

and national level and has received many well-deserved honors for his work. The achievements he has accrued during his 50-year career in public education include twice being named Arkansas Superintendent of the Year and recognition as one of Education Week magazine's 2017 "Leaders to Learn From." Just recently, Dr. Rollins was awarded the 2020 Outstanding Alumnus Award in Education from the College of Education and Health Professionals at the University of Arkansas. His service as Arkansas' representative on the U.S. Department of Education's Superintendents Task Force is further evidence of his expertise and the high regard his peers and fellow educators hold for him.

I congratulate Dr. Rollins for his outstanding track record of ensuring students have a solid educational foundation to help them succeed in the future. I appreciate his friendship and his excellent leadership which has resulted in academic improvement and growth for countless students. I wish him all the best in the next chapter of his career as president of Northwest Technical Institute.●

#### TRIBUTE TO COLONEL COREY A. SIMMONS

● Mr. INHOFE. Mr. President, I wish to pay tribute to the outgoing commander of the 71st Flying Training Wing, Vance Air Force Base, OK, Col. Corey A. Simmons. Colonel Simmons led a wing of nearly 3,000 personnel who conducted critical undergraduate pilot training for many of our young Airmen.

Corey has quite the resume, beginning when he was commissioned in the Air Force in 1998 after he graduated from the University of Louisville. He earned a graduate degree in 2005 from the George Washington University and is a graduate of Air Command and Staff College. He successfully completed the SECDEF Executive Leadership Development Program and a Harvard University National Defense Fellowship.

In his interactions with both me and my staff, Corey always displayed a high level of professionalism and actively worked to advance various initiatives and reach solutions. He was ready and willing to collaborate on a task and helped me do my job by making sure I knew the current status down at Vance. Corey's leadership instilled confidence in his airmen, and he laid critical groundwork for the future of the Enid community.

Corey has been a dedicated leader in our Air Force, serving in Air Mobility Command as a vice wing commander, squadron commander, operations officer, C-17A instructor pilot, and aircraft commander. He has been stationed all around the country, but I am sure his favorite memories will be of his time spent at Altus and Vance Air Force Bases in Oklahoma. While Corey is an experienced pilot who has spent a re-

spectable amount of time flying. He still falls far short of me in terms of flight hours, but maybe someday he will get close.

I want to wish Colonel Simmons the best of luck in his next assignment at Travis Air Force Base in California as the commander of the 60th Air Mobility Wing. This assignment speaks to the caliber of leader that he is, and I personally am grateful to him, his wife Dawn, and his children for their dedicated service to our Nation, to the Air Force, and to the Enid community. Corey, best of luck.●

## SUBMITTED RESOLUTIONS

### SENATE RESOLUTION 617—DESIGNATING JULY 22, 2020, AS “GLIOBLASTOMA AWARENESS DAY”

Mr. GRAHAM (for himself, Mr. MARKEY, Ms. MCSALLY, Ms. SINEMA, and Ms. WARREN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 617

Whereas more than 13,000 new cases of glioblastoma will be diagnosed in the United States in 2020;

Whereas glioblastoma is—

(1) the most common malignant (cancerous) brain tumor, accounting for 48 percent of all primary malignant brain tumors; and

(2) the most aggressive, complex, difficult to treat, and deadly type of brain tumor;

Whereas it is estimated that more than 10,000 individuals in the United States will succumb to glioblastoma every year;

Whereas the 5-year survival rate for glioblastoma patients is only 6.8 percent, and the average length of survival for glioblastoma patients is estimated to be only 12 to 18 months;

Whereas glioblastoma is described as a disease that affects the “essence of self”, as the treatment and removal of glioblastoma presents significant challenges due to the uniquely complex and fragile nature of the brain, the primary organ in the human body that controls not only cognitive ability, but also the actions of every organ and limb;

Whereas, relative to other types of cancers, brain cancer has—

(1) the highest per-patient initial cost of care, with an annualized mean net cost of care approaching \$150,000; and

(2) the highest annualized mean net costs for last-year-of-life care, with a cost of between \$135,000 and \$210,000 per patient, depending on the age and gender of a patient;

Whereas, although research advances may fuel the development of new treatments for glioblastoma, challenging obstacles to accelerating progress toward new treatments for glioblastoma remain, and there are no screening or early detection methods;

Whereas, although glioblastoma was first described in medical and scientific literature in the 1920s, and despite its devastating prognosis, only 4 drugs and 1 medical device have been approved by the Food and Drug Administration to treat glioblastoma since the 1920s, and the mortality rates associated with glioblastoma have changed little during the past 30 years; and

Whereas there is a need for greater public awareness of glioblastoma, including awareness of both—

(1) the urgent unmet medical needs of glioblastoma patients; and

(2) the opportunities for research and treatment advances for glioblastoma: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates July 22, 2020, as “Glioblastoma Awareness Day”;

(2) encourages increased public awareness of glioblastoma;

(3) honors the individuals who have lost their lives to glioblastoma, a devastating disease, or are currently living with it;

(4) supports efforts to develop better treatments for glioblastoma that will improve the long-term prognosis of individuals diagnosed with glioblastoma;

(5) expresses its support for the individuals who are battling brain tumors, as well as the families, friends, and caregivers of those individuals; and

(6) urges a collaborative approach to brain tumor research, which is a promising means of advancing the understanding and treatment of glioblastoma.

