SEC. 5____. SENSE OF CONGRESS REGARDING WOMEN WHO SERVED AS CADET NURSES DURING WORLD WAR II.

(a) FINDINGS.—Congress makes the following findings:

(1) In June of 1943, Congress enacted the Bolton Act, establishing the United States Cadet Nurse Corps as a uniformed service of the Public Health Administration. Through the Corps, women received free, expedited nursing education in exchange for ''service in essential nursing for the duration of the war''.

(2) During World War II, the United States faced a severe shortage of qualified nurses, threatening the ability of the United States to meet domestic and military medical needs.

(3) In total, 124,065 women graduated from training under the Cadet Nurse program, going on to serve in military hospitals, Veterans Administration hospitals, Marine hospitals, private hospitals, public health agencies, and public hospitals until the program ended in 1948.

(4) In 1944, the Federal Security Agency identified ''national recognition for rendering a vital war service'' as a privilege of service in the Corps.

(5) By 1945, Cadet Nurses accounted for 80 percent of the domestic nursing workforce.

(6) The Cadet Nurse Corps has been credited with preventing the collapse of the domestic nursing workforce.

(b) SENSE OF CONGRESS.—It is the sense of Congress that women who served in the Cadet Nurse Corps honorably stepped up for their country during its time of need in World War II, significantly contributing to the war effort and the safety and security of the United States.

(c) EXPRESSION OF GRATITUDE.—Congress hereby expresses deep gratitude for the women who answered the call to duty and served in the Cadet Nurses Corp.

SEC. 589. RESCISSION OF MEDALS OF HONOR AWARDED FOR ACTS AT WOUNDED KNEE CREEK ON DECEMBER 29, 1890.

(a) SHORT TITLE.—This section may be cited as the ''Remove the Stain Act''.

(b) FINDINGS.—Congress makes the following findings:

(1) The Medal of Honor is the highest military award of the United States.

(2) Congress found that to earn the Medal of Honor ''the deed of the person . . . must be so outstanding that it clearly distinguishes his gallantry beyond the call of duty from lesser forms of bravery''.

(3) The actions of Medal of Honor recipients inspire bravery in those currently serving in the Armed Forces and those who will come to serve in the future.

(4) Those listed on the Medal of Honor Roll have come to exemplify the best traits of members of the Armed Forces, a long and proud lineage of those who went beyond the call of service to the United States of America.

(5) To date the Medal of Honor has been awarded only 3,522 times, including only 145 times for the Korean War, 126 times in World War I, 23 times during the Global War on Terror, and 20 times for the massacre at Wounded Knee.

(6) The Medal of Honor is awarded in the name of Congress.

(7) As found in Senate Concurring Resolution 153 of the 101st Congress, on December 29, 1890 the 7th Cavalry of the United States engaged a tribal community ''resulting in the tragic death and injury of approximately 350–375 Indian men, women, and children'' led by Lakota Chief Spotted Elk of the Miniconjou band at ''Cankpe' Opi Wakpa'' or ''Wounded Knee Creek''.

(8) This engagement became known as the ''Wounded Knee Massacre'', and took place between unarmed Native Americans and soldiers, heavily armed with standard issue army rifles as well as four ''Hotchkiss guns'' with five 37 mm barrels capable of firing 43 rounds per minute.

(9) Nearly two-thirds of the Native Americans killed during the Massacre were unarmed women and children who were participating in a ceremony to restore their traditional homelands prior to the arrival of European settlers.

(10) Poor tactical emplacement of the soldiers meant that most of the casualties suffered by the United States troops were inflicted by friendly fire.

(11) On January 1st, 1891, Major General Nelson A. Miles, Commander of the Division of Missouri, telegraphed Major General John M. Schofield, Commander-in-Chief of the Army notifying him that ''[I]t is stated that the disposition of four hundred soldiers and four pieces of artillery was fatally defective and large number of soldiers were killed and wounded by the fire from their own ranks and a very large number of women and children were killed in addition to the Indian men''.

(12) The United States awarded 20 Medals of Honor to soldiers of the U.S. 7th Cavalry following their participation in the Wounded Knee Massacre.

(13) In 2001, the Cheyenne River Sioux Tribe, a member Tribe of the Great Sioux Nation, upon information provided by Lakota elders and by veterans, passed Tribal Council Resolution No. 132–01, requesting that the Federal Government revoke the Medals of Honor from the soldiers of the United States Army, 7th Cavalry issued following the massacre of unarmed men, women, children, and elderly of the Great Sioux Nation on December 29, 1890, on Tribal Lands near Wounded Knee Creek.

(14) The National Congress of American Indians requested in a 2007 Resolution that the Congress ''renounce the issuance of said medals, and/or to proclaim that the medals are null and void, given the atrocities committed upon unarmed men, women, children and elderly of the Great Sioux Nation''.

(15) General Miles contemporaneously stated that a ''[w]holesale massacre occurred and I have never heard of a more brutal, cold-blooded massacre than that at Wounded Knee''.

(16) Allowing any Medal of Honor, the United States highest and most prestigious military decoration, to recognize a member of the Armed Forces for distinguished service for participating in the massacre of hundreds of unarmed Native Americans is a disservice to the integrity of the United States and its citizens, and impinges on the integrity of the award and those who have earned the Medal since.

(c) RESCISSION OF MEDALS OF HONOR AWARDED FOR ACTS AT WOUNDED KNEE CREEK ON DECEMBER 29, 1890.—

(1) IN GENERAL.—Each Medal of Honor awarded for acts at Wounded Knee Creek, Lakota Pine Ridge Indian Reservation, South Dakota, on December 29, 1890, is rescinded.

(2) MEDAL OF HONOR ROLL.—The Secretary concerned shall remove the name of each individual awarded a Medal of Honor for acts described in paragraph (1) from the Army, Navy, Air Force, and Coast Guard Medal of Honor Roll maintained under section 1134a of title 10, United States Code.

(3) RETURN OF MEDAL NOT REQUIRED.—No person may be required to return to the Federal Government a Medal of Honor rescinded under paragraph (1).

(4) NO DENIAL OF BENEFITS.—This section shall not be construed to deny any individual any benefit from the Federal Government.

SA 6047. Ms. WARREN submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title V, insert the following:

(15) On May 24, 2022, Ukrainian prosecutors accused 2 Wagner Group mercenaries of committing war crimes against civilians near Kyiv.

(16) On July 18, 2022, the United Kingdom's Ministry of Defence confirmed that the Wagner Group plays a central role in recent fighting in Ukraine, including Russia's capture of Popasna and Lysyschansk.

TITLE _____—FAIR ACCESS TO BANKING

SEC. _____01. SHORT TITLE.

This title may be cited as the ''Fair Access to Banking Act''.

SEC. _____02. FINDINGS.

Congress finds that—

(1) article I of the Constitution of the United States guarantees the people of the United States the right to enact public policy through the free and fair election of representatives and through the actions of State legislatures and Congress;

(2) banks rightly objected to the Operation Choke Point initiative through which certain government agencies pressured banks to cut off access to financial services to lawful sectors of the economy;

(3) banks are now, however, increasingly employing subjective, category-based evaluations to deny certain persons access to financial services in response to pressure from advocates from across the political spectrum whose policy objectives are served when banks deny certain customers access to financial services;

(4) the privatization of the discriminatory practices underlying Operation Choke Point by banks represents as great a threat to the national economy, national security, and the soundness of banking and financial markets in the United States as Operation Choke Point itself;

(5) banks are supported by the United States taxpayers and enjoy significant privileges in the financial system of the United States and should not be permitted to act as de facto regulators or unelected legislators by withholding financial services to otherwise credit worthy businesses based on subjective political reasons, bias or prejudices;

(6) banks are not well-equipped to balance risks unrelated to financial exposures and the operations required to deliver financial services;

(7) the United States taxpayers came to the aid for large banks during the great recession of 2008 because they were deemed too important to the national economy to be permitted to fail;

(8) when a bank predicates the access to financial services of a person on factors or information (such as the lawful products a customer manufactures or sells or the services the customer provides) other than quantitative, impartial risk-based standards, the bank has failed to act consistent with basic principles of sound risk management and failed to provide fair access to financial services;

(9) banks have a responsibility to make decisions about whether to provide a person with financial services on the basis of impartial criteria free from prejudice or favoritism;

(10) while fair access to financial services does not obligate a bank to offer any particular financial service to the public, or to operate in any particular geographic area, or to provide a service the bank offers to any particular person, it is necessary that—

(A) the financial services a bank chooses to offer in the geographic areas in which the bank operates be made available to all customers based on the quantitative, impartial risk-based standards of the bank, and not based on whether the customer is in a particular category of customers;

(B) banks assess the risks posed by individual customers on a case-by-case basis, rather than category-based assessment; and

(C) banks implement controls to manage relationships commensurate with these risks associated with each customer, not a strategy of total avoidance of particular industries or categories of customers;

(11) banks are free to provide or deny financial services to any individual customer, but first, the banks must rely on empirical data that are evaluated consistent with the established, impartial risk-management standards of the bank; and

(12) anything less is not prudent risk management and may result in unsafe or unsound practices, denial of fair access to financial services, cancelling, or eliminating certain businesses in society, and have a deleterious effect on national security and the national economy.

SEC. _____03. PURPOSE.

