

truth and Your compassion. May our attitudes reveal the care and concern You have for all those You have made in your image.

Let our lives ever flow with the love You have shown us that all may come to rejoice in Your loving kindness.

In Your merciful name, we pray.
Amen.

THE JOURNAL

The SPEAKER pro tempore. Pursuant to section 11(a) of House Resolution 188, the Journal of the last day's proceedings is approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from California (Mr. LAMALFA) come forward and lead the House in the Pledge of Allegiance.

Mr. LAMALFA led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

HONORING REPRESENTATIVE DONALD E. YOUNG

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, today I rise to honor the legacy of my good friend and colleague, Congressman Don Young from Alaska, who sadly passed away the evening of March 18.

Don was an inspirational man who served the people of Alaska in the House of Representatives for nearly half a century and did so with a giant heart and tremendous passion.

Don cherished this institution. He was a strong proponent of bipartisanism and civility, and he consistently sought to find common ground. It is something I always admired about him.

There is something I want the country and the world to know: He was also a champion for the disability community, and I was proud to work closely with Don as co-chairs of the Bipartisan Disabilities Caucus.

Together, we worked across the aisle to break down barriers and provide opportunities for Americans with disabilities and to raise awareness of disability issues for our colleagues.

Don was a problem solver. He was a dedicated public servant. And, in many ways, he was larger than life. I was devastated to learn of his passing, and I am really going to miss him. He made a difference.

His wife, Anne, and his children, Dawn and Joni, are in my prayers, as well as his entire family.
Rest in peace.

AMERICA'S EXTREME ECONOMIC CRISIS

(Mrs. MILLER of Illinois asked and was given permission to address the House for 1 minute.)

Mrs. MILLER of Illinois. Mr. Speaker, a tree is known by its fruits. Every policy that Biden and the Democrats have created is demonstrably an America last policy.

They call it Build Back Better, but the truth is, their agenda is Americans last, build back broke policies.

Americans are facing an extreme economic crisis as a result of Democrat policies that President Biden and Speaker PELOSI have put into place.

Skyrocketing prices at the store and the pump are causing Americans pain in their pocketbook. Biden's outrageous budget is fuel on the inflation fire.

President Biden and the Democrats in the House are deliberately bankrupting Americans and taking away their economic opportunities. What are we leaving behind for our children and grandchildren?

Americans cannot afford the America last policies the Democrats have created that have made crisis upon crisis.

RELIANCE ON FOREIGN OIL

(Mr. HIGGINS of New York asked and was given permission to address the House for 1 minute.)

(Mr. HIGGINS of New York). Mr. Speaker, U.S. reliance on foreign oil threatens our national security, pollutes our environment, and unnecessarily burdens our families with high and fluctuating gas prices.

Americans want to make the leap to electric vehicles which are cleaner, quicker, and quieter. But the lack of supply and changing infrastructure is holding people back.

China ranks number 1 in the world, controlling 80 percent of the market of producing raw materials in lithium ion batteries, the United States ranks 15. If we don't move quickly, we will fall further behind.

I support efforts to invoke the Defense Production Act so President Biden can help domestic manufacturers expand the production and supply of critical materials and goods.

This is a bold and necessary move that will accelerate the availability of electric vehicles and put Americans back to work.

ENERGY COSTS AFFECT FARMERS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, President Biden has been promising recently

empty shelves, food shortages in the United States of America.

American farmers are the most efficient and the best in the world at what they do, but they can't do it very well with these high energy costs.

Fertilizer takes energy to produce. It takes oil to produce. When you see the cost increasing 51 percent, this isn't just going to hit the farmers; it is going to hit all consumers.

Energy costs ripple through everything: planting, harvesting, delivering, everything. So what are we doing? What is our focus going to be?

In my home State of California, water is being taken away from agriculture. We need the Bureau of Reclamation and our own State water resources to be focused on producing food for people.

In Ukraine, those farmers are trying to plant amidst bombs from Putin and Russia. In our own country, in my own home State, the bombs are being dropped by the government on farmers, having their water taken away, having their energy costs go through the roof.

We have to focus on producing energy and food for Americans that is affordable instead of this direction that the Federal and my own State government are doing to the people and not for them.

HONORING THE LEGACY OF RETIRED MAJOR GENERAL NORBERT RAPPL

(Mr. MORELLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORELLE. Mr. Speaker, today I rise to pay tribute to an American patriot and a prominent fixture in my community, retired Major General Norbert Rappl, who passed away earlier this month.

General Rappl was a courageous veteran who dedicated his life to serving our great Nation in the United States Army.

A Korean war veteran, he rose through the ranks, retiring as Commander of the 98th Training Division of the United States Army Reserves. We are deeply grateful for his service.

Upon returning home, General Rappl turned his dedication to his community, and my hometown of Irondequoit, becoming a charter member and past president of the Irondequoit Rotary Club chapter.

His never-ending devotion to serving others was his life's calling and is a key piece of his legacy that will never be forgotten. May he rest in peace.

VIETNAM VETERANS DAY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, this past Tuesday was Vietnam Veterans Day. The day was a reminder that our freedom is not free.

We stand together to thank and honor Vietnam veterans and their families for their service and their sacrifice. Across the country, we paused and remembered the service and sacrifices made.

Tuesday, in Indiana County, in the Pennsylvania 15th Congressional District, the Historical and Genealogical Society hosted their second annual program featuring guest speakers, music from the era, and an historical display relating to the Vietnam Memorial in Washington, D.C., called "The Wall that Heals."

