the States each year.

(2) Very few States require information about the beneficial owners of the corporations and limited liability companies formed under their laws.

(3) A person forming a corporation or limited liability company within the United States typically provides less information at the time of incorporation than is needed to obtain a bank account or driver’s license and typically does not name a single beneficial owner.

(4) Criminals have exploited State formation procedures to conceal their identities when forming corporations or limited liability companies in the United States, and have then used the newly created entities to commit crimes affecting interstate and international commerce such as terrorism, proliferation financing, drug and human trafficking, money laundering, tax evasion, counterfeiting, piracy, securities fraud, financial fraud, and acts of foreign corruption.

(5) Law enforcement efforts to investigate corporations and limited liability companies suspected of committing crimes have been impeded by the lack of available beneficial ownership information, as documented in reports and testimony by officials from the Department of Justice, the Department of Homeland Security, the Department of the Treasury, and the Government Accountability Office, and others.

(6) In July 2006, the leading international antimoney laundering standard-setting body, the Financial Action Task Force on Money Laundering (in this section referred to as the “FATF”), of which the United States is a member, issued a report that criticizes the United States for failing to comply with a FATF standard on the need to collect beneficial ownership information and urged the United States to correct this deficiency by July 2008. In December 2016, FATF issued another evaluation of the United States, which found that little progress has been made over the last ten years to address this problem. It identified the “lack of timely access to adequate, accurate and current beneficial ownership information” as a fundamental gap in United States efforts to combat money laundering and terrorist finance.

(7) In response to the 2006 FATF report, the United States has urged the States to obtain beneficial ownership information for the corporations and limited liability companies formed under the laws of such States.

(8) In contrast to practices in the United States, all 28 countries in the European Union are required to have corporate registries that include beneficial ownership information.

(9) To reduce the vulnerability of the United States to wrongdoing by United States corporations and limited liability companies with hidden owners, to protect interstate and international commerce from criminals misusing United States corporations and limited liability companies, to strengthen law enforcement investigations of suspect corporations and limited liability companies, to set a clear, universal standard for State incorporation practices, and to bring the United States into compliance with international anti-money laundering standards, Federal legislation is needed to require the collection of beneficial ownership information for the corporations and limited

liability companies formed under the laws of such States.

SEC. 6003. TRANSPARENT INCORPORATION PRACTICES.

“(b) NO BEARER SHARE CORPORATIONS OR LIMITED LIABILITY COMPANIES.—A corporation or limited liability company formed under the laws of a State or Indian Tribe may not issue a certificate in bearer form evidencing either a whole or fractional interest in the corporation or limited liability company.

“(c) PENALTIES.—

“(1) IN GENERAL.—It shall be unlawful for any person to affect interstate or foreign commerce by—

“(A) knowingly providing, or attempting to provide, false or fraudulent beneficial ownership information, including a false or fraudulent identifying photograph, to FinCEN in accordance with this section;

“(B) willfully failing to provide complete or updated beneficial ownership information to FinCEN in accordance with this section; or

“(C) knowingly disclosing the existence of a subpoena or other request for beneficial ownership information reported pursuant to this section, except—

“(i) to the extent necessary to fulfill the authorized request; or

“(ii) as authorized by the entity that issued the subpoena, or other request.

“(2) CIVIL AND CRIMINAL PENALTIES.—Any person who violates paragraph (1)—

“(A) shall be liable to the United States for a civil penalty of not more than \$10,000; and

“(B) may be fined under title 18, United States Code, imprisoned for not more than 3 years, or both.

“(3) LIMITATION.—Any person who negligently violates paragraph (1) shall not be subject to civil or criminal penalties under paragraph (2).

“(4) WAIVER.—The Secretary of the Treasury may waive the penalty for violating paragraph (1) if the Secretary determines that the violation was due to reasonable cause and was not due to willful neglect.

SEC. 13 . SENSE OF CONGRESS REGARDING BIOLOGICAL THREAT REDUCTION AND COOPERATIVE BIOLOGICAL ENGAGEMENT OF THE COOPERATIVE THREAT REDUCTION PROGRAM.

It is the sense of Congress that—

(1) keeping Americans safe means ensuring that global health security is prioritized as a national security issue;

(2) as highlighted by the 2017 National Security Strategy of the United States, biological threats, whether “deliberate attack, accident, or a natural outbreak”, are growing threats and “require actions to address them at their source” through programs carried out by cooperative engagement, such as working “with partners to ensure that laboratories that handle dangerous pathogens have in place safety and security measures”;

(3) the 2017 National Security Strategy of the United States appropriately affirms the importance of supporting advancements in biomedical innovation while mitigating harm caused by advanced bioweapons and capabilities;

(4) the intrinsically linked nature of biological threats, whether naturally occurring, accidental, or deliberate, underscores the relationship between the Global Health Security Strategy of the United States and the National Biodefense Strategy, and the national security tools used to prevent and mitigate these threats must be similarly connected;

(5) biological threats are a critical emerging threat against the United States and addressing these threats through cooperative programs is an opportunity to achieve longstanding nonproliferation goals;

(6) cooperative programs to address biological threats through improved global capacity in the areas of biosafety, biosecurity, bio-surveillance, research oversight, and related legislative and regulatory frameworks have become even more important as the world faces increasing availability of and advancements in biotechnology, which has broad dual-use and proliferation implications;

(7) under the Cooperative Threat Reduction Program of the Department of Defense established under the Department of Defense Cooperative Threat Reduction Act (50 U.S.C. 3701 et seq.), Congress authorized the Secretary of Defense to address such threats through activities to prevent, detect, and report on highly pathogenic diseases or other diseases, “regardless of whether such diseases are caused by biological weapons”;

(8) in 2014, President Obama declared the Ebola virus disease epidemic a national security priority and exercised the authority under such Program to build capacity that mitigated the imminent threat posed by the Ebola virus disease and established capabilities required to prevent future outbreaks;

(9) many of the prevention, detection, and response capacities built in response to the

Ebola virus disease epidemic are also those used to prevent, detect, and respond to the use of biological weapons abroad;

(10) continuing to use cooperative engagement programs is in the national security interests of the United States because of the important relationships established between the United States and partner countries, which are based on ideals such as transparency, information sharing, and a shared responsibility in advancing global security;

(11) the recent coronavirus disease 2019 (COVID-19) global pandemic has illustrated the dire consequences resulting from a single disease that knows no boundaries, impacting the United States economy and the health of United States citizens and members of the Armed Forces, both domestically and abroad;

(12) in light of the impacts caused by COVID-19, and following two congressionally mandated reports that call for better implementation of the biological cooperative engagement programs of the United States and the National Biodefense Strategy (the report published by the Government Accountability Office on March 11, 2020, titled “National Biodefense Strategy: Opportunities and Challenges with Early Implementation” and the report published by the National Academies of Sciences, Engineering, and Medicine on April 14, 2020, titled “A Strategic Vision for Biological Threat Reduction: The U.S. Department of Defense and Beyond”), it is of utmost importance that such programs are given due and increased prioritization for national security purposes; and

(13) the Secretary of Defense and the Secretary of State should make every effort to prioritize and advance the determination, concurrence, and notification processes under the Department of Defense Cooperative Threat Reduction Act (50 U.S.C. 3701 et seq.) to provide for necessary new country determinations in a timely manner and be responsive to emerging biological threats.