The purposes of this title are to—

(1) ensure fair access to financial services and fair treatment of customers by financial service providers, including national and state banks, Federal savings associations and State and Federal credit unions;

(2) ensure banks conduct themselves in a safe and sound manner, comply with laws and regulations, treat their customers fairly, and provide fair access to financial services;

(3) protect against banks being able to impede otherwise lawful commerce and thereby achieve certain public policy goals;

(4) ensure that persons involved in politically unpopular businesses but that are lawful under Federal law receive fair access to financial services under the law; and

(5) ensure banks operate in a safe and sound manner by making judgments and decisions about whether to provide a customer with financial services on an impartial, individualized risk-based analysis using empirical data evaluated under quantifiable standards.

SA 6083. Mr. MURPHY submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle F of title XII, add the following:

SEC. 1276. REVIEW OF LOAN SURCHARGE POLICY OF INTERNATIONAL MONETARY FUND.

(a) FINDINGS.—Congress finds as follows:

(1) The International Monetary Fund (in this section referred to as the ''IMF'') imposes a surcharge, in addition to standard interest and service fees, of 200 basis points on outstanding credit provided through its General Resources Account that exceeds 187.5 percent of the IMF country quota, and an additional 100 basis points if that credit has been outstanding for over 36 or 51 months, depending on the facility.

(2) According to the IMF, ''These level and time-based surcharges are intended to help mitigate credit risk by providing members with incentives to limit their demand for Fund assistance and encourage timely repurchases while at the same time generating income for the Fund to accumulate precautionary balances.''.

(3) According to a 2021 report by the European Network on Debt and Development, surcharges increase the average cost of borrowing from the IMF by over 64 percent for surcharged countries. Surcharges increased Ukraine's borrowing costs on its IMF lending program by nearly 27 percent, Jordan's by 72 percent, and Egypt's by over 104 percent.

(4) As a result of the invasion by the Russian Federation, the World Bank predicts that Ukraine will experience an economic contraction of 45 percent in 2022. Yet Ukraine is expected to pay the IMF an estimated $483,000,000 in surcharges from 2021 through 2027.

(5) The Ukraine Comprehensive Debt Payment Relief Act of 2022 (H.R. 7081), which requires the Department of Treasury to make efforts to secure debt relief for Ukraine, was passed by the House of Representatives on May 11, 2022, with overwhelming bipartisan support, by a vote of 362 Yeas to 56 Nays.

(6) As a result of the war in Ukraine and other factors, the World Bank predicted that global growth rates will slow to 2.9 percent in 2022, down nearly half from 2021. External public debt of developing economies is at record levels, and the World Bank, the IMF, and the United Nations have all warned of coming defaults and a potential global debt crisis. As food and energy prices rise, the World Food Program has estimated that 750,000 people are at immediate risk of starvation or death, and 323,000,000 people may experience acute food insecurity before the end of the year.

(7) Since 2020, the number of countries paying surcharges to the IMF has increased from 9 to 16. A December 2021 IMF policy paper notes that under the IMF's model-based World Economic Outlook scenario ''the number of surcharge-paying members would increase to 38 in FY 2024 and FY 2025'' and that under the Fund's ''adverse scenario, the number of surcharge-paying members and the amount of surcharge income would increase even more sharply''.

(8) An April 2022 brief from the United Nations Global Crisis Response Group on Food, Energy and Finance on the impacts of the war in Ukraine on developing countries called for the immediate suspension of surcharge payments for a minimum of 2 years, because ''[s]urcharges do not make sense during a global crisis since the need for more financing does not stem from national conditions but from the global economy shock''.

(b) REVIEW OF SURCHARGE POLICY AT THE INTERNATIONAL MONETARY FUND.—The Secretary of the Treasury shall instruct the United States Executive Director at the International Monetary Fund to use the voice and vote of the United States to—

(1) initiate an immediate review by the IMF of the surcharge policy of the IMF to be completed, and its results and underlying data published, within 365 days; and

(2) suspend and waive surcharge payments during the pendency of the review.

(c) COMPONENTS OF THE REVIEW OF SURCHARGE POLICY.—The review referred to in subsection (b) should include the following:

(1) A borrower-by-borrower analysis of surcharges in terms of cost and as a percentage of national spending on debt service on IMF loans, food security, and health for the 5-year period beginning at the start of the COVID–19 pandemic.

(2) Evaluation of the policy's direct impact on—

(A) disincentivizing large and prolonged reliance on IMF credit;

(B) mitigating the credit risks taken by the IMF;

(C) improving borrower balance of payments and debt sustainability, particularly during periods of contraction, unrest, and pandemic;

(D) promoting fiscally responsible policy reforms;

(E) disincentivizing borrowers from seeking opaque and potentially predatory bilateral loans; and

(F) improving the ability of borrowers to repay private creditors and access the private credit market.

(3) Recommendations for—

(A) identifying alternative sources of funding for the IMF's precautionary balances that prioritize stable funding sources and equitable burden-sharing among IMF members; and

(B) determining whether the IMF should maintain, reform, temporarily suspend, or eliminate the use of surcharges.

(d) CONSULTATIONS.—The review referred to in subsection (b) must incorporate extensive consultation with relevant experts, particularly those from countries that are currently paying or have recently paid surcharges. Those experts should include government officials responsible for overseeing economic development, social services, and defense, United Nations officials, economic research institutes, academics, and civil society organizations.

SA 6084. SEC. 1276. SENSE OF CONGRESS ON THREAT POSED BY ACTIVITIES OF TRANSNATIONAL CRIMINAL ORGANIZATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) Trade-based money laundering is among the most widely used and least understood forms of money laundering, disguising proceeds of crime by moving value through international trade transactions in an attempt to legitimize illicit origins of money or products.

(2) The transnational nature and complexity of trade-based money laundering make detection and investigation exceedingly difficult.

(3) Drug trafficking organizations, terrorist organizations, and other transnational criminal organizations have succeeded at trade-based money laundering despite the best efforts of United States law enforcement.

(4) Trade-based money laundering includes other offenses such as tax evasion, disruption of markets, profit loss for businesses, and corruption of government officials, and constitutes a persistent threat to the economy and security of the United States.

(5) Trade-based money laundering can result in the decreased collection of customs duties as a result of the undervaluation of imports and fraudulent cargo manifests.

(6) Trade-based money laundering can decrease tax revenue collected as a result of the sale of underpriced goods in the marketplace.

(7) Trade-based money laundering is one mechanism by which counterfeiters infiltrate supply chains, threatening the quality and safety of consumer, industrial, and military products.

(8) Drug trafficking organizations collaborate with Chinese criminal networks to launder profits from drug trafficking through Chinese messaging applications.

(9) On March 16, 2021, the Commander of the United States Southern Command, Admiral Faller, testified to the Committee on Armed Services of the Senate that transnational criminal organizations ''market in drugs and people and guns and illegal mining, and one of the prime sources that underwrites their efforts is Chinese money-laundering''.

(10) The deaths and violence associated with drug traffickers, the financing of terrorist organizations and other violent nonstate actors, and the adulteration of supply chains with counterfeit goods showcase the danger trade-based money laundering poses to the United States.

(11) Trade-based money laundering undermines national security and the rule of law in countries where it takes place.

(12) Illicit profits for transnational criminal organizations and other criminal organizations can lead to instability globally.

(13) The United States is facing a drug use and overdose epidemic, as well as an increase in consumption of synthetic drugs, such as methamphetamine and fentanyl, which is often enabled by Chinese money laundering organizations operating in coordination with drug-trafficking organizations and transnational criminal organizations in the Western Hemisphere that use trade-based money laundering to disguise the proceeds of drug trafficking.

(14) The presence of drug traffickers in the United States and their intrinsic connection to international threat networks, as well as the use of licit trade to further their motives, is a national security concern.

(15) Drug-trafficking organizations frequently use the trade-based money laundering scheme known as the ''Black Market Peso Exchange'' to move their ill-gotten gains out of the United States and into Central and South America.

(16) United States ports and U.S. Customs and Border Protection do not have the capacity to properly examine the 60,000,000 shipping containers that pass through United States ports annually, with only 2 to 5 percent of that cargo actively inspected.

(17) Trade-based money laundering can only be combated effectively if the intelligence community, law enforcement agencies, the Department of State, the Department of Defense, the Department of the Treasury, the Department of Homeland Security, the Department of Justice, and the private sector work together.

(18) Drug-trafficking organizations, terrorist organizations, and other transnational criminal organizations disguise the proceeds of their illegal activities behind sophisticated mechanisms that operate seamlessly between licit and illicit trade and financial transactions, making it almost impossible to address without international cooperation.

(19) Whereas the United States has established Trade Transparency Units with 18 partner countries, including with major drug-producing and transit countries, to facilitate the increased exchange of import-export data to combat trade-based money laundering.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the activities of transnational criminal organizations and their networks, and the means by which such organizations and networks move and launder their ill-gotten gains, such as through the use of illicit economies, illicit trade, and trade-based money laundering, pose a threat to the national interests and national security of the United States and allies and partners of the United States around the world;

(2) in addition to considering the countering of illicit economies, illicit trade, and trade-based money laundering as a national priority and committing to detect, address, and prevent such activities, the President should—

(A) continue to assess, in the periodic national risk assessments on money laundering, terrorist financing, and proliferation financing conducted by the Department of the Treasury, the ongoing risks of trade-based money laundering;

(B) finalize the assessment described in the Explanatory Statement accompanying the Financial Services and General Government Appropriations Act, 2020 (division C of the Consolidated Appropriations Act, 2020 (Public Law 116–93)), which directs the Financial Crimes Enforcement Network of the Department of the Treasury to thoroughly assess the risk that trade-based money laundering and other forms of illicit finance pose to national security;

(C) work expeditiously to develop, finalize, and execute a strategy, as described in section 6506 of the Anti-Money Laundering Act of 2020 (title LXV of division F of Public Law 116–283; 134 Stat. 4631), drawing on the multiple instruments of United States national power available, to counter—

(i) the activities of transnational criminal organizations, including illicit trade and trade-based money laundering; and

(ii) the illicit economies such organizations operate in;

(D) coordinate with international partners to implement that strategy, exhorting those partners to strengthen their approaches to combating transnational criminal organizations; and

(E) review that strategy on a biennial basis and improve it as needed in order to most effectively address illicit economies, illicit trade, and trade-based money laundering by exploring the use of emerging technologies and other new avenues for interrupting and putting an end to those activities; and

(3) the Trade Transparency Unit program of the Department of Homeland Security should take steps to strengthen its work, including in countries that the Department of State has identified as major money laundering jurisdictions under section 489 of the Foreign Assistance Act of 1961 (22 U.S.C. 2291h).

