

The Mac Thornberry National Defense Authorization Act fully funds the President's budget request, authorizing funding for national defense commitments at home and abroad.

This bill includes a 3 percent pay raise for our troops and their families. If anyone deserves a raise, it is the brave men and women in uniform who sacrifice so much while defending freedom around the world.

This bill also provides critical investments in artificial intelligence and makes sure our military can prepare for and respond to emergent threats from China and other adversaries around the world.

This bill also provides funding for the Space Force, a strategic area where we have fallen well behind over the years.

Parts of this bill also ensure that the Department of Defense has the resources to protect our Armed Forces from the coronavirus, with funding for PPE and testing capabilities.

Portions of this bill show the world that the U.S. military is strong and will preserve peace through strength, a top priority of President Trump. This bill continues to make up for the shortfalls of the past and sends a clear message to our servicemembers that we have their backs.

**WILLIAM M. (MAC) THORNBERRY NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2021**

The SPEAKER pro tempore (Ms. DEAN). Pursuant to clause 1(c) of rule XIX, further consideration of the bill (H.R. 6395) to authorize appropriations for fiscal year 2021 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes, will now resume.

The Clerk read the title of the bill.

Mr. GREEN of Tennessee (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee is recognized for 5 minutes in support of his motion.

Mr. GREEN of Tennessee. Mr. Speaker, Operation Warp Speed is an unprecedented public-private partnership to accelerate the development, manufacturing, and distribution of COVID-19 vaccines, therapeutics, and diagnostics.

One of the goals of this program is to have 300 million doses of safe and effective vaccine by January 2021. Next week, Moderna plans to start a phase 3 trial. Two other companies are right behind, expecting to begin phase 3 within weeks.

The speed which the process has taken is truly “warp speed.” This could

not occur without the private sector and the Federal Government working hand in hand on this herculean effort.

Companies are taking enormous financial risks to conduct research, develop vaccine candidates, and create more manufacturing capacity at record speed. The Federal Government has poured billions more into the vaccine effort, yet countries like China are trying to steal America's work in developing a COVID vaccine for their benefit.

As confirmed by intelligence agencies—DHS and FBI—the Chinese Government, the Russian Government, and other hackers are trying to steal intellectual property and Americans' health data related to vaccine treatments, testing from COVID-19 researchers. In fact, DOJ charged Chinese hackers just 3 hours ago.

Since the start of this crisis, the Chinese Communist Party has done everything they can to prevent the world from responding to and recovering from the pandemic. Not only did they keep COVID-19 a secret from their own citizens, but they hid it from the world for months after the first outbreak.

When word got out about the virus, the Chinese Communist Party lied about human-to-human transmission. Then they arrested doctors, journalists, and other whistleblowers who dared to warn their fellow Chinese citizens of the dangers of the virus. Many of these whistleblowers are still missing and presumed dead.

Researchers at Columbia University—not necessarily a bastion of conservatism, I might add—those scientists at Columbia University said, had China notified the world just 1 week sooner, 61 percent of American deaths could have been prevented.

Think about that. Sixty-one percent of 143,000 is 87,000-plus Americans who would not be dead had China spoken up just 1 week sooner.

Indicative of their past mercantilist actions, China hoarded PPE in the early days of the virus. Despite dominating global PPE manufacturing, China hoarded the world's PPE. U.S. exports of PPE to China grew over 1,000 percent in January and February compared with the same period last year. In their time of need, we sent them PPE, Italy even donated PPE to China.

What did China do? Well, they sold them the very PPE Italy had donated to them and refused to ship PPE to the United States, decrying regulatory violations, to keep PPE away from us during our peak need.

But it still wasn't enough. Now the Chinese Communist Party is hacking researchers who are trying to find a cure for the very worldwide pandemic that they tried to cover up.

Make no mistake, if the Chinese Communist Party steals the vaccine, they will leverage it for their own self-interested political and economic ends, which really boils down to one thing and one thing only: The communists want power; they want totalitarian power.

We must show the Chinese Communist Party that there are consequences for these actions which pose a clear threat to the safety of our fellow Americans. If Chinese companies or individuals hack COVID-19 researchers, they should be punished with tough sanctions.

This MTR enables sanctions against individuals responsible for significant, malicious, cyber-enabled activities that endanger the public health of Americans. It also requires a report on whether cyber hacking related specifically to COVID-19 qualifies for such sanctions.

Now, to those who say it should go through regular order in committee, I say we cannot wait. Every day, people are dying from COVID-19. We need a vaccine now. We cannot afford for China to steal American work and then leverage it against the United States and the world.

We cannot spare the weeks, maybe even months, a stand-alone bill would take. Americans are dying, China is hacking, and we in Congress must act. Researchers need to be protected now.