Congress finds the following:

(1) The people of the United States celebrate cultural and linguistic diversity and seek to prepare students with skills to succeed in the 21st century.

(2) It is fitting to commend the dedication of students who have achieved proficiency in multiple languages and to encourage their peers to follow in their footsteps.

(3) The congressionally requested Commission on Language Learning, in its 2017 report “America’s Languages: Investing in Language Education for the 21st Century”, notes the pressing national need for more people of the United States who are proficient in two or more languages for national security, economic growth, and the fulfillment of the potential of all people of the United States.

(4) The Commission on Language Learning also notes the extensive cognitive, educational, and employment benefits deriving from biliteracy.

(5) Biliteracy in general correlates with higher graduation rates, higher grade point averages, higher rates of matriculation into higher education, and higher earnings for all students, regardless of background.

(6) The study of America’s languages in elementary and secondary schools should be encouraged because it contributes to a student’s cognitive development and to the national economy and security.

(7) Recognition of student achievement in language proficiency will enable institutions of higher education and employers to readily recognize and acknowledge the valuable expertise of bilingual students in academia and the workplace.

(8) States such as Utah, Arizona, Washington, and New Mexico have developed innovative testing methods for languages, including Native American languages, where no formal proficiency test currently exists.

(9) The use of proficiency in a government-recognized official Native American language as the base language for a Seal of Biliteracy, with proficiency in any additional partner language demonstrated through tested proficiency, has been successfully demonstrated in Hawaii.

(4) The end result of this effort must account for military and civilian concerns and for the changing missions and needs of all components of the Armed Forces stationed or otherwise operating out of the State of Hawai'i as the Department of Defense adjusts to meet the objectives outlined in the National Defense Strategy.

(b) REPORT REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Defense for Acquisition and Sustainment shall submit to the congressional defense committee a report describing the progress being made by the Department of Defense to renew Department of Defense land leases and easements in the State of Hawai'i that encompass one acre or more and will expire before January 1, 2030. (5) A summary of coordination efforts between the Secretary of Defense and the Secretaries of the military departments.

(a) FUNDING.—Of the amounts authorized to be appropriated by—

(1) section 4902(2)(A)(i) of title 14, United States Code, as amended by section 1001 of this division, \$135,000,000 for fiscal year 2020; and

(b) PROHIBITION ON CONTRACTS OR USE OF FUNDS FOR DEVELOPMENT OF COMMON HULL DESIGN.—Notwithstanding any other provision of law, the Secretary of the department in which the Coast Guard is operating may not enter into any contract for, and no funds shall be obligated or expended on, the development of a common hull design for medium Polar Security Cutters and Great Lakes icebreakers.

SEC. 1006. SENSE OF THE CONGRESS ON NEED FOR NEW GREAT LAKES ICEBREAKER.

(a) FINDINGS.—The Congress finds the following:

(1) The Great Lakes shipping industry is crucial to the American economy, including the United States manufacturing base, providing important economic and national security benefits.

(2) A recent study found that the Great Lakes shipping industry supports 237,000 jobs and tens of billions of dollars in economic activity.

(3) United States Coast Guard icebreaking capacity is crucial to full utilization of the Great Lakes shipping system, as during the winter icebreaking season up to 15 percent of annual cargo loads are delivered, and many industries would have to reduce their production if Coast Guard icebreaking services were not provided.

(4) Six of the Coast Guard's nine icebreaking cutters in the Great Lakes are more than 30 years old and are frequently inoperable during the winter icebreaking season, including those that have completed a recent service life extension program.

(5) During the previous 10 winters, Coast Guard Great Lakes icebreaking cutters have been inoperable for an average of 65 cutter-days during the winter icebreaking season, with this annual lost capability exceeding 100 cutter days, with a high of 246 cutter days during the winter of 2017–2018.

(6) The 2019 ice season provides further proof that current Coast Guard icebreaking capacity is inadequate for the needs of the Great Lakes shipping industry, as only six of the nine icebreaking cutters are operational, and millions of tons of cargo was not loaded or was delayed due to inadequate Coast Guard icebreaking assets during a historically average winter for Great Lakes ice coverage.

(7) The Congress has authorized the Coast Guard to acquire a new Great Lakes icebreaker as capable as Coast Guard Cutter *Mackinaw* (WLBB-30), the most capable Great Lakes icebreaker, and \$10 million has been appropriated to fund the design and initial acquisition work for this icebreaker.

(8) The Coast Guard has not initiated a new acquisition program for this Great Lakes icebreaker.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress of the United States that a new Coast Guard icebreaker as capable as Coast Guard Cutter *Mackinaw* (WLBB-30) is needed on the Great Lakes, and the Coast Guard should acquire this icebreaker as soon as possible.

SEC. 1007. PROCUREMENT AUTHORITY FOR GREAT LAKES ICEBREAKER.

(a) IN GENERAL.—Of the amounts authorized to be appropriated by section

4902(2)(A)(ii) of title 14, United States Code, as amended by section 1001 of this division, \$160,000,000 for fiscal year 2021 is authorized for the acquisition of a Great Lakes icebreaker at least as capable as *USCGC Mackinaw* (WLBB-30).

(b) REPORT.—Not later than 30 days after the date of the enactment of this Act, the Commandant shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a plan for acquiring an icebreaker as required by section 820(b) of the Frank LoBiondo Coast Guard Authorization Act of 2018 (Public Law 115-282).

SEC. 1008. POLAR SECURITY CUTTER ACQUISITION REPORT.

Not later than 1 year after the date of the enactment of this Act, the Commandant shall submit to the Committees on Transportation and Infrastructure and Armed Services of the House of Representatives, and the Committees on Commerce, Science, and Transportation and Armed Services of the Senate a report on—

(1) the extent to which specifications, key drawings, and detail design for the Polar Security Cutter are complete before the start of construction;

(2) the extent to which Polar Security Cutter hull numbers one, two, and three are science ready; and

(3) what actions will be taken to ensure that Polar Security Cutter hull number four is science capable, as described in the National Academies of Sciences, Engineering, and Medicine's Committee on Polar Icebreaker Cost Assessment letter report entitled "Acquisition and Operation of Polar Icebreakers: Fulfilling the Nation's Needs" and dated July 11, 2017.