''(2) some adopted children experience trauma, and the disruption and placement in another home due to such a transfer may contribute to additional trauma and instability for such children;

''(3) unregulated custody transfer may not include certain safety measures that are required as part of formal adoption proceedings, such as required child welfare or criminal background checks or clearances;

''(4) child welfare agencies and courts may be unaware of the placement of children through unregulated custody transfers and, as a result, may not conduct assessments on children's safety and well-being in such subsequent placements;

''(7) a child adopted through intercountry adoption may be at risk of not acquiring United States citizenship if an unregulated custody transfer occurs before the adoptive parents complete all necessary steps to finalize the adoption of such child; and

''(8) unregulated custody transfers pose significant challenges for children who experience such transfers.

''(b) DEFINITION.—For the purpose of this section, the term 'unregulated custody transfer' means the abandonment of a child, by the child's parent or legal guardian, or a person or entity acting on behalf, and with the consent, of such parent or guardian—

''(B) a friend of the family who is an adult and with whom the child is familiar; or

''(2) with the intent of severing the relationship between the child and the parent or guardian of such child; and

''(3) without—

''(A) reasonably ensuring the safety of the child and permanency of the placement of the child, including by conducting an official home study, background check, and supervision; and

''(B) transferring the legal rights and responsibilities of parenthood or guardianship under applicable Federal and State law to a person described in subparagraph (A), (B), or (C) of paragraph (1).

''(c) TECHNICAL ASSISTANCE AND PUBLIC AWARENESS.—The Secretary, in coordination with the heads of other relevant Federal agencies—

''(1) shall improve public awareness related to preventing adoption disruption and dissolution, including preventing unregulated custody transfers of adopted children; and

''(2) in carrying out paragraph (1), shall update Federal resources, including internet websites, to provide—

''(A) employees of State, local, and Tribal agencies that provide child welfare services with educational materials related to preventing, identifying, and responding to unregulated custody transfers; and

''(B) prospective adoptive families with information on pre-adoption education and post-adoption services from State, local, and private resources to promote child permanency.

''(d) REPORT TO CONGRESS.—

''(1) IN GENERAL.—Not later than 1 year after the date of enactment of the CAPTA Reauthorization Act of 2022, the Secretary, in consultation with the Secretary of State, shall prepare and submit to the Committee on Health, Education, Labor, and Pensions and the Committee on Finance of the Senate, and the Committee on Education and Labor and the Committee on Ways and Means of the House of Representatives, a report on unregulated custody transfers of children, including of adopted children.

''(A) information on the causes, methods, and characteristics of unregulated custody

transfers, including the use of social media and the internet;

''(B) information on the effects of unregulated custody transfer on children, including the effects of the lack of assessment of a child's safety and well-being by social services agencies and courts due to such unregulated custody transfer;

''(C) data on the prevalence of unregulated custody transfers within each State and across all States;

''(D) recommended policies for preventing, identifying, and responding to unregulated custody transfers, including of adopted children, that include—

SEC. 1214. SECURING ALLIES FOOD IN EMERGENCIES.

(a) SHORT TITLES.—This section may be cited as the ''Securing Allies Food in Emergencies Act'' or the ''SAFE Act''.

(b) STATEMENT OF POLICY.—It is the policy of the United States to respond to the looming global food crisis precipitated by the Russian Federation's brutal, illegal invasion of Ukraine beginning in February 2022, which threatens to destabilize key partners and allies and push millions of people into hunger and poverty, particularly in areas of Africa and the Middle East that are already experiencing emergency levels of food insecurity, by taking immediate action to improve the timeliness and expand the reach of United States international food assistance.

(c) STRATEGY TO AVERT A GLOBAL FOOD CRISIS.—

(1) STRATEGY REQUIREMENT.—Not later than 30 days after the date of the enactment of this Act, the Administrator of the United States Agency for International Development, acting in the capacity of the President's Special Coordinator for International Disaster Assistance pursuant to section 493 of the Foreign Assistance Act of 1961 (22 U.S.C. 2292b), shall develop and submit a strategy to the Committee on Foreign Relations of the Senate and Committee on Foreign Affairs of the House of Representatives for averting a catastrophic global food security crisis, particularly in areas of Africa and the Middle East that are already experiencing emergency levels of food insecurity, which has been driven by sharp increases in global prices for staple agricultural commodities, agricultural inputs (including fertilizer), and associated energy costs.

(2) CONSIDERATIONS.—In developing the strategy required under paragraph (1), the Administrator shall consider and incorporate an analysis of—

(A) the impact of the Russian Federation's brutal, illegal war in Ukraine on the cost and availability of staple agricultural commodities and inputs, including fertilizer—

(i) globally;

(ii) in countries that rely upon commercial imports of such commodities and inputs from Ukraine or Russia; and

(iii) in countries that are supported through the United Nations World Food Programme, which heavily relies upon purchases of wheat and pulses from Ukraine and has recently reported a price increase of more than $23,000,000 per month for its wheat purchases;

(B) the correlation between rising food costs and social unrest in areas of strategic importance to the United States, including countries and regions that experienced food riots during the 2007 to 2008 global food price crisis;

(C) the underlying drivers of food insecurity in areas experiencing emergency levels of hunger, including current barriers to food security development programs and humanitarian assistance;

(D) existing United States foreign assistance authorities, programs, and resources that could help avert a catastrophic global food crisis;

(E) recommendations to enhance the efficiency, improve the timeliness, and expand the reach of United States international food assistance programs and resources referred to in subparagraph (D);

(G) opportunities to better synchronize assistance through well-coordinated development and humanitarian assistance programs within the United States Agency for International Development and alongside other donors;

(H) opportunities to improve supply chain and shipping logistics efficiencies in close collaboration with the private sector;

(I) opportunities for increased cooperation with the Department of State to strengthen diplomatic efforts to resolve global conflicts and overcome barriers to access for life-saving assistance;

(J) opportunities to support continued agricultural production in Ukraine, and the extent to which food produced in Ukraine can be used to meet humanitarian needs locally, regionally, or in countries historically reliant upon imports from Ukraine or Russia; and

(K) opportunities to support and leverage agricultural production in countries and regions currently supported by United States international agricultural development programs, including programs authorized under the Global Food Security Act of 2016 (22 U.S.C. 9301 et seq.), in a manner that—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Administrator of the United States Agency for International Development is authorized to procure life-saving food aid commodities, including commodities available locally and regionally, for the provision of emergency food assistance to the most vulnerable populations in countries and areas experiencing acute food insecurity that has been exacerbated by rising food prices, particularly in countries and areas historically dependent upon imports of wheat and other staple commodities from Ukraine and Russia.

(2) PRIORITIZATION.—

(A) IN GENERAL.—In responding to crises in which emergency food aid commodities are unavailable locally or regionally, or in which the provision of locally or regionally procured agricultural commodities would be unsafe, impractical, or inappropriate, the Administrator should prioritize procurements of United States agricultural commodities, including when exercising authorities under section 491 of the Foreign Assistance Act of 1961 (22 U.S.C. 2292).

(B) LOCAL OR REGIONAL PROCUREMENTS.—In making local or regional procurements of food aid commodities pursuant to paragraph (1), the Administrator, to the extent practicable and appropriate, should prioritize procurements from areas supported through the international agricultural development programs authorized under the Global Food Security Act of 2016 (22 U.S.C. 9301 et seq.) and from Ukraine, for the purpose of promoting economic stability, resilience to price shocks, and early recovery from such shocks in such areas.

(3) DO NO HARM.—In making local or regional procurements of food aid commodities pursuant to paragraph (1), the Administrator shall first conduct market assessments to ensure that such procurements—

(A) will not displace United States agricultural trade and investment; and

(B) will not cause or exacerbate shortages, or otherwise harm local markets, for such commodities within the countries of origin.

(4) EMERGENCY EXCEPTIONS.—

(A) IN GENERAL.—Commodities procured pursuant to paragraph (2) shall be excluded from calculations of gross tonnage for purposes of determining compliance with section 55305(b) of title 46, United States Code.

(B) CONFORMING AMENDMENT.—Section 55305(b) of title 46, United States Code, is amended by striking ''shall'' and inserting ''should''.

(C) section 1754(c) of the Export Control Reform Act of 2018 (50 U.S.C. 4813(c)).

(2) In February 2021, the foreign exchange reserves of the People's Republic of China totaled more than $3,200,000,000,000.

(3) The World Bank classifies the People's Republic of China as having an upper-middle-income economy.

(4) On February 25, 2021, President Xi Jinping announced ''complete victory'' over extreme poverty in the People's Republic of China.