Vietnam Veterans Day and the programs are dedicated to honor the veterans who served Active Duty in the United States Armed Forces from November 1, 1955, to May 15, 1975, the time period in which the U.S. had soldiers deployed.

In addition to a pinning ceremony for Vietnam veterans in attendance, wreaths will be placed remembering Indiana County residents who were killed in the line of duty or named as missing in action during the war.

Mr. Speaker, events like the program in Indiana County are a great way for our younger generation to learn and our older generations to be remembered. It is important we always find time to thank and honor our veterans for their service to our great Nation.

To my friends who are Vietnam veterans, welcome home.

REMEMBERING UKRAINE

(Ms. DEAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DEAN. Mr. Speaker, it has been 5 weeks since Vladimir Putin launched his assault on Ukraine and its people; a relentless churn of cruelty, of war crimes, crimes against humanity.

More than 4 million people have fled Ukraine, but tragically, not everyone has found refuge. More than 1,000 civilians have been murdered, and that number grows.

On Monday, there were more than 40 shellings by Russian troops in and around Kyiv, destroying homes, and in one case, killing a child in his own bed.

The children. There have been 145 children known dead, a likely horrifying undercount. Innocent children, unarmed civilians. The horror continues.

We must continue to support Ukraine and provide all necessary aid. We must not lose sight of the people.

Pennsylvania is home to more than 122,000 Ukrainians, the second most of any State, and my district is home to a dynamic Ukrainian-American community, many with family in Ukraine.

I think of them. I think of Ukraine every day. The world must stand united to end this series of war crimes.

"Glory to Ukraine." "Slava Ukraini."

"Glory to the heroes." "Slava heroyam."

HAPPY 100TH BIRTHDAY, MARINA METEVELIS

(Mr. HERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HERN. Mr. Speaker, a very special friend and constituent of mine turned 100 years old last week. Her name is Marina Metevelis, but back home, she is better known as Tulsa's "Rosie the Riveter."

Marina took the iconic red bandana for the first time and wrapped it around her head when she was 16 years old in 1941, when she reported to work on the B-17 Flying Fortress bombers in the aftermath of the attack on Pearl Harbor.

Marina joined the "Rosie the Riveter" sisterhood that day and stood shoulder to shoulder with an army of extraordinary women who became the most formidable munition and war supply manufacturers in modern history.

They played an integral role in World War II, for which the entire world is grateful.

Marina still wears the red bandana to this day. She hasn't slowed down for one second, working to forge a better community for Tulsa and continuing her lifelong mission to support our veterans by raising funds for numerous veteran organizations.

Happy birthday, Marina. Thank you for your service to our Nation, and may God bless you.

CAPPING THE PRICE OF INSULIN

(Mrs. TRAHAN asked and was given permission to address the House for 1 minute.)

Mrs. TRAHAN. Mr. Speaker, I rise in support of something every single Member of this body should be able to get behind, capping the price of insulin at \$35 a month.

In my home State of Massachusetts, over half a million people rely on their lifesaving insulin prescription. But being forced to pay anywhere from \$100 to \$1,600 a month for it simply isn't doable for so many families.

Far too many diabetics are being forced to ration their doses, and some are even skipping them altogether because they can't afford the medicine they need.

Let's be clear about what that means. Hardworking folks are risking their lives each day because big pharmaceutical companies are putting profits first.

We have the ability to change that with the legislation before us today, Mr. Speaker. And shame on us if we stand by and do nothing while people we have the honor to represent die waiting for Congress to act.

I plead with my colleagues to join me in supporting this important legislation. Our constituents are depending on us.

□ 1215

PREPARING OUR COUNTRY FOR THE FUTURE

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Mr. Speaker, today the House will take a historic step toward restoring American manufacturing leadership by voting to go to conference on the COMPETES Act.

This bold bill makes much-needed investments in research, innovation, and manufacturing that will ensure America can outcompete any nation in the world now and for decades to come.

The package will accelerate domestic production of semiconductor chips, the key component of everything from cars and computers to communications and clean energy systems. It will strengthen the supply chain to make more goods in America. It will create jobs and support new skill-building apprenticeship programs, and it will support strong labor and environmental standards.

What's more, the bill and its provisions have received bipartisan support, both here in the House and over in the Senate. You heard that right, Congress is delivering investments that will prepare our country for the next generation of success.

CONGRATULATING APR SUPPLY COMPANY ON 100 YEARS IN BUSINESS

(Mr. SMUCKER asked and was given permission to address the House for 1 minute.)

Mr. SMUCKER. Mr. Speaker, I rise today to congratulate APR Supply Company on the occasion of their company's 100th year in business, which is a milestone that not many companies achieve.

APR Supply Company is a third-generation-owned-and-operated full-service distributor of plumbing, HVAC, and hydronic supplies, supporting countless companies through their 38 locations in my district and in other areas of Pennsylvania, New Jersey, and Delaware.

In America, the entrepreneurial spirit it has led many to pursue founding a business. Over the years some may succeed, some may fail, but to celebrate 100 years is a milestone that few achieve, as I mentioned. This achievement signals that an organization is relentlessly pursuing their values and supporting their customers.

I recently enjoyed visiting one of their facilities with third-generation president and CEO Scott Weaver to learn about their innovative inventory management system and their operations.

Again, congratulations to the team at APR Supply and to Scott on celebrating 100 years in business. Best wishes on their continued success.