Subtitle C—Arctic

SEC. 4301. COAST GUARD ARCTIC PRIORITIZATION.

(a) FINDINGS.—Congress makes the following findings:

(1) The strategic importance of the Arctic continues to increase as the United States and other countries recognize the military significance of the sea lanes and choke points within the region and understand the potential for power projection from the Arctic into multiple regions.

(2) Russia and China have conducted military exercises together in the Arctic, have agreed to connect the Northern Sea Route, claimed by Russia, with China’s Maritime Silk Road, and are working together in developing natural gas resources in the Arctic.

(3) The economic significance of the Arctic continues to grow as countries around the globe begin to understand the potential for maritime transportation through, and economic and trade development in, the region.

(4) Increases in human, maritime, and resource development activity in the Arctic region may create additional mission requirements for the Department of Defense and the Department of Homeland Security.

(5) The increasing role of the United States in the Arctic has been highlighted in each of the last four national defense authorization acts.

(6) The United States Coast Guard Arctic Strategic Outlook released in April 2019 states, “Demonstrating commitment to operational presence, Canada, Denmark, and Norway have made strategic investments in ice-capable patrol ships charged with national or homeland security missions. The United States is the only Arctic State that has not made similar investments in ice-capable surface maritime security assets. This limits the ability of the Coast Guard, and the Nation, to credibly uphold sovereignty or respond to contingencies in the Arctic.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Arctic is a region of strategic importance to the national security interests of the United States, and the Coast Guard must better align its mission prioritization and development of capabilities to meet the growing array of challenges in the region;

(2) the increasing freedom of navigation and expansion of activity in the Arctic must be met with an increasing show of Coast

Guard forces capable of exerting influence through persistent presence;

(3) Congress fully supports the needed and important re-capitalization of the fleet of cutters and aircraft of the Coast Guard, but, the Coast Guard must avoid overextending operational assets for remote international missions at the cost of dedicated focus on this domestic area of responsibility with significant international interest and activity; and

(4) although some progress has been made to increase awareness of Arctic issues and to promote increased presence in the region, additional measures are needed to protect vital economic, environmental, and national security interests of the United States, and to show the commitment of the United States to this emerging strategic choke point of increasing great power competition.

(c) **ARCTIC DEFINED.**—In this section, the term “Arctic” has the meaning given that term in section 112 of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4111).

“(A) A spouse or dependent of a servicemember who dies while in military service or a spouse or dependent of a member of the reserve components who dies while performing duty described in subparagraph (C).

“(B) A spouse or dependent of a servicemember who incurs a catastrophic injury or illness (as that term is defined in section 439(g) of title 37, United States Code), if the servicemember incurs the catastrophic injury or illness while performing duty described in subparagraph (C).

“(C) A member of the reserve components performing military service or performing full-time National Guard duty, active Guard and Reserve duty, or inactive-duty training (as such terms are defined in section 101(d) of title 10, United States Code).”

(C) the Director of the Central Intelligence Agency;

The SPEAKER pro tempore. Pursuant to House Resolution 1053, the gentleman from Washington (Mr. SMITH) and the gentleman from Texas (Mr. THORNBERRY) each will control 15 minutes.

The Chair recognizes the gentleman from Washington.

Mr. SMITH of Washington. Madam Speaker, I am pleased to yield 1 minute to the gentlewoman from Minnesota (Ms. Craig).

Ms. CRAIG. Madam Speaker, I thank the chairman for yielding and allowing me to speak on this en bloc amendment, which includes my amendment to add \$30 million to the Army Community Services account to provide family assistance, victim advocacy, financial counseling, employment readiness, and other similar support services. This program is so important, and I am grateful the amendment was included.

I am also here to urge the inclusion of the Insulin Affordability Data Collection Act in the final NDAA. Right now, Minnesotans are dying because of the real-life impact of the cost of insulin and other lifesaving prescription drugs.

Madam Speaker, I urge the inclusion of this bill, which is already included in the Senate’s version of NDAA. This issue will study the rates of diabetic ketoacidosis, which took the life of Minnesotan Alec Smith 2 years ago after the high cost of insulin forced him to ration his doses.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to distinguished gentleman from Illinois (Mr. SHIMKUS).

Mr. SHIMKUS. Madam Speaker, I oppose the Delgado amendment. Beware of a wolf in sheep’s clothing.

This is not a technical fix or a clarification of last year’s NDAA. There were no colloquies, report language, or public statements rejecting TRI exemptions for PFAS in connection with last year’s NDAA.

With zero hearings on this topic, this amendment would greatly benefit from regular order to appreciate its impact, which would be going through the Energy and Commerce Committee.

TRI contains several reporting exemptions, including de minimis

amount in chemical mixtures, when the chemical is in an article, and if the chemical is a cleaning substance or used for research.

Madam Speaker, the Delgado amendment would strip these exemptions, and I urge its rejection.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from California (Mr. CARBAJAL), who is a member of the Armed Services Committee.

Mr. CARBAJAL. Madam Speaker, this important measure reauthorizes the Coast Guard and adopts important safety reforms for small passenger boats based on legislation I sponsored.

Last September, we tragically lost 34 lives when the Conception dive boat caught on fire in the waters off Santa Cruz Island in my district. This is one of the worst maritime disasters in recent history.

We have now learned that NTSB had previously made recommendations to the Coast Guard to improve maritime safety operations. This amendment would require implementation of some of those reforms to prevent tragedies like this from happening again.

Madam Speaker, I am grateful to the Coast Guard and to local law enforcement for their help with search and rescue and to Chair DEFAZIO and Chair MALONEY for their support on this issue, and I urge my colleagues to support this amendment.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the gentleman from Kentucky (Mr. MASSIE).

Mr. MASSIE. Madam Speaker, I rise today in opposition to the Langevin national cyber director amendment, which would expand an already bloated administrative state by creating a new position within the White House, basically, a resident lobbyist for big tech vendors and a legion of 75 unaccountable career government bureaucrats. This new department is like a self-licking ice cream cone, paid for by taxpayers and accountable to virtually no one.

The President opposes this new position, as should anyone who believes that laws should be written by elected Congressmen and carried out by an elected President.

Madam Speaker, I urge a “no” vote on this amendment.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. GOTTHEIMER).

Mr. GOTTHEIMER. Madam Speaker, I urge support of this package, which contains four amendments I have introduced.