(5) The Government of the People's Republic of China utilizes state resources to create and promote the Asian Infrastructure Investment Bank, the New Development Bank, and the Belt and Road Initiative.

(8) The World Bank reviews the graduation of a country from eligibility to borrow from the International Bank for Reconstruction and Development once the country reaches the graduation discussion income, which is equivalent to the gross national income. For fiscal year 2021, the graduation discussion income is a gross national income per capita exceeding $7,065.

(9) Many of the other multilateral development banks, such as the Asian Development Bank, use the gross national income per capita benchmark used by the International Bank for Reconstruction and Development to trigger the graduation process.

(10) The People's Republic of China exceeded the graduation discussion income threshold in 2016.

(11) Since 2016, the International Bank for Reconstruction and Development has approved projects totaling $8,930,000,000 to the People's Republic of China.

(12) Since 2016, the Asian Development Bank has continued to approve loans and technical assistance to the People's Republic of China totaling $7,600,000,000. The Bank has also approved non-sovereign commitments in the People's Republic of China totaling $1,800,000,000 since 2016.

(13) The World Bank calculates the People's Republic of China's most recent year (2019) gross national income per capita as $10,390.

(b) STATEMENT OF POLICY.—It is the policy of the United States to oppose any additional lending from the multilateral development banks, including the International Bank for Reconstruction and Development and the Asian Development Bank, to the People's Republic of China as a result of the People's Republic of China's successful graduation from the eligibility requirements for assistance from those banks.

(c) OPPOSITION TO LENDING TO PEOPLE'S REPUBLIC OF CHINA.—The Secretary of the Treasury shall instruct the United States Executive Director at each multilateral development bank to use the voice, vote, and influence of the United States—

(1) to oppose any loan or extension of financial or technical assistance by the bank to the People's Republic of China; and

(2) to end lending and assistance to countries that exceed the graduation discussion income of the bank.

(d) REPORT REQUIRED.—Not later than one year after the date of the enactment of this Act, and annually thereafter, the Secretary of the Treasury shall submit to the appropriate congressional committees a report that includes—

(2) a description of voting power, shares, and representation by the People's Republic of China at each such bank;

(3) a list of countries that have exceeded the graduation discussion income at each such bank;

(4) a list of countries that have graduated from eligibility for assistance from each such bank; and

(5) a full description of the efforts taken by the United States to graduate countries from such eligibility once they exceed the graduation discussion income at each such bank.

Subtitle G—Sanctions in Response to Military Invasion of Taiwan

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the ''Sanctions Targeting Aggressors of Neighboring Democracies with Taiwan Act of 2022'' or the ''STAND with Taiwan Act of 2022''.

SEC. 1282. FINDINGS.

Congress makes the following findings:

(1) Taiwan is a free and prosperous democracy of nearly 24,000,000 people, an important contributor to peace and stability around the world, and continues to embody and promote democratic values, freedom, and human rights in Asia.

(2) The policy of the United States toward Taiwan is guided by the Taiwan Relations Act (22 U.S.C. 3301 et seq.), the United States-People's Republic of China joint communiqués concluded in 1972, 1978, and 1982, and the Six Assurances that President Ronald Reagan communicated to Taiwan in 1982.

(3) Under section 2 of the Taiwan Relations Act (22 U.S.C. 3301), it is the policy of the United States—

(A) ''to preserve and promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people on Taiwan, as well as the people on the China mainland and all other peoples of the Western Pacific area'';

(B) ''to declare that peace and stability in the area are in the political, security, and economic interests of the United States, and are matters of international concern'';

(C) ''to make clear that the United States decision to establish diplomatic relations

with the People's Republic of China rests upon the expectation that the future of Taiwan will be determined by peaceful means'';

(D) ''to consider any effort to determine the future of Taiwan by other than peaceful means, including by boycotts or embargoes, a threat to the peace and security of the Western Pacific area and of grave concern to the United States'';

(E) ''to provide Taiwan with arms of a defensive character''; and

(F) ''to maintain the capacity of the United States to resist any resort to force or other forms of coercion that would jeopardize the security, or the social or economic system, of the people on Taiwan''.

(4) Since the election of President Tsai Ing-wen as President of Taiwan in 2016, the Chinese Communist Party has employed a variety of coercive military and nonmilitary tactics short of armed conflict in its efforts to exert existential pressure on Taiwan, including through diplomatic isolation, restricting tourism, cyberattacks, spreading disinformation, and controlling the ability of Taiwan to purchase COVID–19 vaccines from other countries.

(5) Since 2021, there has been a notable increase in military provocations by the People's Liberation Army against Taiwan, including increased flights of military aircraft within Taiwan's air defense identification zone, incursions over the midline separating the People's Republic of China from Taiwan, holding military exercises in the vicinity of Taiwan's controlled waters, and performing live-fire exercises in the South China Sea.

(6) In August 2022, the People's Republic of China held unprecedented live-fire military exercises and a simulated blockade involving hundreds of military aircraft, dozens of warships, and launches of short-range ballistic missiles over the territory of Taiwan.

(7) The midline separating the People's Republic of China from Taiwan has been effectively erased, increasing the prospects for incidental contact between forces of the People's Republic of China and Taiwan as well as shorting reaction times related to provocations by the People's Republic of China.

(8) On August 10, 2022, the Taiwan Affairs Office of the State Council of the People's Republic of China released a white paper entitled ''The Taiwan Question and China's Reunification in the New Era'' that reiterated the long-standing position of the Government of the People's Republic of China not to renounce the use of force to bring about unification with Taiwan and to ''always be ready to respond with the use of force . . . to interference by external forces or radical action by separatist elements''.

(9) In March 2021, then Commander of the United States Indo-Pacific Command Admiral Philip Davidson testified that the threat of a military invasion of Taiwan by the People's Liberation Army ''is manifest during this decade, in fact in the next six years''.

(10) In March 2021, then Commander of the United States Pacific Fleet Admiral John Aquilino testified that the threat of a military invasion by the People's Liberation Army of Taiwan is ''much closer to us than most think'' and could materialize well before 2035.

(11) On February 24, 2022, the Armed Forces of the Russian Federation initiated an unprovoked and unjustified invasion of Ukraine, resulting in at least 14,000 civilian casualties, including more than 5,000 deaths.

(12) The Russian Federation invasion has destabilized global markets and supply chains, from energy to food, contributing to high inflation and recession in the United States and deep cuts to global gross domestic product.

(13) With the assistance of the United States and European allies, Ukrainian forces have successfully repelled the Russian Federation invasion and recaptured significant portions of territory taken by the Russian Federation in the initial stages of the invasion.

(14) In addition to military power, economic and financial instruments of United States power and their potential use can have an important deterrent effect on the actions of other countries.

SEC. 1283. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) it is in the interests of the United States to maintain a free and open Indo-Pacific region, with peace and stability in the Taiwan Strait as a critical component;

(2) efforts by the Government of the People's Republic of China and the Chinese Communist Party to unilaterally determine the future of Taiwan through non-peaceful means, including threats and the direct use of force, military coercion, economic boycotts or embargoes, and efforts to internationally isolate or annex Taiwan—

(A) directly undermine the spirit, intent, and purpose of the Taiwan Relations Act (22 U.S.C. 3301 et seq.);

(B) undermine peace and stability in the Taiwan Strait;

(C) limit a free and open Indo-Pacific region; and

(D) are of grave concern to the Government of the United States;

(3) the initiation of a military invasion of Taiwan by the People's Liberation Army would—

(A) constitute a threat to the peace and security of the Western Pacific Area and threaten the peace stability of the entire globe; and

(B) undermine the core political, security, and economic interests of the United States at home and abroad; and

(4) as an important deterrent measure against a military invasion of Taiwan, the Government of the People's Republic of China and the Chinese Communist Party must understand that initiating such an invasion will result in catastrophic economic and financial consequences for the People's Republic of China.

SEC. 1284. STATEMENT OF POLICY.

The policy of the Government of the United States on Taiwan is guided by the Taiwan Relations Act (22 U.S.C. 3301 et seq.), the United States-People's Republic of China joint communiqués concluded in 1972, 1978, and 1982, and the Six Assurances that President Ronald Reagan communicated to Taiwan in 1982, but in the event of the initiation of a military invasion of Taiwan by the People's Liberation Army, it is the policy of the United States—

(1) to use and deploy all economic, commercial, and financial instruments and levers of power, including—

(A) the imposition of sanctions with respect to leadership of the Chinese Communist Party, key officials of the Government of the People's Republic of China, and financial institutions and other entities affiliated with the Chinese Communist Party or the Government of the People's Republic of China;

(B) prohibiting the listing or trading of the securities of Chinese entities on United States securities exchanges;

(C) prohibiting investments by United States financial institutions in economic sectors of the People's Republic of China; and

(D) prohibiting the importation of certain goods mined, produced, or manufactured in the People's Republic of China into the United States; and

(2) to work in close coordination with allies and partners of the United States to encourage those allies and partners to undertake similar economic, commercial, and financial actions against the Government of the People's Republic of China and the Chinese Communist Party.

Mr. COTTON submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. EQUAL ENFORCEMENT OF EXPENDING ONLY AUTHORIZED APPROPRIATIONS UNDER CONTINUING RESOLUTIONS.

(a) FINDINGS.—Congress finds the following:

(1) The national security of the United States suffers greatly from continuing appropriation Acts due to the inability of the Department of Defense to execute new starts or production increases under the standardized language of continuing resolutions.

(2) No other executive branch agency receives similar treatment under the standardized language of continuing resolutions.

