

available to get them through a very difficult time, but it is not going to be a grant; it is going to be a loan.

Finally, there is an area which is important that perhaps can have some additional thought put into it, and that is that not just the hospitals at the local level need our support and our assistance right now because they can't do this by themselves, but we are going to find that State after State is going to be knocking on our door, saying: You shut down businesses in our State. You have told us that we need to in order to quell this emergency, but in doing so, the revenues that were generated because of those business activities we don't have.

So you are going to find State revenues that are down significantly, and they are going to be coming in, and they are going to be visiting. I am convinced that between this package and perhaps the next package we have to also recognize the impact to State governments that provide so many of the services that men and women rely on on a daily basis.

So I would like to thank you for your time, Mr. President. I think this is important, and I think the message that we have to have as responsible individuals, Members of this body in which today we truly did have debate and discussion on the floor—we have to finish this, and we have to do it in such a fashion that it reaches men and women who are counting on us as soon as possible.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Dakota.