My first requires the Secretaries of Defense and State to investigate the use of social media platforms by foreign terrorists and to report to Congress on the homeland security threats posed by online radicalization of violent extremists. Just last week, public reporting detailed that Facebook accounts linked to ISIS are still on the platform, letting them spread extremist content online.

My second amendment looks out for our brave National Guard members on the front lines of COVID-19, including disaster-stricken long-term care facilities like the State-run New Jersey veterans home at Paramus, by providing 2 weeks of housing to quarantine safely before returning to their families and communities.

My third amendment ensures that the Secretary of Defense publicly reports lead and copper testing of drinking water at K-12 schools on military bases, because parents and families deserve to know the facts.

Madam Speaker, to ensure we are standing up for military families, my final amendment requires an annual report to Congress analyzing nationwide costs of living for members of the Department of Defense, particularly those in New Jersey who have been whacked by the gutting of the SALT deduction.

Madam Speaker, I urge support for this bipartisan set of amendments.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Michigan (Mr. BERGMAN).

Mr. BERGMAN. Madam Speaker, I rise today in support of my amendment included in this en bloc package.

My amendment would create a cyberattack exception to the Foreign Sovereign Immunities Act to remove the immunity of foreign states—including foreign officials, employees, or agents—with regard to money damages sought by a national of the United States for personal injury, harm to reputation, or damage to or loss of property resulting from cyberattacks.

The Foreign Sovereign Immunities Act was passed in the seventies before anyone could fathom what our technology capabilities would be today, and under that law, if a foreign national commits a cyberattack against a U.S. citizen, our citizen has no legal recourse here in the U.S. to defend themselves.

With this blanket immunity, our adversaries in North Korea, Russia, and China have a free hand to attack Americans from the comfort of their own homes without consequence.

For decades, foreign governments have been using cyberattacks to influence politics and policy in our country. Now, in the midst of the coronavirus pandemic, we have this hacking activity ramp up against U.S. medical institutions and vaccine development.

We can't sit back and do nothing. It is time for Congress to update its laws to reflect modern technology and modern national security threats.

□ 1645

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentlewoman from New Mexico (Ms. HAALAND), a member of the Committee on Armed Services.

Ms. HAALAND. Madam Speaker, included in this en bloc are my amendments to protect indigenous communities in Brazil and to remove negative

perceptions and stereotypes about pregnant military members that lead to ill-treatment that disadvantage their careers and well-being.

In the 1950s, my mother was forced from the Navy because she was pregnant. Though times have changed, Active Duty mothers are experiencing microaggressions and subtle forms of discrimination.

Madam Speaker, with this amendment, the DOD must develop and implement policies to end pregnancy discrimination. This change is long overdue and will allow women serving in my district and across the country to have long, successful military careers.

Madam Speaker, I urge my colleagues to vote “yes” on this en bloc, and I thank the chairman for his leadership and support.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Illinois (Mr. BOST).

Mr. BOST. Madam Speaker, I thank my colleague, Mr. LAMB, for joining me as a coauthor of the legislation we have on the en bloc. I also thank Chairman DEFAZIO and Ranking Member GRAVES for their support as well.

Every year, 575 million tons of cargo travel through our inland ports and waterways. That includes the Kaskaskia and America's Central Port in southern Illinois.

Half a million American jobs depend on inland shipping. They are vital parts of the transportation network and our Nation's ability to compete globally.

Unfortunately, these small coastal ports and terminals have less ability to compete for grants and capital to improve their efficiency and compete against the large facilities. This puts them at a disadvantage.

This amendment will help increase access to critical Federal funding for small coastal and inland ports and terminals. Improving these facilities will not only have a big impact on the economy, but it will also help local farmers, miners, and manufacturers be more competitive.

Madam Speaker, I urge my colleagues to support this amendment.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. MALINOWSKI).

Mr. MALINOWSKI. Madam Speaker, I rise today in support of amendment 122 offered by Mr. DEUTCH of Florida, which adds the Robert Levinson Hostage Recovery and Hostage-Taking Accountability Act.

Madam Speaker, this amendment is named for Bob Levinson, the longest held American hostage. I have the honor of representing one of Bob's daughters in Congress.

He was a 25-year FBI veteran who disappeared from Iran on March 9, 2007. Time and again, the Levinsons watched as other Americans came home from Iran, and Bob was left behind.

After 13 years, his family learned this March that a determination was made

that he was no longer alive. It was a heart-wrenching moment for them and for everyone who had worked on their behalf.

The amendment before us today will ensure that families receive the support they need, that the U.S. Government will have a coordinated and coherent hostage policy, and that the position of Special Envoy for Hostage Affairs will be permanently codified in law, and it authorizes sanctions against those who engage in hostage-taking.

Madam Speaker, I thank the many bipartisan cosponsors of this amendment for recognizing that we have no higher national security responsibility than the protection of Americans.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Ohio (Mr. GONZALEZ).

Mr. GONZALEZ of Ohio. Madam Speaker, I rise today in support of my amendment No. 151 that is included in this en bloc amendment.

This amendment is based on my bipartisan bill, H.R. 5051, the Accountability for World Bank Loans to China Act that I introduced with my colleague, Mr. HECK.

In recent decades, China has worked to take advantage of international institutions like the World Bank, often in opposition to U.S. interests.

Today, China is one of the largest economies in the world and is also one of the largest creditors to developing nations. Despite that, China still receives funding under the World Bank IBRD program, even though China has exceeded IBRD's gross national income threshold for graduation from the program.

In other words, the United States' contributions to the World Bank help finance Chinese infrastructure projects, including in Zhejiang. This has to stop.

This amendment would require the U.S. director at the IBRD to pursue the graduation of China and, until China graduates, prioritize projects in China that contribute to the global public good.

Additionally, this amendment requires the Treasury Department to report to Congress on the level of indebtedness of countries receiving assistance through the Belt and Road Initiative that are also beneficiaries of international financial institutions.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from New York (Mrs. CAROLYN B. MALONEY).

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise today in support of this amendment, which contains my bill to crack down on terrorism financing and the illicit use of anonymous shell companies, called the Corporate Transparency Act.

This is one of the most pressing national security problems we face in our country because anonymous shell companies are the vehicles of choice for money launderers, criminals, and ter-

rorists. Unfortunately, the United States is the world's capital of anonymous shell companies.

Madam Speaker, my bill would correct this by requiring companies to disclose their true beneficial owners to the Financial Crimes Enforcement Network, or FinCEN. This information would only be available to law enforcement and financial institutions so they can comply with know-your-customer rules that were strengthened after 9/11.