(3) The theory that the prohibitions under a continuing resolution on new starts and production increases at the Department of Defense increase pressure for negotiations has not been supported by the significant and growing length of the period during which funding is provided under a continuing resolution for a fiscal year over the past 15 years.

(4) Experimentation with alternative methods of increasing pressure for negotiations could result in more efficient and effective outcomes for national security and the taxpayers of the United States.

(b) EQUAL ENFORCEMENT.—No amounts made available under an appropriation Act providing continuing funding for a fiscal year shall be made available to any department, agency, corporation, or other organization unit of the Federal Government for production of items, procurement of materials, construction of facilities, research and development, execution of contracts, or any other use of funds not specifically provided for in the annual appropriation Act for the preceding fiscal year.

SA 6128. Subtitle G—Masih Alinejad HUNT Act of 2022

SEC. 1281. SHORT TITLE.

This title may be cited as the ''Masih Alinejad Harassment and Unlawful Targeting Act of 2022'' or the ''Masih Alinejad HUNT Act of 2022''.

SEC. 1282. FINDINGS.

Congress finds that the Government of the Islamic Republic of Iran surveils, harasses, terrorizes, tortures, abducts, and murders individuals who peacefully defend human rights and freedoms in Iran, and innocent entities and individuals considered by the Government of Iran to be enemies of that regime, including United States citizens on United States soil, and takes foreign nationals hostage, including in the following instances:

(1) In 2021, Iranian intelligence agents were indicted for plotting to kidnap United States citizen, women's rights activist, and journalist Masih Alinejad, from her home in New York City, in retaliation for exercising her rights under the First Amendment to the Constitution of the United States. Iranian agents allegedly spent at least approximately half a million dollars to capture the outspoken critic of the authoritarianism of the Government of Iran, and studied evacuating her by military-style speedboats to Venezuela before rendition to Iran.

(2) Prior to the New York kidnapping plot, Ms. Alinejad's family in Iran was instructed by authorities to lure Ms. Alinejad to Turkey. In an attempt to intimidate her into silence, the Government of Iran arrested 3 of Ms. Alinejad's family members in 2019, and sentenced her brother to 8 years in prison for refusing to denounce her.

(3) According to Federal prosecutors, the same Iranian intelligence network that allegedly plotted to kidnap Ms. Alinejad is also targeting critics of the Government of Iran who live in Canada, the United Kingdom, and the United Arab Emirates.

(4) In 2021, an Iranian diplomat was convicted in Belgium of attempting to carry out a 2018 bombing of a dissident rally in France.

(5) In 2021, a Danish high court found a Norwegian citizen of Iranian descent guilty of illegal espionage and complicity in a failed plot to kill an Iranian Arab dissident figure in Denmark.

(6) In 2021, the British Broadcasting Corporation (BBC) appealed to the United Nations to protect BBC Persian employees in London who suffer regular harassment and threats of kidnapping by Iranian government agents.

(7) In 2021, 15 militants allegedly working on behalf of the Government of Iran were arrested in Ethiopia for plotting to attack citizens of Israel, the United States, and the United Arab Emirates, according to United States officials.

(8) In 2020, Iranian agents allegedly kidnapped United States resident and Iranian-German journalist Jamshid Sharmahd, while he was traveling to India through Dubai. Iranian authorities announced they had seized Mr. Sharmahd in ''a complex operation'', and paraded him blindfolded on state television. Mr. Sharmahd is arbitrarily detained in Iran, allegedly facing the death penalty. In 2009, Mr. Sharmahd was the target of an alleged Iran-directed assassination plot in Glendora, California.

(9) In 2020, the Government of Turkey released counterterrorism files exposing how Iranian authorities allegedly collaborated with drug gangs to kidnap Habib Chabi, an Iranian-Swedish activist for Iran's Arab minority. In 2020, the Government of Iran allegedly lured Mr. Chabi to Istanbul through a female agent posing as a potential lover. Mr. Chabi was then allegedly kidnapped from Istanbul, and smuggled into Iran where he faces execution, following a sham trial.

(10) In 2020, a United States-Iranian citizen and an Iranian resident of California pleaded guilty to charges of acting as illegal agents of the Government of Iran by surveilling Jewish student facilities, including the Hillel Center and Rohr Chabad Center at the University of Chicago, in addition to surveilling and collecting identifying information about United States citizens and nationals who are critical of the Iranian regime.

(11) In 2019, 2 Iranian intelligence officers at the Iranian consulate in Turkey allegedly orchestrated the assassination of Iranian dissident journalist Masoud Molavi Vardanjani, who was shot while walking with a friend in Istanbul. Unbeknownst to Mr. Molavi, his ''friend'' was in fact an undercover Iranian agent and the leader of the killing squad, according to a Turkish police report.

(12) In 2019, around 1,500 people were allegedly killed amid a less than 2 week crackdown by security forces on anti-government protests across Iran, including at least an alleged 23 children and 400 women.

(13) In 2019, Iranian operatives allegedly lured Paris-based Iranian journalist Ruhollah Zam to Iraq, where he was abducted, and hanged in Iran for sedition.

(14) In 2019, a Kurdistan regional court convicted an Iranian female for trying to lure Voice of America reporter Ali Javanmardi to a hotel room in Irbil, as part of a foiled Iranian intelligence plot to kidnap and extradite Mr. Javanmardi, a critic of the Government of Iran.

(15) In 2019, Federal Bureau of Investigation agents visited the rural Connecticut home of Iran-born United States author and poet Roya Hakakian to warn her that she was the target of an assassination plot orchestrated by the Government of Iran.

(16) In 2019, the Government of the Netherlands accused the Government of Iran of directing the assassination of Iranian Arab activist Ahmad Mola Nissi, in The Hague, and the assassination of another opposition figure, Reza Kolahi Samadi, who was murdered near Amsterdam in 2015.

(17) In 2018, German security forces searched for 10 alleged spies who were working for Iran's al-Quds Force to collect information on targets related to the local Jewish community, including kindergartens.

(18) In 2017, Germany convicted a Pakistani man for working as an Iranian agent to spy on targets including a former German lawmaker and a French-Israeli economics professor.

(19) In 2012, an Iranian American pleaded guilty to conspiring with members of the Iranian military to bomb a popular Washington, DC, restaurant with the aim of assassinating the ambassador of Saudi Arabia to the United States.

(20) In 1996, agents of the Government of Iran allegedly assassinated 5 Iranian dissident exiles across Turkey, Pakistan, and Baghdad, over a 5-month period that year.

(21) In 1992, the Foreign and Commonwealth Office of the United Kingdom expelled 2 Iranians employed at the Iranian Embassy in London and a third Iranian on a student visa amid allegations they were plotting to kill Indian-born British American novelist Salman Rushdie, pursuant to the fatwa issued by then supreme leader of Iran, Ayatollah Ruhollah Khomeini.

(22) In 1992, 4 Iranian Kurdish dissidents were assassinated at a restaurant in Berlin, Germany, allegedly by Iranian agents.

(23) In 1992, singer, actor, poet, and gay Iranian dissident Fereydoun Farrokhzad was found dead with multiple stab wounds in his apartment in Germany. His death is allegedly the work of Iran-directed agents.

(24) In 1980, Ali Akbar Tabatabaei, a leading critic of Iran and then president of the Iran Freedom Foundation, was murdered in front of his Bethesda, Maryland, home by an assassin disguised as a postal courier. The Federal Bureau of Investigation had identified the ''mailman'' as Dawud Salahuddin, born David Theodore Belfield. Mr. Salahuddin was working as a security guard at an Iranian interest office in Washington, DC, when he claims he accepted the assignment and payment of $5,000 from the Government of Iran to kill Mr. Tabatabaei.

(25) Other exiled Iranian dissidents alleged to have been victims of the Government of Iran's murderous extraterritorial campaign include Shahriar Shafiq, Shapour Bakhtiar, and Gholam Ali Oveissi.

(26) Iranian Americans face an ongoing campaign of intimidation both in the virtual and physical world by agents and affiliates of the Government of Iran, which aims to stifle freedom of expression and eliminate the threat Iranian authorities believe democracy, justice, and gender equality pose to their rule.

(ii) BACKGROUND CHECKS.—The Secretary of Homeland Security shall use biometric, biographic, and other data that the Secretary of Homeland Security determines appropriate to conduct security and law enforcement background checks and to determine whether there is any criminal, national security, or other factor that would render the alien ineligible for adjustment of status under this subsection. (ii) for purposes of subclauses (II) and (III) of subparagraph (B)(ii), waive consideration of—

(I) one misdemeanor offense if the alien has not been convicted of any offense in the 5-year period preceding the date on which the alien applies for adjustment of status under this subsection; or

At the end of subtitle B of title XXXI, add the following:

SEC. 3118. PROHIBITION ON USE OF FUNDS FOR RESEARCH AND DEVELOPMENT, PRODUCTION, OR DEPLOYMENT OF NUCLEAR-ARMED SEA-LAUNCHED CRUISE MISSILE AND ASSOCIATED WARHEAD.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States nuclear arsenal comprises approximately 3,800 nuclear warheads in the active stockpile and a force structure of long-range and short-range delivery systems, including—

(A) land-based intercontinental ballistic missiles;

(B) submarine-launched ballistic missiles that can deliver both low-yield and higher-yield nuclear warheads;

(C) long-range strategic bomber aircraft capable of carrying nuclear-armed air-launched cruise missile and nuclear gravity bombs; and

(D) short-range fighter aircraft that can deliver nuclear gravity bombs.

