

Now you start to think about that middle class, how much of their income actually goes to buy fuel or, in this case, buy food? You get the con job here saying, well, the core CPI says this. Okay.

When you adjust core CPI, the consumer price index, and you start to think about individuals of—if I am in the working middle class, that hard-working middle class, or even some of the lower quartiles, the amount of your income that goes to food, fuel and shelter, you start to realize across the country that it is not 8.1 or whatever that number is that was the national average, it is over 10.

It is folks with assets, like a bunch of the Members here. They own houses, they own a second house, they own a vacation home. They are invested in real estate equities. They own some REITs holdings. They are doing fine. All those adjust with inflation.

But for our brothers and sisters who are just trying to survive, we are kicking their heads in. It is policy that came from the floor of this House that did it.

You start to think about the share of income now having to be spent just on shelter, when our lowest quartiles, or quintiles, however you prefer to say it, is now over 24½ percent for our lowest quintile to basically just pay for their rent. These are nationwide numbers. This isn't my Phoenix-Scottsdale number where it is actually substantially higher.

Congratulations to my community, Democrats brought you 11 percent inflation. Yay. After redistricting—I am blessed, I have an amazing community, but my community voted for Joe Biden by a couple of points, but they didn't vote for this.

If you want to make someone that is retired, if you want to make a working person poorer, do this. This is misery. The unwillingness—this is an uncomfortable analogy, but I think it works.

Does anyone have a friend that they tried to help through being an alcoholic and you took them to their 12-step meeting?

What is the first step? They admit they have a problem. My brothers and sisters on the left here won't admit they have a problem because they won't admit they did this.

Let's start going over some of the brilliant policy ideas—and I only use this one as a simple example because it is easy to digest. In the Democrats' Build Back Better, they have been speechifying to us that supply chains are setting off inflation, we need more production, we need this.

Then they slip language into their own legislation that says—but you can't automate the ports because we are beholden to the unions. Think about that. The Build Back Better has a provision in there, slipped in there, hidden in there, that you can't automate the very things that technology disruptions can help make us more productive, so that we can actually start

to drive inflation down and get the wealth cycle back to our brothers and sisters here in this country. They are more beholden to their union constituency than the working men and women of this country.

□ 1445

Then here is the very last slide.

Mr. Speaker, may I ask for my time?

The SPEAKER pro tempore. The gentleman has 3 minutes remaining.

Mr. SCHWEIKERT. It shows you how fast you can talk if you have been just sucking down coffee all day, Mr. Speaker.

I should throw this out: I have had the pleasure of sitting there when I have someone on the other side, and I know it is sometimes like fingernails on a chalkboard, and you are a good guy to tolerate because I am frustrated. I am frustrated that this body is not living up to what we are capable of. There are lots of reasons and lots of excuses. But, please, to anyone here, no more going behind the microphone and saying: but it is all paid for.

The math up to this point of just what has been passed—this isn't what has been proposed, what is proposed is off the chart—just what has been passed, the left has functionally increased the deficit by \$2½ trillion dollars.

That is actually using the much more favorable CBO scoring. So no more pretending and saying everything is paid for. It is not.

All I'm trying to do here is a simple point: judge us as conservatives and Republicans by what we did policywise in 2017, '18, and '19 and the good it was for the country. It was good for everyone across the board. And then take a look at particularly the last 15 months.

I beg of my Democratic colleagues: reach back, figure out what we did that worked, steal the ideas and call them your own. But the country deserves so much better than what they are getting from this body today.

Mr. Speaker, I yield back the balance of my time.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