Madam Speaker, I have been working on this bill for over 10 years, and it would plug a huge hole in our national security defense. It would also be the single most important anticorruption reform in decades.

Madam Speaker, I thank Chairwoman WATERS for her steadfast support, as well as Congressman CLEAVER and my Republican partners, Congressmen King and BLAINE LUETKEMEYER.

Madam Speaker, I urge a "yes" vote. Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Florida (Mr. BILIRAKIS).

Mr. BILIRAKIS. Madam Speaker, I thank the ranking member for yielding me the time.

Madam Speaker, I rise in favor of my amendment, which is included in the en bloc package.

My amendment builds upon the successes of the East Med Act, signed into law last year, by taking steps to increase the United States rotational deployments to Greece and diplomatic ties with Greece, Cyprus, and Israel—the trilateral agreement.

In an increasingly unstable region, and with Turkey making a decisive turn from the West, the United States needs to focus on strengthening our bonds with our reliable allies in the region. This amendment sends a strong message of deterrence to Turkey as it attempts to undermine the sovereignty of our friends in the Eastern Mediterranean.

Madam Speaker, I urge passage of this amendment.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from South Carolina (Mr. CUNNINGHAM).

Mr. CUNNINGHAM. Madam Speaker, I rise in support of Representative PALAZZO's and my bipartisan amendment, which would ensure that the National Guard servicemembers aiding in our response to COVID-19 have the care that they have earned when they return home.

Under current law, National Guard soldiers and airmen on Federal orders are entitled to 6 months of transitional health coverage after they are demobilized. However, the servicemembers activated in response to the coronavirus are not eligible.

This amendment, which is identical to my bill, the Support Our National Guard Act, would expand this important benefit to the over 45,000 National Guard servicemembers serving on the front lines of this pandemic. These

brave men and women are sacrificing to ensure our Nation overcomes this unprecedented crisis, and they deserve our unconditional support.

Madam Speaker, I urge my colleagues to join me in honoring our obligation to our National Guard and vote in support of this amendment.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Arizona (Mr. GOSAR).

Mr. GOSAR. Madam Speaker, I rise today in support of my amendment, floor amendment No. 154 of the NDAA.

Currently, the United States relies on China for 20 different critical minerals, which includes several rare earth materials defined by the Department of Defense.

Rare earth materials are used in numerous modern technologies, including missile guidance, control systems, lasers for enemy mine detection, satellite communications, radar, and sonar on submarines, to name a few. Any interruption of rare earth exports from China would drastically impact defense manufacturing, American economic growth, and overall combat readiness.

Madam Speaker, as a producer of nearly 80 percent of the world's rare earth materials, China wields considerable leverage against our country and its allies and did so with Japan earlier. My amendment would direct the Under Secretary of Defense for Acquisition and Sustainment to issue guidance that ensures the elimination of the United States dependency on rare earth materials from China by fiscal year 2035.

This very same amendment was made in order last year and passed by voice; however, it was not included in the final conference report.

Madam Speaker, I strongly urge adoption of my amendment.

Madam Speaker, I include in the RECORD an article from Department of Energy Secretary Dan Brouillette.

[From the Hill, July 20, 2020]

A SAFE, PROSPEROUS NATION REQUIRES
SECURE SUPPLY CHAINS

(By Dan Brouillette)

The coronavirus pandemic opened Americans' eyes to the vulnerability of our supply chains and our over-reliance on critical goods from foreign nations. Many people suddenly realized, at the height of the pandemic, that the important medical products we urgently needed—like masks and ventilators—were coming from abroad.

And it is not just medical products. We are dependent on countries that are not reliable trading partners for automotive parts, electronics, pharmaceuticals, and even naturally occurring materials like uranium and critical minerals.

The United States must take strong action to secure our most critical supply chains, and, predominantly through research and development, the Department of Energy (DOE) is playing an important role in the Trump administration's efforts to do just that. Three areas of recent focus, in which DOE is striving to reduce import reliance, are critical minerals, uranium, and critical infrastructure components.

Critical minerals, including rare earth elements (REEs), are used in electronic products like smart phones, computer and TV

screens, and LED lights. But they are also needed to build important defense systems like aircraft and guidance systems, make batteries, and refine crude oil. Currently, the United States imports more than half of the annual consumption of nearly all critical minerals, and we rely on China for 80 percent of REEs. Our lack of domestic supply for these minerals is an economic security threat we must take seriously.

DOE is developing solutions to our critical mineral challenges by finding ways to diversify supply, develop substitutes, and drive recycling and reuse of critical minerals and REEs. One promising project will test the economic viability of extracting these minerals from our coal reserves in Appalachia and the western basins. Our research shows that there may be as much as 10 million tons of critical minerals in these reserves. Another effort underway involves using a highly absorbent material to capture lithium—a key component in batteries—from the working fluid used in geothermal power production. And there are numerous other ongoing projects which we believe in time will greatly reduce America's reliance on foreign-sourced critical minerals and REEs.

After decades of neglect, the U.S. commercial nuclear sector is at risk of insolvency. Meanwhile, other nations, notably Russia and China, are moving to advance their nuclear capabilities and export their technology to gain increased geopolitical influence. If we are to regain our place as a world leader in nuclear technology, we must start at the beginning of the nuclear fuel cycle and start mining and converting uranium on a wide scale again.

The element uranium not only fuels 95 civilian reactors, providing about 20 percent of U.S. electricity each year, it powers the U.S. Navy's fleet of nuclear submarines and aircraft carriers. Despite its importance, the United States currently relies on imports for 90 percent of its uranium.

Our lack of a significant domestic uranium supply chain threatens energy reliability and national security.

To reverse this trend and reinvigorate the entire nuclear energy industry, DOE recently unveiled the Nuclear Fuel Working Group's ambitious "Strategy to Restore American Nuclear Energy." An important component of the working group's strategy is boosting domestic uranium mining and conversion. To that end, the working group recommended, and the president's 2021 budget included, funding to establish a domestic uranium reserve. Like the Strategic Petroleum Reserve, the domestic uranium reserve will boost the domestic uranium mining industry, support strategic nuclear fuel cycle capabilities, and provide critical assurance of uranium availability in the event of a market disruption.

Finally, we must secure our Nation's Bulk Power System (BPS) supply chain from the threat of foreign interference. The BPS includes power substations that transmit electricity to the distribution system before it reaches homes and businesses, and the automated industrial control systems that are used in water treatment facilities and manufacturing operations. Our BPS may be vulnerable to malicious advanced cyberattacks by countries like Russia, Iran, and China, threatening the backbone of our nation's electric power grid.