(2) In 2010, the United States retired the nuclear-armed sea-launched cruise missile, or the TLAM–N, after concluding in the 2010 Nuclear Posture Review that the capability ''serve[d] a redundant purpose in the U.S. nuclear stockpile''.

(3) Ten years later, in 2020, the United States initiated studies into a new nuclear-armed sea-launched cruise missile and associated warhead, after concluding in the 2018 Nuclear Posture Review that the weapon system would provide a ''non-strategic regional presence'' and ''an assured response capability''.

(4) The United States possesses an array of nuclear weapons systems, including both air- and sea-based capabilities, that provide an effective regional deterrent presence, making the nuclear-armed sea-launched cruise missile a redundant, unnecessary capability.

(5) Deploying nuclear-armed sea-launched cruise missiles on attack submarines or surface ships risks detracting from the core military missions of such submarines and ships, such as tracking enemy submarines, protecting United States carrier groups, and conducting conventional strikes on priority land targets.

(6) Stationing nuclear-armed sea-launched cruise missiles on such submarines or ships also risks complicating port visits and joint operations with some allies and partners of the United States, which in turn would reduce the operational effectiveness of such submarines and ships and the deterrent value of deployed nuclear-armed sea-launched cruise missiles.

(7) A January 2019 analysis of the Congressional Budget Office estimated that the projected costs of the nuclear-armed sea-launched cruise missile program from 2019 to 2028 would total $9,000,000,000, adding additional costs and resource requirements to the United States nuclear modernization program and increasing pressure on the Navy budget as the Navy plans for increases in shipbuilding while funding the Columbia-class submarine program.

(8) The cost of the nuclear-armed sea-launched cruise missile program will be larger, as the estimate of the Congressional Budget Office did not account for costs related to integrating nuclear-armed sea-launched cruise missiles on attack submarines or surface ships, nuclear weapons-specific training for Navy personnel, or storage and security for nuclear warheads.

(b) PROHIBITION ON USE OF FUNDS.—None of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter for the Department of Defense or the Department of Energy may be obligated or expended for the research and development, production, or deployment of the nuclear-armed sea-launched cruise missile and its associated nuclear warhead.

SA 6153. Mr. VAN HOLLEN submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

''(b) REPRESENTATIVES.—In the event a Representative from a State does not submit nominations for cadets for an academic year in accordance with section 51302(b)(2) of this title due to death, resignation from office, or expulsion from office and the date of the swearing-in of the Representative's successor as Representative occurs after the date of the deadline for submittal of nominations for cadets for the academic year, the nominations for cadets otherwise authorized to be made by the Representative pursuant to such section shall be made instead by the Senators from the State from the district of the Representative, with such nominations divided equally among such Senators and any remainder going to the senior Senator from the State.

''(c) CONSTRUCTION OF AUTHORITY.—Any nomination for cadets made by a Senator pursuant to this section is in addition to any nomination for cadets otherwise authorized the Senator under section 51302 of this title or any other provision of law.''.

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 513 of such title is amended by inserting after the item relating to section 51324 the following new item:

''51325. Cadets: nomination in event of death, resignation, or expulsion from office of member of Congress otherwise authorized to nominate.''.

At the end of subtitle D of title XII, add the following:

SEC. 1254. NORTH KOREAN HUMAN RIGHTS.

(a) SHORT TITLE.—This section may be cited as the ''North Korean Human Rights Reauthorization Act of 2022''.

(b) FINDINGS.—Congress makes the following findings:

(1) The North Korean Human Rights Act of 2004 (Public Law 108–333; 22 U.S.C. 7801 et seq.) and subsequent reauthorizations of such Act were the product of broad, bipartisan consensus regarding the promotion of human rights, documentation of human rights violations, transparency in the delivery of humanitarian assistance, and the importance of refugee protection.

(2) The human rights and humanitarian conditions within North Korea remain deplorable and have been intentionally perpetuated against the people of North Korea through policies endorsed and implemented by Kim Jong-un and the Workers' Party of Korea.

(3) According to a 2014 report released by the United Nations Human Rights Council's Commission of Inquiry on Human Rights in the Democratic People's Republic of Korea, between 80,000 and 120,000 children, women, and men were being held in political prison camps in North Korea, where they were subjected to deliberate starvation, forced labor, executions, torture, rape, forced abortion, and infanticide.

(4) North Korea continues to hold a number of South Koreans and Japanese abducted after the signing of the Agreement Concerning a Military Armistice in Korea, signed at Panmunjom July 27, 1953 (commonly referred to as the ''Korean War Armistice Agreement'') and refuses to acknowledge the abduction of more than 100,000 South Koreans during the Korean War in violation of the Geneva Convention.

(5) Human rights violations in North Korea, which include forced starvation, sexual violence against women and children, restrictions on freedom of movement, arbitrary detention, torture, executions, and enforced disappearances, amount to crimes against humanity according to the United Nations Commission of Inquiry on Human Rights in the Democratic People's Republic of Korea.

(6) The effects of the COVID–19 pandemic and North Korea's strict lockdown of its borders and crackdowns on informal market activities and small entrepreneurship have drastically increased food insecurity for its people and given rise to famine conditions in parts of the country.

(7) North Korea's COVID–19 border lockdown measures also include shoot-to-kill orders that have resulted in the killing of—

(A) North Koreans attempting to cross the border; and

(B) at least 1 South Korean citizen in September 2020.

(8) The Chinese Communist Party and the Government of the People's Republic of China are aiding and abetting in crimes against humanity by forcibly repatriating North Korean refugees to North Korea where they are sent to prison camps, harshly interrogated, and tortured or executed.

(9) The forcible repatriation of North Korean refugees violates the People's Republic of China's freely undertaken obligation to uphold the principle of non-refoulement, under the Convention Relating to the Status of Refugees, done at Geneva July 28, 1951 (and made applicable by the Protocol Relating to the Status of Refugees, done at New York January 31, 1967 (19 UST 6223)).

(10) North Korea continues to bar freedom of religion and persecute religious minorities, especially Christians. Eyewitnesses report that Christians in North Korea have been tortured, forcibly detained, and even executed for possessing a Bible or professing Christianity.

(11) United States and international broadcasting operations into North Korea—

(A) serve as a critical source of outside news and information for the North Korean people; and

(B) provide a valuable service for countering regime propaganda and false narratives.

(12) The position of Special Envoy on North Korean Human Rights Issues has been vacant since January 2017, even though the President is required to appoint a Senate-confirmed Special Envoy to fill this position in accordance with section 107 of the North Korean Human Rights Act of 2004 (22 U.S.C. 7817).

(c) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) promoting information access in North Korea continues to be a successful method of countering North Korean propaganda;

(2) the United States Government should continue to support efforts described in paragraph (1), including by enacting and implementing the Otto Warmbier North Korean Censorship and Surveillance Act of 2021, which was introduced by Senator Portman on June 17, 2021;

(3) because refugees among North Koreans fleeing into China face severe punishments upon their forcible return, the United States should urge the Government of the People's Republic of China—

(A) to immediately halt its forcible repatriation of North Koreans;

(B) to allow the United Nations High Commissioner for Refugees (referred to in this section as ''UNHCR'') unimpeded access to North Koreans within China to determine whether they are refugees and require assistance;

(C) to fulfill its obligations under the Convention Relating to the Status of Refugees, done at Geneva July 28, 1951 (and made applicable by the Protocol Relating to the Status of Refugees, done at New York January 31, 1967 (19 UST 6223) and the Agreement on the upgrading of the UNHCR Mission in the People's Republic of China to UNHCR branch office in the People's Republic of China, done at Geneva December 1, 1995;

(D) to address the concerns of the United Nations Committee Against Torture by incorporating into domestic legislation the principle of non-refoulement; and

(E) to recognize the legal status of North Korean women who marry or have children with Chinese citizens and ensure that all such mothers and children are granted resident status and access to education and other public services in accordance with Chinese law and international standards;

(4) the United States Government should continue to promote the effective and transparent delivery and distribution of any humanitarian aid provided in North Korea to ensure that such aid reaches its intended recipients to the point of consumption or utilization by cooperating closely with the Government of the Republic of Korea and international and nongovernmental organizations;

(5) the Department of State should continue to take steps to increase public awareness about the risks and dangers of travel by United States citizens to North Korea, including by continuing its policy of blocking United States passports from being used to travel to North Korea without a special validation from the Department of State;

(6) the United Nations, which has a significant role to play in promoting and improving human rights in North Korea, should press for access for the United Nations Special Rapporteur and the United Nations High Commissioner for Human Rights on the situation of human rights in North Korea;

(7) the Special Envoy for North Korean Human Rights Issues should be appointed without delay—

(A) to properly promote and coordinate North Korean human rights and humanitarian issues; and

(B) to participate in policy planning and implementation with respect to refugee issues;

(8) the United States should urge North Korea to repeal the Reactionary Thought and Culture Denunciation Law and other draconian laws, regulations, and decrees that manifestly violate the freedom of opinion and expression and the freedom of thought, conscience, and religion;

(9) the United States should urge North Korea to ensure that any restrictions on addressing the COVID–19 pandemic are necessary, proportionate, nondiscriminatory, time-bound, transparent, and allow international staff to operate inside the North Korea to provide international assistance based on independent needs assessments;

(10) the United States should expand the Rewards for Justice program to be open to North Korean officials who can provide evidence of crimes against humanity being committed by North Korean officials;

(11) the United States should continue to seek cooperation from all foreign governments—

(A) to allow the UNHCR access to process North Korean refugees overseas for resettlement; and

(B) to allow United States officials access to process refugees for possible resettlement in the United States; and

(12) the Secretary of State, through diplomacy by senior officials, including United States ambassadors to Asia-Pacific countries, and in close cooperation with South Korea, should make every effort to promote the protection of North Korean refugees, escapees, and defectors.

