TRIBUTE TO RALPH OKERLUND

● Mr. ROMNEY. Mr. President, we wish to congratulate State Senator Ralph Okerlund on a remarkable career dedicated to the relentless advancement of prosperity for the great State of Utah. For the many Utahns lucky enough to know him personally—from the hills of Monroe to the halls of the State legislature—it is no surprise that Ralph has chosen to spend more time with his loving family following a consequential tenure in public life. Even for the many Utahns to whom Ralph is still unknown, his influence on civic life through his statewide legislative achievements is significant and enduring.

Senator Okerlund's success can be measured in tangible improvements in his district and across the State. His legislative efforts to facilitate investment in Utah's infrastructure projects, with tax credit incentives and coordination with the State energy and economic development offices, have brought billions of dollars to Utah—a massive boon to the State's economy and its rural counties. In addition, his efforts through the legislative appropriations process delivered Snow College a new building and higher pay for its employees. As a member of the legislative leadership on Capitol Hill, Senator Okerlund kept his commitment to allocate tax dollars wisely and effectively.

Senator Okerlund's success can also be measured by his family and by his fortitude. His professional journey began as a teacher, with degrees from Dixie College and the University of Utah. Ralph then returned to Monroe to help run his family farm and to be closer to his father, whose injury compelled his return. Okerlund would acquire and later sell the dairy but ran the farm for years until his election to the Monroe City Council. Apace with his subsequent ascensions to the mayor's office, Sevier County commission, State senate, and ultimately senate majority leader, is his family of children and grandchildren beside him, including his beloved wife Cindy, who call Monroe home. Ralph has persisted through hardship with the support of his family.

A tireless champion for rural Utah, Senator Okerlund has represented the unique challenges and opportunities facing farmers, ranchers, and rural folks at the State and national level as president of the Council of State Governments Western Association. In this role, he represented Utah's interests among neighboring States with competing ideas on how to manage critical issues like regional energy and land management. His successes in these efforts is undoubtedly owed to his deep

understanding of the issues as a man raised in Monroe.

Few can boast the wealth of personal and professional experiences amassed by Ralph Okerlund in his long and distinguished career—from dairyman to senate majority leader—but every Utahn can admire and follow his commitment to service. His record in government is not marked by expedience but, rather, by a willingness to rise to the occasion and answer the call of his neighbors and friends who seek his reliable judgement and sound leadership. Ralph Okerlund has led for 36 years as an elected official and will continue to serve his family, his friends, and his community with grace and humility.●

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-261. A concurrent resolution adopted by the Legislature of the State of Louisiana urging the United States Congress and the Louisiana Congressional delegation to take such actions as are necessary to defeat passage of the "Ocean-Based Climate Solutions Act of 2020" and to protect future opportunities for oil and gas exploration on the Outer Continental Shelf; to the Committee on Commerce, Science, and Transportation.

HOUSE CONCURRENT RESOLUTION NO. 38

Whereas, Raúl M. Grijalva (D-Ariz.), Chairman of the United States House Committee on Natural Resources has unveiled legislation entitled the "Ocean-Based Climate Solutions Act of 2020" with the intent to include ocean impacts of climate change in the discussions of methods to address climate change mitigation; and

Whereas, in an effort to restore coastal ecosystems, strengthen marine mammal conservation, reduce carbon emissions from shipping vessels, improve international ocean governance, and pursue other ocean-related solutions to the climate change crisis, the legislation seeks to end the federal offshore oil-leasing program; and

Whereas, although these pursuits sound laudable, it is important to remember that the Louisiana oil and gas industry supports nearly two hundred and fifty thousand jobs inside the state of Louisiana and more in adjoining states, it accounts for fourteen percent of the state's tax revenue, and supplies \$73 billion of the state's gross domestic product; and

Whereas, an analysis has found that such a proposal, if enacted, would cause the loss of nearly one million jobs nationwide in the first twelve to twenty-four months, forty-eight thousand of which are located here in Louisiana; and

Whereas, this proposal would significantly reduce our domestic energy production, making our nation more dependent on less reliable, less safe foreign sources for energy produced under weaker environmental standards and a higher carbon footprint; and

Whereas, with energy demand expected to continue to rise until at least 2040, Louisiana currently produces nearly twenty percent of our nation's energy, refines approximately forty-five percent of the total United States petroleum, and processes fifty-one percent of the nation's natural gas; and

Whereas, while meeting this demand year after year, Louisiana energy producers are at

the forefront of carbon emissions reduction technology development like carbon capture and storage that can capture ninety percent of carbon emissions from fossil fuels; and

Whereas, in addition, the offshore oil and gas industry in the United States operates under some of the most stringent environmental rules in the world and its infrastructure also supports some of the most abundant fish habitat providing fishing opportunities that have made Louisiana the "Sportsman's Paradise"; and

Whereas, protecting leasing and production in the Outer Continental Shelf will help combat climate change by helping our state combat coastal land loss and sustain oil and gas operations in the Gulf of Mexico critical to energy innovations needed to reduce carbon emissions; and

Whereas, Louisiana and its local economies, especially communities reliant on energy development and production, have felt an outsized impact from the COVID-19 pandemic and are expected to face a slower recovery than many other states because of our large service sector employment; and

Whereas, Louisiana already faces major budget shortfalls that will impact schools, emergency services, and other essential services; and

Whereas, under the provisions of the Gulf of Mexico Security Act, in 2019 alone energy production on the Outer Continental Shelf generated over \$155 million to the state of Louisiana used for coastal restoration and hurricane preparedness; and

Whereas, ensuring access to available leasing acreage on the Outer Continental Shelf will protect offshore energy production as an essential part of our state's budget when our state and local governments need it the most; therefore be it

Resolved, That the Legislature of Louisiana does hereby memorialize the Louisiana Congressional Delegation and the United States Congress to take such actions as are necessary to defeat passage of the "Ocean-Based Climate Solutions Act of 2020" and to protect future opportunities for oil and gas exploration on the Outer Continental Shelf; and be it further

Resolved, That a copy of this Resolution be transmitted to the presiding officers of the Senate and the House of Representatives of the Congress of the United States of America and to each member of the Louisiana Congressional Delegation.