We have an opportunity. It is time for a bipartisan effort. Think of the message that we will send the Chinese Communist Party: Hacking American intellectual property will not be tolerated, especially when it jeopardizes the lives of Americans.

If we can't agree on punishing those who hack the heroes fighting for a cure for COVID, I don't know what we can agree on.

Mr. Speaker, I urge my colleagues to support this MTR, and I yield back the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I withdraw my reservation of my point of order.

The SPEAKER pro tempore. The reservation of a point of order is withdrawn.

Mr. SMITH of Washington. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Washington is recognized for 5 minutes.

Mr. SMITH of Washington. Mr. Speaker, legislatively, this is a terrible idea, to introduce a 13-page sanctions bill at the last possible second and expect us to vote on it without knowing the true impacts of it.

I absolutely agree that we should have tools to hold the Chinese, the Russians, anyone accountable who does any of the things that the gentleman said. Within current law, there are a ton of tools to do precisely that. Putting in law brand-new sanctions legislation without thinking about it is a bad idea.

And if this was so crucial and so important, why are we seeing it just at this last second?

There was somewhere in the neighborhood of 2,000 ideas submitted to be added to the defense bill all along the process. We would have had time to work on it and think about it and actu-

ally craft a decent piece of legislation. This clearly does not have that objective in mind or they would have introduced it a long time ago. This is a bad way to make law.

Mr. Speaker, I urge us to vote "no" and not to jeopardize all the incredible work that Members on both sides of the aisle did in this bill. There are a ton of Members, Republicans and Democrats alike; those 2,000 provisions are roughly equal between Republicans and Democrats. We have an incredibly bipartisan piece of legislation before us in which individual Members decided something is important, worked the issue, and got us a product that we could support.

Mr. Speaker, this puts us in the very risky position of passing really bad legislation at the last second for no good reason, and I would urge Members to vote "no."

Now, let me be clear. We absolutely need to hold accountable Russia, China, whoever wants to interfere with our process of developing a vaccine or cyber hack us in any other way, and there are an enormous number of tools to do so.

I do want to point out and just simply make an urgent plea.

One of the gentleman's arguments was that China hid the true risk of the virus from the American people, and, yes, that is terrible that China did that. It is not actually their job to warn the American people. It is the President's job to warn the American people. And talk about someone who has done a horrible job of warning us of the true dangers of the virus.

It was just, I think, last week, maybe a week and a half ago, when the President said 99 percent of the cases will be completely harmless. That is wrong.

The President said again, just a couple days ago, it is just going to magically disappear. He cannot even bring himself to tell us to wear a mask.

Some people don't like mandates. Okay. That is fine. Let's have the leader of our country tell us what we ought to do to protect ourselves.

He is the one who is not warning the American people of the true danger of this virus, because, sadly, we would kind of listen to him. We are not going to listen to the Chinese. We don't trust them, for all the reasons they said.

So, Mr. Speaker, I would implore Members on the other side of the aisle, ask our President to do what they are now asking the Chinese to do. The least that he ought to do for the American people is to warn us of the danger we face.

This is incredibly frustrating. I want my kids back in school. I want my constituents back to work. If we took the virus seriously, if we did the work necessary to contain it, we could do it.

The President wants to stand up and say: Meh. It is not a problem. Nothing to worry about it. It is all good.

We are paying an enormous price for that.

So, yes, let's hold Russia and China accountable. Let's also hold our President and the executive branch accountable for the spectacular failure in leadership that we are living and, yes, dying with today in this country.

Let's also oppose this motion to recommit as bad legislation that isn't going to make any difference whatsoever, and let's pass the defense bill. This is an excellent piece of legislation, a bipartisan piece of legislation that we have all worked on and produced an excellent product.

Mr. Speaker, I ask Members to please vote "yes." Please pass this bill, keep the legislative process going forward.

And don't forget, what we are doing here is providing for the national security, providing for the Department of Defense, providing for the men and women whom we are asking to put their lives on the line for the defense of this country, giving them the support they need and they deserve.

Mr. Speaker, I ask Members to vote down the motion to recommit and vote for the national defense authorization act.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. GREEN of Tennessee. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 201, nays 219, not voting 10, as follows:

Mr. GROTHMAN changed his vote from “yea” to “nay.”

Mr. RUTHERFORD changed his vote from “nay” to “yea.”

So the bill was passed.

The result of the vote was announced as above recorded.

The title of the bill was amended so as to read: “A bill to authorize appropriations for fiscal year 2021 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.”

A motion to reconsider was laid on the table.

Stated against:

Mr. ABRAHAM. Mr. Speaker, on Tuesday, July 21, I was unavoidably detained on rollcall Vote No. 152. Had I been present to vote, I would have voted “nay” on rollcall Vote No. 152.