(g) SUPPORT FOR NORTH KOREAN REFUGEES.—

(1) IN GENERAL.—The Secretary of State and the Secretary of Homeland Security should collaborate with faith-based and Korean-American organizations to resettle North Korean participants in the United States Refugee Admissions Program in areas with existing Korean-American communities to mitigate trauma and mental health considerations of refugees, as appropriate.

(i) REPORT ON HUMANITARIAN EXEMPTIONS TO SANCTIONS IMPOSED WITH RESPECT TO NORTH KOREA.—

(1) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the continued pursuit by the North Korean regime of weapons of mass destruction (including nuclear, chemical, and biological weapons), in addition to its ballistic missile program, along with the regime's gross violations of human rights, have led the international community to impose sanctions with respect to North Korea, including sanctions imposed by the United Nations Security Council;

(B) authorities should grant exemptions for humanitarian assistance to the people of North Korea consistent with past United Nations Security Council resolutions; and

At the end of title XII, add the following:

Subtitle G—Taiwan Relations Reinforcement Act of 2022

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the ''Taiwan Relations Reinforcement Act of 2022''.

SEC. 1282. FINDINGS.

Congress makes the following findings:

(1) The Taiwan Relations Act of 1979 (Public Law 96–8) and the Six Assurances, first articulated by President Ronald Reagan in 1982, are both cornerstones of United States relations with Taiwan, formally known as the Republic of China (ROC).

(2) The People's Republic of China (PRC) and Taiwan have been ruled without interruption by separate governments since 1949, and Taiwan has not been subjected to rule by the PRC at any point since the PRC was first established in 1949.

(3) The so-called ''One China Policy'' of the United States Government is not the same as the ''One China principle'' espoused by the People's Republic of China.

(4) Threats and actions by the Government of the People's Republic of China to unilaterally determine Taiwan's future through nonpeaceful means, including the direct use of

force, military coercion, economic boycotts or embargoes, and efforts to internationally isolate or annex Taiwan, would undermine stability in the Taiwan Strait and are of grave concern to the United States Government.

(5) The Chinese Communist Party's (CCP) global influence operations and efforts to exert sharp power have sought to diplomatically undermine the legitimacy of the democratically elected Government of Taiwan, intimidate the people of Taiwan, and force Taiwan's diplomatic partners to abandon it.

(6) The force modernization program and military buildup of the CCP-controlled People's Liberation Army poses a serious challenge to the balance of power in the Indo-Pacific region, including the Taiwan Strait, and to United States national security interests as a Pacific power.

(7) Cultural and educational exchanges between the United States and Taiwan are a key component of building and strengthening bilateral people-to-people ties and provide important, high-quality learning opportunities for students interested in politics, history, language, and culture.

(8) Taiwan is an important trading partner for the United States, representing the 10th largest market for United States exports in 2019.

(9) April 10, 2020, marked the 41st anniversary of the Taiwan Relations Act of 1979 (Public Law 96–8).

SEC. 1283. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States Government should strengthen cooperation with the military of Taiwan under the framework of the Taiwan Relations Act (Public Law 96–8) and the Six Assurances with consideration of the ongoing military buildup in China and the imbalance in the security environment in the Taiwan Strait;

(2) the United States Government should urge Taiwan to increase its own investments in military capabilities that support implementation of its asymmetric defense strategy;

(3) the United States Government should promote dignity and respect for its Taiwanese counterparts, who represent more than 23,000,000 citizens, by using the full range of diplomatic and financial tools available to promote Taiwan's inclusion and meaningful participation in international organizations as well as in bilateral and multilateral security summits, military exercises, and economic dialogues and forums; and

(4) in order to deepen economic ties and advance the interests of the United States, the United States Government should prioritize the negotiation of a free trade agreement with Taiwan that provides high levels of labor rights and environmental protection as soon as possible.

SEC. 1284. A TWENTY-FIRST CENTURY PARTNERSHIP WITH TAIWAN.

SEC. 1290. PROHIBITIONS AGAINST UNDERMINING UNITED STATES POLICY REGARDING TAIWAN.

(a) FINDING.—Congress finds that the efforts by the Government of the People's Republic of China (PRC) and the Chinese Communist Party to compel private United States businesses, corporations, and nongovernmental entities to use PRC-mandated language to describe the relationship between Taiwan and China are an intolerable attempt to enforce political censorship globally and should be considered an attack on the fundamental underpinnings of all democratic and free societies, including the constitutionally protected right to freedom of speech.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States Government, in coordination with United States businesses and nongovernmental entities, should formulate a code of conduct for interacting with the Government of the People's Republic of China and the Chinese Communist Party and affiliated entities, the aim of which is—

(1) to counter PRC sharp power operations, which threaten free speech, academic freedom, and the normal operations of United States businesses and nongovernmental entities; and

(2) to counter PRC efforts to censor the way the world refers to issues deemed sensitive to the Government of the People's Republic of China and Chinese Communist Party leaders, including issues related to Taiwan, Tibet, the Tiananmen Square Massacre, and the mass internment of Uyghurs and other Turkic Muslims, among many other issues.

(c) PROHIBITION ON RECOGNITION OF PRC CLAIMS TO SOVEREIGNTY OVER TAIWAN.—

(1) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) issues related to the sovereignty of Taiwan are for the people of Taiwan to decide through the democratic process they have established;

(B) the dispute between the People's Republic of China and Taiwan must be resolved peacefully and with the assent of the people of Taiwan;

(C) the primary obstacle to peaceful resolution is the authoritarian nature of the PRC political system under one-party rule of the Chinese Communist Party, which is fundamentally incompatible with Taiwan's democracy; and

(D) any attempt to coerce the people of Taiwan to accept a political arrangement that would subject them to direct or indirect rule by the PRC, including a ''one country, two systems'' framework, would constitute a grave challenge to United States security interests in the region.

(2) STATEMENT OF POLICY.—It is the policy of the United States to oppose any attempt by the PRC authorities to unilaterally impose a timetable or deadline for unification on Taiwan.

(3) PROHIBITION ON RECOGNITION OF PRC CLAIMS WITHOUT ASSENT OF PEOPLE OF TAIWAN.— No department or agency of the United States Government may formally or informally recognize PRC claims to sovereignty over Taiwan without the assent of the people of Taiwan, as expressed directly through the democratic process.

(4) TREATMENT OF TAIWAN GOVERNMENT.—

(A) IN GENERAL.—The Department of State and other United States Government agencies shall treat the democratically elected government of Taiwan as the legitimate representative of the people of Taiwan and end the outdated practice of referring to the government in Taiwan as the ''authorities''. Notwithstanding the continued supporting role of the American Institute in Taiwan in carrying out United States foreign policy and protecting United States interests in Taiwan, the United States Government shall not place any restrictions on the ability of officials of the Department of State and other United States Government agencies from interacting directly and routinely with counterparts in the Taiwan government.

(B) RULE OF CONSTRUCTION.—Nothing in this paragraph shall be construed as entailing restoration of diplomatic relations with the Republic of China, which were terminated on January 1, 1979, or altering the United States Government's position on Taiwan's international status.

(d) STRATEGY TO PROTECT UNITED STATES BUSINESSES AND NONGOVERNMENTAL ENTITIES FROM COERCION.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Secretary of Commerce, the Secretary of the Treasury, and the heads of other relevant Federal agencies, shall submit an unclassified report, with a classified annex if necessary, to protect United States businesses and nongovernmental entities from sharp power operations, including coercion and threats that lead to censorship or self-censorship, or which compel compliance with political or foreign policy positions of the Government of the People's Republic of China and the Chinese Communist Party. The strategy shall include the following elements:

(1) Information on efforts by the Government of the People's Republic of China to censor the websites of United States airlines, hotels, and other businesses regarding the relationship between Taiwan and the People's Republic of China.

(2) Information on efforts by the Government of the People's Republic of China to target United States nongovernmental entities through sharp power operations intended to weaken support for Taiwan.

(3) Information on United States Government efforts to counter the threats posed by Chinese state-sponsored propaganda and disinformation, including information on best practices, current successes, and existing barriers to responding to this threat.

(4) Details of any actions undertaken to create a code of conduct pursuant to subsection (b) and a timetable for implementation.

(1) Development of a response to PRC propaganda and disinformation campaigns and cyber-intrusions targeting Taiwan, including—

(A) assistance in building the capacity of the Taiwan government and private-sector entities to document and expose propaganda and disinformation supported by the Government of the People's Republic of China, the Chinese Communist Party, or affiliated entities;

(B) assistance to enhance the Taiwan government's ability to develop a whole-of-government strategy to respond to sharp power operations, including election interference; and

(C) media training for Taiwan officials and other Taiwan entities targeted by disinformation campaigns.

(2) Development of a response to political influence operations that includes an assessment of the extent of influence exerted by the Government of the People's Republic of China and the Chinese Communist Party in Taiwan on local political parties, financial institutions, media organizations, and other entities.

(3) Support for exchanges and other technical assistance to strengthen the Taiwan legal system's ability to respond to sharp power operations.

(4) Establishment of a coordinated partnership, through the Global Cooperation and Training Framework, with like-minded governments to share data and best practices with the Government of Taiwan on ways to address sharp power operations supported by the Government of the People's Republic of China and the Chinese Communist Party.

SEC. 1292. REPORT ON DETERRENCE IN THE TAIWAN STRAIT.