To meet the challenge, President Trump recently signed an executive order directing DOE to lead an interagency effort aimed at eliminating vulnerabilities within the existing system and developing policies to keep it safe for years to come. The first important action we will take is to prohibit future use of BPS equipment from any country or individual deemed a foreign adversary by our na-

tional security experts, the failure of which would pose a risk to the safety of Americans. The department will also review federal energy infrastructure procurement to ensure that safeguarding national security is at the foundation of our policies.

A safe, prosperous nation requires secure supply chains. The Department of Energy is leading the way in protecting our economic and national security by advancing the Trump administration's policies to produce more critical minerals and REEs, uranium supplies, and BPS components within the United States' borders.

Mr. SMITH of Washington. Madam Speaker, I yield 1 minute to the gentleman from California (Ms. MATSUI).

Ms. MATSUI. Madam Speaker, I rise today in support of this en bloc motion that contains a bipartisan amendment that I led with Representatives MCCAUL, ESHOO, STEFANK, STEVENS, JOYCE, and KATKO to help reinforce U.S. technological leadership.

As the global economy becomes more interconnected, it is essential that the United States maintains the ability to produce the hardware that our high-tech economy depends on.

Semiconductors are fundamental components of our phones, medical devices, and the future of our quantum computing. This amendment authorizes \$1.2 billion for research and development that allows our domestic industry to continue to innovate and thrive.

Madam Speaker, I thank Representative MCCAUL for working with me on this amendment and our CHIPS Act, and I urge my colleagues to support this motion.

Mr. THORNBERRY. Madam Speaker, I yield 1 minute to the distinguished gentleman from Colorado (Mr. BUCK).

Mr. BUCK. Madam Speaker, I rise today in support of amendment No. 58 to the National Defense Authorization Act and to alert America to a serious national security threat.

The Chinese Communist Party is using TikTok to collect massive amounts of data from American citizens and our government that could be used in a cyberattack against our Republic.

We must take action to protect our Nation and stop the Chinese Communist Party's efforts to undermine our national security. That starts by passing my commonsense amendment to ban TikTok on all government-issued technology devices. The clock is ticking.

Madam Speaker, I urge adoption of the amendment.

Mr. SMITH of Washington. Madam Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Madam Speaker, I have no further requests for this en bloc package. I urge its support, and I yield back the balance of my time.

Mr. SMITH of Washington. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I encourage my colleagues to support the en bloc package, as well as the NDAA upon final passage, and I yield back the balance of my time.

Mr. CARSON of Indiana. Madam Speaker, I rise today in support of the National Defense Authorization Act (NODA) and my amendment which authorizes five million dollars for a pancreatic cancer early detection initiative (EDI) at the Department of Defense (DoD). Pancreatic cancer has the lowest survival rate of all major cancers—in large part due to lack of research in early detection. I believe we all agree that the patients, families, friends, and loved ones suffering from this disease deserve greater support.

My amendment will provide critical funding needed for more research and an early detection initiative (EDI) under the Congressionally Directed Medical Research Programs (CDMRP) at DoD. I am pleased that the Appropriations Defense Subcommittee has already appropriated ten million dollars for general pancreatic cancer research funding in this year's funding legislation. This is an increase of four million dollars from the previous year, and I am thankful to the Defense Subcommittee, especially Chairman VISCLOSKY, for their leadership on this issue. While encouraging, this general research increase is not enough to close the gap in early detection of pancreatic cancer. We should do more, especially now.

On Friday, this issue hit painfully close to home as America lost a giant to pancreatic cancer. Rep. JOHN LEWIS, our civil rights hero and Conscience of the Congress, passed away from pancreatic cancer only seven months after receiving his diagnosis. My amendment is inspired by Rep. LEWIS' courageous fight against pancreatic cancer. It is unacceptable that, despite being the third leading cause of cancer-related death in our country, pancreatic cancer still does not have a dedicated early detection initiative. Rep. LEWIS' short battle against pancreatic cancer is, sadly, often the norm for patients. In fact, the lack of research in ways to detect pancreatic cancer early has led to devastating consequences: sixty-six percent of patients live less than one year following their diagnosis. I am also inspired by my friend and colleague, Rep. ALCEE HASTINGS, who is fighting pancreatic cancer.

If diagnosed early, the five-year survival rate for pancreatic cancer patients is above eighty percent. However, if pancreatic cancer is detected late, the five-year survival rate drops to less than five percent. By failing to support our nation's researchers with the means to find new ways to detect pancreatic cancer early, we are leaving America's pancreatic cancer patients with few ways to detect this disease in time to extend the quality and duration of their lives. Rep. LEWIS' struggle against this horrific disease should serve as a sobering reminder of the human cost of failing to support early detection for pancreatic cancer.

It's important to note that persistent health care inequities and disparities for communities of color compound the devastation of pancreatic cancer and the effects of lack of early detection research. Unfortunately, Blacks are more likely than their fellow Americans to get pancreatic cancer. In fact, the incidence rate for pancreatic cancer among Black Americans is twenty percent higher than any other racial demographic. This disease is more deadly for us: the pancreatic cancer death rate is seventeen percent higher for Black men than White men. Significant evidence demonstrates that these disproportionate levels of pancreatic

cancer are in large part rooted in disparities in health care and access to tests and diagnostics. As a result, the lack of pancreatic cancer early detection research accelerates the racial unfairness in our health care system, with devastating consequences for minorities.

At a time when our country is having a national conversation about the deep disparities in access to health care for Black and Brown people during a global pandemic, Congress must do everything within our power to improve health outcomes through research and treatment. Providing dedicated funding for early detection research at DoD will help fill a critical gap in our pancreatic cancer research and will help address the pancreatic cancer disparities for communities of color.

I urge the House to support this amendment.

Mr. CONNOLLY. Madam Speaker, I rise today to offer an amendment to the FY2021 National Defense Authorization Act that would permanently authorize the teleworking program of the U.S. Patent and Trademark Office.

Since its launch, the program has significantly expanded the agency's teleworking capacity, while saving millions of taxpayer dollars.

In fiscal 2019 alone, the telework program generated over \$123 million in savings, including avoided real estate costs and increased productivity, which generated \$52 million and \$49 million in savings, respectively.

The current coronavirus pandemic has solidified the need to invest in and support telework opportunities for federal agencies.

This amendment would enable thousands of federal employees to continue using this program and USPTO to continue saving millions of taxpayer dollars.

I thank my colleague Mr. HICE who was a co-sponsor with me on this provision.

Ms. ESHOO. Madam Speaker, I rise in support of several important provisions in H.R. 6395, the William M. (Mac) Thornberry National Defense Authorization Act/or Fiscal Year 2021 (NOAA) that I authored or cosponsored, as well as amendments to the bill. This legislation will ensure our country retains its leadership in artificial intelligence (AI), cybersecurity, and semiconductor manufacturing.

