

comment, certain categories of records that will be subject to up to a 5-day delay before they are made publicly accessible.

Any such designation must be no broader than necessary and be based on a determination of a specific and substantial interest in restricting the public right of access to court records. Any designation expires after 3 years unless renewed via notice and comment.

Section 3(c) requires the Director of the Administrative Office of the United States Courts, in coordination with the Administrator of General Services, to ensure that the public can search for and access court records, similar to the requirements under Section 2 of this act.

Finally, section 3(d) establishes the dates when all PACER fees must be eliminated and court records are made freely available to the public within two years from enactment unless the Director of General Services certifies that an additional year is needed.

This is needed legislation and I support it.

I urge all Members to join me in voting for H.R. 8235, the "Open Courts Act of 2020."

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. JOHNSON) that the House suspend the rules and pass the bill, H.R. 8235, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### CONFERENCE REPORT ON H.R. 6395, WILLIAM M. (MAC) THORNBERRY NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2021

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on adoption of the conference report on the bill (H.R. 6395) to authorize appropriations for fiscal year 2021 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the conference report.

The vote was taken by electronic device, and there were—yeas 335, nays 78, answered "present" 1, not voting 16, as follows:

#### SERVICEMEMBERS AND VETERANS INITIATIVE ACT OF 2020

The SPEAKER pro tempore (Mr. GOMEZ). Pursuant to clause 8 of rule

XX, the unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 8354) to establish the Servicemembers and Veterans Initiative within the Civil Rights Division of the Department of Justice, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Texas (Ms. ESCOBAR) that the House suspend the rules and pass the bill, as amended.

The vote was taken by electronic device, and there were—yeas 400, nays 1, not voting 28, as follows:

[Roll No. 239]

## IDENTIFYING OUTPUTS OF GENERATIVE ADVERSARIAL NETWORKS ACT

Mr. TONKO. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 2904) to direct the Director of the National Science Foundation to support research on the outputs that may be generated by generative adversarial networks, otherwise known as deepfakes, and other comparable techniques that may be developed in the future, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. PAPPAS). Is there objection to the request of the gentleman from New York?

There was no objection.

The text of the bill is as follows:

S. 2904

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Identifying Outputs of Generative Adversarial Networks Act" or the "IOGAN Act".

### SEC. 2. FINDINGS.

Congress finds the following:

(1) Gaps currently exist on the underlying research needed to develop tools that detect videos, audio files, or photos that have manipulated or synthesized content, including those generated by generative adversarial networks. Research on digital forensics is also needed to identify, preserve, recover, and analyze the provenance of digital artifacts.

(2) The National Science Foundation's focus to support research in artificial intelligence through computer and information science and engineering, cognitive science and psychology, economics and game theory, control theory, linguistics, mathematics, and philosophy, is building a better understanding of how new technologies are shaping the society and economy of the United States.

(3) The National Science Foundation has identified the "10 Big Ideas for NSF Future Investment" including "Harnessing the Data Revolution" and the "Future of Work at the Human-Technology Frontier", with artificial intelligence is a critical component.

(4) The outputs generated by generative adversarial networks should be included under the umbrella of research described in