Not later than 180 days after the date of the enactment of this Act, and annually thereafter, the Secretary of State and the Secretary of Defense shall submit to the appropriate congressional committees a joint report that assesses the military posture of Taiwan and the United States as it specifically pertains to the deterrence of military conflict and conflict readiness in the Taiwan Strait. SEC. 3____. U.S. NUCLEAR FUELS SECURITY INITIATIVE TO REDUCE RELIANCE ON NUCLEAR FUELS FROM RUSSIA AND CHINA.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States and the allies of the United States need to eliminate reliance on the Russian Federation for energy fuels, including all forms of uranium;

(2) the Department should—

(A) prioritize activities to increase domestic production of low-enriched uranium; and

(B) accelerate efforts to establish a domestic high-assay, low-enriched uranium enrichment capability; and

(3) if domestic enrichment of high-assay, low-enriched uranium will not be commercially available at the scale needed in time to meet the needs of the advanced nuclear reactor demonstration projects of the Department, the Secretary shall consider and implement, as necessary—

(A) all viable options to make high-assay, low-enriched uranium produced from inventories owned by the Department available in a manner that is sufficient to maximize the potential for the Department to meet the needs and schedules of advanced nuclear reactor developers, without impacting existing Department missions, until such time that commercial enrichment and deconversion capability for high-assay, low-enriched uranium exists at a scale sufficient to meet future needs; and

(B) all viable options for partnering with ally or partner nations to meet those needs and schedules until that time.

(b) OBJECTIVES.—The objectives of this section are—

(1) to expeditiously increase domestic production of low-enriched uranium to prevent the reliance of the United States and, to the maximum extent practicable, ally or partner nations on nuclear fuels from—

(3) to ensure the availability of domestically produced, converted, and enriched uranium in a quantity determined by the Secretary, in consultation with U.S. nuclear energy companies, to be sufficient to address a reasonably anticipated supply disruption;

(4) to address gaps and deficiencies in the domestic production, conversion, enrichment, deconversion, and reduction of uranium by partnering with ally or partner nations if domestic options are not practicable;

(5) to ensure that, in the event of a supply disruption in the nuclear fuel market, a reserve of nuclear fuels is available to serve as a backup supply to support the nuclear nonproliferation and civil nuclear energy objectives of the Department;

(6) to support enrichment, deconversion, and reduction technology deployed in the United States; and

(7) to ensure that, until such time that domestic enrichment and deconversion of high-assay, low-enriched uranium is commercially available at the scale needed to meet the needs of advanced nuclear reactor developers, the Secretary considers and implements, as necessary—

(A) all viable options to make high-assay, low-enriched uranium produced from inventories owned by the Department available in a manner that is sufficient to maximize the potential for the Department to meet the needs and schedules of advanced nuclear reactor developers; and

SEC. 1285. REPORT ON COUNTERING ILLEGAL, UNREPORTED, AND UNREGULATED FISHING IN OCEANIA.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) many countries of the Oceania region depend on commercial tuna fisheries as a critical component of their economies;

(2) the Government of the People's Republic of China has used its licensed fishing fleet to exert greater influence in Oceania, but at the same time, its licensed fishing fleet is also a major contributor to illegal, unreported, and unregulated fishing (in this section referred to as ''IUU fishing'') activities;

(3) the sustainability of Oceania's fisheries is threatened by IUU fishing, which depletes both commercially important fish stocks and non-targeted species that help maintain the integrity of the ocean ecosystem;

(4) in addition, IUU fishing puts pressure on protected species of marine mammals, sea turtles, and sea birds, which also jeopardizes the integrity of the ocean ecosystem;

(5) further, because IUU fishing goes unrecorded, the loss of biomass compromises scientists' work to assess and model fishery stocks and advise managers on sustainable catch levels;

(6) beyond the damage to living marine resources, IUU fishing also contributes directly to illegal activity in the Oceania region, such as food fraud, smuggling, and human trafficking;

(7) current approaches to IUU fishing enforcement rely on established methods, such as vessel monitoring systems, logbooks maintained by government fisheries enforcement authorities to record the catches landed by fishing vessels, and corroborating data on catches hand-collected by human observer programs;

(8) such established methods are imperfect because—

(A) vessels can turn off monitoring systems and unlicensed vessels do not use them; and

(B) observer coverage is thin and subject to human error and corruption;

(9) maritime domain awareness technology solutions for vessel monitoring have gained credibility in recent years and include systems such as observing instruments deployed on satellites, crewed and uncrewed air and surface systems, aircraft, and surface vessels, as well as electronic monitoring systems on fishing vessels;

(10) maritime domain awareness technologies hold the promise of significantly augmenting the current IUU fishing enforcement capacities; and

(11) maritime domain awareness technologies offer an avenue for addressing key United States national interests, including those interests related to—

(A) increasing bilateral diplomatic ties with key allies and partners in the Oceania region;

(B) countering illicit trafficking in arms, narcotics, and human beings associated with IUU fishing;

(C) advancing security, long-term growth, and development in the Oceania region;

(D) supporting ocean conservation objectives;

(E) reducing food insecurity; and

(F) countering attempts by the Government of the People's Republic of China to grow its influence in the Oceania region.

(b) REPORT REQUIRED.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Administrator of the National Oceanic and Atmospheric Administration, the Commandant of the Coast Guard, and the Secretary of Defense, shall submit to the appropriate congressional committees a report assessing the use of advanced maritime domain awareness technology systems to combat IUU fishing in Oceania.

(2) ELEMENTS.—The report required by paragraph (1) shall include—

(A) a review of the effectiveness of existing monitoring technologies, including electronic monitoring systems, to combat IUU fishing;

(B) recommendations for effectively integrating effective monitoring technologies into an Oceania-wide strategy for IUU fishing enforcement;

(C) an assessment and recommendations for the secure and reliable processing of data from such monitoring technologies, including the security and verification issues;

(D) the technical and financial capacity of countries of the Oceania region to deploy and maintain large-scale use of maritime domain awareness technological systems for the purposes of combating IUU fishing and supporting fisheries resource management;

(E) a review of the technical and financial capacity of regional organizations and international structures to support countries of the Oceania region in the deployment and maintenance of large-scale use of maritime domain awareness technology systems for the purposes of combating IUU fishing and supporting fisheries resource management;

(F) an evaluation of the utility of using foreign assistance, security assistance, and development assistance provided by the United States to countries of the Oceania region to support the large-scale deployment and operations of maritime domain awareness systems to increase maritime security across the region; and

(G) an assessment of the role of large-scale deployment and operations of maritime domain awareness systems throughout Oceania to supporting United States economic and national security interests in the Oceania region, including efforts related to countering IUU fishing, improving maritime security, and countering malign foreign influence.

(3) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this subsection, the term ''appropriate congressional committees'' means—

(A) the Committee on Foreign Relations of the Senate;

(B) the Committee on Armed Services of the Senate;

(C) the Committee on Foreign Affairs of the House of Representatives; and

(D) the Committee on Armed Services of the House of Representatives.

(a) IN GENERAL.—Not later than one year after the date of the enactment of this Act, the Director of the Peace Corps shall submit to Congress a report on strategies to reasonably and safely expand the number of Peace Corps volunteers in Oceania, with the goals of—

(1) expanding the presence of the Peace Corps to all currently feasible locations in Oceania; and

(2) working with regional and international partners of the United States to expand the presence of Peace Corps volunteers in low-income Oceania communities in support of climate resilience initiatives.

(b) ELEMENTS.—The report required by subsection (a) shall—

(1) assess the factors contributing to the current absence of the Peace Corps and its volunteers in Oceania;

(2) examine potential remedies that include working with United States Government agencies and regional governments, including governments of United States allies—

(A) to increase the health infrastructure and medical evacuation capabilities of the countries of Oceania to better support the safety of Peace Corps volunteers while in those countries;

(B) to address physical safety concerns that have decreased the ability of the Peace Corps to operate in Oceania; and

(C) to increase transportation infrastructure in the countries of Oceania to better support the travel of Peace Corps volunteers and their access to necessary facilities;

(3) evaluate the potential to expand the deployment of Peace Corps Response volunteers to help the countries of Oceania address social, economic, and development needs of their communities that require specific professional expertise; and

(4) explore potential new operational models to address safety and security needs of Peace Corps volunteers in the countries of Oceania, including—

(A) changes to volunteer deployment durations; and

(B) scheduled redeployment of volunteers to regional or United States-based healthcare facilities for routine physical and behavioral health evaluation.

(c) VOLUNTEERS IN LOW-INCOME OCEANIA COMMUNITIES.—

(1) IN GENERAL.—In examining the potential to expand the presence of Peace Corps volunteers in low-income Oceania communities under subsection (a)(2), the Director of the Peace Corps shall consider the development of initiatives described in paragraph (2).

(2) INITIATIVES DESCRIBED.—Initiatives described in this paragraph are volunteer initiatives that help the countries of Oceania address social, economic, and development needs of their communities, including by—

(A) addressing, through appropriate resilience-based interventions, the vulnerability that communities in Oceania face as result of extreme weather, severe environmental change, and other climate related trends; and

(B) improving, through smart infrastructure principles, access to transportation and connectivity infrastructure that will help address the economic and social challenges that communities in Oceania confront as a result of poor or nonexistent infrastructure.

(d) OCEANIA DEFINED.—In this section, the term ''Oceania'' includes the following:

(1) Fiji.
(2) Kiribati.
(3) The Republic of the Marshall Islands.
(4) The Federated States of Micronesia.
(5) Nauru.
(6) Palau.
(7) Papua New Guinea.
