

Be it resolved by the Senate of the State of New Jersey:

1. This House urges Congress to propose an Amendment to the United States Constitution to prohibit the use of slavery, indentured servitude, and involuntary servitude within the United States or any of its territories.

2. Copies of this resolution as filed with the Secretary of State shall be transmitted by the Secretary of the Senate to the President of the United States Senate, the Speaker of the United States House of Representatives, and each member of Congress elected from this State.

POM-189. A resolution adopted by the General Assembly of the State of New Jersey urging the United States Congress and the President of the United States to provide funding and other incentives to states to promote hydrogen fuel cell vehicle usage; to the Committee on Energy and Natural Resources.

ASSEMBLY RESOLUTION NO. 38

Whereas, There is a vital need to support transportation energy sources other than imported and domestic fossil fuels, which adversely affect economic growth, cause air pollution, and contribute to climate change; and

Whereas, The promotion of hydrogen fuel cell vehicles and the infrastructure needed to refuel them would reduce the billions of dollars that New Jersey citizens, businesses, and institutions pay each year to foreign oil suppliers for the gasoline and diesel fuels needed to support an estimated 77 billion on-road vehicle miles traveled annually in the State; and

Whereas, Hydrogen fuel cell vehicles and related refueling infrastructure can be used to attract new business and industries to the State; and

Whereas, New Jersey residents continue to breathe unhealthy levels of air toxins, such as oxides of nitrogen and ozone, which can compromise their health; and

Whereas, Air pollution is particularly harmful for children with asthma and seniors with breathing problems or other health issues, resulting in missed school days, asthma attacks, and even premature deaths; and

Whereas, Air quality will continue to deteriorate if practical approaches to transportation energy sources and transportation infrastructure in the State are not adopted; and

Whereas, Hydrogen fuel cell vehicles are zero emission—they run on compressed hydrogen fuel cells that produce electricity to propel the vehicle—so operating them does not produce air pollution; and

Whereas, Global warming is a serious threat to New Jersey, putting the State's beaches, waterfront communities, and tourism industry at risk from sea-level rise, and threatening to cause dramatic and costly interruptions in vital transportation and shipping infrastructure; and

Whereas, The State of New Jersey set strong standards to reduce global warming and air pollution and to increase renewable energy production through the passage of the "Global Warming Response Act" and the adoption of a strong renewable energy mandate on the State's utilities; and

Whereas, Hydrogen can be produced using only electricity and water, so hydrogen fuel cell vehicles can be fueled and operated without generating carbon dioxide or other greenhouse gases; now, therefore, and be it

Resolved by the General Assembly of the State of New Jersey:

1. This House respectfully urges the United States Congress and the President of the United States to provide financial support

and other incentives to the states to promote and incentivize the local adoption of hydrogen fuel cell vehicles as a means of reducing the nation's dependence on fossil fuels, particularly imported fossil fuels, which would also serve to mitigate the detrimental effects of global warming and air pollution caused by vehicle emissions.

2. Copies of this resolution, as filed with the Secretary of State, shall be transmitted by the Clerk of the General Assembly to the President and Vice President of the United States; the Majority and Minority Leaders of the United States Senate; The Speaker and Minority Leader of the United States House of Representatives; and every member of Congress elected from this State.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 537—ENCOURAGING THE TRUMP ADMINISTRATION TO MAINTAIN PROTECTIONS UNDER THE NATIONAL ENVIRONMENTAL POLICY ACT AND REVERSE ONGOING ADMINISTRATIVE ACTIONS TO WEAKEN THIS LANDMARK LAW AND ITS PROTECTIONS FOR AMERICANS COMMUNITIES

Mr. CARPER (for himself, Mr. VAN HOLLEN, Mr. MERKLEY, Mr. MARKEY, Mr. CARDIN, Mr. BOOKER, and Mrs. GILLIBRAND) submitted the following resolution; which was referred to the Committee on Environment and Public Works:

S. RES. 537

Whereas the National Environmental Policy Act is one of the Nation's bedrock environmental laws that has helped protect the Nation's environment and public health for half a century;

Whereas the National Environmental Policy Act was passed by an overwhelming bipartisan majority in Congress and has long enjoyed widespread public support;

Whereas the National Environmental Policy Act has a basic but critical purpose of directing Federal agencies to identify and disclose the significant environmental and public health impacts of major Federal actions before such actions are taken, encouraging a "look before you leap" approach in Federal decision making;

Whereas the National Environmental Policy Act appropriately gives the public a chance to review and give input on major projects before building and development starts, resulting in improved, more democratic government decision making on everything from fossil fuel, transportation, and water infrastructure decisions to habitat and ecosystem conservation;

Whereas the National Environmental Policy Act is one of the most important tools available in the fight against the climate crisis;

Whereas efforts to block the enforcement of the National Environmental Policy Act will make it easier for corporate polluters to hide the air, water, and climate impacts of major projects;

Whereas efforts to block the enforcement of the National Environmental Policy Act will undermine critical building requirements that make our roads, bridges, and other infrastructure safer and better prepared to withstand natural disasters such as wildfires, floods, and storms, which are getting more destructive and severe as a result of climate change;

Whereas efforts to block the enforcement of the National Environmental Policy Act will require the United States to spend billions more taxpayer dollars on infrastructure projects that won't survive the effects of climate change;

Whereas the National Environmental Policy Act is a critical civil rights tool that

gives all Americans a voice in Federal decision making by allowing communities to be informed and weigh in on major proposed projects affecting their communities;

Whereas the National Environmental Policy Act requires Federal agencies to evaluate the degree to which proposed projects affect air quality, water quality, public health, and public safety in nearby communities and consider alternative approaches that would be better for nearby communities and the environment;

Whereas before the enactment of the National Environmental Policy Act there was often no way for people living in disadvantaged communities to become aware of, much less have their voices heard on, major projects that would result in disproportionate health and environmental impacts in their neighborhoods;

Whereas that when the National Environmental Policy Act's public input process is cut short or weakened, ill-conceived projects advance that can have devastating public health and environmental consequences for American communities; and

Whereas the National Environmental Policy Act's charge to "foster and maintain conditions under which man and nature can exist in productive harmony" is timeless and its insistence on meaningful local involvement, sustainable development, and deliberate Federal decision making was, and remains, visionary: Now, therefore, be it

Resolved, That the Senate—

(1) reaffirms the value of the National Environmental Policy Act;

(2) supports the continued enforcement of longstanding legal requirements of the National Environmental Policy Act, including the required consideration of climate change when developing and planning Federal infrastructure projects; and

(3) opposes the Trump administration's ongoing efforts to undermine the National Environmental Policy Act through the regulatory process.

SENATE RESOLUTION 538—AUTHORIZING THE USE OF THE ATRIUM IN THE PHILIP A. HART SENATE OFFICE BUILDING FOR THE NATIONAL PRESCRIPTION DRUG TAKE BACK DAY, A SEMI-ANNUAL EVENT FOR THE DRUG ENFORCEMENT ADMINISTRATION

Ms. KLOBUCHAR (for herself and Mr. BLUNT) submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 538

Resolved,

SECTION 1. USE OF THE ATRIUM IN THE HART SENATE OFFICE BUILDING FOR TAKE BACK DAY.

(a) AUTHORIZATION.—The atrium in the Philip A. Hart Senate Office Building is authorized to be used on April 22, 2020 for the National Prescription Drug Take Back Day, a semiannual event of the Drug Enforcement Administration.

(b) PREPARATIONS.—Physical preparations for the conduct of the event described in subsection (a) shall be carried out in accordance with such conditions as may be prescribed by the Sergeant at Arms and Doorkeeper of the Senate.
