

If you look at the number of soldiers and sailors aged 19 to 40 who are getting cancer, who are getting pulmonary embolisms, who are getting heart problems, myocardial heart problems, are all increasing significantly over what it was 3 years ago.

Indeed, she has seen things at Fort Rucker she has never seen before. And one has to wonder whether it is the huge number of military members who are getting these vaccines. She feels that this has been really a fraud on our servicemembers telling them that these vaccines are all safe, when we have the most in-shape group of people in this country, people in the military, aged 19 to 39 and, despite being in such good shape, particularly males 19 to 39, we see a significant increase in deaths from sudden cardiac arrest.

We see, among the women, an increase in miscarriages, perhaps an increase in infertility.

We have big problems here. I think before we advise these healthy people in their 20s and 30s to get the vaccine, they ought to sit down with Lieutenant Colonel Long and look at the figures which she has been talking about, a whistleblower trying to save the troops under her from getting any more life-threatening events.

So I hope that Congress weighs in here. I hope the Biden administration shows a little bit of sympathy with the soldiers and removes even the request that people under 40 get the vaccine. I hope that Congress weighs in in that regard, requiring that the medical personnel in the military be a little bit more forthcoming on the results that they see, the health problems that have become apparent in our troops today, compared to 2 years ago, and compared to 4 years ago.

You are going to find more bad things going on, and it seems to me common sense that, given the great increase in vaccines on these young people, you have to kind of assume that the vaccines are causing these additional problems.

So I hope that Congress wakes up. I hope even more that our slumbering media wakes up, who should be looking out for the poor and defenseless—I don't like to call our military poor and defenseless, but when they try to kick them out of the military, they kind of are—and see whether the government is, in their policies here, are they looking out for the good of the pharmaceutical industry or are they looking out for the good of our troops?

In any event, there are three issues that we deal with tonight: The bad outcomes of the vaccines on our troops; the new, all-time high in murders in the city of Milwaukee; and the record-high number of people, number of got-aways crossing the border that apparently President Biden does not think is a serious problem.

Madam Speaker, I yield back the balance of my time.
