IN MEMORY OF STEVE FOX

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Monday, April 19, 2021

Mr. BLUMENAUER. Madam Speaker, I rise today to acknowledge the tragic passing of Steve Fox, a pioneering advocate, strategist, a true leader in the cannabis legalization effort.

It is fitting today that we are passing the SAFE Banking Act. We wouldn’t be where we are today without Steve and his amazing efforts. His life work, leadership, and strategic brilliance are unmatched.

Passing this critical legislation today would be a small part of a fitting memorial for a man whose efforts made it possible, indeed, imperative to solve this problem.

I first met Steve as we were strategizing on the Oregon legalization effort. Back in 2013, after the Colorado legalization campaign that he orchestrated had passed and before Oregon joined the ranks of legalization, he was already a legend. He pioneered so much of the groundwork for the legalization movement that exploded after the success of the Colorado campaign which owed so much to his strategic brilliance.

Steve was thoughtful, hardworking, and self-effacing. While this has become a national movement with many leaders now emerging, none compare with Steve. Few will fully understand his many contributions and importance. I for one will miss his genuine, quiet leadership.

As someone who’s been working on this longer than anyone in American politics, I know we are all deeply, deeply indebted to Steve. We mourn his loss, extend our thoughts to his family and many friends.

This should be the year that we finish the pioneering work of his career. It would be a fitting capstone to a lifetime of cannabis leadership, activism, and progress.

Mr. Rogers grew up in D’Iberville, and proudly lived and raised his family in South Mississippi. He is a 1970 graduate of D’Iberville High School and obtained his associates degree in Drafting from MGCCC.

Hank was a principled man devoted to his faith, his country, and his family. Many describe him as a funny, quick witted, intelligent, strong willed, “Southern Gentleman” who was committed to his beliefs, maintained a strong work ethic and served as a mentor to many in the community.

Hank was a volunteer leader having served as the President of the D’Iberville Historical Society, for two years, “heading up” many

projects geared toward revitalizing his hometown. He was a member of the Mississippi Civil Air Patrol, serving as Wing Commander from 2016 until his death, advancing up to the rank of Colonel. We honor Mr. Rogers for the service he showed to his country and to his community.

IN HONOR OF THE HANNAFORD SUPERMARKETS ACHIEVING ZERO WASTE IN THE YEAR 2020

HON. CHRIS PAPPAS

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Monday, April 19, 2021

Mr. PAPPAS. Madam Speaker, I rise today to acknowledge Hannaford Supermarkets in producing zero pounds of food waste in 2020. Hannaford Supermarkets has 183 stores located across New England and New York, making it the first large-scale supermarket to achieve this landmark in sustainability. Throughout 2020, Hannaford Supermarkets successfully diverted 65 million pounds of food waste out of landfills.

Instrumental in Hannaford’s success in this endeavor is that each of its 183 stores has a team of hardworking individuals dedicated to rigidly following the U.S. Environmental Protection Agency Food Recovery Hierarchy. After reducing surplus at the source of production, the Food Recovery Hierarchy advises that to create a more sustainable food system, we donate surplus product to food insecure individuals, followed by donations to local farmers for animal feed.

Food recovery and donation have long been staples of Hannaford operations. However, when donations are not feasible, Hannaford Supermarkets partners with Agri-Cycle to engage in the hierarchy’s fourth tier, industrial repurposing. Based in Scarborough, Maine, Agri-Cycle is a food waste recycling company that turns food into energy. Through this partnership, Hannaford has been able to fully realize their zero-food waste goal.

Achieving zero waste is an accomplishment on its own, but I would like to highlight the added difficulty to this task caused by the coronavirus pandemic. As the coronavirus waged on with no clear end in sight, our agriculture and food system industries were disrupted to an unprecedented degree. While shoppers began to decrease their number of supermarket visits to limit their exposure to the disease, they simultaneously began spending more per trip. Hannaford Supermarkets were able to not only weather this supply and demand shock, but also to divert all unsold food away from landfills.

New Hampshire’s way of life is rooted in our natural surroundings and keeping our landfills as empty as possible is imperative to preserving the environment and our natural resources. Hannaford’s pioneering curiosity has led to a landmark achievement in supermarket sustainability. Hannaford Supermarkets’ continuing dedication to sustainability and service are immeasurable.

On behalf of my constituents in New Hampshire's First Congressional District, I want to congratulate Hannaford Supermarkets on the success of its sustainability initiative. I look forward to the continuation of their sustainability initiative and am hopeful about the example this can set for supermarkets across the Nation. Once again, I thank Hannaford Supermarkets for all that it does to protect our environment while also aiding food insecurity.

THE PARRISH FAMILY

HON. JAMES COMER

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 19, 2021

Mr. COMER. Madam Speaker, I rise today to recognize the bravery and sacrifice of the Parrish Brothers of Burkesville, Kentucky.

Barney, Watson, and Taylor Parrish each honorably served their country during World War II, with Barney paying the ultimate sacrifice. The Parrish Brothers' service to our country did not end after World War II as Watson and Taylor continued defending America during the Korean War. During the war, Watson was seriously wounded and returned to duty less than a week later, where he also paid the ultimate sacrifice. After the Korean War, Taylor returned to Kentucky and continued serving others and raising a family in the First District of Kentucky. The family's sacrifice was awarded two purple hearts and a bronze star.

The legacy of the Parrish family leads us all to reflect on the freedoms we hold dear and the sacrifices American heroes make to protect them. The service and sacrifices they bravely gave should not and will not be forgotten. I join their family in friends to celebrate their legacy and honor their noble service to our country.

HONORING CYNTHIA PEARSON
AND HER OUTSTANDING CONTRIBUTIONS TO THE HEALTH OF WOMEN AND GIRLS

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Monday, April 19, 2021

Ms. DeLAURO. Madam Speaker, it is an honor and pleasure to extend my congratulations to Cynthia Pearson, a leader of the women's health movement for many decades, on her exceptional service to the women of the United States and on her well-earned retirement.

Cynthia has served as Executive Director of the National Women's Health Network (NWHN) for more than 24 years, and prior to that led the organization's program and policy work. In that time she established an exemplary record as an effective and influential advocate, leading campaigns to protect women from risky drugs and devices; require the government to research conditions that affect women; ensure that women have access to full information about medical products and clinical trials; expand women's access to comprehensive reproductive health care services; and protect women against coercion and abuse in health care. I would like to highlight just a few of the accomplishments of her leadership at the NWHN and the contributions it made to advancing research for women's health and increasing access to health care.

In 1987, Cynthia and the National Women's Health Network led a grassroots campaign that convinced the National Cancer Institute to fund the first breast cancer prevention trial that examined the effects of a low-fat diet on breast cancer. And Cynthia helped the NWHN to produce the first-ever fact sheets on breast cancer and African American, Latina, Native American and Asian American women, highlighting the disparities in survival experienced by women of color and building momentum for targeted outreach programs. Her work on breast cancer also included advocacy that prompted the U.S. Congress to investigate the lack of informed consent in trials of a breast cancer treatment drug that was being given to healthy women. As a result of that investigation, the National Institutes of Health (NIH) revised their informed consent rules for government-funded clinical trials, ensuring that future volunteers would be given complete information about serious and potentially fatal risks associated with study drugs.