NDAA includes several smart provisions authorizing investments in AI research and development (R&D). The Global AI Index, which quantifies the AI arms race among nations, finds that the U.S. is ahead of China today but "experts predict China will overtake the U.S. in just five to 10 years." Section 5107 of the NDAA includes my bipartisan and bicameral legislation, H.R. 7096, the National AI Research Resource Task Force Act, which establishes a task force of experts from government, academia, and companies (large and small) to develop a roadmap for a national AI research cloud to make available high-powered computing, large data sets, and educational resources necessary for AI research. The national AI research cloud expands access so that American universities and companies can participate in AI R&D.

My legislation is supported by Chairman Eric Schmidt and Vice Chairman Bob Work of the National Security Commission on AI; 12 leading public and private research universities, including Stanford, UCLA, Princeton, and Ohio State; research and tech nonprofits

Mozilla, Open AI, and the Allen Institute for AI; standards body IEEE-USA; leading technology companies, including Google, Amazon, Microsoft, Oracle, and IBM; and startups, including Calypso AI and Scale AI. I thank Representatives ANTHONY GONZALEZ and MIKE SHERRILL; Senators PORTMAN and HEINRICH; and the House Committees on Science and Armed Services for their partnership in advancing this highly important legislation.

I'm proud to be a cosponsor of H.R. 6216, the National Artificial Intelligence Initiative Act, comprehensive and bipartisan legislation which establishes an initiative to accelerate and coordinate investments and partnerships in AI research, standards, and education. This legislation appears as division E of the base text of NDAA, and it is a major investment in our country's future that will pay dividends for decades to come.

The House will consider two AI-related amendments I authored that expand reporting requirements for the Joint Artificial Intelligence Center (JAIC) of the Department of Defense. Amendment No. 131 requires the JAIC to report to Congress on its contribution to the development of AI standards in multi-stakeholder bodies. The U.S. must lead international and multi-stakeholder standards bodies to ensure our democratic and liberal values guide the evolution of AI. Amendment No. 132, which I offer with Congressman GONZALEZ, requires the JAIC to report on the assignments servicemembers receive after they complete their duty with the JAIC. We need to ensure AI experience is recognized and celebrated in the armed services.

I'm proud to cosponsor Amendment No. 24, offered by my good friend Rep. MATSUI, based on her bipartisan legislation with Rep. MCCAUL, the CHIPS/or America Act. The amendment will restore American leadership in semiconductor manufacturing by increasing incentives to enable advanced R&D, which will bolster our country's national security and economic competitiveness. I thank Reps. MATSUI and MCCAUL for including, at my request, a provision ensuring that small businesses are given preference for grants authorized by the legislation, in subsection (b)(2)(C)(ii)(III) of the Semiconductor Incentive Grants section.

Finally, I'm pleased to cosponsor Amendment No. 15, which creates the role of the National Cyber Director within the Executive Office of the President, based on Rep. LANGEVIN's bipartisan legislation, the National Cyber Director Act. Cybersecurity is critically important for our national security and economy, and we need a senior official at the highest level of the Executive Branch to coordinate how the federal government and military are investing to mitigate cyberattacks and respond to disruptions in government and the private sector.

I urge my colleagues to support Amendments No. 131, No. 132, No. 24, and No. 15.

Mr. CONNOLLY. Madam Speaker, I rise today to offer an amendment to the FY2021 National Defense Authorization Act which would reform and codify the Federal Risk and Authorization Management Program (FedRAMP).

This amendment mirrors the bipartisan, House-passed, FedRAMP Authorization Act (H.R. 3941), which I coauthored with current White House Chief of Staff Mark Meadows.

FedRAMP standardizes security requirements for the authorization and ongoing cyber-

security assessments of cloud services for information systems across the federal government to help agencies more quickly adopt cloud technologies.

The FedRAMP Authorization Act helps reduce duplication of security assessments and other obstacles to agency adoption of cloud products by establishing a "presumption of adequacy" for cloud technologies that have received FedRAMP certification.

This presumption of adequacy means that the cloud service offering has met baseline security standards established by the program and should be considered approved for use across the federal government.

The bill would also facilitate agency reuse of cloud technologies that have already received an authorization-to-operate by requiring agencies to check a centralized and secure repository and, to the extent practicable, reuse any existing security assessment before conducting their own.

The bill requires that GSA work toward automating their processes, which will lead to more standard security assessments and continuous monitoring of cloud offerings, and increase the efficiency for providers and agencies.

The bill establishes a Federal Secure Cloud Advisory Committee to ensure dialogue among GSA, agency cybersecurity and procurement officials, and industry for effective and ongoing coordination in acquisition and adoption of cloud products by the federal government.

Finally, the bill authorizes the program at \$20 million annually, providing sufficient resources to increase the number of secure cloud technologies available for agency adoption.

We have worked with the Office of Management and Budget, GSA, industry stakeholders, and our minority counterparts to ensure that the bill makes needed improvements in the FedRAMP program and gives the program flexibility to grow and adopt to future changes in cloud technologies.

In 2019, 13 agencies reported to GAO that they achieved at least \$291 billion in savings from increasing their investments in cloud technologies. I hope we can continue to advance the bipartisan Fed RAMP Authorization Act to reform and codify a vital program many agencies rely upon to provide secure cloud computing solutions, a fundamental component of many IT modernization efforts.

Mr. CONNOLLY. Madam Speaker, I rise today to offer an amendment to the FY2021 National Defense Authorization Act that would clarify that both subcontractors and subgrantees who provide protected disclosures of federal waste, fraud, and abuse are protected from retaliation.

This provision closes a loophole in federal whistleblower protection laws.

The amendment is particularly important for agencies that engage in significant grant activities, like the Department of Education, which provides grants to state-level agencies who then provide subgrants to local governments.

Sometimes it's teachers and school administrators who are in the best position to tell federal leaders where and how federal dollars are misspent.

This language ensures that those with information on the waste, fraud, or abuse of federal funding report it—and that those who are

brave enough to report such wrongdoing are protected from retaliation.

I thank my colleague Rep. BRIAN FITZPATRICK for cosponsoring this amendment.

Mr. CONNOLLY. Madam Speaker, I rise today to offer an amendment to the FY2021 National Defense Authorization Act which would reaffirm the United States' commitment to promoting global health security.

This amendment is nearly identical to the text of the bipartisan Global Health Security Act (H.R. 2166), which passed the House Foreign Affairs Committee unanimously and was included in the House-passed HEROES Act (H.R. 6800).

