INTRODUCTION OF THE HISTORIC TAX CREDIT GROWTH AND OPPORTUNITY ACT OF 2021

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 1, 2021

Mr. BLUMENAUER. Madam Speaker, today I introduced the Historic Tax Credit Growth and Opportunity Act of 2021. This legislation passed the House last session in Title III of Division M of the Moving Forward Act (H.R. 2, 116th Cong.). It would bring relief to historic rehabilitation projects impacted by the COVID-19 pandemic while also improving the credit for smaller projects and expanding the number of projects eligible to receive the credit.

Since its inception in 1976, the Historic Tax Credit (HTC) has incentivized private sector investment in rehabilitating historic buildings. The HTC has attracted approximately \$173 billion in private capital in the last 45 years, helping to rehabilitate and revitalize communities. More than 45,000 buildings have been rehabilitated using the credit, creating nearly 3 million jobs. Unlike many other tax incentives, HTC projects spur enough economic development to return money to the Treasury. In 2019 the National Park Service reported that the HTC has generated \$38.1 billion in federal tax revenue from \$32.9 billion in tax credits.

The Historic Tax Credit Growth and Opportunity Act of 2021 first recognizes the challenges that historic rehabilitation projects have faced during the COVID-19 pandemic and provides a temporary increase in the credit value to address market volatility and projects' difficulty in accessing capital. The legislation also increases the credit value for small projects, which are often more difficult to finance. Finally, HTC-GO makes several changes to the structure of the credit to make more buildings eligible for the credit and allow for the credit to be more easily paired with the Low-Income Housing Tax Credit.

I look forward to working with my colleagues in the House and Senate to enact this legislation in a comprehensive infrastructure package this year.
