

there seven, eight, nine times. I was there right after the Revolution of Dignity, as it is called, in 2014, when Ukrainians decided to turn away from a Russian-backed and corrupt government and stand with us and Europe to pursue a hopeful future of freedom and democracy.

Now, it is time for us and our allies to stand with them. The world must know that freedom-loving countries around the globe have Ukraine's back and we will be there until the bitter end. President Putin must know that we will not back down as he orders the ruthless slaughter of more innocents.

At the beginning of my speech, I talked about this 4-year-old girl. Liza's death occurred because of these rocket attacks. At her funeral, Orthodox priest Vitalii Holoskevych said this: "We know that evil cannot win."

"We know that evil cannot win." And maybe that is the bottom line here today. This is a struggle between freedom and democracy and the right of self-determination on the one hand and evil on the other hand—the evil of conquest, the evil of authoritarianism, the evil of tyranny. Now is not the time to be tentative or equivocal. At this critical juncture, we need to work with our allies to provide Ukraine what they need to defeat evil, to protect their homeland, and to defend democracy.

I yield the floor.

POLICY JUSTIFICATION

Belgium—F-16 Sustainment

The Government of Belgium has requested to buy additional F-16 sustainment support that will be added to a previously implemented case. The original FMS case, valued at \$98.4 million, included F-16 sustainment, consisting of AN/ARC-210 radios; classified software, Computer Program Identification Numbers (CPINs), and software integration support; Electronic Warfare (EW) database support; test support and equipment; aircraft and munitions support and support equipment; flight simulator support; additional hardware and software delivery and support; spare and repair parts, consumables and accessories; maintenance and maintenance support; mission planning system sustainment; facilities, utilities, and information technology support at U.S. Air Force bases; classified and unclassified publications and technical documentation; and U.S. Government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistical and program support. This notification will include more of the same items and services. The estimated total cost is \$127 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO ally which is an important force for political stability and economic progress in Europe.

The proposed sale will improve Belgium's capability to meet current and future threats by maintaining its F-16 fleet in combat-ready status and providing rotational forces to NATO's Eastern flank. Belgium will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Bethesda, MD. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Belgium.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