### SENATE RESOLUTION 618—DESIGNATING JUNE 2020 AS “NATIONAL POST-TRAUMATIC STRESS AWARENESS MONTH” AND JUNE 27, 2020, AS “NATIONAL POST-TRAUMATIC STRESS AWARENESS DAY”

Mr. SULLIVAN (for himself, Ms. BALDWIN, Mr. TILLIS, Mr. VAN HOLLEN, Mr. CRAMER, Ms. HASSAN, Mr. ROUNDS, Mr. TESTER, Mrs. BLACKBURN, Mrs. FEINSTEIN, Mr. BOOZMAN, Mr. DURBIN, Mrs. LOEFFLER, Mrs. CAPITO, Mrs. SHAHEEN, Mr. HOEVEN, Ms. SMITH, and Mr. RUBIO, Mr. REED, Mr. CRAPO, Mr. WICKER, Ms. KLOBUCHAR, Mr. LANKFORD, Mr. LEAHY, Mr. ROBERTS, Mr. PORTMAN, Mr. CRUZ, and Mr. BRAUN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 618

Whereas the brave men and women of the Armed Forces, who proudly serve the United States—

(1) risk their lives to protect the freedom, health, and welfare of the people of the United States; and

(2) deserve the investment of every possible resource to ensure their lasting physical, mental, and emotional well-being;

Whereas, since the events of September 11, 2001, nearly 2,800,000 members of the Armed Forces have deployed overseas and served in places such as Afghanistan and Iraq;

Whereas the current generation of men and women in the Armed Forces has sustained a high rate of operational deployments, with many members of the Armed Forces serving overseas multiple times, placing those members at high risk of enduring traumatic combat stress;

Whereas, when left untreated, exposure to traumatic combat stress can lead to severe and chronic post-traumatic stress responses, which are commonly referred to as post-traumatic stress disorder (referred to in this preamble as “PTSD”) or post-traumatic stress injury;

Whereas many men and women of the Armed Forces and veterans who served before September 11, 2001, live with mental health needs from post-traumatic stress and remain at risk for responses to that stress;

Whereas many post-traumatic stress responses remain unreported, undiagnosed, and untreated due to a lack of awareness about post-traumatic stress and the persistent stigma associated with mental health conditions;

Whereas post-traumatic stress significantly increases the risk of post-traumatic stress responses, including anxiety, depression, homelessness, substance abuse, and suicide, especially if left untreated;

Whereas the Secretary of Veterans Affairs reports that—

(1) between 11 and 20 percent of veterans who served in Operation Iraqi Freedom or Operation Enduring Freedom have post-traumatic stress in a given year;

(2) approximately 12 percent of veterans who served in the Persian Gulf War have post-traumatic stress in a given year; and

(3) approximately 30 percent of veterans who served in the Vietnam era have had post-traumatic stress in their lifetimes;

Whereas public perceptions of post-traumatic stress as a mental health disorder create unique challenges for veterans seeking employment;

Whereas the Department of Defense, the Department of Veterans Affairs, veterans service organizations, and the private and public medical community have made significant advances in the identification, prevention, diagnosis, and treatment of post-traumatic stress and the symptoms of post-traumatic stress, but many challenges remain;

Whereas increased understanding of post-traumatic stress can help eliminate stigma attached to the mental health issues of post-traumatic stress;

Whereas additional efforts are needed to find further ways to eliminate the stigma associated with post-traumatic stress, including—

(1) an examination of how post-traumatic stress is discussed in the United States; and

(2) a recognition that post-traumatic stress is a common injury that is treatable;

Whereas timely and appropriate treatment of post-traumatic stress responses can diminish complications and avert suicides;

Whereas post-traumatic stress—

(1) can result from any number of stressors other than combat, including rape, sexual assault, battery, torture, confinement, child abuse, car accidents, train wrecks, plane crashes, bombings, natural disasters, or global pandemics; and

(2) affects approximately 8,000,000 adults in the United States annually;

Whereas traumatic events such as the COVID-19 pandemic could—

(1) increase the number of individuals impacted by post-traumatic stress; or

(2) exacerbate the responses of post-traumatic stress;

Whereas the diagnosis of PTSD was first defined by the American Psychiatric Association in 1980 to commonly and more accurately understand and treat survivors of physical and psychological trauma, including veterans who had endured severe traumatic combat stress;

Whereas the word “disorder” can perpetuate the stigma associated with combat stress, so the more general term “post-traumatic stress” is often preferred; and

Whereas the designation of a National Post-Traumatic Stress Awareness Month and a National Post-Traumatic Stress Awareness Day raises public awareness about issues relating to post-traumatic stress, reduces the stigma associated with post-traumatic stress, and helps ensure that individuals suffering from the invisible wounds of war receive proper treatment: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates—

(A) June 2020 as “National Post-Traumatic Stress Awareness Month”; and

(B) June 27, 2020, as “National Post-Traumatic Stress Awareness Day”;

(2) supports the efforts of the Secretary of Veterans Affairs, the Secretary of Defense,