At a time when decisive leadership and robust federal coordination is sorely needed to combat the global COVID-19 pandemic, this amendment would reestablish the government-wide lead for pandemic response by creating a U.S. Coordinator for Global Health Security that should be located at the National Security Council.

The amendment establishes an Interagency Review Council charged with implementing U.S. commitments under the Global Health Security Agenda and sets important metrics for global health security planning.

The amendment also requires a global health security strategy that helps other countries strengthen their health care systems and detect and mitigate outbreaks early.

I want to thank my colleagues: STEVE CHABOT, RICK LARSEN, BRIAN FITZPATRICK, AMI BERA, and ANN WAGNER for cosponsoring this amendment with me.

Mr. CONNOLLY. Madam Speaker, I rise today to offer an amendment to the FY2021 National Defense Authorization Act which would ensure that no U.S. servicemember with a felony-level domestic violence conviction is able to legally purchase firearms.

This simple, bipartisan amendment would codify existing Department of Defense policy which requires DOD to report to the National Instant Criminal Background Check System (NICS) servicemembers who are prohibited from purchasing firearms.

The DOD Inspector General found that DOD has failed consistently to report domestic violence convictions—4 in 5 domestic violence cases examined (86 percent) were not properly reported to the FBI or NICS.

One of the domestic abusers the DOD failed to report to the FBI was Devin Kelley, who entered a house of worship in Sutherland Springs, TX in November 2017, and killed 27 people with the guns he should have been prohibited from purchasing under current law.

Codifying this reporting requirement gives it more teeth and will help Congress in its oversight of these important public safety measures that DOD is failing to implement.

I want to thank my colleagues, PETER KING, MIKE TURNER, and JENNIFER WEXTON, for cosponsoring this amendment with me.

Mr. MCHENRY. Madam Speaker, I rise in opposition to the gentlewoman from New York's amendment.

The amendment being considered today is a new small business mandate on the smallest businesses in America. It will require some of the smallest businesses in this country, those with fewer than 20 employees and those with less than \$5 million in receipts, to file annually a list of all of their owners with the Financial Crimes Enforcement Network, or FinCEN.

But who or what is FinCEN? I bet most of America has never heard of FinCEN, let alone those in the House office buildings.

It is a little-known agency here in Washington that deals with financial crimes, in the Treasury Department.

Now, imagine you are a small business owner. You are getting a notice from the Financial Crimes Enforcement Network mandating that you disclose the owners of your entity. This would be the first consumer-facing intelligence bureau that we would have in the Federal Government.

This amendment would require small business owners and small business investors to submit their personal information to a new Federal database without adequate privacy protections. This new Federal database will be accessible to law enforcement without a warrant and without a subpoena, a disturbing violation of due process, in my view.

This new Federal database has the fewest civil liberties protections of any Federal intelligence bureau database. It is a lower standard of accountability than what Congress provides in the PATRIOT Act, which largely targets foreign actors.

In addition, according to the National Federation of Independent Business, this amendment would also add more than \$5.7 billion in new regulatory costs for America's small businesses. At a time when small businesses are struggling to stay afloat, this amendment would only add to America's small business burdens.

Supporters of the amendment are calling for these changes without any direct evidence to justify the mandate. There is plenty of anecdote, but no data.

In the months leading up to the House's consideration of this bill last October, I sought data from the intelligence bureau called FinCEN and from the Treasury Department, along with the Department of Justice, to better understand the need for this legislation. They provided none.

They gave anecdotes of very scary stories to try to compel me as a legislator to vote for what is a very specific threshold in law and a very specific new small business mandate.

I refused then to legislate based off of anecdotes. I refuse now to legislate off of anecdotes. I would like to have hard data. My questions have not been answered by FinCEN, the Treasury Department, or the Department of Justice.

We have no information on how beneficial ownership information will be protected. We do not have information on how the privacy of small businesses will be preserved.

We don't have information on how many law enforcement agencies will have access to the database, how many financial institutions will have access to the database, or what threshold for amount of sales and the number of employees will yield the most effective outcome.

Like H.R. 2513, this amendment has a threshold of \$5 million of revenue and under, and 20 employees and under. We have no data to understand whether this is the right threshold for either the dollar amount or the number of employees.

We will have stories, and we will have Members come to the House floor telling us stories of bad actors, but that is anecdote. That is not data to provide for this threshold. If we are going to have such an encroachment on America's personally identifiable information of

small businesses across this country, shouldn't we have solid data? I believe so.

I believe we have a number of issues that need to be dealt with to make this amendment sustainable and provide protections for civil liberties.

I believe that combating illicit finance is a nonpartisan issue that all Members want to address. Yet, our actions must be thoughtful and data-driven.

A strong example of this is H.R. 2514, the COUNTER Act, which is included in this amendment. In committee, we came together in support of H.R. 2514, which was introduced by the gentleman from Missouri (Mr. CLEAVER) and the gentleman from Ohio (Mr. STIVERS).

H.R. 2514 is a compilation of bipartisan policies that modernize and reform the Bank Secrecy Act and anti-money laundering regimes. It balances security and privacy. It was a strong bipartisan bill. It provides the Treasury Department and other Federal agencies with the resources they need to help catch bad actors.

It's disappointing though that Democrats chose to combine these two bills for the sole purpose of driving up votes for their new mandate impacting millions of small businesses and jeopardizing civil liberties.

I would be remiss if I did not thank my colleagues on the other side of the aisle for listening to some of our concerns on the Republican side of the aisle. We will have some Republican Members who vote for this amendment. I, however, will not.

The encroachment on the question of civil liberties, the lack of separation of powers, the lack of the use of a subpoena, and the lack of regulatory relief for those who are collecting this data, both in terms of small businesses and financial institutions, has not been fixed nor dealt with in this amendment.

In particular, prior to floor consideration of H.R. 2513 last October, I filed an amendment with the Rules Committee that would provide greater certainty for small businesses and for community banks by repealing the customer due diligence rule. The CDD rule requires financial institutions to collect similar data that is being required in this bill. Moreover, the Republican motion to recommit offered to H.R. 2513 would have required law enforcement to obtain a subpoena. Both attempts to strengthen the bill at the time were rejected.

The amendment that we are considering today to H.R. 6395 contains the same flaws as H.R. 2513.

To that end, I believe these issues still merit a more thoughtful solution that doesn't treat legitimate small businesses as collateral damage, like the bill and this amendment does.

I will continue trying to work with the amendment's sponsor to fix these issues.

Until then, I am opposed to this amendment. The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 1053, the previous question is ordered on the amendments en bloc offered by the gentleman from Washington (Mr. SMITH).
